EDITORIAL NOTES.

J. D. Walker goes to the United States Senate, from Arkansas.

Dr. Linderman, Director of the Mint at Philadelphia, died, January 27.

The Harper county Times, a neat and newsy paper, has discarded its "patent outside." We are glad to note this sign of prosperity.

R. L. Labau, the Conservative elected to the Forty-sixth Congress, from Virginia, has been chosen to fill the vacancy caused by the death of Representative Douglas.

At Mortville, Mo., January 25, John McFarland, wife and granddaughter, were killed by an insane man named Rowell, who was later killed by a neighbor whom he had attacked.

A tornado struck the town of Lockport, Texas, last Sunday evening, demolishing forty houses, including churches, the Court-house and Masonic hall. A child was killed and several persons badly hurt.

The Missouri State Insane Asylum, at St. Joseph, was destroyed by fire, Jan. 25, loss, \$330,000. All the patients, numbering 217, were rescued; but some of them escaped from the guards; and two of them were still missing at last report.

The following is the vote on first ballot, Jan. 28, for United States Senator in both Houses of the Legislature: Ingalls, 61; Anthony, 26; Simpson, 18; Phillips, 11; Campbell, 6; Horton, 3; Mitchell, 2; Godin, 2; Pomeroy, 2. It takes 55 votes to elect.

News from Ft. Lincoln says runners from Sitting Bull have arrived at Standing Rock agency, bearing a distinct proposition from that chief to return and surrender his guns and ponies. He says his people are hungry and cold, and his spirit is broken.

In the billiard match in New York, Jan. 28, Schaefer, the Leavenworth lad, beat Daly in thirteen innings, 600 to 68, closing the game by a run of 311, but the audience insisted upon Schaefer's continuing the run and he made 448, the largest ever shown in public.

A dispatch from Detroit, Jan. 25, says: "Advices from Lansing, this afternoon, state that it is rumored there and believed by prominent members of the Legislature that Senator Christiancy will surely resign his seat in the United States Senate and accept the mission to Peru, in which contingency it is said there is hardly a doubt of the election of ex-Senator Chandler to fill the vacancy."

The Pension Law has been so amended by the last Congress as to give to every pensioner of the late war a pension from the time his pension claim arose. This includes all who have already obtained pension certificates as well as those to whom pensions may yet be allowed. The increased pension will amount to about eight hundred dollars in each case; and it is thought it will increase the annual pension appropriation to the sum of one hundred millions of dollars. The bill received the signature of the President, Jan. 25.

STATE GIBLETS.

There are 213 newspapers and periodicals published in Kansas.

The slaughter house of A. Dietrick, at Peabody, was destroyed by fire, Jan. 19, loss, \$800.

Hodgman-county has two thousand five hundred inhabitants, and will organize as soon as the proper steps can be taken.—Dodge City Times.

Jan. 14, William Walker and David Chuvront got into a difficulty in Sterling over a social game of cards, and in the melee Walker fatally stabbed Chuvront.

John F. Earnest, aged 55 years, was killed near Douglas, Butler county, Jan. 10, by the falling of a tree which he had felled. He leaves a family at Springfield, Mo.

Frank Mortimer has purchased his partner's interest in the Council Grove Republic and Democrat,

and drops one-half of the name. The Republican is a bright, newsy paper.

A vein of cannel coal, two and one-half feet thick, has been discovered at a depth of three feet, in Ness county, the same vein running into Rush county.—Dodge City Times.

The Arkansas City Traveler says cattle are dying in large numbers in the Territory. Recent discoveries show that live stock require a little feed when the ground is covered with a foot of snow.

Marion county will vote on the 10th of February, whether seventy-five thousand dollars in funding bonds shall be issued to take up the hundred thousand dollars, issued in the year 1872 to the Kansas and Nebraska railway company.

