

Plains 17th Annual Rodeo & Reunion Starts Today

Yoakum County's 17th Annual Old Settlers Reunion and Rodeo will start today, Thursday at 5:30 with the parade. The starting point will be at the Anderson Grain elevator, going East through the city and stopping at the Shell Station.

The parade will be lead by Kenneth McGinty and Billy Spencer, flag-bearers, each

riding a black horse followed by The Plains Rough Riders. Also in the parade will be a number of floats, different sheriffs' posses and riding clubs from other towns, plus different riders from Yoakum County of the old timers and younger groups. Mr. Carl Rushing riding his famous horse, Dinaflo, will be among this group. He and Dinaflo have

been in each of the 16 parades, this one making the 17th. Dinaflo is 26 years old and Carl is 75. Mr. Roy Fitzgerald, another old timer, will be riding in the parade. He, also, has been a rider in each of the parades. Perhaps there will be a number of these old timers riding, but their names are not known at this time.

Rodeo events will begin Thursday night at 8:30 p. m. and will continue through Saturday night. The tickets sell at \$1.00 for adults and 50¢ for children. The Western Rodeo show will be produced this year by Campbell & Cordell Rodeo Company of Childress, Texas. It will include bareback riding, bull riding, bull dogging, calf roping, ladies

barrel races, team roping, Jr. boy's ribbon roping, and the quadrille by the Young Rough Riders of Plains. In the team roping, one may enter twice, but if he does, he must head once and heel once.

Following each night's rodeo performance, a dance will be held featuring the music of the Rhythm Ropers of Lovington, New Mexico.

Saturday beginning at 11:30 a. m. will be the barbecue, a special event and big day for all the old timers, visitors, and the young. In this special event, the old timers see each other and talk of days of yore. This is not only a big day for them, but it is always interesting for the younger generations to hear of the yesteryears. The barbecue will be held in the

Stanford Park as it has been each year, under the shade of tall trees, and usually a mild wind that makes eating a pleasure and affords comfort from the heat.

In connection with the final rodeo performance on Saturday night will be the crowning of the queen for the 1970-71 Roping Club. The five contestants are Kathleen McGinty,

Renee Houck, Pat Milstead, Denise Newsom, and Sue Cleveland.

This year's annual reunion and rodeo has been dedicated to all the former queens of the roping club. It is hoped that

a majority number can be present riding their horses and to be introduced to the crowd.

Romain Telephone Co., Inc. Is Cutting Over New \$600,000 Plant

PLAINS—The 650 subscribers of Romain Telephone Co. of Plains will be blessed with a new far better telephone service when their \$600,000 expansion and improvement program is completed on Aug. 30, with the most modern telephone equipment available.

Pierre W. (Pete) St. Romain, Manager of the company, said excellent progress is being made on the project, a far cry from that day in 1945 when he purchased the exchange and its 32 magneto telephones.

About 180 miles of buried cable has been installed, replacing aerial wire and cable erected on previous expansion programs in this fast-growing farm area that was mostly ranches until recent years. Oil well drilling and producing is now the major industry.

Mr. St. Romain said he was literally forced into this upgrading because of extra-high oil field and farming equipment which tore down wire and cable on long-span pole lines, mostly jointly-used with power companies.

All service is being upgraded from present 10-party to 4-party service in rural areas, with 1- and 2-party service available if desired. Only 1- and 2-party service will be offered in base-rate areas of Plains and Higginbotham exchanges. Direct Distant Dialing equipment is being installed in both exchanges.

Extended Area Service from both exchanges to Denver City will be provided through buried cable, thus promising all subscribers much better and uninterrupted service.

When the project is completed, Mr. St. Romain said new rates will become effective as approved by the city governing bodies. Business 1-party service will be increased from \$11 to \$13 per month; residence 1-party service will advance from \$6 to \$7 per month; rural rates will increase from the present \$7 per month for 10-party service to \$10 per month for 4-party maximum service, with extended area service to Denver City.

A new telephone directory will be issued September 1st.

Tsa Mo Ga Is Having Bake Sale

Tsa Mo Ga is having a bake sale and serving lemonade shortly before and during the parade today on the courthouse lawn. The money earned will be used for re-bricking the club house.

Twirlers Return From Camp

Joetta Warren, daughter of Mr. and Mrs. James Warren, Debra Bearden, daughter of Mr. and Mrs. O. A. Bearden, and La Gaytha Thompson, daughter of Mr. and Mrs. Leon Thompson returned Friday from Artesia Jr. College, Artesia, New Mexico where they attended the Camp of Champs Twirling and Cheerleading School directed by Mrs. Barbara Prewitt of El Paso. While there the girls were instructed in marching, twirling, and dance routines by some of the finest twirlers in the southwest, including Miss Majorette of Texas, Miss Majorette of New Mexico, and Miss Majorette U. S. A. While at the school the girls were awarded banners and a trophy for the funniest twirling costume and also medals for an outstanding small twirling team. The girls reported they worked hard but that it was fun!

ATTENTION WOMEN

It is customary for the ladies of the community to furnish salads and cobbler for the old Settlers Bar-B-Q. It is hoped that the ladies will bear this in mind as there was a shortage of these items last year.

Pictured above is Pam Peterson, Rough Riders Sweetheart, with the 2nd Place Trophy the riding club won at the Denver City Rodeo last weekend.

Highway Patrolman Transferred

Highway Patrolman Joe Cox of the Department of Public Safety, who has resided in Plains for the past three years, is being transferred to Levelland, Texas where he will begin service as of August 1st. When a highway patrol office was opened for the first time in Yoakum County in December of 1967, Patrolman Cox was transferred from the Brownfield office to Plains where he has served continuously until the present time.

The fine courteous service of Officer Cox has rendered the department office to be a great asset to the community. Mr. and Mrs. Cox and their small daughter have made many friends during their stay in Plains and will regret to see them leave.

Patrolman R. C. Cheek of Nocona, Texas is being transferred to Plains to replace Joe Cox. He will begin his services in Plains as of Aug. 1st.

James Stewart Attends Photojournalism Workshop

James Stewart, son of Mr. and Mrs. C. A. Stewart, attended Texas Tech's Journalism Department sponsored Photojournalism workshop. While attending, he reviewed techniques of camera work including lens and shutter relationships, film processing, ma-

king enlargements, flash techniques, and group photography. James won the award for the best photographer on Friday, the last day of the course.

