BEEVILLE CAR ACCIDENT KILLS DEPUTY SHERIFF'S SON

Larry Wayne Carter, 21, son of Mr. and Mrs. Wayne L. Carter of Plains, a Navy serviceman stationed at Chase Naval Air Station in Beeville, was killed in a car accident about 15 miles out of Beeville Monday night.

Larry had been to San Antonio and was returning to Beeville when there was a near-head-on collision at a curve .4 mile south of Pettus in Bee County on U. S. 181.

Injured and in critical condition at a hospital in Beeville is John Edward Cook, of Waco. Larry Wayne was killed instantly.

Larry Wayne was born in Houston and graduated from high

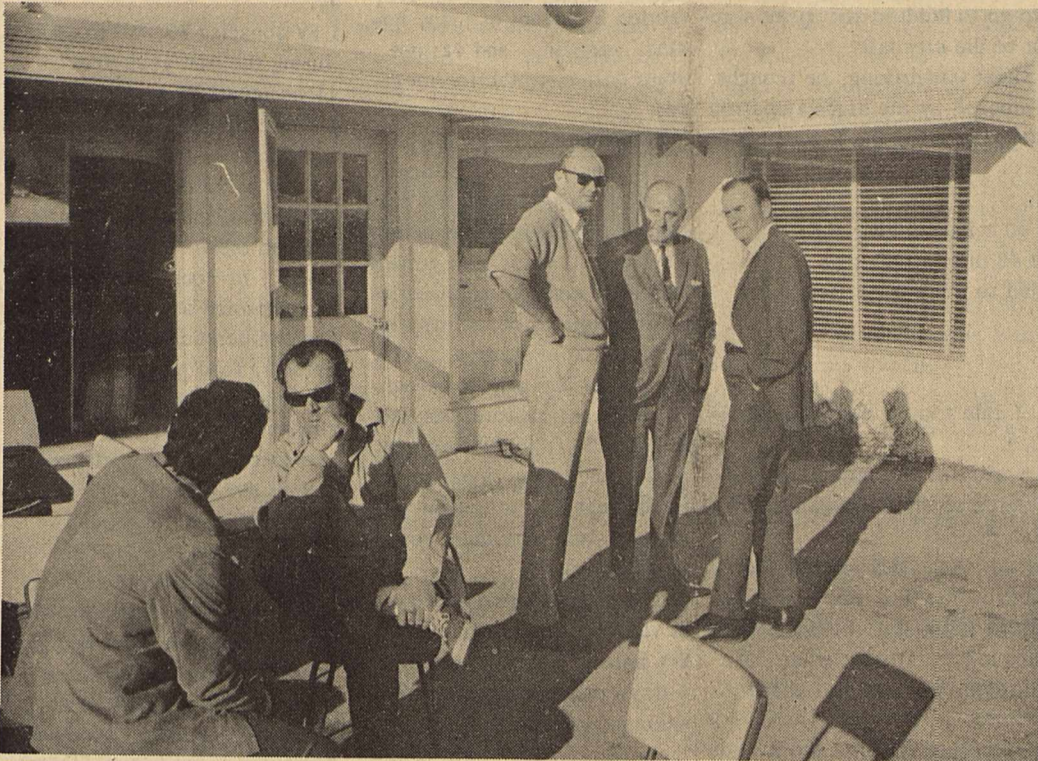

school there. He enlisted in the Navy in November, 1967.

Funeral services were held at 3 o'clock in the First Baptist Church, Wednesday. Funeral arrangements were under the direction of Barrett Funeral Home of Plains with burial in the Plains Cemetery.

He is survived by his parents, Mr. and Mrs. Wayne L. Carter of Plains; two brothers, Randy and Chris; and a sister, Trudy, all of the home; his grandpare-

nts, Mr. and Mrs. M. S. Weed of Plains, and a great grandmother, Mrs. Ann Elizabeth Hobson of Lubbock.

Mr. Wayne L. Carter is Deputy Sheriff of Yoakum County.

Pictured from (L-R) is Joe Sollish, Les Collins, Harold Holloway, Wyatt De Loache and George Neilson.

CITY REPAIRS WATER TANK

In an inspection of the City water tower a few weeks ago, it was discovered that the inner coating of the tank was badly deteriorated and that many large rust spots had appeared. Engineers from the Water Service company of Pleasanton, Texas, were called in and an entrance into the side of the tank was cut. Through this entrance a closed circuit television viewing was made of the interior of the entire tank. Following the viewing several of the city council and the mayor proceeded to climb the tower, enter the tank and make a close inspection. The result was that a contract was let to the above named company to sandblast and recoat the interior of the tank. The amount of this contract was \$1,995.00.

May seriously eroded patches were found in the metal of the tank and the council found it advisable to have these repaired by welding them. The Water Tower Service Company brought in the equipment necessary for the job.

Two trailers are used to house the working equipment. One consists of an office and the television equipment, a small work shop and a large room which houses two compressors and a large power unit to drive the compressors, and two welding units. The other trailer carries a large work shop and the sandblast equipment which is necessary

part of the equipment necessary for this job.

