Sheep And Goat Raisers Show In Ranger

One of the most entertaining features of the West Cross Timbers Sheep and Goat Raisers Association show and sale in Ranger August 20-21, will be the sheep dog exhibition which will be staged the first night of the show.

Some of the finest sheep dogs of the nation will be there for the performance.

Plans are being completed for the jackpot goat roping contest which will also be staged the first night of the show.

Entry fees will be \$5.00 and the association will add \$50 to the entry fees. The money will be split 40, 30, 20 and 10 per cent among the winners.

Those who wish to enter the goat roping contest are asked to register at the C. P. Cloud wool and mohair storage house in Ranger.

Rev. and Mrs. Glenn Willson and little daughter of Elmdale, Jim Foster and family of Stamford, Mr. and Mrs. E. Dunn and Mr. and Mrs. Jess Cavanaugh were entertained with an ice cream supper in the home of Mr. and Mrs. Dulin Sandlin Friday evening.

Fire Destroys Home

The house on the farm of F. J. Stubblefield south of town, which was occupied by Dee Rayburn and family, was destroyed by fire last Saturday morning. The blaze is believed to have started from a defective flue in the kitchen. The house and its contents which was completely destroyed was a total loss as there was no insurance.

Card Of Thanks

We take this means of thanking all our friends and neighbors who have contributed or helped in any way since fire destroyed our home and its contents. Way God bless each and every one of you.

Seek Big Noise To Scare Fish

The United States fish and wildlife service wants to find a noise which will scare young salmon away from the huge spillways and turbines that have been built in the Columbia river.

For years salmon have used the river as they come from the sea to seek fresh water for egg-laying. The old-timers among salmon have sense enough to use the fish ladders and elevators. But young fish, born above the dam, try to come down the hard way, through spillways and turbines. Thousands are killed. If a noise can be discovered which will scare the young salmon in the right direction, a lot of fish lives will be saved.

Southern Veterans Outnumber G. A. R.

Confederate veterans outnumber veterans of the G. A. R. according to check conducted in connection with last Memorial Day's observance.

Fifty-seven Confederate veterans of the war of the 1860's still survive. Official Veterans Administration figures show that the G. A. R. has only fifty-two known survivors left on the pension rolls.

The average age of today's Southern veteran is slightly more than 101. The youngest, at 92, is John Nance Outen of High Springs, Fla.; the oldest is John Thomas Graves, 106, Missoula's last surviving veteran. Most of the others are centenarians.

With **INEZ GERHARD** returning to its regular Sunday afternoon stint on Mutual, emcee Jack Barry is gearing himself for the psychological switch from its summer replacement, "Life in the Air," to the youngsters' amusing performance. Their newest member, 4-year-old Johnny McBride, charmed audiences last season by his obnoxiousness to the fact that he was on the air. If he felt

JOHNNY McDONALD

like sleeping, he closed his eyes. He spoke up only when he had something to say. At one point he startled Barry by redirecting a question to him. He is probably the most uninhibited young man on the air.

Jeff Donnell was having a fine vacation in Maine, after playing a leading role in a summer stock theater, when she was summoned back to Hollywood to appear in RKO's "Interference" opposite Victor Mature. Jeff, cast as the wife of a gridiron hero, will be in good company — Lucille Ball, Elizabeth Scott, Sonny Tufts and Lloyd Nolan work with her.

Back in the 1920's, Walter Catlett played an important role in "Sally" during its 4-year run on the New York stage. Marilyn Miller starred. Now, Catlett has been signed for the musical based on her life.

A new version of "The Better Half" will return to the Mutual network August 19, with several new comedy routines added. "Tiny" Ruffner will be master of ceremonies and "The Three Jesters" will provide a musical background.

Brian Foy goes in for good casting rather than big names in his pictures, which is one reason Scott Brady got a wonderful break in "Canon City." Hal Wallis spotted Scott soon after he arrived in Hollywood, told him he could make good in pictures and to do something about it. Scott spent ten months working hard in a little theater company learning to act. Good looking, fine company, very modest about his own achievements, he needs only a few more good roles to land at the top in Hollywood.

Producer Edward Small has arranged to film "Lorna Doone" in England so that he can take advantage of the huge castles in Ex-moor, the locale of the classic novel laid in 17th century England. He will do it in technicolor.

Ingrid Bergman has always wanted to see the places where Joan of Arc lived, fought and died, so now that she is in Europe making a film she is taking advantage of all free time to visit those historic scenes.

Jean Heather was a sophomore at the University of Washington when a Paramount talent scout saw her. The result was a part in "Going My Way" and a long-term contract. She worked up to top roles, then decided to go back to college. She's back in Hollywood now with a degree. Eagle-Lion promptly came up with a leading role for her in "Red Stallion in the Rockies."

Jack Berch, who sings for millions of NBC listeners each weekday morning, has taken another step in his drive to promote the Golden Rule. He has formed a "Good Neighbor Club" Administration is gained by submitting a clipping from a local newspaper in which a good deed or act of kindness is described. Jack reads the most unusual ones on the air.

Why?
WHY TAKE MASH LAXATIVES?
Try Healthful Lemon in Water—

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you! Generations of Americans have taken lemons for health—and generations of doctors have recommended them. They are rich in vitamin C, supply valuable amounts of B₁ and P. They alkalinize, aid digestion.

Not too sharp or sour, lemon in water has a refreshing tang—cleans the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days. USE CALIFORNIA SUNKIST LEMONS

A JOINT RESOLUTION
proposing an amendment to Section 28 of Article III of the Constitution of the State of Texas, so as to provide for a Board for apportioning the state into senatorial districts in the event the Legislature fails to make such apportionment; providing for the issuance of the necessary proclamation by the Governor in such event; and

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 28 of Article III of the Constitution of the State of Texas be amended so to hereinafter to read as follows:

Section 28. The Legislature shall, at the first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 27, 29, and 30 of this Article. In the event the Legislature shall at any such first regular session, following the publication of a United States decennial census, fail to make such apportionment, there shall be done by the Legislative Redistricting Board, which is hereby created, and shall be composed of five (5) members, as follows: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the Controller of Public Accounts, and the Commissioner of the General Land Office, a majority of whom shall constitute a quorum. The Board shall assemble on the first day of August within ninety (90) days after the final adjournment of such regular session. The Board shall, within sixty (60) days after assembling, apportion the state into senatorial and representative districts, as the failure of action of such Legislature may make necessary. Such apportionment shall be in writing and signed by three (3) or more of the members of the Board, and acknowledged by the act and deed of such Board, and, when so executed and filed with the Secretary of State, shall have force and effect of law. Such apportionment shall become effective at the next succeeding state-wide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extraordinary writ conformable to the usage of law. The Legislature shall provide necessary funds for clerical and technical aid and for other expenses incidental to the work of the Board, and the Lieutenant Governor and the Speaker of the House of Representatives shall be entitled to receive per diem and travel expense during the Board's session in the same manner and amount as they would receive while attending a special session of the Legislature. This amendment shall become effective January 1, 1937.

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A. D. 1936, at which all ballots shall have printed thereon:

"FOR the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

"AGAINST the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

Each voter at such election shall mark out one of such clauses on the ballot, leaving a check expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state, not otherwise appropriated, to pay the expense of such publication and election.

Glass Bricks, Chrome Modernize Bathroom

GLASS bricks, black and white tileboard and shiny chrome trimmings can help modernize rooms in even the oldest farm house, points out the Rural Home Editor of Capper's Farmer, one of the best known farm magazines.

Here a glass brick wall separates the bathroom from a small powder room adjoining. Plastic curtains repeat the green in the wallpaper. Both bathroom and powder room were part of a remodeling job that

transformed an old-fashioned farm home into an up-to-the-minute residence, giving the family the most modern conveniences.

Lengthening Skirts

If hem creases are a problem when you lengthen skirts this fall, try steam-pressing, advises the Rural Home editor of nationally circulated Capper's Farmer. Press lightweight wool on the wrong side; a thick wool on the right side, she tells the readers of the farm magazine reaching 1,500,000 families.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

QUESTION: What can I do in the way of refinishing a brass bed?

ANSWER: If you wish to paint the bed, go all over the metal with sandpaper to roughen it slightly, wipe it with turpentine and then apply one or two coats of enamel undercoater. Finish with a coat of enamel.

QUESTION: What can I use to wash my furniture?

ANSWER: Clear turpentine is often used to clean the woodwork of furniture followed by polishing with a coat of paste wax applied thinly and well rubbed, when dry.

QUESTION: We have to put a new floor down in our basement. Which is better, plank or concrete?

ANSWER: Do not use boards because they will rot in time. Have a good water-proof, concrete floor laid by a mason contractor.

QUESTION: Please tell me how to remove old paint from "white limed oak" finish on a dining set.

ANSWER: Soften the old paint with sand remover, then take it off with a hand scraper and steel wool. Carefully avoid scratching or gouging the wood. Follow by cleaning off every trace of remover with benzine or turpentine. If the color of the wood is what you wish, you can refinish with quick-drying varnish or in some other way.

Experiment With Hops
Oregon's crop of hops was cut about one-third last year by mildew. In an effort to cut down this loss, 40,000 English hop cuttings were planted in an experiment to eliminate downy mildew from hop fields. Cuttings were taken from English hybrid hops. The hop is a climbing plant, cultivated for the sake of the catkins, which is containing a bitter substance and are used for brewing in imparting an agreeable flavor to beer. Duration of the plant varies from 15 to 20 years to an indefinite length of time.

SALESMANSHIP IS DEAD

Speakers at a national convention of salesmanship executives declared that the seller's market is over and that salesmanship, now at its lowest ebb, must devise new techniques. Salesmanship, in the eyes of the customer, has become not only dead but mummified. In the period of shortages and wide customer demand the average salesman has ceased to function, except in the manner of a deep-freeze unit.

It has become an exploit similar to a polar dash to approach the fellow who was supposed to be interested in selling something.

The customer's greatest need in contacting a salesman has been proper defrosting equipment.

It has been years since we saw a clerk or salesman in a fields smile, register interest or show half of 1 per cent politeness to the buyer. We have frequently had our lower extremities frozen on the trip from the store or agency entrance to the salesman's desk.

The old-fashioned American salesman who used to spring to his feet when a customer appeared, extend the glad hand, show a keen desire to be of service and cultivate good will or bust has largely disappeared.

We can remember away back when, even if the staff had no stock on hand, it never greeted a customer with that "less than the dust beneath my chariot wheels" manner; and when every salesman or clerk realized that there was no percentage in making a customer feel that a visit to a salesroom or store was like a trip through the icecap.

Too many salesmen today don't even bother to show routine civility. They have developed complete indifference to the old "This is all unnecessary and annoying" look. If you ask more than two questions of 10 words each, they give you the definite feeling that you are intruding in a futile dialogue in an Eskimo igloo.

The other day we went to an auto salesroom back home and found even the head of the company giving an overall demonstration of how to freeze the prospective buyer in three simple lessons. He was on the floor supposedly assisting, and at the moment talking listlessly with a prospect. We drew near and awaited our turn. The gent walked off to a far corner without as much as an "Excuse me, I'll be with you in a moment."

Up to this time we had assumed that at least the boss knew the fundamental rules of holding customer good will.

TRANSFER OF DUROCHER
It was obvious that Mel Ott couldn't stand up against Leo Durocher: He was using catchers for catchers.

Many good guys have followed the Durocher incident but we liked Walker Cooper's "All catchers out for infield practice, boys" when his team got the news.

How to score the Durocher play puzzles us, but we would be inclined to say that he slid from first in Brooklyn to second in New York but was called out by Rickey for failing to touch Brooklyn bridge.

"Supreme Court Justice Murray Hearn, president of the Brooklyn Council for Social Planning, said the outbreak of juvenile crime constitutes an emergency in which it is essential to enlist the help of every citizen."—News item.

What! No dismissal of the situation with a denunciation of the parents and schools?

Fashion experts say that skimpiess in bathing suits has gone the limit and that a "new look" costume soon will appear, which may include a return to the bloomers, blouse and stockings milady used to wear at the beach. This will aggravate traffic. Think of the crowds that would be drawn to the beaches by the sight of women with clothes on.

Purely for Sport

Cats go after rodents purely for the sport of it. The approach has a lot in common with the big game hunter. The cats proceed in their own individualistic way and in their own good time. It is quite untrue that hungry cats are good mousers. The best are the well-fed cats, but well-fed on a more appealing diet than rodents would provide.

To The Public

I have known H. H. (Howard) Williams candidate for Commissioner of Precinct No. 2 for 25 years. He has been my competitor in business for 10 years. His record as a patriotic, loyal, law-abiding citizen has never been questioned. The citizenship of this community in its entirety testifies that this is a fact. Any report to the contrary is a falsehood in the strictest sense.