Approximately 25 students from 12 high schools attended the workshop.

Travis Jones and Marlin Pitman installing new equipment at the telephone office.

City Plans Expansion of Light Plant Output

At the last meeting of the Plains City Council, a resolution was passed which authorized the expansion of the present city power and light facilities. Included in the plans for this expansion will be the purchase and installation of a 700 HP Ingersoll Rand motor and generator with a 625 KVA capacity. This will be the first addition to the light power plant since 1961. The power or energy demand for the city has increased by 32% in the last three years; 22% of the increase has occurred in the last year.

The new addition will increase the power output of the plant by approximately 50%. With the motor overhaul and plant repairs done this year, plus added equipment, the Plains Power & Light Plant will have a sufficient reserve to meet the increase in demand of power for the city for sometime to come.

Although the city's popu-

lation has diminished in the past few years, the power demand has consistently increased. The increase of the demand can be contributed only to the increase usage of electrical appliances and power tools and equipment.

The city's power and light is one of the greatest sources of revenue. Fortunately, the City of Plains owns its own public utilities, including gas and water, and sewerage all of which are sources of revenue. This revenue makes it possible for Plains to enjoy reasonable utility rates and one of the lowest tax rates of any of the towns in this part of the country.

Belt Buckles on Display at Moore & Oden

As has been customary, a belt buckle will be awarded to the winners of each event in the rodeo program. Buckles will be donated by the following merchants: Buckle for the bull dogging event will be do-

ated by Alma's Restaurant; for bareback riding, the Wilmett Hardward and Oil Co.; team tying no. 1 by the Cowboy Grill; team tying no. 2 by Anderson Grain; calf roping by George's 66 Station; barrel ra-

cing by Cogburn-Young Hardware, and Junior Ribbon roping by Bowers Butane.

The queen's buckle was donated by Viva's Beauty Shop, and the runner-up queen buckle by Moore-Oden, Inc.

From left to right: Lynne Fitzgerald, Judy Smith, and Sue Spencer; middle standing, Gail Aninec; sitting on floor, Pam McDonnell. These girls attended the College of Artesia for the "Camp of Champs" cheerleading Clinic from July 19th through the 24th. They are the 1970-71 Plains Varsity Cheerleaders.

Cheerleaders Return from Camp

The cheerleaders returned July 24th from cheerleading camp in Artesia, New Mexico, at the Camp of Champs Twirling and Cheerleading School.

There was competition between the groups of cheerleaders each night and ribbons were

given out for prizes. Our girls won three ribbons; Monday (Honorable Mention), Wednesday (Outstanding), Thursday (Excellent).

There were special classes for tumbling and workshops were held in the afternoon. St-

ormy Eaton, a champion gymnastic, was there to help train the girls.

They have been working and practicing on the new yells and pom-pom routines they learned to get the School Spirit boosted for the next coming school year.

Karen Lafferty to Entertain

Miss Karen Lafferty, contemporary folk singer of Ruidoso, New Mexico, will be the main featured entertainer for the Yoakum County Co-op Gin annual meeting and barbecue at 7:00 p. m., Thursday August 6th.

Miss Lafferty was reigning "Miss Grain Sorghum" of the Nation for 1969-70. She was in concert with Bob Hope and Pozo Seco Singers at the University of New Mexico in March, 1969; She toured with the USO to Green-

land, Iceland, and Newfoundland in the summer of 1968; She was lead singer for the Rock band "Juno" on a concert with Oliver at the Eastern New Mexico University in November, 1969; and she worked alone as a contemporary folk singer at Inn Credible in the Ruidoso Resort Area in the summer of 1969 and 1970.

Honors and activities which have been awarded to Miss Lafferty are as follows: Who's Who in American Universities,

Spring of 1969; Eastern New Mexico University Snow Queen in the spring of 1969; President of the Zeta Tau Alpha, Cardinal Key, a Women's Junior Honorary; Epsilon Mu Beta, a women's Senior Honorary; Sigma Alpha Iota, a music Sorority; Tau Beta Sigma, a Band Sorority; Eutopians Society, a Music Honorary, and she is a graduate of Eastern New Mexico University in 1969-70 with a B. A. in music.

Chaotic Spending

Everywhere the taxpayer turns, he sees, rising on all sides, the specter of soaring government spending. Many government programs, at both the local and national level, are beyond administrative control. Schools, welfare, health care, and other ostensibly worthy programs are devouring the substance of workers and producers. Yet, spending programs continue to multiply, often in an attempt to alleviate the very hardship which government spending, deficit financing and inflation created in the first place.

Illustrative of the trend is a bill in the U. S. Senate which guarantees a family of four a \$3,600 annual income. This one measure would cost about \$20 billion annually. Measures such as this brought a stern warning from our U. S. Representative George Mahon, Chairman of the House Appropriation Committee. He said, "... unless some way can be found to rectify this situation, we are headed toward physical and economic chaos..." In another talk, he stated that the U. S. deficit in the last four years has risen 53 billion dollars, making a deficit of 373 billion dollars as of June of this year.

A colorful but deadly serious assessment of the situation was made by a publication of the Chamber of Commerce of the U. S. in its paraphrase of a famous remark of Winston Churchill, "Never have so few owed so much to so many."

A number of years ago, the Russian government said that they could in a long range program, rule the entire world. The great powers at that time were Germany, England, and the United States. It said that "Germany would war herself to death; England would colonize herself to death, and the United States would spend herself to death." Two of the prophecies have already come to pass, and the third is very close to its fulfillment.

It is time that the American people awake to this fact, and instead of more spending, more taxation, regardless of the nature of the taxation, citizens should be writing to their senators and congressmen, both federal and state, asking for a reduction on "give-away" programs, high taxes and inflationary measures. It would also be very wise to start this curtailment at the local and state levels.

Come to The **Rodeo**

"BEST WISHES FOR A GREAT OLD TIMERS REUNION AND RODEO."

COGBURN-YOUNG HARDWARE

"Where Your \$\$\$ Have More Cents"

Friendly Chats With Faye McConnell

"Life's way is easier because others have paved the road and smoothed the mountains for us."

