## Club Boys to Exhibit Fat Stock Here Next Saturday

Four Runnels county 4-H club boys will show their fat stock here Saturday. Pens will be constructed on the court house lawn and the animals will be on exhibition from 10 a. m. until 5 p. m. and visitors in Ballinger Saturday are requested to see the results obtained by the four boys in the feeder program.

At the end of the local show Saturday afternoon the animals will be taken to San Angelo and entered in the fat stock show at that place. Judging of the club boys' entries will be made Monday and prizes awarded soon after.

Ralph Koenig, of the Bethel club, owns a calf which has been developed into one of the finest animals ever raised here. Claude Smith, of the Content club, has been feeding a calf since the first of August 1934 and has secured fine results. Charlie Patton, of the Norton club, also has a calf which will make a good showing at San Angelo. Sam Routh has a pen of five lambs which he has been feeding for practically 200 days.

Four Runnels county boys entered the feeder program and purchased their stock last August. They have been feeding for the past 200 days and have been successful in their projects.

The calves and sheep will be judged locally and prizes aggregating \$20 will be given. The money for these prizes was appropriated by the Ballinger Chamber of Commerce.

Citizens of this county are invited to visit the pens and inspect the fat animals Saturday. The show will close at 5 p. m. in order to move the stock to San Angelo in time for feeding before night.

## Runnels and Coleman County Trustees Hold Joint Session Here

The Runnels county board of education met in Ballinger Monday afternoon to attend to important business and to hold a joint session with the Coleman county board.

The first important item was to appoint a member of the board to succeed E. M. Lynn, who recently tendered his resignation. Paul Petty, local attorney, was selected for the place and called into the meeting to begin his duties on the board. Other trustees are E. E. King, C. H. Ray, W. J. Gardner and Duncan Hensley.

Claud Thompson was appointed a member of the board of trustees of the Bethel school to fill the place made vacant by the resignation of Lem Harvey. S. M. Henry was named to the Brookshier board, succeeding Albert Gallis, resigned.

A. L. Pearce, Frank Golson, S. H. Duggins, E. S. McClellan, L. E. Lanford, trustees; and John L. Beard, county superintendent, of Coleman county, attended the meeting here. The two boards entered into an agreement, transferring 551½ acres from the Goldsboro district to Content and 551 acres from the Content district to Goldsboro.

## Enumerators Begin Scholastic Census; Patrons Aid Asked

The 1935 scholastic census is underway and more than fifty enumerators will visit every home in the county this month to make an accurate count of the children within this age limit. The bureau allows all of March for this work and reports must be complete and turned into the county superintendent's office by the last day of the month.

The taking of the scholastic census is very important to every school district, as the reports govern the amount of state aid. In many of the common school districts trustees have been appointed enumerators and most of them have commenced this work.

In independent districts special enumerators usually are appointed to make a house-to-house canvass. A. F. Brock will be in charge of this detail in Ballinger and he requests that he be given a few minutes' time when he calls so the necessary information can be obtained.

The 1934 census enumerated more than 6,000 children of school age in all the districts of Runnels county and a slight increase is anticipated this year.

## Agent Recommends Treated and Tested Seed for Planting

Treatment of field seed to prevent root, stalk and ear rot of corn and small grain; die-back of milo maize and other grain sorghums; and similar troubles of other crops, is highly recommended by Elmo V. Cook, county agent.

"Many tons of grain can be saved annually in Runnels county alone by using this precaution," he stated. In a brief outline below he gives the recommended treatment for corn and grain sorghums:

"Treat corn with any commercial organic mercury, such as Semesan Jr., or Merko. For each bushel of grain put two ounces of the dry chemical in a tight container and agitate until the dust covers each grain evenly. These chemicals are poison and should be handled carefully.

"For treating grain sorghums use finely powdered copper carbonate, obtained at any drug store, in the same manner as for corn, using 2 to 3 ounces of the dry powder to the bushel of grain. This chemical is also poisonous. It is believed that this chemical will aid in controlling the new dying disease of yellow milo which is starting in Runnels county. Thousands of acres of yellow milo have died from this cause in Runnels county.

"Because of a shortage of good seed, many farmers will plant seed this year that is 2 years old or older. Such seed should be tested

## Convicts Trying to Control Swollen River

## One Man Held for Robbery; Examining Trial Delayed

### Tanning School To be Held Here; Cow Hides Sought

County Agent Elmo V. Cook has been notified to secure cow hides, goat and sheep pelts and prepare them for the tanning school to be held in Ballinger on April 4, 5 and 6.

