

THE BALLINGER LEDGER

VOLUME 54.

BALLINGER, TEXAS, THURSDAY, AUGUST 1, 1935.

NUMBER 47

One Killed and Several Injured in Car Wrecks

Paul Bryant, 24, was killed, and Donald Smith seriously injured in an automobile-truck collision at Rowena Monday morning about 12:30.

Bryant died about 3 a. m. from internal injuries sustained in the crash. Besides a crushed pelvis, the left arm was broken in two places, the right leg was fractured and cuts and bruises were found all over the body.

Bryant was riding on the left running board of the truck, driven by Fred Moncrief, of Ballinger. Donald Smith, employee of the local Piggly Wiggly store, was driving a model A Ford convertible coupe in the opposite direction and when the truck swerved to the left to pass a parked car, the coupe driven by Smith collided with the truck and crushed Bryant into the side of the truck.

Smith sustained many cuts about the face and body and numerous stitches were required to close the wounds. Both Smith and Bryant were brought to the local hospital for surgical treatment. Bryant died before fully regaining consciousness and Smith was taken home after his injuries had been treated.

None of the other occupants of the car and truck, all of Ballinger, suffered serious injury.

Funeral rites for Bryant were held Tuesday afternoon at Sunny Point, Hopkins county, Rev. Robert Ridley officiating. The body was prepared for burial by King-Holt Funeral Home undertakers and shipped to the place of burial on the Santa Fe Monday night.

Decedent had resided in Ballinger for the past seven years and had recently been employed by Gene Crawford on a threshing crew. Survivors include his father, R. J. Bryant, Pearsall, two sisters, Mrs. T. H. Tarrant, Cumby, and Mrs. Cal Adair, Ballinger, and three brothers, Carl Bryant, of Campbell; Jack and R. J. Bryant, Jr., of Ballinger.

A. C. Bauer, former resident of Ballinger, who has been visiting here this week, did considerable damage to his new V-8 Ford coupe at Ovalo early Monday night when he lost control of the car and crashed into the embankment at the side of the road. Bauer was coming south at the time of the accident and caught his front bumper in the front wheel of another car, which was going in the opposite direction. The impact threw Bauer's automobile off the pavement into the hard rock and dirt embankment. He was brought to the local sanitarium for treatment and is now recuperating at the home of Ira L. Sims. He sustained minor cuts about the face and head and several severe bruises on other parts of the body.

Roy Hudson, of Lawn, smashed his automobile, a 33 model Chevrolet coupe, Monday morning about 2:30, running into a highway fence at Hatchel. His car was practically demolished when it turned over twice. Hudson was not injured. The car was brought to Ballinger for repairs.

A Plymouth coupe driven by W. A. Nance, Jr., and a model A Ford sedan driven by W. A. Taylor collided Sunday night about 8:30 in

51 Runnels County People Attending Farm Short Course

The Runnels county delegation to the farmers' short course at College Station left here Sunday morning at 8 o'clock on a special train. Fifty-one from this county are taking subjects in one of the largest summer schools ever held at A. & M.

County Agent Elmo V. Cook left in his car with his family early Sunday morning. He made the trip by automobile so he could attend to business in other sections of the state immediately following the short course and while away will visit some of the large hog farms of the state, looking for registered pigs to be fed by club boys of this county beginning about September 1.

Miss Myra Tankersley, county home demonstration agent, accompanied the local delegation on the special Santa Fe train Sunday morning. She reported good representation from the home demonstration clubs of the county and said practically all the girls' clubs had delegates.

The Runnels county group arrived at College Station Sunday afternoon and assignment to quarters was finished before supper time. County agents and home demonstration agents were billeted at Bryan in order to make room at the college dormitories for the farmers, housewives, boys and girls.

Many of the men and boys are spending the nights this week in the athletic stadium where hundreds of cots were arranged for sleeping outdoors.

The 1935 short course includes lectures and demonstrations and a free recreational program each evening.

All those who do not take side trips at the close of the short course will return home next Saturday on the regular morning train.

WINGATE SCHOOL DISTRICT PURCHASES NEW DODGE BUS

The Wingate independent school district purchased a new Dodge bus this week for use on school routes. The new conveyance will comfortably accommodate fifty pupils and the driver, but more can be taken care of in an emergency.

Last year this district purchased a large International bus and with the new addition, the transportation facilities for the district are as good as any in the county.

front of the high school campus here. The machines hit head-on and considerable damage was done to each.