The compressors and the sand tank remain on the ground at the base of the tower. The sand is blown through hoses to the tank. Sufficient hose is required to reach the top of the tank and allow for maneuverability of the blasting nozzles. An elevating platform is set up inside the tank for the workmen enabling them to reach all parts of the tank.

When the sandblasting and welding is completed a new

type of coating will be sprayed on the surface. This coating is very thin and durable yet never becoming hard and cracking and sufficiently flexible to expand and contract with the metal.

This repair job incurs a considerable amount of money but carries a ten year guarantee and is a comparative small expenditure as compared to the cost of a new tank. It is fortunate that the condition of the tank was discovered at this time.

NFO HOLDS BARBECUE

The Plains school cafeteria was the scene for a fine barbecue sponsored by the local NFO. The barbecue was catered by the County-Wide Home Demonstration Clubs. Meat from Underwood's Cafeteria of Lubbock was served. All the other foods such as salads, desserts and pickles were supplied by the women of the Home Demonstration Clubs. It was a group of happy people who gathered for the festival and approximately 275 or 280 people were served.

Ron Crist and Jerome Friemel, both of Hereford, who outlined the NFO program for the Plains' folk at the first meeting with the NFO were in charge of the program for the evening. Ron and Jerome are just a couple of good friends of farmers who are members of the Deaf Smith chapter. They are enthusiastic a-

bout the progress that the farmers of Deaf Smith have made under the organization of the NFO. They feel a need for the extension of the organization to surrounding counties and communities. Being well acquainted with the functions of this organization, they bring a very interesting and educational program on their trips to Plains.

The Plains' farmers feel a need for organized and concerted efforts to improve their own marketing situation, have welcomed the NFO into this community. Now having sufficient membership, the Plains group have organized a grain marketing committee and a grain marketing committee has been appointed. While it is late in the season for any effective organized action on this year's grain crop

The "Permasep" Division of the Du Pont Company, who are owners of the Plains water treating plant are again making a moving picture on location here in Plains. For this production, the Du Pont Company has brought together the production company of Jenkins-Covington, Inc., and the BBDO Advertising Agency of New York City. Mr. Hill Covington, director, and Mr. Manny Scheffer, production manager, are on location here for Jenkins-Covington, Inc., BBDO Advertising Agency is represented by Joe Sollish, Vice President, as associated creative director. Mr. Sollish is extensively experienced and an accomplished director in TV commercials, having received many outstanding awards for his work, also Les Collins, Vice-President and senior producer of the BBDO Agency, has also a broad experience in national TV commercials.

Present here this week from the Du Pont Company for the making of the commercial are George Neilson and Wyatt De

Loache from the public relations' department, and Harold Holloway of the marketing division for "Permasep."

The purpose of this film is a corporate commercial to emphasize Du Pont's capabilities in science and technology as emphasized by "Permasep" permeators. It was stated by company officials that Du Pont expects to be on TV with this commercial early in 1970 but plans at this time are not definite, as it is impossible to set a definite date as the networks have not been finally announced. However, Du Pont officials gave assurance that Plains would have an advanced notice of the first date and the networks on which the "Permasep" commercial will appear. It is expected that the commercial will appear several times, but the definite number of runs is not known at this time.

Not everyone photographed for the commercial can expect to appear in the final film showing as the picture will have to be edited, cut and revised to fit the allotted time. No one

should be disappointed if they fail to appear in the final commercial.

The location for the commercial, which is expected to have a western atmosphere, will be Bob Blundell's "Longbranch Cafe." The Longbranch was a very busy and active place Tuesday and many cars were parked about the location as many of the local people gathered at the cafe for the casting of the characters for the film. With the casting completed Tuesday, the filming Wednesday morning was still in process at press time. Filming of motion pictures is a new experience for Plains and it has created much pleasant interest and excitement. Such occasions are heartily welcomed by the local residents.

Besides the economic boost and pleasant soft water supply afforded the City of Plains, the Du Pont Company has publicized the city to the extent that other industries should be invited.

BAND BOOSTER NEWS

The band booster's met Monday night October 6th. There were 12 members present. We now have 98 members to our organization and we would like to thank each one who has purchased a membership card. We would like to encourage you to come to our next meeting which is November 3rd at 7 p.m. in BAND HALL.

We will have a CHILI SUPPER November 7th in the school cafeteria. The time will be from 5:30 to 8:00 p.m. Prices are \$1.00 for Adults and \$.50 for children under 12. Please come and enjoy a good meal before attending the ball game.

The cold weather football stadium "SNUGBUGS" are now being sold by the BOOSTERS. These are a quilted nylon bag, with elastic around the top and a zipper down one side for easiness of getting into. They are large enough for easy sitting and yet are warm and comfortable. You will surely want one to keep your legs warm and free from the weather. These are GOLD colored. The price is only \$12.50. You can call either of these numbers and place your order - Mrs. R. M. Carothers, 456-4131 or the FARM BUREAU OFFICE, 456-2929. You can also pick these up at the Farm Bureau office between 8:30 and 5 p.m. Except the noon hour. There will be orders excepted at the bank, also. One of the SNUGBUGS will be on display at the bank, if you would care to see them before you buy. Now do not let the price fool you, these retail at other stores for \$15 plus tax. If you will come by and see, we know you will want to BUY.

