Winters School Board this week will hold an election to determine the desires of the patrons of the School District concerning methods to be used in collecting school taxes. The election will be put off until the same time as the election of new members of the board, April 7.

The board will decide whether the board will appraise and assess under the State statutes presently being followed, or an entirely different method which purportedly gives more flexibility.

## Winters Lions Go Back To School

Members of the Winters Lions Club went back to school for a while Tuesday, in observance of Public Schools Week. The club held its regular meeting and ate lunch in the school cafeteria.

Following luncheon, club members made a tour of the high school building, and then assembled in the audio-visual room at the junior high school to see a film on aviation.

Special guests of the club for Tuesday's meeting, and presenting the program, were members of the Texas Aeronautics Commission. They were Cliff B. Green, executive director of the commission, and Laddie Roark and John G. Uranga, of the Flight Safety Administration of the commission.

Several other guests were also present for the noon luncheon and the program which followed.

## R. C. Thomas Makes Statement In Alderman Race

TO THE CITIZENS OF WINTERS: I am a candidate for Alderman of the City of Winters. I submit herewith my position and beliefs concerning a few areas which I believe affect every resident of this city.

First of all I believe the administration of the affairs of the City of Winters should be conducted in an honest and Christianlike manner, for the good of all the people of Winters.

I believe in the strictest economy in the operation of the several departments of the City of Winters. I believe that any measure should be taken which might serve to save money for the people of Winters, and yet provide essential services at a substantial level. Therefore, I believe the present City Council should be commended on the installation of new accounting procedures at the City Hall. With present procedures, all records can be kept up to the minute, with information immediately available, thus facilitating the economic operation of the city's business. The savings in time and money more than offsets the small cost of installation of the accounting machines used to set up the new procedures. I believe a personal visit to the City Hall and an inspection of the procedures now in use will convince anyone of the value of such an operation in the administration of so big a business as that of the City of Winters. The staff at the City Hall, I am sure, will be glad to give anyone an explanation of the new procedures and bookkeeping methods which have been adopted within the past several months.

I believe that the operating franchise of the West Texas Utilities Co. should be renewed. At a time when Winters is seeking new business and industry it would seem illadvised and selfish for anyone to seek to discourage the addition of any legitimate business, or to seek to prevent any legitimate business from operating in Winters. I believe that no one has the moral right to run a legitimate business out of Winters, under whatever pretext. If any person or group claims such a right, it would also stand that they would claim the right to prevent YOUR business from operating here if it served their purpose. I further believe that this is the principal issue of this election: shall the West Texas Utilities Co. franchise be extended? If I am elected I will work to the best of my ability to see that it is extended.

Everyone would like to see taxes lowered. But the promise to lower taxes is an old political gimmick calculated to gain votes. I will not underestimate the intelligence of the people of Winters by making an unqualified statement that I will lower taxes if I am elected. The level of services provided by the City of Winters is dependent upon the level of taxes. I do believe that the tax structure of the City of Winters should be under constant study by the City Council, and appropriate action taken as situations dictate.

I believe that the business of (Continued on last page)

## Four Candidates Listed In Local School Board Race

Official deadline for candidates to file for the Winters School Board was March 7, and four candidates have been listed.

Latest candidate to file was J. B. Denson of the Wilmeth Community. Previously filed were Lloyd Gilbert and incumbents Milton Jackson and Jake Presley.

Balloting will take place April 7 at the Winters Chamber of Commerce Building.

Denson is a native of the district and has spent a great part of his life in this area where he is engaged with farming interests. Mr. and Mrs. Denson have four children, including two married daughters, Sandra McMillan and Sylvia Isabell. In school is Sharon, a high school junior, and Johnny, in grade eight. Mr. Denson is a member of the Winters East Side Church of Christ.

## Quarter Horse Show To Be April 21 At Lazy "N" Stables

Winters Chapter of The Junior Chamber of Commerce held its semi-monthly meeting, Monday, in the City Hall.

The club is working on the 3rd annual Quarter Horse Show which will be held April 21 at the Lazy "N" Stables. This show promises to be the biggest and best ever held. There have been several new events added this year bringing the total events to thirty three.

Trophies and cash awards will be presented in many of the classes. Added interest has been created in the show due to the fact that Charlie Curley of Pierre, South Dakota, has been secured to judge the show.

A concession stand offering coffee, cold drinks and sandwiches will be provided.

Members present for the meeting were Bill Sharps, John McAdoo, Frank Milliff, Bill Simpson, Morris Robinson, James Gray, Preston Barker, Floyd Sims, James Morrison, Don Bedford, James Gehrels, and a guest, Jerry Chambliss.

Any young man interested in joining or learning more of the J.C.'s is invited to attend the next meeting at the City Hall, March 19, at 7 p.m.

## Wingate School Calls Trustee Election April 7

The school board of the Wingate School has called an election for April 7 for the purpose of electing three trustees for two-year terms.

Present members of the board whose terms expire are Bill Miller, Wayne Owens and George Cathey.

Mrs. Duncan Hensley has been appointed election judge, with Mrs. Ed Kinard and Mrs. Mildred Phillips as clerks. Mrs. Hardy Bryan will be an alternate.

Voting will take place in the Wingate School building. Polls will open at 8 a.m. and close at 6 p.m.

## FROM COMMACHE

Mr. and Mrs. Walter Dixon of Commache were week end visitors in the home of Mr. and Mrs. R. D. Collins and with other friends and relatives. Mr. and Mrs. Collins and Mr. and Mrs. Dixon attended the Rural Carriers meeting in Ballinger, Saturday evening.

## School Board Calls Vote On Tax Rate Question

The Board of Trustees of the Winters Public Schools has called an election for April 7 for the purpose of determining which State statutes governing tax rates for public schools shall be used in financing operations of the local school.

The question will be included in the balloting for school members April 7. Qualified voters who have property listed on the tax roll will be eligible to vote in this election.

