

# The Plains Review

OUR 40th YEAR

PUBLISHED WEEKLY AT PLAINS, TEXAS.

THURSDAY, APRIL 2, 1970

10¢

A SERVICE TO THIS COMMUNITY.

## Saturday April 4th Election Day

Saturday, April 4th, will be election day for the City of Plains, the Plains Independent School Board of Trustees and County School Board of Trustees.

All incumbents in both the school board elections and city election are candidates for re-election. W. R. Nelms is seeking a position on the Plains school board of trustees, and F. W. Graham is a candidate for one of the positions of the City Council. James D. Vest will be contesting Gene Schoenrock for City Marshall.

The incumbents on the City Council who are seeking re-election are Thomas J. Bearden and T. J. Miller, and Roy Edwards for City Mayor.

The incumbents running for re-election on the County School Board are Jake Dupree of Denver City and Carl Lowrey of Tokio with one seeking their positions.

The incumbents running for re-election on the Plains Independent School Board of Trustees are Dickie Green, Ray Bearden, Billy Winn and Le Roy McCravy.

## A.E. McGinty Yoakum Co. Wagon Boss

Mr. A. E. McGinty has accepted the position of Wagon Boss for Yoakum County again this year for the annual West Texas Boys Ranch Round Up. Mr. McGinty has resided in Plains, Texas for the past 55 years. He is a member of the Lions Club, Roping Club, Masonic Lodge, 4-H Club, and Plains Rough Riders. He is also a member of the Yoakum County Farm Bureau and a member of the First Christian Church.

Mr. McGinty's wife, Lois, is a member of the Eastern Star. Mr. and Mrs. McGinty have four children: Kenneth McGinty (26), Sylvia Cayce (23), Alton McGinty (20), and Kathleen McGinty (15). West Texas Boys Ranch is proud to have Mr. McGinty back again this year.

## Livestock Ass'n

The meeting of the Livestock and Agriculture Improvement Association met Monday night, March 30th for their first meeting to make plans for next year's stock show. Approximately 80 or 90 people attended the meeting.

The meeting was called to order by President Gene H. Bennett. After reading of the minutes, a financial statement and report of conditions was given. The general fund had \$928.05 in it, and \$1915 in the championship fund.

The Plains State Bank, represented by Mr. Dick Carother and Cordell Huddleston, awarded checks in the total amount of \$466.50 to all exhibitors in lieu of purchasing a livestock project. County Agent, Leo White gave a report and resume of projects for 1970-71 show. He suggested that each project should be reported as soon as possible and that learning to feed and handle properly the calves and all animals properly early was a good way to get the calves used to being handled, thereby giving them an advantage at show time. Calves should be purchased in April for next February's show.

Films of the 1970 annual show and sale were shown and enjoyed by all. After a discussion of the money to be paid queen contestants, it was decided to pay them 10% of sale of tickets.

If the animals such as lambs pigs and calves are as many as 50 in each bracket, there will be a 10% sift; from 51-75, a 15% sift; 75-100, a 20% sift, and 101 and over, a 25% sift. It was further decided that sifted animals must be sold at floor. The ones that are disqualified must be sold at private treaty.

Officers and directors are as follows: Judge Gene H. Bennett, President; Pat Henard, Vice President; Kenneth Blunt, Secretary, and Joe Crump, Assistant Secretary. The directors were: Johnnie Fitzgerald, A. E. McGinty, Darrel Lindsey, Claude Addison, Ty Field, Virgil Kelly and Dr. Berry Squyres.

The next meeting will be held on April 27th, 1970 when final regulations will be announced. Prospects for the '71 show are good and an increase in the number of exhibitors is expected.

## "The Green Pastures"

"The Green Pastures" by Marc Connelly will be presented as a one-act play, Thursday, April 2, 7:00 p.m., at the Plains High School auditorium. The public is invited.

The play is an attempt to present certain aspects of a living religion in the terms of its believers. The religion is that of thousands of Negroes in the

deep South who adopted the contents of the Bible to the consistencies of their everyday lives.

The cast includes the following: Jan Kennedy; Jerry Brian; Mike Nugent; Gary Livesay; Lynn Fitzgerald; and Diane Fitzgerald. Crew members are Scotty Bayer, Judy Smith and Joetta Warren.

## Cowgirls Enter At Wink

The Plains Cowgirls ended the fun-games Tuesday night by downing the girls from Lamesa 15-5, 15-6. Saturday they journey to Wink for the District Tournament where the going becomes very serious as the Cowgirls start down the backstretch in hopes of capturing their 9th straight State Title.

The girls have won 16 games this year against such AAAA powerhouse as Midland Lee, Big Spring and Midland High and AAA and AA threats as Kermit and Phillips respectively. The Cowgirls have lost

4 games this year all in tournament play against much larger schools.

Against Lamesa the "B" team dropped its fifth loss of the year with only 3 wins. That game ended the season for the little Cowgirls, but according to the Coach Wanda Armstrong, "The girls did very well for their size and most of those losses were in split games, so next year, I will be pushing them to be another typical Cowgirl fighting, spiking, hustling group."

