EDITORIAL NOTES.

Snow fell in several places in the North, October 28.

Abilene boasts of a yam weighing ten pounds and four ounces.

The yellow fever epidemic in the South is about over, the frost having visited that region.

The Manhattan Savings Bank, New York, was robbed of \$3,000,000 in bonds and \$11,000 in cash, on the night of Oct. 27.

Cardinal Cullen, Archbishop of Dublin, died, Oct. 24. He was born in England, in 1803, and nominated Cardinal in 1866.

A heavy wind storm in the East Oct. 23, did considerable damage to life and property, the loss in Philadelphia alone being about \$2,000,000.

The Nursery for November, published by John I. Storey, 36 Bromfield street, Boston, Mass., price, \$1.50 per annum, filed with nice reading for little folks, is on our table.

STATE GIBLETS.

It is said Senator Plumb has purchased the Santa Fe railroad stock of Lyon county, and that he made about \$50,000 by the transaction.

The Republicans at El Dorado are "bulldozing" some of their colored fellow citizens for being Democrats. We learn this through the El Dorado Press, a Republican paper.

The State Normal School at Emporia was burned, last Saturday morning, the fire originating in the cellar among the coal. Loss, \$100,000; insurance, 10,000, in favor of Emporia. Our State officials are kept too busy looking after their re-election to think about a little matter of insurance on our State buildings, hence, it is an entire loss to the State. Citizens, will you vote for the re-election of such men?

TO THE DEMOCRATIC VOTERS OF CHASE COUNTY.

For the first time in the history of Chase County, have the Democratic party put into the political canvass a purely Democratic ticket.

The time has now come when absolute success will crown our efforts, if every democrat is faithful to his ticket. The discussion in the Republican ranks is as great as that of greater, than ever.

Hosts of republicans will vote

the Democratic ticket this coming election. They recognize that our own candidates are among the best citizens of Chase County.

No citizen of Chase County can complain of having his character vilified and traduced by any candidate on the Democratic ticket. Nor have any of our candidates either publicly or privately in any way attempt to injure the reputation or character or destroy the business of any man. Can our opponents say as much? We think not. Democrat, remember that now is the golden opportunity.

You have labored in the past with one wing of the republicans to put good men into office, and now they will help you put such men into office. Can men who have been called every epithet known to the vocabulary support their vilifiers the same as they would had they always been treated gentlemanly?

No never. They will vote the Democratic ticket first. Will you not vote it then? Will you forsake your own party in the hour of victory and be found in the ranks of the enemy? We believe not. We cannot believe that just as the Democratic party is coming into control of the United States Congress, and is sure to elect the next President, that you will forsake your own craft willingly.

Question your-elves. Are you opposed to a protective tariff? So is the Democratic party.

Are you opposed to the National Bank system? So is the Democratic party.

Are you opposed to contraction, which makes money dear and labor and its productions cheap? So is the Democratic party.

Are you in favor of the repeal of that iniquitous resumption law? So is the Democratic party.

Are you in favor of the unlimited coinage of silver money? So is the Democratic party.

Are you in favor of the greenback money? So is the Democratic party.

Then, what is it you want, if anything, that the Democratic party does not offer you? We believe there is nothing. We write to put you on your guard. You are asked to join the Greenback party; do you know what for? Just think of it. Can they hope to elect their ticket? You can not believe it.

Then, why are you asked to vote their ticket? Think again. Who is it that guides the movements of the Greenback party? Is it not a man who has guided and ruled the Republican party for years? We think it is. A Democrat must be on their ticket, for Representative, and they chose one among the best, the noblest and most honorable to be found in the county, one who has served the county with great honor, in the Legislature of our State. His name must be on their ticket, although he has positively declined to run on it. Why then do they insist that his name must remain on their ticket? We will tell you. It is to defeat Dr. Pugh; nothing more. Then, do not be deceived, but vote for the Doctor.

William Jeffrey is not willingly a candidate. His name is on the ticket despite his protestations. Mr. Jeffrey is too good and noble a man to imperil the cause he loves so much by running against a brother Democrat who believes as he does, except on very minor points, non-essentials. The whole trick is to get Democrats to vote the Greenback ticket, and the Republicans to vote for the regular Republican nominee.