The Old Settlers Reunion and Rodeo is here, starting with the parade at 5:30 p. m., today. The Association has toiled many hours to bring this rodeo to the young and old of Yoakum County and our many visitors. The queen contestants have also put in many long hours selling tickets to the saddle to help make the rodeo a success. Let all that can, attend the rodeo each night to show the many workers how much they are appreciated. If you have not yet purchased a few tickets for the saddle, hunt up our queen contestants and purchase a few.

Speaking of our rodeo reminds me of this true story: Mr. Abercrombie, our City Secretary, was asked by the Chamber of Commerce to be one of the gate attendants. He laughingly and jokingly answered: "But I had intended to enter the calf roping contest." Hoss Newsom, upon hearing this reply, said: "I'll tell you, Hugh, just enter the bullriding contest. That won't take but a second or two and you will still have time to be gate attendant."

From the Gotebo, Oklahoma Record comes this remark: "One man tackles the hard job first and keeps on until he completes it. He succeeds, goes up the ladder and pays taxes to help support the government by income payments. Another man does the easy job first and sidesteps the hard one. He fails in business or loses his job and the government helps support him out of the first man's taxes. Nevertheless, most of us would rather be the first man."

There has never been a party in power which was not criticized by the press, which was not questioned by the press, nor challenged by the press. This is the duty of the press. If governmental edicts were not questioned, nor challenged, it would not be long before the government was in complete control of the people and their thoughts. Let's not let this happen in our country.

I knelt to pray when day was done, and prayed, "O Lord, bless everyone. Lift from each saddened heart the pain, and let the sick be well again."

And then I woke another day, and carelessly went on my way. The whole day long I did not try, to wipe a tear from any eye.

I did not try to share the load, of any brother on the road, I did not even go to see, the sick man just next door to me.

Yet once again when day was done, I prayed: "O Lord, bless everyone." But as I prayed, into my ear, there came a voice that whispered clear,

"Pause, hypocrite, before you pray, whom have you tried to bless today? God's sweetest blessings always go, by hands that serve Him here below."

And then I hid my face and cried: "Forgive me, God, for I have lied. Let me but live another day, and I will live the way I pray." (Author unknown)

"When your knees knock, kneel on them."

TAC Fund Request Important To WT

The Texas Aeronautics Commission has put in its bid for an increased budget—three times as much money as it now has yearly to disburse for building airports in Texas.

West Texas has a large stake in the TAC plans for airports are increasingly important to West Texas communities of all sizes.

The long distances between West Texas cities and between West Texas and other areas of the state is evident. And with rail transportation drying up, private and commercial aviation must grow.

The TAC asks \$1.5 million a year to spend in aiding communities in airport construction. These funds would be used to meet part of a community's matching funds obligation to ward receiving help from the federal government, which will disburse some \$3 million a year in Texas for airport construction.

While the TAC has in the past restricted its aid to cities under 50,000 population, it asks that this limitation be removed. That is well and good provided the money is not fun-

neled off into spending on big-city airports. The \$1.5 million wouldn't go any distance at all on such hugh projects. This the TAC has promised to guard against.

The TAC request seems reasonable and logical. It can result in stretching tax dollars, if it is used as intended to help provide matching funds so federal assistance in airport construction can be obtained by Texas communities. And, as West Texas communities need airport facilities, depend upon them for continued growth and prosperity, this section of the state should actively support the TAC request. Demands upon the Texas budget during the next biennium are going to be high; legislators are going to have to consider proposals for new or increased spending very carefully. But the spending of money to make federal assistance available—and thus multiply the state outlay—makes sense, particularly when the end result, improved Texas airport facilities, can contribute significantly to the state's prosperity.

THE LARGEST LIVING FISH IS THE WHALE SHARK. IT REACHES 50 FEET IN LENGTH, AND WEIGHS 20 TONS!

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT (SJR15) General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-d, Article VIII, Constitution of the State of Texas, be amended to read as follows:

"Section 1-d. The Legislature shall have the power to provide by law for the establishment of a uniform method of assessment of ranch, farm and forest lands, which shall be based upon the capability of such lands to support the raising of livestock and/or to produce farm and forest crops rather than upon the value of such lands and the crop growing thereon."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition:

"The constitutional amendment to authorize the Legislature to provide by law for the establishment of a uniform method of assessment of ranch, farm and forest lands, which shall be based upon the capability of such lands to support the raising of livestock and/or to produce farm and forest crops."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT (HJR 22) General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (a), Section 64, Article III, of the Texas Constitution, be amended to read as follows: "Section 64. (a) The Legislature may by special statute provide for consolidation of governmental offices and functions of government of any one or more political subdivisions comprising or located within any county. Any such statute shall require an election to be held within the political subdivisions affected thereby with approval by a majority of the voters in each of these subdivisions, under such terms and conditions as the Legislature may require."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment authorizing the Legislature to provide for consolidating governmental offices and functions and allowing political subdivisions to contract for performance of governmental functions in any county."

State Highway Maintenance Superintendent, H. G. McDonnell of Plains displays a few of the fish he caught while on vacation. Mr. and Mrs. McDonnell were visiting his brother, Q. T. McDonnell, who resides at Farmington, New Mexico. The fishing was done at Morgan Lake southwest of Farmington on the Navaho Indian Reservation.

Venum Fitzgerald Joins Santa Rosa Bank

Venum Fitzgerald, son of Mr. and Mrs. Roy Fitzgerald, has moved from Levelland, Texas where he was employed by the First National Bank to Santa Rosa, New Mexico. He has joined the First National Bank there. He will work in the Loan Committee Department, and part of his work will be in the field making estimates of cattle, etc., for loans to people of that area.

Venum started his banking career in Plains where he was employed for several years by the Plains State Bank. Mr. Roy Fitzgerald, his father, who is on the Board of Directors of the Plains State Bank has served in this position since it was first organized. He is a charter member of the bank and is instrumental in bringing this banking service to the Plains community.

Jim Mosely Makes Hole in One

Hurrah for Rev. James Mosely, pastor of the First Baptist Church in Plains. While playing Tuesday at the Yoakum County Golf Club with A. B. Carpenter, Buddy Hanna and Cordell Huddleston, he made the hole-in-one at the 150-yard No. 3 hole, using a six-iron.