Pictured from L to R are the officers of the Plains F. F. A.: Tony Winn, Secretary; James Stewart, Chaplin; Gary Livesay, Reporter; Ronnie Rains, Treasurer; Bit Robertson, President; Jimmy Taylor, Vice President; and Rolan Taylor, Sentinel.

## F.F.A. Banquet

The annual F. F. A. Banquet will be held on Friday, April 3rd in the school cafeteria. Miss Gail Ancinec will reign as F. F. A. Sweetheart. Guest speaker will be Dr. Robert C. Albin, Associate Professor of Animal Science at Texas Tech University. He is a native of Follett, Texas, and has a B. S. and M. S. from Te-

xas Tech and a Ph. D. from the University of Nebraska in Animal Nutrition. Dr. Albin teaches both undergraduate and graduate courses, and conducts research in the areas of: Nitrogen and energy utilization of growing-finishing cattle and Supervises the feedlot research and graduate nutrition program. He is a member of Phi Kappa

Phi, Gamma Sigma Delta, Sigma Xi, Alpha Zeta, American Society of Animal Science and Plains Nutrition Council. Dr. Albin will speak on Opportunity in Animal Agriculture and an illustration on Cattle Feeding Industry will be given. Emphasis will be placed on the swine industry.

## Visiting Minister

Evangelist Earnest West will be in Plains April 6 to 12 inclusive. Services each evening at 7:30 p.m. The meeting place, the Hillside Church of Christ building. The food will be the bread of life, food for the soul. The drink will be the water of life, fresh from the fountain head of truth. "Ye Shall Know The Truth And The Truth Shall Make You Free."

The music will be the most soul stirring in the world. Spiritual songs from the heart that touch the heart. The association with people will be happy, pleasant, JOYOUS.

The messages will be for everyone, straight from the Lord himself. Whosoever will let him take the water of life freely. No one is excluded, all are welcome. The keynote, the foundation, the central thought will always be; PUT GOD FIRST. Why stumble in the dark when you can walk in the Glorious Light of God's Word? Why perish when the Lord of heaven and earth offers you life?

## C of C Banquet Speaker

The prospects are quite favorable for a splendid Chamber of Commerce Banquet. Many tickets have been sold and an attendance of approximately 200 guests are expected.

The ladies of the Pleasant Hill Home Demonstration Club will cater the repast. Tickets to the banquet may be purchased from any of the Chamber members.

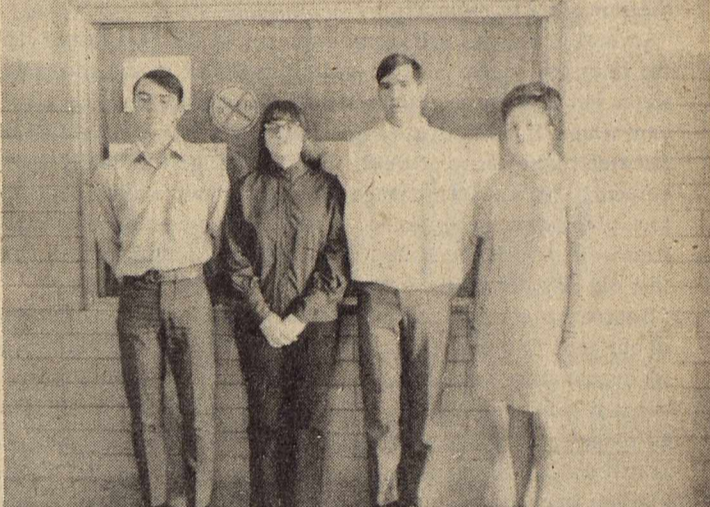

Cullen Akins is now the Permian Basin Sales Representative for Montello, Inc., a leading manufacturer and distributor of drilling mud additives. WHAT THEY SAY ABOUT AKINS

"Our group has never been entertained as delightfully as they were last night." --South Plains Coaches and Officials Association.

"...one of West Texas' well-known humorists, Akins departed from his usual style and brought a timely message on Americanism." --Midland Downtown Lions Club.

"Cullen Akins, a humorist and civic leader from Odessa, spoke on "Your Chamber of Commerce." His talk was gingerly spiced with humor that kept his audience in constant laughter." --Buchanan Dam Chamber of Commerce.

"One of the best known humorists in Texas... this is one of the funniest men to be found anywhere." --Dist. 12 Texas Butane Dealers.

Pictured L-R are: Keith Bayer, La Vern Edwards, John Lowe and Miss Sue Parker.

## "Learn and Live"

Plains High School has advanced from a field of sixteen teams into the final round in tournament play on the "Learn and Live" traffic safety quiz program, and will play for the championship on April 14.

