COWBOYS WRAP UP SEASON WITH A BANG

By Calvin Smith

68-26

The High-riding Cowboys were out of District contention, but never out of sorts about the idea of Cowboy spirit. Plains went to Lubbock, last Friday with the idea of winning and they did most convincingly. The weather was ideal for a good game of football in the Astro dome, but the Cowboys had handled such a situation before.

Even though the first quarter ended in a 6-6 tie, one might say the whole game was lop-sided in one respect or another. The Eagles picked up 285 yards in the game, while Gary Livesay attained 513. On the other hand, the Cowboys picked up 151 1/2 yards in penalties, while the Eagles were set back only 30. One atrocity might offset the other in a crucial game but the score of 68-26, indicates that the Cowboys were never seriously threatened.

LCHS kicked to Plains to start the game. On the fourth play from scrimmage, Livesay scrambled 31 yards to paydirt with 10:37 showing. The Cowboy defense held and the offense

took over again. An interception left the ball on the 28 of Plains. The first play from scrimmage viewed a touchdown pass with 6:47 remaining. The point after failed and the score stood 6-6.

Livesay opened the second quarter with a 3 yard touchdown drive. An infraction brought the ball back and nullified the score. Livesay then carried it to the one yard line, but another infraction annulled this run back. Two plays later, Livesay scooted 16 yards for another touchdown. You guessed it. . . . another flag and the ball was brought back. The only play the Cowboy got away with were the short gainers. The y eventually faced a fourth down situation. Livesay decided to give it one more fling, and scored again from the 12. To everyone's surprise, there were no flags. Super-knat Winn converted and the Cowboys led 13-6. On the next Cowboy series, Livesay galloped 40 yards to paydirt, with Super-knat adding his point. With 6:32 remaining in the half, the score stood 20-6. The

Eagles completed 2 plays before linebacker Mike McRae snatched an aerial and returned it to the Eagles 26. Livesay carried it over from the 12 and Super-knat added . It looked like it was going to be a run away -- but an 85 yard kick-off return look. The extra points failed and the score remained 27-12. On the next Cowboy series, Tony Chandler capped a drive with a three yard plunge. Super-knat pushed his scoring column leaving the score, 34-12. The Eagles returned the kick-off to the Cowboys 31, but the first play Super-knat take his second interception of the night. Plains failed to move the ball and had to give it up. LCHS got off one decent play before Guerry Randall picked off an Eagle pass and returned it 34 yards for Cowboy paydirt. Super-knat stiffened his toe, which was starting to swell, and added one more. With :47 remaining, the Cowboys led 41-12.

Both teams started off slowly in the second half. Finally, with 5:23 left in the third quarter, Super-knat ramblod off 5 yards

for a touchdown. The point after failed and the score stood 47-12. At this point of the game Super-knat had his toe about as loose as he could ever want it. The final play of the third quarter witnessed a 43 yard field goal that looked professional. Cow boys 50 Eagles 12 with 4:04 left in the game. Quarterback Joey Lowe skidded 4 yards for a touchdown. The extra point failed and Plains led 56-12. LCHS got back in scoring with 3:13 remaining. A 75 yard pass play capped the drive. They ran the extra points and the score was 56 to 20. Three plays later, Livesay galloped for 39 yards and one more Cowboy tally. Point after failed and the score rested, 62-20. The Eagles came back with 40 yard drive for six points. The point after failed and the Cowboys led 62-26. Livesay drove through the middle for 51 yards, to the 3 yard line of LCHS. Two plays later, he carried it in to score. The extras failed and the score froze at 68-26 in Plains favor. Shelley Simpson intercepted the last play of the game and it was all over.

The Cowboys played a good game and everyone was proud of the effort displayed. I am extremely proud of our boys for the hustle and sportsman ship they displayed throughout the season. I'd like to extend a word of thanks to the Plains coaching staff for the concern they seem to have for the welfare of our boys. It takes concern from both sides to make a winner and I feel like they accomplished just that. I'd also like to say to the Cowboy fans, that I hope they realize what a difference they can make by attending the games. We had more people show up at Lubbock last week than some of the home games I've seen. With that kind of community participation, we can go only one way. . . UPI Last, but not least, a word for the graduating Seniors. . . You've done a great job and no one could expect more from you. Give that same effort and determination in basketball and track. Memories last for a long time, and the harder you try, the better the memories.

Adverse Weather Interrupts Cotton Harvest

The Brownfield area cotton harvest was at peak activity until interrupted by the adverse weather, according to Bob Shults, in charge of U. S. D. A. Cotton Classing Office in Brownfield. This interruption will enable gins and the local classing office to gain on their backlogs of cotton to be ginned and classed. Samples from 22,700 bales were classed at the Brownfield Office during the week ending Friday, November 13th. This brought the total classed this season to 40,800. Through November 13th last year, 8,600 samples of the 1969 crop had been classed.

Quality continued good on these early harvested bales. Strict Low Middling was the predominant grade at Brownfield last week with 28% of all cotton classed. Middling made up 9%, Middling Light spotted 27% and Strict Low Middling Light Spotted 18%. Staple length improved slightly and averaged between 31/32 and 1-inch. 74% stapled 31/32 and longer compared to 67% the previous week. 80% of all cotton classed

at the Brownfield office last week had micronaire readings in the premium range of 3.5 to 4.9. Nine% "miked" 3.3 through 3.4, and 8% "miked" 3.0 through 3.2. 87% of the cotton. Brownfield last week had Pressley readings of 80,000 pounds and higher. Pressley is an indication of fiber strength and the most desirable Pressley reading is 80,000 pounds and

Prices declined another \$2.50 to \$5.00 per bale for Brownfield area cotton but this decline was general at all gins on the South Plains.

Prices quoted by the Lubbock Cotton Exchange for the most predominant qualities in the 3.5 to 4.9 micronaire range were: Strict Low Middling 31/32 - 20.50, Strict Low Middling 1-inch - 20.80, Middling Light Spotted 31/32 - 20.85, Middling Light Spotted 1-inch - 21.25, Strict Low Middling Light Spotted 31/32 - 20.10, Strict Low Middling Light Spotted 1-inch - 20.40. Cottonseed prices were steady and ranged from \$57.00 to \$62.00 per ton to the farmer.