The course is four years old, and Rev. Jim was the 11th hole-in-one recorded at the Yoakum County course. Mrs. Mosely reported that Rev. Jim said that he hollowed so loudly with joy that he could be heard at the club house. Rev. Jim will also be presented with a plaque, something that he will have pride in all of his days, and also something to brag about to his great-great grandchildren.

Texas Tech University Museum

When The Museum on the campus of Texas Tech University opens its doors to the public this fall in a giant new complex at 4th St. and Indiana Ave., visitors will be convinced that everything in Texas is bigger.

A large relief map of North America, which will be assembled in the ICASALS gallery, is, if not the largest in Texas, at least the largest map in Lubbock.

Originally constructed by the WPA in 1938 for the World's Fair in New York, the map is in 16 giant sections, and measures roughly 20 feet high by 30 feet wide.

At the close of the World's Fair, the map became the property of the U. S. Air Corps, and was sent to Seattle, Wash. for training purposes. After World War II it was inherited by the National Parks Service.

It was stored for a number of years in St. Louis, where it was acquired by Eugene Kingman, then director of the J. C. C. Art Museum, Omaha, Neb., in the late 1950's.

Kingman had the map transported to Omaha for possible use in a future exhibit in the museum. Plans for the map exhibit never materialized at the Nebraska museum, and it remained in storage until Kingman joined the Texas Tech University staff at the end of last year as director of exhibits and programs for the new museum.

Charles M. McLaughlin, associate director for administration, transported the map from Omaha several months ago, and Joe Hart offered to store it in the Hart Moving and Storage Co. warehouse.

Although one of the firm's transcontinental vans was blown onto its side during the recent tornado in Lubbock, the moving company's warehouse at 2137 Baylor suffered little damage, and the map panels remained safely stored until the new museum building was completed.

Faced with a wall 18 feet high, and a map 20 feet tall, Kingman consulted the architects who planned the building. They pointed out that construction of the ceiling in the ICASALS gallery leaves an "unfinished" area, exposing air conditioning ductwork. By raising the top of the map at a certain angle, extra height can be achieved above the top of the wall, and top edge of the map will disappear among the lighting fixtures and ductwork.

The map, having spent most of its lifetime in storage, is in need of a fresh coat of paint and touch-ups to some of its mountains, which have chipped or cracked.

When it is given its "face-lift" and installed on the wall of the gig gallery, it will serve as a giant screen, upon which various film or slide programs may be projected, Kingman said.

Weighing an estimated two tons, the map will be a focal point in the expansive gallery designed to interpret the program of the International Center for Arid and Semi Arid Land Studies (ICASALS).

Moving operations are still underway at the Museum. A formal opening is scheduled for early November.

1040 U.S. Individual Income Tax Return for the year ending January 1-December 31, 1969, or other taxable year. U.S. Treasury Department—Internal Revenue Service

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q I read that if you add a front porch to your house the cost is deductible. Is that right?

A) No, the cost is not deductible. The cost, however, can be added to the basis of your house and taken into account in determining your gain or loss on any future sale.

Ordinary and routine maintenance costs around the house, such as painting and repairs are not deductible. Only when the expense adds to the value of the house or increases its life do tax considerations arise.

Q I filed my return 3 months ago and my refund still hasn't come. What should I do?

A) Write your regional IRS service center or call your local IRS office. Be sure to give your Social Security number, name, address, and when your return was filed. This information is needed to trace your return.

Most refund claims have already been processed and the checks mailed out.

Q I was married last month and plan to continue working for another year or so. Should I make any change in my tax withholding?

A) You may want to file a new withholding certificate with your employer claiming married status. This will reduce your withholding.

However, many married couples who both are employed elect to have tax withheld from each of them as a "single" person to avoid owing large additional amounts of tax at the end of the year. If you plan to file a joint return for the year, as most couples do, your final tax liability will not be affected regardless of whether you or your husband claims your personal exemption.

Q My daughter started to work last month, but she still lives at home. Will we still be able to claim her as a dependent?

A) It depends on whether she still meets the dependency tests. For instance, you must provide over half of her total support for the year. Regarding her earnings, if they amount to \$625 or more you cannot claim her unless she is under 19 at year end or a full-time student for any five months of the year.

Nat'l Wheat Referendum Postponed

Secretary of Agriculture, Clifford M. Hardin, has announced postponement of the national wheat referendum previously scheduled for July 27-31, according to Carl Lowrey, Chairman of the county Agricultural Stabilization and Conservation (ASC) Committee. The action was authorized by Congress.

The postponement permits the USDA to delay holding the referendum not later than October 15, 1970, or 30 days after Congress adjourns, whichever date is earlier.

Accordingly, the U. S. Department of Agriculture's ASCS, which administers the wheat, feed grain, and similar programs, has instructed its State and county offices across the nation to withhold ballots and other referendum materials, Mr. Lowrey said.

The Chairman explained that basic farm legislation requires a referendum for wheat marketing quotas. However, the Agricultural Act of 1965 suspended this referendum requirement from 1965 through the 1970 crop year. Unless new farm legislation, now pending, is enacted by the Congress, basic legislation will again go into effect, and a referendum will then be required in 1970 for the 1971 crop years.

FANCY THAT! WATER ODDITIES!

IMPOSSIBLE! MANY AMERICAN INDIAN GROUPS STILL BELIEVE IN "WATER BABIES" LIKE THE LITTLE DWARFED SPIRIT WHO DELIGHTS IN WENDING FISHERMEN BY PULLING AT THEIR LINES!

INFANT-ASY! THE BELIEF IN A SPECIAL "WATER OF LIFE" WAS SO STRONG AT ONE TIME EXPLORERS LIKE PONCE DE LEON CAME TO THE NEW WORLD SEEKING ITS SOURCE—THE FOUNTAIN OF YOUTH. PONCE NEVER FOUND THE FOUNTAIN—BUT UNDOUBTEDLY DID ENJOY A NICE FLORIDA TAN!

NO MYTH! IT'S NO MYTH THAT CLEAN, GOOD TASTING WATER IS GETTING SCARCER ALL THE TIME—EVEN WHERE WATER IS STILL PLENTIFUL. FORTUNATELY TODAY'S HOMEOWNER CAN ENJOY PARKING CLEAN, GOOD TASTING WATER ANYWHERE HE LIVES BY PICKING UP LOW-COST HOME WATER FILTERS LIKE AQUAPURE AT HIS LOCAL HARDWARE STORE. ONE MODEL REMOVES DIRT, RUST AND SOLIDS TO PREVENT PLUMBING AND HIS APPLIANCES; THE OTHER REMOVES BAD TASTES AND ODORS LIKE CHLORINE AND SULPHUR.