This action by the Board of Trustees is a result of a petition signed by 25 qualified property-owning taxpayers, requesting an election on the question.

Taxpayers will be asked to vote for or against the adoption of provisions covered in Article 2784-1, commonly called Senate Bill 116. The bill provides a different method under which school districts may determine how to draw up a tax structure for the district.

Under provision of Senate Bill 116, according to one school official, Trustees are given more flexibility in determining the tax rate. Faced with a depletion of oil properties within the district, many patrons and school officials felt that something should be done now about the tax structure to maintain the high standards of our local schools.

Senate Bill 116 does not automatically increase taxes, it was explained. It does give school trustees authority to raise or lower taxes within definite boundaries as different situations arise.

## PRESENT PROCEDURES

The Winters schools now are operating under Article 2784, which provides that a district may vote a maximum tax of \$1.50 on each \$100.00 of assessed valuation. Under more than 50 cents of the aggregate tax of \$1.50 may be used for

bond purposes. This statute has been in effect for many years and is the statute under which the majority of school districts still operate.

## PROPOSED PROCEDURE

By vote of the qualified electorate, a school district may elect to operate under another statute, Article 2784-1 (Senate Bill 116). This statute provides a maximum tax for maintenance and operation of \$1.50 but bases the amount of tax that can actually be levied for maintenance upon the amount of bonded debt of the district. If a school district's total bonded indebtedness does not exceed 7 percent of the assessed value of taxable property in the district, the maximum maintenance tax rate of \$1.50 per \$100.00 may be levied. If the total bonded indebtedness is 8 percent of the assessed value, the maximum maintenance tax may be only \$1.40. For each 1 percent or major fraction thereof, increase in the debt ratio, there must be a corresponding decrease of 10 cents in the maintenance tax.

For illustrative purposes, if the Winters School District was presently operating under the provision of Senate Bill 116, the following would apply: The District's debt ratio to assessed value is 3 1/2 percent; at this time the old bonds outstanding require a 38 cent tax to service. The district would use the following tax for 1962-63: (1) Maintenance Tax Rate, \$1.42; (2) Interest and Sinking Fund Tax Rate, .38; total, \$1.80.

This rate would apply to present values (1951) at 40 1/4 percent value. For example, a 160-acre farm, under the present \$1.50 rate, would be assessed \$22.40; under the provisions of the proposed structure, the same farm would be assessed, at \$1.80, \$26.87.

## Humorist, Philosopher, Main Speaker At Annual Lions Club Ladies Night Banquet

A widely-known humorist, raconteur and philosopher, Dr. Charles W. Jarvis of San Marcos, will be the main speaker at the annual Winters Lions Club Banquet next Thursday evening, March 15, at the school cafeteria.

The banquet is an annual affair at which the wives of the Winters Lions Club are guests. Also included in the guest list this year will be members of the National Honor Society of Winters High School. Several out-of-town guests also are expected to be present.

John W. Norman is heading the committee making arrangements for the annual banquet. James B. Nevins, Superintendent of Winters School, will be the master of ceremonies, and Mr. and Mrs. Jay Wilkey of Abilene will furnish special music. R. C. Thomas is president of the local Lions Club.

Dr. Jarvis is a graduate of the U. S. Naval Academy, and a veteran of World War II. He was a Navy carrier pilot. He also is a graduate of the University of Texas School of Dentistry, and a member of Omnicron Kappa Upsilon, a national dental honor society. At present he is engaged in full-time practice of dentistry in San Marcos, and has had wide experience as a public speaker. He believes in the humorous approach to life and his presentations, according to other audiences he has faced, "are loaded with humorous stories, jokes, anecdotes, but at the same time carry a message of human relations, public relations, spiritual reward and success."

Dr. Jarvis is in wide demand as a master-of-ceremonies, after-dinner speaker and convention speaker. He has appeared before such groups as the Texas Press Association, Texas Bankers Association, Lions International District Conventions, and Rotary Clubs, and Chamber of Commerce banquets. The subject of his address for the Winters Lions Club ladies night banquet will be "Prescription for the Happy Life."

Included on the program for next Thursday night's banquet will be the Rev. Ray Elliott, who will give the invocation; John Q. McAdams, who will lead the Pledge of Allegiance, and Mord S. Tucker, who will lead group singing. J. W. Bahlman is in charge of decorations and preparations.

## ATTENDED FUNERAL

Mrs. E. Z. Moore and Mr. and Mrs. W. R. Kennedy attended the funeral of Carl Blalock in Abilene Tuesday.

## VISITED IN NEWHOME

Mrs. E. L. Marks and her daughter-in-law, Mrs. R. Q. Marks visited Mrs. Mark's mother, Mrs. J. P. Knight, who is seriously ill in the home of her son, W. T. Knight in Newhome. They also attended the funeral of Will Stokes in Brownfield.

## Free Use of Mail By Reds May Be Discontinued

By Congressman O. C. Fisher

The free use of our mail service to transmit communist propaganda in this country will be discontinued in the future, if a House-approved amendment to a postal rate bill is finally adopted.

The practice of allowing free mail service to the Soviets is in keeping with an international agreement entered into many years ago. The U.S.A., the Soviets, and many other countries, were parties to that arrangement. For a while the privilege as applied to the Communists was suspended in this country, then it was allowed to continue.

Since then, tons of Red propaganda has flooded our mails, saturated our school campuses and libraries, and overburdened our postal service. Many of us feel that even though the United States has the same right to send printed material through Russian postal service, without cost to us, the Soviets abuse their privilege and it is doubtful that very much of what we send over there actually is allowed to get into the hands of the intended readers.

The matter of restricting and controlling this practice is essentially a responsibility of the Executive branch of the government, since it deals with international affairs. But the Congress would seem to have the authority to determine by legislation, as a matter of public policy, what mail may be sent free through our postal service.

In any event, the House has acted, and the measure is now before the Senate.

