Buy It Made In Texas

By Ella Hudson Day
 Buy it made in Texas—
 Make her factories a go,
 Make her independent—
 We're all a-kin you know.
 She has fields of snowy cotton,
 Tons of New Mawn hay,
 Buy it made in Texas—
 Help her make it pay.
 Be loyal to your state,
 Your patriotism show,
 Buy it made in Texas—
 That's the thing to do.
 Texas has the goods,
 Texas has the rice,
 Buy it made in Texas—
 If you would treat her nice.

B. L. Russell Is Candidate For Legislature

To the Citizens and Voters of Eastland and Callahan Counties: Upon the solicitation of many citizens of Eastland and Callahan Counties I have decided to make the race for the State Legislature from the 107th. Electoral District, a District composed of Eastland and Callahan Counties.

I am 34 yrs of age, was born, reared and educated in Callahan County and have lived in said county all my life. I feel that I have had suitable training and experience and that I am fully qualified to be a representative in the State Legislature, and if elected I promise a faithful, honest, efficient and economical administration.

The most important questions before the people of not only this District, but the State of Texas, are the questions and problems of lower taxes and a general reduction of the expenditures of our State government in every branch. This can be brought about by the consolidation of the various departments of our State government, abolishing those departments not needed, and a general reduction of salaries.

I favor a budget system for the State, with no more City, School and other business enterprises on a budget system, why not have the State on such a system? I favor the State to expand and make the budget accordingly, taking into consideration a general tax revision and a much smaller salary basis.

I favor law enforcement and any legislation, the object of which is for swifter and sure punishment, will have my actual support.

I favor the abolition of the fee system for all public offices in the State, and substitute therefor reasonable salaries.

I have always favored a strong and efficient school system, both rural and city, however, if I am elected, when school appropriations are considered I will keep our economic situation and State's finances in mind before casting my vote.

I favor a State income tax. The farmer pays taxes on his farm whether it ever did or ever will earn him a penny. This plan would make the people making money or having a large income pay the tax. It might be then, that the ad valorem tax could be taken off and the income tax used for a substitute. I will vote against any bill that would legalize racing and gambling in this great State of ours.

There will be many bills introduced in the next Legislature in reference to tax reform and reduction of our expenditures. Taxes must be reduced. They are going delinquent all over the nation. I will be in favor of taking off all penalties on such delinquent taxes.

I shall vote for and do all in my power to see measures adopted which will reduce the cost of government and which will reduce the taxes levied on the citizens of this State.

It will be my purpose to see all the voters in this District if possible before the primary, how-

Town Talk

Easter Sunday was spent very quietly here. No special programs at any church. Rev. Davy of Brokenridge filled the pulpit at the Baptist church.

The Methodist ladies met Friday in an all-day quilting and when the quilt was finished it was presented to Mrs. Z. L. Hoggell, which was quite a surprise to her. The president of the Missionary Society, Mrs. W. R. Usery, made the presentation announcement and Mrs. Howell responded with hearty appreciation.

Miss Oma Dee Gay was taken to the Dr. W. H. Guy Hospital at Dumas Saturday night where she underwent an operation for appendicitis. Her friends are glad to learn she is improving.

O. C. Richard of San Angelo visited his parents, Mr. and Mrs. W. R. Richard, Easter Sunday.

Miss Verta Mae Tucker was in Eastland Monday.

Mrs. L. V. Tritt and Mr. and Mrs. B. J. Robbins of Dallas were Sunday guests of Mr. and Mrs. J. M. Hampton.

Mrs. Lora Harey and mother arrived from Kingsville where Mrs. O. Stone going to town and a visit with Mrs. Vickie Scott.

Mrs. Ray Green and Miss Anna Lee McLean were Eastland visitors Saturday.

Billie Reed and wife were Sunday guests of Mrs. M. M. Carter.

Over, I will have to make the race on as little expense as possible I feel that whether I see the voters or not, my candidacy will be given the same consideration.

