TESTAMENTARY.

Mabank Banner: A business man was told that he had but a few days to live. He summoned his attorney and instructed: "Make my will so overdrafts at the bank go to my wife; she can explain them. My equity in my car to my son; he will have to go to work to keep up the payments. Give my good will to the supply houses; they took some awful chances on me and are entitled to something. My equipment you can give to the junk man; he has had his eye on it a long time. I want six of my creditors for pallbearers; they have carried me to the job."

Another way we could help the unemployment situation in this country would be to see that each and every article we buy has a stamp on it reading "made in Good Old U. S. A." We Texas folks can go a little stronger and see that "Made in Big Texas" stands out in plain English.

W. F. Gilbert and family of Jayton spent last week end visiting relatives here.

Football at Ranger

Ranger, Texas—The Ranger Junior College Texas Rangers will meet the San Angelo Junior College football team on Lillard Field Ranger, Saturday, October 29. The game will be called at 2 o'clock.

The Ranger college team is composed mostly of last year's high school stars, and their record so far has been impressive. They defeated the Cisco high school team by a score of 18 to 0 and played the John Tarleton Plowboys at Stopenville last Saturday, and lost by a score of 6 to 0. However when the final whistle blew, the Rangers had the ball on Tarleton's 10 yard line after a series of passes by Roy Weaver, star passer who was on the High School team last year.

Cosah Ward states that his team is in fine shape for the game Saturday, and the San Angelo Junior College is expected to furnish plenty of competition for the local boy.

Are Your Tires planning a big blowout?

Bad tires are bad at all seasons... but at their worst in hot weather. A hidden weak spot in the carcass is likely to collapse under the increased strain of high speeds and blistering roads.

New tires are much cheaper than hospital bills, and even repair bills. If your tires have that guilty look, smooth treads you'd better replace them before they make you the guest at a road-side blow-out party.

Better Breakfasts
"Spring in the world!
And all things are made new!"

"WHAT a perfect spring morning!" your husband says, as he looks from the table to the scene out of the window. And perhaps he thinks that the weather alone is responsible for his exuberance. But you know of some other things that have put spring into the picture. You know that you are wearing one of your new spring morning-dresses, that Nancy Lee has on her gay spring frock. What the table is dressed in is a lettuce-green tablecloth with May blossoms in your lovely pink crystal bowl, and that last—but by no means least—you have just served a breakfast with spring flavor. It didn't take long to prepare either, and it was ready on the dot! Let's pass it along:
Sliced Oranges with Powdered Sugar
Oatmeal with Cream
Grilled Sardines on Toast with Cream Sauce
Bran Muffins
Coffee
Grilled Sardines on Toast with Cream Sauce
Cream Sauce
Sauté the contents of two 85-ounce cans of sardines gently in their own oil, and lay on squares of hot toast. Pour over each serving some hot, highly seasoned and rich cream sauce, made with evaporated milk. One and one-half cups of rich cream sauce will serve six."

The Tire That Taught THRIFT to Millions

GUM-DIPPED CORDS
The Firestone patented Gum-Dipping process transforms the cotton cords into a strong, tough, slippy unit. Liquid rubber penetrates every cord and coats every fiber, guarding against lateral friction and heat, greatly increasing the strength of the cord body, and giving longer tire life.

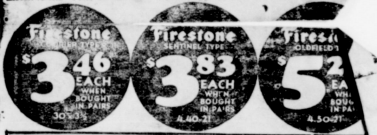

TWO EXTRA GUM-DIPPED CORD PLYS UNDER THE TREAD

This is a patented construction, and the two extra Gum-Dipped cord plies are so placed that you get 50% stronger bond between tread and cord body, and tests show 20% greater protection against puncture and blowouts. It sets a new standard for tire performance on high speed cars.

NON-SKID TREAD

Tough, live rubber specially compounded for long, slow wear. Scientifically designed non-skid gives greater traction and safe, quiet performance.