Mr. Cook stated that he would begin preparing the hides about March 19 and will have them in every stage when the school opens.

M. K. Thornton, Jr., leather specialist of the extension service, College Station, will be in charge of the school. The first days will be for the men of the county and on April 6 a session will be held for women. The exact time for this last session has not been definitely decided but will be either in the morning or afternoon of the last day.

Mr. Cook said he wanted to contact persons who will have good heavy Hereford cow hides by the middle of March. He will need a number of hides for the school and those who can furnish hides, a barrel, and do a little work, are requested to call at his office as soon as possible.

The school will probably be held in one of the buildings at Fair Park. Preliminary processing will be carried on there and hides will be ready when Mr. Thornton arrives.

The school will open to every man and woman in this county who is interested in learning to tan leather. The most modern methods will be taught and the instruction will be free.

Exact hours for the classes and other information will be made public as soon as more of the details are arranged.

R. A. Perry, Miles precinct commissioner, attended to business in Ballinger Monday.

Two masked men entered the lobby of the Central Hotel Sunday night and at the point of guns held up Mrs. J. W. Gosnell, manager of the hotel, and T. B. Saunders, local banker, of about \$75 in cash and approximately \$700 in endorsed checks.

The robbery was committed about 10:45 p. m., after all guests had left the hotel lobby except Mr. Saunders, who was in the office talking to Mrs. Gosnell. The two strangers entered the front door with guns drawn and informed Mrs. Gosnell to hand over the cash and not to become excited, that it was just a quiet hold-up. She complied with their demands as quickly as possible, handing over the money in the register and safe.

The robbers forced Mr. Saunders to stand with his face to the wall while they searched him and took several endorsed checks from his pockets. The checks were for \$608, \$86.50 and \$87.50, and were made out by the Hicks Rubber Company, on the First National Bank of Waco, payable to John R. Hill. The checks had been endorsed and given to Mr. Saunders for deposit in the Security State Bank of this city. He had left some change and a watch in his room when he came down to the lobby.

While the bandits were in the lobby M. D. Barnett came in from a room upstairs where he had been visiting a friend, and was told to stick his hands in the air. The youth was searched, some gum and cigarettes taken from his pockets, and he was ordered to run.

Officers were called to the hotel as soon as the hold-up men sped away north up Eighth Street in a V8 Ford. Mrs. Gosnell informed officers that she recognized one of the men and Sheriff W. A. Holt and deputies left at once in search of the robbers.

Paul McNeill was arrested at his room in a Brownwood boarding house Monday and brought here by local officers. Tuesday afternoon County Attorney C. C. Sessions filed charges of robbery with firearms against him. When arrested McNeill had only \$4.16 on his person.

Examining trial for McNeill has not been held. Mr. Sessions said Thursday afternoon, but the date will probably be set soon.

No other arrest has been made in the case but officers are still working on clues.

The second annual meeting of the West Texas Cotton Growers' Association will be held at Abilene beginning at 11 a. m. April 9, at the association headquarters.

At this time the district directors will be approved and installed. The present director of this district is G. Y. Lee, of Eden.

E. L. Dorn, of Abilene, will preside at the Runnels county meeting next Saturday and will discuss any questions and problems which may arise among the members.

All members of the association have received notice of the meetings and are urged to attend the meeting next Saturday afternoon at the court house.

### U. S. TREASURY DEPARTMENT CALLS FOR LIBERTY BONDS

The United States treasury department made an announcement this week which will be of interest to holders of liberty bonds.

Holders of third called fourth liberty 4½ per cent bonds, called for payment as of April 15, 1935. Bond holders with numbers ending in 5, 6, or 7, will be permitted to exchange their holdings for a new issue of U. S. treasury 2½ per cent bonds maturing March 15, 1955-60.

Holders of the above described securities who wish to take advantage of these exchanges should avail themselves of the privilege promptly, as the offer may be terminated any time.

The new regulation does not curtail other road work in the area as teams and trucks are furnished by other than relief sets-ups. The crew on the drainage line here began work again Tuesday morning in front of the Central Hotel and will continue the excavation.

### TEMPORARY INJUNCTION AGAINST DANCE HALL IS MADE PERMANENT

A temporary injunction granted last week against Herman Baker, Winters dance hall operator, was made permanent Wednesday morning when the case was heard here by O. L. Parish, judge of 119th district court. The permanent writ will prohibit Mr. Baker from operating a dance hall in the property included in the temporary order.

Only a few witnesses were put on the stand at the hearing Wednesday.