I assure you your vote and influence will be appreciated. Respectfully,
 B. L. Russell.

G. A. Swint of Rotan visited his aunt, Mrs. O. Stone, last week.

Mr. and Mrs. Everett Hendrix of Cisco and Mr. and Mrs. Bruce Swift of Cross Plains were Easter guests of Scott Noble and wife.

Mr. and Mrs. N. C. Morris are proud to learn that their daughter, Miss Opal, made B in every subject in her last examination in N. T. C. Denton.

Miss Gertrude Babcock of C. I. A., Denon, and Miss Zelma Eison of Gorman were Sunday guests of Miss Mae De Hall.

Mrs. I. G. Smith of Abilene was a guest of her parents, Mr. and Mrs. A. B. Rankin, last week.

Mrs. Leona Gott left for Abilene last Monday, where she has accepted a position in a store.

Mrs. J. L. Wilson and G. M. Clark visited Mrs. W. L. Boyd of Cisco Wednesday.

Roy Morris and wife of Sidney visited Mr. and Mrs. W. J. Greer last week.

Mrs. M. M. Carter and son, Truly, were Abilene and Hawley visitors from Wednesday until returned with them for a visit.

Mr. O. Stone entertained a crowd of young folks in an Easter egg hunt Saturday from 2:30 to 5 o'clock.

Mr. Bray and wife have opened a Pecan Shelling Business in the back of Dixie Drug Store.

They have a ready market and now have about 15 women employed.

Starting, April 1st. The First National Bank of Gorman will observe the lunch hour, and no business will be transacted between twelve and one o'clock daily.

P. T. A. Program

Parents' Evening Friday, 7:45 April 1st.

Invocation.—Mr. Gooch.
 Song, Dedicated to Parents and Home Makers of Carbon.—Joe Ford.

Reading—Marcell Greer.
 Reading—Wayne Walker.

Piano Solo—Margaret Wilson.
 Piano Duet—Lucile Clark and Pearl Townsend.

Reading—Jack Stubblefield.
 Address—Supt. McGlamery.

Piano Solo—Margaret Wilson.
 Reading—Faye Soren.

Piano Solo—Grover Nell Collins.

Songs—Lucky 13 Club.
 Announcements.

Mrs. Littlefield of Sipe Springs is visiting her sister, Mrs. W. A. Gann.

14 Citizens Offer Services As Trustees

According to the secretary of the school board, 14 citizens of the Carbon Independent school district have offered their services as trustees for the coming year. Of this number 7 are to be elected, a complete new board being necessary on account of consolidations, the law providing that this shall be done.

The entire list follows: C. J. Williams, Toke Medford, C. C. Sisson, Rufe Bean, B. W. Woodley, Homer Duncan, Sherman Craighead.

W. E. Trimble, J. Z. Phillips, F. E. Watson, Laud Black, J. D. Guy, Bud Holloway, Allen Cregghead.

Election to be held Saturday, April 2.

Received A New Car Ot Flour Every Sack Guaranteed "Better Bread for Less Money"

Brrr! IT'S been COLD

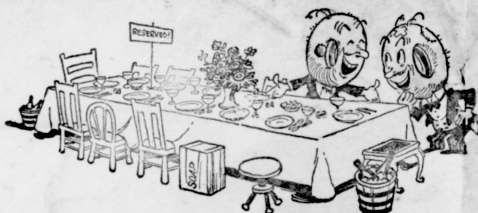

This cold weather has made a big demand on our facilities but we have answered every call and there has been no shortage whatever. We are proud to be able to render this service, coming as the demand does, when most folk had thought hot weather was imminent.

Watch your gas consumption the remainder of the month. Your use has been prodigal for the past few days. Your bill will show an increase that will startle you—It has been Cold! Cold!

Your reading this month will be from February 22nd to March 22nd.

Empire Southern Gas Co.