The Kansas State Board of Agriculture met in the Senate chamber in Topeka on the 15th. It elected as its officers for the ensuing year: R. W. Jenkins, of Pottawatomie, President; Levi Wilson, of Leavenworth, Vice-President; Alfred Gray, of Shawnee, Secretary; Wm. Sims, of Shawnee, Treasurer.

KILLED BY A METEOR.

On Thursday night, January 15, Leonid Grover, who resided in the vicinity of Newtown, Fountain county, Indiana, met his death in a way that is probably without parallel in this or any other country. Mr. Grover was a widower, living on his farm with a married daughter and her husband. On the evening referred to, the married couple had been absent on a visit to some neighbors and upon returning at a late hour, entered the house, finding everything to all appearance, in usual order, and supposing that Mr. Grover had already retired, went to bed themselves, next morning the daughter arose, and having prepared breakfast, went to the adjoining room to call her father, and was horrified to find him lying upon his shattered bed a mutilated corpse. Her screams brought the husband quickly to the bed-room and an inspection disclosed a rugged opening in the roof, directly over the breast of the unfortunate man, which was torn through as if by a canon shot, and extending downward through the bedding and floor; other holes showed the direction taken by the deadly missile. Subsequent search revealed the fact that the awful calamity was caused by the fall of a meteoric stone, and the stone itself, pyramidal in shape, and weighing twenty pounds and a few ounces, void of poise, and stained with blood, was unearthed from a depth of nearly five feet, thus showing the fearful impetus with which it struck the dwelling.

The position of the corpse, with other surroundings, when found, showed that the victim was asleep when stricken, and that death, to him, was painless.

A PERILOUS POSITION.

A young man near Houston, Texas, had a most remarkable and unpleasant experience a few nights ago. He was riding down the railroad track in the darkness, when his horse stumbled on the edge of a culvert and threw him headlong. He fell between the ties, head foremost, and his foot catching between the rail and a sill, which lay beneath it, under the cross-ties, he was suspended by his ankle in mid-air. In this perilous position he hung for two or three hours, when he heard the rumble of a coming train. He became almost frenzied, not knowing whether the weight of the train would come upon his foot, but it passed without injuring him, and though he shrieked wildly for help, the noise of the cars drowned his voice. After the train had passed, he hallooed all the rest of the night, but nobody heard him till morning when he was rescued from his perilous position more dead than alive, after hanging head downward for ten hours.

NOTICE OF NEW DEPARTURE.

After this date I will make work in my line cheaper than has ever been sold in Cottonwood Falls, heretofore. I have in my employ a first-class workman, and am prepared to fill orders for any style of boot or shoe that may be desired, out of the best material, and in a style unexcelled by any in the State. I have a few of the celebrated McCurdy boots yet, which I will sell lower than ever. Repairing done neatly and cheaply. Shop adjoining the Hardware. Terms, cash.

THE SUN FOR 1879.

The SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past. To present all the news in a readable shape, and to tell the truth though the heavens fall.

The SUN has been in, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest newspaper can have. That is the policy which has won for this newspaper the confidence and friendship of a wider circle of readers than any other newspaper in the country. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat against the dishonest Republican, and for the honest Republican against the dishonest Democrat. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men of measure are in agreement with the Constitution and with the principles upon which the Republic was founded for the people. Whenever the Constitution and the principles of the Republic are violated, as in the outrageous conspiracy of 1876, by which a man not elected was placed in the President's office, where he still remains, it speaks out for the right. This is the SUN's idea of independence. In this respect there will be no change in its program for 1879.

The SUN has fairly earned the hearty approbation of readers and hundreds of all sorts and sizes. It hopes to deserve that approbation in the year 1879, than in 1878, or any year gone before. The SUN will continue to shine on the wicked with unmitigated brightness.

While the lessons of the past should be constantly kept before the people, the SUN does not propose to make itself in any sense a magazine of ancient history. It is printed for the men and women of to-day, whose concern is with their own to-day. It has both the disposition and the ability to afford its readers the prompt, fullest, and most accurate intelligence of whatever in the wide world is worthy of attention. To this end the resources belonging to a well-established prosperity will be employed.

