1993 Property Tax Rates in PLAINS ISD

This notice concerns 1993 property tax rates for PLAINS ISD.

It presents information about three tax rates. Last year's tax rate is the actual rate the school district used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the school district can set before it must hold a rollback election. In each case these rates are found by dividing the total amount of taxes and state funds by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:

Last year's operating taxes.....	\$	1,665,632.88
Last year's debt taxes.....	\$	0.00
Last year's total taxes.....	\$	1,665,632.88
Last year's tax base.....	\$	701,023,940.00
Last year's total tax rate.....	\$	0.2376 /\$100

This year's effective tax rate:

Last year's adjusted taxes.....	\$	1,663,523.83
(after subtracting taxes on lost property)		
/ This year's adjusted tax base.....	\$	710,341,040.00
(after subtracting value of new property)		
= This year's effective tax rate.....	\$	0.2341 /\$100

x 1.03 = maximum rate unless unit publishes notices and holds hearing.....	\$	0.2411 /\$100
--	----	---------------

This year's rollback tax rate:

Last year's adjusted taxes component	\$	10,191,646.58
/ This year's tax base	\$	710,766,950.00
= This year's local maintenance and operating rate	\$	1.4338 /\$100
+ \$.06 = this year's maximum operating rate.....	\$	1.4938 /\$100
+ This year's debt rate.....	\$	1.4938 /\$100
= This year's rollback rate.....	\$	1.4938 /\$100

SCHEDULE A: Unencumbered Fund Balances

The following balances will be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