Thank you for your purchases of the DECALS. We do appreciate what each of you have done. There will be DECALS kept at the Library for those wishing to purchase one later.

BLIND-MADE PRODUCTS

The Plains Lions Club will conduct an all-out drive on Thursday, October 16, 1969 to sell quality blind-made products to residents and local businesses, according to an announcement made today by Lion D. N. Taylor. The articles are all manufactured in the Lighthouses for the Blind which are located throughout the State of Texas.

The entire membership of the Lions Club has been organized to supply friends and neighbors with this quality merchandise delivered right to their homes. Every household can use some type of household cleaning aid and every item sold helps some blind person to help himself.

Sales of Blind-Made Products held by the Plains Lions Club in previous years have been most successful and Lion D. N. Taylor expressed his confidence in another successful sale this year.

OFFICE OF THE MAYOR CITY OF PLAINS PROCLAMATION

WHEREAS, the Lions Club is holding its Annual Sale of Blind Products on October 16, 1969, to support its deserving community projects.

WHEREAS, members of this organization are going from door-to-door in our city selling these quality articles, all of which are manufactured by skilled blindcraftsmen, to raise funds for the Plains Lions Club.

WHEREAS, this effort in behalf of an important and worthy cause merits city-wide attention.

NOW, THEREFORE, I, Roy A. Edwards, MAYOR OF PLAINS, do hereby proclaim Thursday, October 16, 1969, as, "FALL CLEAN-UP DAY", and

FURTHERMORE, I DO HEREBY PROCLAIM THURSDAY, OCTOBER 16, 1969, AS "BROOMS FOR SALE DAY".

BULLDOGS DEFEATS COWBOYS 19 TO 14

Specators at the Plains stadium last Friday night were fetted to a fast, furious and hard-fought game. With both grandstands well filled, the Tahoka Bulldogs and the Plains Cowboys treated the spectators to a tense and exciting entertain-

ment. Both teams played a fast and tenacious game. It was not until the first play in the second quarter when Tahoka ran their first touchdown that either team scored. From here on throughout the game it was nip-and-tuck. Tahoka scored another touchdown in the second quarter but failed to kick for the point. On the kickoff following this touchdown, John Lowe received the kick and returned the ball for a spectacular 35 yards. Plains lost the ball to Tahoka and the Bulldogs pressed the play to the 35 yard line, and Plains recovered. The Cowboys were able to march across the field with two long runs and two successful passes, scored a touchdown and kicked the goal point with only a few seconds left in the first half.

The Cowboys came on strong in the second half. A long pass from Livesay to Jeff Isham resulted in a 75 yard gain and the second touchdown for the

Cowboys. The kick for the extra point was successful and the score board now showed the Cowboys 14 and the Bulldogs 13. The Plains spectators rose in unison and the crowd went with enthusiasm as the Cowboys took the lead. The game was evenly matched from this point and it appeared that the Cowboys would protect their lead, until the last thirty seconds of the game when the Bulldogs completed a beautiful pass and ran for a touchdown. Plains received the kick and quickly carried the ball into scoring position but the clock ran out and the final score was Plains 14 to Tahoka's 19.

Both teams played a fine game and a clean one. Penalties were at a minimum. No one could question the fact that they had been thoroughly and continuously entertained throughout the entire game.

Coach Warren has done a wonderful job with these Plains boys in a very short time. The boys are light and young as compared to the other conference teams, and will have difficulty on the ground. But, the coach is successfully leading

them into the air. They have completed more than 50% of their passes in the last two games. This ability may compensate for the lack of weight and result in quite a successful season for the Cowboys.

Coach Warren was enthusiastic in his praise for the spirit and fight displayed by his team last Friday night. The game this Friday night at Sudan promises to be another exciting event and all fans and spectators will be well compensated for their trip to Sudan in support of these high spirited Cowboys.

YOAKUM COUNTY CO-OP GIN'S 1st BALE

Yoakum County Co-Op Gin received its first bale of cotton, Saturday afternoon, October 4th when A. O. Bearden delivered 1,950 pounds of seed cotton, which ginned 590 pounds of lint and yielded 950 pounds of seed. Closely following Mr. Bearden was Joe Ancinec with 2,050 pounds of seed cotton which yielded 575 pounds of lint and 950 pounds of cotton seed.

Forrest Spencer checking to see if everyone is enjoying themselves at the gin barbecue.

TERRY COUNTY CO-OP GIN HOLDS BIG BARBECUE

Two hundred and fifty people were fed in about two hours at the barbecue held at the Terry County Co-op Gin, 1 mile north of Tokio, last Saturday. The festivity was catered by the Turner Home Demonstration Club using sliced barbecue beef prepared by Underwood's of Lubbock. The beef cooked to perfection with the boiled red beans and potato salad made a very delectable meal.

The dinner was served buffet style inside the front entrance to the gin. Tables were set around the various machinery of the freshly renovated and newly painted equipment which furnished a very appropriate setting for a gin barbecue. A happy harvest atmosphere prevailed as the many patrons and visitors feasted and discussed their problems of the recent season and their expectations for the coming harvest.