By a coalition of Republicans and northern Democrats, plus a

## Good Control Of Sorghum Midge By Chemicals

During the past year, tests were conducted by the Texas Agricultural Experiment Station to find a practical chemical control for the sorghum midge. Since grain sorghum planted early in the season usually does not become infested with sorghum midge, the plants used in the tests were planted during the late season.

Paper bags were used to cover the terminal of each plant one day before the heads emerged to regulate midge-laying activities. Bags were removed for 24 hours from 10 plants for 10 consecutive days to expose each head to midge oviposition. It was determined that egg laying by midge occurs most frequently on the third day following head emergence. By the end of the fourth day after emergence, approximately 90 percent of the egg laying is complete.

From this information, it was determined that insecticides should be applied to sorghum heads 1 to 4 days after emergence.

few southern Democrats, a \$263 million job training bill was rammed through the House last week. The Senate had already approved a similar bill; but the Senate, being a bit more welfare-minded, upped the cost to \$655 million. Now a conference committee will work out a compromise.

Actually, the project (which I voted against) is an unnecessary duplication of vast and varied vocational and apprenticeship training programs, costing hundreds of millions of dollars, already in effect. It is another in a series of welfare programs which the Congress will be called upon to approve at this session. But this one had its appeal, and it sailed through.

FAMILIAR RING—Technicians in Loughborough, England, pursue their ancient trade of bell-casting. The bells on which they are working are destined for the Episcopal National Cathedral, Washington, D.C. The bells will range in size from a 20-pound bell to a 23,000-pound boomer.

## Ladies Aid Circle Of Lutheran Church Met Last Thursday

Ladies Aid Circle of the St. John's Lutheran Church met Thursday at 2 p.m. with Mrs. W. F. Minzenmayer, president, presiding.

Mrs. George Pruser Sr. was the program chairman for the month. The meeting opened with the songs "Must Jesus Bear The Cross Alone" and "Come To Calvary's Holy Mountain" and scripture reading was given by Mrs. George Pruser Sr.

Bible Study of the month "The Do and Don't of Lent" was given by Mrs. Ernest Thormeyer and the readers were Mrs. Herman Frick and Mrs. Robert Gerhart.

The group sang songs for those having birthdays in March. Offering meditation and prayer was given by Mrs. George Pruser Sr. and Mrs. Jack Whittenberg, secretary, called the roll and read the minutes of the previous meeting.

Treasure report was given by Mrs. Carl Wessels and the Secretary of Education report was given by Mrs. Ellis Ueckert. Stewardship report was given by Mrs. Herman Frick.

A talk on Nigeria was given by Mrs. August Stoecker.

The meeting closed with prayer and the hostesses were Mesdames Herman Spill, Robert Spill, August Stoecker and Carroll Stoecker.

There were 42 members and visitors present for the meeting.

## Friendship SS Class Met In Rogers Home

Friendship Sunday School Class of the First Baptist Church met in the home of Mr. and Mrs. Dennis Rogers on Thursday night.

Opening prayer was led by Mrs. Rogers. During the business, it was decided to fix a dinner for the mothers with new babies instead of buying a gift as done in the past.

A white elephant sale was held during the devotional period. Some very interesting articles were sold. The class made a good profit.

Refreshments were served to the following members: Mrs. E. E. Dodson, teacher, Mrs. Jessie Bailey, Mrs. Jet Chapman, Mrs. Jim Gehrels, and Mrs. Rogers.

## Health Letter

There was a time in Texas when one of the ravaging diseases was typhoid fever. Whole communities were struck and many victims died.

With the advent of chlorination for public water supplies, increased education efforts on the construction of private wells and water supplies plus modern epidemiological techniques, typhoid fever has steadily declined.

However, 1961 saw a slight rise over the previous year according to the weekly Texas Morbidity distributed by the Texas State Department of Health.

The number of typhoid fever cases last year rose eight percent over 1960—from 73 reported cases to 84.

Deaths from typhoid fever run lower than any other disease except typhus and malaria which are no longer public health problems in Texas.

Morbidity figures are not yet complete for 1961, however, there were four deaths during each of the three previous years. (Totals of statistical figures on deaths usually take several months because of the thousands of records that must be scanned before accurate figures may be compiled.)

Typhoid fever is still endemic to some rural areas of the United States, but in Texas cases are usually sporadic, with an occasional small cluster traceable to a single source or carrier.

## "THE PURPLE HILLS"

Greed, a pretty girl and hostile Apache Indians are the major ingredients in 20th Century-Fox's action-packed outdoor adventure "The Purple Hills," due Friday and Saturday at the State Theatre. The CinemaScope-De Luxe Color drama, filmed on location in Apache land, Arizona, co-stars Gene Nelson, Joanna Barnes, and Kent Taylor.

Painting an exciting screen picture across the broad canvass of Arizona, the suspense-filled story, based on a true historical incident in 1870, tells of a young farmer who turns to bounty hunting. In an attempt to claim the reward for killing a notorious gunman, the farmer is pitted against a ruthless renegade outlaw, also after the money, a beautiful woman, and a tribe of fierce Apaches on the Warpath.

## "SEPTEMBER STORM"

Thrilling underwater action highlight Edward L. Alperson's dramatic new presentation, "September Storm," on view Friday and Saturday at the State Theatre. Shot in DeLuxe color and CinemaScope. The adventure-romance stars Joanne Dru, Mark Stevens, Robert Strauss and Asher Dann.

Director Byron Haskin and his cast spent more than three months on Majorca to film "September Storm" in authentic locales.

## "BACHELOR FLAT"

An eye-filling array of young beauties lends support to the hilarious misadventures of Tuesday Weld, Richard Beymer, Terry-Thomas and Celeste Holm in the 20th Century-Fox CinemaScope DeLuxe Color comedy-romance "Bachelor Flat," coming Tuesday to the State Theatre.

This light-hearted boy-meets-girl fare introduces to American au-

diences England's top comedian, Terry-Thomas, as a "stiff upper lip" British professor of Archaeology teaching in an American college. All the wit, charm and farcical humor that has made his name box-office magic across Britain are here in a situation comedy created for this kind of talent.