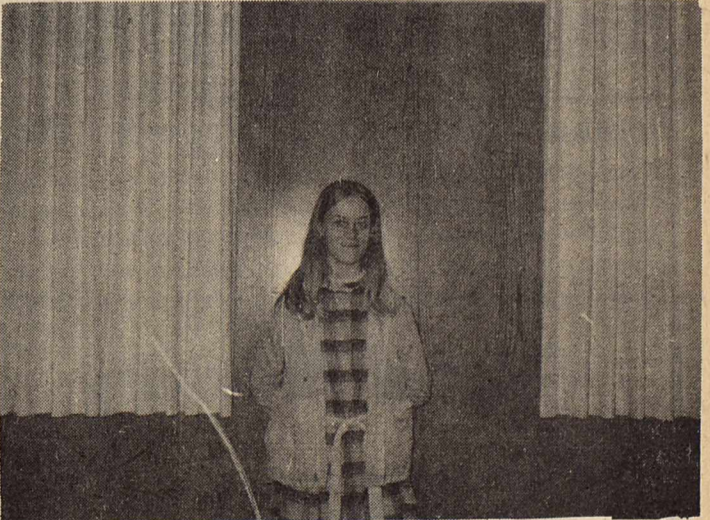

Saturday, April 4, viewers can see the semi-final match played between Plains and Estacado High School of Lubbock. Plains was the winner of that match by a score of 175-80. The following match between Lorenzo and Plainview will determine our team's opponent for the championship game.

The team members are La Vern Edwards, Keith Bayer and John Lowe. Their sponsor is

Miss Sue Parker, John Lowe is a leading contender for the high individual score at the present time.

All participants in the contest will be honored April 24, at a banquet given by the Lubbock Citizens Traffic Commission at KoKo Corner.

This series of programs is being presented by the Texas Department of Public Safety and the Lubbock Citizens Traffic Commission. Its purpose is to better inform and educate the driving public, through the participants' contribution and knowledge, to the traffic laws of the State of Texas and of the driver's responsibilities in regard to these laws.

Karon Willis

## Karon Willis Competes At Lubbock

Karon Willis, seventh grade student at Plains Jr. High, will be off to Lubbock to represent Yoakum County in the Lubbock Avalanche-Journal Spe-

ling Bee, Saturday, April 4. Karon, along with other spellers representing some 23 counties of the South Plains, will be honored at a luncheon at the Lubbock Women's Clubhouse. Following the luncheon, students will proceed to Smylie Wilson Jr. High where the contest will be held beginning at 1:30 p.m.

## Vocational Rehabilitation

There is strong evidence that most heads of welfare families are trainable and willing to work, according to a five cent experiment in Wisconsin conducted by state and university rehabilitation experts.

See REHABILITATION Page 4

The students and faculty of Plains Jr. High are very proud and honored to have Karon represent our school. She is the first contestant from Plains to capture the title of "Champion" from Yoakum County. Best of Luck, Karon.

Mrs. R. D. Guetersloh, Publicity and Public Education Chairman for the ACS looks on as Mayor Roy Edwards signs the proclamation, declaring April as Cancer Crusade Month.

## American Cancer Society Crusade

The American Cancer Society Crusade, house to house campaign will begin on Tuesday April 7, 1970. All interested persons who would like to volunteer their services with the house to house crusade against cancer, are asked to be at the

Tsa Mo Ga Clubroom at four o'clock p.m., April 7, 1970. Business establishments will be contacted by Mrs. P. W. St. Romain, Campaign Chairman, or Mrs. R. D. Guetersloh. Due to federal cuts in the

National Cancer Institute at least three cancer research centers will have to be closed for lack of funds. Everyone please give to this worthy cause. Fight cancer with a checkup and a check.

Tsa Mo Ga members presenting Easter Baskets to residents of Plains Nursing Home.

## TSA MO GA CLUB

One of the outstanding programs of the club year was enjoyed by members of the Tsa Mo Ga Club at a regular meeting held in the Club House on Monday evening, March 23rd. The subject was "Conservation - a World Problem" with the opening quote, "Conservation of the world's resources is everybody's responsibility." Mrs. Edmund Vickers, local chairman of conservation, introduced the discussion. Mrs. Joe Henry Thompson gave a most inspiring talk on "Universal Techniques of Conservation" and cited some of the "Horror stories that have happened, because man has been careless." Mrs. Vickers then talked on the "Progress on the Preservation of the Big Thicket," that unique area in south central Texas bordered on the north by Huntsville stretching to just north of Houston. To have the Big Thicket designated as a national park is a project of the Texas Clubwomen.

Mrs. P. W. St. Romain gave an interesting report of the Caprock District Convention held in Lubbock. She announced that the Tsa Mo Ga Club won six first places, one of which was first on Yearbook, and five second places. The board meeting will be held in Denver City in the Fall. She also read an invitation to a Federation Tea, honoring the State President, Mrs. Henry Shaper, at the Community Building in Denver City on April 10th at

eight o'clock. Mrs. St. Romain also asked for volunteers, to assist in the Cancer Crusade on Tuesday, April seventh to meet at 4:30 at the Club House.

