Royce McGaha and wife of Clifton, Ariz., spent the week end with his parents, W. S. McGaha and wife.

Bud Clack and family of Stephenville spent the week end with her parents, Wade White and wife.

'38 Study Club Closes Work For 1949-50

Mrs. H. G. Hines was hostess and leader on a "Self-improvement" program on May 10th.

Mrs. T. E. Robertson called the house to order promptly at 2:00 o'clock. After the reading of minutes of the previous meeting, a business session was held.

Mrs. Hall has for these many years, ably and efficiently attended to the club library. Mr. Hall has kindly checked in, and out the many books that people have read from our library of near seven hundred books. Because of Mr. Hall's failing eyesight and her inability to be there at all times, she has resigned. The members of the club humbly and gratefully offer their appreciation for their service. The books will, at an early date, be moved to another place, which will be announced.

Mrs. Hines and Mrs. Poe each gave papers on different phases of self-improvement. Mrs. Hines discussed mainly what to do and say and what not to do or say. Mrs. Poe's discussion was on w at to wear and what not to wear to suit your individual type.

Following this a style show was held featuring the latest in ladies' head-gear.

Mrs. T. E. Robertson, outgoing president, read an installation service putting "out" the old, and "in" the new officers.

and tenon pie were served to the club, all members being present.

First Baptist Church

G. W. Thomas, pastor Sunday School 10:30 a. m. Rufus Feen, Superintendent Morning worship 11:00 a. m. Clive Murray, Director.

High School Baccalaureate sermon at the evening hour. Errother Moore, pastor of the Church of Christ will deliver the sermon.

Monday: 3:00 p. m. W. M. U. Stewardship and business meeting Wednesday, 8:00 p. m. prayer meeting.

Mrs. Sandlin Hostess For Fish Fry; 42 Party

Last Friday night Mr. and Mrs. D. D. Sandlin opened their home to members of the '38 Study Club and their husbands. A fish fry was first on the program.

Two couples were necessarily absent and Mr. and Mrs. Elton Guy and Mr. and Mrs. Bud Clack took their places.

Rev. and Mrs. G. W. Thomas were also present to help fry and enjoy the fish. Some of the members of the club can testify that the preacher knows how to do things besides preach.

After a delicious supper of hot fried fish, pickles, pie, cookies and iced tea, an hour or two of 42 was enjoyed by all present.

The club will meet again next September under the leadership of Mrs. Henry Hines.

Methodist News

Lively Brown, Pastor Sunday Morning Services 11 a. m. The evening services will be dismissed for the Baccalaureate service.

The Preacher's Wife

There is one person in your church Who knows the preacher's life; Who weeps and smiles and prays

strength, When wielding God's sharp sword, As underneath God's banner folds He faces the Devil's hords.

But deep within her heart she knows That scar e an hour before She helped him pray the glory down Behind the closet door.

She's heard him grcancing in his soul, When bitter raged the strife, As, hand in his, she knelt with him For she's the preacher's wife.

You tell your tales of prophets brave Who march across the world And change the course of history By burning word they hurled.

And I will tell how back of each Some woman lived her life, Who wept with him and smiled with him, She was the preacher's wife.

The hottest temperature ever obtained on earth is 7,200 degrees Fahrenheit; the coldest, 457 1/2 F. below zero, according to Richards Topical Encyclopedia.

SCRIPTURE: Micah, especially 1:1; DEVOTIONAL: 6:5; READING: Psalm 72: 1, 4.

God and Our Rights

Lesson for May 21, 1950

CIVIL RIGHTS are now a political football in the United States. Every legislator likes to be known as favoring them. Everybody seems to be all out for rights for everybody. Then why isn't everybody satisfied? The truth is, a lot of us just let the other side come down to political facts, the people who get their "rights" recognized first are the people with the most votes.

Dr. Foreman

Cannibal Country
THIS IS NOT a new problem. Long ago the prophet Micah faced it, said some brave words about it. He was a small-town man living in a village near the Judah-Philistine border.

The villages were made up of farmers, who did not live on their farms as we do but lived all together for protection, going out into the country by day to work their farms, coming back to the village at night. None of them owned very much land, and few indeed were rich.

There was just one big city in Judah, Jerusalem the capital. Compared with the rest of the country it was immense and enormously rich. Now it does not take two guesses to know how Judah, as a nation, was run. Jerusalem ran it. The big city was growing richer and richer while the country grew poorer and poorer.

The small farmers were losing their lands and becoming tenants or hired men (2:1-2). Micah talks of the princes of Israel, the aristocracy, as cannibals, eating the flesh of the people.

