Mrs. Stubblefield Is Hostess To '38 Study Club

Mrs. C. G. Stubblefield was hostess Saturday afternoon, April 3, to the '38 Study Club.

Mrs. B. B. Edmiaston was leader and the subject was "Child Delinquency". Each member answered roll call with a personal opinion on the cause of delinquency in the teen age group. Mrs. Edmiaston made a good talk and your reporter wishes that all parents of young boys and girls could have heard it.

Mrs. C. G. Stubblefield reviewed the "Bell Ringers" by Vern Swartsfager, who is pastor of one of the churches in Dallas. This book is right in line with the delinquency theme.

Dainty refreshments of oatmeal cookies and hot spiced tea was served to the guests.

Plans for the next and last meeting was left to the social committee. This will close the work of the club for 1948-49. All members will be notified as to the time and place. It will be a picnic supper, a short business session, the installation of new officers, and a 42 party for the husbands.

May 3rd Designated As Clean-Up Day

Newly Organized Club Is Named Monday Night

The second meeting of Carbon's recently organized community club was held at the High School Cafeteria Monday night. At this meeting the club was officially named The Farmers and Business Men's Club. The winning name was submitted by Pete Hallmark, local farmer, who received the following prizes, all given by Eastland business firms: Texas Electric Company gave a knife sharpener, Grimes Brothers gave five gallons of motor oil and Western Auto gave a thermos jug.

Problems of the community were discussed and included the possibility of obtaining a residential doctor and the president, Cyrus Justice, appointed a committee to make inquiries into the matter. This committee is composed of H. E. Wilson, J. B. Caudle, and T. E. Robertson.

The marketing problems were discussed and ways and means considered for the marketing of local produce, also a discussion of better roads which is of great interest to all farmers. It was suggested that club members contact the representative in Austin and urge that he support pending legislation on the rural roads.

Among those attending from out-of-town were Mr. Reeves of Rising Star, L. E. McGray, E. M. Grimes and W. B. Picken, all of Eastland.

Refreshments of doughnuts and coffee were served to about fifty men in attendance.

Annexation Election To Be Held April 18

The Eastland County School Board has ordered annexation elections to be held April 18 in some twenty-four school districts in a

The City Council has designated May 3rd, the first Tuesday in May as Clean-Up-Day for Carbon and requests that all trash be properly sacked or boxed and be placed conveniently along the street for the pick-up-truck.

The public is hereby notified to strictly observe our stock law by keeping their stock from running at large.

The City Council also made arrangements with our County Commissioner to pull the ditches on all streets and requests full cooperation of all citizens in order that we might have better drainage and better streets.

J. W. Jackson, Mayor

county-wide redistricting plan. The proposed grouping comprising more than 100 square miles of territory in each case, would be carried out under district reorganization laws recently passed by the Legislature.

In nearly every case the common school district is being annexed to the independent district to which its scholastics have been contracted or transferred for the last several years. All districts being annexed are those that have had no school for several years.

The common school districts grouped with Carbon are Kokomo, Center Point and Long Branch. An election will be held in each of these districts on April 18.

The majority vote cast for or against in all the districts in a proposed area determine the outcome of the election. In other words, the combined vote of the entire proposed high school district area determines the results and not the vote of each district separately.

The polling place in Carbon is the Carbon Insurance Agency.

Every qualified voter in this proposed area is urged to go to the polls and cast his or her vote next Monday!

There are many well known and many relatively new chemicals for controlling pests.

"It is important," the agents emphasize, "to be familiar with your pest problems and to recognize and follow reliable recommendations rather than mere reports and suggestions of untrained persons."

"Study the problems that may follow use of certain materials, such as residues and off-flavors. Consider timing of applications, dosages, methods of removing residues, etc., as a means of overcoming secondary problems."

Heaven Is Real

Easter Lesson for April 17, 1949

HEAVEN IS just as real as Chicago. More so, because Chicago will in time cease to be, while heaven lasts forever. A few atomic bombs, a whiff of some new plague, can make Chicago vanish; but no atomic bomb can get touch heaven. The pity is, so few Christians really believe this. We can get mail from Chicago, but who ever heard of mail from heaven?

Wait, though . . . there is mail from heaven, and you have it here in your Bible. If you accept it for what it is, the Word of God, then it is the Word from heaven. To be sure, it does not tell us much about heaven . . . If you were actually traveling to Chicago, you would not begin by studying a street-map of that city. What you would need is a map of the roads between.

So the Bible is not a guide-book to the "City Four-square." It is more of a road-map to help us find the way between here and there. Nevertheless, the Bible does assure us that heaven is real.

Christians have many reasons for believing in the reality of the future life, and some of these may not be in the Bible; but the best reasons are these.

Christ is Risen

MANY PEOPLE feel it would be easier to believe in the future life if someone who had been across the line of death would return across that line to bring a message from the beyond. So they attend seances and they listen to table-tappings and go through all manner of weird performances in order to get a word or two from someone who has passed on.

But all the time we do have a record of a Return. Indeed, it is The Return. We call it the Resurrection. The message of Easter is not summed up in songs about some "Beautiful Isle of Somewhere." It is in these three words: "Christ is risen!"

He did not return in darkness, he was not under the control of any "medium," he did not make himself known by ghostly hauntings. He was seen at supper-tables. He spoke to his friends on a mountainside, he came to fishermen on a spring morning by a lake shore. The earliest Christians doubted some things; but few doubted that the Lord was risen indeed.

Heaven Begins With God

THE CURE for a troubled heart, Jesus said, is faith in God. One of the strongest reasons for believing that the future life is real, is the nature and character of God himself. Jesus said as much once, in an argument with men who did not believe in immortality: "God is not the God of the dead, but of the living." If we were God's paper dolls or toy soldiers, he might weary of us as a child wearies of its toys, and sweep us all into destruction without a moment's thought. But if we are truly his children, then when life's evening comes, he will call his tired children home.

Eternal Life has two sides, the heaven-side and the earth-side. The church has never believed that simple immortality in the same thing as the heavenly life.

A Judas, when he dies, goes (as Peter said) said "to his own place." A Judas carries out his own hell with him. But a man like Paul, or any Christian who has been at home with God here on this earth, when at last death comes, will, as Whittier said: "Find himself by hands familiar beckoned 'Unto his fitting place.'"

Peanut Seed

We are offering for sale again this season the uniformly graded peanut seed which proved so successful last season. We have selected the best peanuts we purchased in Texas and Oklahoma and stored them separately for planting seed. These are free from damage and have a high sound Mature Kernel content. They will be carefully shelled, graded and hand picked. Your choice of Arsan, Ceresan or Spergon treatment. You are invited to see our stock of peanuts before they are shelled. The Oklahoma peanuts made a higher yield per acre than Texas peanuts and averaged a higher SWK content. You may prefer them for seed.

We are now booking seed peanuts at 20 cents per pound. A small deposit will protect you from any increase in price.

Fertilizer

Introducing the Heart Of Texas Brand Peanut Special Fertilizer. By adding trace elements to the Guaranteed State Analysis, we have developed a more complete plant food.

This new fertilizer contains Manganese Sulphate, Copper Sulphate, Zinc Sulphate, Iron Sulphate and Borax. These are present in small but important quantities. Also the use of some ground peanut hulls add plant food value to the fertilizer and makes it put out better. Come by and let us explain the advantages of this new fertilizer.

Available At Carbon Trading Co. Or our Plant.
