The Plains "Permasep" Water Plant

The Fate Of The Desalination Plant

The fate of the Plains desalination plant will be in the hands of the taxpayers, was the decision of the City Council last Thursday night.

The Council, the city engineer and a representative of the City's bonding firm met with representatives of the marketing division of the permasep products division of the E. I. DuPont de Nemours and Co. Inc., and an offer for the sale of the plant to the City was presented.

Until the present time the plant has been operating under contractual negotiations between the city and the Du Pont Co. The negotiations will terminate January 1st.

The plant has been of great value to both the Du Pont Co. and the City, from a research and development standpoint. To the City it has given

en a complete knowledge of the quality of the water, the extent of the present supply and the requirements and cost of improving the existing water of this area. It has definitely pin-pointed the City's need for improvements in the water supply system.

To the Du Pont Co, it has been an opportunity to operate a plant on total city requirement basis, and work with an entire city system, as well as testing and improving their product under a difficult brackish water condition.

While the Du Pont Company has many test plants throughout the nation working with all types of water, none are of the proportions of the Plains installation.

The Plains plant has served the company as both a research and testing facility. During

its operation, great scientific breakthroughs have been made and their product has been improved and tested on a master scale. The efficiency of the plant has been greatly improved and the cost of operation reduced to a minimal level. The company's produce has been developed to a satisfactory marketing level. They have a complete knowledge of the local water condition and have no further need to continue the operation. Therefore the plant is being offered with all of the latest improvements installed to the City of Plains.

The Council decided to take the proposition under advisement and after a study has been made, if it is found advisable for the city to make the purchase, an election will be held and the matter of purchase left to the discretion of the citizens of Plains.

THANKSGIVING

PLAINS REVIEW

Lovington Fire Fighters fight grass fire

Fires Reported

Grass and gin fires extended over a wide range of the South Plains over the weekend and the Plains area reported its share.

The most extensive, being the fire at Bronco, Texas. The fire was reported to have originated from a burning burr pile at the gin extended across Highway 380 in to the Tyfield Ranch. Fed by a 25 to 35 mile southwest wind, the fire blazed north eastward for three miles where it was brought under control and extinguished at the west side of the caliche county road two miles north of highway 380.

Eight pieces of fire equipment from Plains, Tatum, Lovington and Denver City controlled the fire by spraying chemicals on the outer fringes while county maintainers bladed fire guards in its wake.

At the nearest point the fire was about 300 yards from the ranch headquarters and closely skirted a \$2,000 stock of alfalfa hay, on the north edge also isolating a fine herd of Santa Gertrudis cattle in the northwest corner of the pasture which was burned. On the south and east side the fire-fighters succeeded in preventing the fire from entering the machine storage yard on the Loren Gayle farm which contained several combines and other valuable machinery. The fire was curtailed to grassland and no crop damage was reported. Approximately 1 1/2 sec-

tions of winter grazing was destroyed by the fire.

At 9:30 am. Saturday, a fire broke out at the New-Tex gin 15 miles southwest of Plains on highway 82 in the gin yard which was heavily stocked with loaded cotton trailers. The gin crew assisted by a number of farmers gathered at the gin office using gin fire equipment, were successful in controlling the fire. Loaded trailers were moved from the fire zone and the fire curtailed to 7 trailers. A total of 7 trailer loads of cotton and trailers were burned. Three of the trailers were the property of Russell Faulkenberry and four belonged to W. R. Bean, both of Plains.

Monday, about 10:00a. m a well house caught fire at the old Presley White home, five miles west of Plains on the old Lovington Highway. The Plains Volunteer Fire Department answered the call and confined the fire to the well house which was destroyed as well as all surface well equipment.

While the Plains Fire Department was engaged at the Bronco grass fire Saturday, a small grass fire started in Plains in the Nursing home area. City Secretary, Hugh Abercrombie, with the assistance of a number of young boys extinguished the blaze before any appreciable damage was done.

A & M Special Game

Two arch football rivals, the University of Texas and Texas A&M University, have united in dedicating their traditional Thanksgiving Day gridiron clash in Austin Thursday to Americans who are prisoners of war or missing in action in Southeast Asia.

At least 25 graduates and former students of the two universities are among the 1,500-plus American servicemen who are missing in action. Some 430 of the 1,500 are known to be prisoners.

A dedication statement prior to the game will call the crowd attention to the fact that some of the men have been in prison longer than six years, and that North Vietnam is ignoring her Geneva Convention agreements regarding humane treatment of war prisoners.