WOMEN PAST 21 WITH BLADDER IRRITATION Suffer Many Troubles

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, **CYSTEX** usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get **CYSTEX** at drug-gists. See how fast it can help you.

Church of Christ Evangelist to Hold Gospel Meeting

Bud Hammans, evangelist from Loveland, Colorado will be in a gospel meeting at the Hillside Church of Christ August 3-9. Mr. Hammans has done missionary work in both Japan and Australia and has recently returned from the latter after serving two and one half years.

The lessons which will be presented nightly at 8:00 p.m. will be centered upon the theme Christ and you. You are cordially invited to attend these series of meetings.

Funeral Rites for Mrs. L.B. Hobbs

Mrs. L. B. Hobbs of Plains, 74, passed away July 22nd in the Amherst Hospital where she had been carried by her daughter, Mrs. Margaret Cardwell.

Services were held July 24th in the First Baptist Church of Plains with the Rev. Jim Mosely officiating. Burial was in the Plains Cemetery under the direction of Barrett's Funeral Home. Pallbearers were her grandsons.

Survivors include her husband, L. B.; two daughters, Mrs. Margaret Caldwell of Sudan, and Mrs. Captola Dumas of Andrews; two sons, Deryl Hobbs of Plains and Grady Hobbs, 13 grandchildren and 20 great-grandchildren.

Mrs. Hobbs was a member of the First Baptist Church and a member of the Plains Rebecca Club.

Services Held for Mother of Mrs. Glen Cleveland

Funeral services were held for Mrs. Kate Newsom, 86, Thursday, July 23rd at 2:30 p.m. in the First Methodist Church in Brownfield.

Officiating were the Rev. Robert Metzger, pastor, the Rev. J. Loyd Mayhew of Abilene, and Rev. Ellis Langston of Loveland. Burial was in the Brownfield cemetery under the direction of Brownfield Funeral Home.

Mrs. Newsom came to Terry County from Haskell County in 1920 when she and her husband, R. C., began farming in the Johnson community.

She is survived by four sons, Gordon, J. L., and R. D. of Brownfield, and C. V. of Loveland; four daughters, Mrs. Glen Cleveland, Plains; Mrs. Mitchell Flache and Mrs. Bobbie Bayless of Brownfield, and Mrs. N. J. Green of Roperville; five half-sisters; 12 grandchildren, and 15 great-grandchildren.

Golden Age Luncheon

The 13th Annual Luncheon for the Golden Age Ladies of the community was given Monday. The luncheon is given annually by the W. M. U. of the First Baptist Church.

Wedding Vows Exchanged

Double ring wedding vows were repeated Saturday, July 25th, 1970, in the Elms Memorial Chapel of the First United Methodist Church in Littlefield, Texas by Miss Tanya Lynn Bryant and Robert Harmon Meixner, Jr. Rev. R. H. Meixner, father of the groom, officiated the ceremony.

The bride is the daughter of Mr. and Mrs. Leo Ross Bryant of Olton. Parents of the bridegroom are Rev. and Mrs. R. H. Meixner of Claude, Texas.

Given in marriage by her father, the bride wore a turquoise dacron coat dress with jeweled buttons and matching accessories. She carried a nosegay of daisies.

Miss Janet Eichhorn of Amarillo, cousin of the bride, served as maid of honor. Mr. Jack Meixner of Amarillo, brother of the groom, served as best man.

Guests were seated by Clinton Bowman of Denver City, Ralph Meixner of Lubbock, Moody Meixner of Abilene, and Jackie Eubanks of Floydada.

Following the ceremony the couple was honored with a reception at the home of Mrs. Guy Willis, 106 East 23rd St., Littlefield. Mrs. Jack Meixner of Amarillo, Mrs. Jackie Eubanks of Floydada, Miss Kay Killingsworth of Roby, Mrs. Alan Duncan of New Holland, Pa., and Miss Janabeth Bowen of Littlefield served the guests. Guests were registered by Miss Donarex Bowen of Littlefield.

After a wedding trip to Ruidoso, New Mexico the couple will reside at 5430 32nd Street Lubbock, Tex.

The bride is a 1963 graduate of Olton High School. She received a B. S. degree in Home Economics Education from Texas Tech. At Tech, she was a member of the Phi Mu Social Sorority. She has taught Home making at Coronado Jr. High in Plainview and at Denver City. This fall she will teach at Hutchinson Jr. High School in Lubbock.

The bridegroom is a 1960 graduate of Plains High School. He received a B. A. degree in Science from McMurry College in Abilene. He was a member of KIVA Social Club. He has taught Science at Plains and Alderson Jr. High in Lubbock. He will teach biology at Monterey High in Lubbock. He worked as Educational Assistant with youth at the First United Methodist Church in Lubbock and with the Neighborhood Youth Corps. Mr. Meixner is a member of the Southwest Basketball Officials Association. He is currently working for a masters degree in counseling at Texas Tech.

Those attending were: Jante Hamm, her mother, Mrs. L. D. Hamm, Mrs. Ty Field, mother of the groom, Joetta Warren, Janie Pierce; Mrs. Tommy Burris, Lynne Fitzgerald, and Mrs. Daisy Clayton of Lovington, N. Mex., and the Hostesses.

WEDDING SHOWER TO HONOR COUPLE

Janie Hamm, bride-elect of Dan Field, will be honored with a wedding shower at the Tea Mo Ga Clubhouse on Sunday, August 2nd from 3:30 p.m. until 5:30 p.m. Friends of the couple are invited to attend.

Hostesses for the shower are: Mrs. Royce Trout, Mrs. Tom Sims, Mrs. Bill Russell, Mrs. P. W. St. Romain, Mrs. Bill Powell, Mrs. Raymond Bookout, Mrs. Edward Smith, Mrs. James Warren, Mrs. C. C. Perkins, Mrs. Billy Winn, Mrs. Johnnie Fitzgerald, Mrs. Wallace Randolph, Mrs. Garland Swann, Mrs. Gilbert Pierce

Kitchen Shower

Janie Hamm, bride-elect of Dan Field, was honored with a kitchen shower at the home of Mrs. James Warren on Tuesday, July 28th. The hostesses were Mrs. Joyce Pierce, Mrs. Bobbie Gayle, and Mrs. Rheanell Ancinac. Each guest brought the honoree a recipe and a small kitchen appliance.