Forrest Spencer, Gin manager was kept quite busy as he mopped about the crowd greeting

everyone and seeing that everyone was fed. Clyde Trout enlivened the spirit of the happy get-together as he passed out dividend checks to those who ginned here last season.

After the dinner hour the crowd was assembled in the gin and a drawing was held for floor prizes to be given away for the lucky ticket holders. The first name to be drawn was that of Homer Sudduth who received a three-eights electric drill, Joe Trout was the lucky 2nd winner for a socket wrench set, Amando Rodriguez followed winning an electric toaster and Sandy Watson finished the drawing by winning a lovely stainless steel silver set.

Following the drawing the Co-op members gathered in front of the new gin stands and held their business session and election of directors. They voted to retain I. W. Lovelace whose term was to expire, Wayne Bagwell was elected to fill the vacancy caused by the death of J. C. Meeks, and George Kempson was elected to the other position on the board. Clyde Trout and Raymon Smith are the other members of the board but did not come up for election this year.

Many changes have been wrought at this gin-sight since Mr. Spencer came into its possession in 1956. A new building was built on the present location which also said that if this was a test of this year's cotton crop, that a very fine surprise was in store for the farmers of irrigated cotton in the Plains area,

which is north of the old one and the equipment moved in and the old building removed in 1959. Since that time Mr. Spencer has been constantly improving this gin by adding new and modern equipment. This year new gin stands of 12 bale an hour capacity were added, the overhaul work is completed and the gin stands ready to open the new harvest, in a spick and span condition. Mr. Spencer is a well experienced ginner having been raised up in the ginning business in south Texas before coming to west Texas. He is a member of a ginning family.

His father operators the Pleasant Hill gin Company at Pleasant Hill, 9 miles south of Tokio in Yoakum County and Weldon, his brother, is operator of the C G & S gin 12 miles north-east of Plains. Forest is pleasantly optimistic about this year's crop, he stated, that he ginned 4,000 bales last year and in spite of the summer's drought he expects to do as well this year.

WEATHER REPORT

Another fine week of pleasant weather was enjoyed by the Plains folk this week. While summer temperatures were experienced in the daytime, the night time temperatures are gradually creeping lower and bordering on the frost line. High for the week, 91° Average high, 79° Low for the week, 37° Average low, 48° Precipitation, trace

PLAINS GOES ON THE AIR

Once again the small county seat town of Plains, population 1000, is brought to fame by the mighty Du Pont Company. The year of 1969 saw Plains jump to world fame when the E. I. Du Pont De Nemours & Company constructed the world's largest reverse osmosis desalination plant known as "Permasep" permeators in the world, in this small county seat town. While this is a research project belonging to Du Pont, it inculturates the entire water system of the City of Plains.

While Du Pont is researching and developing its "permasep" permeators, it is desalinating and softening the extremely brackish water which constitutes the entire city water supply.

Early in June of this year, a motion picture was made entitled "Better Water For Better Living" describing the advantages of good water and demonstrating what it means to people in an every day life. Scenes of this motion picture were filmed here in Plains using local people as actors and actresses, the local water treatment plant being the central theme. This film was shown in connection with the dedication of the Plains Treatment Plant on August 19th.

The City of Plains was again treated to fame and world-wide notoriety when the Du Pont Company, after the completion of installations and thoroughly testing, put the plant into operation in conjunction with the city water system and dedicated it on August 19th, 1969. This dedication brought to Plains many prominent officials of both government and industry from various parts of the United States. This dedication was televised over local channels and publicized by the largest newspapers in the State of Texas, by the United Press International and Associated Press, as well as being carried by the Du Pont magazine, "Better Living" which is circulated throughout the world.

Plains again comes to public notice this week as the Du Pont Company constructs a corporate TV Commercial to be shown over the national networks later this year. The commercial being made on location here in Plains will use all local talent.

LIONS HEAR REPORT

The Lions Club dinner hour last week was well attended in spite of the fact that several members were out of town at the time. A fine dinner, catered by Alma's Restaurant, was enjoyed by all. Following the dinner a very interesting and informative program was afforded. Dianne Fitzgerald reported on the Girls State and Jerry Brian reported on Boys State meetings, which they attended at Austin during the month of June.

These Boys' State and Girls' State meets are an arrangement whereby High School students from all parts of the state gather at Austin for a weeks study of the processes of government functioning. It covers everything from party government to the election of officers from precinct to state officers. The students actually act out this entire process as it exists in our state government. It is termed "learning by doing".

Jerry was sponsored by the Plains American Legion Post and Diane represented the local

Legion Auxiliary and was sponsored by the Tsamoga Club of Plains. Each made a fine talk relating their experiences and some of the high points of their relative meetings. The deep interest in government and the sincere spirit of patriotism which was inspired in these young folks was impressive.

Dianne and Jerry were comfortable before the audience and both spoke with freedom and confidence as well as oratorical ability. Seeing these youngsters in action certainly dispels the doubts for our future generation.

The speakers were introduced by Plains School Superintendent, Mr. G. D. Kennedy. In his introduction Mr. Kennedy stated that these were two of the finest students in the Plains School.