High School Mails

Report Cards

Report cards for all high school students will be mailed to parents Thursday, November 19. The grade on report cards is the estimation of the growth and progress of pupils toward objectives or values in the curriculum. The purposes of the grades are to provide for the collection of evidence which will show the degree to which pupils are progressing toward curricular goals, and to permit teachers to evaluate the effectiveness of curricular experiences, activities, and instructional methods. This report card indicating the progress of the pupil is mailed each six weeks.

A DEFICIENCY REPORT will accompany each report card that shows a grade below 70. This report will show why we think the student is deficient and will also give recommendations of things that we feel will help the student in bringing up the grade. Parents should make sure that they receive the report cards and after studying the cards, sign and have the student return the cards to the High School Principal.

Fire Dept. Busy This Week

The volunteer Fire Department has been called out three times in the last few days. One was at the Yoakum County Coop Gin where a trailer loaded with cotton caught fire. The Fire Department was able to save the load of cotton, but the trailer burned up.

Two calls have been made to the Bronco Gin where the bur pits had caught on fire. Both cases were hard to put out as bur pits can easily fool you. They think they have all the fires out, and it will start burning again where it had been smoldering inwardly, and the work must start anew.

Community Thanksgiving Service

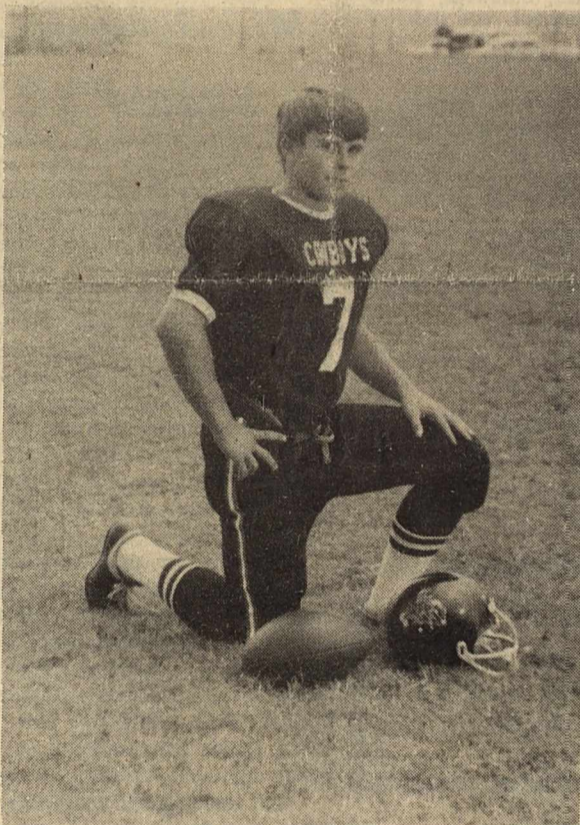

Gathering together, Monday, November 23rd at 7:30 p.m. will come many Yoakum County residents to declare God's Greatness and the fame of his abundant goodness. The hymns of praise, including the long loved "America the Beautiful" are to be sung by a joint choir, and soloist, Mrs. Bobby White. The Mayor of Plains, Mr. Roy Edwards, will read the first historic presidential "Thanksgiving Proclamation" made by George Washington. The sound of Mr. Gerald Ritchie's trumpet will issue the distinct call to praise.

Youth will join with adults to help form the choir and provide the pianist, Miss Shelley Williams, daughter of Mr. and Mrs. Charles Williams. Mrs. Bob Blundell will serve as organist. All persons desiring to sing in the community choir are asked to contact Mr. Roy-

ace Aikin, organizing director. Children will gather five minutes early in the chapel of the church where Mrs. Charles Williams and Mr. Leo White will organize them in a team to ring the tower bell.

The Bible word will be read by the Reverend H. A. Tarkington, pastor of the Assembly of God. The 23rd Psalm will be read by the Reverend Mr. Frank G. Ramos, pastor of the Mission Bautista Nueva Vida. The contemporary Word will be preached by the Reverend Mr. Jim R. Mosley of the First Baptist Church. Mr. H. W. Culwell will lead the congregational singing.

The United Methodist Church Sanctuary will be the meeting place and all the many participating churches hereby invite the general public to gather together in the giving of our Thanks to God.

Gary Livesay closed out his high school football career last Friday night, but Livesay didn't stop; time just ran out on him. It was a night Plains fans will long remember, as Livesay and mates blasted Lubbock Christian High School 68-26.

Although only a 155 pounder, Livesay started three years for the Cowboys, and Friday night, the senior zipped in for six touchdowns. He had only 13 for the nine previous games but his scoring total was nothing compared to his rushing total--an astounding 462 yards. The team-sized total came off 31 carries, an average of just under 14 plays per-try. And this effort brings Livesay to the No. 1 spot on the Avalanche Journal's weekly Schoolboy Honor Roll list.

"Country Fair"

YOU ARE CORDIALLY INVITED TO SPEND AN "OLE FASHIONED" EVENING OF FUN AND EXCITEMENT AT THE ANNUAL "COUNTRY FAIR" BAZAAR, SPONSORED BY THE TSA MO GA STUDY CLUB. THERE WILL BE DELICIOUS HOMEMADE FOODS FOR SALE, GIFTS FOR ALL AGES, GAMES OF CHANCE, GYPSY ENTERTAINMENT, COLORFUL CLOWNS -- CANDIED APPLES, CORN ON THE COB, POPCORN BALLS, HOI DOGS, CHILI, HAMBURGERS, AND TASTY HOMEMADE CANDIES, ALONG WITH THE HIGHLIGHT OF THE EVENING. . . . THE AWARDING OF THE CHEST-O-PLenty, AS PICTURED ABOVE. DON'T MISS IT!!!!!!

S. E. WILLIAMS, OPERATOR FOR A. B. CARPENTER FARMS. . . . CHISEL PLOWING AND CROP RESIDUE MANAGEMENT (SCS Photo)

Crop Residue Management

BY WILSON DUKE

Now that grain sorghum harvest is nearing completion, what to do with the residue or stubble always crops up. Should I plow? Should I graze the stubble? What is it worth left on the land?