## "THE GEORGE RAFT STORY"

Allied Artists' "The George Raft Story," frank film biography of the man who rose from New York's Hell's Kitchen to become one of Hollywood's most famous stars, will show on Sunday only at the State Theatre.

### Dr. Z. I. Hale Attended Meeting In Abilene March 1

Dr. Z. I. Hale, optometrist, attended a postgraduate level optometric study conference in Abilene March 1. The conference was held under the auspices of the Optometric Extension Program, an international and non-profit foundation dedicated to education and research in vision.

Those attending heard Dr. Edmund F. Richardson, optometric lecturer and director of Postgraduate Study of the Optometric Extension Program, discuss problems and recent findings in optometry as applicable to geriatrics.

"Everyone wants to live a long time, but no one wants to grow old," Dr. Richardson said. "During the last decade, the nation's population increased over 18 percent. However, the over-65 group increased by more than 34 percent. There are now 16.5 million Americans in this age bracket.

"The surest way to avoid 'growing old' is to keep the mind active, and the surest way of keeping the mind active is to preserve and conserve eyesight. Fortunately, optometry has kept pace with the great increase in the number of senior citizens, and techniques and methods of caring for aging eyesight are constantly improving. It is perfectly true that the 'golden years' can be really 'golden' with proper care of vision."

Dr. Hale has been enrolled in the study courses of the Optometric Extension Program for the past several years. These study courses keep the optometrist informed of the latest developments and techniques in the field of vision.

MR. AND MRS. JERRY DELTON PARKINSON

### Wingate Baptist Church Is Scene of Huckaby - Parkinson Wedding March 3

Scene of the wedding, uniting Miss Carolyn Huckaby and Jerry Delton Parkinson of Fort Worth, was the Wingate Baptist Church Saturday evening March 3, at 8:00 o'clock. The bride is the daughter of Mr. and Mrs. Clarence Huckaby of Wingate and Mr. and Mrs. T. E. Parkinson of Milnesand, New Mexico are the parents of the groom.

The Rev. I. A. Leonard, pastor of the Immanuel Baptist Church of Portales, New Mexico, officiated for the double ring ceremony before the altar decorated with baskets of white gladiolus and two candelabras.

Candlelighters were Diane Huckaby, sister of the bride, and Barbara Parkinson, of Milnesand, New Mexico, sister of the groom. Wayland Leonard of Portales was best man and Ushers were Douglas Compton of Kerrville, cousin of the bride and Kathy Dunn of Wingate.

Maid of honor was Miss Polly Morgan of Fort Worth. She wore a cotton and lace pale blue street-length dress, fashioned with fitted bodice of lace and lace bolera, banded with the blue material. The bolera was designed with short sleeves and the full skirt was pleated. She wore a white fur hat and carried a bouquet of white carnations.

Diane Huckaby and Barbara Parkinson were also dressed in pale blue frocks fashioned with fitted bodices, puffed sleeves and full-gathered skirts.

Given in marriage by her father, the bride wore a white lace street-length dress over satin styled with fitted bodice, fastened down the front, turn back collar, short sleeves with cuffs and a full gathered skirt. Her shoulder length veil of illusion fell from a crown studded with rhinestones and sequins and she carried a white Bible topped with white carnations.

Mrs. Raymond Dunn registered the guests at the reception which followed the wedding ceremony.

The bride's table was laid with white lace, centered with a large fluted paper doll dressed as a bride. White candles tied with blue ribbons were at either side and the centerpiece was surrounded by blue flowers. The three-tiered wedding cake was topped by miniature bride and groom standing beneath a heart-shaped arch. Mrs. Leroy Adams and Mrs. Pat Sawyer presided at the table and served cake and punch.

The groom is a graduate of Winters High School with the class of 1961. She was a member of the band, Future Homemakers and basketball team. She is attending the Fort Worth Business College.

The bride is a graduate of the Dora, New Mexico High School where he was active in sports, band and Future Farmer Chapter. He is also attending Fort Worth Business College.

Mr. and Mrs. Parkinson will make their home in Fort Worth and continue their business courses.

House Speaker Turman "Shocked" Textbook Hearing Allegations

Yern Sanford Press Association

The Texas Youth Council fight for a legislative appropriation of \$100,000 to add to the Juvenile Parole Board.

General Will Wilson will receive a \$200,000 grant along with a \$100,000 grant to Dr. James A. Young, Jr., director of the Texas Youth Council.

Other expensive items included: Purchase of \$1,900,000 worth of right-of-way on US 90 in Bexar County; plans for development of US 290 out of Houston at a starting cost of \$2,810,000; \$797,000 to repair freeze damage in the Abilene district; a \$680,000 right-of-way okay for a two-mile segment in San Antonio and \$477,800 for relocation of US 59 around Wharton and El Campo.

Less costly projects are set for Fort Bend, Angelina, Brazoria, Gillespie, Hudspeth, Martin, El Paso and Nolan counties.

SUNDAY NO EXCEPTION Just because April 15 will fall on a Sunday this year, drivers won't be allowed to put off auto inspection until the following day.

Garrison said he won't ask inspection stations to stay open that Sunday, either. So, owners of the 2,000,000 cars in the state will just have to take care of this problem by the 14th of April, or risk arrest.

Some Republican candidates have a regional flavor—like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representative hopefuls for 77 counties; and congressional candidates in all but seven districts.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharp of Houston, former US Secretary of the Air Force, chairman of the Republicans' finance committee.

The Texas Water Commission asked Texas Research League to make a study of the commission's operations and the system of dividing the responsibility for Texas' water development among several state agencies.

The problem of water development and conservation in Texas is so great and controversial that the already-burdened League researchers estimate it will be 1963 before they can begin such a time consuming, comprehensive study.

Judge Otha F. Dent of the Water Commission expressed deep concern about meeting water requirements for 1980. Not only is it necessary to develop plans for constructing dams and reservoirs to fill the expected need, but the business of condemning land and building these projects involves as much as a decade.