Mrs. Bob Blundell, the president, appointed Mrs. J. C. Chambliss, Chairman; Mrs. Wayne Davis, Mrs. Royace Aikin and Mrs. Darrell Lindsey to act as a special Committee to arrange and deliver Easter Baskets filled with fruit for the patients in the local convalescent home.

Mrs. R. K. Field, a member of the Program Committee announced that the Bank Tour scheduled for the regular meeting on April 13th was cancelled due to the time element. Club will meet in the Club House at that time for a Yearbook Workshop. All members are urged to bring articles, quotes and ideas and help to publish the 1970-71 Yearbook. On the lighter side, Mrs. Field asked that each member bring a spring hat, rediculous or ultra modern for a Spring Hat Contest.

Miss Ozella Hunt, Mrs. Buddy Hanna and Mrs. Glen Mores were hostesses.

## W. Bruce White Burned In Grass Fire

W. Bruce White's face and hands were badly burned Saturday around 5:30 when a fire was started in the Henry Lowrey's place from lightning. Mr. White was on his tractor making a fire guard on his side of the fence to keep the fire from spreading when the wind changed, blowing the fire upon Mr. White and his tractor. When Mr. White noticed that the wind had changed and was blowing the fire toward him, he went to change gears on his tractor and it died, leaving him exposed more than he ordinarily would have been. Luckily, he had a ski shield on his head, leaving only his face

and hands exposed to the fire. Mr. White was carried to the Brownfield Hospital immediately and is doing as well as he can under the circumstances. Fire Trucks from Plains and Denver City were called and two of the county maintainers were also being used to stop the spread of the fire. Approximately 120 acres of love grass and some fence posts were burned, mostly on Henry Lowrey's place, but some on Mr. White's section of land.

Another fire was reported at the 2B Ranch, but it soon burned itself out without too much damage.

## EDITORIALS

### WATER Draws Attention

It is rather peculiar, but blessings are seldom appreciated until they are taken from us. Several times in the past few weeks comments have been made to the editor by various citizens that no change could be seen in the quality of the city water. When we started out Monday morning, inquiries began to come in asking what had happened to cause the water to be so hard. Naturally, we started to seek the cause and found that the Du Pont Plant was shut down from about mid-night Friday night until sometime Monday morning.

Several more days will be required before the hard water in the lines and storage will be entirely replaced by the good soft water furnished by the Plains plant. To change from the old hard water situation to the high quality of water furnished by the research plant was so gradual, that the change was hardly appreciated. But a sudden change back to the hard water such as took place over the weekend, showed such a contrast that inquiries were soon forthcoming. The failure of soap to lather and 'the old ring around the bath tub' are no longer tolerable.

Contrary to some of the rumors being circulated about by some of our good "No progress at any price", citizens, the Plains water desalination plant is not the property of the City of Plains nor is it being purchased. In fact, this plant has not been offered for sale. It is a research project of the Du Pont Company and is still under development. The City does stand the cost of operations in exchange for the softened and treated water. If and when the plant will reach the stage where the Du Pont Company will offer it to the City has never been ascertained. However, the success of the plant is undisputed.

The value to the City of Plains in having this project is inestimable, for it has brought this small town to the attention of people all over the world. It is inconceivable that some substantial good should not be derived from it other than the privilege of good potable water.

Plains has a great opportunity to progress is the citizenry awake and capitalize on the publicity and the opportunity laid at their door.

### Bureau of Narcotics & Dangerous Drugs

The Bureau of Narcotics and Dangerous Drugs of the U. S. Department of Justice is conducting a special recruitment effort to locate qualified Spanish-American candidates for employment as Special Agents with this Bureau. In this

## Friendly Chats with

Faye McConnell

All problems become smaller if you don't dodge them, but confront them. Touch a thistle timidly, and it pricks you; grasp it boldly, and its spines crumble.

The Power of Words: They sing. They Hurt. They teach. They sanctify. They were man's first, immeasurable feat of magic. They liberated us from ignorance and our barbarous past. For without these marvelous scribbles which build letters into words, words into sentences into systems and sciences and creeds, many would be forever confined to the self-isolated prison of the scuttle fish or the chimpanzee.

The editor and I spent the Easter Holidays in the Big Bend National Park of Texas along with our daughter and family, Mr. and Mrs. D. C. Newsom, Jr., and Mr. and Mrs. Jess Dearing and family. This was my first time to see the park and we surely enjoyed every minute that we were there. We made one-3 hour trip with Hoss down the Rio Grande River helping him with his fish lines. Some of the cliffs were over 500 feet straight up above us. We regretted very much that we did not get to see the Santa Elena Canyon which the Rio Grande runs through and where some of the cliffs are over 1500 feet above the river.

We went in from Persimmon Gap and Panther Junction, traveling part of the old Comanche Trail, which few white men dared to follow 100 years ago, and coming home, we took the 39 mile dirt road to Castolon where we purchased a few trinkets, then to Maverick and Alpine. This way we went in on one side and out the other side.