WITH THE PUBLISHER

No life is so strong and complete but it yearns for the smile of a friend." Wallace Bruce

Wouldn't it have been amusing if some good Plains' friend of Skeet Robertson would have had to go to Ruidoso and speak a good word for Skeet and get him out of the city jail?

Upon a recent visit to Ruidoso, Skeet was driving, he thought, at a safe speed; however, he was stopped by the highway patrol of New Mexico, and the conversation between the two men went something like this:

Patrolman: "You were speeding."
Skeet: "No, I was only driving 50 miles an hour."
Patrolman: "Yes, 50 miles in a 40 mile speed zone."
The highway patrolman proceeded to write out a ticket for Skeet and handed it to him.
Skeet: "How much is it?"
Patrolman: "\$15.00."
Skeet: "Thank you, thank you, I didn't know that New Mexico paid Texans to visit their state."
Patrolman: "Don't you get smart with me or you will spend the night in the jail. Go to the Justice of the Peace and pay him \$15.00 for your speeding ticket."
Skeet decided it was time to put all jokes aside as he couldn't see himself spending a night in the New Mexico jail. Good for you Skeet; however, I can sympathize with you. I have seen Texans receive a ticket many times in New Mexico when the natives were doing or had made the same mistake just ahead.

The Plains Garden Club's flower show last Saturday was a great success and it is hoped that you were there to behold the many beautiful arrangements. If you didn't you missed a great show. However, the most interesting arrangement to me was the beautiful careless weed that Mr. Bill Overton had grown among Mrs. Overton's flowers. Mrs. Overton had taken the weed, cut it off to 3 or 4 feet, trimmed the leaves about one inch from the stem and placed it in an arrangement. Seeing it, you would have thought that Mrs. Overton had some exotic flower unknown to West Texas in the arrangement. It was beautiful. Isn't it a wonderful gift to be able to make beauty out of ugliness? If each and everyone of us could always find the beauty in every situation, this world would be a far happier place to live. Regardless of the circumstances, there is always something to be thankful for.

Among the many cultured and varied arrangements there were also bouquets made from our West Texas wild flowers. West Texas has many beautiful wild flowers in the spring and autumn, and it is amazing how beautifully they can be cut and made into bouquets.

Jenkin Lloyd Jones, president of the Chamber of Commerce of the United States, has observed that today's dollar is worth only 27 cents compared to the 1913 dollar, and if the present five percent rate of inflation continues, in 25 years, it will be worth only "a 1913 dime." He blames the inflationary trend on deficit spending by the federal government, wage-gouging by government-favored labor unions, and federal money sought by "chamber of commerce types--for, alas, we are human, too

"God gave us two ends, one to sit on and the other to think with. A man's success depends on which he uses the most. It is a case of heads you win, tails you lose."

HIGHWAY PATROLMAN SCHOOL

Due to the rising traffic deaths and crime rate, the Texas Legislature has authorized an additional increase of manpower in the uniformed ranks of the Texas Department of Public Safety.

In carrying out this authorization a call was issued today by Major C. W. Bell, Regional Commander of the Texas Department of Public Safety for this area, to young men to fill a 120-man training school beginning October 21, 1969.

Major Bell states that two inducements have been authorized by the Legislature to help fill the uniformed ranks of the Texas D. P. S. First, the salary during training has increased to \$525 per month; secondly, upon graduation the salary has increased to \$630 per month.

QUALIFICATIONS

Applicants must be between the ages of 20 and 35, a height of not less than 68 inches, a weight of not less than two pounds per inch of height or more than three and one-half pounds per inch of height, and be in sound physical condition. They must have completed high school or the equivalent. They must be a citizen of the United States and be of good moral character.

Those selected will take their basic training at the Texas D. P. S. Law Enforcement Academy in Austin. The training period is approximately four months in length. Upon graduation the patrolmen will be assigned to one of the four uniformed field services--Highway patrol, License and Weight Motor Vehicle Inspection, and Drivers License.

BENEFITS RECEIVED

Two weeks vacation annually, 12 or more holidays each year as provided by the Legislature, 12 days per year sick leave which may accumulate to a maximum of 36 days, \$10 per month added to salary at the end of each five years of service, to a maximum of 25 years, a modern liberal retirement system based on age and/or years of service, social security benefits, traveling expenses when away from assigned station as prescribed by law, group hospitalization and life insurance plan available, uniforms and the necessary equipment to perform duties furnished.

TRAINING

The training of a patrolman is a test of an individual's intellectual, emotional, and physical stamina. It is also an educational process which prepares him for one of the most self-satisfying careers in public service--law enforcement.

During the course of their study at the Law Enforcement Academy student patrolmen are given intensive training in sub-

jects such as: Criminal and Traffic Laws, Accident Investigation, Court Procedures, Criminal Interrogation, Narcotics, Traffic Supervision, Professional Driving, Firearms Technique, and First Aid Training, or any one of the approximately 100 subjects that comprise the training program.

In addition to the classroom work they are taught self-protection by means of judo, boxing, wrestling, and various other police-protection methods.

REWARDING SERVICE

The very nature of police work is demanding on the patrolman, but it is also very rewarding. It deals with getting people to conform to the rules and regulations of society with a minimum of friction. The patrolman is taught to recognize and control situations that might arise from dealing with people under emotional stress. He is prepared for dealing with unusual situations under adverse conditions.