Mrs. Luna Tours Eastern States

Mrs. M. W. Luna returned from Dallas Powell of Westfield, New Jersey, and families. They gave me a grand tour of Washington D. C., Mt. Vernon, Virginia; Independence Hall and Square, Philadelphia, Pennsylvania, and New York City. Seeing the Nations Capital and District was a great treat, every United States citizen should make a tour of our grand Capital.

The trip was made with Mrs. P. W. St. Romain, Joe St. Romain, and Mrs. Suzahn St. Romain Smith. Suzahn and Joe extended their visit and are with the Peter C. Powley's in Baltimore. Mrs. Luna and Mrs. St. Romain returned home by American Continental Airlines. Suzahn's husband, Calvin B. Smith is in the National Guard at Ft. Belvoir, Virginia.

Sudie Thompson

CHDA ★ Says...

The cucumber is believed to be a native of India and has been cultivated since earliest times. The fact that there are a profusion of ancient names for the cucumber in widely separated lands indicates the cultivation of this vegetable was carried westward long before there was a written word. Supposedly, it was grown in China in the second century B.C. At the beginning of the Christian era, it was grown in North Africa, Italy, Greece and Asia Minor.

Even though this pleasingly cool vegetable is ancient, you don't have to put up with the ancient varieties. Modern cucumbers don't have the bitter taste of older kinds. They also aren't as crooked and have rounded ends so that you can get your money's worth out of every slice.

When buying slicing cucumbers, look for those that are firm, fresh, bright, well-shaped and of medium to dark green color. The flesh should be firm and the seeds immature. Avoid withered or shriveled cucumbers, as the flesh is generally tough or rubbery and somewhat bitter. Over-maturity is indicated usually by overgrown, puffy appearance.

Cucumbers should be held in storage for only short periods of time and cannot be expected to keep more than 10 to 14 days. The most favorable storage temperature seems to be between 40 and 50 degrees F. If held more than a few days below 40 degrees F., surface pitting or dark, watery areas appear. Such areas soon become infected and decay rapidly when cucumbers are removed to warmer temperatures.

Tomatoes Vinaigrette is an appetite-pleasing way to serve cucumbers.

- 2 medium tomatoes, sliced
- 1 medium cucumber, thinly sliced
- 2 tablespoons chopped parsley
- 1/2 onion, sliced (separated in to rings)
- Lettuce, shredded
- 1/8 t. black pepper
- 1/4 t. each of ground savory, tarragon, crumbled bay leaf and celery salt

Alternate layers of tomato, cucumber and onion in shallow glass dish. Beat dressing ingredients together. Pour over vegetables and chill, covered, for at least 12 hours. Drain and serve on shredded lettuce. Sprinkle with chopped parsley. Makes 6 servings.

Edward's Family Holds Reunion

Mr. and Mrs. Roy Edwards and girls attended the Edward's family reunion held July 17th through 19th at Black River Village near Carlsbad. This was the first reunion of this kind in many years.

There were 76 registered people at the reunion. Pat Edwards of Channing, Texas was recognized as being the oldest member present and Miss Holly Renae Edwards of Plains was the youngest present. Homer Edwards was selected to continue as chairman.

A highlight of the occasion was an evening of entertainment of songs and music provided by Mr. and Mrs. Johnny Crozier, Dean Wood, Mrs. Dalton Edwards, Connie and

BECKET ANNIVERSARY CANTERBURY, England (AP) — The Dean and Chapter of Canterbury Cathedral have appointed Gerald Peacocke, senior modern languages master at King's School, Canterbury, to draw up plans for celebrating in 1970 the 800th anniversary of the death of Thomas Becket.

Thomas Becket was Archbishop of Canterbury in the reign of King Henry II. He was slain in the cathedral by four of the King's knights on Dec. 29, 1170. Henry later did public penance at the tomb of Thomas, who was canonized.

Tax Man Sam Sez

If you are one of those affluent Americans who can still find household help you may have a problem with your maid tax. As most folks know, household employees are covered by Social Security if you pay the household employee more than \$50 per calendar quarter. This is not an optional tax--and the fact that the maid does not want you to pay Social Security tax on her has no bearing. You are liable under the law to pay Social Security taxes if the total wages for the quarter exceeded \$50 for the employee.

Under the new 1969 Tax Reform Act the employees can voluntarily ask that income tax be withheld from their wages as household or agricultural employees. When Internal Revenue Service issues regulations you can also withhold the voluntary income tax deduction on your household or farm employees, and pay this in addition to the Social Security tax.

Fodder for Females

AUSTIN--All the work has been taken out of eating watermelon this summer with the introduction of two new seedless varieties recently announced by Texas Commissioner of Agriculture John C. White.

Seedless watermelons are rapidly gaining favor with consumers because of the extra-sweet and flavorful quality of the melons. The fruit is medium-sized, with a good textured, sweet meat. As in other "seedless" fruits, the undeveloped seeds are there but are edible, actually tasteless. An added advantage of this melon is an extended shelf life.

The chemical "Colchicine," discovered in 1937 by Dr. O. J. Eigt, is responsible for the genetic change that produces a seedless melon such as the two varieties, "Tri-X 313" and "Supersweet." It has only been until recently that seedless melons have been developed which are consistent in quality and which can be commercially produced and marketed.

The seedless melons are found in food stores and cafeterias promoted in cooperation with the Texas Agricultural Products (TAP) program of the Texas Department of Agriculture.

Commissioner White said Department of Agriculture marketing specialists anticipate a strong consumer reception.

THE FAMILY LAWYER

Matters of Opinion

"This suit," the friendly salesman told Fred, "will wear like iron."

About a year later, Fred brought the suit back and asked for a refund. He complained that the fabric was beginning to show signs of deterioration. When the store turned him down, he went to court to demand damages for breach of contract.

"Their salesman promised me that the suit would wear like iron," he said. "That was a false statement."