Are Your Tires blowing a big blowout?

Bad tires are bad at all seasons . . . but at their worst in hot weather. A hidden weak spot in the carcass is likely to collapse under the increased strain of high speeds and blistering roads.

New tires are much cheaper than hospital bills, and even repair bills. If your tires have that guilty look, smooth treads you'd better replace them before they make you the guest at a road-side blow-out party.

STAR DANARIC REMOVER
A GREAT FACILITY REMOVER
Star Danaric Remover is a powerful, non-toxic solvent which dissolves all types of oil and grease. It is used in all types of machinery and is safe for use on all types of metal. It is also used for cleaning up after a spill. It is available in 100 and 500 lb. drums. Write for literature today.

STATEMENT

Circulation, etc., required by the Act of Congress of August 24, 1912, of The Carbon Messenger, published weekly at Carbon, Texas, for April 1, 1932.

State of Texas.

County of Eastland.

Before me, a Notary Public in and for the State and County aforesaid personally appeared W. M. Dunn, who aving been duly sworn, according to law, deposes and says that he is the Editor of the Carbon Messenger and hat the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411. Postal Law and Regulations, printed on the reverse of this form, to wit:

1. That the name and address of the publisher, editor, managing editor and business manager is: W. M. Dunn, Carbon, Texas.

2. That the owner is: W. M. Dunn, Carbon, Texas

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: none.

W. M. Dunn.

Sworn to and subscribed before me this 1. day of April 1932.

Thos. H. Dingler

My commission expires June 1 1932

THE STATE OF TEXAS
To The Sheriff or any Constable of Eastland County—Greeting:

YOU ARE HEREBY COMMANDED To summon E. C. Walker by

making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, and 88th Judicial District to appear at the next regular term of the 88th District Court of Eastland County, Texas, to be held at the Court House thereof, in Eastland, on the first Monday in May A. D. 1932, the same being the 2nd day of May, A. D. 1932, then and there to answer a petition filed in said Court on the 10th day of December, A. D. 1931, in a suit numbered on the docket of said Court, No. 15,110, wherein J. R. Stubblefield, is Plaintiff and J. A. Pritchard, E. C. Walker, Mrs. Lizzie Williams (his) husband, H. R. Williams are Defendants, and the cause of action being alleged as follows:

That on March 19, 1930, plaintiff was lawfully seized and possessed with the following described land and premises, holding and claiming the same in fee simple, to wit: All that certain lot, tract or parcel of land situated in Eastland County, Texas, and being a part of the E. Finley survey, and described by metes and bounds as follows: BEGINNING at a stake on the E. B. line of tract conveyed, to W. F. Hale, and 256 2/3 varas south from said Hale's Northeast corner; thence south with the East boundary line of said W. F. Hale tract to the center of Leon River; Thence West with the meanderings of said river to a point where said Hale's west boundary line crosses said Leon River; Thence North 59 varas; Thence East 950 varas to the place of beginning, containing fifty-two (52) acres of land, more or less and being the same land conveyed to Charles Hartman and F. M. Oldham by deed dated May 21, 1907, recorded in Vol. 62, page 522 of the Deed Records of Eastland County, Texas.

That on said March 19, 1930, defendants unlawfully entered upon said premises and ejected plaintiff therefrom and unlawfully withheld from him the possession thereof to his damage to the sum of \$500.00 save and except 4-64 of the oil, gas and any and all other minerals in and under the above described land and premises.

Not waiving the foregoing, but insisting upon same, plaintiff brought above described suit, in which said Plaintiff made, executed and delivered to James L. Walker his certain deed in writing, conveying the above described land and premises, save and except 4-64 of the mineral rights in and under the land and premises heretofore described; that as a part of the consideration for said conveyance said James L. Walker made, executed and delivered to said Plaintiff five notes of \$100.00 in the sum of \$100.00, bearing date of March 19, 1930, numbered 1, 2, 3, 4 and 5 and due respectively, on or before, one, two, three, four and five years after date, bearing interest from date at the rate of 8 per cent per annum and for the further interest of 10 per cent as attorney's fees, if placed in the hands of an attorney for collection.