Another accident Sunday afternoon occurred near Pony when a model A Ford driven by Edwin Schuchard skidded into a deep ditch. No one was injured and the auto was not damaged with the exception of broken glass in one door.

County-City WPA Projects Being Planned for Filing

Towner Dickinson, relief work supervisor for Runnels county, is preparing plans and estimating costs on a number of WPA projects which will be filed as soon as orders are given by the state headquarters that political subdivisions may apply.

One project already prepared asks for WPA help in the construction of ten box culverts in the city of Ballinger and a bridge on Thirteenth Street to replace an old worn out wooden structure. Mr. Dickinson said all culverts would be built of stone and when completed very few bad dips would remain in the city limits.

Work is continuing on the drainage system, and a number of culverts are being constructed. At the 200 block on Ninth Street drainage lines are being faced with stone and culverts are to be built at each avenue intersection. The main lines lead to the large ditch along Park Avenue.

Projects are being prepared on

the proposed 86 miles of lateral road work in Runnels county recently authorized by the commissioners' court. This construction is too large to submit under one project as no applications are accepted by the WPA for more than \$25,000. Mr. Dickinson estimates that only about 11 miles can be built under one application or grant but that projects may be filed from each commissioner's precinct and as fast as a job is completed, another may be submitted.

Roads to be built under this specification would have a six-inch caliche base. It is estimated that this would require approximately 1,565 yards of caliche to the mile which can be put on the roadbed at a cost of \$1.40 per yard.

The 86 miles of improved roads would serve a large part of the county but there would still be many miles of unfinished roads which could be submitted as projects later.

Baby Slayer is Denied Bond

First Test of Flying Fortress

Poised on the runway at Seattle, Wash., the 15-ton giant mystery bomber, said to be the largest land plane ever built, is shown getting its final tuning before taking off on the first of a number of trial hops, and its final test flight from Seattle to Dayton, O., to compete for army contracts. All the latest innovations of aeronautics are included in this 70-foot battle cruiser, with its four 725-horsepower motors, which will carry it over a nonstop range of 2500 miles at from 200 to 250 miles an hour. A new unbreakable glass protects the nose and four machine gun turrets of this flying giant.

State-County Tax Rate Cut; No Change in City and School

The commissioners' court in session here this week set the county tax rate for next year at 56 cents. This is a reduction of one cent over the rate for this year.

The state levy for next year has been reduced 15 cents, bringing it to 62 cents against the 77 cents collected this year. This will make the combined rate for county and state taxes for the ensuing year \$1.18 on the \$100 valuation.

The reduction of one cent in the county rate came from various

savings and from a slight increase in valuations after the board of equalization completed its work. The 56-cent rate is considered ample to take care of the county's budget for the next year. The state reduction was because money on hand in the school fund was greater.

The city tax rate will remain the same as this year, \$1.15 on the \$100, and the school district tax will remain at \$1. This will make the total tax rate for Ballinger citizens \$3.33 in 1936.

Chicago Man Here To Study Problems Of Transportation

Mr. Davis, of Chicago, representative and field man for the Rosenwald Fund, was a visitor in Ballinger Monday. He stated that Runnels county was recommended to him by State Superintendent L. A. Woods as being one of the outstanding counties in the state in regard to the transportation of rural high school students.

The Rosenwald fund was provided by its founder for the development and building up of negro schools in the United States. Recently the organization has branched out, however, and is particularly interested in rural school transportation problems.

Mr. Davis spent some time here Monday studying and learning the problems of the county in regard to the transportation of rural pupils.

County Superintendent E. C. Grindstaff felt highly complimented that State Superintendent Woods pointed out that Runnels county was a good example of efficient transportation.

WRIGHT ELECTED COACH OF PUTNAM HIGH SCHOOL

Bill Wright has been elected to the Putnam high school faculty and will coach the football team at that place. Members of the Putnam board were here Tuesday to confer with Mr. Wright. He accepted the offer and will begin his coaching duties the first Monday in September.

The Putnam trustees told Mr. Wright that he would have charge of a squad of approximately 35, including nine lettermen from last year's team.

District Governor Pays Annual Visit To Rotarians Here

Jim Wilson, of Floydada, governor of the 41st Rotary district, paid his annual visit to the local club Monday evening and Tuesday. He met with officials and committee chairmen Monday evening to go over the records and make suggestions for improving the club. He was complimentary of the work being done here and the active membership.