First of all, if land is plowed now, the land will be bare for the next 5 months and subject to wind and water erosion for that period of time. Also soil temperature will be below 60 degrees and very little bacterial action will take place.

Moisture will be lost by plowing now and any moisture received after plowing in the form of snow, will generally blow and drift to areas where it is not needed.

Research has proven that residue or stubble left on the surface of the soil will save up to two inches of moisture that will surely be needed next spring when planting time rolls around.

Not only will the moisture be conserved, but our top soil, organic matter, and plant food will be left intact, therefore production from succeeding crops should be on the increase rather than on the decrease as some producers have experienced.

Crop Residue is our best and most economical soil protector. . . . LET'S KEEP IT!

Humble-Bedford No. 1 Shows Oil

An oil well being drilled by Roard & Hooker of Abilene, and Purvis & Stewart of Midland in the San Andres, located 1,980 feet from south and 660 feet from the east lines of Section 186, Block D, John H. Gibson Survey, were drilling below 9,650 feet in lime and shale after recovering shows along with salt water on a drillstem test in the basal Wolfcamp. Oil and Gas-cut mud was recovered after tool was open 1-1/2 hours on the test from 9,458 - 9,550 feet with 180 feet of heavy oil-gas, and mud-cut salt water and 150 feet of salt water. Sample chamber recovery was 1.9 cubic foot of gas, 300 cubic centimeters of oil and 400 cubic centimeters of mud. If this well comes in, it will be called the No. 1 Humble-Bedford.

V.A. Loans

Jack Coker, Director of the Veterans Administration Regional Office in Waco, announced today that VA loans to finance mobile homes for veterans and servicemen will be available starting December 22.

He said PL 91-506, which President Nixon signed October 23, authorizes VA to guarantee or make direct loans for this purpose.

Earlier this year, the President's Committee on the Vietnam Veteran on which Donald E. Johnson, Administrator of Veterans Affairs, was chairman, recommended legislation on mobile home financing. The committee said the legislation was needed to provide "Low Cost housing for low and moderate income veterans."

The law which provides financing for mobile homes also restores expired GI loan benefits to some 8.9 million World War II and Korean Conflict veterans. The law also preserves these benefits for all veterans who served after January 31, 1955, until they are actually used.

Another provision eliminates the .5 percent funding fee VA formerly required Post Korean veterans to pay on guaranteed and direct home loans. It was emphasized this provision does not affect loans made before October 23, the date the bill was signed.

The law also makes direct loans for specially adapted housing available to seriously disabled veterans in all parts of the country.

Yoakum Co. Farmers Union

Yoakum County Farmers Union will meet Monday, November 23, at 8:00 p.m. in the clubroom at Plains, for their monthly meeting.

Community Action Meeting Held

The Yoakum County Community Action Committee met at the community building in Denver City Thursday November 12th. Mr. Roy Edwards, president, presided at the meeting. A group of about 40 persons were present at the meeting. Three of these were present for the purpose of participating in the committee's program in one form or another.

Mrs. Esther Navarez, field worker for the Yoakum County Committee, stated that 49 new families have been added to the survey of those eligible to participate in the county program. Mr. W. O. McLeod, community action coordinator, expressed his satisfaction with the manner in which the organization is progressing. He stated that several seminars have been held in which training was being afforded the field worker or outreach workers as he terms them.

The Board of Directors elected Mr. Klei Quesenberry of Plains to fill the vacancy on the board which was created by the resignation of Mr. H. O. Trent of Denver City.

Miss Lupe Flores of Plains, was hired as assistant to Mrs. Navarez. With the addition of Miss Flores to the staff, two offices will be maintained. One at the community action center at the First Christian Church building in Plains and one in Denver City at the community building. Both ladies will work from the same office on the appointed days. They will be in the Plains center Monday, Wednesday and Friday and at the Denver City Center Tuesday and Thursday. Office hours will be 8:30 a.m. to 5:30 p.m., exception of noon hour. Phones will be maintained in both offices and with the county wide toll free phone service, contact may be had with the workers constantly throughout office hours, regardless of the office they are in. Mr. McLeod reported that there is still need for a Registered Nurse for the Yoakum and Terry County area. A nurse has been obtained for the Garza and Lynn County area.

Mrs. J. M. Tippet of Plains, chairman of the adult education committee, reported fine progress in the organizing of teachers and assistants for this program. Mrs. Sudie Thompson, Yoakum County Home Demonstration Agent was present and stated that she would be able to arrange for household classes after Christmas. Also, reported Mrs. Tippet, arrangements have been made with the Plains vocational training school for a class in vocational training one night each week under a Plains School teacher. Speech and reading classes are also being arranged. Mrs. Tippet stated that a pre-training for teachers would be required before the program could be put into action. A survey and written request was taken of those wishing to register for training in the various categories, and a very enthusiastic response was received.

The Committee will meet the 2nd Tuesday of each month, alternating the meeting place. One month the committee will meet at the Plains Center, and the next month, at the Denver City Center. These meetings are open meetings and the public is encouraged to attend. The Plains phone number is 456-5181, and the Denver City number is unavailable as the phone had not been installed at the time of the meeting.

Picture Retakes

Picture retakes will be Monday, November 23 at Plains Independent Schools. Pre-schoolers will meet at the Home Economics Department in the High School Building.

FFA

Turkey Shoot

Plains annual FFA turkey shoot will be held on November 21, 1970, from 1-5 p.m. at the caliche pit, one-half mile east of town on the Brownfield highway. Bring your shotguns and high-powered rifles and win a Thanksgiving turkey.

C OF C

Xmas. Plans

The Chamber of Commerce announced at their meeting Wednesday morning, that the judging of the Christmas dwellings decorations will be judged through the week of December 15th. There will be no entry fee for the judging but those wishing to compete must register with the Chamber of Commerce office in Plains, in order to be eligible for the judging. Any home within the Plains trade area may enter.

It was further announced that December 19th will be Santa Day in Plains, and the hour of appearance of Santa will be 10:00 a.m. Gifts of candy and fruit will be presented to the children at that time.

NOTICE

Please bring in all local news on Monday, prior to the Thanksgiving holiday, rather than the usual Tuesday deadline. It will be necessary to go to press a day earlier.

