

Successful Rodeo Closes; Winners are Announced

The first Runnels County Rodeo was a huge success. For three days the crowds were large, taxing the seating capacity at Fair Park, and on Friday and Saturday evenings many stood about the arena in order to view the thrilling events. Professional performers came here from many sections of the state and these with a large number of local entrants made up a show of more than two hours that was as good as has been presented in this section.

Among those entering events the first day and staying through the show were Howard Westfall, of Ft. Stockton, and George Utley, of Big Spring, who toured England this summer with Tex Austin's professional rodeo. Both won a number of events here.

The set-up, including the arena, pens and lights, made the show easy to watch and a sprinkler system was used to keep the dust from becoming uncomfortable to the spectators.

Mrs. Ardeth Copeland, of Blackwell, was declared the best of the feminine riders who took part in the parade Saturday afternoon. Mrs. Copeland, who has won at numerous other rodeos, used a \$300 saddle won this summer for her horsemanship. The prize awarded here was a complete riding habit. Twelve women and girls entered this contest.

Secretary J. D. Motley stated Thursday that a complete check-up had not been made on the receipts and disbursements to determine the financial success of the rodeo. This will be done this week-end and the statement made public.

Following is the list of winners in the various events:

Eleven Teachers Seek Appointment For Adult Classes

Applications were sent off this week in which eleven Runnels county teachers seek positions as instructors of adult classes under the relief program. The county has not yet been given a teachers' quota and it is not known if all can be accepted.

Classes will be formed soon and instruction will continue until the latter part of February along the same lines as last year. County Superintendent R. E. White stated that his office would give every encouragement possible to this work providing a hall for the classes to meet in either night or day, and furnishing text books and other supplies on hand.

The eleven teachers who applied are all well qualified. Ten seek to organize and instruct white adult students while one colored woman with 20 years' experience asks for the job of teaching negro adults in a general education class.

An inquiry received several weeks ago asked how many unemployed teachers there were here who probably would take adult classes. Publicity was given the query and to date the applications have exceeded those of last year.

Further announcements regarding the beginning of instruction will be made when applications have been approved. Each teacher employed will be required to form a class.

Court of Honor For Scouts to be Held Tomorrow

Ballinger Boy Scout officials announced today that a court of honor would be held at the city hall at 7:30 tomorrow (Friday) night for all Scouts seeking advancement. Rev. E. W. McLaurin, chairman of the local court of honor, will have charge of the impressive ceremony.

All officials of the local troops will be present for the ceremony during which at least eight boys will apply for advancement in the ranks. A board of examiners will question the boys on various phases of the work they have completed. To gain promotion the Scout must be able to answer any question pertaining to the work in which he is seeking advancement.

Both troops under the leadership of Dr. E. W. Stasney and E. H. Furgy will be present for the court of honor rites and parents of scouts and all other persons interested in the training are invited to attend.

Mrs. Tom Nelson, who had been visiting her sister, Mrs. C. G. Jennings, left Sunday morning for Fresno, California, where she will join Mr. Nelson. Mr. and Mrs. Nelson will make home on the Pacific coast.

Livestock Sales Here Completed For the Present

Buying of goats in Runnels county by the government was concluded this week, only nannie goats being accepted and only 64 out of each 100 listed being purchased. The price for those accepted was \$1.40 a head.

Government cattle buying ended last week with the 1,000-head quota for the county. There has been no quota this week and it will be around the middle of the month before any other information is received here on cattle sales.

Government sheep buying was also stopped last week with the exception of animals owned by four raisers in the county. Many pelts are still being held by the owners and have not been delivered here.

Checks are coming in each week on livestock that has been sold or condemned and those on these lists are notified to call at the county agent's office at once and sign for same.

County Tax Valuations Show \$273,012 Increase

Taxable valuations in Runnels county increased \$273,012 this year according to a summary of the 1934 rolls presented to the commissioners' court Monday by Tax Assessor Mike C. Boyd. The total taxable renditions for this year were \$10,493,375 as compared with \$10,220,363 for a year ago.

In commenting on the increase Mr. Boyd stated that most values remained about the same and practically all the increase came from the Atlantic pipe line, the Humble pipe line and the Starlight refinery properties. There were scarcely any changes in assessments on land, automobiles, cattle and other livestock, and merchandise stocks.

The total amount of taxes to be collected this year from the new rolls figured on the various rates amounts to \$174,968.21. The state tax is figured at the rate of 77 cents and totals \$61,058.89. The county levy is based on the rate of 37 cents and totals \$59,817.36. The school rate is different in many of the districts, ranging from the lowest in the Millar district, 20 cents to the maximum of \$1 in a majority of the districts. The school tax will bring in \$43,226.35.

Listed in the divisions of property are railroads, telegraph lines and other items of this nature, valued at \$545,380. Banks in the county are assessed at \$171,820. Public utilities show the highest total renditions of any division, \$1,045,815.

A total of 5,566 polls are assessed in Runnels county this year, a slight increase over last year.

Mr. Boyd said Tuesday that he was completing the twentieth tax roll he had made out for Runnels county and that this was his last. He announced two years ago that

he would not seek the office another term and will close out his elective term on January 1. Mr. Boyd hereafter will devote his entire time to his nursery and truck farm in South Ballinger and to the operation of his jelly and preserve plant.

School District
The Ballinger independent school district tax rolls show a small decrease this year. The loss is \$5,386, attributed to lower renditions on land and personal property in the district. Town lot valuations were greater than for 1933. The total of the rolls this year is \$3,229,293 as compared with \$3,234,679 for last year. The 1934 tax rate for the independent school district is the same as for the past several years, \$1 on the \$100 and the loss in values will only reduce the total levy \$53.

City Valuations to Gain
While the final tabulation of the city rolls has not been finished the total will be slightly over \$2,900,000 or a gain of about \$80,000 over last year. Tax Assessor and Collector K. V. Northington stated today that the gain in the list this year was due to new business institutions in Ballinger and increased merchandise stocks. Very few changes were noted in personal property in the city limits.

The city commission last week set the tax rate at \$1.10, the same rate as in force last year.

Mr. and Mrs. Alvin Mengle, of Ontario, California, visited Mr. and Mrs. Jess Schneider this week. Mrs. Mengle is a niece of Mrs. Schneider. The couple are on a tour of the United States.

Mrs. E. J. Lyon, of Taft, Calif., visited this week in the home of Mr. and Mrs. H. C. Lyon.

Cotton farmers, farm women, county agents and home demonstration agents, and county council members of eight West Texas counties assembled in Ballinger Monday morning to hear W. H. Darrow, southwestern region contact representative of the agricultural adjustment administration.

County Agent Elmo V. Cook called the meeting to order and delegations from Runnels, Concho, Coke, Coleman, Nolan, Tom Green, Schleicher and Mitchell counties answered present. The Runnels county delegation included 30 cotton farmers, most of whom have been serving as community chairmen of the home demonstration council members, and the two extension service agents.

Unanimous approval was given the AAA cotton program after Mr. Darrow concluded his address and it was voted also to hold a number of community meetings at which the long-time plan would be considered in detail.

In the discussion led by Mr. Darrow it was brought out that AAA cotton program is not losing our foreign cotton markets; that continued production control will enable the South to maintain ample cotton production at fair prices, and that AAA offers the opportunity to build Southern farming on sound lines.

Foreign countries have steadily increased their share in world cotton production for more than 40 years regardless of big American crops, it was pointed out. To return to big crops in the South will afford no more protection against foreign competition in the future than it has in the past. There is reason to believe that foreign increases will be smaller in the future because of very definite limitations to expansion in the five chief competing nations. Brazil offers the most serious threat, but huge investments will be required to clean land and import farmers if cotton expansion is to go very far in that country. It will take

History Classes Study Centennial; To Write Themes

Ballinger high school history classes under A. F. Ligon are giving special study to the Texas Centennial and will continue on this subject throughout the term. A pupil in each class will be required to write a historical theme which will include a collection of original information about Texas. The articles to be written will commence at the beginning of the republic's history and include progress made by the state and its various departments, towns, vocations and industries, as well as the legislative issues that have had a part in the development of the commonwealth.