Recollect, Democrats, that you have no votes to throw away, if you expect to elect your ticket. Peace, plenty and prosperity can only come to this county after the vicious legislation of the last fifteen years has been wiped out.

The Democratic party is the only Party that will cure the evil. It will take years to right up the old ship of state. Money will have to be driven from its present position into the active industries of the country. Money must be made plenty so that it will be forced to find employment, in commerce, manufacturing, mining, farming, in fact, in all the various ways of human industry. Extravagance in the various governments must be cut down. Millions of your money

are squandered every year in on way or another. Even in your own county of Chase more money is spent than ought to be. Road damages are getting to be extravagant, our pauper bills ought to be reduced, county printing should be let to the lowest bidder as the law demands it should be, expenditures on bridges should be brought to the lowest limit possible, the people should not be taxed to raise money to lay idle in the treasury, but enough. Our wrongs are too numerous to mention. This fall the Democratic ticket is sure to be elected if democrat do their duty.

By order of the Democratic Central Committee.

A. R. ICE, Chairman.

W. E. TIMMONS, Secretary.

PROSPECTUS OF THE 9TH VOLUME, 1878-79.

THE ALDINE,

THE ART JOURNAL OF AMERICA

SOLD ONLY TO SUBSCRIBERS.

Complete in 24 Parts, 50 Cents each.

ISSUED MONTHLY.

It is the purpose of the publishers to persevere in their efforts to keep the Aldine, as an exponent of Art work, free from the errors and imperfections which thought or expense to still further beautify and improve the broad pages of the work.

While urging the necessity of cultivating a taste for the beautiful in Nature and Art, the Aldine has no been a mind of the force of example and illustration, therefore it has been a constant study to show, in the objects and works of art, the improvement so certainly consequent upon sincere devotion to such subjects. As in the past, so in the future, the Aldine will continue to be a source of instruction, advice and fitting inducements of connection and association with the "artful and true."

The volume now in preparation, which will cost only a few cents more than the general course of its predecessors, will present many indications and improvements, the result of study and experience, in fitting the Aldine to virtually maintain its position as "The Art Journal of America."

In the more mechanical department of the arrangement or make up, changes, in themselves slight, will largely enhance the general beauty of the pages, which have already won admiration so by a try and universal.

Editorially, the Aldine will deal boldly and fairly with Art in general and American Art in particular, and will keep the reader well informed on all Art topics of the important Art centers of this country and Europe. The important exhibitions will be given full and timely notice; and artists whose achievements have won for them the right, shall be recognized and given a proper personality by sketches, biographical articles, etc. It will be the purpose of the Editor to earn for the Art and Literary Departments of the Aldine a recognition in every way worthy of the high and admitted pre-eminence in Art illustration.

The Art Department of this volume will be richer in representations of American natural scenery than any of its predecessors. To aid a popular decision on the claims of rival localities to the title "The Switzerland of America," our artists are exploring the wonders of those regions of our country which have more recently been brought to notice. The Yosemite and the Yellowstone, the Sierras and the Rockies shall be brought home to the patrons of the Aldine—but not to the exclusion or neglect of our glorious old Allegheny and their more familiar surroundings.

Experience, and capital largely increased by the liberal patronage of an appreciative public, has made possible the introduction of greater space in the present volume, so as to better cover all desirable ground, ensuring an harmonious and judicious combination and proportion so to speak, of the various styles of Art. Examples by figure, animals and landscape painters of every school—ancient and modern—American or foreign, will appear with all the old and new varieties, but with a added advantage of more deliberate arrangement and defined purpose, to instruct and inform as well as to delight.

The publishers have entire confidence that the public will continue the evidence of their appreciation of these efforts to maintain an Art publication that shall be characteristic and worthy of the preferences and liberal tastes of Americans, and they anticipate with pleasure the opportunity for a practical verdict on their past achievements when the commencement of a new volume affords.

PLAN OF PUBLICATION.

The Aldine volumes will, in future, be completed in 24 parts, at 50 cents each, published monthly and sold only to subscribers for the complete volume. Subscribers will pay on delivery for the part actually received, and no charge on delivery is authorized. If, for any reason, in any way or to make any representation on the faith of the publishers outside of the regular prospectus, the Aldine will not be sold by book or news-vender generally.