The Memorial Stadium ceremony will include a "Missing Man" flyover by four Air Force RF-4 Phantom Jets from Bergstrom AFB, Texas. One aircraft will peel away from the formation in honor of Americans from all the armed forces who are missing or imprisoned.

Reserve Officer Training Corps cadets from the University of Texas will be at the gates after the game collecting spectators' signatures on petitions to North Vietnam requesting humane treatment for the prisoners. Specifically, North Vietnam has never disclosed a full list of the prisoners; has not released the seriously ill, and wounded, has not allowed impartial inspections of her prisons, and has not allowed a free exchange of mail between the prisoners and their families.

Lions Club Dinner

The Lions Club had their Thanksgiving dinner at their noon meeting last Thursday. A group of 6 members of the Brownfield noon Lions Club were visitors at the meeting. The visitors included: Billie Moore, Deputy District Governor, W. K. (Speedy) Lindsey Zone Chairman, Charles Darwin, President of the Brownfield Club, Lion Frank Gray, Lion Howard McIlroy and Lion D. O. Lilly is referred to as Mr. Lion in respect for his 33 years perfect attendance record.

W. R. Martin, basketball coach for the Plains High School, addressed the club. The coach gave a spirited and enthusiastic report on the 1970 team. He reported that the prospects are very good for a winning team this season with good prospects for winning the district. He reported a very difficult pre-conference schedule and stated that even though some of the boys were having difficulty in toning down their football tactics to fit basketball, they were shaping up very nicely. Three of the last year starters will be back this year.

Mr. Dick Carothers was program chairman. Mr. Murrell Thompson will be program chairman for the Dec. 4th meeting. He reports that Mr. E. E. Winters, Director Public Relations for the EIPaso Products Co. of Odessa will bring the program. Subject for the program will be: "Three Ten From Texas." The program will include both showing of slides and a lecture. Mr. Winter is reported to be an accomplished after dinner speaker. The Plains Lions Club will be honored to have Mr. Winter.

Community

Thanksgiving Services

A Community Thanksgiving Service was held at the Plains United Methodist Church, Monday, November 23, at 7:30 p.m. Many churches were represented at this service.

Participating in the program were Father D'Wan, Reverend H. W. Tarkington, Reverend

Frank Ramos, Reverend Klel Quesenberry, and Mayor Roy Edwards. The sermon was given by Reverend Jim Mosely.

There were 134 present and the Plains United Methodist Church wishes to thank everyone who helped make this service a success.

At their last Thursday night meeting, the City Council voted to market \$50,000 worth of general obligation bonds.

On April 4, 1967 the City of Plains, at a public election voted a bond issue of \$100,000.00, of which \$50,000 were revenue bonds and \$50,000 were general obligation bonds all designated as water improvement bonds. The bonds were voted in connection with a water improvement project in which the City proposed to bring water from a site approximately two miles southwest of the city. The project failed due to financial difficulties and the bonds were never issued.

The bonds were voted with a maximum 6% interest rate. Since that date interest rates have increased to such an extent that low interest bonds have no market. However with the recent interest reductions there has developed a market for such bonds.

In viewing the possibility of the purchase of the Du Pont Plant and in consideration of the limited present water supply as well as the low quality, under the advisement of Mr. Bennett Reeves, the City Engineer; the Council voted to run a survey of the potentiality of the water supply of two sites on which the City holds water rights, 1 1/2 miles west of the city limits. Test holes are to be drilled and tests of the water be made regarding quality and amount of supply.

Mrs. R. C. Cheek holds the lucky number and wins the Chest 'O Plenty, given away Saturday night at the annual Tsa Mo Ga Bazaar.

CHEST 'O PLENTY

"Come to the Country Food Fair" was the cry a week ago, and many came. Saturday night, November 21, The Tsa Mo Ga Study Club had a Country Food Fair Bazaar that was attended by many from Plains and the surrounding area. The members wish to thank everyone that attended for making it a success.

Many shopped for Christmas gifts or bought homebaked goods for Thanksgiving. Others enjoyed the delicious food or played

Bingo and other games. In the bean guessing game, Raymond Bookout won the turkey donated by Hawkins Grocery. L. D. Hamm won the Deluxe Fruit Cake, donated by Collin Street Bakery in Corsicana, in the corn guessing.

As the highlight of the evening, Mrs. R. C. Cheek won the Chest 'O Plenty, a lovely cedar chest filled with beautiful linens.

