Gibson Plumbing Service To Conduct Energy Survey

Scott Gibson, sales manager for Gibson Plumbing Service America will be in Plains on Tuesday, May 3, 1988 to aid area residents requesting a free energy survey of their home or office.

When asked why he was coming to Plains, Gibson replied, "Just because people choose to live in a smaller town does not mean they should not have access to fine quality plumbing, heating and air conditioning products and services.

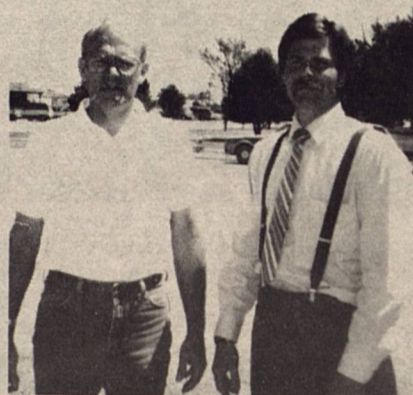

"With summer coming, many people are thinking about changing their evaporative cooler to a refrigerated system. Others think it is time to change their present

system for a new, more energy efficient model. Either way, I can run an energy survey on your home and recommend the best heating and air conditioning system available," he continued.

Those persons interested in having Gibson conduct an energy survey of their home or office, with a complete estimate on a heating and cooling system, should call 7-GIBSON (744-2766) for an appointment.

"We also offer many other fine products that might be of interest. From air cleaners to instant hot water dispensers, we carry any plumbing, heating or air conditioning supplies that you might need," concluded Gibson.

Gibson Plumbing Service America located at 5279 34th Street in Lubbock is opened from 7 a.m. til 8 p.m. Monday through Saturday.

Plains Independent School District

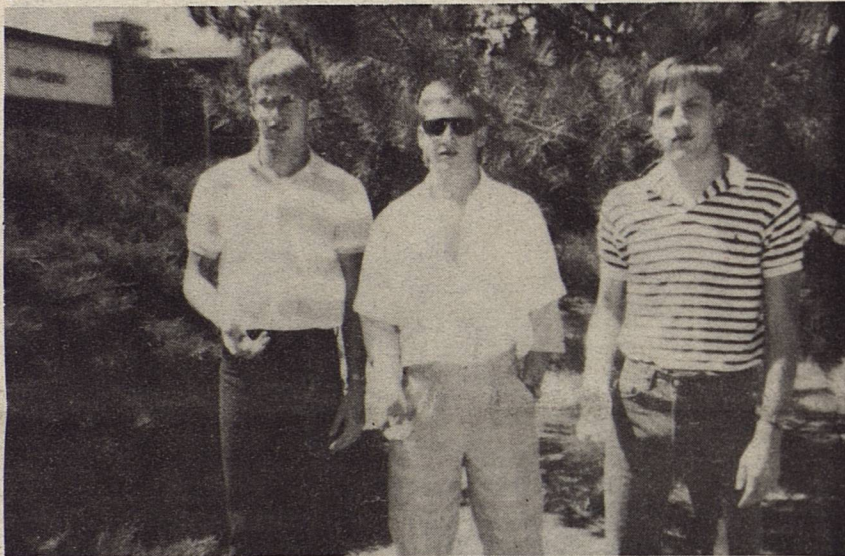

Guest Editorial...JIMMY CONNER, Junior High Principal

Spring is an especially busy time for Junior High students. In addition to track, tennis, golf, band and TEAMS test, there are the U.I.L. academic contests.

Many of our students have worked before school, at breaks and after school perfecting their knowledge and skills in various fields, in order to qualify for the district U.I.L. academic contest. Though much of this is taught in the classroom, teachers who are preparing students for U.I.L. events know that they also need to ready students to apply their knowledge and skills. U.I.L. academic activities can provide the avenue for application and give the students a reason for developing their abilities.

During the week of April 25th, forty-three Junior High students take part in the district U.I.L. Contest which is to be held at Loop Schools. We are extremely proud of all our students who have participated in these events.

On the Junior High TEAMS test we had excellent results and congratulate both the student body and the faculty on a job well done.