Any person desiring to act as the agent for any particular locality, should apply promptly, giving full particulars as to business, references, and territory, desired. Liberal arrangements will be made with the best part of.

CHASE COUNTY.

To Those Wanting Information.

Letters reach us, from parties in the East, almost daily asking for information about Chase county. The questions are numerous and it would require too much labor and money to answer them all. So we have decided to give the advertising offered to farmers, stock raisers and business men as briefly as possible.

In the first place, money is a necessary article in Kansas, as well as elsewhere, and you will need some to commence with. Pluck and energy are, also, necessary articles.

As good land as man ever tilled, can be had here for almost nothing. Healthier country can not be found. Winter wheat is an almost sure crop; corn yields largely; other crops as well as anywhere else. To give an idea of the way wheat and corn yields in Chase county, we give the following showing for 1878: Wheat, average, 4,152 bushels; 132,102 bushels; value of product, \$128,641.28; Corn, average, 37,670 bushels; 1,136,940 bushels; value of product, \$927,384.

Each pot-ree yield 80 bushels to the acre; wheat potatoes 163 bushels; broom corn 850 bushels; rye, 22 bushels; barley, 22 bushels; oats, 35 bushels; tobacco, 650 pounds. Thus, it will be seen, that farming in Chase county for the purpose of raising crops is a profitable business. Farm laborers are paid, per month, with board, from \$12 to \$25.

Yield lands sell at from \$1.50 to \$9 per acre.

Persons that have any knowledge of stock raising will see, by the far a corn product, that this is the place for them to make money. Cattle do well, horses and hogs could not do better. Hogs are hardly ever troubled with the diseases so common in the East. Cattle winter well; in summer our unlimited range furnishes ample feed.

It is conceded that Chase county is the best location for sheep-growers in Kansas; and we honestly believe it to be a fact. Men of competency and practical experience in sheep-raising give it as their opinion, that wool of the Merino and other fine varieties can be profitably raised here, at a cost of ten cents per pound. It is believed that the fiber would pay the best, as a great deal of expense is saved by being able to run them in large flocks. There is generally a fair competition for the purchase of wool. Our grasses are good and nutritious, and herbs and shrubs plentiful. Our upland is rolling. The business of sheep-growing is so important to the important one in this county, and the time will soon come when our hills and vales will be dotted over with sheep, as well as cattle. Dairy farming is a branch of industry that will pay in this county. It costs very little to feed milk cows. Butter and cheese have a ready sale.

Chase county has thirty-six good school houses, in which school is held, at least, eight months in the year, thus affording better educational facilities than can be found in the other States. We have Congregational, Catholic, Methodist, United Presbyterian, Quaker, and other religious denominations worshipping in this county.

Lodges of Masons, Odd Fellows and other benevolent societies are in flourishing condition in this county.

Chase county building stone has justly gained the reputation of being the best in the West; and can be found upon almost every quarter-section in the county.

To parties having money to invest in manufacturing establishments, we offer that Chase county has from seventy-five to one hundred miles of the best water-power in Kansas, with material to build dams and mills in every section. The streams are clear and swift-running, with rocky beds. Money invested in utilizing our water-power will yield tenfold.

Chase county has a room for a woolen mill which, we think, would pay. Also, a paper mill, and three or four cheese factories. Beside, unlimited room for all other in this county.

COTTONWOOD FALLS: FRIDAY, NOVEMBER 1, 1878.

S. J. CRAWFORD. HEADQUARTERS DEMOCRATIC CONGRESSIONAL COMMITTEE, EMPORIA, KAS., Oct. 23, 1878.

To the County Democratic Committees of the Third Congressional District:

It is requested that in printing the ballots to be used at the approaching election the name of S. J. Crawford be placed on each ballot, in the following manner:

For Congressmen at Large, Forty-sixth Congress, S. J. Crawford.

Democratic and other papers favorable to the election of Mr. Crawford will please copy.

J. M. DAVIS, Chairman Cong'l Com.

Intelligence has been received from the Turkish frontier provinces that the Albanian League, mustering 100,000 combatants, have resolved to resist to the death the cession of the territory demanded by Greece.