B. C. Kirk returned Sunday from a Temple hospital, where he had been for treatment. He is improved in health and will soon be at his place of business.

The second large batch of checks for Runnels county farmers who pooled cotton exemption certificates through the county agent's office, arrived Tuesday and will be distributed this week-end. Last week 1,118 checks were received for a total of \$49,877.70 and this week's shipment contained 1,072 checks for \$42,958.80, bringing the grand total for the two weeks to \$92,846.50.

County Agent Elmo V. Cook stated Wednesday that most of the checks arriving last week had been delivered, but a few still remain at his office. The new shipment arrived Tuesday afternoon and as soon as receipts can be prepared will be delivered. Cards will be received by all farmers included in the last lot this week-end, asking them to call and sign receipts for their checks.

This is practically two-thirds of the checks due cotton farmers of this county on their certificates. Approximately 2,500 people will be benefited by the payments which represent 2 cents per pound for the excess certificates on eligible cotton not ginned.

Trustees of the district were in Ballinger Monday, attending to final settlement of the insurance claim and obtaining bids for construction of the new residence.

**32 CARLOADS OF POULTRY LEAVE TEXAS IN JANUARY**

AUSTIN, March 5.—A marked  
 falling off in rail shipments of  
 poultry and eggs from Texas to  
 interstate points always occurs  
 between December and January  
 due to the passing of the holi-  
 day season, it is pointed out in  
 the University of Texas bureau of  
 business research report on poultry  
 and eggs. Moreover, this year  
 shipments also were 28 per cent  
 less than during January a year  
 ago.

"Rail shipments from Texas to  
 out-of-state points in January,  
 1935, totaled 94 carloads, com-  
 posed of 82 cars of poultry and 12  
 cars of eggs, as compared with a  
 total of 117 cars during the corre-  
 sponding period a year ago, made  
 up of 104 cars of poultry and 13  
 cars of eggs," the bureau's  
 report said. "The decrease in total  
 shipments of poultry was due  
 entirely to the smaller shipments  
 of turkeys, since more chickens,  
 both live and dressed, were shipped  
 in January this year than in  
 January last year. Apparently  
 farmers are still culling out a  
 larger than usual number of birds  
 as a means of countering the  
 high cost of feed. Receipts of eggs  
 from other states amounted to  
 only four cars during the month,  
 against nineteen in January last  
 year."

Mrs. Lura Hollingsworth returned  
 Monday from Van Horn, where she  
 visited her father, J. J. Durham,  
 and family.

**Three Rotary Clubs Will Hold Inter-City Meeting in Ballinger**

Plans are being arranged this  
 week-end for the inter-city Rotary  
 meeting here Tuesday night of  
 the Ballinger, Abilene and San  
 Angelo clubs. This date was set  
 some time ago but was cancelled  
 and reset for March 12.

E. E. King and Elmer Shepperd  
 are making preparations for the  
 meeting which will be held at the  
 Central Hotel. Rotarians will be  
 guests. The visiting clubs will  
 provide numbers for the program and  
 Ballinger club members will act as  
 hosts.

The Abilene and San Angelo  
 clubs will be represented by large  
 delegations at this meeting and  
 100 per cent attendance of the  
 Ballinger club is assured.

At the Tuesday luncheon of the  
 local Rotary club a burlesque trial  
 was presented. With "Judge"  
 Elmer Shepperd on the bench,  
 prosecuting attorney Horace Ses-  
 sions charged serious offenses  
 against "Hokey" Long and one  
 Ralph Erwin. Paul Petty ably

defended but after the testimony  
 of E. M. Lynn a verdict of guilty  
 was returned by the judge. Mr.  
 Erwin was then permitted an  
 opportunity for an alibi as the  
 man charged could not sing and a  
 song by the defendant offered  
 freedom. The accused accepted  
 the verdict, however, and did not  
 even attempt to prove the alibi.

The board of directors, in session  
 after the membership meeting,  
 appointed a Boy Scout committee  
 for the ensuing year composed of

**EMPLOYMENT IN TEXAS SLUMPS DURING FEBRUAR**

AUSTIN, March 6.—Employ-  
 ment in Texas during February  
 was less than in January, but  
 slightly above that of February  
 last year, according to the Uni-  
 versity of Texas bureau of busi-  
 ness research.

