Mrs. Opal Beggs, Carbon Resident, Buried Today

Funeral services for Opal May Beggs, 55, of Carbon was held at 3 p.m. today at Arrington-Hammer Funeral Chapel, with the Rev. Lee Fields, Baptist minister, officiating; assisted by the Rev. C. C. Clements of the Long Branch Baptist Church.

Burial was in the Murray Cemetery in Carbon. Grandsons served as pallbearers.

Mrs. Beggs died at 11 p.m. Wednesday in Eastland Memorial Hospital.

She had been ill for two months.

She was born Opal May Wright, April 11, 1904, in Comanche County and had been a resident of Carbon for 18 years, moving there from Eastland. She married Samuel David Beggs in Comanche and was a member of the Long Branch Baptist Church.

Survivors include her husband; three sons, John T. of Rising Star, William D. of Austin, and Samuel Lee, Sr. of Eastland; four brothers, William W. Wright, Samuel C. Wright, Fred, William D. right, all of Dallas, and Jesse James right of Temple; 12 grandchildren and five great-grandchildren.

New Concept For Kendrick Army Show

Traditionally, July the Fourth is the holiday for celebrating Texana and the Texans are particularly now.

Amphitheater at Cisco and Eastland will be the scene of a re-enactment of the Kendrick spectacle at 9 a.m. featuring the Wild West theme in a concept entirely new.

In the past, it was explained, the script has been written to follow the history of Eastland County. This year, however, the cast will re-enact the troubled days of fence building and the battles it brought about between the farmers and ranchers.

It will follow the life of Johnny Ringo from his childhood through the notorious days of his bank robbing and killing, his flight into Mexico under chase by the sheriff and a posse and his brutal, bullet-riddled death and burial. Subsequent scenes will bring the time to the present.

There will be music and dancing to suit all ages as the story unfolds from the earliest day of western history to modern times with its craving for rock 'n' roll.

A big new feature of the program will be the appearance of a professional clown from Dallas with his famous white mule and dog acts. He will appear throughout the show. "Don't miss him" said the Kendricks.

Immediately following the western musical production there will be a gigantic fireworks display featuring the history of Eastland county in

August 1 Deadline Certifying Crop Acreage

August 1 is the deadline for reporting acreage planted to peanuts, cotton and feed grain by participating farms, Meredith said. Eligibility requirements are now available at the office.

The ASC will not visit the farms and measure acreage under the new program, and it is the responsibility of the operator of the farm to see that 1969 acreages of crops covered by the ASC are reported in time and accurately, he said. Reporting should be done as soon as crop plantings are completed.

"A participating farmer cannot afford to guess at his acreage," he explained. "He should be sure before he certifies. If he wishes his crop to be measured before he certifies, he should file his request at once. June 15 is the final date to file application for this service."

A small fee will be charged for the service, but it could save the farmer money later on."

Meredith suggested that a farmer who is not sure of his acreage or his ability to measure it properly should request the service as a precaution.

The Garden Spot

By DEMARQUIS GORDON

There sure are a lot of people using Di Syston to control honey dew aphids in pecan trees. It's not too late to get the granules in the ground since the aphids do not usually get bad until July and August.

Roy Lane, District Clerk in Eastland, said he was sure sold on Di Syston. He has always had trouble with honey dew, but used Di Syston last year and got one hundred percent control.

You can't be too careful with this insecticide because it is sure dangerous. Don't let the Di Syston come in contact with your skin nor inhale the fumes. It is safe to use if you follow those two rules.

Following directions on the

label is important when using any insecticide. Even then you must be careful.

Sam Kimmell of Cisco said he sprayed the ornamentals with Malathian and poisoned his dog in the process. Sam got the dog to Dr. Bill Cardwell in time though and at last report the dog was improving.

I sure have seen some pretty vegetable gardens all over the county this spring. Mrs. Lloyd Williams, who lives at Lake Leon, came by the office to pick up some publications. She was very enthused over her garden. Th Williams retired about two years ago and moved to Eastland County. They had already harvested tomatoes, okra, and many other vegetables on June 4.

If you are having trouble with insects in your garden you might like to have a copy of bulletin L-642, Insect Control in the Home Garden. Come by or call the county agents office for a copy.

To Be Bonus for V-C Employees

Employees of Victor Cornelius were surprised Friday to receive two checks instead of the one they expected.

The extra check, which several first thought to be an error, was soon happily accepted for what it was — a surprise bonus.

All employees who had been with the theatrical advertising and menu printing firm for one year or longer received \$100 each. In all, the 70 employees received more than \$6,000.

"Volume of business continues to increase," Cornelius said. "Just this week," he added, "an interesting order arrived from Morocco, Africa."

Request Is A Must For Farm Measurement

If you want your program acres measured after planting, the time for requesting this service is now. This includes cotton, feed grain, diverted acres, and peanuts.

To request this measurement service, a farm producer must do so either by telephone or in person at the county office. Service fees are \$5.00 for the first plot and farm visit plus \$2.00 for each additional plot plus \$.05 per allotted or base acre. Fees for the service must be paid in advance of a reporter making a farm visit.

Requests for measurement service after planting will be received only through July 15. This is due to the heavy county office workload and to enable farm producers to make their report of acreage certification by the August 1 deadline.

"If you are unsure of your acreage you would be very wise to pay a small fee and have it measured before you plant," announced Jesse G. Meredith, county office manager, "because overstating or understating your allotment or base could cost you loss of price support and penalty for violation of federal regulations."

with "What is your middle name?" Mrs. Guy Sherrel gave the council report.

Janet Thomas gave the program on "Cooking with Herbs."

Members present were: Mmes. Brown, Taylor, O'Brien, Hastings, Cashin, Sherrel, Graves. Thomas visitors present were Mrs. Corey Harlowe and Mrs. Dona Frambrough.