The themes will refer to cities that will have any kind of a celebration in 1936 to complement the state centennial and descriptions of programs to be presented. Miss Ruth Smith will write the historical essay for one class and Miss Elva Sykes for the other.

In addition to this work Mr. Ligon is requiring the members of the public speaking classes to make special study of the Texas Centennial and prepare talks on the subject which will be delivered before the classes and public gatherings. These talks will contain original material to be compiled during the year by the pupils.

Special study is also being given this great celebration by the civics classes taught by Supt. H. C. Lyon. The schools are taking the lead in the movement to cause citizens to think, write and talk Texas Centennial to make it the greatest exposition of its kind ever to be held in the South and one that will attract millions of visitors to the Lone Star State.

Citation by Publication THE STATE OF TEXAS

To the Sheriff or any Constable of Rannels County—Greeting.

You are hereby commanded to summon G. S. Smith by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Rannels County, to be held at the Court House thereof, in Ballinger, Texas, on the 2nd Monday in November, A. D. 1934, the same being the 12th day of November, A. D. 1934, then and there to answer a petition filed in said Court on the 10th day of October, A. D. 1934, in a suit, numbered on the docket of said Court No. 4087, wherein Bulah Smith is Plaintiff, and G. S. Smith is Defendant, and a brief statement of plaintiff's cause of action, being as follows:

A suit for divorce on statutory grounds of abandonment, alleging marriage on the 13th day of January, 1929, and separation on the 11th day of January, 1930, and as additional grounds plaintiff alleges that defendant has on various and sundry occasions cursed and abused plaintiff, and has called her all manner of vile and uncouth names. That on several occasions he has left plaintiff for several weeks without informing her where he was or what he was doing. That he has failed and refused to support plaintiff, etc. Plaintiff asks for custody of two minor children, Agatha, 12 years old, and Percy, 8 years old.

Hocoin fall not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Ballinger, Texas, on this 10th day of October, A. D. 1934.

Early Says She Took CARDUI for Cramps; Was Soon Relieved

Women who suffer as she did will be interested in the experience of Mrs. Maxine Crawford, of Belleville, Ill., who writes: "For several years, I suffered from irregular trouble and cramping. There would be days when I would have to stay in bed. I would get so nervous, I was miserable. My aunt told me to try Cardui. She believed it would build me up, regulate me and help the nervous trouble. I knew after taking half a bottle of Cardui that I was better. I kept on taking Cardui and found it was doing me a world of good. I am in good health, which means a lot to me." Thousands of women testify through beneficial letters. If it does not build you, consult a physician. Price 61.

Few Arrests Made By Local Officers During Week-End

Arrests in Ballinger the past week-end, during the Rannels County Rodeo, were very few considering the great crowds that visited here. City authorities reported five cases investigated Monday in which fines were assessed. Three of the cases were for drunkenness and two were for affray, all of the defendants paying off or making bonds for their fines.

The police made two arrests and turned the prisoners over to the county authorities. Burglary charges were filed against each defendant.

There were several cases of petty theft reported during the week-end. Frank Krc lost an automobile casing and tube, and a bicycle was stolen from the yard of Victor Miller, 701 Sixth Street. Several citizens reported prowlers in their neighborhoods but no arrests were made in these cases.

The sheriff's department has several cases for investigation upon which no charges have been filed to date.

Additional patrolmen and deputies were used during the rodeo to assist in directing traffic and for special police duty. Every precaution was taken against crime and the efficient patrols helped to keep practically perfect order.

Gas Tax Income Nets State School Fund \$8,496,212

AUSTIN, Oct. 10.—The state common school fund received the record total of \$8,496,212 as its one-fourth "cut" of Texas' gasoline tax income for the fiscal year which ended August 31, or nearly \$1,000,000 more than in every previous year. Comptroller George H. Sheppard announced today. Schools receive one cent of the four-cent state gas tax.

Proportionate bonds went to the board of county and district road bond indebtedness, which also receives one cent of the tax and the highway fund, which gets the remaining two cents.

Working his first full fiscal year with an adequate field force under the state's strong new "anti-bootleg" law, the comptroller boosted gas tax income \$4,036,845 above last year to an all-time high total of \$33,984,848, his annual report showed.

He attributed almost the entire gain to record enforcement activity and the educational campaign of the Texas Good Roads Association. In his state-wide drive against the tax-stealing "racket," his 30 field men filed 99 felony and 71 misdemeanor charges during the year, he reported.

The \$33,984,848 income is broken up into three parts. In addition to the \$8,496,212 for schools, another \$8,496,212 goes to county tax relief in the refunding of county road bonds. Whereas the fund last year was able to pay all interest on such bonds but only 30 percent of the principal, the increase will permit paying this year of all interest and at least half the principal maturities, if not more, Mr. Sheppard estimated.

The remainder of the gas tax, or \$16,992,242, is still devoted to the original purpose for which the tax was invented—construction and maintenance of state highways.

The population of the United States in 1777 was 3,000,000.

School Teacher Finds Educational Value in Newspaper Feature

Miss Kiechle, history teacher at Gouldbusk, Coleman county, says that she finds the newspaper feature, "Odd Texas," of great value in graphically teaching Texas history to her pupils. She is pictured with a big board on which the "Odd Texas" drawings are pasted each week for inspection by students and future reference. The drawings are clipped from the Coleman Democrat-Voice. This feature is being used regularly in The Ballinger Ledger and history teachers throughout the Ballinger trade area could likewise find the serial of benefit. Smacking of Wives Will Divorce, Thinks Claire Dodd

"One reason that so many modern marriages go on the rocks," said pretty Claire Dodd one day during the making of Warner Bros. production, "Smarty," to be shown at the Palace Theatre tomorrow and Saturday, and in which the very modern marriage of Warren William and Joan Blondell does go to smash, "is because the husband lets the wife get away with murder, or the next thing to it.

"The minute a woman realizes that her husband will stand for anything, one of two things happens. Either she loses her respect for him, or—if she's smart—she begins to suspect that he's stopped loving her and doesn't care enough to be interested in what she does. "That's the case of the wife in 'Smarty.' She wanted to find out how much it would take to make her husband lose his temper. And it took her husband so long to work himself up to the point of hitting her—which was not only what she needed, but what she hoped he would do—that she decided to divorce him.

"As between a doting milkop and a caveman, the sensible woman would rather have a caveman, any time, for a husband. I'm not an advocate of wife-beating by any means, but I'm quite sure that a blow in time would save many a

marriage from going to the divorce courts for settlement.

"Smarty" is the story of a strange marital mix-up, based on the play by F. Hugh Herbert.

There is a talented cast of players including Joan Blondell, Warren William, Edward Everett Horton, Frank McHugh, Virginia Sale, Joan Wheeler, and Leonard Carey, besides Miss Dodd.

Bing Crosby and Miriam Hopkins Teamed in New Feature College Comedy

A brand-new, popular, starring combination comes to the screen in Paramount's "She Loves Me Not," film version of the smash Broadway success. The picture will be shown at the Palace Theatre next Tuesday and Wednesday, with Bing Crosby and Miriam Hopkins in the principal roles.

Acting the role of a love-sick, chivalrous Princeton student, Crosby sings and woos his way to the great romance with the daughter of the university dean, after Miriam Hopkins, as the madcap, flamboyant little night-club dancer, enters his life, and leaves him a sadder but wiser college lad.

Beginning with an utterly fantastic and ludicrous situation, the film's rapid progress pokes derisive fun at colleges, the motion picture industry, the newspapers, communists, gangsters, and most of the familiar American institutions. Yet there is not a trace of rancor or bitterness in its sparkling comedy.

A distinguished cast, including Warren Hymer, Lynne Overman,

Judith Allen, George Barbier and Vince Barrett, support Crosby and Miss Hopkins. "She Loves Me Not" also features several new tunes by Balinger and Robin, and Gordon and Revel, and a number of duets by Crosby and Miss Hopkins.