One stage of the long-range development plan includes a \$65,700,000 reservoir on the lower Navesota River. But supporters have run into the problem of excessive chloride content caused by oil field salt water waste disposal—a problem repeated in many Texas streams.

Water Commission Engineer John Vandertulp will submit a report on the source of this pollution next week.

Mrs. Carter Clopton took over as State Coordinator of Aging Services, which is set up to guide organizations interested in care and activities of elderly people.

Alex C. Roberts of Austin succeeded E. H. Coffield of Del Rio as a member of the State Board of Barber Examiners.

GOVERNOR GOES TO WASHINGTON

Gov. Price Daniel went to Washington, D. C., for the weekend where he shared honors with Billy Graham as speaker for the annual President's Prayer Breakfast.

As a US Senator, Daniel was president of the Christian Leadership group, sponsors of the annual breakfast for the President, his cabinet and members of Congress. He has remained active in the program in the nation's capital and in Austin.

Judge Zollie Steakley of the Texas Supreme Court hosted a similar event in the governor's mansion while he was gone.

SALES TAX HEARING SET

Sen. George Parkhouse of Dallas, chairman of the Texas Commission on State and Local Tax Policy, invited anyone interested in changing the sales tax structure to attend a public hearing on suggested changes in Dallas on March 30.

Parkhouse asked that anyone who wants to appear at the hearing advise the commission by sending a letter to Drawer C, Capitol Station, Austin, 11.

The commission was authorized to study proposed changes in the new sales tax during the recent special session of the legislature.

Members include Senators Louis Crump of San Saba and Jap S. Fuller of Port Arthur; Representatives Charles Ballman of Borger, Charles Sandahl Jr. of Austin and Charles Wilson of Trinity; Dr. John R. Stockton of the University of Texas' Bureau of Business Research; John McKee of Dallas and Hugo Loewenstern Sr. of Amarillo.

ARMY CALLS FOR APRIL QUOTA

Eligible men 22 years old and older will make up the April army draft quota of 244, says Col. Morris S. Schwartz, state selective service director.

Number of inductees is up from the March quota of 228. Schwartz said local quotas already have been sent to the 137 local boards in the state.

Exceptions to the 22-year-old rule will include volunteers and official delinquents.

GOP HOPES TO BLANKET STATE

After State Democratic Executive Committee officials slung verbal arrows at the Republicans for not holding primary elections in every county and precinct, the GOPs embarked on a campaign to finance a primary in every county.

Paul Desrochers at Republican State Headquarters said, "We're working like mad to get a primary in every county." Two obstacles stand in the way: Getting funds in about 235 counties where the party has county chairmen, and getting chairmen for the other 19 counties.

Some Republican candidates have a regional flavor—like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representative hopefuls for 77 counties; and congressional candidates in all but seven districts.

Republican party still wants general ballot representation for the winners among its two gubernatorial candidates, two candidates for lieutenant governor, and those seeking posts as congressman-at-large, commissioner of agriculture, general land office and on the railroad commission.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharp of Houston, former US Secretary of the Air Force, chairman of the Republicans' finance committee.

Judge Otha F. Dent of the Water Commission expressed deep concern about meeting water requirements for 1980. Not only is it necessary to develop plans for constructing dams and reservoirs to fill the expected need, but the business of condemning land and building these projects involves as much as a decade.

One stage of the long-range development plan includes a \$65,700,000 reservoir on the lower Navesota River. But supporters have run into the problem of excessive chloride content caused by oil field salt water waste disposal—a problem repeated in many Texas streams.

Water Commission Engineer John Vandertulp will submit a report on the source of this pollution next week.

Mrs. Carter Clopton took over as State Coordinator of Aging Services, which is set up to guide organizations interested in care and activities of elderly people.

Alex C. Roberts of Austin succeeded E. H. Coffield of Del Rio as a member of the State Board of Barber Examiners.

IT'S THE LAW—IN TEXAS

Income Subject To Taxes

Reporting your correct gross income is the first and most important item of business in preparing your federal income tax return.

As a general rule, gross income can be defined as the sum total of amounts received by you for your services, amounts which you receive from others for the use of your property or money and the profit which you realize from the sale of your property.

While your gross income will normally result from cash received in the form of wages or pay for your services, this need not be the case. Money, therefore, is not the sole medium of exchange used to determine the receipt by you of gross income.

The fair value of property or services you receive in return for your services and the use of your money or property must also be taken into consideration in determining your gross income.

Thus, if your employer provides you with a house in which to live or provides you with food, you must include in your gross income the fair value of these items.

A person who receives a prize or contest award or who gambles and wins must include in his gross income the cash received and the fair value of items or services received.

There are some items which would logically fall within the general rule which are specifically excluded from gross income by law. For example, if your employer requires that you be present on a

24-hour basis and provides you with a room or house on his premises, this amount does not constitute gross income.

Similarly, if your employer gives you meals and requires that you eat on the premises, this amount would not constitute gross income to you.

Other exclusions are premiums paid by your employer for group term life insurance, group health insurance premiums, the cost of transferring you and your family to a new location or office at the direction or request of your employer and other similar items which are paid to benefit both you and your employer.

Pay received while sick, interest on state and municipal bonds, and the first \$50 of dividends received by an individual also are specifically excluded.

The application of the general rule mentioned will show you why gifts, inheritances and government benefit payments are not included in gross income, and why you must include such items as bonuses from your employer and pensions received from your employer after retirement where you have not contributed to the retirement fund.

Price, spice and everything nice! Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. ## Predicts Great "Give-Away" Era With Five-Hour Day Cut To Two-Hour Day

The United States will probably suffer from another business depression. But it will not be like that of the "Thirties". The President and Congress are willing to risk "breaking the nation's credit" rather than risk a year of serious unemployment.

