PHS Relay Team Breaks 1976 School Record

Cowboy thinclads proved to be masters of the relay in their own track meet last weekend. Monte Pierce, Steve Crutcher, Shawn Booth, Shane Lowrey and Jason Smith combined talents to take first place wins in the 400, 800 and 1600 meter relays.

The 800 meter relay broke a school record set in 1976 by Kenny Altman, Danny Bell, Randy Conner and Jimmy Curtis. Crutcher, Booth, Lowrey and Smith bested the 1976 record by four seconds with a finish of 1:33.3. Times set by the 400 and 1600 races may be the best in Region I in Class A.

Junior Lira, Lacy McAdams, Armando Ramirez and Michael Sainz set a school record in the 3200 meter relay with a time of 9:03.9 but placed second back of Sundown.

Altman captured a first place win in the discus with 124'6".

When time is found, the busy young grandmother enjoys creating flower arrangements and fixing tee shirts.

'Home of the Cowboys & Cowgirls'

From The Superintendent's Desk

Dean Andrews

Something good is happening at school! As I walk through our school buildings, classrooms, and around our school campus, I become more appreciative of the conditions of each area. I feel that our facilities are the best kept of any in this state.

The key to the condition of our facilities is simple. All persons at Plains have pride in the condition of the school. Our students reflect the pride of their parents by the care they show toward our schools. I give credit to students, parents, teachers, aides, secretaries, cafeteria employees, custodians, board members and administrators for taking pride in our facilities, but the bottom line is our maintenance and custodial staff.

We have the finest group of people in this area and our facilities reflect their pride and dedication to this school district. I appreciate their work and although I express my pleasure privately, I would also like to publicly express thanks and appreciation to them for their work and dedication. Our maintenance and custodial staff are to be commended, they are: Don Hinkle, Greg McCravey, Dub Nelms, Billy Bagwell, Mardi Bagwell, Garry Barnes, Johnny Barrientes, Jean Jones, Robert Rios, and Helen Sainz.

49 Yoakum Producers Certify For Private Applicator License

by Norma Ritz
Texas Tech
Journalism Student

Yoakum County producers who apply restricted use or state-limited-use chemicals may do so with a Texas Department of Agriculture (TDA) private applicator certificate. However, producers who supervise the application of these chemicals by one or more employees must obtain a separate TDA private applicator license, said Kirk Lewis, Yoakum County Extension agent.

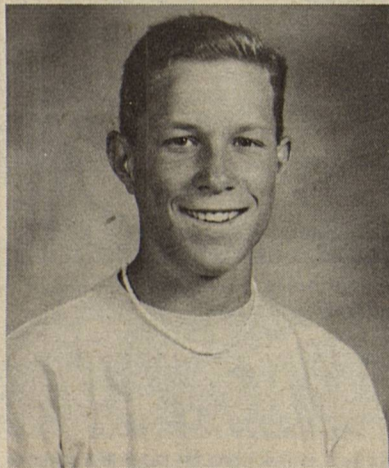

To become licensed private applicators, individuals must attend a Texas Agricultural Extension Service private applicator training program, make a

ASCS Office Receives Award

Yoakum County ASCS Office was recognized as an "Outstanding Office in the State of Texas" during ceremonies Feb. 21 in University Towers in College Station. Jerry Harris, chairman of the Texas State ASCS Committee, made the presentation for "high quality performance of outstanding service to agriculture for agricultural economic development."

"It is an honor for the State Committee to recognize you as an outstanding office," said Harris. "You have been selected for this award because of your outstanding service to the farmers and ranchers of Yoakum County. Thank you and congratulations."

Accepting the award in behalf of the local office were Paula Oswalt, Elaine Hancock and Karen Williams. Other members of the staff are Pat Livengood, Chief PA, Debra Lowe and Janie Crawford.

Warren Grandson Earns Scholarship

Wes Warren, grandson of James and Jerry Warren, has been awarded a scholarship to South Mountain Community College of Tempe, Az. He is the son of Mr. and Mrs. Jerry Warren and Dana Warren of Tempe, Az.

The young scholarship recipient was a member of the 5A Marcos de Niza High School State Championship soccer team.

passing score on a TDA examination and send an application with a required \$50 fee to the TDA. The TDA private applicator license is valid for five years, said Lewis.

Regulations brought about by the last Texas Legislature session mean that certified applicators can still purchase and apply these chemicals, but their employees may not handle the chemicals.

"Unless producers whose employees put out these chemicals have this additional license, they are in violation of the law," said Lewis.

The Yoakum County Extension Service recently hosted a private pesticide applicator seminar. "Out of almost 350 Yoakum County producers, 51 attended, and 49 of them were certified and received their license," said Lewis.

Producers holding TDA private applicator certificates dated after Jan. 10, 1989, may continue to buy and use regulated pesticides. But persons holding private applicator certificates dated prior to Jan. 1 of this year will be required to become licensed private applicators within five years.

Lewis said most cotton farmers will first be confronted with this law in early May, with the application of Temik, a pre-plant chemical. Because of this, the next workshop will be hosted in late March or early April in the Plains Club Room.

Producers who cannot attend these pesticide applicator workshops may watch a slide presentation in the Yoakum County Extension Office then take the examination at the TDA office in Lubbock.

ABOVE GROUND PRECAUTIONS FOR UNDERGROUND SERVICE

Transformers, junction boxes and meter pedestals for underground power lines are almost always installed above ground. Unless you are digging, trenching or drilling, you are not likely to come into contact with the buried conductor - except where it enters an aboveground enclosure.

AVOID UNWANTED CONTACT WITH UNDERGROUND POWER:

- Make sure that all transformer enclosures are kept locked - and alert your electric utility when they are not!
- Never allow children to play on or near enclosures or other electrical facilities.
- Don't allow garbage cans, junk or wood piles to be stacked on or near enclosures.
- Don't allow construction of fences or outbuilding to contact enclosures or to restrict access to them.
- Immediately report any damage to enclosure structures or foundations to your electric utility.
- Never assume that an enclosure is safe to touch - some damage may cause metal cabinets to become energized and dangerous.

CAUTION: Always call your electric utility before digging.