The present disjunct condition of politics in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and actions of Congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential election of 1880—an event that must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these elements of interest may be added the probability that the Democrats will control both Houses of Congress, and the increasing feebleness of the fraudulent Administration, and the spread and strengthening everywhere of the awareness of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-known method, the principles that should guide us through the labyrinth, will be an important part of the SUN's work for 1879.

We have the means of making the SUN, as a political, literary and general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely.

Our rates of subscription remain unchanged. For the DAILY SUN, a four page sheet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or \$5.00 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.50 a year, postage paid.

The Sunday edition of the SUN is also furnished separately at \$1.25 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of five sending \$10 we will send an extra copy free. Address, W. E. TIMMONS, Editor, Cottonwood Falls, Kansas.

LIVER REGULATOR.

AN ADDRESS TO THE SICK.

Do you want to purify the system? Do you want to get rid of biliousness? Do you want something to strengthen you? Do you want a good appetite? Do you want to get rid of nervousness? Do you want good digestion? Do you want to sleep well? Do you want to build up your constitution? Do you want a brisk and vigorous feeling? If you do,

TAKE **SIMMONS' LIVER REGULATOR.**

J. H. ZEILIN & CO., Sole proprietors—Simmons' Liver Regulator, Philadelphia.

THE FAVORITE Home Remedy is warranted not to contain a single particle of Mercury or any injurious mineral substance, but is PURELY VEGETABLE, containing those Southern Herbs, which an All-Wise Providence has placed in countries where Liver Disease most prevail. It will cure all diseases caused by derangement of the Liver and Bowels. Relieves the Liver and prevents CHILLS AND FEVERS.

SIMMONS' LIVER REGULATOR is eminently a Family Medicine; and by using it at once, for immediate relief, you will save many an hour of suffering and many a dollar in time and doctors' bills.

After forty years' trial it is still receiving the most unqualified testimonials to its virtues from persons of the highest character and responsibility. Eminent physicians commend it as the most EFFECTUAL SPECIFIC FOR CONSTIPATION, HEADACHE, PAIN IN THE SHOULDERS, DIZZINESS, SOUR STOMACH, BAD TASTE IN THE MOUTH, BILIOUS ATTACKS, PALPITATION OF THE HEART, PAIN IN THE REGION OF THE KIDNEYS, DESQUAMATION, GLOOM AND FOREBODING OF BVD, ALL OF WHICH ARE THE OFFSPRING OF A DISEASED LIVER.

COLIC IN CHILDREN.

For children complaining of colic, headache, or sick stomach, a teaspoonful or more will give relief. Children, as well as adults, eat sometimes too much supper or eat something which does not digest well, producing sour stomach, heartburn, or restlessness; a good dose of Liver Regulator will give relief. This applies to persons of all ages. It is the cheapest, purest, and best Family Medicine in the world.

IT HAS NO EQUAL.

Thousands lead miserable lives, suffering from dyspepsia, a disordered stomach and liver, producing biliousness, heartburn, constipation, weakness, irregular appetite, low spirits, raising food after eating, and often ending in fatal attacks of fever. They know they are sick, yet get little sympathy. The infallible remedy to prevent these afflictions and restore health is Simmons' Liver Regulator.

Manufactured only by J. H. ZEILIN & CO., PHILADELPHIA, PA. Price, \$1.00. Sold by all Druggists.

W.E. TIMMONS, Editor and Publisher.

COTTONWOOD FALLS: FRIDAY, JANUARY 31, 1879.

Hon. Thos. H. Cavanaugh has our thanks for his first biennial report.

Hon. N. P. Hill has been elected to the United States Senate from Colorado.

The Hutchinson Interior, an excellent local paper, published by Coutant & Dasley, has entered its third volume.

Biennial sessions of the Legislature result in great savings. North Carolina has saved \$80,000 by abolishing annual sessions.

