Questions & Answers

Continued from first page
 training under the Korean GI Bill. Is there a ceiling on what I can earn and still receive my VA allowance?

A — Yes. There is a \$310-a-month ceiling. When your combined training allowance and earnings exceed that amount, VA will reduce your allowance accordingly.

Q — Two years ago I converted my GI term insurance to a permanent plan policy. Please tell me how soon I can borrow on my permanent plan policy, and how much?

A — You can borrow on your permanent policy now, since it has been in force for more than one year. The amount you may borrow cannot exceed 94-percent of the cash reserve of your permanent plan GI policy.

Q — Can a paralyzed veteran who is eligible for a \$10,000 VA grant for a "wheelchair" home also get a GI home loan with which to pay off the rest of the cost of the house?

A — Yes. The fact that he receives a \$10,000 VA housing grant does not deprive him of his right to the GI loan benefit.

Q — I will be going to school this fall, under the GI Bill. How soon do I get my first allowance check?

A — Under the law, VA allowance checks for training are payable only after the completion of each month of training, and the law allows VA 20 extra days to process checks. You should be prepared for a two-month wait before your first check comes.

Q — Is it possible for a disabled "peacetime" veteran to draw VA compensation at wartime rates?

A — Yes — if his disability resulted from extra-hazardous service, such as simulated warfare and the like.

Q — I will have to take a physical examination to reinstate my lapsed GI insurance policy. Who is supposed to mail my medical application for reinstatement to the VA, me or my physician?

A — Your examining physician should mail it to the VA as soon as your examination is completed.

Q — I named my mother as the beneficiary of my GI insurance policy, and indicated that the money be paid to her in a lump sum. Would she have the right

to change to some other method of payment if she desired?

A — Yes. She could choose to receive the GI insurance payments under any of several installment plans available.

Q — Does the fact that I am getting VA compensation for a disability incurred in Korea automatically entitle me to vocational rehabilitation training?

A — No. The law requires that a disabled veteran be in need of training to overcome the handicap of his disability. If none were established in your case, you would be permitted to train.

Q — I plan to sell my GI house and let the buyer take over my loan. If the VA grants me relief from liability, does that mean that GI loan entitlement will be stored?

A — No. Release from liability does not mean that your entitlement will be restored. VA restores entitlement only under certain conditions, and then only when the loan is paid off so that VA is no longer liable on the guarantee.

Q — If I take on-the-job training under the Korean GI Bill, will I receive the same rate allowance throughout my course?

A — No. Under the law, GI allowances for on-the-job training must be reduced at four-month intervals, as the training progresses.