Reports from 1,520 representa-  
 tive Texas establishments indicate  
 a total of 72,493 workers employed  
 during the week ending February  
 16, a decline of 1.6 per cent from  
 the corresponding week in Janu-  
 ary but a gain of nearly 1 per  
 cent over the similar week last  
 year. Total payrolls for the week  
 aggregated \$1,641,000, gains of 1.7  
 per cent over the comparable week  
 in January and 7.4 per cent  
 greater than in the corresponding  
 week of February, 1934. Industries  
 showing gains in the number of  
 workers over both the previous  
 month and February of last year  
 were: brick, tile, and terra cotta;  
 cotton compresses; flour mills;  
 furniture manufacturing; hotels;  
 ice cream factories; and millwork.

George Golightly, manager of

 at Ballinger, is enthusiastic over  
 the program to be presented and  
 invites citizens of Ballinger and  
 territory to listen in as often as  
 possible and also to enter the

Ice dealers all over Texas are  
 tying up with the plan and are  
 using every means to popularize  
 the new program. The popularity  
 of the program during the first  
 thirteen weeks will determine  
 whether it is to be continued.

CLUB WOMEN FIND PLEASURE IN BEAUTIFYING THEIR HOMES

COLLEGE STATION, March 6.—Texas women and girls, engaged in yard improvement work under extension guidance in 1934, carried through the drought alive 169,918 new shrubs in screen, border and foundation plantings placed according to landscaping plans. They also carried 25,666 trees through the "dry spell" and as part of improving the premises had 6,230 sanitary toilets built.

To carry on their landscaping they made 7,072 cutting beds in which 100,219 cuttings were living at the time the report was made. In addition to all this 6,681 old lawns were improved and 2,522 new lawns were sodded. The reported cost of the women's yard work was \$1,933.50. No estimate on what the girls spent was available. The estimated value to the improved farmsteads because of this landscaping was, according to Miss Onoh Jacks, extension landscape specialist, at least \$196,542.14 on the basis of the score card used in extension yard improvement work.

Typical of the attitude of these women and girls toward their work in beautifying farm homes is the story of Mrs. J. M. Dixon, of San Augustine county. "I am going to have a spring bouquet in my own back yard," said Mrs. Dixon. "I can go to the woods and get as many as I want. Right now I am planting a screen that will be a perfect bouquet in the spring, besides serving the useful purpose of hiding my wash place and potato hill. This screen is made against a background of winter myrtle and youpon. On the other side of my house I have planted a screen of privet against

A Vengeful Cook, a King and A Famine Made the Irish Potato Standard World Food

A vengeful cook, a king who adorned his buttonhole with a potato blossom, and a famine are historical incidents leading up to an estimate by modern home economics experts that about 14 per cent of all food cooked on the housewife's gas range is the popular Irish potato, according to J. A. Schnable, manager of the local gas company.

Louis XVI popularized the potato in France by wearing a potato blossom regularly in his button-hole, hence French fried potatoes became first a national and then an international food. In 1853, a Saratoga, New York cook, to get back at a patron who complained that his fried potatoes were too thick, sliced potatoes paper-thin, dropped them in hot grease and took out the first potato chips. With the failure of the potato crop and resultant famine in Ireland in 1845, began the great wave of Irish immigration to the United States which inaugurated the present day popularity of the starchy tuber.

Recipes brought over by these people and cooking methods have been so improved that housewives and professional cooks never need fear an end of tasty potato recipes. Latest are the potato combinations in oven dinners which are becoming so popular, according to Mr. Schnable.

"Everything is cooked in the oven," he said, "and the new recipe has been popularized by the new heat controlled, insulated ovens found on gas ranges which make oven dinners so easily served."

Several of the newest gas ranges are to be seen at the spring showing in the gas company office and local dealer showrooms. Latest improvements in gas ranges include non-chip enamel, built-in improvements in gas ranges include non-chip enamel, built-in type smokeless broilers that eliminate tipping and spilling, porcelain interior and exterior finish.

automatic lighters, simmer burners, utensil drawers, automatic heat controlled ovens with insulation which saves gas and keeps the kitchen cool. The gas company cooking experts have figured that a good meal can be prepared on one of these modern ranges for as low as one-third of a cent per person for the gas.

RETAIL SALES IN TEXAS CONTINUE UPWARD TREND

AUSTIN, March 6.—Retail sales in Texas during January continued on a relatively high level, according to data compiled by the University of Texas bureau of business research. Reports from 89 representative stores show an average increase of 8.8 per cent over January, 1934, and a decline less than the usual seasonal drop from December to January, the bureau's report said. The increase in sales for January in Austin, Dallas, San Antonio and Temple was greater than the average for the state. Of the five groups of establishments included in the 89 stores, men's clothing stores made the best comparative showing followed in order by women's specialty shops, large department stores, small department stores and dry goods and apparel stores. Collections of outstanding open credit accounts averaged 36.3 per cent of the total amount on the books on January 1, against 35.7 per cent during January last year.