Mr. Wilson addressed local Rotarians at their noon luncheon Tuesday, taking up the six major objectives of Rotary and stressing world peace. Much time to the individual clubs and to the Rotary international. He has visited and worked with clubs in every state in the union and in 37 nations of the world. Last year he spent several months in the Orient, studying economic and peace conditions, and spoke on the subject from a personal knowledge gained first hand.

Practically all the members of the Ballinger club were present to hear the visiting official.

FARM DEBT ADJUSTMENT HEAD VISITS HERE

Paul Davis, of San Angelo, was in Ballinger the past week-end to attend to business. Mr. Davis is in charge of the district work for the farm debt adjustment corporation with district offices in San Angelo and while here made investigations regarding men to be appointed to the Runnels county committee.

Mr. Davis invited citizens of Runnels county to use his office and stated that any farmer with property in distressed condition would receive cooperation from his office. A meeting was held last Saturday at San Angelo with representatives present from most of the counties in this section.

County's Farmers to Receive \$565,590 from Government

There are 2,235 cotton acreage contract signers this year in Runnels county. This is a considerable increase over the number last year and 375 of the AAA signers this year are new. To date 1,725 first payment checks have been received and distributed for a total of \$94,875 and 518 first rental payments are still due for \$28,050.

Second rental payments are due in August and September and Runnels county farmers will receive \$122,925 from this source. Parity payments will be made on the 1935 contracts in December and the total for the contract signers here is \$98,340.

In 1934 there were issued to farmers of Runnels county tax exemption certificates for 8,000,000 pounds more cotton than were raised. In the national pool 4,790,000 pounds were sold, bringing the farmers of this county \$790,400 and at this time certifi-

cates for 622,000 pounds are being offered for sale in a special pool which will bring in the total of \$31,000. There will be reissued to farmers of Runnels county certificates for 2,599,690 pounds, which will be worth half the price of cotton when used for ginning this fall.

In the corn-hog reduction campaign this year, 95 Runnels county growers signed contracts and a check-up reveals there are 18 wheat contracts signed. The scale upon which these contracts will be figured has not been announced by the department of agriculture.

The above benefits through the federal government's agricultural plan make the returns for Runnels county farmers more than half a million dollars, not including certificates reissued and regulating the price of cotton for the coming harvest season.

New Game Ruling Orders New Device For All Shot-Guns

A new law that will affect all hunters of migratory birds will be in effect with the opening of the dove season September 1. Local gun dealers are notifying owners of their makes of guns that a small attachment must be put on every pump or automatic gun, to allow carrying only three shells in the gun at one time.

It will be unlawful to hunt without this attachment on old guns and many of the new guns will only have a magazine holding two shells besides the one in the barrel. Game authorities think hunters with only three shells in their guns will be handicapped to some extent and that bag limits will be harder to get. Heretofore all shotguns have had magazines which would hold five or six shells plus one in the magazine, giving the hunter six or seven shots at a bird.

The new law will greatly affect duck hunting later in the year, as these birds are scarcer, and when found, it will be difficult to get more than the three shots before they move. Dove hunting will not be affected here much as these birds are so plentiful in the fall that hunters can find almost steady shooting and will be able to load often and continue to shoot.

Any local gun dealer will be glad to order the attachment and put it on the gun.

Miss Viola Clare, of Oplim, is a guest of her aunt, Mrs. Bert King.

Wolverton Nearing Contracted Depth; Castor Moving Rig

The Wolverton-Willingham No. 1 was nearing the contracted depth this (Thursday) afternoon. A gauge of the hole at 4 p. m. showed the bit working at 2,450 feet and the remaining 90 feet on the contract was expected to be completed Friday. The drillers were trying to ease off a caving hole. Operators were watching anxiously for some sign of pay sand.

John Castor announced today that he was moving a standard rig to the location of a new test on the H. Giesecke ranch to be drilled by himself and the Golden Petroleum Company. Mr. Castor is not superstitious but intends to take the rig from the old Bluebonnet well, which marked the beginning of real production in the McMillan field, to drill the new test. As soon as it can be moved and rigged up drilling will commence.

A crew was cleaning up around the Melrose Oil Co. test on the Mrs. L. P. Wood place near Runnels and intends to complete this well soon.

Mrs. E. Sheppard and daughter, Miss Nell, left Wednesday afternoon for Waco to visit several days.

