Why the Sudden

Change to Liquid

Laxatives?

Doctors have always recognized the value of the laxative whose dose can

be measured, and whose action can be controlled.

The public, too, is fast returning

to the use of liquid laxatives. People have learned that a properly pre-pared liquid laxative brings a perfect movement without any discomfort

The dose of a liquid laxative can be varied to suit the needs of the

individual. The action can thus be regulated. It forms no habit; you

#### Here's How to Better Your Dairy Herd

This mother cow (left) produced 5,475 pounds of milk in one lactation period while her daughter (right) sired by a good registered bull produced 8,030 pounds of milk in one lactation period. J. N. Raney, dairyman of Madisonville, Texas, points to the records of these cows for B. F. Vance, county agent, who helped perfect the plans for building a registered herd on this farm. Demonstration records show that while ensilage from a trench silo was fed to his herd daily production and 900 regunds, but decored to 325 rounds, when herd daily production ran 400 pounds, but dropped to 325 pounds when

#### DIABETES

The recent death of Prof. Minkowski in Wiesbaden, Germany, impresses us with two facts: one how little the public knows of the great men in medicine, and secondly, how very many of our present-day achievements in medicine are the fruits of work stretching over many years.

Insulin as a treatment in diabetes is widely known, and only slightly less well known are the names of Doctors Banting and Best, the developers of insulin.

However, behind their work stands the equally monumental work of a number of other men, among them Prof. Minkowski, who in 1884 discovered the presence of diabetic patients.

correct conclusions that the deep demonstrated the existence of state of unconsciousness seen in glands of internal secretion. a certain number of serious cases | More than that, his experiments of diabetes is due to an acid suggested the complex function of intoxication of the blood.

## Runnels County Bankers' Association

Runnels County, Texas

TO OUR CUSTOMERS:

In keeping with the letter and the spirit of the National Recovery Administration, the banks of Runnels county, will on December 1st, 1933, begin operations under the Bankers' Code of Fair Competition as approved by the National Recovery Administration for banks in the United States.

In perfecting this code the officers of the banks of Runnels county have worked hard and earnestly, looking toward the ideal state of equity and fairness to customers and to each other. In so doing, it has been possible in some instances to either lighten or discard altogether certain service and exchange charges as set out in the nationwide code, but not, in local opinion, fair and applicable to Runnels county conditions. In other instances the charges provided by the adopted code are essentially those already in force locally, while other charges are those which have been generally used by banks in neighboring counties, but never before by Runnels county institutions.

We believe that our customers will sense, if they have not already done so, the continually narrowing field of bank operations and will fully appreciate the effort being made by our government to stabilize banking practices along legitimate lines, with legitimate and reasonable fees for the rendering of legitimate services. Our government believes that this effort will result in lasting benefit to bank customers and the general public.

In this connection we wish to call attention to the fact that adherence to this code is not optional with the member banks, but is mandatory, for which reason we seek the cooperation of our friends to the end that we may have the minimum number of requests for favors which we can not grant.

You may be sure that any bank officer will consider it a privilege to explain any part of the code to anyone seeking information as to its application.

#### NEW FOOD OBTAINED FROM WHALE EXTRACT

BERGEN, Norway, Nov. 29. What may prove to be as valuable to Norway as whale oil itsself, is a new kind of meat extract made from whales. Experiments described as highly successful have been carried on in the Antartic aboard Norwegian whalers. The greater part of the world supply of whale oil is delivered in Norway.

Although the value of whale neat as food has long been recogized, only the oil of the whale as been utilized.

#### HEREDITY-ENVIROMENT TEST FOR YOUNG STORKS

BERLIN, Nov. 29 .- To determine whether storks follow heredity in their migratory flights, the famous bird observatory of Rossiteer, East Prussia, is preparing to test stork psychology.

Storks living east of the River Elbe fly south when they migrate by way of the Balkans and Asia Minor, while those living west of the Elbe fly over Spain. The Rossiteer observatory has sent 180 young storks born in East Prassia to the bird observatory in Essen They will be cared for four weeks and then released on their migration south. By marking the birds it will be possible to learn whether they follow the law of heredity by taking the eastern route or that 9 a. m., Hagan; 10:30 a. m., of erviroment by taking the west-

## Give "Useful Electrical Helpers" for Christmas This Year

There are many efficient electrical helpers that will make each day brighter and happier, for years to come. . . And isn't that what you want to give for

Electric appliances are economical to buy and surprisingly inexpensive to operate. Here are a few suggestions ... sure to add to the Christmas joy of your loved ones:

The modern home-manager is tired of unnecessary and useless gew-gaws for Christmas ... even though the donor is most sincere in an effort to please. What she wants . . . and needs . . . are the time, labor and money-saving electric appliances which so appropriately combine thoughtfulness, common sense and sentiment.

Electric Waffle Irons Electric Heating Pads Electric Percolators Electric Egg Boilers Beautiful Urn Sets Attractive Lamps Electric Toasters Vacuum Sweepers Electric Clocks Electric Irons Electric Curling Irons

Electric Grills You can purchase these essential appliances on convenient terms, and pay for them with your regular monthly light bill. Give electric appliances this Christmas and know that your gifts are truly and sincerely appreciated.

Do you know that your increased use of Electric Poservice is billed on a surprisingly low rate schedule . and adds only a small amount to your total bill?

#### CLEANING PRICES SET FOR THIS DISTRICT

The price for cleaning and pressing men's suits and ladies plain dresses has been set at 85 in twelve West Texas countles, including Runnels. Walter Cork, chairman of the district, who resides at San Angelo received this information Tuesday from the president of the Texas Cleaners' and Dyers' Association. Texas is divided into districts or

ones and prices fixed for each. Ballinger cleaners at once adopted the prices and will adhere to them in the future. Provisions of the code adopted make no allowance for cash-and-carry work, and the minimum price will

prevail for all. According to the code the penalty for violation of any provision is a fine of \$500 and jail sentence of six months, with each day constituting a separate offense.