**Prosperity Not Permanent**  
We will see a rash of failures; but the "smart boys" in Washington may not let them be called "failures". They will be listed as "consolidations" or "mergers" or "going out of business". We will not see the unemployed selling apples on the street; but we may see apples given away to all who call for them. It will be known as the great "give-away era". The 5-hour day may temporarily be cut to a 2-hour day.

The legislation that President Kennedy now wants to help the aged and the ill will then quickly be enacted. The government will subsidize small business as it now does the farmers. We will be approaching socialism; but under some new name. The unemployed will be sent to schools and colleges which will be given federal aid generously and in abundance. According to Senator Goldwater and the John Birch "rightists" this will finally lead to further reaction and trouble. The Armed Forces recognize this and would like to join this "rightist" movement; but they are being muzzled. The labor unions, however, are behind the movement. Their leaders realize that if the liberals and radicals go too far, President Kennedy or "some man on horseback" will become a dictator. These labor leaders at heart are conservatives.

### What About The Stock Market?

Ah! this is something different. For over 50 years I have studied the stock market. Hence, now I will discuss what I know something about! I am a statistician, not a politician. Let me start by saying that over 7,000,000,000 (seven billion) shares of common stock are listed on the New York Stock Exchange and less than one billion more on the American Exchange. Ninety percent of the latter are of small speculative companies which we will not now count. None of the latter affect the Dow-Jones Industrial Average. Of the above-mentioned shares I will estimate approximately how many shares are tied up and how many are free to break quickly in a crash.

Shares	Value
Total	7,000,000,000
The New York Stock Exchange has over 1,300 members. Of these 880 are Banking Firms in active business. These should have an average 500,000 shares owned by customers. ALL THESE FIGURES ARE ESTIMATES	340,000,000
Mutual Funds	10,000,000
Banks, Insurance Companies, Labor Unions and Closed-end Investment Trusts	10,000,000
Shares held abroad or in transit	1,000,000
Private Investors with Certificates in their safe-deposit boxes (5,000,000 persons averaging 200 shares)	1,000,000,000
Speculators holding their shares outright	1,000,000,000
Certificates of deceased or sick persons which are not "good delivery"	1,000,000,000
ESTIMATED TOTAL	3,361,000,000

**Analyzing This Seven-Billion Figure**  
Now let us form an estimate another way. Of those 7 billion shares about 2,500,000 are traded daily a week, or say 50 days a year (2,500,000 x 50) or about one billion shares in a year.

When we consider that for every seller there must be a buyer, and that the specialists cannot allow the sales to be quoted at too much of a spread, this is another brake on the sales. This is of itself a curb on a panic crash and is now being carefully watched by the SEC. Furthermore, if we take these 7 billion shares, less the deductions, and adjust same to the stock splits, stock dividends, number of population, assessment of real property, gross national product, and value of the dollar, these figures would be severely changed. The final result, however, would show that the percentages would not be materially changed.

### Power Of Compound Interest

Now to my conclusion: The percentage of deductions indicates the possible percentage of cushions or curbs to any eventual crash, including legislation as to margins. The percentage of these "cushions" is increasing more rapidly than the total shares. This is due to a far greater public interest in investments and a greater percentage of money coming into the treasuries of mutual funds, insurance companies, labor unions, and savings accounts. Also important is the increased increment of compound interest, which applies mainly to the deductions. All the above means that although we will continue to have "bear and bull" trends (due to Newton's Law of Action and Reaction)—barring World War III, no reader of this column will see another stock market crash like 1929.

I cannot overemphasize the great importance of cumulative compound interest. At 8 per cent money doubles in 12 years. Most of the deductible funds mentioned above will yield about 4 per cent. This means that they are constantly increasing while the 7 billion listed common shares are not increasing in comparison therewith—probably around 2 per cent. This means that the Dow Jones 30 Industrials are no fair barometer of what the 7 billion shares are doing.

# THE LION'S SHARE

*The lion that can roar the loudest and bite the hardest usually gets what he wants.*

That's the way it is in the animal kingdom, and sometimes the system creeps into man's world too!

Most of us have too much RELIGIOUS AWARENESS to believe that such a system is the best one. We would rather live in a world in which kindness and peace and unselfishness were the rule.

Our Churches can help us build such a world. They can turn our religious awareness into SPIRITUAL GROWTH.

On Sunday morning, the man in the armchair knows just as well as the man in the pew what is wrong with the world. But the man in the pew will be busy doing something about it!

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# JOHN DEERE DAY

★ We've lined up top-notch talent...

Young BILLY MUMMY, JOHN CARRADINE, GEORGE GOBEL

You'll get plenty of enjoyment from a show that teams up these outstanding performers! Gobel, Carradine, and Mummy star in a delightful film that ties the whole program together. It's a story packed with color and comedy about a case of measles and a boy who can't go to John Deere Day. So he and his uncle dream up a carnival of their own . . . and only those who have measles can get in. Gobel's wittier than ever as master-of-ceremonies on film, introducing news about today's agriculture in his own inimitable fashion.

★ We've lined up a parade of Fascinating Farm Features

You'll be transported by the camera to various parts of the agricultural world where you'll see all the new John Deere equipment for 1962 . . . combines in action, working in the field against the clock . . . the building of high-quality tractors . . . a labor-saving way to make and handle hay . . . what a John Deere dealer's business is really like . . . amazing oddities in farming. Here's a wealth of farm information you won't want to miss!

BY VERN SANFORD

Fishing techniques have been in constant evolution during the past decade.

While spinning tackle still is holding on strong, the current trend is marked by the determined comeback of casting and fly-fishing outfits.

Probably the foremost reason is that those who started fishing with spinning rigs now want to try something new and more demanding.

At first it was thought that spinning was a cure-all for fishing. Now that the picture is clearing it is evident that spinning tackle has a definite place in fishing, just like fly-fishing and casting tackle. But it isn't the all-around tool that will do everything.

Often an angler can take fish on fly tackle when everything else fails. There's something about the colorful little cork bugs and the enticing flies that really appeal to fish.