To those that came or helped in any way, Tsa Mo Ga wishes to say, "Thank You."

Friendly Chats With Faye McConnell

"Only LOVE brings happiness."

Even though with the "Song in My Heart" that God gives to those who desire it, there is still a very deep sadness for the loss of our darling niece, Mary June Lovelace. Sister Mollie's children and mine were more like sisters and brothers as they grew up in this same small city, going to school and church together, and playing together as children. And I loved here as though she belonged to me.

Mary June loved music and went about her work always singing and with a happy smile. And knowing this, we can know that she still has her songs and happy smile in this eternal life with God and that she sings a song of praise now, and that she sings as she has never sung before.

Whether it be a mansion or a humble cottage, the word "home" is among the sweetest in our vocabulary. With home we think of rest and security. It is here that we can be ourselves. We can expect to have our loved ones about us. Home means rest for the weary, food for the hungry, love for the lonely, and safety for the insecure.

Home is said to be where we are treated the best and grumbled the most. Be that as it may, even the first glimpse of our hometown gives one a thrill as we return late at night from a trip. Next to the word "love" there is likely no expression that warms the heart as does the mention of home. Years and years of special living makes our house into a heart-warming place called home.

On this great Thanksgiving Day, what are we the most thankful for? It is home, a table covered with the bountiful food that has been provided for us and our loved ones. On this day give thanks and sing a song of praise.

Blessings like beautiful flowers,
Of scattered along the way,
Many times we fail to see them,
That's why we need Thanksgiving Day.

THOUGHT FOR THE WEEK

"Thank you" can be a precious word,
When coming from a friend,
'Tis better pay by far than gold,
Its rewards never end.

Hair styles and make-up change as rapidly as fashions in clothes. And often the combination of the latest clothes with last year's hair and make-up can be a disaster.

This year's soft, romantic look in fashion calls for a return to soft, almost naive, beauty looks. A blunt-cut geometric style or a stiffly teased pouf would look awkward with a softly wrapped jersey day dress. Instead well-brushed gleaming hair—short, or tied gently back with a ribbon and a few curly tendrils escaping around the face—carries out the total look.

In the evening dresses with ruffs and feathers high around the neck call for an appropriately sentimental hairstyle, like a soft swept pompadour, caught in a topknot with those loose little curls around the face to create Victorian portrait prettiness.

For both day and evening eyes are more natural looking than ever before. Pastel shadows bathe the eye in a pretty parait. Little or no eyeliner replaces the drawn-on look. Long, spidery eyelashes, much less thick than last year's, and pale brows with little or no brow make-up are what the soft look is made of.

WASHINGTON AND SMALL BUSINESS

The Road Turns

There is an old saying, it is a long road that never ends.

For quite some time the concern of government has largely been what might be called big business.

But there is now coming about a growing awareness that if people are to have jobs, big business is not the answer.

A benchmark in this new trend will be registered in Washington, D.C. on December 15 when for the first time in national history, the chairman of the Council of Economic Advisers will meet with representatives of small and independent business.

This meeting, the first of a series of quarterly meetings with Dr. Paul McCracken arranged by President Nixon at a conference with small business leaders. At that time Wilson Johnson, president of the National Federation of Independent Business asked for a closer entente between small business and the White House. The President responded by instructing Dr. McCracken to hold these quarterly meetings.

The significance of this could be easily overlooked, due largely to the fact that the Council of Economic Advisers is a fairly recent development in the government of these United States.

Calvin Coolidge, for example, would have been puzzled if such a group had been recommended to him.

Minimum Tillage

BY C. M. THOMPSON

Today is Thanksgiving Day and we hope your land, cropland, and grass land can be thankful you are a conservation farmer or rancher. There is a big difference in one who farms and conserves and one who farms and mines the land. The same thing goes for ranchers too. When we take all and return nothing and leave the land bare that it may wash and blow away, we are using up one of our great heritage and drawing on the account of future generation. We hold Thanksgiving Day as one of our traditions of great importance and yet we continue to farm and ranch in some ways by traditions that are outmoded. A good example is plowing when the land does not really need it; plowing when there is noweeded or compacted soil that calls for plowing; plowing to destroy the very cover that can and will hold both soil and moisture. There are farmers plowing just to keep a hand busy, this of course will really keep the hand and the boss busy next spring when the sand blows. Sure there is a need for plowing some times and under some conditions like cotton stalk land. There is not enough cover left to hold the soil so we can Chisel Plow, leave all the stalks, bring some cloids to the surface and hold soil, snow and moisture, and do it much cheaper; about 1/3 the cost of plowing with mouldboard or disk plow.

