Application forms and letters will be distributed to students on the first day of classes.

Thank you.

Sincerely,
s/Dean Andrews
Dean Andrews
Superintendent

Dear Parent or Guardian:

Plains Schools serve nutritious meals, both breakfast and lunch, every school day. All Plains I.S.D. students receive free meals from our cafeteria. However, Plains Schools may be reimbursed for meals served to children from families whose income is at or below the level shown on the income guidelines chart below.

In order to claim reimbursement for these meals, a completed application form must be on file for each eligible child. If your child/children would qualify for free or reduced-price meals as indicated in the chart. **Please complete the application form as soon as possible, sign it, and return it to the school. PLEASE ANSWER ALL QUESTIONS ON THE APPLICATION FORM.** An application that does contain **COMPLETE** information on household members and income cannot be used by the school.

For an application to be complete you must provide: The total household income listed by amount received by each household member receiving income; type of income such as wages, child support, etc.; the names of **ALL** household members; social security numbers of all household members of 21 years or older (or the word **NONE** if a household member does not have a social security number), or your food stamp number if your household receives food stamps; and the signature of an adult household member. The information on the application may be checked by the school or other officials, at any time during the school year.

If your child is approved for meal

benefits, you must tell the school when your household income increases by more than \$50 per month (\$600 per year), or when your household size decreases.

You may apply for benefits at any time during the school year. If you are not eligible now, but have a decrease in household income, become unemployed, or have an increase in family size, fill out an application at that time.

In certain cases foster children are eligible for meal benefits. If you have foster children living with you and wish to apply for free or reduced-price benefits for them, please contact the school and we will help you complete the application.

Benefits and services are available to all children and children who receive meal benefits are treated in the same way as those who do not. In the operation of this program, no child will be discriminated against because of race, color, national origin, sex or handicap. If you believe you have been discriminated against, you have the right to file a complaint with the Secretary of Agriculture, Washington D.C., 20250.

If you do not agree with the school's decision on your application, or the result of verification, you may wish to discuss it with the school. You also have the right to a fair hearing. This can be arranged by writing to Dean Andrews, Superintendent, Plains I.S.D., P.O. Box 479, Plains, Texas 79355, or telephone Mr. Andrews at 456-7401.

The information on the application will be treated confidentially and will only be used for the purpose of determining eligibility for free or reduced-price meals, and the verification of data.

If you have any questions or need help in completing the application, please call your school. (High School - 456-7445; Junior High School - 456-7490; Elementary School - 456-7438) You will be notified when the application has been approved or denied.

If we can be of further assistance, please do not hesitate to contact us.

Sincerely,
s/Dean Andrews

Insect Populations On Increase

Cotton and maize farmers are being confronted with insect damages for the first time this year. Cotton farmers are seeing some high populations of aphids in various fields around the county. Kight, County Extension Agent, feels that early season pests control will be very important this year due to the lateness of the cotton crop. Make sure those first bolls are set.

Kight feels like area farmers will also be receiving some pressure from cotton bollworm in 7 to 12 days. Moth traps placed throughout county indicated that overall bollworm pressure will be moderate this year.

Maize is receiving some damage at this time from the green bug. A green bug is an insect 1/16 of an inch long with a dark green stripe down the back. They are usually found on the underside of the leaves. The green bug is an aphid that sucks plant juices and injects a toxin into the sorghum plant. For more information on management tips and control methods contact the county Extension office.

Senior Citizens

It's nice to be home after a few days in the cool country. My thanks to Evelyn for keeping everyone informed of all the happy events! I was sorry to miss the Jamboree, but came back in time to see the nice display of crafts and antiques, and the awards. It was a display that made us all proud! The big thing though, was the spizz everyone put into the telling. Another big thing was all the T-Shirt girls on Tuesday. Everyone who attended received a T-Shirt and they were modeled in all shapes and sizes. We are all proud to have helped make Yoakum County "Number One" at the Senior Citizens' Jamboree '85.

There has been so many deaths in our community of late. Persons from our center to whom we wish to send our sympathy are, Trudy Garner and family, the Roy Jordan family, and Dorothy Sunday and family.