Nevertheless, the court rejected Fred's claim. The court said the

salesman's statement was merely an expression of opinion, not a binding commitment.

As a general rule, the law permits a seller of merchandise to do a good deal of boasting in matters of opinion. The reason, in the words of Judge Learned Hand:

"There are some kinds of talk which no sensible man takes seriously."

But the law is stricter when it comes to matters of fact. Take this situation:

A home owner, selling his house assured the buyer that it was "in perfect condition." But at the first rain, the buyer found out that the house was honey-combed with leaks. He also found out that the problem had existed for years, defying costly efforts to clear it up.

Here, a court upheld the buyer's claim for damages. The court said the seller's statement that the house was "in perfect condition" had been a deliberate misstatement of fact.

Even a statement of opinion may be held binding, if the buyer has some special reason to put his trust in that opinion.

In one case a promoter of oil stocks, after winning the confidence of an unsophisticated farmer, sold him some shares in an obscure company. He did so after expressing an opinion of the stock's value that was enormously exaggerated.

But a court later nullified the sale. The judge said that, in view of the confidential relationship between the parties, the promoter must have known his statement of opinion would carry the weight of a statement of fact.

General Foods Kitchens
250 NORTH STREET, WHITE PLAINS, N. Y. 10602

We've heard a lot about Vitamin A and its importance in the development, maintenance, and growth of body tissue. Lots of our favorite foods are rich in this vitamin, including whole and evaporated milk, cream and butter, liver and kidney, egg yolk, spinach and kale.

How do you adults measure up on good food habits? If you are over 30, then you should be eating two or more servings of dairy foods like cottage cheese, yellow cheese, ice cream, and milk every day.

Well chosen snacks can add important nutrients to your child's diet. Some of the many nutritious snack foods on the market today are cold cereals, dried raisins, enriched breads, and crackers, milk, fruits, and fruit juices.

Some people hold strange ideas about what a particular food does for the body. For example, they believe beets makes blood. The truth is that foods containing protein and iron make blood--foods like liver, egg yolk, red meat, chicken, fish, dried beans, dried peas, and leafy green vegetables.

Be sure the white loaf bread you purchase is "enriched." This means important vitamins and a mineral have been added.

The deeper the color of green (or yellow) of the vegetables, the greater its food value. When you select green vegetables, keep in mind spinach, chard, kale, broccoli, and all the dark salad greens.

STAVING OFF STARVATION

Through its worldwide distribution channels, Catholic Relief Services is able to ship overseas thousands of tons of U. S. Government-donated foods annually. It thereby provides the basic daily nutritional requirements for more than 17 million needy persons.

ONE FOR THE ROAD

The rigors of driving drain a motorist's energy, especially in today's heavy traffic. Often, fatigue is the direct cause of a highway accident.

One of the solutions to overcoming fatigue is to eat candy whenever you drive. When a person is tired, the blood-sugar level is low; candy quickly raises the blood-sugar and fights fatigue. Candy bars like Luden's 5th Avenue bar, chockful of milk chocolate and almonds, and Luden's Nut Log bar, filled with milk chocolate, coconut, caramel and peanuts, not only furnish a quick pick-up for the driver; they also relieve monotony, drowsiness, tension and fatigue for passengers. On a family motoring trip, it's wise to take along a supply of candy bars, lollipops, caramels and other tasty confections.

THE PLAINS MOTEL

Accent on Health

Just a year ago Texas was at the crossroads in establishing a meat and poultry inspection program, but since that time the Texas State Department of Health has made the turn and moved ahead in providing necessary inspection.

Faced with the responsibility of providing adequate state inspection or having the federal government take over the program, the Texas Legislature passed a new Texas Meat and Poultry Act effective Sept. 2, 1969. The new law parallels minimum federal inspector requirements, which still apply on all red meat and poultry processed for interstate shipments.

Authority for the new state inspection program was invested in the Division of Veterinary Public Health of the Texas State Department of Health.

State Veterinary Meat Inspection School began its operation in Yoakum. R. C. Hall, D. V. M., coordinates the program from Dr. Rich's office, and Louis Boening, D. V. M., is training officer. By the end of the first year this September, the school expects to have turned out 240 meat inspectors.

Dr. Boening said five different courses have been established: 1. basic slaughter; 2. advanced slaughter; 3. processing; 4. poultry inspection; and 5. veterinary orientation. A new, specially-designed school is on the drawing boards for the continuously-operating program.

Inspectors who finish the initial training have received further training under veteran inspectors in commercial slaughter houses.

Recently added to Dr. Boening's faculty was Erwin Jewelka D. V. M., formerly with the veterinary medicine program in San Antonio. Leon Barrett, a lay meat inspector, is on the training staff and Mrs. Virgie Rutledge, office secretary, has given instruction in non-professional categories such as record keeping and filing. Some federal representatives have helped with classroom instruction.

In addition to class work, training has been given in federal and state inspected packing houses located in a 50-mile radius of Yoakum.

Aim of the program, said Dr. Rich, is upgrading of the meat industry and protection of the consumer.

TO THE LETTER

HOW MANY WORDS CAN YOU MAKE FROM THIS WORD BELOW?
T-Y-P-E-W-R-I-T-E-R

Typewriters are key instruments in the field of word processing which entails the combination of procedures, personnel and equipment accomplishing the transformation of ideas into printed communications. Typically, they are part of the basic equipment of all types of offices and many homes, although some such machines are incapable of adequately coping with paper explosion confronting business today.

One modern way to cut down on the paperwork problem is through use of a reliable, error-free machine known as the IBM Mag Card "Selectric" Typewriter which eliminates the frustrations caused by time-consuming erasures and revisions. Changes in text can be made without manually re-typing the entire page. The secretary simply inserts a magnetic card into a small console placed alongside her desk. She then types on the familiar keyboard. All she needs to do to correct an error is backspace and type over it. The Mag Card "Selectric" Typewriter then automatically produces a perfect copy at 150 words per minute.

How many words can you compile from the letters in the word "typewriter"? Try your hand at it for 15 minutes, then consult the bottom of this column—printed upside down—to determine how you rate.

A score of 20 or above is excellent, 17 good, 14 average, ten or less poor. Try matching your skill with those of friends and relatives. You can decide yourselves whether to permit use of a dictionary. You'll find that the more games you play, the higher your score will become.