City Officials Are Up for Reelection Tuesday, April 2

A municipal election has been called here for the first Tuesday in April, April 2, for the purpose of electing a mayor and two commissioners. Coincident with the call for the election comes the announcement that all present incumbents will allow their names to go on the ticket for reelection.

The decision of the present officials to serve again, if elected, was reached after a petition bearing a large number of names was presented, requesting them to agree to reelection. The petition received hearty support from the voters of the city.

The election will be held at the city hall. J. F. Lusk has been appointed election manager and will select assistants. The present commission is composed of: E. M. Lynn, mayor; E. Shepperd and George Holman, commissioners. Mr. Lynn has only been in office a short time, being appointed to succeed the late W. C. McCarver.

The petition was prompted by business men of Ballinger because of the excellent record made by the commission in recent years. The financial condition of the city of Ballinger is proof of their business ability and their interest in the administration.

**Ballinger Officers  
Take Part in Chase  
To Capture Bandit**

Sheriff W. A. Holt and deputies returned here Thursday morning after taking part in an all-night chase for a desperado west of San Angelo. About 30 West Texas officers surrounded a house in San Angelo about 7:30 Thursday morning and Houston Barker, wanted in San Antonio for armed robbery and for questioning in West Texas cities on hi-jacking charges, was arrested. The chase started at McCamey Wednesday afternoon when an attempt was made to arrest Barker. He opened fire on two officers, a bullet grazing one under the chin and another bullet going through the trousers of the other officer and striking a truss he was wearing. During Wednesday afternoon and night Barker stole several automobiles, shot and wounded a constable in the leg, wounded a by-stander in another skirmish, robbed a ranch man of a suit of clothes and forced him to dress wounds on his face, and later entered San Angelo and evaded officers there for several hours. Fay McNuln was arrested early Wednesday afternoon at McCamey and is being held in the Rankin jail. Both men are wanted on the same charges. Information given this afternoon was that both gunmen had been paroled from the state penitentiary.

**Kemp Unloads Car  
Case Implements  
And 1935 Tractors**

Frank Kemp is stocking a complete line of J. I. Case farm implements and will be ready this week-end to show those interested the latest 1935 models of the new tractor and connecting implements. Mr. Kemp unloaded a carload of these machines this week. For the present the machines will be displayed at the Farm Bureau gin near the Ballinger oil mill until permanent quarters are secured elsewhere. Mr. Kemp invites farmers of this trade territory to see these new type tractors with the "motor lift" in operation. This new device makes it possible to raise and lower plows by simply touching a button. In addition to the tractors, Mr. Kemp has a stock of plows, planters and other machines to be used in connection for general farming and later intends to stock the complete Case line in the Ballinger store. The Case name stands for one of the oldest standard lines in the country and is especially well known among the farmers. Mr. Kemp stated that he would be able to supply anything in the farm machinery line including reapers, mowers, threshers and combines. **AUTO STOLEN AT WINTERS  
RECOVERED AT RIVER FORD** An automobile belonging to J. A. Casey, San Angelo Standard field man, was stolen at Winters Wednesday afternoon. Officers were notified to be on the lookout here and Thursday morning found the car just across the old ford on the Colorado River here, where it was abandoned, stuck in the sand. Officers believe the same man who stole a car at Sweetwater the night before took the Casey car as an automobile bearing a Nolan county license was abandoned on the street near where Mr. Casey's car was parked in Winters.

**GOLDEN DRILLING BELOW  
1,700 FEET ON ITS NO. 7**

Ten-inch casing has been run to 1,437 feet and 8 1/2-inch casing will be run to about 1,800 feet soon. This well is a west offset to Petroleum Oil Interests No. 4-B Brevard, a producer. Drillers intend to bring in Golden No. 7 as soon as possible. Twenty-odd pumps are being operated in the McMillan field and a few wells on tracts that would mean extensions are shut down at this time but probably will be completed later. The vessel is seen hitting the waters of Lake Erie, sideways, instead of the orthodox method of sliding down the ways stern first. It is the 165-foot Coast Guard cutter Tahoma, now assigned to duty on Lake Erie. Shortly after the launching the Tahoma effected the rescue of a motor ship valued at \$300,000.