The vacancy in the Greenback Labor ticket of Kansas, in the office of Attorney-General, caused by the nomination of Frank Doster as candidate for Congress in this district, has been filled by the State Central Committee by the nomination of Hon. J. T. Cox, of Hutchinson, Reno county, the Democratic nominee for the same position.

The hard-money Republicans of this State, who have heretofore been kept in the back ground, are now called to the stump, and they are throwing what they call "solid arguments" at the people. The Atchison Champion, Topeka Commonwealth and Lawrence Journal have thrown off all disguise and are rampant bullionists and monopolists.

At a meeting of representative Democrats held at Overland, held at Burlington, Oct. 23, on the call of Chairman Campbell, it was concluded unanimously that the first Tuesday in November is the only legal election day for Congressmen in that State, and that the omission in the Governor's proclamation does not deprive the people of jurisdiction.

According to the recent assignments of its calendar, the United States Supreme Court will, this month, hear the argument involving the constitutionality of all the laws heretofore made bearing on the question of polygamy in Utah. The decision will involve the legality of all laws, National, State or Territorial, to crush out the Mormon mode of life.

A dispatch from London, October 25, says: "Rusk Meis says that Anglo-Turk intrigues are on foot to stir up the Rhodope insurrection to Shumla. The only result is a movement will have will be to cause Russia to force her rights as conqueror, and revert to the treaty of San Stefano; all the Powers are so much occupied elsewhere to offer any resistance."

The official gates from ninety-four counties, on the vote for Secretary of State at the Iowa election are as follows: J. A. T. Hull, Republican, 150,103; E. M. Farnsworth, Fusionist, 12,013; scattering, 1,193. Hull's majority, 6,989. The remaining four counties will increase the total to 8,362. The majority of the other State officers will be as follows: Two years ago the Republican majority in Iowa was 59,205.

The chasm is bridged. The New Orleans Picayune says: "The relief which comes daily to this section, from all parts of the country, reaches farther than is commonly supposed; and farther, perhaps, than it is intended. It relieves the Southern heart of its bitterness and memory of wrongs. In the name of that philanthropy which has swept away geographical and party lines, we declare that the war is over now, at last, and forever."

We are pleased to notice that the Chase County Courant has discarded its auxiliary inside, has enlarged and improved, and shows other signs of prosperity. The Courant now comes out square-topped and advocates simon-pure Democracy, which, no doubt, no counts for its financial success. - Sumner County Democrat.

Thank you, gentlemen, for the

compliment; but as our interior never has had "patent" decoration, we did not discard anything in changing the form of the COURANT.

The Republican party of Labette county is becoming thoroughly aroused. They will turn out quite as largely as in the Presidential election. There is but one and a universal declaration that the State platform of the Republican party of Kansas is good enough Greenback doctrine for them. - Parsons Sun.

Yes; but what is the use of your Greenback platform, if your candidates and leaders will not stand on it? Messrs. Haskell, Anderson, Ryan, St. John and Gov. Anthony shuffle about upon your platform as if they were treading on coals of fire, while the Atchison Champion, Topeka Commonwealth, Lawrence Journal, and other papers actually stamp your platform to pieces.

Voters of the Third District, do not forget that Tom Ryan, the Republican candidate for Congress, is bound hand and foot to the railroad ring. Judge Peters was defeated in the Convention, because he was not the man the railroads wanted. Mr. Ryan is opposed to any reduction of the exorbitant tariff which is impoverishing you, and will do all in his power to keep you down. Will you cast your ballot for such a man? We trust not. Vote for Mr. J. B. Fugate, the Democratic nominee, the friend of the people, who is a Greenback man running on a Greenback platform. Read the platform adopted by the Republicans at Wichita, and note what a travesty it is on their well-known practice as a party. Republicans of the Third Congressional District of Kansas, do not longer be deceived.