This type of tackle is particularly effective when fished on small, fast-running streams.

But there's one overlooked fact about bass bugs. They WILL work effectively on Texas' deep, man-made reservoirs. And a fisherman hasn't really lived until he duels a pugnacious bass on a delicate little wand of a fly rod.

Many people have the misconception that learning to use a fly rod is a difficult assignment. Actually, the basics are quite simple. Usually a person becomes proficient enough to go fishing after an hour's practice in the backyard.

Unlike spinning or casting outfits, the fly fisherman casts the line rather than the lure. With this type outfit balance is all important, particularly correct balance between line and rod.

All fly rods come marked with the type line they require. However, it has been my experience that these are usually a mite on the light side. It is better to go to the next largest line than the one designated on the rod.

The reel on a fly rod is simply a device to hold the line. The type reel, either automatic or single-action, is purely a choice of personal preference.

Fly rods today are priced within the budget of anyone's pocketbook. In years past the custom-made bamboo rods were quite expensive, but nowadays fiberglass rods not only are relatively inexpensive, they also are dependable and cast adequately.

A basic rig includes a fly rod and a level line. But the more expensive tapered lines are easier to cast and therefore easier to learn to use. The difference in price is well worth the money.

A bass bug line, for example, is a forward taper, with the heavier portion of the line being out on the end.

A line to be used in the northern states for trout fishing is a double taper, slim at both ends with a heavier belly in the middle, made to put a fly more delicately on the

water on the cast.

Long, tapered leaders, at least six to nine feet in length, are less prone to spook wary fish. A typical one tapers from about four to six pound test where it attaches to the line, down to about two pound test on the tippet.

In fly casting the one important thing to remember is timing.

Some loose line is stripped off the reel and laid out in front of the caster. Then the rod is brought back smoothly to the 1 o'clock position, where the caster pauses until the back cast completely straightens out, before he starts forward smoothly. It is best to watch the back cast at first to make sure it completely straightens out before coming forward.

If the line strikes the water before the bait does, then the caster is not allowing the back cast to straighten out before bringing the rod forward.

To become a real good fly caster requires practice.

But it is one of the most rewarding and satisfying ways to fish. Many times also it is the most productive.

There's something about those little topwater bugs and those imitation flies that sunfish and bass can't resist. Probably because they so closely resemble the fish's favorite food.

Anyway, it's fun to fly fish.

### Mrs. Dennis Poe To Represent Jr. Culture Club

Junior Culture Club has named Mrs. Dennis Poe to represent their club in the Vogue Sewing Contest to be held at the Heart O' Texas District, T.F.W.C., convention in Junction March 8-9.

Mrs. Poe was selected at a recent meeting in the home of Mrs. James Glenn with Mrs. Douglas Cole as hostess. A dress revue was given with Mrs. Bobby Rogers doing the commentary. Miss Louise Decker, Runnels County Home Demonstration Agent, was guest judge.

Also taking part in the contest was Mrs. Edward Bredemeyer. She modeled a beige coat dress of a nubby textured silk. Mrs. Bredemeyer accented her costume with an orange chiffon scarf matching the silk organza flower in her beige hat. Other accessories were Chocolate brown bag and shoes, neutral gloves, and gold jewelry.

The winning garment was a two-piece ensemble of pure silk in the newest shade, "Romance Pink". The waist length bolero, buttons in back and features a round neckline and elbow length sleeves. The easy fitting skirt gathers at the side, front and across the back. Mrs. Poe's accessories are black patent shoes and bag, a pink floral hat, and white gloves.

During a short business meeting, Mrs. James Hinds, incoming president, was elected as delegate to the district convention. Mrs. B. J. Colburn will act as alternate.

Mrs. J. C. Colburn reported the club had made a \$10.00 donation to help the under-privileged children of the primary school. This made a total of \$20.00 made to this year's club project.

Mrs. Don Oaks was welcomed as a new member. Other members attending were Mesdames Edward Bredemeyer, B. J. Colburn, James C. Colburn, Douglas Cole, Cecil Hambricht, James Hinds, John E. McAdoo, Dennis Poe, Bobby Rogers, Tommy Russell, L. G. Wilson.

### R. C. Thomas--

Continued from page 1) The City of Winters should be conducted at open Council meetings. If the people of Winters see fit to elect me, I will work to see that business is conducted by the assembled council and not from under the counter of some downtown store.

I also ask that the people of Winters support the election of W. M. Hays and J. W. Bahlman. I believe that the three of us, along with the remaining members of the Council and the Mayor, can work together in harmony for the good of all the people, not as a bloc of previously-obligated voices for any special interest group, but as a dedicated governing body working honestly and aboveboard toward a common goal. We perhaps do not agree on methods of operation in every situation, but we do agree on principle, and we do agree on principle, and voters may be assured that we will not compromise our principles for any cause.

I refuse to make a lot of wild promises about what I will do if I am elected. But if the people of Winters elect me, I, being under the bond or obligation of no man, will do the best I can. No man can honestly promise more.

R. C. THOMAS  
Candidate for Alderman.

### Martha SS Class Met In Home Of Miss Cook Tuesday

Miss Mattie Cook hosted the Martha Sunday School Class of the First Baptist Church Tuesday evening in her home.

Roll call was answered with scripture verses and minutes of the last meeting were read and approved.

Mrs. Jake Smith gave the devotional on "Grumbling" and the diversion "Why We Are Democrats and Why We Are Baptists" was given by Mrs. Merle Bains.

A salad plate, punch and coffee were served to Mesdames C. S. Jackson, Merle Bains, Sam Cook, Rufus Smith, Jake Smith, Court Meeks, L. O. Steel, and Misses Flora Reese and Mattie Cook.

### Mrs. C. C. Benson Hosted Dorcas SS Class Thursday

Members of the Dorcas Class of the First Baptist Church met in the home of Mr. and Mrs. C. C. Benson Thursday evening at 7:30 for their regular business and social meeting.