Doctor: "Has the patient taken the medicine I prescribed? A tablet before meals and a cocktail after?"

Nurse: "Well, he's a few tablets behind but he's a week ahead on the cocktails."

Miss Kiechle Elected To Teach Additional Room at West Ward

The Ballinger school announced Monday the election of Miss Mary Jane Kiechle as teacher of the extra third and fourth grade room at the west ward school, and she began her duties there Tuesday. Many applicants were given consideration for this place and the board waived its rule of requiring an experienced teacher when no one could be found who met this requirement.

Miss Kiechle, daughter of Mr. and Mrs. Fred Kiechle of this city, holds a degree from Hardin-Simmons University, Abilene, and has an outstanding scholastic record. When inquiry was being made in colleges for a teacher for

the position here she was highly recommended by her former instructors, who declared she would make an excellent teacher and possessed every qualification necessary.

The additional room became necessary when the other third and fourth grade rooms were overcrowded and approximately 40 pupils were taken from these rooms and put in the west ward school. The pupils transferred live closer to that building than to the central primary and it will be more convenient for them.

The extra classes were formed two weeks ago with a substitute teacher in charge. Three rooms are now in use in west ward with Miss Faye Clark the principal.

Young Texan Thrills State Fair Throngs

The State Fair of Texas does not have to go out of the state to get one of its greatest attractions, and the picture of Manuel King, 10-year-old Rio Grande Valley boy handling full grown lions proves it. Manuel, the only boy lion trainer in the world, is the son of "Snake" King, famous Valley rancher. He goes in for animals in general and snakes in particular. Manuel stages two big animal shows daily at the State Fair in Dallas this year, and they're free to all those who attend the Fair. (Texas News Photos.)

Mr. and Mrs. J. L. Green visited in the O. C. Cox home Saturday evening.

BENOIT HOME DEMONSTRATION CLUB

The Benoit home demonstration club met with Mrs. O. C. Cox Tuesday, October 9 and elected new officers for the year.

The following officers were elected: Mrs. Arch Brookshier, president; Mrs. A. N. Hoffman, vice-president; Mrs. J. L. Green, secretary; Miss Cleo Hoffman, reporter. The president will appoint committee chairmen at the next meeting.

The club discussed its achievement day program, which will be October 23. Some of the adjoining clubs will be invited and the community will also be invited to visit the club at that time.

The club had with them Mrs. Suda Coffee, who demonstrated a dress made of wool sacks, which was most interesting. Miss Eva Arrott demonstrated the spinning of thread with a spinning wheel and the making of rags, bed spreads and mats from the thread spun. The demonstration was something new to our club and was appreciated by all. As co-workers of the demonstrators, Miss Sybil Ray and Miss Pearl

Bergus were present. They are from the Orient club.

BISHOP LIKES WILD LIFE (OF JUNGLE) AT 68

MONTO, Australia, Oct. 10.—Life in a tent in the wilds of Australia for twelve years has been happy and beneficial for Bishop George Rowglass Halford and at 68 he looks much younger than many men who have not arrived at the three-score age.

In 1921 the London-born churchman started the country by renouncing all his worldly goods, giving up the office of Bishop of Rockhampton, in Queensland, and going to live among the dwellers in "back blocks." "I live on soup and cheese," he told an interviewer at his open-air home near Monto.

In the last few years Bishop Halford has visited mining camps, construction gangs and bush settlements in many parts of Australia and has become very popular.

British experts have announced that their experiments in obtaining oil from coal by the hydrogenation process have reached the point where the production is commercially feasible.

Relief Canning For Winter Food Shows Big Totals

COLLEGE STATION, Oct. 10.—"Harvest Home" in the blackland section of Texas is going to be notable this fall in spite of the great 1934 drouth, according to a preliminary survey of the canning activities of that section made by Miss Jennie Camp, district home demonstration agent. Fifteen counties in the district had 31 community relief canning plants, equipped with 317 pressure cookers and retorts and 177 tin can sealers, being operated by relief agencies with relief labor under the supervision of county home demonstration agents on September 1, Miss Camp stated.

By the middle of September the total output of these 21 counties had reached a total of 870,981 containers. All of the products that went into those cans came from the farms of the district, Miss Camp said. The canning was done on a toll basis, the Texas relief commission furnishing cans, equipment and labor; the owner furnishing the products; the toll going into relief commissaries for the needy; and home pantry shelves received the balance.

For example in Montague county the work is being carried on in five centers using 14 pressure cookers and retorts and 10 tin can sealers. On October 1, there had been canned 117,104 containers of meat, fruits and vegetables in these five plants. Of these 63,929 containers were returned to the pantry shelves of the owners of the products and 53,175 went into the warehouse of the county relief administration.

In this district there are also federal meat canning plants at Fort Worth and Dallas. These plants had put up 4,679,207 cans of meat in the period between July and October 1.

Mr. and Mrs. H. W. Marks, of Omaha, Nebraska, will arrive Sunday for a visit of several days with Mr. and Mrs. B. W. Pilcher. Mrs. Marks, a niece of Mr. Pilcher, has visited here before and is well known in Ballinger.

NORWAY TO PRODUCE NEW WATER IN VOLUME

OSLO, Norway, October 10.—"Heavy water," the poisonous fluid which exists at the rate of one part in 55,000 of rain water, is to be produced on a big scale, according to an announcement of Norsk Hydro, the large nitrate concern of Oslo.

The firm promises that it will produce the substance at a considerably cheaper price than has hitherto been possible, and that it hopes to turn it out at the rate of about half a kilogram—roughly four fifths of a pint—daily. This is about six times the quantity which was made in four months during the experiments in the United States last year.

LONDON AIR RAID MARK

LONDON, Oct. 10.—Should air raiders attack London today, they would find the city unprepared, according to S. E. Veale, assistant secretary of the Air League of the British Empire. In an address before the women's branch of the City of London Conservative Association he declared that in such an emergency the old war-time dugouts of the subway would be nothing less than a death chamber. He referred to the number of concrete shelters which Germany is constructing.

TEXAS HISTORY IN THE MAKING

No. 3—The Alamo, Cradle of Texas Liberty

—Think—Talk—Write—Texas Centennial in 1936—
 This is the Alamo, "Cradle of Texas Liberty," pictured as it stands today. Here Texas, surrounded by Santa Anna's men, wrote "The garrison will be put to the sword if the fort is taken... I shall never surrender or retreat... Victory or death!" Here 182 brave Texans died, besieged by 10,000 Mexican troops, in one of the most heroic and sad days for Texas, and the men who fell here only urged Texas on to victory and independence. The Alamo building was erected in 1744 (although an inscription on the wall bears the date 1741). Today this shrine stands in the heart of San Antonio, facing beautiful Alamo Plaza. It was not a mission, but an overflow meeting place for Mission San Jose de Aguayo. Alamo means "Poplar tree" in Spanish, so the name translated into English, would be "Poplar Church" (Texas News Photos)

Fall Term of 119th District Court Has Very Heavy Docket

The fall term of 119th district court will convene here Monday, November 12. Jury panels will be drawn next week and notices sent out for grand jurors to report the first week and three petit jury panels to report during the remainder of the term.

The fall term will continue until just before the Christmas holidays with a fairly heavy docket to be tried, none however of major importance to date.

District Judge O. L. Parish will preside over the court and Dis-

trict Attorney Eugene Mathis will be here for his last term before he vacates the office on January 1 in favor of the newly elected prosecutor, Wm. A. Stroman, of San Angelo. District Clerk Drury P. Hathaway will also serve until January 1 when he will turn the office over to John Rayburn.

There are a number of old cases on the docket due to be tried at this term and County Attorney Roy L. Hill will hand the grand jury a report on all cases to be investigated on the opening day. The list includes a number of felonies.

Mrs. Roy Patrick, of Hampton Beach, California, is spending the week with Mr. and Mrs. W. A. Forgy. Mrs. Patrick and Mr. Forgy are cousins.