Funeral services for Jacques Woodrow Willingham, Jr., 2-year-old son of Mr. and Mrs. J. W. Willingham, of San Angelo, were held at the C. H. Willingham residence here, 301 Twelfth Street, Wednesday afternoon at 5 o'clock. Rev. J. H. McClain officiating. Interment was made in Evergreen Cemetery.

The child died Tuesday morning from the effects of a bullet wound in the stomach received from a shot fired through the back of the father's car as he was driving away from the Well, San Angelo night club.

Mark Shipley, deputy sheriff of Big Lake, is in jail at San Angelo charged with murder with malice and has been denied bond. According to information brought out at the examining trial, the father of the child and the deputy had engaged in a fist fight at the resort. Willingham was quoted as saying that he was going to take his son home, and got in his car with another man and started to drive away. Witnesses testified that when the automobile was approximately 100 yards away, Shipley fired a shot from a pistol. The bullet hit the back of the car and the baby sleeping in the rear seat was mortally wounded.

The child was taken immediately to a San Angelo hospital but died in a short time. Officers were notified and went to the Well and told Shipley that he had wounded a baby, requesting him to go to the hospital with them to see how the child was doing. Shipley followed the officers in his car for a while and then lost them on a side street and was not seen until the next morning when he gave himself up at police headquarters.

Survivors are the parents, a brother, J. Valton, 11 months old; the grandparents, Mr. and Mrs. R. E. Willingham, of Ballinger; and the great grandmother, Mrs. C. H. Willingham, of Ballinger.

Funeral services were held at the King-Holt Funeral Home, Ballinger, Monday afternoon. The casket was borne by the Willingham family and the Golden Petroleum Company. Mr. Castor is not superstitious but intends to take the rig from the old Bluebonnet well, which marked the beginning of real production in the McMillan field, to drill the new test. As soon as it can be moved and rigged up drilling will commence.

Local Man Collects Data On Famous Woman's Life

On his recent trip to Georgia, W. D. Seales collected some very interesting facts about his home state and county. Mr. Seales was reared in Hart county, Georgia, and according to the information he gathered, it is the only county in any state in the union named in honor of a woman. This woman so honored was a rugged pioneer of the South by the name of Nancy Hart.

Many stories are told of the heroic deeds of this woman and all of them are supported by facts. The United States government erected a monument in Hart county in honor of Nancy Hart which has inscribed upon it: Erected by the Government of the United States in the year 1931 to commemorate the heroism of Nancy Hart.

During the American revolution a party of British Tories came to her home. Single handed she killed one and wounded another. The remainder of the party surrendered and were later hanged by her and a few neighbors.

Nancy Hart is described as a very masculine woman, six feet tall and with a fiery temper. She hated Tories and never lost an opportunity to let them know it. One of the stories told of Nancy Hart happened one evening while she was sitting in front of a big fire with her children, making soap. The boiling soap was so hot that she stepped over the fire and Nancy was scolding it. One of the children saw someone peeping through the window and by signs let Nancy know of it. She kept stirring the soap but kept one eye on the window. Suddenly she dashed a tangle of scalding soap through the window, blinding the eavesdropper. Nancy went outside, arrested herself at his expense, and took him as a prisoner.

The story which is referred to in the inscription on the monument erected in her honor is one of the most interesting and describes her bravery and fiery disposition possibly more truly than any of the other legends. A detachment of five or six Tories came to her home one day while she and one small daughter were the only ones on the premises. They demanded something to eat. An old turkey was shot and Nancy was ordered to clean and cook it for the unwelcome guests. She sent the little girl to the well for water and secretly told her to blow the conch shell as small shell used for calling the men in from the fields usually but at that time it was used for letting the neighbors and the men of the family know the turkey was ready to eat and Nancy began serving it in her best style. While serving the dinner, Nancy frequently passed between the men and their guns, which were stacked as a corner. Suddenly she seized one of the guns from the stack and swore that she would shoot the first man who moved a foot. One of the most daring stepped forward, Nancy fired, and he fell to the floor dead. She seized another gun and told the little girl to go and blow the conch shell again. The Tories became very excited at the order the woman gave the little girl and two or three stepped for-

ward. Nancy Hart fired again and another Tory fell mortally wounded. She held the others until the neighbors and her husband arrived.

Her real hatred for Tories was demonstrated when the men who came to her aid started to shoot down the invaders. Nancy stopped them, saying, "Stop, they are my prisoners. Shooting is too good for them. They must swing for their crimes." The hint was enough. The men were dragged out and hanged to a tree.