That said notes are just, due and unpaid, that James L. Walker died in Eastland County, Texas, on or about April 25, 1931; that the left surviving heirs, E. C. Walker, a son, and Mrs. Lizzie Williams, a daughter; that H. R. Williams is the husband of Mrs. Lizzie Williams; that E. C. Walker was appointed executor of the will of James L. Walker.

Wherefore, plaintiff prays for judgment of this Court in possession of the above described land and premises, and that writ of restitution issue for his rents, damages and costs of suit; that the defendants be restrained from removing any of the permanent improvements from said land and premises, amounting to \$100.00; or, in the event the plaintiff should be denied said recovery, then that the plaintiff have judgment for the principal and interest and attorney's fees, provided for in said notes, and for such other and further relief as the plaintiff may be entitled to recover and for cost of suit.

HEREIN FAIL NOT, But have you before said Court, on said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Eastland, Texas, this 8th day of March, A. D. 1932.

Urges Practical Salesmanship Courses in Universities

CHICAGO—Fitting the college student for the job is the real task of our universities and colleges, according to A. G. Gulbransen, piano manufacturer. In an address here in which he urged courses in salesmanship by institutions of higher learning.

"Educational tragedy of the present day is the university graduate who does not know how to make his living," said Mr. Gulbransen. "It is all wrong that a man or woman should have gone to school four years at a cost of between \$6,000 and \$10,000 and at the end have no equipment to carry his way in the world."

"The large percentage of college men and women who make sales-

manship their profession indicates the opportunity for the colleges to put in schools of practical salesmanship. President Max Mason of the University of Chicago recently declared that a close bond between industry and the university was essential. He asserted that the students must be equipped for practical life. By their own choice of careers after leaving college they want is a school of salesmanship.

in Brazoria county the men who have been demonstrating the value of improved pastures claim that one acre of improved pasture is worth more than three of ordinary pasture. About 20,000 acres are reported by the county agent moved to rid fields of weeds, and shade trees have been planted, drainage ditches dug, and better watering facilities added.

Melvin Traylor Asks Curb on Mounting Cost of Government

Chicago Banker Shows Need of Caution in Spending Taxpayers' Money

Would Reform Tax Methods

Speaking before the International Chamber of Commerce at Washington, Melvin A. Traylor, President of the First National Bank of Chicago, said in part:

Another field in which those responsible for leadership must do some hard, sound thinking if we are to avoid disaster is that of public expenditures.

In this country, government is supposed to abide with the people, and yet we know that in no other field does leadership exert so great an influence upon the thought and action of the people as in the political sphere. In the fifteen-year period, from 1913 to 1928, our national income was estimated to have increased from about \$44 billion dollars to \$1 billion dollars annually, or 125 per cent; in the same period the expenditures of all governmental divisions in the United States have increased from a little less than three billion dollars to more than 12 1/2 billion dollars, or approximately 300 per cent.

It is perfectly true, of course, that insofar as the Federal Government is concerned, the major part of the increase in that direction is accounted for by our participation in the World War; but it is interesting to observe that for the fiscal year ending in 1928, Federal expenditures were only 31 1/2 per cent of the combined output of all political administration in the United States.

Local Expenditures Big Item
Figures are not available for the years following 1928, except for the Federal Government, whose expenditures increased 10.7 per cent for the fiscal year ending in 1929, and 6 per cent in 1930. It may be assumed that like increases have occurred in other political subdivisions of the country. For the year ending in 1928, the cost of administration of State Governments amounted to 14 1/2 per cent of the total; of the remainder, over 54 per cent went to sustain local governments.