MRS. EDGAR SAUNDERS, FORMER RESIDENT HERE, DIES AT SONORA HOME

Mrs. Edgar C. Saunders died at her home in Sonora Tuesday night and funeral services were held there Wednesday afternoon. Ballinger relatives were notified of her condition Tuesday and a son, E. A. Saunders, and family, hurried to her bedside. A large group of local friends attended the funeral.

Mr. and Mrs. Saunders visited here on numerous occasions and at one time made home here. Decedent was here several weeks ago for a visit to her son.

Survivors besides the husband include two sons, E. A. Saunders, Ballinger, and Harold Saunders, San Marcos. Jack McGregg, of Ballinger, is a brother of decedent.

SCHOOL NEWS
By Laura Edith Miller

On Wednesday, October 3, the Twentieth Century Club met in the auditorium. Ann Lee Wigninton and Vannoy Smith were elected to fill two vacancies in our regular membership. The theme of the program was the Texas Centennial. Bobbie Avey gave a reading, "Texas Heroes," and Eula Mae Clark, accompanied by Rosemary Lasater, sang "Texas, Our Texas." Laura Edith Miller gave a talk on the Texas Centennial, explaining some of the reasons for the celebration and the plans which are now underway. Rosemary played several popular numbers at the close of the program.

The two second year Spanish classes have organized Spanish clubs, which will meet every two weeks. Their purpose is to increase our speaking knowledge of Spanish by debate, speeches, discussions, and various games in Spanish. The fifth period class chose the name "Los Conquistadores," meaning "The Conquerors." Officers who were elected are: J. W. Little, president; Vestus Pruitt, vice-president; and W. H. Beard, secretary-treasurer. The program committee consists of Miss Meyer, J. W. Little, Laura Edith Miller and Rex Nixon. The club colors are black and yellow. Sue Barnett was elected song leader.

The first period class, "El Circulo Adelante," or "The Progressive Club," elected the following officers: Ross Campbell, president; Horace Murphy, vice-president; and Rubye Paltisek, secretary-treasurer. The colors are red and black. The members of the program committee are: Miss Meyer, Ross Campbell, Jack Carroll, and Robert Nicholson. The song leader is Helen Thomson.

Station BHSI Cub Club broadcasting! A very humorous program was heard at the chapel hour Friday. The Cub Kittens quartet, Eleanor Williams, Juanita Faris, Teddy Wardlaw, and Eula Mae Clark, sang two numbers. Next Ruth Smith told the story of "Katrina's First Football Game." Poor Katrina! She knew nearly as little as I did at my first game! A trio composed of Myrtle Mollie Horn, Ruth Stokes, and Bee Bryan, sang "You've Gotta be a Football Hero." Two whistling cubs, Pauline Morris and Laura Edith Miller, stole Mr. Lyon's thunder with "Betty Co-Ed." Then they joined forces with the quartet, and rendered the Cub Club version of "The Man on the Flying Trapeze." The program closed with several old favorites by the pep squad. But that is far from all of the program! Voluminous fan mail was read between numbers, in the announcer's best manner. Bobbie Avey announcing. Those Bearcats are very popular—and did some of them get told! However, they took Santa Anna and the wise-cracks at their expense equally well. Miss Ekkins played the accompaniments.

The students joined with Mr. Ligon in his words of regret Friday morning upon hearing of the death of Louise Tinsley and in his extension of sympathy to the family. Both students and teachers considered Louise one of the best all-around students ever to attend Ballinger high school. She was a prominent member of both the Literary Club and the Dramatic Club, of which she was president last year. She was one of the librarians last year, and she also took part in interscholastic league spelling contests and one-act play productions. Louise had a leading role in the 1934 senior play, and was present at as many senior functions as her health would permit. The school missed Louise

upon her graduation, and we know that the community loses now by her death.

Monday morning Rev. E. W. McLaurin spoke about fire prevention. He said that most fires were caused by carelessness, and called attention to many simple ways in which fires may be prevented.

Mr. Carsey has agreed to direct a high school orchestra, and fifteen students have entered the organization. Regular meetings for practice will be held every Wednesday afternoon.

We want to express our appreciation for Mrs. Harry Lynn's willingness to serve as parent-adviser for the high school.

Who is the greater explorer and adventurer, Columbus or Admiral Byrd? This question arose in connection with a recent study of those seafarers who "saw America first" in the Fifteenth and Sixteenth centuries in one of Mr. Ligon's classes in American history. Rex Nixon eloquently championed the cause of Admiral Byrd, while Harlan Thomas and Louis Ruhmann countered with a defense of Columbus, saying that Byrd at least knew that he would not sail into a jumping off place, but Columbus was not so sure.

The fifth period Spanish class has seemed so enthusiastic about Vestus Pruitt's ability to sing solos that the school has registered a mental vow to request him to sing in chapel some day.

400-Year-Old Water System Troubles Moscow Subway

MOSCOW, October 10.—Parts of an ancient water system laid in the streets of Moscow almost exactly four hundred years ago, during the reign just before that of the infamous tsar, Ivan the Terrible, and probably as a result of "modern" ideas introduced by Ivan's grandmother, the Greek princess Sophia from Constantinople, have turned up to plague the diggers of the subway now being constructed by Soviet workers and engineers.

A few weeks ago construction gangs digging a deep trench in which this subway will run encountered and cut what looked like some kind of ancient conduit. The subway excavation promptly was flooded by a large stream of water. Pumping failed to control the flow. Tons of concrete dumped on top of the mysterious water pipe also proved a failure.

Finally, the engineers in charge sent for historians and archaeolo-

gists of the Moscow Cultural Academy. Tracing the length of the troublesome pipe, these experts presently discovered an ancient stone room or vault, also filled with water and to which other pipes and conduits were connected. The entire network of pipes and connecting basins now is being explored.

Objects found in connection with the work indicate that what has been found is a part of a complicated system of underground springs, pipes, settling and distributing basins and so on built in 1534 by Greek or Italian engineers to provide the palace of the increasingly powerful tsars of Moscow with the luxury of pure water, then unknown outside the remnants of the Roman world. Although this water system evidently was abandoned and forgotten centuries ago it seems still to be in working order, all too much so for the subway builders.

Records, Runtels County, Texas, and to cancel and set aside and annul an oil and gas lease and contract on said land, dated February 14, 1933, made by W. F. James and wife, Mattie James, lessors, to Mac T. Anderson, lessee, of record in Vol. 157, Page 629, Deed Records, Runtels County, Texas, said lease providing for one-eighth royalty on gas and casinghead gas in favor of the lessors, and, the further sum of \$1,000.00 for lessors, out of one-fourth production of oil from said land. Plaintiffs allege that the defendants have failed and refused to comply with the terms and provisions of said lease for the beginning and prosecuting with reasonable diligence a well for oil and gas on said land within one year from the date of the same, and, that they failed to comply with the provisions of the lease with respect to paying rentals thereon; and, that the lease has lapsed by its own terms and provisions. Plaintiffs pray judgment for the cancellation of said oil and gas lease, for costs, and general relief.

Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have

executed the same. Given under my hand and seal of said Court, at office in Ballinger, Texas, on this 6th day of August, A. D. 1934. (Seal)

PONY IS 32 INCHES HIGH

LITHGOW, Australia, Oct. 10.—George Shepard, of Lithgow, believes he has the smallest pony in Australia. It is only 32 inches high and is a descendant of pit ponies which were turned loose in the wilds of Wolgan Valley when oil shale works there were closed in 1925. A man can easily lift the animal, and it often enters Shepard's kitchen to beg scraps of food.

Bearcats Emerge Victors in First Conference Game

The Ballinger Bearcats will make their longest trip of the 1934 season Friday when they go to San Saba to meet the Armadillos in a regular conference game. The San Saba team was defeated last week by the Winters Bluebirds but had nice team work on the field and will be plenty hard to beat on their own home grounds. Coaches H. B. Self and George Stone will leave here with the team early Friday morning, accompanied by a few fans who plan to make the trip.

