### F. F. A. News

The local F. F. A. Chapter has started the year's work by buying six hogs and are planning to let them grow until March and then sell them. The boys have been getting the scraps from the lunch room to feed them.

They have made a self feeder which will be used for tankage along with scraps and grain.

Bob Hall won the cake that was given away Friday night. He auctioned it off for \$3.50 and gave the money to the chapter.

The Agriculture class wishes to remind the farmers that this is a good month for treating peach trees with Paradiachlorobenzene for tree borers.

This is also a good month for treating chickens for body lice with Sodium Fluoride. Chickies should be culled and star boarders should be eliminated before winter in order to get higher egg prices.

Those who do not know how to cull chickens or treat trees, may call Mr. Berry, the High School Agriculture teacher, and he will give you a demonstration.

## G. Girls Meet

Club met at 12:30 on October 21, in the Carbon High School building. With the president presiding the meeting was called to order. A discussion was held for some kind of recreation. We decided to have a skating party at Cisco Friday night, Oct. 24, leaving Carbon at 6:30 p. m.

We had four new club members at our meeting. They were Esther Lee Gilbert, June Hays, Janet Murray and Berdie Ethel Phelps.

Our old members present were Marjorie Hines, Toby Gilbert, Maxine and Christine Rhyne, Betty Byrd, June Tucker, Mary Lee Harlow, Lavene Burnett, Lou Ann Jackson, Miss Opal Ramey and Les Wyatt.

A discussion was held on when the club would sponsor at the Halloween carnival and decided to sell novelties.

The president appointed an initiation committee. The committee was made up of Christine Rhyne and Mary Lee Harlow.

The meeting was then adjourned by the president until Nov. 4.

'Magic Lasso' Enables Children To Realize Cherished Dreams

PHILADELPHIA—The American youth's yearning to be a "real cowboy" never wanes, and two youngsters, taking a leaf from their own childhood experiences, have made capital of it.

Their success formula was the development of a "magic lasso," which anyone can quickly learn to spin, yet which is "safe" in the hands of children.

Children, of course, represent the bulk of potential customers. But even Hollywood studios have found the new gadget effective, using it as a standard prop in movie making.

Partners in the unique business are David Knox and Horace Reese, both of Philadelphia. Childhood friends, both served in the armed forces.

Religion in Practice Lesson for October 26, 1947 SUNDAY'S lesson takes us to one of the practical Christian preachers of the New Testament.

James was a man of great faith, but he realized, as we must realize, that faith is best expressed in works.

A Cup of Cold Water WHAT someone will be asking, can I do to show my desire to be of actual service, in the name of Jesus.

We live in a world that poignantly waits for a cup of cold water. I have just returned from another trip through Europe.

Omit Railroad in Name Of the 130 Class 1 railroads in the U. S. today, three use neither Railroad nor Railway in their names.

Doors of the Word JAMES makes much of practical religion in everyday life. He tells us that we are to be doers of the word.

Living Our Religion WHAT we are, determines what people think of our religion. Not what we say about our religious life.

The More Excellent Way JAMES goes on to assure us that when we undertake faithfully to live our religion, we may confidently claim the promise of God.

The more excellent way of the Golden Rule is the answer to the whole matter. But the Golden Rule is impotent until it is translated into action.

And the best of it all is that it actually works. When someone asked Morrison what Christianity was doing for China, he replied: "Christianity is changing China into a community of God."
