A. M. Thurman Enters Race For Commissioner

Stubbornness Paid
DALLAS, Tex. — Clyde Tom Rugel, who owns a drive-in, saved himself from being robbed one night by stubbornness.

A man asked Rugel for a paper bag to put a pair of shoes in. When Rugel got the bag, the man pulled a pistol and told Rugel to put his money in the bag.

"No," said Rugel. "I mean business," the man warned, shooting behind the bar and above Rugel's head.

Rugel still refused. The would-be bandit laid his gun down and told Rugel, "Call the police, I want to go to jail." At this point Rugel stopped being stubborn.

Land Sale Is Set For January 21st

AUSTIN, Jan. 7. — Even though \$12.5 million in Veterans' Land Bonds were sold in December, the quickest way for ex-servicemen to participate in the Veterans' Land Program is to buy forfeited land, Land Commissioner Earl Rudder said today.

The next sale of forfeited land is scheduled for January 21.

Fifty-eight tracts in 21 Texas counties will be offered for sale then.

Commissioner Rudder asked veterans desiring information about the sale to contact him at the General Land Office in Austin.

Basketball News

The Carbon Wolverines opened their Conference play with Olden there Tuesday night. The girls were defeated in a close game 64-55 with Ann Mangum high scorer with 26 points.

Friday night our teams will play Gorman there and our next home game is with Olden next Tuesday night.

One For The Books

BAYTOWN, Tex. — A man in foul temper was hauled into jail in his "birthday suit." Deputy Sheriff J. C. Bickerstaff said he found the man wandering around without his clothes, on Highway 73.

He seemed to be more mad than drunk, Bickerstaff said, but he never could discover the reason for his anger, nor where his clothes were. As a result he was charged with drunkenness and given a cell to hide in.

"It's one for the books," Bickerstaff said, "and it went into mine."

Horsing Around Fatal

San Antonio, Tex. — A horse lost in an encounter with an automobile.

It happened like this: Mr. and Mrs. W. H. Kohler were driving on Palo Alto Road about 5:30 a. m. when they saw a horse galloping toward them.

Mrs. Kohler, who was driving, slowed down, but the horse hit the car and straddled the hood. The impact drove the horse's head through the windshield.

The horse died, and Kohler's dentures were damaged, but neither he nor his wife was injured.

Clyde L. Garrett Will Make Race For County Judge

Soil Conservation News Of County

The old saying that "the eye of the master fattens the stock" is as true on the range as it is in the feed lot. Constant vigilance and attention is the key to both range and livestock management. Periodic forage checks are an essential operation for best range management.

Several definite improvement trends show up in examining pastures in this area, although range recovery is usually a slow process. We actually can not expect recovery to be indicated in one year by the remnants of short grass found on much of our badly deteriorated rangeland a year ago. On these over abused pastures relief from prolonged drought along with relief from grazing pressure brought about a tremendous weed growth. In that weeds furnish ground cover this is a very definite desirable improvement trend. Weeds are the first stage of recovery on deteriorated ranges.

Range land which had more grass cover and better grass species a year ago shows fewer weeds. The grass itself gained in vigor and ground cover last spring and suppressed weed growth after relief from drought and grazing pressure. Forage production was abundant, although few new seedlings of the better species were produced.

Some grass seed has been produced on most ranges. Side oats grama seed stalks have been very abundant although actual seed fill has apparently been poor on all ranges examined. Blue stem seed stalks were less abundant but have showed better fill. Indian grass produced the best seed crop of any. In fact, about 1200 pounds of Indian seed was actually harvested on two farms. Pete Hathcock combined a nice lot of seed for N. E. Richardson on the J. H. Littleton farm four miles northeast of Eastland. Joe Barnett combined a good lot of seed for Clint McCain from a planting four miles south of Carbon. This planting was made by McCain in 1950 and is the first seed produced by the planting.

Our sustained grass production depends on how we manage our

ranges after this year's gains. Grass has several uses. Part may be harvested, part should be left on the stems, and part should be returned to the soil for maintaining soil condition. Neither the greatest total pounds of beef or the greatest number of animals will show the largest profit over a period of time. Only proper stocking invariably shows the most profit and is the most practical way of keeping soil and grass in best condition. When range is properly stocked animals can get their fill every day in all seasons. Under such conditions cattle use about 70 percent of the nutrients obtained for maintenance of bodily functions and the remaining 30 percent for growth and reproduction. Where a range is being overused the animal still uses about the same for maintenance and much less will be left for growth and reproduction.

When cattle can always get their fill the mature beef cow will weigh over 1000 pounds and will produce over a 90 percent calf crop, with calves weighing 400 to 500 pounds at eight months of age.

Where desirable grass species do not make up a good percentage of the range composition, complete range deferment in the growing season is the only known method of improving this condition. Because of the severe loss of good grass plants in the past few years much of our rangeland should be excluded from grazing another year if we are to have an abundance of grass in future years.

The local Eastland County A. S. C. Committee recognizes this need, and is including for the first time a range deferment practice in the 1958 A. C. P. program.

Treat yourself to a real lazy and relaxing evening by serving this meal on paper plates or trays and end dish washing worries for the evening! You'll have fun fixing and serving this meal. You may want to treat your friends to this TV supper idea whenever they come around and you don't want to stay in the kitchen!

CHICKEN CUTLET WITH EASY SAUCE,
Green Olive Garnish
Buttered Hot Asparagus
CHILLY CRANBERRY-APPLE RELISH
Hot Bread Sticks
Ginger Cookies to Pass

INGREDIENTS FOR CHICKEN CUTLETS

1-1/8 cups water
1 teaspoon salt
2/3 cup uncooked white rice
2 cups finely diced cooked chicken
1 tablespoon chopped onion
1 teaspoon grated lemon rind
1/2 teaspoon salt
1/2 teaspoon pepper
2 egg yolks
2 egg whites, slightly beaten
1 cup fine cracker crumbs
Cooking fat for frying cutlets
1, 10 1/2 oz. can condensed cream of chicken soup
1/2 cup water

INGREDIENTS FOR CRANBERRY-APPLE RELISH:

3 cups cranberries
7 apples, pared and cored
1 orange
1 lemon
3/4 cup beet or cane sugar

METHOD FOR MAKING CHICKEN CUTLETS: Put the water, salt and rice in a 2-quart saucepan and bring to a vigorous boil. Turn the heat as low as possible. Cover the saucepan with a lid. Leave over this low heat for 14 minutes. Turn off heat. Leave lid on for 10 minutes. Add the chicken, onion, lemon rind, salt, pepper and egg yolks to the rice and mix thoroughly. Separate the mixture into 6 equal portions of 1/2 cup each. Press into balls. Chill. Cover if mixture is left in refrigerator more than two hours. Press the rice and chicken mixture together firmly and shape into "pork chop shaped" cutlets.

Dip cutlets first into the egg whites, then into cracker crumbs. Chill. Fry, in a skillet of hot fat, cooking one side to a golden brown before turning. Serve hot with a sauce made by heating together the chicken soup and water. The cutlets may be kept hot for about 30 minutes by placing them uncovered in a 250° F. oven.

This recipe makes 6 cutlets.

METHOD FOR MAKING CRANBERRY-APPLE RELISH: Put cranberries and apples through a food chopper. Quarter oranges and lemon, removing seeds and put through food chopper. Add to the cranberry-apple mixture. Mix in the sugar. Chill in the refrigerator before serving. This relish may be stored in the refrigerator for several weeks. Pass the cranberry-apple relish or serve on the tray with the cutlets.
