## Possible Annexation Plans Discussed At Water Meeting

Representatives of the Terry County and Yoakum County Soil and Water Conservation Boards discussed the possible annexation of the two counties into the High Plains Underground Water Conservation District No. 1 at a joint meeting held Thursday, June 23 at the Brownfield Chamber of Commerce.

After discussion of the Water District's purpose, programs and tax structure, the Soil and Water Conservation Board members voted to petition the water for annexation.

Petitions seeding annexation of the two counties into the Water District are now available for landowners to sign at the respective Soil and Water Conservation District offices. Soil and Water Conservation Board members in each county will also have petitions available.

In order to add land to the High Plains Water District, a petition must be signed by a majority of persons holding title to the land within the proposed addition. If more than 50 persons hold title to the land within the proposed addition, a petition with a minimum of 50 signatures is required.

After the petitions are filed with the Water District Board of Directors, public hearings will be called within the two counties to determine if this action would mutually benefit the Water District and landowners in the two counties.

All interested parties would be welcome to give public testimony and ask questions about the District at that time.

If the Water District Board of Directors finds the addition to be feasible, separate elections will be called for January 1989 to allow voters within the new area as well as the existing Water District to decide upon the annexation. A majority vote within both areas is required before new land may be added to the Water District.

The most recent addition to the Water District took place in April 1988 when voters overwhelmingly approved the annexation of Precincts One, Two and Four above the Caprock in Crosby County.

For more information, contact the Terry County Soil and Water Conservation Board, (806) 637-3703 or the High Plains Underground Water Conservation District No. 1, 2930 Ave Q, Lubbock, TX 79405 or call (806) 762-0181.

## From The Superintendent's Desk

Dean Andrews

I have had some tell me that what they want to read about in this column, are the things that are happening at school.

This past month we have been trying to get things in shape for the beginning of the 1988-89 school year. We have been painting school houses, classrooms, and outside trim, have constructed a concession stand/restroom facility for the visitors at our football field, repairing plumbing in the elementary school, and mowing grass every day.

Our summer maintenance staff consists of: Don Hinkle, Greg McCravey, Robert Rios, Dub Nelms, Helen Sainz, Billy Bagwell, Michael Barrientes, Johnny Barrientes, Valentin Luna, Michael Bernal, Edward Cerna, Veronica Cerna, Bonifacio Chavira, Eutimio Lira Jr., Susan Ramos, Jesse Ramirez, and Jamie Vasquez. These people are doing a good job and the pride they take in their work shows. Our school maintenance, and the condition of our facilities are second to none in this state.

There will be additional changes in the maintenance of our facilities as removal of asbestos begins on July 11, 1988. We will begin replacing the acoustical ceiling in the elementary school on July 18th, and start painting on July 24. We hope to begin installation of new carpet in our elementary and high school on August 10, 1988 and plan to complete all projects before school begins and students return on September 1, 1988.

## Highway Patrolman Presents Summer Reading Program

Highway Patrolman Danny Crawford presented the summertime reading program at Yoakum County Library Wednesday.

Presenting a program on bicycle safety, Crawford also talked with the youngsters about fireworks safety and gave them safety tips for the swimming pool. He explained they should watch for cars and trucks at all times and said that trucks cannot stop when they are loaded and that cars traveling just 30 mph, the city speed limit, move at least 66 feet before coming to a stop.

Walking and talking with strangers is

a "no-no" he told the children. He also let them take a look inside his patrol car as he explained features used in patrolling highways. He presented junior badges to each of the 28 children attending.

## Happy 26th Anniversary Dan

It seems like only yesterday,  
That day so long ago,  
When laughter filled your precious  
heart  
And eyes were all aglow.

It can't be more than yesterday  
Since fun and joys were shared,  
The day you held my hand in yours  
And whispered that you cared.

My heart alive with sweet surprise  
Went soaring high above,  
To know that I might be the one  
To share your precious love.

I'm sure 'twas only yesterday  
Although the years have flown,  
And with the happiness was mixed  
The heartaches we have known;

The bits of life not quite so sweet,  
And yet you kept your smile,  
A tenderness I shan't forget  
That made my life worthwhile.

I'm thankful for each yesterday,  
For hope and faith anew,  
For all the dreams and all the plans  
That you have made come true.

And as I look back now I find  
Along life's treasured way,  
The memories that seem so dear  
Were only yesterday.

I Love You!  
Linda