The Bearcats fought an uphill fight at Santa Anna Friday afternoon but overcame a 6 to 0 lead and defeated the Mountaineers 13 to 6. The Bearcats had a percentage of 1,000 in the district 13 chase. Staging a comeback after the half the first marker was checked up when Brookshier got loose for a 35-yard run around end for the first touchdown. McMillan converted the kick for the extra point and later in the game McMillan threw a short pass to Gregg who stepped over for the second score and to put the game on ice.

The entire local eleven came through the game without injuries and after a week's practice will go to San Saba in good condition.

The first home game of the conference schedule will be on October 19 when the Bearcats meet the fast Coleman Bluecats. This probably will be the local hardest game of the season and a defeat of the Coleman team would make them favorites for the district crown. The Coleman club has played two games, tying the class A Brownwood high school eleven 9 to 9, and winning a conference game from the Goldthwaite Lions 13 to 9 last Friday night. Coach Mickey Pool has a large squad of veteran players at Coleman and with a good starting

line-up, has plenty of reserve material to make his team look like a winner. Efforts have been made at Coleman this week to bring the game to Coleman for a night contest but no definite action has been taken here on the change.

Announcement was made this week that the regular Armistice Day game would be played at Brady on November 9. The game was contracted for November 12 but due to a new ruling that school boys cannot be played in more than one game a week the date had to be changed.

EXTENSION SERVICE BIG AID IN RAISING CHICKS

HERREONVILLE, Tex., Oct. 10.—"Extension methods enabled me to succeed in raising baby chicks," Tommy Williams of Jim Hogg county told G. W. Brown, farm demonstration agent. "I bought 1,000 baby chicks this spring and just forgot what I knew about them and decided to follow methods recommended by the farm demonstration agent and the extension bulletins," he said. Mr. Williams raised 950 of the 1,000 chicks to frying size and sold more than enough to pay all costs. He had more than 400 pullets left.

MISS NELL SHEPHERD IS MEMBER OF ANNUAL STAFF

WACO, Oct. 10.—Miss Nell Shepherd, of Ballinger, freshman at

Baylor University, has been appointed one of the three freshman class editors of the 1935 Round-Up, university annual. Her duty will be to see to it that her class is adequately represented in the year book.

Miss Jimmy Taylor, also from Ballinger, has been elected sergeant-at-arms of the pre-law club, composed of students who are specializing in the study of law.

Circulated Heat

FOR uniform, healthful warmth circulated heat has much to recommend it. Hot spots or cold corners are eliminated. You are freed from the bother of "sweating" walls and windows. The temperature is uniform and warmth is evenly distributed all over the room.

Special prices and attractive deferred payments, effective this month, offer a real inducement to look over these improved gas circulating heaters. You'll find them in many smart new models in various sizes to meet your particular heating needs. See them, and install this month if you would save!

How to save GAS

1. Don't turn gas up so high that flame goes over top of any heater. This wastes gas and makes bad air in the room.
2. Don't open doors and windows to cool the room; turn the gas down instead. A thermometer will assist in keeping correct temperature.
3. Don't try to heat too much space with one heater. An additional heater will save gas consumption.

Be sure the gas appliance you select carries the approval of the American Gas Association Laboratories... and remember modern gas appliances are available also from your gas appliance dealer. See his display.

Buy in pairs for bigger savings

There's an Extra discount this month on radiant-type heaters when two or more are bought at the same time. Small down payment, balance monthly.

First Meeting Of Primary P.-T. Held Wednesday

The Ballinger Primary Parent-Teacher Association held its first regular meeting of the year Wednesday afternoon and attended to much business. Mrs. George Amery, president, heard reports from all standing committees. There were 47 mothers present and a paid-up membership of 30 was reported.

Announcement was made that all local P.-T. A. organizations would meet together on November 7 at which time Dr. J. B. McKnight, of Sanatorium, will address the gathering. All mothers are urged to attend this meeting.

Mrs. Amery was named delegate from the local organization to attend the 26th annual Congress of Parents and Teachers in Corpus Christi, November 19 to 22.

The P.-T. A. members voted to give vaccine to all pupils in the primary building who could not afford same and this will be done at once.

A committee, composed of Mrs. F. M. Pearce, Mrs. J. P. Striplin, and Miss Katherine Todd, was appointed to investigate the purchase of a piano for the building.

Mrs. H. C. Lyon discussed what is hoped to be accomplished during the year and particularly in regard to promoting child welfare.

The president announced the following standing committees and room mothers for the year:

Program—Mrs. H. C. Lyon and Mrs. J. H. McClain

Membership—Mrs. J. P. Striplin, Mrs. J. C. Richards, and Mrs. Frank Dickcy

Hospitality—Mrs. Rothal O'Kelly, Mrs. W. A. Green and Mrs. Tom Agnew

Harmony School Contract is Let

A contract was let this week to J. L. Hearn for the construction of the new school at Harmony and 40 working days were stipulated for completion of the building. The old building burned to the ground a day or so before it was to open and the trustees arranged for classes to be conducted the first month or more in a church, where three teachers are now instructing grade pupils. High school students attend school at Content, being transported there by bus.

The new building, of frame construction and rigid asbestos shingle roof, will contain three rooms. Eleven contractors submitted bids and Mr. Hearn was low with a bid of \$2,809. After letting the contract a few changes brought the contract price to \$2,844. The highest bid was \$1,364 above the price submitted by Mr. Hearn.

Actual work has been started and no time will be lost in completing the building and installing the furniture.

W. T. Knowles is principal of the Harmony school, and assisting him are Mrs. Knowles and Miss Nellie Dee Cook.

PRESBYTERIAN CHURCH WILL PRESENT PAGEANT

Members of the Eighth Street Presbyterian Church will present a pageant Sunday evening at 7:30 instead of the regular evening service and the public is invited to attend. The pageant, mostly spoken lines and acting, will deal with Christian education. The large cast has been well rehearsed in the parts.

For this special service bronz lamps will be used with candles and vari-colored lights. Brilliant costumes will be worn by the cast and musical accompaniment will be heard during the special program.

Special musical numbers also will be presented during the services.

State Highway Warehouse Has Night Watchman

The maintenance division of the state highway department has employed C. B. Penn as night watchman at the warehouse on highway No. 4 at the northern edge of the city. Mr. Penn is on duty every night.

This is a general order sent to all district maintenance superintendents over the state but whether it will be permanent is not known here. A number of robberies have been committed at state warehouses and several times the Ballinger warehouse has been broken into but the losses have been negligible.

Maintenance division employees completed work the past week on the dirt approaches to the Elm Creek bridge on highway 23. A concrete gutter was built on the lower edge of the approaches which drain off through a spillway. This was done to prevent erosion of the high earthen approaches.

Max Wilson, district superintendent, stated that this was the only job in this county at present but considerable work was being done in Concho county.

Word was received here this week that a son was born to Mr. and Mrs. O. H. Layton at the Methodist Hospital, Dallas, on October 10. The young man has been christened Donald Kent. Mrs. Layton is the daughter of Mr. and Mrs. Asa Cordill of this city.

Fire Prevention Stressed in Talks; Loss Here is Light

Fire Prevention Week is being observed in Ballinger in various ways. A speaker talked in every school in the city Monday morning on means to prevent fire. Service clubs have heard addresses on this subject this week and every possible opportunity was taken to carry on the educational campaign.

Fire Marshal Lee Moreland began inspections Monday and will cover the entire city, notifying every property owner where a hazard is found. A second inspection round will be made by police and firemen later in the week to see that indicated hazards have been eliminated.

So far this year Ballinger has had a remarkably small fire loss and if this good record is maintained the remainder of 1934 it will secure a credit on insurance premiums that will be of benefit to every property owner who carries insurance.

The first nine months this year is one of the lowest ever recorded here. The season of fires is between now and Christmas, however, and the campaign this week is expected to help eliminate preventable fires.

Speakers are stressing certain hazards which cause many fires. One speaker is emphasizing the hazard to be found in most business houses which is said to cause more conflagrations than any other. Where there is a knot hole or a loose board in the floor of a business house floor sweep and bits of paper collect. The crack or knot hole also becomes a target for burning cigarettes or matches.

No expense and only a little time is required to eliminate such a hazard, it is pointed out.

