Dear Editor:

Dear Editor:

As you can see in this picture my son was bitten by a dog. I thank God that it wasn't as bad. From what I know, this dog has bitten four other little kids, and as far as I'm concerned this dog is a threat to little kids, because it has only been known to bite children.

I can only say that I don't desire what happened to my little boy to happen to any other child, and please keep in mind that no matter how much your pet is worth to you, it's not worth a human life.

"I enjoy baking," exclaims Helen (Mrs. William) Worsham. As this week's guest in the "Kitchen Korner", Helen shares an interesting and unusual "tomato juice" cake recipe plus recipes for delicious Beacon Hill cookies and a tastier way to prepare hamburgers.

Following William's two-year stint in the U.S. Army, the Worshams have called Yoakum County home. They reared one daughter, Edith Tuggle, and are the very loving grandparents of a granddaughter, Staci.

"Outside of Staci," says Helen, "I enjoy arranging silk flowers and so forth. I like almost anything I can do as handwork." That handwork pleasure includes quilting and crocheting.

Helen also enjoys working in her yard.

Plains Independent School District

From The Superintendent's Desk

Dean Andrews

During the next three weeks we will have guest editors of this column. Our school principals will be writing the articles during this time. This week I would like to write once again of the possible changes in public school financing in Texas.

Changes in Texas School Finance and Governance are coming, and there is no debate about that statement....But there is debate about what the changes will be.

Boards and superintendents throughout Texas have expressed great concern that massive changes in the public school are imminent. Sadly, many citizens and educators are uninformed about the consequences of these coming changes.

Failure to prepare for change could be devastating for Texas school districts and for public school children and youth.

As it now stands, the 71st Texas Legislature has an almost impossible task in finding a school finance solution. In the most far-reaching decision ever handed down by a state court on public education, Judge Harley Clark declared the current finance system unconstitutional.

The Judge directed the Legislature to set up a new public school finance system by 1989 that will meet his interpretation of constitutionality. If one is not developed, an injunction will be issued cutting off ALL state funds for the Foundation School Program.

Judge Clark's decision is currently on appeal. It is possible that the decision will be overturned by the higher court. Most educators are convinced that despite a reversal, the Legislature will remain under pressure to make substantial revisions in the current school funding system.

Only school districts that are united and cooperating can hope to be effective in bringing positive change to Texas education. Some change is needed in the school finance system, but wholesale restructuring of governance of school districts must be avoided.

According to Judge Clark's ruling, the 71st Legislature has the following options available: 1) Raise \$5 billion NEW tax dollars; 2) Place caps on school district spending; 3) Consolidate over 1,000 school districts into twenty or fewer school districts. 4) Submit to the voters of Texas constitutional amendments that guarantee the present school district boundaries and permit use of an improved version of the present finance system; 5) A combination of two or more of the above; or 6) Take all mineral, utilities, and industrial properties, removing these from local school district tax base.

PHS Tennis Teams Capture District Championships

Plains High School's tennis team competed last weekend in the Denver City Tennis Tournament with Denver City, Brownfield, Seminole, Post, Floydada and Lamesa also competing.

Kris Andrews placed third in A boys singles, losing only to Denver City and Brownfield. Shane McMinn and Doug Green were third in A boys doubles with loses to Brownfield and Seminole.

John Harris and Daniel Canada were third in B boys doubles. Their loses were to Brownfield and Seminole, also. Corie Spencer and Melissa Green were third in B girls doubles with loses to Brownfield and Seminole.

The Tennis Team captured the boys and girls district championships. The boys racked up 50 points with second place O'Donnell managing only 25 points. The girls garnered 35 points. Klondike finished second with 20 points.

Both the girls and boys will compete in the regional tournament.

Heather McGill won second in girls singles with Corie Spencer and Melissa Green taking second in doubles. Winning third place but not advancing are Lynda and Lydia Jimenez who won third in doubles.

Andrews won first place in boys singles while Green and McMinn took the top honors in doubles. Harris and Canada won second to give PHS a sweep of the regional slate.