Editorials

When it is announced that the President of the United States will speak over television, we assume that everyone makes an earnest effort to be near some TV set, to view and listen.

Consequently, we were amused when we received some statistics from the Texas Press Association regarding what the people were doing at the time of a recent appearance of the president on TV, and how many people rushed to their TV set for this special occasion.

- 25 million people were in their cars traveling somewhere
20 million were in buses, airplanes, trains, and other public transportation without TV sets
30 million teenagers listening to stereos and doing homework
40 million were in rooms of their dwelling other than the TV room
15 million were in movie theaters, sport games and other events
10 million kids under 9 were in bed
10 million kids over 70 were also in bed
10 million were at PTA meetings, prayer meetings, and other meetings
5 million partisan Democrats still refused to watch President Nixon
5 million were in restaurants and taverns
3 million, counting Armed Forces, were overseas
4 million forgot about it
100 thousand were in jail
20 thousand were participating in some sports event
10 thousand were working nights to get out the next morning paper

Which results in a total of 202,130,000 U.S. citizens who did not watch the TV on that occasion.

After checking the present census for the U.S. we wonder who did? But never mind, most people still read the newspapers and they were informed.

Every era has to have its scarecrow. If it isn't famine, it's over production. One time there is threat of a money panic, and next we have inflation and too much money.

How ever, there are a few old ones around like pollution with nestlings shedding their pin feathers and about ready for flight. Of course the discovery of pollution has some great potentialities. It can create lots of jobs just cleaning up the mess the World has made with all its progress the last couple of decades.

Trouble is that some of these pollution discoveries are running out of solutions. Take the mercurized fish scare, the cause of which was laid to modern methods of producing materials. That one could have curtailed the fish industry. Already HEW has laid down rules for how fish

may be consumed. The big threat is mercury poison which causes brain damage and blindness and a few other ailments. Sure sounds like a lot of these government officials were big fish eaters doesn't it?

Well after all MAN is a very adaptable creature. He has endured many pollutions. With all the big scare about air pollution, man has always had to live with it if his forefathers were anything like the man of to-day. If he can live with that recent deluge of pollution so often likened to bovine excreta and so profluently used at election time air pollution should not be a frightening problem. And a group of scientist in Colorado have just blown the lid off the mercurized fish scare. They found fish with high mercury content in the pure mountain waters where there was no cause of pollution except old Mother Nature herself. And here these fine fish have served as a palatable diet for mankind for centuries. Wouldn't it be funny if that discovery were to start a prospectors boom with a lot of prospectors leading a jack-ass trying to follow a fish to find where it found the precious metal? After all, that could help reduce unemployment. And the government could subsidize the industry and put a lot of money into circulation. Of course it might boom mining stocks that would be inflation. Well, some good always comes from somewhere.

Friendly Chats

With

Faye McConnell

There's a lot about tomorrow That I do not understand; But I know who keeps tomorrow, And I know who holds my hand.

I want to thank the Plains Volunteer Fire Department for the nice letter I received from them. When I wrote that article, I was not thinking of being praised for it. I wrote only the words that were coming from my heart, and I sincerely thank you.

The other day for lunch, Nicole McGinty, our little song-bird, did not want to eat her carrots. Her mother, Dixie Ruth, said: "But you must eat your carrots because they make you have pretty eyes."

A few minutes later, Nicole said: "Oh, yes, mother, I can see that they are already making my eyes pretty." They looked at her and she had her head back with a carrot in one hand, holding it over her eye.

Don't ever sell Billy Graham short... the evangelist, who has a knack of saying a lot in a few words, scored another TV triumph when interviewed and the subject of sex education came up. He said he thought prudent sex information (and he stressed the word 'prudent') might be appropriate at the high school and even junior high school levels, but not with the third and fourth graders. Then he summed up the school situation in eight little words: "They've ruled our prayer and ruled sex in." And that just about says it like it should have been said long before now.

If you haven't done so in the last few months, drive your car upon the hill on the north side of Plains at night and see how pretty the town looks with lights gleaming from every home and the street lights all lighted up. I noticed this last Friday night as I was going home from Lavern's, and it made me glow with pride that this was my town. The way the town is scattered out, a person would think that he lived in a city much larger than it really is.

Hawkins Grocery did not have time to make up a Thanksgiving ad this week, but they do have turkeys, hams, chickens, fruits and fresh vegetables for salads, fresh cranberries, and most everything you will need for your Thanksgiving dinner.

My sister Dixie went into the Hospital in Lubbock Tuesday afternoon and was operated on Wednesday morning for a tumor. At this writing we only know that she came out of the operation in good shape, and I sincerely ask the prayers of my readers in her behalf.

Our daughter, Laverne, is recovering satisfactorily according to the doctor's report last Wednesday. She must still rest 14 hours each day, but can get up and take a little bit of exercise.

There are few things more permanent than a temporary tax.

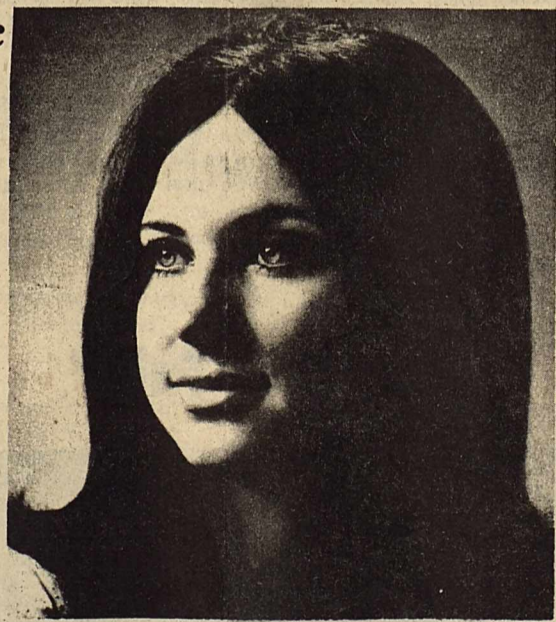

Thought For The Week

After we have elected the best man to an office, we begin by trying to make him bad by asking him to do things for us that we wouldn't want him to do for every citizen.