In the present Congress the Republicans have the entire delegation of Maine; they have now lost two members, the Democrats gaining one and the Nationals one. They failed to elect one of their candidates in Vermont, and are likely to have a broken delegation in that State. The present Democratic member from Colorado was not elected by the people; he was seated by the House in consequence of an irregularity in the election of Bedford, the Republican candidate. Bedford has been fairly re-elected, but the Democratic loss in Colorado has been offset by the gain of one member in Oregon, and he throws the vote of the State. The Republicans have already lost eleven members of Congress, while the Democrats have virtually gained nine if not ten, and the votes of two States. These results are sufficient to indicate the drift of public sentiment, and to stimulate the Democrats everywhere to earnest, united, enthusiastic exertion.

A GLOWING TRIBUTE TO NORTHERN GENEROSITY.

Hon. John F. House was unanimously re-nominated as a candidate for Congress for the Sixth Congressional District of Tennessee, Oct. 21, by the Democracy. In his speech acknowledging the compliment, he said: "In the next contest between the two great parties they will divide upon governmental policy and without sectional animosity. Sectional hatred will be eliminated from the contest, so far as the South is concerned. I am certain that such will be the case. I can not, fellow citizens, find it in my heart to indulge in feelings of malice toward the people of the North, when I witness their magnanimous and gracious course toward the Southern people. I feel like taking off my hat and standing uncovered in their presence. O, grander than the victory of the Appomattox is the victory won by the people of the North, in their noble and generous contributions to the stricken and suffering South. Upon that fatal field the South surrendered her sword. Within the shadow of the dark wing of the pestilence beside the new-made graves of her heroic sons and daughters, with bowed head and tearful eyes, she extends her hand and surrenders her heart to the generous and magnanimous North. God's own hand has bridged the bloody chasm. Let not the ambition of man seek to re-open the wounds and to rekindle the embers of sectional strife; let us go into this great contest of 1880 without any of these elements of sectional bitterness. Of course we will be divided as to questions of governmental policy, but with that element eliminated from the contest the representatives of the South can stand upon the floor of Congress as the peer of any from the Northern States, and can look to the material development of his own section, to the enlargement of its commercial relations and make the Southern people more prosperous. With fraternal and harmonious restored this great country can

march on to a more glorious and illustrious future than has been seen in the past."

READ THE LESSON.

We agree with the St. Louis Times that the "recent election in Ohio ought to teach the sincere and intelligent Greenbackers a lesson. What that lesson is, may be deducted from the official returns of the votes of the State, for the four years last past, which are as follows:

Table with 4 columns: Year, Dem, Rep, Green, Pro. 1878: Dem 270,936, Rep 274,129, Green 38,222, Pro 5,074. 1877: Dem 277,625, Rep 249,105, Green 39,401, Pro 4,830. 1876: Dem 225,185, Rep 230,888, Green 38,077, Pro 1,838. 1875: Dem 252,473, Rep 207,817, Green 38,077, Pro 1,838.

"It will be seen that the aggregate vote cast in 1878 is 589,092, of which the Greenbackers cast a small fraction over 6 per cent. The Republican plurality over the Democrats is just 3,154. Had the Greenbackers united their vote with that of the Democracy, the Republicans would have been left in a minority of 35,178. It is true, the defeat of the Democrats on the State ticket has no consideration in a National point of view, except the moral effect it may have, if any, in the States which hold their elections November 5. The leading, paramount question was that of finance. In this, the Greenback party gained not an iota."

Nor will they be able to accomplish anything as a distinctive organization. Here in Kansas they have a full State, and a full Congressional ticket. Do they expect to elect any man on their ticket? Not at all. And yet, they go on in their work, when, by uniting their forces with the Democracy, a great deal might be accomplished. Every intelligent Greenbacker ought to read the lesson taught by the Ohio election.

A TOUCHING LETTER.

The Memphis Appeal says: "The 'Christian women' of Louisville, appreciating the self-sacrifice and generosity of Annie Cook, the Syrian, who consecrated her life and property to the sick of this city, gladdened her heart by a recognition of her Christian heroism that must have gone far to reconcile her to the death she met so bravely. They sent her this note, addressed to 'Madame Anna Cook, Mansion House, Memphis, Tenn.'"

LOUISVILLE, August 28, 1878.—DEAR MADAME: This morning's paper announces that you have opened your house to the sick of Memphis, and that you are ministering to their wants personally. An act so generous, so benevolent, so utterly selfless, should not be passed over without notice. History may not record this good deed, for the good deeds of women seldom live after them, but every heart in the whole country responds with affectionate gratitude to the noble example you have set for Christian men and women. God speed you, dear madame, and, when the end comes, may the light of a better world guide you to a home beyond. From the CHRISTIAN WOMEN OF LOUISVILLE, KENTUCKY.

