**That Nagging Backache**

May Warn of Disordered Kidney Action

Modern life with its busy and worry, irregular habits, improper eating, and drinking—the risk of exposure and infection—forces heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter waste and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up at night, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are excessive burning, stinging or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful waste naturally. They have had more than half a century of public approval. Are recommended by medical men every where. Ask your neighbor!

**Luncheon Ideas**

DO YOU FEEL that your head is brimming full of question marks instead of good ideas when it comes time to think of something for luncheon?

Then take the ideas given in today's column somewhere where they'll be sure to remind you of something guaranteed to be successful. Some of these recipes are for simple family fare while others are sheer elegant eating, suitable for guests, for a special Sunday night supper.

With a well rounded luncheon dish, you need only a big vegetable or fruit salad, chilled to icy crispness, to make the main course complete. Your dessert might be pie, cake, ice cream, or simply fruit and cookies.

Keep your pantry shelves well supplied with staples, as well as such items as dried beef, deviled ham, noodles, evaporated milk, rice and condensed soups so that you can whip together these recipes without trips to the store at the last minute. In this way you'll be well prepared to meet family meal problems as well as those which arise when guests drop in.

**THIS deviled swiss puff is truly new and different, easy to prepare and fun to eat. When made in the individual casserole skillets as shown in the picture, it will be a real success at ladies' luncheon. Savory deviled ham is used in the recipe, but you might also try liver sausage or another favorite meat spread.**

The cheese mixture may be prepared, except for the baking powder, a day in advance of use, in case you are rushed for time in meal preparation. Remove the mixture from the refrigerator an hour before using so that it will be soft for easy spreading. Add the baking powder just before using.

**Deviled Swiss Cheese Puff**  
 (Serves 4)

1/2 cup evaporated milk  
 1 tablespoon flour  
 1 tablespoon water  
 1 egg, slightly beaten  
 1 cup grated Swiss cheese (processed)  
 1/4 teaspoon onion juice  
 Dash of tabasco sauce  
 1/2 teaspoon baking powder  
 6 tablespoons deviled ham  
 2 tablespoons evaporated milk  
 4 slices tomato  
 4 slices bread

Heat the 1/2 cup evaporated milk in top part of double boiler. Mix flour with water. Stir into milk and cook until thickened, about five minutes. Add the beaten egg, cheese and seasonings and continue cooking until cheese is melted and the mixture thick and creamy. Set aside to cool. Blend ham with two tablespoons of evaporated milk. Spread the slices of bread with the ham mixture, then top each with a slice of tomato. Blend baking powder into cooled cheese mixture. Spread the cheese mixture thickly on each sandwich. Place sandwiches in individual shallow casseroles or in a shallow baking pan. Place under broiler. Using moderate heat, broil until cheese is

**TAKE A LOOK AT YOUR INSIDES**

Study the above drawing for a few minutes. Notice particularly how the bile flows from the liver into and out of the gall-bladder and thence into the small intestine where it mixes with the partly digested food just below the stomach. Bile is a necessary adjunct to proper digestion. Its absence from the intestines inevitably causes putrefaction and fermentation.

**NATURE'S DANGER SIGNALS**

When your stomach, liver, and gall bladder have been upset by improper eating or drinking, or when they are not working well because retained and putrefying food matter in your intestines is poisoning your entire body, your bile stops flowing freely and you, sooner or later, begin to feel some of the following symptoms:

Your breath may become unpleasant (halitosis), your tongue coated, a bad taste in your mouth, your coffee (and tobacco) lose their natural flavor, your food does not agree with you; you may have headache, heartburn, gas and dizzy spells, you may be troubled with belching; at night the gas in your bowels may press upon your bladder making you get up frequently, thus breaking into your sleep.

In the morning you are tired instead of refreshed. Gradually your health is impaired; you have constipation, gas, putrefaction and self-poisoning or "intestinal toxemia" or "acute gastritis" as many doctors call it!

**HOW TO GET RELIEF**

You can relieve this condition, usually overnight, by taking Calotabs at bedtime and drinking water freely next day. Calotabs are a thoroughly dependable laxative designed to effectively relieve symptoms of biliousness and acute gastritis due to constipation or faulty digestion, and to promote the flow of bile through the intestines. Calotabs are pleasant to take (sugar coated), prompt and effective. Try them and see. Follow label directions. At your druggist's.