AROUND GREAT BRITAIN**  
LANCASHIRE, England, Mar. 6.—Ronald C. Bowie, a school teacher, is paddling alone in a canoe around Britain. "I cannot complete the trip before next spring," he said just before starting for Westminster. "I have only a small tent, sleeping bag and one change of clothing and some hard tack—biscuits, water, coffee and tinned meat. I am taking them in case I get blown out to sea. When I get to the north of Scotland in winter I shall shelter in bays and sleep on shore when the weather is bad. I may be held up for days, but I shall wait my chance to get from bay to bay." Supt. John Q. Adams was given quite a birthday surprise last Wednesday evening when a real feast was prepared and served by Mrs. Adams in honor of his 31st birthday. The large three-tiered cake made a very attractive centerpiece for the table, where guests were served. Those included were the Bethel faculty, members of the school board and their wives, and a number of their families. Games afforded entertainment following the dinner.

The indoor boys' team and track team, accompanied by their teachers, Henry Leach and Clyde Simmons, attended the invitation meet at Veribest Saturday.

### In Memory of Flora Irene Greenhill

Flora Irene was born in Texas Just fifteen years ago Of some kind and honest parents They were proud of her as we know.

She was kind and loved by all— Who knew her near and far, She was always bright and smiling Just as happy as a star.

Her friends were so many, If foes—they were unknown, She was loved by all of her friends, And she loved her friends too.

Flora Irene was not selfish, A sweet disposition she wore, Of bad habits there were none, And of good ones many more.

But God has his plan to call us, To His home of rest above, So let us prepare to meet Flora Irene, When we go to that home above.

But we should not weep, For we know she has gone to rest, In that heaven of beauty and glory above.

Where the loved ones like her are blest.

(Composed by a friend and pal, Juanis M. Nunley.)

She folded her hands and sweetly fell asleep in Jesus, To awaken in the newness of life, In the Father's house of many mansions.

As she lay there in her casket, We gazed upon her sweet face, So calm and peaceful, In its last resting place.

Dearest Flora thou hast left us, And our loss we deeply feel, But in God that has bereft us, He can all our sorrows heal.

A precious one from us has gone, A voice we loved is still, A place is vacant in our home Which never can be filled.

Weep not, dear ones, She is not dead but sleeping, We can not bring her back to us, But we can go to her.

All that her loving hands could do was done, But God needs another angel, So He took it one to fill the place.

God in His wisdom has recalled, The boon His love has given, But though her body slumbers here, Her soul is safe in Heaven.

She has gone to the land we call Heaven, Where the weary find sweet rest, Where she will spend the years eternal, With the purified and blest.

(Written and composed by a friend, Artelia Benfer.)

## SEVERAL FINE DOGS KILLED BY POISONER

During the past week a number of fine dogs have been poisoned in Ballinger. Q. V. Miller lost a bird dog the first of the week. Henry Jones found his dog dying of poison. W. W. Embry lost a good watch dog, and A. W. Malone lost a fine dog.

Chief of Police Lee Moreland has been watching for persons who might be distributing the poison here but so far no one has been arrested. The bait is usually fresh liver thrown in the yards of dog owners. Several dogs have been saved because their owners found them in time to apply antidotes.

Chief Moreland said the greater danger was that when food is used

for bait it might be picked up by a small child.

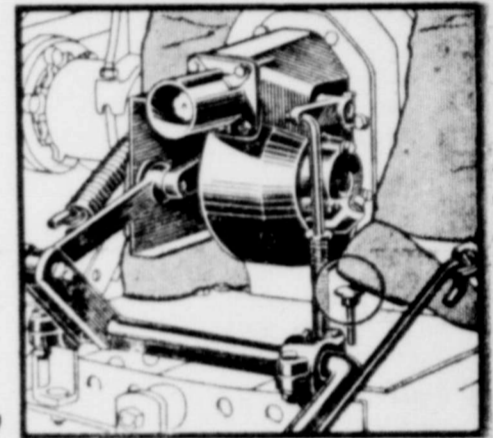

There is a maximum fine of \$200 for poisoning animals, officers pointed out, and distributing poisoned food can be made a felony with penitentiary sentence upon conviction.

## NAZIS RULE FILMS

### Several Fine Dogs Killed by Poisoner

BERLIN, March 6.—Educational films are being fostered by the Nazi government in Germany which has turned over all production to the ministry of propaganda. It is expected that the educational films will have a strong influence on the minds of the young. Nothing will be permitted in any pictures that will hurt the Nazi cause. The new law carries heavy penalties for violations, including prison sentences for serious breaches.

### HAS YOUR ADDRESS CHANGED RECENTLY?

Ledger subscribers are requested to notify the publisher of any change in their addresses promptly.