ASR

MONTHLY COLUMN SYNDICATE

SALT SCOOP

by Rosanne

The warm summer months are a wonderful time of the year. There are barbecues, pool parties and lots of outdoor activities. It also is a time to remember the salt.

Keep in mind that you lose salt by perspiring. Add a little extra to your food as salt loss can be quite serious. If your activities are strenuous, salt tablets also may be needed.

For picnics you will find the miniature blue and white plastic containers of salt very convenient. There are matching pepper shakers, too. When you are having corn on the cob, try the special, very-fine-grain salt for pop-corn, which is in an appropriate yellow pack.

Direct mail for Rosanne to Morton Salt Co., age. It is great 110 N. Wacker Drive, Chicago 60606

One of the more pleasant family activities is to make your own ice cream. All you need is the freezer tub, the ingredients—ice—and salt. Complete directions can be found on the bright red, white and blue bag of ice cream and cooling rock salt. You can speed cooling of beverages and watermelons with rock salt, too, by sprinkling it liberally over the ice.

To help you plan successful summertime parties, I will be happy to send you a free leaflet, "Party Planning Principles," if you will just clip this article and the name of your newspaper and send them to me marked "Party Time."

LAFF OF THE WEEK

LIVE 'n LAFF

food

Sugar Grains

WHEN freshly-cut peaches are covered with a sugar syrup—to discourage browning caused by exposure to air—the peach flavor is not changed. Instead sugar's ability to intensify the flavor of other foods actually makes peaches taste peachier.

CORN on the cob is naturally sweet. But unless ears can be picked and cooked in minutes, flavor escapes. A teaspoon of sugar added to the cooking water not only revives the sweet corn flavor but also tones down any starchy taste which may have developed if the kernels between cutting and cooking.

COLORED sugar has many uses. Sprinkle it on cookies; make designs on a frosted cake. Scatter some on cereal. Try a blue banana, an emerald-shaded pear. Or dip the rim of a glass into lemon juice, then in tinted sugar for a dramatic iced drink. To make colored sugar, drop liquid food coloring—alone or combined for unusual shades—onto granulated sugar spread on waxed paper. Blend with spoon. When dry, store in screw-top jars for ready use—anytime.

READ the label on your favorite French dressing, and you'll find it probably contains sugar—not for sweetening, but to blend flavors better and to increase piquancy. (NP Features)

CUTICLE CARE

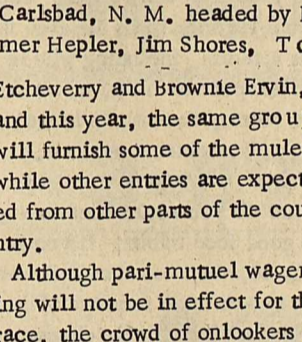

Nails should be manicured at least twice weekly to keep them in top shape. You needn't trim cuticles each time, but when you do, rub a little antiseptic first aid cream into them after removal. This treatment helps prevent skin irritation and possible infection.

Ruidoso Downs

RUIDOSO DOWNS, N. M. --- Racing at Ruidoso Downs reaches epic proportions Saturday, August 8th, when ten finely-trained mule entries will vie for honors in a \$400 added race at five furlongs. Fans will need to come a few minutes early on this particular day to insure themselves of getting a good seat for this "once-a-year" affair, because post time for this popular event will be 12:45 p.m.

All of the entrants will definitely be out to win, after putting up a \$25 entry fee, which will be added to the \$400 purse. With a total of ten mules starting in the "classic", the total purse will be \$650. Each entry must carry a minimum of 200 pounds, and be registered with the Mule and Jack Breeders Association of their particular area of the country. Mules in past "Mule-O-Ramas" have been furnished by a group from

YOU BET YOUR LIFE!

REMEMBER THE FIRST RULE OF SAFE BOATING --- ALWAYS WEAR A LIFEJACKET!

Carlsbad, N. M., headed by Elmer Hepler, Jim Shores, Tom Etcheverry and Brownie Ervin, and this year, the same group will furnish some of the mules, while other entries are expected from other parts of the country.

Although pari-mutuel wagering will not be in effect for this race, the crowd of onlookers is always sure to select and cheer for their favorites, whether it be because of their color, jockey or temperament. The mules are usually ridden by their owners or someone familiar with their antics. This ranges from teenagers to adults, men and women alike.

Remember post time for this colorful event will be 12:45 p. m., Saturday, August 8th.

OUTDOORS IN TEXAS

BY VERN SANFORD

Mr. Outdoorsman, add these facts to your "Of Interest" library:

In case you don't know, the ancestors of today's goldfish were green. Also, when goldfish are used for bait-minnows and get loose in streams they finally become carp.

All insect-eating birds have a special membrane on the eye retina to enable them to see the smallest flying insect. Sometimes the bird can see the insect much better than can man.

Those humming birds which flit around your flowering shrubs may be one of more than 300 varieties known to bird watchers.

Fishing pays off in dollars and cents. Stripper fishing in California is

said to return more than \$7 million annually to the state's economy.

Shortly before molting season, ducks and geese seek bodies of water where they will be safe from predators. They molt their primary feathers all at once and for a very short period they cannot fly.

Spider webs will stretch many times their length before they will break. They possess tensile strength greater than steel.

Hawks are said to have the best vision in the world. They can see eight times better than humans.

Birds need feeding during the winter months. Biologists say more die from starvation than from cold weather.

There will not be any Tokio News this week because Mrs. Fern Lowrey is ill.

We, the family of Josie Hobbs, wish to take this opportunity to express our thanks to everyone for the many deeds of kindness shown us during our bereavement. A special thanks for all the floral offerings, food, cards, and prayers. May God bless each of you.

The L. B. Hobbs Family

Agricultural Briefs

SO FAR SO GOOD - Keep the larvae samples coming in so that we can identify and treat all cases as they occur, is the word from officials of the Screwworm Eradication Program. Sterile screwworm fly production is being increased to meet the anticipated needs for the spring season. The officials urge livestock owners to step-up precautionary measures and to treat all animal wounds.

PLANT BEST SEED AVAILABLE - If you plant high quality seed, you are off to a good start toward a profitable crop. You may use recommended crop production practices, fertilize right and control insects but still come up with a poor crop because low quality planting seed was used.