Church fires, vacant house fires and school bus fires are also receiving much attention from speakers who point to safety methods that should be followed.

Statistics prove that in times of depression fire losses mount—not due to incendiarism but because janitors are discharged to save expenses, working forces are short, there is general carelessness in regard to cleaning up business houses, and junk is collected about homes.

Misses Marguerite Truly and Jewel Hicks spent the week-end with friends at Dallas. While there they attended the opening of the state fair.

Funeral Directors Meet in Brownwood; Hear Code Explained

E. E. King spent Tuesday and Tuesday night in Brownwood, attending a meeting of funeral directors in the 17th district of Texas which heard George Williamson, of Jacksonville, discuss the new and approved code for funeral homes which is now in operation. A large group attended the meeting. Officers were elected and county meetings planned at which time the main details of the code will be explained to those who did not attend the Brownwood meeting.

Dan Laughner, Abilene, was made district chairman; Mr. King, vice-chairman; and J. L. Castleberr, Albany, secretary-treasurer; and all three are members of the compliance committee for this district. The organization will be known as the Heart of Texas Funeral Directors' Association.

Mr. King said he would call a meeting of undertakers of Runnels county in the near future to discuss the code and form a county organization. He explained that at this time only two copies of the code are in the state and that new interpretations will possibly be made after the meeting at New Orleans this month to which Mr. Laughner is a delegate.

Speaking of phases of the code Mr. Williamson said:

"The code positively prohibits the offering of free service of any kind by funeral homes. Commissions cannot be given to anyone—doctors, nurses, hospitals or anyone else. Soliciting of business on the part of the funeral homes is also expressly prohibited by the code."

At a meeting of the district organization following the discussion, a minimum price of \$3 was set for ambulance calls in the city limits. For outside the city limits the charge will be 50 cents per mile one way for the first 20 miles and 25 cents per mile thereafter.

Classification of employees also was discussed in the code meeting and minimum hours and wages were explained.

Clayton Sells Entire Clip To Eastern Mills for 24c

STATE W. T. C. U. SECRETARY WILL SPEAK IN BALLINGER

Mrs. Thomas C. Jensen of Austin, state secretary of the Woman's Christian Temperance Union and representative of the national W. T. C. U., is in Ballinger in the interest of the new crusade of educational membership.

Mrs. Jensen will speak in the churches and Sunday schools of the city Sunday.

The W. T. C. U. celebrates its 60th anniversary in November in Cleveland, Ohio, with a program commemorating the work that Frances Willard began in 1874 in that city. This, said Mrs. Jensen, was the beginning of the old crusade, when women prayed on the streets, in saloons and in churches and in 50 days 250 saloons were closed and church attendance increased 100 per cent.

Since the repeal of prohibition, the work of the W. T. C. U. continued. Mrs. Jensen harks back as in Miss Willard's time, to agitation, education and organization, with special emphasis just now on an educational membership campaign. In this respect Texas is one of the leading states.

Mr. and Mrs. C. R. Stone and son visited relatives at Sherwood Sunday.

Mr. and Mrs. C. R. Stone and son visited relatives at Sherwood Sunday.

Mr. and Mrs. C. R. Stone and son visited relatives at Sherwood Sunday.

James Clayton received word Monday from Joe B. Blakeney, wool warehouse agent at San Angelo, that the entire Clayton clip, amounting to more than 20,000 pounds, had been sold Friday, October 5, at 24 cents per pound, one of the highest prices paid for wool in this section recently.

Representatives for Mr. Clayton made a special sale direct to a large mill of the high grade clip and were able to secure about two cents premium over prevailing prices for the best wool at the time. On the same day other sales were from 18 to 22 cents, with the average about 20 cents.

Some time ago a statement was made that the James Clayton clip was perhaps the best in the San Angelo warehouse at that time. When the eastern woolen mill sought an especially high grade clip Mr. Clayton's representatives used their best decision and sold the entire holding.

Mr. Clayton, who was in Ballinger Monday afternoon, was highly pleased with the sale. He stated that he had a chance to sell the wool before it was sheared at 30 cents a pound but at that time believed prices would go higher.

Jack Nixon, Jr., returned Monday from Dallas, where he attended the state fair several days.

Shakespeare Club Has First Meeting

The opening meeting for the Shakespeare Club was held last Thursday afternoon in the home of Mrs. Loyd Herring on Eighth Street. Hostess duties were dispensed by Mrs. Herring, who is chairman of the social committee of the club, and by Meses. Lela McAdams and J. A. Williams, other committee members.

Fall roses were combined with queen's wreath to give a pretty decoration to the reception rooms. Following roll call, Mrs. C. P. Shepherd spoke of the year's program which will include the study of "Two Gentlemen of Verona" by Shakespeare, and a series of book reviews. Greetings from the president, Mrs. E. C. Baskin, preceded short talks by the following officers: Meses. H. C. Lyon, E. H. Forgy, E. D. Walker, Edwin C. Schuchard and C. R. Stephens.

Five new active members and one associate were extended membership. They were Meses. Horace Murphy, J. A. Schnable, J. A. Wade and O. L. Sims of Paint Rock, and Miss Genevieve Green. Miss Lucille Williamson is the new associate member with the following: Meses. J. Y. Pearce, J. B. Striplin, R. W. Bruce and R. W. Earnshaw.

Active members are: Meses. Baskin, Sim Cottelle, J. G. Douglas, Forgy, Arthur Giesecke, W. A. Green, Herring, J. R. Lusk, Lyon, McAdams, Alex McGregor, F. C. Miller, Schuchard, Shepherd, Leonard Stallings, E. W. Stasney, Stephens, A. B. Stobaugh, G. M. Vaughn, Walker, Williams, Meses. Eva Ruth Forgy, Wynis Greer and Margaret New.

A salad course was served with coffee.

Workers' Class in All-Day Meeting

The regular monthly meeting of the Workers' Class of the Methodist Sunday school was an all-day meeting held in the basement of the church on Tenth Street Tuesday.

The day was spent in quilting and at the noon hour a "covered dish" luncheon was enjoyed by twenty-three members.

The following were present: Meses. H. C. Lyon, W. E. Midgley, R. W. Bruce, J. F. Currie, C. P. Shepherd, Hamp Byler, J. A. Reese, J. M. Garlington, John Loveless, E. C. Baskin, W. W. Chastain, J. M. Skinner, West, Simmons, E. J. O'Kelly, John Weeks, W. A. Francis, and Miss Alice Morgan.

Mrs. Mann Hostess

Mrs. John Deane Mann entertained Thursday with a high noon luncheon for the ladies of the Humble Pipe Line Company at the community center, Sam Behringer store.

The center was beautifully decorated in Halloween colors. The flowers were cosmos and golden glow and the table covers and candles were in orange and black. Table favors, holding the place cards, were tiny black animals and to complete the picture a saucy goblin face adorned each salad plate.

Following a delicious four-course luncheon, Mrs. Nellie B. Kent gave a book review after which bridge and 42 were enjoyed by the following guests: Meses. J. E. Albright, Clifford Orr, John Stitt, Ed Jones, Henry Casper, Downie Simpson, Fred Farmer, Delmar Fincher, Bob Burleson, Theo Bell, Goldman Touchstone, John Endicott, Warren, Blanche Thompson, Kent.

Mrs. Mann was assisted in entertaining by her sister, Mrs. Blanche Thompson, and Mrs. Kent.

Pre-School P.-T. A. Meets at Home of Mrs. Moore

The Ballinger Pre-School Parent-Teacher Association met Wednesday afternoon at 4 o'clock at the home of Mrs. W. H. F. Moore with eleven members present.

Mrs. Black, president, presided at the business session. Plans for the year book were discussed.

Mrs. Joe Simmons presented the course of study for the year, "Why Study the Pre-School Child?" Meses. Sam Danlap, J. H. Endicott, W. A. Green, O'Neill and Moore gave interesting papers on the various reasons for studying the pre-school child.