A word of congratulation to the publisher of the Press. I wonder how many readers have read every issue of the Press these last 30 years. It would be interesting to know, eh Gene?

We appreciate our space and do not see how we could get along without it.

Friday night's gathering was great! Had 30 guests for snacks, games and music.

Several years ago, most of our competitors were saying that "rotary" was the way to go in combines. We knew better. And, apparently, you did, too. You (and we) knew we had a good thing going with John Deere Titan combines...high capacity levels with a low power investment, unmatched reliability and easy adaptability in a wide range of crops, and the comfort of a Sound-Gard styled cab, among other benefits. So, we stayed the course...and improved upon what many of you thought was the ultimate. Today, we call them Titan IIs, the combines that give you up to 15 percent more capacity than earlier Titans. That's continuing improvement...one reason why you've made John Deere by far the number one combine line in North America.

KAY CANNON, special education aide for grades kindergarten through fourth, has been employed at Plains Elementary for four years. She earned her B.S. degree in home economics at Johnson County Community College for one year, Wayland Baptist University one year and finishing at Texas Tech University. Born in Perryton, Kay attended high school at Shawnee Mission High School in Overland Park, Ks. Kay and her husband, Robert, have two children, three-year-old Leticia Bell and Tiffany Dawn, fifteen months old. Her hobbies are crafts, reading and sewing.

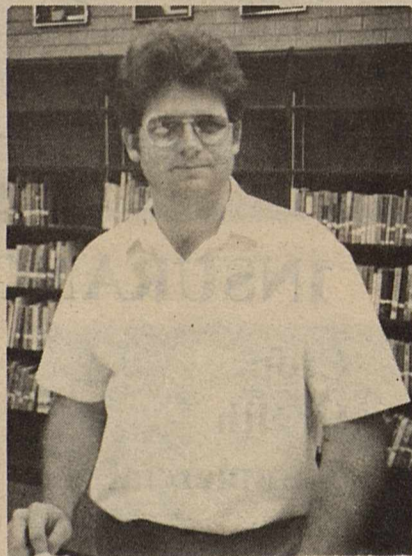

JONNIE GREEN, elementary secretary, has worked six years in Plains Elementary School. She was born in Lubbock and attended public schools in Meadow. Jonnie and her husband, Barry, have two children, Douglas, 15 and Melissa, 12. She lists her favorites as yard work, sewing and her family, but "not necessarily in that order", she says.

JOHN NANCE, elementary principal, earned his masters degree in education from Texas Tech University and has been in Plains for 23 years. Born in Dallas, John attended school there and in Whiteface. John and his wife, Reta, have three children, Sonnya, a teacher at Richardson; Ginger, a sophomore at South Plains College in Levelland; and Traci, a senior at Plains High School. His interests include jogging, reading and cooking.

The first American student to work his way through college was Zechariah Brigden, 14, who graduated from Harvard in 1657. He earned money by "ringing the bell and waytinge."

BILL STRICKLER, assistant band director, earned his degree in music from Howard Payne University. He has had four years experience with the last six months in Plains. Born in St. John's, Newfoundland, Bill attended Southwest High School in San Antonio. Bill and his wife, Debbie, have three children, Melinda, seven; Melyssa, five; and Bryan, 18 months old. He lists his interests as golf and guitar.

From The Superintendent's Desk

Good things are still happening at school. Our football and volleyball teams have already begun pre-season workouts and this means that students will be arriving on a regular schedule very soon.

I read the following statement from Leo F. Buscaglia, PH.D., in "Inside Education", a monthly educational publication:

"Declining achievement in our nation's schools has pointed out the need to reinforce basic skills. It is an understandable reaction to a very real problem. The danger lies in our over-reacting and promoting efficiency and competency as the only true objectives of our educational system. We need to reinforce the idea that we make decisions based on feelings as well as facts. Education's ultimate objective -- that we grow and become the best person we can and help others do the same -- is only partially served by teaching the three R's. This requires us to expand our definition of education, not constrict it."

I feel this statement best describes education in Texas today and identifies the challenge for every public school teacher and administrator.

We are working to meet the challenges of today as well as the challenges of tomorrow.