Under the new postal laws newspapers and periodicals must pay postage due for notices of any change in addresses furnished by the postoffice. Besides, there always is the probability that your paper will be delayed or fail to reach you altogether if you do not give immediate notification when you move.

The best plan for all concerned is send the change of address in advance.

Tax payments of all kinds should be made by March 15 in order to save penalties and interest. Income and franchise tax blanks must be filed by that date, the income returns going to the collector of internal revenue, Dallas, and the franchise tax to the secretary of state, Austin. For failure to make returns by that date penalties will be assessed.

The automobile has not replaced the horse and mule altogether in this section. Those who visited the First Monday trading grounds here this week saw plenty of livestock and also plenty of "swappers." The horse or mule is too slow as a means of transportation in this day and age but still has a place on the farm and ranch. Good saddle horses are an asset too, as part of their value is in their training.

Easter, the season for new apparel, is little more than a month distant. Ballinger merchants have visited the markets and selected merchandise that will compare with that in any of the metropolitan stores in style, quality and price. These stocks are arriving almost daily and are now being shown to the public. The local stores with their excellent merchandise are attracting many people to Ballinger and the busy period is yet to come.

The peace and dignity of Ballinger was disturbed Sunday night by an armed holdup. Masked men entered a hotel and at the point of guns took the cash from the office register and checks from one of the guests. It has been a long time since anything of this kind occurred here and many local citizens who had become careless, loaded their shot-guns Monday and made ready to give any unwelcome visitor an old time West Texas reception.

### A TRIBUTE TO SANDSTORMS

Hail to our sandstorms! The beauty that was Greece, the glory that was Rome, the undying honor that was due those immortal heroes at the Alamo, and the sleeping loveliness of an English hillside in autumn are as nothing compared with the genuine Panhandle duststorm. Those names and scenes that conjure up some of the most magnificent thoughts of the age fade into oblivion when compared with our superb and matchless sandstorms. We pay tribute to this awe-inspiring storm, which in its sinuous path across the mirage-infested plains makes the native sheiks of the Sahara fall to their knees in admiration and utter solemn praise to Allah.

Yesterday as the sun, a gallant sorrel steed, was winging its way into the roseate tints of the golden west, one of those magni-

By Minnie Fisher Cunningham

4-H club boys and girls—94 of them—of Wharton county went to the woods in January and brought back 147 native shrubs which they used with 32 other shrubs to beautify the Wharton fair grounds. A landscape plan was used to guide the planting.

Home grown grain, plenty of skim milk and green feed helped Orville Laabs, 15, Cameron county 4-H club poultry demonstrator, to keep his feed cost down to 53 cents per hen for 10 1/2 months.

An average gain of 542 pounds for the 27 4-H club calves being fed out in Menard county sets a record for the 209-day feeding period reports Frank Newsom, agricultural agent, who thinks his boys are smart to have defied the drought so successfully. The ration, changed from time to time, was largely corn, barley, oats, sweet feed and cotton seed cake.

In Goliad county nine boys are cooperating in a demonstration in which 23 pigs have been put on feed in a splendid location with access to plenty of green pasture. They will have self-feeders, constructed the A & M way, and shelled corn combined with protein supplement will be the ration. Local bankers have set up a revolving fund to help the boys finance the venture and the Goliad Rotary Club has underwritten it for them.

4-H club girls in Gregg county have taken up yard improvement work with enthusiasm. Each club has a demonstrator who will beautify her whole yard while all other girls are cooperators and have as their goal cleaning their yards of all rubbish, starting a cutting bed to grow shrubs for later planting around the house, and making a flower bed of annuals.

The Ex-Texas Rangers' Association has chosen Santa Anna as the site for its new building which will serve as a home and club house. The home will be erected near the Santa Anna park which is being surveyed and landscaped by the state highway department.

The Coleman county commissioners' court recently discussed ways and means of raising the old county jail and erecting a new one. At the March 11 meeting of the court it is hoped to take definite steps towards launching the project. The commissioners estimate the new prison would cost \$20,000.

Building activities at Brady recall the pre-depression period. New construction and remodeling will take in the entire west side of the city and includes rebuilding a tourist camp, beautifying grounds at the west ward school, erection of a modern filling station, additions to several residences, cover-

ing drainage ditches on principal streets, building a new warehouse, and numerous other jobs.

De Leon citizens have started plans for staging a free fall fair. The tentative date was set for September. The plans call for a much larger program of amusements and exhibits than have ever been shown before.