The newest idea in farming is Minimum Tillage. If you haven't tried it, don't knock it.

Mary June Lovelace's Rites

Mrs. Mary June Lovelace, age 43, of Rt. 4, Lubbock, Texas died about 1:00 p. m. Wednesday in the West Texas Hospital, Lubbock following an extended illness.

Services were held at 2:00 p. m., Friday in the First Baptist Church, Plains. Officiating was the Rev. Weaver Lovelace of Lubbock and Rev. Jim Mosely, pastor of Plains.

Burial was in the Plains cemetery under the direction of the Sanders Funeral Home of Lubbock.

Pall bearers were George Caudle, Jim Rasch, Ed-Birdsong, Bob Bronson, Jake Weathers and Bob Dean.

Mary June was born in Seagraves but her parents moved to Plains when she was 3-1/2 years of age and she lived here

continuously until 17 years ago when she and Clayton moved to Lubbock.

Mary June and Clayton finished their schooling in Plains, and Clayton served in the Navy during the World War II. Later he was Veterans Service Officer of Yoakum County for several years before moving to Lubbock.

Survivors of Mary June include her husband, Clayton; two sons, Larry and Jeffrey; two daughters, one daughter, Mrs. Cecelia Birdsong of Bay City, and two grandchildren; her Mother, Mrs. Mollie Clark; one sister, Mrs. Sarah Johnson of Junction, and one brother, Fray Smith of Lubbock; a host of aunts, uncles, cousins, and many friends.

SUDIE THOMPSON CHDA SAYS....

COLORFUL CRANBERRIES

What could better represent the bright, cheery holiday season than colorful cranberries? And this popular fruit comes to market just in time for the holidays. Preparation is usually kept to a minimum with cranberries, since there is nothing to peel and noseeds or pits to worry with. Of course, Thanksgiving dinner is incomplete without cranberry relish or some other cranberry dish. When buying fresh berries, look for those that are plump and firm, with a lustrous color. Duller varieties should have some red color. Occasional soft, spongy or leaky berries should be sorted out before cooking, since they may produce an off-flavor.

STEAMED CRANBERRY PUDDING

is an old-fashioned favorite.

- 1-1/2 cups all-purpose flour, sifted
- 1 teaspoon baking powder
- 1/4 teaspoon salt
- 1-1/4 cup fresh or frozen cranberries
- 1/2 cup molasses
- 1/3 cup water - warm
- 2 tablespoons shortening, melted
- 2 teaspoons soda

steamer, or on top of a trivet or wire rack in large covered kettle or roasting pan.

Add water to just below top of rack, cover pan, bring water to boil, reduce heat and let stand a few minutes or set in cold water a few seconds be fore unmolding.

To prepare the sauce, blend sugar and cream. Heat, but do not boil. When ready to serve, beat in butter with rotary beater. Add vanilla. Serve pudding hot with hot sauce drizzled over the top. Makes eight servings.

CRANBERRY NUT BREAD

- 2 cups all-purpose flour, sifted
- 1 cup sugar
- 1 1/2 teaspoons double-acting baking powder
- 1/2 teaspoon soda
- 1 teaspoon salt
- 1/4 cup shortening
- 3/4 cup orange juice
- 1 tablespoon orange rind, grated
- 1 egg, well beaten
- 1/2 cup chopped nuts
- 1 cup fresh cranberries, coarsely chopped

Sift together flour, sugar, baking powder, soda and salt. Cut in shortening until mixture resembles coarse cornmeal. Combine orange juice and grated rind with well beaten egg. Pour all at once into dry ingredients, mixing just enough to dampen. Carefully fold in chopped nuts and cranberries. Spoon into greased loaf pan, 9X5X3 inches. Spread corners and sides slightly higher than center. Bake in 350 degrees F., oven about one hour, or until crust is golden brown and toothpick inserted comes out clean. Remove from pan and cool. Store overnight for easy slicing.

Texas Hospital Ass'n.

Texas hospitals which have faced possible loss of Medicare certification due to the scarcity of registered nurses may have additional times to solve their problems if tentative approval by the Senate Finance Committee of a relief-granting proposal is accepted by both Houses of Congress.