Mrs. R. D. Collins presided for the program and Mrs. W. R. Kennedy gave the devotional on "Purpose of Prayer" taken from the 3rd chapter of Psalms.

Following a lengthy business discussion and social hour refreshments were served to Mesdames R. D. Collins, Grover Davis, Pete Davis, Loucile Roberts, A. L. Crockett, H. P. Witkowski, a new member, Mrs. F. D. Gardner, Mrs. Kennedy and the hostess.

### Mansell Bros. Will Present John Deere Day Here March 12

George Gobel, noted tv personality will star in the John Deere Day program to be held at the State Theatre on Monday, March 12, it has been announced by Mansell Bros., local John Deere dealers who will host the event.

G. W. Sneed, manager of the Winters implement house, said that the show will begin at 7 p.m. Refreshments will be served and door prizes will be awarded, he said. There will be no admission for the show.

In addition to lending his comedy to the role of "Uncle Henry" in a film fantasy which serves as background for the entire program, Gobel will also double on film as the program's master of ceremonies.

According to Sneed, this year's film is altogether different from any previously shown on John Deere Day.

"It's a Family Program," Sneed said. "It's a real good blend of entertainment and information with enough smiles to make it truly enjoyable and enough serious interest to make it really worthwhile. The program will be free to all farmers and their families. And you don't have to own a John Deere Tractor to attend—just being a practicing farmer is ticket enough."

Woven into the program, which features, besides Gobel, Hollywood's John Carradine and child actor Billy Mumy, are six additional educational, informative films. These include the best in "Oddities," a collection of the most popular "Oddity" films shown in previous John Deere Days since the series began some years ago. Also included is "All in a Day's Work," an unusual harvest film showing late-model combines being checked in grain fields in various parts of the country.

Other films are "Pattern for Performance," the story of the relationship between careful manufacturing, checking, and testing of tractors in the field; "One-Man Hay Day," a report on the John Deere one-man haying system and the way it pays off in lowered labor cost and in increased milk and beef production from better hay; and "Partners," a film story showing the united efforts of manufacturer, dealer, and farmer in giving impetus to the business of agriculture. Of course, the highlight of the program is "What's New for '62," a complete line-up of what's new in tractors and equipment.

The next association meeting will be held at the Scout Hut at 8:30 Thursday morning, April 5th.

### FHA Members Attend Area Meet In Stephenville

Several members of the Winters High School chapter of the Future Homemakers of America, and their sponsor, attended the Area IV meeting in Stephenville March 2 and 3, and took part in the programs.

Girls attending were Pam Bedford, who represented the local club as president; Jaye Henley, who was a voting delegate from the Winters chapter; Dickie Hale and Rosalene Scott, who had submitted their state homemaking work as candidates for state degrees; and Barbara Baldwin and Lynn Mitchell, who sang with the area choir.

The girls were accompanied to the meeting by their sponsor, Mrs. Jeannette Brooks.

The theme of the Stephenville meeting was "Our American Freedoms," and the main speaker was Dr. Rex Kyker, Abilene Christian College professor.

Girls from five area schools presented skits pertaining to old American customs.

### Home Town Talk--

(Continued from page 1)

pointed out the many control systems, the power units and explained, as far as could be done within security boundaries, the operation of the equipment which has been lowered from the surface deep into the deep pit. Walking about on one of the "levels," deep beneath the ground surface, one cannot imagine that just a few short months ago this site was only a little piece of land on a farm. The space age has progressed so fast and has gone so far that the impact of such an installation is unbelievable.

This site is one of twelve in this area surrounding Abilene, and only one of several hundred built around the country as a promise of retaliation in the event Russia decides to start another war. Within a few months, after the "bird" is lowered into the barrel, all controls set and cocked, the installation will remain on the "ready," loaded for Russian "bear."

Just another guarantee that we will not just sit and be swallowed up by the Red tide which seeks to engulf the entire world.

### Monthly Meeting of Girl Scout Ass'n. Held Thursday

Monthly meeting of the Girl Scout Association was held on Thursday, March 1, in the home of Mr. and Mrs. Clem Rozmen.

Mrs. Rozmen presided for the business session. Mrs. Jack Roe, program chairman, announced that all girls would meet at the scout hut at 9 o'clock, March 9th to plant their anniversary flowers. Some girls will plant iris, others plan to bring marigold seeds or canna bulbs. Each troop will plant a yellow flower in observance of the Girl Scouts 50th anniversary.

A watering schedule was worked out to water the roses that were planted at Lakeview Cemetery last month. Troop 4 will water the bushes on Monday, March 5th; Troop 1 will attend to the roses on March 14th; Troop 5 on March 22nd and Troop 3 on March 26th.

March 16th is the date set for the Scout Hut Ceiling Fund Drive. Local talent will be used for entertainment and Mrs. Hubert Crenshaw, cookie chairman, will recognize the scouts who sold 48 boxes of cookies or more. Admission for the program has been set at 10 cents for students and 35 cents for adults. This is a joint program for the Girl and Boy Scouts with each taking part in the ceremonies. Time was set at 7:30.

Mrs. Crenshaw announced that Winters girls sold 117 cartons of cookies or 1304 boxes. The troops keep 5 cents for each box of cookies that they sell.

March 11th will be observed as Girl Scout Sunday and each scout is urged to wear her uniform to the church of her choice on that day. A special section will be reserved for girl scouts and the ministers have been asked to recognize the girls at church.

The next association meeting will be held at the Scout Hut at 8:30 Thursday morning, April 5th.

### 500 Attend Farm Equipment Fish Fry Last Week

Approximately 500 people attended the fish fry sponsored by Farm Equipment Tuesday night of last week, and inspected some of the latest Case farm machinery which was on display.

E. E. Thormeyer, owner of Farm Equipment, said that the fish fry was an annual "appreciation dinner" for friends and customers of the company.

Included in the equipment on display were new Case utility tractors, combines, and other machinery.

Helping in the exhibition of the farm machinery were representatives of the Case Company from the Dallas office.
