**it's Karo for me, the best-tasting  
waffle syrup of 'em all"**

Yes, indeed... biscuits go like hot cakes when you pour on plenty of delicious Karo waffle syrup. There's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night... it tops anything!

**Electric  
Cooking  
is  
COOL**

**.....an electric oven is insulated on SIX sides  
to keep heat out of your kitchen**

Once you've tried cooking electrically, you'll agree that an electric range makes a delightful difference in kitchen temperatures during hot weather.

The reason is that an electric range cooks with less heat being wasted into your kitchen. Your electric oven is insulated - top, bottom and sides - to keep heat in the oven and out of your kitchen. Electric surface units cut waste heat, too, because they heat by direct metal-to-metal contact with cooking utensils.

Find out now how cool electric cooking can be, and discover its other advantages, too. You'll like its cleanliness, accuracy and economy.