Surprise Party Given for Mr. and Mrs. J. A. Watkins

A large number of relatives and friends gathered at the home of Mr. and Mrs. J. A. Watkins, who live in the Dale community, last Sunday, October 7, to honor them with a surprise party on the anniversary of the sixtieth year of their married life together. The couple have lived in this county for half of their wedded life and are very well known in this section. Mr. Watkins is 84 and Mrs. Watkins 86.

Those present to enjoy this occasion represented five generations of the Watkins family, which is unusual in that it is very seldom that one family can get together and have more than three or four generations represented.

Those attending the surprise

party were: Mrs. Lola Stallenerck, Hillsboro; A. T. Moreland, Dallas; Mrs. Ursula Turner, Mrs. Belle Gannaway, Mr. and Mrs. J. E. Gentry and Miss Ollie Akins, Ballinger; Mr. and Mrs. Guy Gannaway and children, R. B. and Christine, Wingate; Mr. and Mrs. Claude Gentry and children, Eulene and Norma Jean, Marie; Mr. and Mrs. L. C. Green, Jim Ellis, Mr. and Mrs. Arthur Mayo and Miss Lorene Carwile, Winters; Mr. and Mrs. Howard Williams and children, Annie, J. C., Howard, Jr., Rufus and Margaret; Mr. and Mrs. Albert Mayo and children, Fern, Toy, Howard, Lillie Belle and Vera; Mr. and Mrs. Mack Watkins and daughter, Frankie, all of Dale; and the honor guests, Mr. and Mrs. J. A. Watkins.

Scottish Visitor Enjoys Stay Here

James Hood Wilson, of Edinburgh, Scotland, spent the weekend here as the guest of his uncle, Jack McGregor, and other relatives. Mr. Wilson has been in the United States for some time, landing in Toronto, Canada, and going from there to the Pacific coast where he visited with an uncle in California before coming to Ballinger.

He spent four days here and left Monday for Houston and will return to New York by way of Washington and embark for home October 20. He is a seasoned traveler, having visited in most all countries of Europe. He is entering business and his trip over America at this time was a further preparation for the position which he will occupy in London.

Mr. Wilson felt a close tie to this section of the States, because his father, John Wilson, and an uncle, Phillip Wilson, were partners in the ranching business here in the days before Ballinger was a town. While here he visited the old Wilson ranch, just south of Benoit, and viewed the ruins of the old home. After the Wilson brothers disposed of their ranch holdings here, young Wilson's father returned to Scotland and the uncle moved to California.

He was extremely pleased with America and his travel experience made him able to adjust himself to every condition on short notice. He witnessed football games in California and while here attended a night at San Angelo which he enjoyed very much. He was an athlete in school himself and a star soccer player. He liked the open style play of the high school game he witnessed here.

Local Transfers Have Advantages

According to a statement made this week by Superintendent H. C. Lyon of the Ballinger public schools the transfers from independent school districts of the county to the Ballinger high school and the other public schools of this city are allowed one more month of free tuition here than those who transfer to the Winters public schools.

Ballinger school authorities allow transfers to attend here five months without paying any tuition after which time they pay tuition as follows, per month: high school students, \$6; intermediate students, \$4; primary students, \$3. Pupils whose grades are not taught in their district are permitted to attend school without paying tuition. Their tuition is paid by the school district in which they live.

The Winters public school system allows the transfer student 4 months of free schooling after which they must pay the following tuition each month: high school students, \$7.50, and the other grades proportionate amounts.

Possibly the reason for such a great difference in the cost of attending school is primarily the number of enrollment and the cost basis upon which the tuition is figured.

"THE THIN MAN," THRILLING SLEUTH YARN, SOON AT PALACE

"The Thin Man," adapted from the novel in Redbook and featuring William Powell, Myrna Loy and Maureen O'Sullivan, is to be shown on the Palace Theatre screen next Saturday in midnight matinee, also Sunday and Monday. Suspense, smart dialogue, and rosy comedy are mixed together in this offering to make perfect film entertainment.

Powell is in the role he plays best—a detective. Myrna Loy and Minna Gombell give splendid performances, but each minor player makes his part stand out.

The novel was written by Dashiell Hammett, and was a best seller.

Mrs. G. W. Hubbard and children, of Tampico, Mexico, are here for a few days' visit with Mrs. Hubbard's parents, Mr. and Mrs. J. M. Cordell.

TRUCK FARMING PAYS

GILMER, Tex., Oct. 10.—"I am making more money from this one acre of truck than from any 15 acres of my field crops," S. R. Senn, of Uphur county, told W. M. Burkes, farm demonstration agent. Mr. Senn has dammed a spring branch so that he can deliver water to about two and one-half acres of bottom land. He killed out Bermuda sod in early July and then fertilized his seed bed and planted turnips, radishes, squash, beans, beets, cucumbers, mustard, peas and okra. He sells his truck to people in the nearby oil fields.

LOCAL DENTISTS ATTEND MEETING AT SAN ANGELO

Dr. C. W. Cheatham and Dr. J. Dexter Eoff, of Ballinger, and Dr. J. P. Brophy, of Winters, attended the meeting of the Tom Green County Dental Society Monday evening. The meeting was well attended. Dr. Mitchell, of Big Lake, presented a paper on inlays which was followed by a general discussion. The Runnels county dentists are members of the Tom Green county society.

During the summer of 1932 approximately 180,000 officers warrant officers and enlisted men participated in field training.

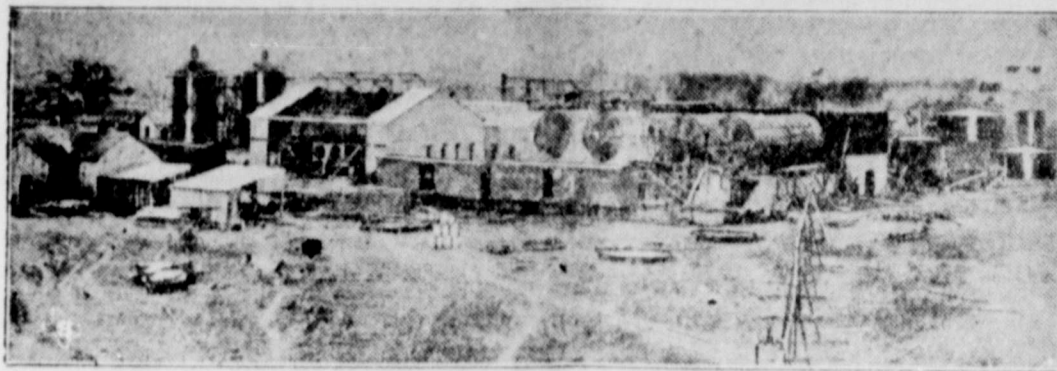

Feels a Lot Better When Black-Draught Relieves Constipation

From many states come reports like the following from Mr. W. M. Henderson, of Jasper, Fla. "I have been taking Theodor's Black-Draught twenty years. I take it for constipation that gives me a dull, tired, aching feeling, and I have headache, too. Black-Draught relieves me of this trouble. After a few doses, I feel as good as new. I keep it in my home. I have a big family. When one of us is ailing (from constipation), we take Black-Draught and almost always feel a lot better. It has been worth its weight in gold to my family. . . . Sold in 25¢ packages. "Children like the Syrup."

Thirty-six years ago they took this picture of the construction of the first oil refinery in the Southwest at Corsicana, Texas. The year 1898 marked the beginning of Texas' greatest industry, oil, and the founders yet living will take part in the annual convention of the American Petroleum Institute in Dallas, November 12 to 15. The refinery above was built under the name of J. S. Cullinan Co. and marked the beginning of several major Texas companies. (Texas News Photos.)

Growing of Cotton In China Will Not Hurt U. S. Market

COLLEGE STATION, Oct. 10.—Cotton acreage reduction campaigns in the South in 1905, 1915, 1921 and 1927 were acclaimed as life-savers to the South, but except for the 1905 campaign they were not very successful. The present agricultural adjustment administration program has effectively curbed production, removed a huge price-smashing surplus, helped cotton prices, and started farm and business recovery. There are some, however, who question these gains because of the fear of surrendering cotton markets to foreigners.