This desert wilderness is especially interesting as each tour or turn of the road offers a variety of beautiful odd-shaped mountains, scenery, history and fascinating plants and animals. Some of the cactus were in bloom and many wild flowers, but the largest majority of the cactus had not started as it was a little too early in the spring.

Representative George H. Mahon (Texas) chairman of the House Appropriations Committee, has pointed out what may be one reason why it is so hard to control inflation. The federal government is far from balancing tax income and outgo as many people have believed. The appearance of a balanced budget is the result of bookkeeping rather than economy.

Although technically in balance, President Nixon's new \$200.8 billion budget will run the government at least \$7.3 billion further in debt. The budget for the current year and the previous year, also pictures as "in the black", actually ran in the red and the total added deficit for the three-year period runs about \$19.9 billion. The illusion of government living within its means has been created, according to Representative Mahon, by a new accounting system under which income and expenditures by government trust funds, such as social security, are lumped together with other government revenue.

If a private business uses accounting methods permitted under the law to show as small a profit as possible for tax purposes, it is accused of taking advantage of tax loopholes. What is to be said of a government that alters accounting methods to change red ink on the ledger to black?

The article by Rep. Mahon of Lubbock reminded me of an article I read a few days ago. "The wife said to her husband: 'I wish you had the spunk the government has. They certainly do not let being in debt keep them from spending.'"

So we know the federal government is spending our money fast... and we've wondered how fast but have never taken time to figure it out? "Well, some experts have! They base their facts on the federal budget for fiscal year of 1970. Counting every day and every hour in a year, the federal government spends \$22.2 million an hour, \$367,000 a minute, and \$6,116 a second. Now that we know the spending pace, we may soon be unable to afford stamp, envelope and paper to let Congress know the time is ripe for reduction."

This happened at the last Senate investigating session. After the man who was to be questioned took his oath and sat down, the chairman inquired, "Have you a lawyer?" The man replied, "No, sir, I decided to tell the truth!"

connection, Bureau representatives will visit Eastern New Mexico University at Roswell on Wednesday, April 15, 1970, to conduct interviews. To qualify for employment as a Special Agent, candidates must be males with college degrees at least 21 years of age, in good physical condition, and willing to accept assignments in a number of major cities throughout the world. Most of the candidates who are selected for these positions will report for duty in June and will attend a 12-week training course in Washington, D. C. at that time. Upon satisfactory completion

### Case of the Outstretched Arm

Bookkeeper Jenkins, arriving at his place of employment one wintery morning, reached out for the knob on the front door. Unfortunately, the sidewalk on which he was standing was slick with ice. His foot slipped and down he went, suffering painful injuries.

Could he collect workmen's compensation? Was this an "on-the-job" accident? Jenkins argued that it was, because his outstretched arm had been across the property line, over the company's property, at the moment he slipped.

However, the court denied his claim, noting that his feet had still been on the public sidewalk. The

judge pointed out that it was his foot, not his arm, that did the slipping.

This case, although a close one, illustrates a common principle of almost all workmen's compensation laws. An employee is generally covered only while he is on the company's premises. Off the premises, he is on his own.

Nevertheless, there are important exceptions. A workman may be covered off the premises too, if he is still somewhat under the company's "sphere of influence."

Thus, an employee who was hit by a car while on his way to lunch was held entitled to compensation, when it appeared that his lunch hour was paid for by the company. Under these circumstances, the court found him to be sufficiently "on the job" to be protected.

By the same token, in another icy sidewalk case, the victim did collect compensation because of two extra factors in the situation. First, the sidewalk was used almost exclusively by company employees. Second, the company was supposed to keep it free of ice.

These factors, said the court, brought the sidewalk area within the scope of the job, justifying protection for workmen who were injured there.

As one judge put it: "A workmen's compensation law, because of its humaneness, should be interpreted liberally in harmony with its purpose to protect injured workmen and their dependents."

of this training, these agents will be assigned to their duty stations and will begin to perform their work as BNDD Special Agents. Starting salaries for these positions range from \$7600 to \$9300 per year depending upon applicant's qualifications. In addition, agents also receive from \$1900 to \$2300 per year in premium pay for performance of uncontrollable overtime work. If you are qualified and interested in becoming a Special Agent with the Bureau of Narcotics and Dangerous Drugs, you should contact the Placement Office at Eastern New Mexico University on 505-347-5441.

## Wilda Overstreet Announces for County Treasurer

In announcing my candidacy for County Treasurer, and in asking my friends and neighbors to retain me in office I am taking this opportunity to list what I believe to be reasons for the voters of Yoakum County to re-elect me to the office.

Having been a resident of Yoakum County for 13 years, I am aware of some of the needs of the people.

I am married to Wm. C. (Bill) Overstreet, I have two sons, Vincent Ray and Vernon Roy, two step-daughters, Monica and Charlotte all at home and in school.

I have tried to maintain the high standards in this office since I have been your County Treasurer. It has been my pleasure to have been your County Treasurer for the past three years. If I am re-elected as County Treasurer, I pledge to

WILDA OVERSTREET

continue these traditions in a competent and efficient manner.