Would it not be in keeping with the times, for our Legislature to reduce the penalty on delinquent taxes?—Wellington Democrat.

We think it would.

The plague is still raging in Russia to an alarming extent, and Germany, Austria and Hungary are adopting measures to prevent its crossing the frontier.

The declaration of the election of O. W. H. Platt, as United States Senator from Connecticut was made, Jan. 22, in joint session of the Legislature.

The report of the Commissioners on Emigration for the year 1878 shows a gain of 20,811 in alien emigrants over the previous year, the total number being 121,369.

Lexington, Kentucky, formerly a Republican stronghold, has elected a Democratic city ticket by an immense majority. The negroes generally voted the Democratic ticket.

Our Schools, a neat little eight-page monthly journal, devoted to the advancement of educational interests, and conducted by C. F. Forbes, price 60 cents a year, is on our table. It is published in Lawrence, Kansas, and is full of interesting reading. We wish it success.

Sharp and McDannell were hung at Mauch Chunk, Pa., early in the morning of the other day. About a minute after the drop fell a reprieve was received from the Governor. This should be a warning to Sheriff to delay the execution of such prisoners until late in the afternoon.

In a billiard tournament, in New York, Jan. 20, Slosson beat Sexton, in twelve endings, by a score of 600 to 87. Slosson ran 441 in the eighth ending. The winner's average was 50. Slosson's run is the highest on record and wipes out Schaefer's great run of 429, and Sexton's old run of 417.

In the Solomon valley there are twenty-one Baptist churches.—CHASE COUNTY COURANT.

Does the COURANT publish this item for the purpose of establishing the fact that old Solomon was a Baptist?—Elinwood Express.

By no means; but to show that the "rotten Commonwealth" is no such a bad place after all.

The annual circular of the Mercantile Agency of R. G. Dun & Co. states that the failures in the United States in the year 1878 were 10,478, with liabilities equal to \$234,393,000. This is an increase of 1,571 in failures, and \$40,000,000 in liabilities over the previous year, and the aggregate of liabilities is even greater than it was in 1877; yet we have resumption.

Hendricks, of Indiana, and John Martin, of Kansas, would make a strong ticket for 1880.—Emporia Sun.

Then Kansas would be classed with the "solid South." "Hendricks and Martin." That doesn't sound much like defeat, either.—St. Marys Times.

Your Leads are level, gentlemen. Give us a Kansas man for the second place on the ticket; and Martin is as good as any of them.

Mr. Thos. Stivers, formerly of the Atchison Champion, has purchased an interest in the Patriot of that city, and has assumed the city editorship of the latter paper; and by the way, Mr. Stivers is one of the best newspaper men in the Missouri Valley. Mr. F. L. Vandegrift and Mr. E. W. Beall have retired from the Patriot, the firm now being Park & Stivers, with H. Clay Park, the senior member and one of the best editors in the West, still as its managing editor.

When the State National Bank of Missouri closed its doors, it was owing the State Treasurer a large sum of money. A dispatch from

Jefferson City says: "Col. Barnes made every cent of the amount in the State National Bank, at the time of its failure, good." He deposited \$200,000, the last installment of this, in the treasury on the last day of December. The same dispatch states that Col. Barnes will make good the Maslin Bank deficit. \$285,000, and the State will not lose a dollar.

The Irish World, which is published in New York city, the first of this month, is an extra edition of 1,500,000 copies. Some idea of the magnitude of this edition can be had by supposing a country paper has a circulation of 1,000, and very few of them have so large a circulation as that, which means a circulation of 52, the number of weeks in a year, will give 52,000, which divided into 1,500,000 will produce a fraction over 28; thus showing that that edition contained more than would be run off by such a country paper in 28 years; and that edition was for free distribution; which shows a great amount of enterprise on the part of the publishers of that journal.