The office of Congressman J. J. (Jake) Pickle of Austin, Texas, advised the Texas Hospital Association in Austin that tentative approval of legislation introduced by Congressman Pickle and United States Senator Ralph Yarborough, is the first step to help many of the smaller hospitals of Texas which need more registered nurses to meet current medicare requirements. Similar legislation had also been introduced by U. S. Senator John Tower and Congressman Omar Burleson of Texas.

The amendment, which would change medicare hospital requirements, would authorize the Secretary of Health Education-Welfare to waive the requirement calling for Registered Nurses to be on duty per day in hospitals providing service to medicare patients. The requirement for 24-hour Registered Nurse coverage could be waived annually for one year at a time until January 1, 1975. The amendment would affect approximately 140 Texas Hospitals. Hospitals would be required annually to:

1. Demonstrate they have made an effort to recruit Registered Nurses needed for around the clock coverage.
2. Show that there is a shortage of Registered Nurses in the geographic area served by the hospital.
3. Show that there is no other Medicare certified hospital in the immediate area or nearby.

In waiving the 24-hour requirement the hospital will still be required to have Registered Nurses on duty during daytime working hours.

President of the Texas Hospital Association said "Hospital Administrators recognized in 1964, that registered nurses would be in short supply if medicare requirement were to be met. To meet the need, the association organized the Texas Health Careers Program to interest young people pursuing careers in the health field. Since 1965 full time members of the Association's staff have encouraged Texas young people to explore health career interests. In 1969-70 over 220,000 young people were contacted."

The Health Careers Program has helped to increase nursing school enrollment since 1965 when more than 50% of the student nurse chairs were vacant. Not only has enrollment increased, but a number of new schools of nursing have opened, and existing nurse programs have increased their student capacity.

"Although nursing schools have increased, the Texas schools of nursing are unable to meet the continued demand for trained registered nurses. In a survey conducted by THA in 1969 over 2500 nurse positions were vacant. In the spring of this year (1970) over 1000 nurses were graduated, yet in June of this year, 2100 Registered nurse positions remain unfilled in Texas.

The most critical registered nurse vacancies exist in the sparsely populated counties of the state and it is in these areas where hospitals are more likely to have difficulty meeting Medicare nurse requirements."

"THE GIFT OF GOD IS ETERNAL LIFE."
Romans 6:23

All through this week of November, which is a time for special thanksgiving and praise, let your heart sing! We should let a "Song in my heart," be a part of our thoughts and a way of life. You are God's melody of thought of life; He sings His song through you.

SONG IN MY HEART

"There is within me a joyous song...It holds such gladness that to catch even the lilt of its tones refreshes and restores me. As I listen, every part of me sings its melody... there is not a cell of my body but is aroused, awakened, and attuned, not an organ but responds and enters into the harmony of perfect functioning. The joyful rhythm pulses through my veins and arteries, purifies the life stream, tunes my heart to beat in unison with the great heart of God, breathes in to and out of my lungs with the cleansing, renewing God breath. I become so illumined by the song... that it creates in me a joy and a harmony that radiate from me to others along the way."

Let us give thanks for this song in our hearts and the gift of eternal life.

Holiday Safety Message

"Thanksgiving Day... is the one day that is purely American," O. Henry (William Sydney Porter) wrote in 1907.

The Texas Highway Department urges you to help make this a safe Thanksgiving for motorists!

The Department works constantly to make travel on the Texas Highway System as safe and convenient as possible. Yet, construction areas this time of year call for extra caution.

Please observe all warning signs, and above all, drive safely everywhere you go.

Tax Man Sam Sez

Most taxpayers don't think of Internal Revenue Service as representing anything to be thankful for; however, a Dallas District IRS employee comes up with this list of items to be thankful for:

- (1) That he lives and works in a nation with the highest morals on earth- where 97% of the Federal Tax Collections are self-assessed and voluntarily paid;
- (2) Where over 2500 school teachers provide a good neighbor service and help IRS teach more than 175,000 students how to prepare their tax returns each year;
- (3) Where several hundred voluntary income tax instructors from numerous organizations help teach thousands of taxpayers how to prepare a better tax return each year.

The list goes on, but the gist is---America is a great place to earn enough money to pay a whole lot of tax.

Farmers Union

The insistence of the Nixon Administration on dropping meaningful parity from the farm bill could cost Texas fed grains producers a total of \$50.4 million. These figures represent the differences between the flat (1.35 per bushel for corn) support and 75 percent of parity which was provided in the farm bill passed by the Senate.