USEFUL RECEIP 8.

A Cure for Nervousness.—Take one teaspoon of white sugar, add sufficient water to make a thick syrup; to the syrup add one ounce of olive root; cover, and let it stand a week. Take before eating, one tea-spoonful three times a day.

A Good Wash for Fruit Trees.

Four quarts of hot flour paste, backed with white wash, with sulphur to the consistency of paint; add three spoonfuls of pine tar, with the same amount of fish oil. Mix well and apply with a paint brush while warm. This paste will remain on the trees all winter, and when the spring growth begins will flake off, leaving the tree in a healthy condition.

Soap a Cure for Hog Cholera.

To those who have hogs affected with cholera or other diseases, a correspondent of the Kansas Farmer recommends soap, saying that he effected a cure on three by feeding a handful of soft soap in a painful swill to each hog, repeating smaller doses as needed, in one or two week's time. Hogs like soft soap, and feeding it in their swill will keep them healthy.

To Make Good Rye Bread.

Any person who can make good yeast bread of wheat flour may do the same with rye, by noting the following difference in minutiae: Set the sponge at night, using warm new milk and yeast. When the bread is ready to make up, add two table-spoonfuls of sorghum molasses, and a little salt; proceed as with other light bread. Very nice ginger-snaps can be made with rye flour, also quite passable pies, by using the same proportion of in-

gredients as with wheat flour. Rye mush, made after the same manner as Indian meal mush, with cream and sugar for sauce, is a palatable and convenient dish for supper.

MISCELLANEOUS.

The White

THE EASIEST SELLING; THE BEST SATISFYING

Sewing Machine.

Its introduction and world-renowned reputation was the death-blow to high-priced machines.

THERE ARE NO SECOND HAND WHITE MACHINES IN THE MARKET.

This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first-class machines which are offered so cheap now-a-days, are those that have been repossessed (that is, taken back from customers after use) and rebuilt and put upon the market as new.

THE WHITE IS THE PEEN OF ANY SEWING MACHINE NOW UPON THE MARKET.

IT IS MUCH LARGER THAN THE FAMILY MACHINES OF THE LINGER, HOWE AND WHEED MAKE. COSTS MORE TO MANUFACTURE THAN EITHER OF THE FORESAID MACHINES. ITS CONSTRUCTION IS SIMPLE, POSITIVE AND DURABLE.

ITS WORKMANSHIP IS UNSURPASSED.

Do not Buy any other before trying THE WHITE.

THIS new and wonderful Instrument enables any one, whether understanding music or not, to play any desired melody or harmony, sacred or secular, from the most plaintive dirge to the most lively dance music. It possesses a mechanism of marvelous simplicity, requiring but the intelligence of a child to manipulate, yet capable of reproducing, without limitation, the musical compositions of the EAST, PRESENT and FUTURE. The execution is faultless, strict in melody, harmony and rhythm, and the instrument is eminently adapted for Sunday Schools, prayer and revival meetings, home devotional exercises, and in all cases where good, correct music is required, and no musician is at hand to perform. CAUSE AND EFFECT.

The aggregate amount of the National debt reduced since March 4, 1864, is over \$672,000,000—about one third of the present debt and secures an annual reduction of interest of more than \$18,000,000.—Philadelphia Press.

Seven-eighths of the real estate of Philadelphia, said to be the most thrifty town on the continent, is under mortgage. There are over 120,000 mortgaged estates in that city. The immense depreciation of property since 1873 has wiped out from twenty to twenty five per cent. of the value, while it has left the debts just where they were.—Chicago News.

These two short paragraphs present the whole financial situation at one view. Cause, contraction; effect, mortgages and bankruptcy.