The following, from the Paola Advertiser, speaks our sentiments exactly: "Of all our representatives in Congress Senator Plumb is the only one who has had the manliness to speak out concerning the Indian depredations recently committed in this State. He speaks our sentiments when he says that all the Indians on that raid are equally guilty of the crimes committed on the innocent settlers in Kansas, and should be punished. Every buck Indian who was present with the gang which raided across this State last fall ravishing women and little girls and massacring men, women and children, should either be tried by court-martial and shot, or by the civil authorities of Kansas and hung. The impolicy of our present State government was never more conspicuous than in its total disregard of its duty to the ravished and murdered people of western Kansas."

"THE INVESTIGATION."

Though the investigation of election frauds is still going on in Washington; the people of the great and prosperous west are not agitated very much over the title of Hayes to the Presidency—what they want to know is where to go to during the summer for recreation and pleasure—and as usual the Old Reliable Hannibal and St. Joseph Railroad comes to the front and offers cheaper rates, close connections, and through cars from the Missouri River to the principal places of interest in the North, South and East. Through Day Coaches and Pullman Sleeping Cars are run from Missouri River points to Chicago, via Quincy, (and the Chicago, Burlington and Quincy Railroad,) making close connections with all lines to the North and East, also with the different steamboat lines on the Great Lakes. This is the only line offering a through Day Coach and Pullman Sleeping Car, from Missouri River to Toledo, Ohio (via the Wabash) without change making close connections with Rail lines to all points East, direct connections made with Boat for Put-In-Bay, (the Saratoga of the west). This is also the only line offering a through Day Coach from Kansas City to Indianapolis without change—making close connections with all lines East and South. Pleasure seekers, business men and the public generally should remember this fact and purchase their tickets accordingly; for sale at all offices in the west. For Maps, Time Tables, Rates, &c., call on or address, C. N. LEE, West. Pass. Ag't, Kansas City, T. PENFIELD, Gen'l Pass. Ag't, Hannibal.

No. 18—80 acres in section 11, township 19, range 8; Mrs. Croan's land; very cheap for cash. Price, \$400.
For information, call on W. S. Romigh, or at COURANT office, Cottonwood Falls, Kansas.

Persons that have any knowledge of stock raising will see, by the large crop product, that this is the place for them to make money. Cattle do well; horses and hogs could not do better. It is hardly ever troubled with the disease so common in the East. Cattle winter well; in summer our unlimited range furnishes ample feed.
It is conceded that Chase county is the best location for sheep-growers in Kansas; and we honestly believe it to be a fact, men of competency and practical experience in sheep-raising give it their opinion, that wool of the Merino and other fine varieties can be probably raised here, at a cost of ten cents a pound. It is believed that the finer wool will pay the best, as a great deal of expense is saved by being able to run them in large flocks. There is generally a fair competition for the purchase of wool. Our grasses are good and nutritious, and herbs and shrubs plentiful. Our upland is rolling. The business of sheep-growing is bound to be an important one in this county, and the time will soon come when our hills and valleys will be dotted over with sheep, as well as cattle.
Dairy farming is a branch of industry which will pay in this county. It costs very little to feed milk cows. Butter and cheese have a ready sale.
Chase county has thirty-six good school-houses, in which school is held, at least eight months in the year, thus affording better educational facilities than can be found in the older States.
We have Congregational, Catholic, Methodist, United Presbyterian, Quaker, and other religious denominations worshipping in this county.
Lodges of Masons, Odd Fellows and other benevolent societies are in flourishing condition in this county.
Chase county building stone has justly received the reputation of being the best in the West and can be found upon almost every quarter-section in the county.
To parties having money to invest in manufacturing establishments we can say that Chase county has from seventy-five to one hundred miles of the best water-power in Kansas, with material to build dams and mills everywhere. The streams are clear and swift-running, with rocky beds. Money invested in utilizing our water-power will yield tenfold.
Chase county has room for a woolen mill, which we think would pay. Also, a paper mill; and three or four cheese factories. Besides, unlimited room for all other industries.
For any further information, address (enclosing stamp), W. E. TIMMONS, Proprietor of the Courant.