The patrolman's duties are as varied as the geography of the state in which he patrols. A day's duty may consist of tracking a tornado in the swirling sands of West Texas or rescuing a stranded citizen along a hurricane swept coastal area. It may involve the high speed pursuit and apprehension of a flagrant traffic law violator or wanted criminal.

His duties may also consist of accident investigation, directing traffic, regulating truck, traffic, motor vehicle inspection, and testing applicants for a drivers license. Also, by his presence on the highways, the patrolman has the opportunity and duty of assisting motorists in distress, whether it be helping change a tire or rendering first aid to someone critically injured in an accident--this aid often being the difference between life and death.

Because of the short time remaining to test applicants, immediate inquiry is urged for young men to contact the nearest D. P. S. office or patrolman.

LIONS

The Lions Clubs of Texas have a long reach, and the good their members do extends far beyond the borders of their state. Today, the words "Texas" and "Lions" carry a special meaning to men, women and children burdened with a heritage of centuries of poverty.

By donating \$6,230 to CARE during the past year, Texas Lions have contributed to the welfare of many needy people around the world.

They provided aid to the needy sick of three continents through MEDICO, a service of CARE. In Hong Kong, they co-sponsored a school gardening competition aimed at increasing food production. They supplied materials to build three new schools in Honduras and also built and equipped a school in Guatemala.

Lions Clubs throughout the nation contributed \$147,666 to help support CARE projects in 23 countries. Farmers were provided with seeds and hand tools; school children were given school supplies; the tools of the trade were supplied to carpenters, masons, shoemakers, auto mechanics and other skilled craftsmen; midwives were equipped with modern, sanitary supplies to deliver healthy babies; seamstresses were given sewing machines.

In all, Lions built 81 schools last year and provided school desks for more than 1,600 children, installed water systems in four Central American villages, and an artesian well in the Philippines. Lions aided the blind of India, Pakistan and Ceylon by providing educational aids, Braille typewriters and duplicating machines.

ANNUAL TEXAS STATE GENEALOGICAL CONVENTION

County, church, and family historians are invited to attend the annual Texas State Genealogical Society Convention, November 28 and 29, (1969) in San Antonio's St. Anthony Hotel, which will be a Conference on Personal and Historical Papers.

Paul F. Royall, General Secretary, Genealogical Society, Salt Lake City, Utah, will discuss the 1969 World Conference on Records and Genealogy.

Dr. Dorman H. Winfrey, Texas State Librarian, will speak on "The Mirabeau Buonaparte Lamar Papers."

Dr. Joe B. Frantz, director, Texas State Historical Assn., will discuss "The Lyndon Baines Johnson Papers."

John Insley Coddington of Bordentown, New Jersey, a founding fellow, Society of Ameri-

can Genealogists, will speak on "Royal and Noble Families." He is a former member of the faculties of Swarthmore, Harvard, Olivet and Haverfore College.

Anyone interested may attend and receive a Convention folder by writing TSGS President and Editor, Mrs. Edna Perry Deckler, 2528 University Drive, Fort Worth 76109.

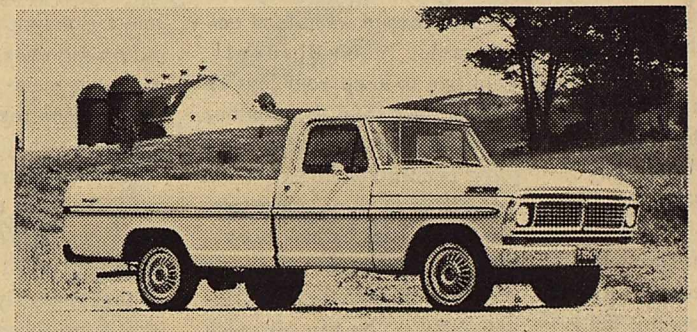

The San Antonio Genealogical and Historical Society will be host for the Convention.

The Texas State Genealogical Society is a non-profit educational corporation of the State of Texas, founded in 1960, in Fort Worth. In addition to the State Society there are 54 independent local history and genealogy societies in Texas. STIRPES, the TSGS Quarterly magazine, named for an old legal term meaning "family root," has a circulation of 8,000 here and abroad. It publishes genealogical material with emphasis on the Republic of Texas era, 1836-1846, and is preparing A DIRECTORY OF THE CITIZENS OF THE REPUBLIC OF TEXAS.

★ Sudie Thompson CHDA Says...

Did the sun shine at your house last Christmas?
According to a cheerful superstition, a sunny Yule means a large apple crop. So if this year's apple crop is any sign, last Christmas must have been a bright, cheerful day all over the county.

Apples are among the most versatile of fruits. They fill the bill when a firm, crisp addition is needed for a salad. They can be deliciously combined with cooked turkey, chicken, beef, lamb, veal, pork, tuna, salmon and other fish and seafoods.

When cooking apples, remember to spare the water. Apples have a high "natural" water content and will become too soft and lose their form if special care is not taken to prevent the apples from sticking and scorching.