The Sound of Music

BECKI BENNETT Maria Rainer

Becki is a junior elementary education major from Denver City, Texas. Becki appeared in many dramatic productions in high school, including the lead role in Our Miss Brooks. At ACC, Becki is a member of the A Cappella Chorus, Ko Jo Kai women's social club, and is president of Campus Christian Women. The Sound of Music is her first production at ACC.

Becki Bennett, daughter of Judge & Mrs. Gene H. Bennett, played the leading role in "The Sound of Music" as Maria Rainer. This musical was first opened on Broadway with Mary Martin playing the leading role in the new Rodgers and Hammerstein musical play in 1959.

Since this time, it was made into a motion picture, which was released in 1964, and grossed over \$100,000,000.00, by far the highest grossing production in the history of motion pictures. It was indeed a hit both on stage and screen.

From a dramatic standpoint "The Sound of Music" is a solidly constructed play. It is a love story, children's story, and political drama all rolled into one compelling true story of Maria Rainer, who was once a nun, but who decided to marry Captain Von Trapp, the father of seven children. The musical is concerned basically about the value of personal integrity. Maria is forced to be true to herself, even if it means leaving her life in the convent. The decision to be true to oneself is one that all must make for themselves, regardless of race or religion.

The final song summarizes the inspirational theme of the musical: "Climb every mountain, Ford every stream, follow every rainbow, Till you find your dream."

Oscar Hammerstein once remarked that he had only one thing to say in all of his plays - simply "Love one another." This is particularly true of "The Sound of Music." Love radiates throughout the entire script. Perhaps Hammerstein's message of love is best expressed in the words of another of the musical's songs:

"A bell is no bell till you ring it; A song is no song till you sing it; And love in your heart wasn't put there to stay; Love isn't love till you give it away."

Bridal Courtesies

Wedding Announcement

Mr. and Mrs. Olen M. Edwards of Route 1, Plains, Texas, announce the engagement and approaching marriage of their daughter, LaVern Edwards to Earl Wayne Peugh, son of Mr. and Mrs. J. W. Peugh of Route 2, Muleshoe, Texas. They will be married, December 26, 1970 at the First Baptist Church in Plains, Texas.

The Bride graduated from Plains High School and is now a freshman at South Plains Junior College in Levelland, Texas. The bridegroom graduated from Muleshoe High School, and is now a sophomore at South Plains College.

Miscellaneous Shower

Miss D'Lynn McGinty, bride-elect of Mike Whitten, was honored with a miscellaneous shower, Saturday, November 14, at seven o'clock, in the home of Mr. and Mrs. Pat Henard.

The serving table was laid with white lace over cherrypink and cake squares with pink punch served from a Cranberry Glass punch bowl, were served to guests from Plains, Brownfield and Lubbock.

The other hostesses assisting with the hospitalities were: Mesdames, G. W. Cleveland, Ircilla Henard, Joe Thompson, Norelle Sloan, C. M. Thompson, K. O. Hendricks, W. P. Turner, Roy Perkins, W. L. Camahan, Bob Jones, Glenn Morehouse, L. O. Smith and Gene Smith.

The wedding will be November 28 in San Angelo, Texas.

Pink & Blue Shower

A pink and blue shower, honoring Mrs. Alton Raines, nee Shirley Bilbrey, will be held Monday, November 23, 1970, from 2 to 4:30 p. m. in the home of Mrs. Dorothy Kelley of Tokio.

Gladiola 4-H Club

The Gladiola 4-H Club had a candlelight ceremony in installing officers for 1971, Saturday night in the Gladiola Youth Center. Robert Henard, assistant county agent in Lea County was the installing officer. Those installed were: Dicky Hartman, President, Janet Townsend, Vice President, Bonnie Sue Atkinson, secretary-treasurer, Lebeth Box, reporter, Roy & Rene Bradford, song leader, and Jimmy Clark Atkinson, recreation leader. Mr. Henard also awarded 1st and 2nd year 4-H year pins to each of the members. Adult leader pins were also awarded Mrs. & Mrs. Lee Roy Box, Frank Griffin and Mrs. Clark Jones. A turkey dinner was enjoyed by the 41 people attending. A bake sale will be held in Tatum Cash Grocery by the 4-H Club, Saturday, November 21st. Bonnie Sue Atkinson was honored with a cake and gift celebrating her 11th birthday.

There will be no meeting in December. The next meeting will be January 9th, 1971.

Public Meeting in Lubbock

Interested couples are invited to attend a public meeting on adoption sponsored by the South Plains Aux. of the Edna Gladney Home in Lubbock, Texas on November 23, 1970, 7:00 p. m. at the Southwestern Public Service Reddy Room, 1120 Main Street, Lubbock. Speakers will be Mrs. Daurice Robison, Social Service Director and Miss Barbara Daniels, Supervisor of Adoption associated with the Edna Gladney Home in Fort Worth, Texas. For further information contact Mrs. Duane Housouer, 3204-67th St. Lubbock, Texas or call 795-0000.

SUDIE THOMPSON CHDA★ SAYS...

If a turkey gobbles at you it means you're welcome. That's an old superstition that you might have some difficulty proving today. Not too many years ago, every farm family kept a few turkeys -- mainly to provide the central attraction for Thanksgiving and Christmas dinners. So a visitor driving up to a farmhouse probably would be greeted by a gobbling turkey in the barnyard.

Today, turkey raising is principally a specialized kind of farming. Although fewer farms have turkeys, the turkey flocks on these farms usually run into the hundreds and thousands. And these growers plan production so that you can buy turkey every day of the year.

Turkey's such a versatile food, you can serve it in many different ways. After the holidays, it's delicious cold in sandwiches and salads. It's tasty hot in soups and casseroles. Creamy turkey, sparked with your favorite herbs, is a summer delight. Roast turkey is always a sure-fire favorite. Have you tried roasting a turkey on the grill?

We all have favorite ways

of doing things, especially in a kitchen at holiday time. But some commonly "accepted" ways of roasting turkeys are far from acceptable -- in fact, they can be dangerous, say meat and poultry inspectors in the USDA.

Don't for example, roast your turkey in the oven all night long at a low temperature. Instead, roast it at the proper, higher temperature for fewer hours in the morning to effectively destroy bacteria. The internal temperature of the bird, when done, should be 180-185F. (To best test for temperature, insert a meat thermometer in the center of the bird's inner thigh muscle so it doesn't touch the bone.)