Your support and influence is earnestly solicited in my bid for re-election as County Treasurer.

Wilda Overstreet,

### TAX MAN SAM SEZ

There are more than 400 Texas cities with city sales taxes in addition to the State of Texas sales tax. The tax instructions that you received in the mail contained a nice chart giving you the amount you can deduct on your state sales tax—provided, of course, that you do itemize your deductions. They also tell you how to figure your city sales tax in addition to the State sales tax if your city had a sales tax. The Dallas Office of IRS has prepared a handy chart to use in computing your city sales tax. This chart is posted in banks and post offices as well as the Internal Revenue Service offices. A great many papers also printed the chart for the benefit of their readers. If you need a copy of the handy city sales tax chart, look in the lobby

When you're not like yourself, Lydia Pinkham understands

All of a sudden you might feel you're changing—not a good feeling. You're tired, edgy, out of sorts and that's not you. Lydia Pinkham understands.

A long time ago, when ladies couldn't be as frank as we can today, Lydia Pinkham recognized the problem and set about finding a remedy. She knew it was not natural for women to have to suffer with what was obviously a natural process.

So she turned to nature for a remedy. She developed a marvelous compound of medicinal roots and herbs that turned the trick for the women she knew. Because it is a natural answer to your natural problems, it can turn the trick for you, too.

Try Lydia Pinkham's root and herb remedy to help you feel better, more like yourself.

Mr. and Mrs. Duane Gilliland and girls visited Mr. and Mrs. Samson Gilliland in Slaton over the weekend.

**CRADLE ROLL CALL**

Mr. and Mrs. Cordell Huddleston are the proud parents of a baby boy, born March 16th. He weighed 7 lbs. 9 ozs. and has been named Kason Cordell.

Grandparents are Mr. and Mrs. John E. Fitzgerald of Plains and Mrs. A. B. Huddleston of Wichita Falls.

Mr. and Mrs. Bobby Chambliss are the proud parents of a baby boy, born March 26th. He weighed 6 lbs. 10 ozs. and has been named Paul Dean.

Grandparents are Mr. and Mrs. Robert Chambliss of Plains and Mr. J. A. Peggran of Petersburg.

Mr. and Mrs. Melvin Lowrey are the proud parents of a baby boy, Kevin Carl, born March 24th in the Methodist Hospital. He weighed 9 lbs. 11 1/2 ozs. Grandparents are Mr. and Mrs. Carl Lowrey of Rt. 1 Tokio, and Mr. and Mrs. Millard Martin of 1501 Ave. E., Levelland. Kevin has two sisters, Tracy and Tonya.

The Gene Schoenrock Family

We wish to thank the Plains Volunteer Fire Department and all of the men who helped put our the grass fire on our place Friday afternoon.

Mr. and Mrs. Henry Lowrey

**Storyhour**

by Latrell McDonnell  
Ricky Bearden and Cethy Lewis read to Curt Randall, Michael Houck, Shaun Barnett, Russell and Doug Warren, Rene and Michael Davis. The crowd was small due to Easter vacation, Ricky and Cethy did a good job entertaining the little ones at storyhour and hope the group will all be back this Thursday for storyhour. (Storyhour will not be held April 9th due to a State Library Meeting being held in Amarillo).

**Fodder for Females**

Whether you buy ready-mades or sew your own garments, you will be more satisfied if you follow certain guidelines when you use fabrics with geometric designs. These guidelines are presented in Circular 419, "Selecting and Sewing in Stripes, Plaids, and Checks," published recently by N. M. S. U. Cooperative Extension Service.

This is a 16-page booklet, profusely illustrated with many practical drawing and working designs.

Copies of the new publication may be obtained free of charge from County Home Agent Mrs. Mary Jo Carlton, County Extension Office, Lovington, New Mexico, 88260

Cyrogenic freezing? That means using below minus 100 F temperatures. New techniques in this field may soon provide us with frozen lettuce and salad mixes. Hard to freeze foods such as tomato slices, melons, and bananas are being experimented with. And success with mushrooms, seafood, and onion rings has already been recorded.

Did you know that brown rice has more nutrients than white rice? It doesn't cook up

**Little Boy Blue Shower**

There will be a Baby Blue Shower honoring Mrs. Cordell Huddleston and Kason, Friday, April 3rd from 3:30 - 6:00 in the home of Mrs. Kent Welch. Selections are at Moore & Oden. Hostesses are Mes. Rowe Stephens, Kent Welch, Buster Graham, Pat Henard, H. A. Tarlington, R. D. Romans, James Livesay, Calvin Smith, James Futch, James Wauson, Clois Massey, Steve Madden, Harry Bilbrey and Dick Carothers. All friends are invited.

**FINE ARTS MEETING**

The Plains Fine Arts Club will meet Thursday night, April 2nd, in the clubroom. Mrs. Gayle Craft and Miss Sue Parks are hostesses. All members are urged to be present.