Naturally, those responsible for government, desire to give their citizenry the finest educational facilities, the best roads, streets, public parks, playgrounds, and other facilities obtainable, but, after all, there is no denying the fact that expenditures for such purposes bear a very close relation to the individual, because they mortgage his future earnings for consumable and rapidly deteriorating goods.

Every bond issue for the public welfare is an installment debt on the earning capacity of every individual and enterprise in the community affected. Not only does it involve installment amortization of the debt itself, but a constantly increasing charge for maintenance and upkeep if the improvement is to be preserved against early deterioration and quick ruin.

Most of the taxpaying machinery of the country was created at a time when the present volume of public debt was not thought possible, and it is, therefore, inadequately and ineffectually adjusted to meet the emergencies of the present period.

The consequences is that in almost every major political subdivision of the country certain classes of wealth escape taxation, or pay little, while other types of property are charged with an unbearable obligation.

The duty of leadership, therefore, in this field is twofold: first, and most important of all, a greater degree of caution must be exercised in the creation of government obligations; and, second, an immediate reform in taxing machinery must be undertaken.

Effects of "Federal Aid"
In connection with the creation of indebtedness, it is high time that those responsible for State administration consider the pernicious and seductive influence of so-called Federal aid for public improvements.

In many instances, this policy of public expenditure approaches closely to political bribery and in almost every case, lends itself to political log-rolling, the surrender of state sovereignty, and a gradual impoverishment of fiscal units. Moreover, we have said nothing of the proposal and promotion of undertakings which in many instances are not justified by the necessity of the situation or by the utilization of the facilities contemplated. Let there be no mistake in this respect.

Let us face the facts. Unless there is a return to sanity in the matter of public expenditures, defaults and repudiation of public obligations cannot be much longer avoided.

Why Hunt Prices

Spherical lenses and frames

\$3.95 and \$4.95

Complete with shell frames

\$5.95

Complete in frames with gold filled bridges and temples.

Double vision lenses in shell frames

\$5.50 and \$6.50

These prices complete with thorough examination. If unable to pay for better grade lenses we guarantee these to give good service if there is no special error or trouble with your eyes.

Examination without glasses only \$1.00.

PENNY BLDG. —:— EASTLAND, TEX

Right School Lunches

ONE of the problems in a recent final hygiene examination for Fifth grade boys and girls was "Plan a beautiful breakfast such as a boy or girl should eat before coming to school in the morning." This is an example of the increasing tendency of modern education to stress the homelife of children.

And the limelight is on the lunch-box which you prepare for the non-day meals, just as it is in the morning meal. There are right and wrong foods to put into your little son's or daughter's school lunch box. Here are some of the right ones—foods which are good for growing youngsters.

Goody! It's Lunch Time!
Not Bread, Cheese and Pig Sandwiches: Slice not bread thin, butter and spread with washed cream cheese. Cover with canned figs which have been drained and sliced. Top with nut bread and eat as desired.

Chicken and Vegetable Salad Sandwiches: Cut up the contents of one 6-ounce can of chicken, add drained canned peas, chopped celery and chopped pimiento. Moisten well with mayonnaise. Spread on buttered whole wheat bread and add a crisp lettuce leaf.

Pineapple Chocolate Milk Shake: Shake together one-half cup chocolate syrup, one cup evaporated milk or fresh cream, one cup pineapple syrup, one cup water and a little cracked ice. Shake and pour into the thermos bottle. This makes four drinks.

Cherry Tartlets: Line scalloped tart tins with pastry. Drain cherries from a No. 2 can of red pitted cherries and cook the juice with two-thirds cup sugar until glazed. Drain again and cool the cherries; then divide between tart shells. Mix one-half teaspoon cornstarch and one teaspoon cold water and add to the syrup. Cook until thick. Pour over cherries and bake in a hot oven about fifteen to twenty minutes.