The Philadelphia Press, however, while it tells the truth, does not tell the whole truth. The bonded debt of the Government is greater now by several hundred millions than it was at the close of the war. A large portion of the debt which, at that time, circulated as money among the people, and helped to make the "good times" that we all look back to with pleasure, has been called in, and interest bearing bonds issued in the place of it; and another large portion has been destroyed, and by this latter process the great "reduction" that the Press refers to was effected. This is why the people complain, and this is why their burdens have grown too grievous to be borne. If the Government had acted honestly with the people—if it had left their money undisturbed and had applied its surplus revenue to the payment of the real debt, there would have been, to-day, no "Working Men's Party," no "Greenback Party," no wail of distress going up from every part of the country, and no army of tramps wandering aimlessly to and fro, begging for bread, because an honest payment of the debt would have worked no hardship—would not have paralyzed our industries, bankrupted our merchants, put out the fires of our furnaces, and thrown millions of our poor laboring men out of employment and on to the charity of their scarcely less unfortunate neighbors. It was not by an actual payment of the debt that this mischief was wrought, but by a pretended payment, which was not a payment. It was not the policy of honestly paying our debts that the people complain of, but the policy, which, while pretending to pay, expands our debts and contracts our resources—a policy which has almost doubled our bonded indebtedness, and has reduced our ability to pay, to the extent of more than one half—actually increasing our burdens fourfold.

And this is why seven eighths of the real estate of Philadelphia is mortgaged.—Lawrence Journal.

CONGRESSMAN AT LARGE. In consequence of the rapid increase in the population of this State it is believed that we are entitled to more representation in Congress than we now have under the present apportionment. In accordance with this idea, Gov. Samuel J. Crawford a few days since announced himself an independent candidate for Congress at large, believing that if elected he would be admitted to a seat in Congress, thus increasing our number of Representatives in that branch. Governor Crawford has really been the only Representative Kansas has had in Congress for the past two years, being employed by the State to look after her interest at Washington, and he has a ready secured to the State \$300,000 acres of coal lands, and has nearly secured \$500,000 more for the State to reimburse her for money expended in arming and equipping troops during the war. While this was properly the work of our Representatives, they failed to do anything, and Governor Crawford was appointed by the Governor of this State to look after and secure, if possible, the rights of our State, which he has done. We think he ought to be elected a seat to Washington as the representative of the people of the State, and believe in that capacity he could secure important legislation affecting the interests of the State. As a private citizen, acting only as the agent of the State, he has been able to do more than all our Senators and Congressmen. Then why in the name of common sense can't we send him to represent us, and let them stay at home? He is worth more to the State than all of them put together.—Palo Alto Spirit.

OH! WHAT A SOLDIER. C. L. St. John was born in Brookfield, Indiana, in 1833. He served

throughout the war in the 143d Illinois Volunteers, was promoted to the colonelcy of that regiment, and commanded it until it was mustered out of service. After the war he located in Missouri, where he continued to reside until 1868 when he removed to Olathe, Johnson county, Kansas. He was elected to the State Senate in 1872 from that county.—Lawrence Journal.

Who would have believed that this distinguished patriot never enlisted to fight for his country until 143 thousand soldiers had gone out of his State before him. No one ever heard of a fighting soldier waving the "bloody shirt" over a fallen foe. This accounts for his bitter speeches.—Fort Scott Herald.

How could this valiant Colonel serve throughout the war in the 143d Illinois volunteers, when that regiment was mustered into the service at the close of the war, and after all the hard fighting was done? "Throughout the war" is an expression which the Journal must "skin back." And now, come to think of it, was not the 143d Regiment of Illinois Volunteers a "hundred day" regiment? If such should be the case, Col. (?) St. John is not a soldier at all, but only a hundred day man. By a reference to the report of Adjutant-General Fuller, it will be seen that the 143d were only "hundred day men." Oh, what a fall was there my countrymen. Throughout the war? Hey.—Independence Kansan.

A FAMILY OF LEPROUS. Many people will be somewhat surprised when they are told that there is living in Adair county a whole family afflicted with leprosy. The name of this family is Slavery. The disease takes the hair off the head entirely, not leaving even the appearance that there ever was a covering to the scalp. The skin of the head looks as sick as a pecked onion. The skin of the entire body has a bright deep pink, or rather scarlet, color, and peels off in dry flakes about the size and shape of moderately large fish scales. The finger nails and toe nails become six or eight times as thick as by nature they should be, and the patient becomes a hideous sight to behold for years before death relieves him of a life that has long since become a burden. Year of humiliation and suffering are endured by the afflicted people, detested and scorned almost by their fellow men, while they patiently, or probably impatiently, wait the inevitable death that is their only relief.—Lebanon (Ky.) Standard.