Don't partially roast your bird the night before the finish cooking in the morning, either. And never leave it in a cool oven overnight because of lack of refrigerator space. Sound rough? Maybe so. You may have to rearrange the contents of that "fridge" and -- you may even have to get up a little earlier on the big day. But doesn't the assurance of a safe, wholesome meal for your family and guests make it worthwhile?

90th. Birthday Honored

Mrs. Sallie Parks was honored on her 90th birthday November 5th, at the home of her daughter and son-in-law, Mr. and Mrs. Foy Cogburn. Those attending were Mrs. Ben Gibson, Mr. and Mrs. Robert Young, Mr. and Mrs. James Cogburn, Suzie, Judy and Dennie, Mr. and Mrs. Edwin Cogburn, Jena and Kristi. Mrs. Parks also enjoyed cards sent to her from Mrs. Julia Batchelor, and Mr. and Mrs. Perry Anthony.

Sallie, along with her late husband, Jim Parks, moved to the Gomez community in 1909. They hauled lumber from Big Springs, the nearest railroad, by a horse-drawn wagon. At that time, Brownfield and Lubbock were not as large as Gomez.

We wish to express our heartfelt thanks to our friends and neighbors, for every expression of love shown to us at the death of our loved one. The prayers, flowers, food and cards meant so much.

Ann & Stark Wagley

GENE BENNETT PLAINS REVIEW

THE INDWELLING CHRIST SPIRIT

No parchment or piece of paper, no matter what the cost in blood, sweat and tears, can free you or me from fear, worry, anxiety, despondence, bias, envy and so forth.

Only the truth can make us free. The truth that we are made in the spiritual image and likeness of God. The truth that we are one with God. The truth that now we are the children of God. Not until we know and live according to our Divine posture are we free.

If we want to be free of all sin, sickness, superstition and suffering, then we must be "still and know" the God who dwells within us. Once we are aware that our real power is of God, whose wisdom and love guide us in ways that neither harm nor hinder us, we can really be free.

Permanent happiness comes only from an inner sense of certainty which cannot be shaken. The mind must reach a place where it no longer remembers the past with anxiety, or looks into the future with uncertainty. If you believe in God, if you believe in your own soul, then no matter what situation confronts you, you can be happy.

The will of God for you is the will of a boundless life flowing through you. It is the will of joy, success, of happiness, of peace, of abundance. It is the will of the kingdom of heaven, not absent from this earth, but imperfectly seen. While it is true that suffering exists in the world, that poverty and unhappiness have been the common experience of mankind, it would be an unwise person who would ascribe these negations to the Divine Will. God looked upon all that he had created and called it good, very good.

When the Prodigal son was in a far country, destitute nothing had happened to the Divine abundance. The Father's house had not been dismantled. The celestial garden still produced the fruit of the vine. But the son's face was turned, his eyes were closed, his ears were stopped, his consciousness was numbed. He had to come to himself. In coming to himself, he met face to face the heavenly Presence which pervades all. He was unfolded in the arms of love upon his return to his Father. A banquet was spread before him. There was feasting, enjoyment, reconciliation.

Where had God been all this time? God had not been away anywhere. The Divine Spirit is always present and appears wherever recognized. As you enter more completely into conscious union with life, you will realize that the universe holds as much good for you as you can take; that you can take only what you accept.

You cannot draw love into your consciousness through hate. You cannot draw peace from confusion. You cannot see beauty through ugliness, nor hear harmony while your ears are filled with discord.

Let's start each day off with the resolution that we will speak evil of no one; be jealous of no one, hold a grudge against no one. When we look at a person, realize that he has the Christ spirit in him the same as we do, but perhaps has not realized the Presence just as the Prodigal son had not realized the Presence. Focus your inward vision on this indwelling Christ Spirit, knowing that as you contemplate its perfection, you will see it manifest in every thing you do.

"Let this mind be in you, which was also in Christ Jesus," Philipians 2:5

Mr. Silas Kee returned home from the Denver City hospital Saturday afternoon, after a series of test were made. He was released in good health.

Mrs. Frank Upton returned home from the hospital Tuesday. She has been a patient in the Brownfield hospital.

Mr. Ralph Bone had his brother, R. B. of Dallas to visit him last week.

Mrs. John McConnell and Miss Sue Stephens of Denver City took Mrs. D. C. Newsom, Jr. to Lubbock last week for a check up.

Mr. & Mrs. Dick Hillbish of Lubbock was in town last Friday. She is to have surgery this week at Methodist Hospital in Lubbock.

Pete Wilkerson was taken back to the hospital Sunday after spending several days at home.

Mr. & Mrs. Geo Blount caught a plane in Lubbock Monday for Memphis, Tenn. where George is undergoing tests for surgery soon.

Mrs. Sallie Tanner of Sligo is visiting her daughter, Mrs. Kenneth Blount this week.

Mr. & Mrs. G. T. Blount spent Friday night in Midland with Mr. & Mrs. Fred Blount. They visited Mr. & Mrs. Shirley Curry in Seagraves Saturday.

Mr. & Mrs. S. Streetman visited their daughter, Mrs. Don Trice & family in Jalisco.

Mr. & Mrs. Raymond Palmer of Sunray visited their son Jack and family over the weekend.

Bob McDonnell is attending a school this week at A. & M. University.

Mrs. Hollis Wolfenbarger & boys of Sundown were visiting here over the weekend, while Hollis had gone deer hunting. Marie & Helen Grisham of Brownfield were here also.

Mrs. Mary Shelley of Kermit brought Mrs. Bernice Wilder also of Kermit to visit her cousin, Mrs. D. C. Newsom, Sr. last week. They all visited Mrs. J. L. Hyde one day.

We wish you a day blessed with abundance. Let us pause to give thanks, as did our Pilgrim forefathers that first Thanksgiving.

NOTICE TO BIDDERS

Sealed proposals for the construction of Remodeling of Old Courthouse for the County of Yoakum, Plains, Texas, addressed to Honorable Gene H. Bennett, County Judge, Yoakum County, Plains, Texas will be received by the Architects and the Commissioners' Court in the Yoakum County Courthouse until 1:30 P. M., Central Standard Time, December 8, 1970, at which time they will be opened publicly and read aloud.