Half Slave, Half Free
NO COUNTRY is a good country, no country is in a healthy condition, if one part of it is tearing the other part down. If the strong are living off the weak, the whole nation grows weak. Micah saw that exactly; indeed, he predicted that because of the kind of country it was, half opposed and half oppressing, it would be destroyed.

No enemy of his country, he did not enjoy forecasting its downfall. But he loved people, he loved his country neighbors, he could see what was happening to people who were being crushed down into the dirt, he knew that could not go on and on without a smash. (And it came!)

This has been the story over and over again in the history of nations. When the few grew strong at the expense of the many, when wealth is concentrated in a few cities, or in a few individuals or families, look out!

When this goes on for a long time and becomes a sort of national habit, the nation may not fall at once but becomes a pushover for anybody who wants to take it. Why, for instance, was the downfall of the "Nationalists" in China so swift? It was because the Chinese people had become convinced that the political leaders and their wealthy backers were out for what they could get out of it.

We Have Our Own Problems

WE ARE FORTUNATE in that we live in more democratic times and lands. It should never be forgotten that democracy is a fruit of the Jewish-Christian tradition which the prophet Micah helped to form. It was the prophets who plowed deeply the soil out of which democracy has grown.

To test whether we are treating others right, especially those who are weaker than ourselves, we need first to ask these basic questions: Do these people get their share of justice, and are we helping them get it? Do we treat them with mercy or do we just "use" them for our own benefit?

New Discovery Gives Hope to Allergy Sufferers

ST. LOUIS, MO.—A University of Kentucky scientist and a U. of K. graduate student reported here that they had produced an antiserum which gives promise of being effective in the treatment of hay fever and other allergic conditions.

Details of the discovery were made in a paper presented at the annual meeting of the American college of allergists here. The paper, read by Dr. Morris Scherago, head of the university's department of bacteriology, was entitled, "A Study of The Antigenicity of Atopic Reagin." Dr. Scherago and Mrs. Margy Hasson produced the Antiserum. Dr. Fred W. Wittich, Minneapolis, secretary of the American college of allergists, described production of the antiserum as a "new approach in the treatment of allergic conditions — an approach that has never before been attempted."

The University of Kentucky scientists explained that allergy patients, like those suffering from hay fever and asthma, are skin sensitive to the agents—such as ragweed pollen — which cause their allergy.

When the offending agent is injected into the skin of an allergic patient, there appears within a few minutes a rash and a swelling at the site of injection. This, they explained, is how

allergists find out the substance to which the patient is allergic.

The University of Kentucky scientists added that if the serum from an allergic patient is injected into the skin of a non-allergic human being, the injected site of the recipient becomes skin sensitive to the same agent to which the patient is allergic.

In other words, a similar local skin reaction of redness and swelling occurs if the injected site of the recipient later is injected with the agent to which the patient is allergic.

The university scientists injected the serum from hay-fever sufferers into rabbits in carrying out their project.

More deadly than the "A" Bomb. The Atom Bomb dropped in Nagasaki killed 21,551, wounded 40,464. According to National Safety Council figures, our own "A" Bomb (auto accidents) killed about 32,000 Americans, injured a million more in one year—1948. Are you driving so as to make your car a death trap?

Anchoring "Skimmer"

If you have trouble keeping a wide-brimmed hat on during windy weather—at who doesn't?—moor the hat by sewing a small comb, teeth upward, in the front part of the crown. When you put the hat on, the comb catches in your hair without musing it and holds the hat securely without changing its appearance.

Sacks for Cloths

Large mesh sacks—the kind that oranges and onions come in—make small dish cloths if boiled in water for 15 or 20 minutes. They shrink down to proper size, but most of the color will stay in them unless a laundry bleach is added to the water.

RID YOUR HOME OF INSECTS

Black Beat
Aerosol Insect Killer
Toss a button size handy dispenser sprays a cloud of aerosol fog which kills flies, mosquitoes, ticks, roaches, ants, bed bugs, moths and silver fish. None of them carries any odor and is harmless to humans and pets when used as directed. Sold at drug, hardware and farm supply stores.

Cleaning Percolator Tube

To clean the vertical tube of a percolator, run a pipe cleaner through it. Or, fill the percolator with water, add four tablespoons of salt, put the tube in and let it perk for 10 or 15 minutes. If this dulls the luster of the percolator, restore it by boiling vinegar in it, or water with pieces of raw lemon.

Personal To Women With Naggng Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead to many ills to explain nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passage may result from minor bladder irritations due to cold, dampness or dietary indiscretions. If your discomforts are due to these causes, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often appear near, it's amazing how many times Doan's give happy relief to those who take a few extra tubes and then flush out waste. Get Doan's Pills today!

DOAN'S PILLS

Hundreds Tell Bob Wills Of Hadacol's Numerous Blessings

Hundreds of folks, who are benefiting every day from taking HADACOL, met at the Trianon Building in Oklahoma City where Bob Wills, famous band leader, and his Texas Playboys broadcast each noon for HADACOL.