**LANDS OF THANKS**

Our hearts are filled with love, humility and appreciation for our many good friends whose comfort and help during our recent sadness meant so much to us. We are very grateful for the many prayers, visits, kindnesses, cards, floral offerings and food received. May God bless each and every one.

The Family of Derah Gauldin

We wish to thank all our friends and neighbors for their thoughtfulness and concern during the illness of our baby, Adreann.

The Gene Schoenrock Family

We wish to thank the Plains Volunteer Fire Department and all of the men who helped put our the grass fire on our place Friday afternoon.

Mr. and Mrs. Henry Lowrey

**BABY FACTS and FANCIES**

Surprising statistics reveal that at five months many babies weigh 14 to 15 pounds. At birth, the average infant weighs seven pounds. Small babies tend to gain weight more rapidly than large babies. It's as though all wanted to reach the same five-month standard of weight!

Many suggested... few chosen... names for a baby can cause family problems. You can't disappoint his people or hurt the feelings of your own when you choose an exceptionally rare name! Said by some antiquarians to be the world's first personal name, "En-lil-ti" was found near Iraq on a tablet dating from circa 3,300 B.C.

Quickly weaned, Roman Empire babies were soon put on bread crumbs mixed with wine—a sort of built-in burper! Today's mothers, however, enjoy doing what comes naturally and then lean to a substitute of mother's milk!

Baby's wardrobe today shows considerable knowledge of the variety an infant needs, even in diaper products. Extra absorbent Curity Night Diapers, for example, keep bedding and baby drier, and are easily identified in the Curity diaper selection.

More independent at one year, a child can also appear unreasonably "baby-like" with frequent crying spells. Dr. Benjamin Spock points out that at this point the baby can perceive mother leaving the room, but cannot realize she is coming right back. Thus, tears! The danger of a little knowledge.

**Fill Cracks And Holes Better**  
Handles like putty. Hardens like wood.  
**PLASTIC WOOD**  
The Genuine - Accept No Substitute.

Thifty . . . and is not as quick to cook. But, Vitamin B is plentiful.

Natural orange juices and drinks account for nearly 40 percent of all-fruit juices and drinks consumed at home. Synthetics account for about a fifth of the home consumption of orange juices and drinks.

Shirley Mae Bilbrey

**Engagement and Approaching Marriage Announced**

Mr. and Mrs. Harry Bilbrey wish to announce the engagement of their daughter, Shirley Mae to Alton Carl Rains, son of Mr. and Mrs. Carl Rains, Route 1, Tokio, Texas.

The wedding is set for May 2nd. Shirley is a Senior at Plains High School. Mr. Rains is a Junior at Texas Tech in Lubbock where they plan to reside at 2902 3rd Place.

**25th Wedding Anniversary**

The children of Mr. and Mrs. Lon Kerrick wish to announce the 25th Silver Anniversary of their parents. They were married on April 2, 1945 in Brownfield, Texas and have

lived in Plains since that time. Their children are Mrs. Carl Adams of Houston, Mary and Jo Ann of Lubbock and Lester who attends Plains School and is at home.

**Accent on Health**

If you had diabetes before 1921, you didn't give too much thought to leading a normal life—you worried about death. Then, researchers discovered insulin—a protein hormone—and a daily shot helped keep you alive.

Although the discovery of insulin was a major scientific discovery, the search continued for an orally active antidiabetic medication. Such a medication has been found. Those able to use this are no longer a slave to the needle. And those who are treated early enough seem to have fewer complications later in life.

Diabetes is your body's inability to use food properly. They have difficulty turning sugars and starches into energy.

Half the people who have diabetes don't know it. They need to find out. Here are some of the symptoms: Excessive thirst, frequent urination, excessive hunger, weight loss, failing eyesight, intense itching, pain in fingers and toes, weakness, tiredness and drowsiness. Not all these symptoms are present in every diabetic.

Periodic blood tests can uncover hidden diabetes. The Texas State Department of Health stresses the importance of finding hidden diabetes for three reasons: one, the earlier diabetes is detected, the easier you can control it; two, the more healthy you can stay; and three, the more normal life you can lead.

Also, the library is receiving the Lubbock Avalanche Journal each morning for the interest of the public. The library hopes people will use the privilege of reading the daily paper with a news.

A cold frame is one of the most helpful garden accessories. Ask any gardener who owns one!

**DEPTH OF PENETRATION**

UNLESS you are using your local newspaper as a regular part of your advertising program, you are very likely doing little more than scratching the surface of the important and rich market which it covers. Your newspaper commands the attention and respect of the community and will carry your sales message with force and dignity.

Your local newspaper has the "depth of penetration" that gets beneath the surface interest of its readers, down to where the sales action really starts. Your business will profit from a program of planned newspaper advertising.

J. M. Dearing in a field of Grain Sorghum on left following 2 years of cow peas. Grain sorghum on right following continuous grain sorghum.

### YOAKUM COUNTY ASCS NEWS

by Wilson Duke, Soil Conservationist

Due to our sandy type soils in Yoakum Soil and Water Conservation District the soils are very low in fertility and organic matter.