The proposal shall cover the entire construction (General Construction, plumbing, Heating, Air Conditioning and Electrical Work.)

Each proposal shall be accompanied by a cashier's or certified check or an acceptable proposal bond in the amount of Five percent (5%) of the greatest amount of the proposal submitted, payable without recourse to the order of Gene H. Bennett, County Judge.

Copies of plans and specifications may be obtained from Stiles, Roberts & Messersmith, Architects and Engineers, 3307 Avenue X, Lubbock, Texas upon a deposit of Fifteen Dollars (\$15.00) for a complete set as a guarantee of the safe return of plans and specifications, the full amount of which will be refunded upon return of plans and specifications in good condition within ten (10) days after receipt of bids.

The Court reserves the right to reject any or all bids and to waive any or all formalities.

Windmill Familiar to Museum Visitors

Dominating the view as a visitor enters the central unit of the Museum of Texas Tech University is an Eclipse windmill, which serves as a focal point at the entrance to the Pioneer Hall.

Long a landmark on the prairie, the windmill took its energy from the air to draw water from the earth, making settlement possible on the Great Plains.

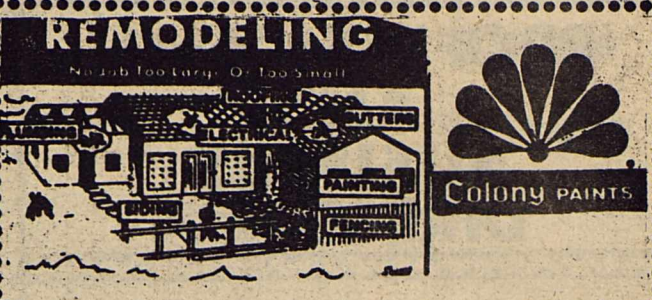

The gift of Mrs. James Levi Dagley of Lockney, Tex., the Eclipse windmill was a highlight of the Life on the Plains Gallery in the original Museum building in the heart of the Texas Tech campus, and has been reconstructed in the 25 foot high hall.

Although an ancient form of harnessing nature's power, windmills were not used in connection with water wells until the mid-nineteenth century. Then, as the American frontier reached the arid and semi-arid West, where surface water was scarce and ground water too deep for rope and bucket wells, the self regulating windmill was invented.

The Eclipse mill in the Museum is typical of thousands which pumped water for cattle, crops, industries, and man.

Other windmills are being acquired for installation on the grounds of the Ranch Headquarters outdoor museum, east of the new Museum building.

Tax Man Sam Sez

April 15 is the deadline for filing your income tax return. If you owe additional taxes, waiting until April 15 might be good business. However, on January 1 about 2/3 of the taxpayers have a refund coming to them from Internal Revenue. The taxpayers can't file until January 1 and Internal Revenue can't send out his refund until they get his tax return, Form 1040. The taxpayer must also wait until he receives his Form W-2 from his employer. It is usually good business for all taxpayers to gather their records and figure their income tax as soon as possible after January 1. Even if you owe money and don't have the money to pay, you need to know. If you know on January 2 that you will owe a lot of money on April 15, you can come a lot nearer raising the extra taxes owed than the fellow who waits until 11:59 on April 15 to figure his tax. It is always good business to find out where you stand as soon as possible.

Free Arbor Day Program Kits

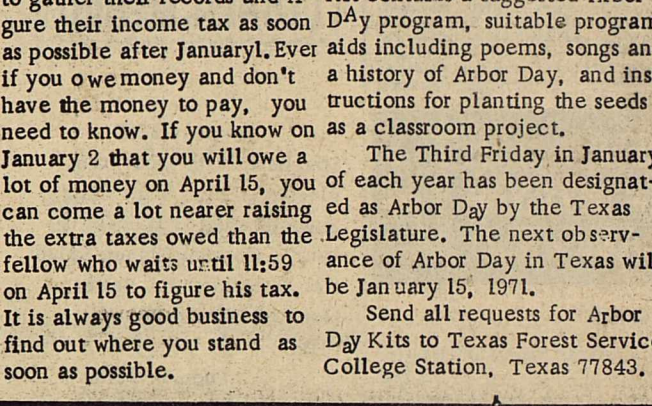

COLLEGE STATION, Texas-- Free Arbor Day Program Kits are being offered again to school teachers and conservation minded organizations by the Texas Forest Service. The Texas Pecan Growers Association is cooperating in the program by providing high quality pecan seeds which are a part of each Arbor Day Kit.

In addition to the seed, the kit contains a suggested Arbor Day program, suitable program aids including poems, songs and a history of Arbor Day, and instructions for planting the seeds as a classroom project.

The Third Friday in January of each year has been designated as Arbor Day by the Texas Legislature. The next observance of Arbor Day in Texas will be January 15, 1971.

Send all requests for Arbor Day Kits to Texas Forest Service College Station, Texas 77843.

WASHINGTON AND SMALL BUSINESS

AS HEARD BY HEARD

Tax Revision

Further evidence of a growing national concern over the welfare and future of the small and independent business sector of the nation is found in the proposed "Small Business Tax Simplification and Reform Act of 1970" introduced by Senator Alan Bible, Chairman of the Senate Small Business Committee, and by Senator Quentin Burdick of North Dakota.

One of the major innovations in the bill is that which would permit the earnings of a new small firm to be exempt from income taxes during the first five critical years of operation.

While action is not expected on the extensive eight part bill this session, it is slated for substantial discussion in the new Congress in January.

Senator Bible while acknowledging that the 1969 Tax Reform Act was needed measure, states, "But the tax Reform Act did not help the small businessman to deal with his problems, in fact, it hurt him in several very important areas."

Senator Bible and Senator Burdick acknowledge that their proposed legislation, which contains many innovations, drew heavily on findings of the Research staff of the National Federation of Independent Business.

Included in the bill is a partial restoration of the seven percent investment credit. When this tax provision was eliminated by the action of the Congress, it was based on the contention that it had become a

THE FAMILY LAWYER

"Found" Life Insurance Policy

When a man dies leaving life insurance, notice of his death should of course be given to the insurance company.

But suppose the family simply doesn't know the policy exists. If they find out about it weeks, months, or even years later, could they still collect? Or have they lost their rights because of the delay?

