## From The Superintendent's Desk

It seems that we began this school year only yesterday and yet we are now in our last week of school for the 1984-85 school year. The last day for students is Thursday, May 30, 1985.

Our 63rd annual commencement will be at 2 p.m., Sunday, June 2. We have twenty graduating students in this class and their accomplishments will long be remembered. We invite you to come and share this occasion with the graduating class and their friends and relatives.

If I could give advice to the Class of '85, it would be to stress the importance of attitude in life. "What's the use?", and "Why should I?", are the two most fatal phrases in the English language. They mark the dividing line between success and failure for hundreds and thousands of human beings.

"What's the use?", is the philosophy of the person who throws up his hands when the battle has just started. He is satisfied with "good enough". He has no goals, no visions, and he accepts no challenge.

"Why should I?", is the cry of the work dodger. His aim is to do just enough to "get by". He is a clock watcher who is afraid he will render more service than he is paid to perform. He is too lazy to think; too selfish to put his shoulder to the wheel in a common cause.

How much more vibrant and dynamic are the phrases "It can be done!", and "You can count on me!" The phrases sparkle with the spirit of success. The spirit of success is our wish for each graduating senior, and attitude is the key ingredient in the spirit of success. Welcome each day with enthusiasm, develop and keep that positive attitude. Success is attainable for all, so "Go for it!" Congratulations graduates!

# Grain Sorghum Producers Could Win Foreign Trip

The National Grain Sorghum Producers Association (GSPA) will sponsor the first nationwide sorghum yield contest this year, with top winners receiving a trip abroad. "The contest will focus on yield and management," said Elbert Harp, executive director of the National GSPA, "and will help us gather information on the most efficient and cost-effective ways to grow sorghum.

Contest awards will be made on three levels - county, state and national. The top winners in each class on the national level will receive a trophy and a trip to a foreign market country. On the state level, plaques will be awarded to the top three winners in each class. The first place winner in each class on the county level will receive a certificate.

The contest entry deadline is 30 days prior to harvest of the contest plot and harvest reports are due by December 1. Applications and rule books are available through the National GSPA, members of the state Grain Sorghum Producers Associations, and supporting seed and agricultural chemical companies.

"Some of the manufacturers supporting the contest, such as Stauffer Seeds, are offering cash awards," said Harp. "These awards vary with each company and are designed to stimulate interest in this very first National Grain Sorghum Yield and Management Contest."

All contest entrants will be scored in relation to their county's established yield. According to Harp, all calculations will be done by computer in the National GSPA office in Abernathy, Tx. The National GSPA will also keep all records on the contest and provide computer printouts of production data to contestants, county agents, university researchers and others.

**Faye Nelms**  
**Named Chairman**

The Lone Star Chapter of Cystic Fibrosis Foundation would like to announce the appointment of Faye Nelms as the Chairman of its 1985 Campaign in Plains.

The Campaign will be held to provide the community with pertinent information about Cystic Fibrosis, the number one genetic killer of children and young adults and to raise desperately needed funds to support research, education and care programs.

CF is difficult to diagnose and, at present, impossible to cure. Each day five babies are born with this tragic disease which will clog and choke their lungs and inhibit their digestive process and their growth. It will eventually take their lives as it takes the lives of three young people each and every day.

For more information about cystic fibrosis and how you can help in the fight to find a cure, please contact Faye Nelms at 456-3577.