Flavor varies in apples and depends on the stage of maturity at the time they were picked. Immature apples lack color and usually poor in flavor. They may have a shriveled appearance after being held in storage.

APPLE SAUSAGE ROLL UPS are perfect for brunch.
1 pound bulk sausage
2 cups diced apples
2 cups bread crumbs
1 small onion, diced

Spread sheet of waxed paper over working surface. Roll or press sausage into a rectangular shape, about 1/2 inch thick. Combine apples, bread crumbs and onions. Spread mixture over sausage. Roll up as a jelly roll. Place roll in baking dish and bake in 350-degree oven for 45 minutes. Serve hot with rolls.

APPLE JUICE SALAD DRESSING. Fruit salads are particularly delicious with this topping.
1/4 cup sugar
2 tbs. cornstarch
1/4 tsp. salt
Juice of 1 lemon
1 cup apple juice
1 egg, well beaten
1 3-ounce package cream cheese

Combine dry ingredients, add fruit juices and blend. Cook over hot water about 20 minutes, stirring frequently. Quickly stir some of the hot mixture into the well-beaten egg, then add egg mixture to remaining cooked portion. Return to heat

H.P. (PED) READ RITES HELD TUESDAY

Funeral services were held Tuesday at 2 p.m., at the Presbyterian Church in Deport, Texas for H. P. (Ped) Read, who died unexpectedly at his home Sunday morning about 9 o'clock a.m. His pastor, Rev. Charles Goodson of the First Baptist Church, Deport, the Rev. Paul Campbell of Paris and former Deport pastor, and Rev. Sam Rice, pastor of Deport Presbyterian Church officiated. The Grant Funeral Home was the director of burial arrangements in High and Cemetery.

Ped, the son of I. L. and Margaret (Woodard) Read, was born in Deport, Texas, December 3, 1898. He was married to Ruth Boyd, in 1926, daughter of F. L. Boyd, Yoakum County's first County & District Clerk. He is survived by his wife, Ruth, one son, H. Ped Read of Houston, one daughter, Mrs. Doyle Adair of Houston, and five grandchildren, two brothers, Bob Read of Deport, Farris Read of Dallas, and one sister, Mrs. Al Herndon of El Dorado, Arkansas.

Mr. Ped Read was at his home at the time of his death. His wife, Ruth, had returned to Houston where she teaches school. Neighbors who came by his home reported the death.

7th & 8th WINS

The eighth grade Wranglers met the Sudan Homers in a hard hitting low scoring game. This team was one of the teams that the Wranglers had beaten last year, and they felt like doing it again.

The game started off good, and it seemed as if the first half was in favor of the Wranglers. They started their drive on their own 45 yard line. The Wranglers kept driving until Mike Blount ran a six yard play which led to the only touchdown of the game.

In the second half everything just seemed to turn around. The Wranglers started to get paralyzed and the Homers' offense began to move better than in the first half. At one time, the Homers' offense was on the Wranglers one-yard line with a first down, but the Wranglers held them to take possession of the ball after a fumble on the third down.

The Wranglers played a great game, which led them to their first win. Those players

recovering fumbles or intercepting passes were Daniel Herrera, Mike Blount and Jimmy Brown. The final score was Wranglers 6, Sudan Homers 0.

The Wranglers would like to give their appreciation to the 7th and 8th grade Pep Squad for going out and supporting the Wranglers.

The Plains 7th Grade Wranglers defeated the Sudan Homers 24-0. The scoring for the 7th Graders came on an end run by Ceth Lewis from the 5 yard line; Weldon Nelms made two touchdowns on end runs, one from the 20 yard line and a 40 yard run; Alfredo Guera then ran the last touchdown right up the middle on a 35 yard run.

The Wranglers defense held the Homers and they made no touchdowns. During the game two punts were blocked, one by Troy Wilkins and recovered by Donald Gilliam and the other by Alfredo Guera who recovered it on the 2 1/2 yard line. The defense recovered two other fumbles. One was by Rickey Bearden and the other by Alfredo Guera. The lo-

ngest play against the Wranglers was one of about 25 yards.

The Wranglers would like to invite you to the next ballgame at home which will be against O'Donnell on October 23rd at the Cowboy field. The game will start at 5:00.

STORY HOUR

Those reading to the little ones this week were Neal Bearden and Weldon Nelms. The boys entertained the group with stories and closed with the group saying in unison the "Pledge of Allegiance". To Neal and Weldon's surprise Johnny Solesby, a little preschooler, could say almost all of the allegiance without help. Those attending storyhour this week were Denny and Judy Cogburn, Johnny Solesby, Michael Houck, Doug and Russell Warren, Christy Barron, Selanie and Natalie Streetman, and Charmaine and Shirley Cox. All pre-schoolers are invited to attend storyhour each Thursday morning at 9:30 a.m. in the library on the courthouse square. The 7th grade class is helping to entertain the little ones.

ASCS

By W. M. Overton

Form A cotton loans will be available for all cotton producers earning cotton payments under the 1969 cotton program in the same manner as in past years. For 1969 the county office is required to collect a service charge of \$1 for each Form A loan plus 15 cents per bale on every loan regardless of where the loan papers are prepared. This charge will be deducted from the amount of the loan and is in addition to the clerk's charges, if any, and the \$1 Research and Promotion Fee. A pamphlet was mailed to all operators of cotton farms explaining the loan program and the pamphlet should be carefully read and filed away for future reference.