Insurance policies usually say that the notice of death must be given "immediately" or promptly. Sometimes they even fix a specific number of days as a limit. Nevertheless, most courts are

willing to overlook this requirement if there is a reasonable excuse for the delay.

In one case, a woman had never been told about an insurance policy bought by her husband's employer. Several months after his death, she happened to find out about the insurance—and put in her claim at once.

Even though the policy called for "immediate" notice of death, the court held she could still collect. The judge said "immediate," in these circumstances, meant right after she learned of the policy's existence.

On the other hand, courts do recognize the importance of promptness to the insurance company. The company should have a fair chance, if it so desires, to inquire into the cause of death before too much time has gone by.

Accordingly, a delay due to negligence will not be excused. One widow just didn't bother to go through the "junk drawer" in which many of the family papers were kept. When she finally found an insurance policy there, years later, her claim was turned down because of her own negligence.

Even if there is a legitimate excuse, the delay may be so extreme that the policy will lapse anyhow. Take this case:

An insurance company was startled to receive a claim for a death that had occurred 33 years earlier. The widow did have a plausible explanation for her tardiness, but a court ruled she could not collect anyhow.

"Witnesses faded," said the court. "The claim has grown stale."

Soil Test Now for More Profit in 1971

BY LEO WHITE

The end of the growing season is the ideal time to collect soil samples. When crops are harvested and producers are well aware of the trouble spots in their fields they should be sending some samples of their soil to the testing laboratory and find out just what fertilizer materials should be applied for the next crop. Failure to do this and follow the recommendations could be a costly error.

Soil testing, like other technical agricultural techniques, has changed considerably in recent years with respect to laboratory facilities. For example, the Extension Service Soil Testing Laboratory at Lubbock now determines nitrate nitrogen with special equipment. In addition to the nitrate nitrogen, seven other tests are made on each soil sample. Soils that have been tested during the past few years always recommend that additional nitrogen be applied. Yoakum County soils are very low in organic matter and very low in nitrogen. The sandy soils allow the nitrogen to leach out of the root zone much faster than the heavier soils.

Some of our soil samples come back with the recommendations that no phosphorus be applied. This is especially true on soils that have been receiving an application of fertilizer each year for the past ten or twelve years. Soils that have been getting phosphorus at the rate of 35 to 40 lbs. each year could easily have enough phosphorus in reserve for the 1971 crop. The only way to determine if this is the case is to have the soil tested.

If a soil test is to be meaningful, the laboratory values must be interpreted by professionals who are familiar with the soils and management practices of the particular area. Soil test values are presently correlated with the yield values obtained by research on specific soil types and with individual crops. This permits the Extension Laboratory to give a report designed to insure adequate plant nutrients for the indicated yield goal.

Texas Cattle Feeders Ass'n.

AMARILLO, TEXAS, November 11, 1970: Cattle Feeders and those associated with the allied industries from across the nation will converge on Amarillo, November 16-17, 1970; for the Fourth Annual Meeting of the Texas Cattle Feeders Association.

Farm Program for 1971

According to the director, the farm bill passed by the Senate this week and it is not known at this time what the outcome will be.

Many inquiries have been received in regard to how the cotton yield will be set for 1971. Overton stated that the proposed and passed by the House, farm bill states that the average yield for the farm for any year shall be determined on the actual yield per harvested acre for the three preceding years except that the 1970 farm projected yield shall be substituted in lieu of the actual yield for the years 1968 and 1969.

Therefore, it appears that the 1970 projected yield will be used for 1968 and 1969 and the actual 1970 production will be added to these figures and divided by three to determine the 1971 yield.

The bill stipulates that the actual yield shall be adjusted by the Secretary for abnormal yields caused by drought, flood or other natural disaster.

It appears that farmers should see that unquestionable cotton production records for the 1970 crop are kept for cotton produced on each farm they operate. It is understood that the 1970 actual production yield must be turned in before a farm can be established for a farm.

If this bill becomes law, the county office has record of the planted acres of cotton on each farm as reported by the farm operators. These reported acres with the actual production can be used to determine the 1970 yield per acre. The office director stated that producers will be advised of other program details if the bill is approved and when regulations are received.

Should the proposed bill become law there will not be cotton marketing quotas as we have had each year since 1954. Cotton may be planted on any farm without marketing quota penalties. Cotton produced on any farm with an allotment base will be eligible for a loan, if the farm is in compliance with the program as determined by the Secretary.

(Cattle Feeders Cont.)

The Annual Cattle Feeders Golf Tournament is scheduled Monday, November 16 at the Amarillo Public Golf Course. A business meeting opens the meeting session at 3:00 p. m. Monday. A panel "Marketing and Prices" will be featured on the Monday afternoon session. The Annual Cattle Feeders Get-Together is on tap for Monday evening.

The Tuesday session will feature Dr. Jack Williams, president of Texas A&M University, as keynote speaker. Dr. Williams will speak on "The Image of Agriculture". Tuesday morning program will also include a panel "New Plateaus for the Feeding Industry", which will be moderated by Dr. George Ellis, Jr., General Manager Baca Feeders, Inc., Midland, Texas. Panel Members include J. C. Walker, President Missouri Beef, Inc., Amarillo, Texas; Lindley Finch Vice President Continental Illinois National Bank, Chicago, Illinois; Jack Freeman, Freeman Ranches, Texhoma, Oklahoma; Paul Engler, Chairman of the Board, ProChemco, Inc., Amarillo, Texas; F. M. Simpson, Jr., Manager-Secretary California Cattle Feeders Association, Bakersfield, Calif.

The afternoon session will feature Max Sherman, Senator Elect, Senatorial District 31. A panel "Beef Promotion" --- Whose Responsibility? will be moderated by Dudley Campbell, Campbell Co., Refugio Texas. Panel Members include John C. White, Commissioner Texas Department of Agriculture, Austin, Texas; George Spencer, Executive Vice-President American National Cattlemen's Association, Denver, Colorado; Dolph Briscoe, Jr., Chairman, National Livestock and Meat Board, Uvalde, Texas.

Feeders will be entertained Tuesday evening at the Annual Dinner-Dance by the Johnny Bush Band.