This series of articles based on figures of the cotton section, agricultural adjustment administration, has shown repeated decreases in 1934 cotton acreage in India, Egypt and Russia. The difficulties in future big expansion of cotton acreage in these countries have been mentioned. In the present article the Chinese situation is explained.

The pressure of population on food supply is so great in China that increases in cotton acreage will probably come very slowly. Famine is a danger never very far distant from the Chinese people. Transportation is very poor, and this limits the importation of food into the interior where cotton might be grown. This also makes it hard to market cotton. Many areas are entirely shut off from the outside food supply and must grow all their own food.

China had 6 million acres in cotton last year, and this increased an estimated 5% to 10% this year. The estimated increased crop this year is 7% over last year. Average yields of cotton are high,

being 205 pounds per acre over a period of years.

The Japanese are a strong influence in China. They are attempting to develop the country, and this of course tends to increase cotton production. The average size of cultivated tract per Chinese farmer in Kiangsu province, which is a leading cotton section, is 3.7 acres. The average size of cotton patch per farm is slightly less than one-half acre per farm. Modern gins are unknown in many sections. This means that ginning must be done by hand, but there is no lack of labor for this work.

If cotton prices should get so high in China that they are out of line with food prices, there would probably be a tendency to increase cotton acreage in certain parts of the country. The chances, however, are that cotton acreage will continue to grow very slowly. At present China offers little threat to the American cotton grower.

No one would deny that foreign competition in cotton growing is a constant threat to the South and always has been. That such competition will rapidly take away America's markets is another matter. Sensible American production to assure a decent American price will not throw away foreign markets. Adjustment, which is the cornerstone of the AAA cotton program, does not always mean reduction.

Wife: "Of course, women are as capable as men. Why I know a girl of twenty-two who gets the salary of a sales manager in a big business house."

Husband: "I don't doubt it, my dear. When did she marry him?"

SCHOOL FOR BEGGARS IS FOUND IN CAIRO

CAIRO, Egypt, Oct. 10.—Cairo police have unearthed what they declare to be a school for beggars at which 100 small boys were taught the latest methods of appeal. It was found following the arrest for begging of a 10-year-old lad who had been missing from his home for several weeks.

The boy said that he was playing in the street when a smartly-dressed Egyptian offered to take him to his home and give him good food. The boys was taught how to beg, then detailed to a "beat" in the city. The police arrested the tutor and more than 100 children, most of whom had been anxiously sought for by their parents. It is estimated the boys collected a total of \$50 a day.

very high cotton prices for a long period of years to provoke very great competition in that country. Cotton acreage declined this year in India, Egypt, and Russia. In China there was a small increase but food shortage and poor transportation will likely limit large future increases, and future increases in Russia, which are limited, will probably be absorbed by greater consumption in that country. As long as the South has normal cotton crops reasonably priced there seems to be no occasion for alarm.

American cotton acreage can easily jump from 28 million acres this year to 50 million acres next year or in future years. Unless brakes are applied the South will continue to be periodically depressed to the detriment of farming and business. By production control farmers can cooperate to do together what they have never been able to do as individuals. The cotton processing tax enables the AAA to help farmers adjust their production. This tax on consumers, it was pointed out, is financing the benefit payments. The AAA programs are not adding to the public debt. The processing taxes make up to the farmer the difference between the market price of cotton and what he ought to get for it, or parity.
Processing taxes are mild compared to tariff taxes, Mr.

J. H. Wilke Dies Following Illness Of Several Months
J. H. Wilke, 80, citizen of Ballinger for the past 49 years, died at his home on Sixth Street Saturday at 9:30 p. m. after being stricken last May. He became ill while on a visit to children last May, was brought back here in June and had been confined to his bed most of the time since. He became worse Saturday morning and relatives were summoned to his bedside.
Mr. Wilke played a big part in the development of Ballinger. He was the owner of large property interests here for many years and was instrumental in developing several new residential additions. His last venture was only a few years ago when Wilke Terrace was opened and a "home beautiful" erected there as the first piece of construction.
Decedent was born in Fredericksburg, and lived there for some time before moving to this section. He had lived until the 20th day of this month he would have celebrated his 81st birthday.
Survivors include the widow and seven children: Mrs. E. A. Zuercher, Houston; W. J. Wilke, Graham; H. C. Wilke, Del Rio; Mrs. Chester Cherry, Ballinger; Mrs. Hugh McKenzie, Raymondville; F. D. Wilke, Houston; B. N. Wilke, Ballinger. Other relatives surviving include: three brothers, Willie Wilke, Bastrop; Adolph Wilke, Dallas; and Emil Wilke, Austin; and two sisters, Mrs. Louise Eva, San Antonio; and Mrs. Bertha Gillinay, Houston.
Funeral services were held at the family home Monday afternoon at 4 o'clock. Rev. W. H. F. Moore and Rev. E. W. McLaurin officiating. Interment was made in Evergreen Cemetery.
Pallbearers were: W. H. Schleyer, San Angelo; Vernon Webb, O. P. Dorsey, K. V. Northington, Andy Spreen and E. F. Kr.

Darrow emphasized, and should not increase consumers' prices on cotton goods much. The processing tax on a cheap cotton shirt is 3 1/2 cents, the tariff tax 23 cents, he said. Less than one-third of the increased price of cotton goods the past year have been due to processing taxes and higher cotton prices to farmers, it was asserted.
For years tariff taxes have added to the cost of many manufactured commodities, and have shut off foreign imports which in turn has restricted exports, the speaker said. The American farmer is our largest exporter, and has therefore, suffered the most from import tariffs. Largely because of tariffs American now has 50 million acres of land not needed to produce for a vanished foreign trade. The processing tax acts as the farmer's tariff. Through adjustment programs it is planned to shift the production from these 50 million acres to hay and pasture crops, to ease the cotton, corn, hog and wheat situations. Cotton acreages will not be indefinitely reduced but kept at a reasonable normal figure from year to year.
Attention was called to the fact that the present drastic programs are of an emergency and temporary nature, designed to bring quick relief to farmers and business men, to afford crop insurance, remove surpluses and bring farm prices back in line with other goods. It was brought out that it will be disastrous for farmers to produce at capacity while industry plows up production. For these reasons it is believed that continued production control or adjustment is essential to Southern prosperity. The building of a sound, long time program based on good farm management and helped by production control or adjustment is the real opportunity offered by AAA, the speaker said. "If the South takes advantage of the opportunity both farming and business should profit by more stable prices, and the way paved to far higher standards of living on farms," Mr. Darrow concluded.

New Dairy Products Manufacturer Opens For Business in City
Dairygold Products Company, manufacturers of all kinds of dairy products, will open for business in Ballinger next week. This new establishment is in the J. M. Slaughter building formerly occupied by the Russell County Cooperative Creamery and the Stuart Ice Cream Company.
Lewis Bradford, Bud Bradford, and B. W. Bishop, all formerly with the Snowwhite Creameries, San Angelo, have purchased the building and equipment and are remodeling and repairing the building and installing new machinery this week and will open for business October 15.
The company will hold a formal opening next week, October 20. All old equipment has been repaired and over \$4,000 has been invested in new equipment.
The new Ballinger enterprise will manufacture pasteurized milk, butter, cream, ice cream, milk chocolate, cheese and other dairy products for wholesale and retail trade. Next week's issue of The Ledger will carry further announcement concerning the formal opening.
Be wise and advertise.

J. H. Wilke Dies Following Illness Of Several Months

Louise Tinsley Succumbs Friday After Long Illness
Miss Louise Tinsley died here Friday morning at 4:30 after illness of several months' duration. A member of the 1934 senior class, Miss Tinsley became seriously ill last May and was forced to miss the last two weeks of the term. Her physician permitted her to attend a few of the programs in connection with commencement including the graduation exercises at which time she received her diploma.
Soon after the end of school she was operated on but her malady was of such nature that nothing could be done to improve her health and attending physicians and surgeons informed relatives that there was no hope for recovery.
Louise was one of the most popular girls of the city, her cheerful disposition, her keen intelligence and her friendliness to old and young making and holding