"It looks like all my fans are getting wonderful benefits from HADACOL," said Wills. "It is a real pleasure to broadcast for HADACOL because the folks taking HADACOL are so enthusiastic that I feel like I am performing a real service for mankind."

Hundreds have told Wills of the blessed benefits of HADACOL and the following statement by Miss Betty Lou Lobb, 729 College St., Bethany, a well-known singer, is a good example.

"I was tired, run down and lost my appetite, I suffered with gastric disturbances. I had tried almost everything but it didn't seem to help me. I had heard about the wonderful results HADACOL had been bringing to so many of my friends. Soon after taking HADACOL, I was feeling much better, had no gastric disturbances and had a wonderful appetite. I am no longer nervous. I am sure that HADACOL has helped me a great deal and I recommend it to my friends."

Miss Lobb suffered with a deficiency of B Vitamins and important Minerals, which HADACOL contains.

A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances... Your food will not agree with you... You will have an upset stomach... You will suffer from heartburns, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains. And if you suffer from such a disorder, there is no known cure except the administration of the Vitamins and the Minerals which your system lacks.

HADACOL contains not only one, but 8 of the B Vitamins. HADACOL contains not only one, but 4 of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream, so that it can go to work right away.

Bob Wills Hears About HADACOL'S Blessings

Bob Wills, famous western music band leader, loves to talk with his fans at the Trianon Building auditorium in Oklahoma City about the blessings of HADACOL. In the picture above, Miss Betty Lou Lobb, 729 College St., Bethany, Okla., a very promising young singer, tells Bob how HADACOL has helped her. Hundreds of folks who are obtaining rich blessings from the precious B Vitamins and Minerals in HADACOL visit Wills each week for his network broadcast, which is originated from KHYE, Oklahoma City, Oklahoma's western music station, and sent over a leased wire to stations, KRMG, Tulsa; KWHN, Fort Smith; KGLC, Miami, Oklahoma; KLYN, Amarillo, and KWFT, Wichita Falls.

It is easy to understand, therefore, why countless of thousands have already been benefited by this amazing tonic, HADACOL.

So, it matters not where you live... it matters not where you live... or if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happy, comfortable lives again because HADACOL supplied the Vitamins and Minerals which their systems needed. Be fair to yourself. Give HADACOL a trial. Demand the genuine HADACOL. Accept no substitutes.

Accept no substitutes. Trial size only \$1.25. But if you are so fortunate as to obtain the large family or hospital size, we urge you to save money—only \$3.50. We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer. If your druggist does not have HADACOL, order direct from The LeBiane Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember, money cheerfully refunded unless you are 100% satisfied.—Adv.

More Peanuts

From Fewer Acres

With the prospect of another peanut acreage reduction, many farmers will find it imperative that they raise more peanuts per acre. The use of more fertilizer will help. The use of a well cured fertilizer that is guaranteed to put out will save time and money.

The use of ground peanut hulls and lime rock as a conditioner in mixing PABAK and HEART OF TEXAS fertilizers adds to the plant food value as well as making the fertilizer easy to put out.

HEART OF TEXAS fertilizer contains the following trace elements, vital to a good peanut production: Manganese Sulphate, Copper Sulphate, Iron Sulphate, Borax, Zinc Sulphate and Magnesium Sulphate.

Former Carbon Boy Marries in Robstown

Miss Mary Jo Wood and Billy Leon Pearson of Agua Dulce, Texas exchanged double ring wedding vows on Saturday evening, May 6, in a ceremony at the parsonage of the First Methodist Church in Robstown, Texas.

The bride is the daughter of Mr and Mrs. Jesse Wood of Agua Dulce and the groom is the nephew of Mr. and Mrs. W. F. Hale, formerly of Carbon.

The bride is a graduate of Agua Dulce High School and is now attending the College of Arts and Industries at Kingsville, Texas. The bridegroom attended Carbon High School and is also a graduate of Agua Dulce High School.

The couple was attended by Miss Allyn Whitson and Mr. Cecil Hartsfield, Jr.

Mr. and Mrs. Pearson are making their home in Agua Dulce where he is employed by the Southern Minerals Corporation.

Captain Hugh McCall and family of Waco spent the week end with his mother, Mrs. Rosa McCall.

Clive Murray and wife and Jessie Helen Cavanaugh visited E. E. Murray and wife and daughter, Janet, of Abilene Sunday.

J. C. Crow and family of Midland were week end guests of Mrs. Edna Lovgill.

The Gorman Soft Fall Team will play a leading team of Breckenridge on the Gorman field Saturday night at 8 o'clock