Where rotation of crops are not practiced, fertility, tilth, moisture holding capacity, and the loss from wind erosion is much greater.

By using crops such as alfalfa or small grain or grasses in rotation with other crops, plant nutrients and organic matter is added to the soil.

Crop rotations such as cotton following grain sorghum, cotton following peas or cotton

following small grain has increased the quality of the product and also improved the fiber.

Cotton following grasses in 3-4 year rotation has done well and has also improved the soil structure and the condition of the soil. Also noted was a decrease in cotton disease such as root rot.

These factors such as increasing organic matter, tilth, fertility holding capacity, water holding capacity, soil conditioning and soil structure are a few of the reasons why it pays to work out a good sound crop rotation program on your farm.

### Estimated Tax Due

(Dallas, Texas) -- Persons required to make a declaration of estimated Federal income tax for 1970 must file Form 1040-ES and pay at least 25 percent of the estimated tax due by April 15, 1970.

Ellis Campbell, Jr., District Director of the Internal Revenue for North Texas, said self-employed persons must include their self-employment tax in computing estimated tax.

Voucher No. 1 of the estimated tax package is used to make the declaration. The packages, which contain four vouchers and per-addressed envelopes, were sent to those who filed a declaration last year as well as to others who, according to IRS records, may be required to file. It also contains a worksheet and instructions to compute the estimated tax liability.

Publications 505, "Tax Withholding and Declaration of Estimated Tax," which furnishes detailed information on this subject, may be obtained by dropping a post card to Supply, Internal Revenue Service, P. O. Box 1738, Dallas, Texas 75221.

### OBITUARIES

#### Guy Morman's Rites

Guy Morman, 71, a former Plains and Brownfield resident, died Sunday evening in Ray's Hospitality Home of Lubbock following a lengthy illness.

Services were held at 2:30 p. m. Tuesday in the Brownfield Funeral Home Memorial Chapel with the Rev. H. A. Tarkington pastor of the First Assembly of Plains, officiating. Burial was in the Plains Cemetery.

Guy Morman came to Yoakum County with his parents in 1913. In the early 1930's, he moved to Brownfield and was a cemetery caretaker for many years. In 1960, he moved to South Bend.

Survivors include his wife, Clara; five daughters, Mrs. Harvey George, Mrs. Don Chapman, and Mrs. Margie Daniels, all of Brownfield; Mrs. Leon Goldston of Ft. Worth and Mrs. Donald Durham of Kermit; a brother, Roy of Brownfield, two sisters, Mrs. Carl Rushing and Mrs. Elmer Cross, both of Plains; and nine grandchildren.

#### Thomas Tipton Rites Planned

SNYDER (Special) — Thomas Vernon Tipton, 48, a Snyder resident since 1957, died after an apparent heart attack Tuesday afternoon in Cogdell Memorial Hospital.

Born in Alma, Okla., Tipton was co-owner and operator of a Snyder chemical company.

Services will be at 3 p. m. Thursday in the Northside Baptist Church with the Rev. Joe Stevens, pastor, officiating. Burial will be in Snyder Cemetery directed by Bell-Seale Funeral Home.

Survivors include his wife, Ethel; his mother, Mrs. T. H. Tipton of Levelland; a sister, Mrs. Jo Ann Dalrymple of Sherman; seven brothers, Spencer of Levelland, Lee and Bill, both of Lubbock, Sanford of McCombs, Thomas of Conway, Ark., Harold of Wichita Falls and Gene of Presidio; and two grandchildren, Mr. Tipton was the brother-in-law of Ray Strickland of Plains.

### REHABILITATION From Page 1

The findings contradict arguments for any form of guaranteed income which would lock welfare and low income families into their present condition, says the Chamber of Commerce of the United States.

During the experiment, the doors were thrown open to all the handicapped--physical, mental, educational, social and economic. Help was offered to the chronic unemployed, to families with incomes of less than \$3,000 a year, school dropouts, those from broken or disturbed homes, those with an illiterate parent, or with police records, those with mental disorders or retardation, cripples, alcoholics, diabetics, heart disease and cancer victims, and the like.

Results were phenomenal. Whereas Wood County, scene of the experiment, normally would have rehabilitated fewer than 100 persons in the five years, there were 1,339 rehabilitations. Of these, 265 were in the culturally disadvantaged group, most of whom were women heads of welfare families.

This same group showed the highest earnings benefit per dollar invested: 70 to 1. The ratio for mentally retarded was 37 to 1; for the physically disabled, 33 to 1; for the mentally ill, 24 to 1.

The experiment cost \$1 million. It cut the county's relief load in half, produced more than 1,900 new taxpayers and opened a new way of life for hundreds of families.

It was found that those in the so-called culturally disadvantaged group were younger, more confident, more intelligent and more aware of their need for training than those in other groups. It took more time to motivate them to accept training than it did the medically handicapped, but once persuaded, they required less

time to get insurance before an accident happens. . . . are you completely covered?