LAW OF NEWSPAPERS.

- 1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their paper, the publisher may continue to send them until all arrearages are paid.
3. If subscribers refuse to take or neglect to take their paper from the office to which they are directed, they are held responsible until they have settled their bill and ordered their paper discontinued.
4. If subscribers move to other places without informing the publisher, and the papers are sent to the former direction they are held responsible.
5. The courts have decided that refusing to take a paper from the office is prima facie evidence of intentional fraud.
6. Any person who takes a paper regularly and directs it to be sent to another person, or whether he has subscribed or not, is responsible for the payment.
7. Action for fraud can be instituted against any person whether he is responsible in a financial point of view or not, who refuses to pay subscription.
8. The United States courts have repeatedly decided that a postmaster who neglects to perform his duty of giving reasonable notice, as required by the Post Office Department, of the neglect of a person to take from the office newspapers addressed to him, renders the postmaster liable to the publisher for the subscription price.

THIRTY-NINTH YEAR.

THE PRAIRIE FARMER

FOR 1879.

THE LEADING AMERICAN AGRICULTURAL & HOUSEHOLD WEEKLY.

For Town and County, For Old and Young.

(Established in 1841.)

The PRAIRIE FARMER, now in its thirty-eighth year, is the leading agricultural and household weekly of America, and acknowledged authority throughout the United States and Canada upon topics of

AGRICULTURE, HORTICULTURE, STOCK RAISING, ETC.

Being published weekly, the more progressive facts in practical agriculture and agricultural science are grasped by an efficient editorial corps and promptly placed before its readers in the most attractive and readable form.

ITS LIVE-STOCK DEPARTMENT. A greater amount of reliable live-stock intelligence is given in its columns during the year than in any other publication.

ITS VETERINARY DEPARTMENT. Is conceded to be thoroughly reliable and most practical. All queries by subscribers are promptly, cheerfully and fully answered by one of the most accomplished veterinarians in the United States, under whose direction this department is conducted.

HOUSEHOLD AND GOOD HEALTH. Weekly articles in each of these departments, prepared expressly for this paper, form a prominent feature.

ITS MARKET REPORTS. Including live-stock, grain and general markets are carefully prepared by a special reporter, up to the hour of going to press.

THE AIM OF THE PUBLISHERS. Will be in the future as in the past, to make every department full and complete so far as practical talent can accomplish the end—that of making the PRAIRIE FARMER the best agricultural and home journal in America. Terms, \$2.00 per year in advance, including the balance of 1878 free, to new subscribers from time subscription is received. Specimen copy free to any address. Liberal cash commission allowed to agents, who are wanted every where to organize clubs, and to whom canvassing outfit will be furnished free upon application to PRAIRIE FARMER CO., Chicago, Ill.

Letters reach us, from parties in the East, almost daily, asking for information about Chase county. The questions are numerous, and it would require too much labor and money to answer them all. So we have decided to give the advantages offered to farmers, stock raisers and business men as briefly as possible:
In the first place, money is a necessary article in Kansas, as well as elsewhere, and you will need some to commence with. Pluck and energy are, also, necessary articles.
As good land as man ever tilled can be had here for almost nothing. In the third country can not be found. Winter wheat is an almost sure crop; corn yields largely; other grain as well as anywhere else. To give an idea of the way wheat and corn yields in Chase county, we give the following showing for 1878: Wheat, acreage, 6,013; yield, 182,102 bushels; value of product, \$188,618; Corn, acreage, 27,670; yield, 1,136,940 bushels; value of product, \$227,388.
Irish potatoes yield 80 bushels to the acre, almost daily, asking for information about Chase county. The questions are numerous, and it would require too much labor and money to answer them all. So we have decided to give the advantages offered to farmers, stock raisers and business men as briefly as possible:
