Allen D. Dabney Candidate For Associate Justice

Allen D. Dabney, Eastland attorney for 35 years, has announced his candidacy for Associate Justice of the Eleventh Court of Civil Appeals at Eastland.

Dabney, a native of Comanche County, received his early education there and in Brown County, and is a graduate of the University of Law School.

"I have lived in this judicial district my entire lifetime and have become well acquainted with practically all of the members of the bar and many voters in the district," he said in announcing his candidacy.

"I believe that my experience in the study of law and as a practitioner before the various state and federal courts fully qualify me to become an associate justice of this court."

Dabney pointed out that there are more than 100,000 voters in the 23-county district, and that although he could not hope to contact all of them, would conduct an active campaign.

THE COLUMNISTS

DREW PEARSON Congress Must Control Rats

THE United States probably could save 400 bushels of grain annually by two measures alone — control of rats and eliminating weevils from grain bins, elevators and freight cars. Few people realize the tremendous waste from these sources alone. Rats and other rodents, for instance, eat or constrict in terrific, and in order to undertake an effective rat-extermination campaign, it is almost necessary for every farmer in a community to exterminate at the same time. Otherwise, the rats leave one farm for another.

Last year congress so drastically cut the funds of the bureau of wildlife that its campaign against rats was knocked out. Weevils and other insects in grain bins and grain elevators destroy another 200 million bushels, a loss which could be eliminated by proper spraying and fumigation.

WALTER WINCHELL Notes of a Bystander

Former Ambassador Joseph P. Kennedy has more \$\$\$ than the U. S. Mint. He sold the Somerset distillery for 16 million (cash) and built the furniture mart in Chi... The treasury department is blundering a campaign to "sell" U. S. businesses the idea not to expect any reduction in taxes at least before 1949.

WALTER SHEAD Protection of Civil Rights

WITH the electoral votes of nine key states probably hanging in the balance—California, Illinois, Indiana, Michigan, Missouri, New Jersey, New York, Ohio and Pennsylvania—leaders in both parties are seeking a way to enact some of the provisions proposed by President Truman's civil rights committee before the next session of congress adjourns for 1948 elections.

H. J. PHILLIPS Moral: Always Travel Light

The railroad traveling public now may be seen entering and leaving depots with a pronounced list to cardboard, manning low and whispering profanely. Women travelers look especially sore-going. It is due to the fact, incredible as it may seem, that the railroads have upped redcap fees again, this time to 15 cents per bag or bundle, with the ICC's blessing.

WESTBROOK PEGLER He Loves the Poor—and Steaks

ORSON WELLES is a dear, roguish boy, forever up to mischief. If he isn't setting the whole United States upside down with a broadcast of an invasion of Martians he is growing a beard and jutting it in the faces of the great big, humorous Irish doormen at the Waldorf. Sure and hogarty now, isn't he the one! His whole nature seems to chitter and cheep in the language of the elves and it was just like him to say, yes, that he did have his steaks flown out from Iowa to California because, with his asthma, he requires an amount and kind of protein not found in fat western beef.

School Buildings Get New Look

Here are some ideas for new school buildings from the National Educational Association which has recently completed a study of outstanding schools in the United States. Buildings should be planned with the help of teachers, children and other citizens. Classrooms, larger, more homelike, with ceilings the height of rooms in the home, wide windows, alcoves and movable furniture.

Uranium Hunt 1800 Years Old

Dr. Earle R. Caley, a professor at Ohio State University, is convinced that uranium was sought long before anyone thought of an atom bomb.

He has evidence that the Romans prized uranium as long ago as the first century after Christ. They used it in making glass. He knows, also, that ancient Greek women endangered their lives when they used certain cosmetics of the day. One of them contained poisonous white lead. Although most of Dr. Caley's work is done in a laboratory, he was a staff chemist with a group that dug up the market place of ancient Athens, where the dangerous beauty aid was found.

Impatient Motorist Shortens Crossing Time of Long Train

SEDALIA, Mo.—An impatient motorist who rebelled at having to wait at a crossing which a train blocked, leaped out of his car and uncoupled the rear two-thirds of the train.
 The impatient motorist, apparently well acquainted with railroad signals and uncoupling of trains, got out of his car and walked over to the coupling which was on the street crossing where he sat. He set the brakes on the rear two-thirds of the train, uncoupled the cars and waved a "high ball" to the engineer. The engineer started his engine in motion.
 Other trainmen, seeing their train starting, ran more than a block to stop the engine from getting out of town with only one-third of his train.
 A search of the law books is being made to ascertain if there is some law under which the offender can be arrested and punished for his actions. So far no paragraph has been found in either the Missouri statutes nor in any of the city ordinances covering such an action.

From Malachi To Christ
 Lesson for June 27, 1948

The interbiblical period, covering approximately four centuries, is one of the great silences of history, save as the prophecies of God offer flickering light upon the winding paths in western Asia, northern Africa and southern Europe. A remnant of Jews resided in Jerusalem, while many others were dispersed over the face of the earth. The Old Testament was translated into Greek—the version used in the time of Christ. The

Apocrypha were written. The synagogue arose. The schools of Hillel and Shammai were founded and flourished. The sects of the Pharisees and Sadducees originated. Buddha, Confucius and Zoroaster were beginning to influence life in the Far East, while in the Near East Zeno and Epicurus dominated philosophical thought. The Caesars ruled the Mediterranean world.
 To understand something of this period from Malachi to Christ, we are asked to read the Scripture passages listed above.

BEFORE JESUS CAME

"B EHOOLD, I will send my messenger, and he shall prepare the way for me; and the Lord, whom ye seek, shall suddenly come in his temple, even the messenger of the covenant, whom ye delight in: behold he shall come, saith the Lord of hosts."
 Did they fully understand the significance of these great words of Malachi? Hardly may we expect that they did, but they got their basis of hope, about which we studied last Sunday. Imagine the faces of the little children in the long ago as they heard of the coming Messenger!

THE COMING CHRIST

LOOK carefully at the above Scriptures and see how both the Old and New Testaments center upon these. These great phrases are suggested.
 The promised Christ, the expected Christ, the heralding Christ, the presented Christ, the enlightening Christ, the judging Christ, the merciful Christ, the redeeming Christ, the restoring Christ, the guiding Christ.
 Space does not permit the citations, but a study of the passages will reveal each of these gifts and blessings in the coming Christ.

BETWEEN THE TESTAMENTS

DIMLY only do we envision that period of four centuries, but we have sufficient light to trace the steps by which the faithful amongst the Jews were dressing themselves of idolatry as the fires of God purged away the dross of paganism and secularism. One will find rich reward in the reading of the Apocrypha and Josephus. Also, one will find in the opening chapters of the New Testament light which falls back upon those dark ages.
 There were synagogue schools, taught in many instances by very able men, such as Hillel. There was a groping toward the light. Men were hungry for the fulfillment of prophecy. It was the darkness just before the dawn.

THE LIGHT BRINGS

BLESSED be the Lord God of Israel! for he hath visited and redeemed his people." Luke 1:68. Thus does the golden text for Sunday's lesson flash upon the waiting heart of expectant humanity the Good News.
 Thefulness of God's time had come. Jesus was born. Peace had come to men of good will. James Montgomery puts the Good News in these lovely lines:

Angels, from the realms of glory,
 Bring your glad tidings of peace,
 Ye who sang creation's story,
 Now proclaim Messiah's birth:
 Come and worship, come and worship,
 Worship Christ, the new-born King.

Trans-Continental Train
 First railway train ever operated from the Atlantic to the Pacific was the trans-continental excursion sponsored by the Boston board of trade in May, 1870, one year after the Union Pacific and Central Pacific railroads were opened. The trip from Boston to San Francisco consumed eight days, and was made in pullman "hotel cars," then the newest thing in railroading. A daily newspaper, the Trans-Continental, was published en route.