The second annual fat stock show at Bronte will be held tomorrow (Friday), and elaborate preparations were made for the program. The show is composed of exhibits by vocational agriculture students who have been feeding livestock since last fall.

Covey, who has been superintendent of the Sonora schools, will move to Sweetwater to take the position now held by Mr. McLain.

### Trees and Shrubs Planted by Home Economics Pupils

The home economics class of the Ballinger high school planted shrubs and trees around the home economics building this week as a part of the program being carried on for the beautification of the school grounds. The home economics class paid for and planted all these shrubs and trees.

Other shrubs and trees were planted at various places on the high school campus through efforts of the school board. The board paid for the trees, shrubs and planting on the remainder of the campus.

This is a continuation of the beautification program started last year. Last year trees and shrubs were planted on the campus of both the primary and intermediate schools and the grounds were leveled in places where they were unusually rough. Grass was planted and kept watered during the summer and the campus is now in better condition than it has been in for several years.

The high school was the last of the schools located together between Broadway and Eighth Street, to have anything done towards beautifying its campus, but with the setting out of the signs and shrubs around the home economics building and the main building it is hoped that further improvements will be made soon.

Nothing has been done at the west ward school on improving the grounds but a few trees and shrubs and possibly grass may be planted on the campus there either in the spring or summer.

#### Card of Thanks

We wish to take this method of expressing our deepest appreciation to our friends for their many acts of kindness, for the sympathy shown us, and for the love and ministering unto our beloved husband, father and brother in his illness and death. We also feel deeply indebted for the beautiful floral offerings. All these things greatly helped us to bear our deep grief. That God may grant all these blessings when times of sorrow come to you is the sincere prayer of

### BOY SCOUT NEWS

By Paul Trammier, Jr.  
Troop leader

At the last meeting troop 30 was organized into two patrols with Jack Bandy McGreger leader of the Wolf patrol and Thomas Parrish assistant. J. W. Manikin was made leader of the Owl patrol and Edward A. Fair assistant.

The Ballinger Scouts feel fortunate in having Mr. Tom Agnew as their new camp man and are looking forward to having him visit the troop. They are anxious to go on the first hike with him.

Guy Lively, Jr. joined the Wolf patrol and Douglas Cox joined the Owl patrol at the last meeting. Guy's father honored the troop with a visit and the boys want other fathers to come often to attend meetings and watch the work.

Last week's "good turn" was "help your mother." Scouts tried to help with the work around home as much as they could and want to be of assistance to their mothers every day.

Next week the Scouts will have Rev. J. H. McClain for a short talk and will learn how to tie knots and hold contests as well as continue the "good turn" through the Sunday school. Each Scout will try to attend Sunday school next Sunday and take a new member with him.

### BABY DAUGHTER FOR MARLINS

Ballinger friends of Rev. and Mrs. H. D. Marlin, of Hanley, received an announcement this week of the arrival of a fine girl on February 27. The baby daughter has been christened **Tennie Louise**. Rev. Marlin was formerly pastor of the Methodist church here.

### Office Building For Relief Group To be Ready Soon

The Funnels county relief board offices will be moved the first of next week to the new building in the court house yard. In January a stone annex to the old Funnels county jail was begun to provide a permanent home for the administrative body and it is said to be the first building in Texas constructed for this purpose.

For the past two years relief offices have been maintained in American Legion Hall (Carnegie Library building) on Eighth Street. The new building, 30 by 80 feet of stone construction, is modern in every respect. The rock work was completed this week and carpenters and painters will finish the interior this week-end.

The old jail building has been used for the past year as a relief carrying plant and sewing room. Part of the old jail will be reconditioned and used by the relief board for offices and a sewing room.

The annex has been built at a cost of approximately \$4,500.

The local American Legion post will again occupy the library building holding regular meetings, and also operating its club house there. While it was occupied by the relief board the post has held only called meetings at the city hall.

### PROTRACTED MEETING BEGINS NEAR PASSENGER STATION

An old time protracted meeting was started here this week in the building just across the avenue from the Santa Fe passenger station on Seventh Street.

Evangelist Gilbert Wilson will deliver sermons at each service, and Charles Sparks, of San Angelo, will be in charge of the singing.

The public is invited to attend the revival and those who have heard the evangelistic workers in the meeting here, say "if you go once you will want to attend every night."

### Card of Thanks

We wish to express our sincere appreciation to the friends and neighbors who were so kind during the illness and at the death of our dear husband and father, J. T. Hornburg. The true friends who were so thoughtful have been a real comfort to us in this sad hour. Especially do we appreciate the beautiful floral offering which was sent as a tribute by his friends.