Civil Service News

A nationwide call for Border Patrol Agents to fill career positions in the Immigration and Naturalization Service, Department of Justice, was issued by the U.S. Civil Service Commission.

Written examinations will be given at locations convenient to competitors in January, April, July, and October for those whose applications are received by the second Tuesday of the preceding month.

Starting salary is \$8098 per year, but after a period of intensive training and completion of a probationary year, Agents are automatically promoted to \$8956 per year. Further promotions are based on merit.

Because of the rigorous duties involved in the prevention of smuggling and illegal entry of aliens into the United States, candidates must meet high physical standards and must be at least 21 when appointed.

Complete information on the duties to be performed, the standards to be met, and the application to be filed, are contained in Announcement No. WAM 911, which may be obtained from any Area Office of the Commission, major post offices, or from the U.S. Civil Service Commission, Washington, D.C. 20415.

Brownfield Area Cotton Harvest

The Brownfield area cotton harvest reached a peak this week and the U.S.D.A. Cotton Classing Office at Brownfield received samples from approximately 38,000 bales during the week ending Friday, November 20th, according to Bob Shultz, in charge of the U.S.D.A. Classing Office in Brownfield.

Samples from 30,000 bales were classed at the Brownfield office during the week ending Friday, November 20th. This brought the total classed this season to 70,600. Through November 20th last year 23,000 samples of the 1969 crop had been classed.

Estimates indicate that sixty to seventy per cent of the Brownfield area crop is now out of the fields.

Middling Light Spotted was the predominant grade at Brownfield last week with 34 per cent of all cotton classed. Middling made up 8 per cent, Strict Low Middling 26%, and Strict Low Middling Light Spotted 15%.

Staple length averaged approximately 31/32, Sixty-six per cent stapled 31/32 and longer.

Seventy-one per cent of all cotton classed at the Brownfield office last week had micronaire readings in the premium range of 3.5 to 4.9.

Thirteen per cent "miked" 3.3 through 3.4, and 12 per cent "miked" 3.0 through 3.2 and 3 per cent was 2.7 through 2.9.

Eighty-four per cent of the cotton at Brownfield last week had Pressley readings of 80,000 pounds and higher. Pressley is an indication of fiber strength and the most desirable Pressley reading is 80,000 pounds and above.

Prices declined another \$2.50 to \$5.00 per bale for Brownfield area cotton but this decline was general at all gins on the South Plains. Prices ranged from \$10.00 to \$20.00 per bale over the loan for the most predominant qualities harvested.

Uncle Sam's Selective Service

Below are questions now being asked at draft boards regarding recent changes in the lottery system. The answers are by Lt. Colonel Charles M. Duncan, Acting State Selective Service Director, 209 W. 9th Street, Austin, Texas.
Q--I read an article in a newspaper recently that indicated that men with random sequence number above 160 will, on January 1, 1971, be placed in the Second Priority Group in Texas. Is this correct?
A--No. It depends upon the high number reached by a man's own local board.
Q--Have any local boards in Texas reached a number higher than 160?
A--Yes. Many of the local boards have reached a higher number.
Q--Where can I find out the high number reached by my local board?
A--You should contact the executive secretary of your own local board.
Q--I am a full-time student and have random sequence number 285. Would it be to my advantage to request my local board to cancel my II-S deferment?
A--Yes, because if you are II-S on December 31, 1970, you will be placed in the second Priority Selection Group for 1971.
Q--What would be my situation if I retain my II-S and lose it when I graduate in June 1971?
A--Under these circumstances you will be placed in the First Priority Selection Group when you lose your student deferment.
Q--My random sequence number is 185 and my local board reached number 187 in 1970. I was classified in class II-S on February 1, 1970 and remain in that classification. What will my situation be in 1971 when my II-S expires?
A--You will go into the First Priority Selection Group for 1971 when you are no longer in a deferred status.
Q--My number is 175 and I am in class I-A. My local board reached number 152 during 1970. What is my situation in 1971?
A--On January 1, 1971, you will be placed in the Second Priority Selection Group because your number was not reached.
Q--My number is 146 and I'm in I-A. My local board reached number 158 during the year. What is my situation for 1971 if I am still in I-A on December 31, 1970?
A--On January 1, you will be placed in the Extended Priority Selection Group for 1971.
Q--Who goes into this group?
A--Any registrant who is in class I-A or I-A-O on December 31, 1970, whose number was reached by his local board but not ordered for induction.