According to W. M. Overton, local ASC Office Manager, the loan rate for midling one inch cotton stored in the surrounding counties is 20.20 cents, the same as under 1968 program. All Form A loans are handled through the ASC office. Form G loans will be made through cooperative marketing associations as under past programs. Under last year's program approximately 11,500 bales of cotton was placed under Form A loan in Yoakum County and of this number 1270 bales were redeemed. 1969 Form A loans will mature on July 31st, 1970. The Form A loan records will be maintained in the county office and may be redeemed at any time by paying the principal plus interest by maturity date. PRODUCTION RECORDS: Many farmers have not filed with the county office the production records for one or more of the years of 1966, 67 and 68. All operators are urged to file production records so that the county committee and other farmers helping with yield work may do the best job possible in setting a fair yield for county farms.

BARBECUE From Page 1

The local organization being formed at this time will have ample time to prepare for the next year's season.

The next meeting of the NFO will be at 8:30 p. m., at the Plains District Court Room on Tuesday, October 14th. All farmers are invited to attend this meeting and obtain a better understanding of its functions and purpose.

BLENDERS

Most blenders operate best if the container is two-thirds or less full.

For thick mixtures fill the container only half full. For thin, free-flowing mixtures, the container can be three-fourths full.

To clean the blender fill the container half full of water, add a few drops of detergent. Operate for an instant, rinse and dry.

PROGRAM

Librarians, trustees of public libraries, and others interested in community library development are invited to a workshop that will be held on October 21, 1969, in the Gillham Room of the Savings and Loan Building of Brownfield. The session that begins at 9:00 a. m. will be devoted to record-keeping and routine administrative procedures in public libraries. The session beginning at 1:00 p. m. will be of particular interest to city and county officials as application for and administration of funds under Title I of the federal Library Services and Construction Act will be discussed. This title provides services and grants for materials to enrich public library services and collections.

The workshop is being hosted by the Kendrick Memorial Library in cooperation with the Field Services Division of the Texas State Library. Austin Hoover, Texas State Library Field Consultant for West Texas, will conduct both sessions.

WELCOME WORDS

BOMBAY, India (AP) — President Zakir Husain set a new record for speech making here — by finishing one with two sentences.

"I have already made three speeches and listened to 21 during the past two days," he told a conference.

lung 7 red ribbons and Mrs. Overton 4 red ribbons. Others exhibiting blue ribbon were Mrs. Foy Cogburn, Mrs. Neil Parks, Mrs. Robert Young, Mrs. Ray Bearden and Mrs. Harry Richardson. Second and third place awards were presented to Mrs. Jesse Dearing, Mrs. Glen Morehouse, Mrs. C. A. Stewart, Mrs. C. C. Perkins, Mrs. Wilson Duke, Mrs. D. D. Willis, Mrs. Foy Cogburn, Mrs. Neil Parks, Mrs. Robert Young, Mrs. Aubrey Altman and Mrs. Harry Richardson.

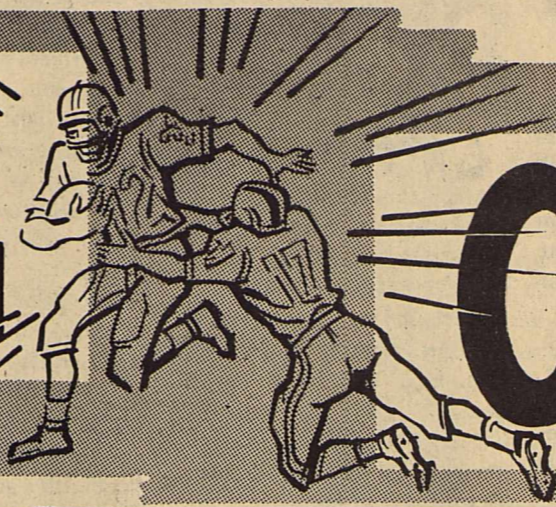

Mrs. Foy Cogburn received the Purple Special Creativity Award (that has to point score at least 95) for her blue ribbon arrangement in the Class entitled "The Great Golden Wheat Fields".

Horticultural Division Blue Awards were exhibited by Mrs. Jesse Dearing, Mrs. C. A. Stewart, Mrs. Neil Parks, Mrs. C. C. Perkins, Mrs. Ray Bearden, Mrs. Leon Lewis, Mrs. Foy Cogburn, Mrs. Sallie Forrest and Mrs. Aubrey Altman.

Second and third place awards were presented to exhibitors: Parks, Bearden, Young, Dearing, Forrest, Lewis, Perkins, Cogburn, Stewart, Mrs. Joe Thompson and Mrs. Bill Overton.

Judges used the Standard System of Judging which only allows one blue, one red, one yellow ribbon with more than one honorable mention in each class making it quite possible for all ribbons to point score more than 90 points, though a blue ribbon may not score less than 90 points, a red ribbon less than 85, yellow ribbon less than 75.