"THE INVESTIGATION." Though the investigation of election frauds is still going on in Washington, the people of the great and prosperous west are not agitated very much over the title of Hayes to the Presidency—that they want to know is where to go during the summer for recreation and pleasure—and as usual the Old Reliable Hannibal and St. Joseph Railroad comes to the front and offers cheaper rates, close connections, and the high class train Missouri River to the principal places of interest in the North, South and East. Through Day Coaches and Pullman Sleeping Cars are run from Missouri River points to Chicago, via Quincy, (and the Chicago, Burlington, and Quincy Railroad) making close connections with all lines to the North and East, also with the different steamboat lines on the Great Lakes. This is the only line offering a through Day Coach and Pullman Sleeping Car, from Missouri River to Toledo, Ohio (via the Wash) without change, making close connections with Rail lines to all points East, air or connections made with Boat for

DEMOCRATIC SPEAKING. Last Tuesday night the people of this county assembled in the court-house in this city to listen to some of the standard bearers of the Democracy, on the State ticket, discuss the political issues of the day. The distinguished speakers were met at the by Committee on Canvass, and the Brass Band which discoursed sweet music as the train drew up to the depot, and which interspersed the speaking with several tunes. A bonfire burned brightly in front of the court house, and long before the hour appointed for the speaking to begin the quite and audience had gathered in the court room, in fact, it was the largest political gathering that has ever greeted any political orators who have ever spoken to the people in this city.

Mr. W. S. Romigh acted as Chairman of the meeting, and the first speaker introduced was the Hon. George Ummethun, candidate for Lieut. Governor, who is the present honored Mayor of Leavenworth. Mr. Ummethun stated that the reasons he was on the Democratic ticket was because the delegates to the State Convention had heard what he had done for the relief of the tax ridden people of Leavenworth, and because he is one of that liberal element of our body politic, the Germans, and it was thought he would add strength to the ticket; that he is a greenback man. He spoke but a few minutes.

The Hon. John R. Goodir, candidate for Governor, was next introduced. He spoke for about two hours, holding the audience spell-bound, as it were, by the force of his arguments and the flow of his eloquence. He delivered one of the most stirring greenback speeches to which it has ever been our pleasure to listen. He had not an ill word or a y of his opponent nor did he flaunt any "emasculated nether garment." He was loudly applauded several times during the

course of his remarks. His speech was highly complimented by many Republicans present, for its manly and dignified tone; and just such speeches are making thousands of converts from the Republican ranks.

The Hon. L. W. Borton, candidate for Secretary of State, was next introduced. Mr. Borton is quite a humorous speaker, and he kept the audience in an uproar of laughter for about a half hour, making home thrust after home thrust as he went along.

At the close of Mr. Borton's speech the audience and speakers repaired to Caldwell's Hall to trip the light fantastic toe. On the whole, the occasion was a most enjoyable one for all present, and especially the Democrats.

A CANDIDATE. Henry Judd, Secretary of the Greenback Central Committee:

In reply to yours of Saturday, I have to say that I had hoped and determined not to be a candidate for any position in Chase county, this fall; but having been tendered the Greenback nomination, and having received letters from various parts of the county, urging me to be a candidate, I have to say, in reply to your note, that if elected County Attorney, I will serve the people of Chase county to the best of my ability as County Attorney.

If elected, I shall not use the office to reward friends or to punish enemies. It will be my aim to see that the laws are faithfully executed, and this at as little expense to Chase county as possible. It should be our aim to economize as much as possible, and reduce the taxes and burdens of the people.

I can not, however, enter into any personal contest for this office, but shall leave it entirely with the people of the county. If they want me to serve them and so indicate it by their votes, I shall do so. I am sorry to say to you the calls upon my time are so great that I can take but little part in the contest in Chase county. I am glad to learn that our whole ticket remains as nominated, and that there are no resignations or changes. Your obedient servant, S. N. WOOD.