Well, and is it so bad? The other day we saw a man walking up of town with a little bag of eggs in his hand which he brought along to sell—not over five or six dozen at most. Now of course eggs are cheap. Don't know what he got for them, but we do know that he went home with a bag of coffee and a little cash in addition. So what does it matter if the eggs were cheap? The coffee was '60. The only difference that we can see is in paying a debt that was contracted two or three years ago.

It would take a heck of a lot of eggs to pay that debt with the present price of eggs than it would have when eggs were selling at 90 cents per dozen. It is very unfair to the hen to set up the gold standard as measure of value. If in the chicken government a hen was taxed one dollar a year she would at present prices have to crawl on the nest 100 times a year to earn her tax receipt; at Christmas time prices three years ago, 15 eggs would square her with the government. The principle of

the Bible plan of tithing is the fairest system of taxation in the world, especially during times of depression. But if that system were adopted by the government and prices of farm products were made to soar to the skies, everybody would want to revert back to the old plan of paying so much on the dollar. So there you are; what's good at one time is bad at another and vice versa. Perhaps no system will ever be adopted that will automatically adapt itself to changing conditions.

Coming to Cisco

DR. MELLENTHIN

Dr. Mellenthin does not operate for chronic appendicitis, gallstones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, earstarr, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

Remember above date, that consultation on this trip will be free and that this treatment is different.

Married women must be accompanied by their husbands.

Address: 4321 West Third Street, Los Angeles, California.

Alfalfa Pays its way in Comanche

Comanche—An alfalfa demonstration carried on by J. W. McHardy of De Leon in cooperation with J. A. Barton, farm agent of Comanche county, on a five acre block of sandy loam land netted a profit of \$27.68 per acre in 1931. The land had been cropped with corn, clovers and peas and in the spring of 1930 was planted with 12 pounds per acre of Kansas dry land grown alfalfa seed on well prepared land to which had been added 200 pounds per acre of commercial fertilizer. The summer of the year being very dry little growth was made by the plants, but a spring frost harvested early in 1930 killed the weeds and started the alfalfa growing. Two cuttings totaling 17,449 pounds were made and after 140 pounds was utilized for the rest of the year with milk cows, hogs and work stock. The cost of the crop was \$29.60; the value of the hay was \$178 and the pasturage was estimated to be worth \$20.

After two years of effort in getting state certified cotton seed planted in Hopkins county the county agent reports that local bankers, buyers and warehouse men agree that the market last year was 20 points above the market. There were 18,000 bales sold there.

F. G. Rodgers of Spur is making American cheese as coached by the Dickens county home demonstration agent and is selling it to his grocer. He says it is a good way to dispose of surplus milk.

Firestone

EXTRA VALUES

KEEP FACTORIES RUNNING

24 Hours a Day

MR. FIRESTONE has made good his statement that if you would work harder—reduce your expenses—give better service—greater values—and sell cheaper—you would sell more goods and make money.

His factories are running twenty-four hours a day, and his semi-annual statement just released shows that he made money.

Firestone do not manufacture special brand tires for others to distribute. They do make a complete line of tires for us—bearing the Firestone name and guarantee—that not only meets the prices but beats any special brand tire distributed by mail order houses or others in Quality and Construction, giving greater values.

We have cross-sections cut from Firestone Tires and others. Come in today and see the Extra Values in Firestone Tires.—We can save you money and serve you better.

Firestone gives you these Extra Values at NO Extra Cost

- Gum-Dipping**—The patented process that penetrates every cord and coats every fiber with liquid rubber—minimizes internal friction and heat, greatest enemy of the tire.
- Double Cord Breaker**—Two extra plies of Gum-Dipped cords under the tread—absorbs road shocks—prevents blowouts—insures greater safety and comfort.
- Tread**—Made of non-curling rubber—provides greater non-slip safety and longer wear.

- 50% Longer** Riding Life
- 25% More** Mileage
- Longer** Tire Life
- 20% Greater** Protection
- 50% Stronger** Road Body
- 25% Longer** Non-Skid Wear