Many other stories of this brave woman are related by historians but the above are the most famous tales of the pioneer housewife. She is not cited as typical of the period but is considered the outstanding woman of Georgia's history and one of the most noted women of the Revolution.

Sheriff's Sale
STATE OF TEXAS,
County of Runnels,
In the District Court of Runnels County, Texas.

J. J. Shuler, Plaintiff, vs. Clyde M. Donaldson and wife, Mary E. Donaldson, Jesse H. Lott and wife, Mary Lott, Defendants.

Whereas, by virtue of an order of sale and an execution issued out of the District Court of Runnels County, Texas, on a judgment rendered in said court on the 20th day of April, 1935, in favor of the said J. J. Shuler against the said Clyde M. Donaldson and wife, Mary E. Donaldson, Jesse H. Lott and wife, Mary Lott, No. 4119 on the docket of said court, I did, on the 19th day of July, 1935, at four o'clock p. m., levy upon the following described tracts and parcels of land situated in the County of Runnels, State of Texas, and belonging to the said Clyde M. Donaldson and wife, Mary E. Donaldson, Jesse H. Lott and wife, Mary Lott, to-wit:

Being Lot No. One in Block No. Twenty of the original town of Miles as the same appears of record in Volume 17 at page 14 of the Deed Records of Runnels County, Texas, such property being known as the Donaldson residence; and on the 1st day of September, 1935, being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on said day, at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said Clyde M. Donaldson and wife, Mary E. Donaldson, and Jesse H. Lott and wife, Mary Lott, in and to said property.

Dated at Ballinger, Texas, this 19th day of July, A. D. 1935.
W. A. HOLT,
Sheriff, Runnels County, Texas. 1-8-15

BAPTISTS TO HOLD LAY SERVICE SUNDAY

A group of laymen from the Western Baptist church will come here Sunday morning and have charge of the 11 o'clock service at the Ballinger Baptist Church. Rev. J. H. McClain, pastor, announced this special service Wednesday and urges that members of the congregation be present to hear the speakers.

Joe Baker, of Winters, will conduct the program and other lay speakers will assist in the service.

Taking a Flyer in 'Live' Stock

Dynamite's almost stiff compared to a bucking, snorting ton of hotshot on the hoof. The viciousness of this bull, trying in vain to unseat a rider in the cowhand contest of a western rodeo, would turn the wildest broncho green with envy. But still the rider kept his seat.

Ballinger Guard Unit Will Entrain Saturday for Annual Encampment

The Ballinger national guard company will entrain for Camp Hulen, Palacios, at 12:01 Saturday morning. Capt. Ross Murchison, commander of company C, 142nd infantry, said 94 enlisted men and three officers would attend the encampment this summer. All equipment will be taken from the local armory and used at the camp.

Other officers assisting Capt. Murchison in directing the company are First Lieutenant Joe Beck, Jr., and Second Lieutenant Sam Davis. The staff of non-coms is completed with all sergeants and corporals on the job. About one-third of the com-

pany has attended encampments previously and the remainder of the company include first year recruits. Most of the "rookies" have had approximately a year's training, however, and have stood a number of inspections, including federal inspection in April. Last year the Ballinger unit made an exceptional showing at the annual encampment and the local officers are hoping the company will prove as efficient this year.

The men will return home on Sunday, August 18, and as soon as equipment is unloaded and stored in the armory, the company will be dismissed.

UP-AND-DOING CLUB

The Hatchet Up-and-Doing Club met at the home of Mrs. Key Williams July 25. Mrs. O. C. Beddo, Mrs. H. Therer, Mrs. A. B. Davis and Miss Ruth Bailey are the delegates to the short course this year.

Miss Myra Tankersley, county home demonstration agent, gave a lecture and demonstration on how to scour wool. If anyone wants wool scoured Miss Tankersley will give another demonstration some time next month.

Club members should be canning for showing at the Runnels County Fair. Square jars with glass tops will be used. In last year's year book is the score card to be used. Members should be planning to attend the annual club encampment August 14-15 at the Ballinger city park. The program for this event will be worked out by those who have attended the short course on the way back.

Club members have been busy canning, 484 quarts of vegetables, 483 quarts of fruit, 132 quarts of pickles and relishes, and 43 quarts of jellies and preserves being reported by those present at this meeting.

Refreshments of cake and ice cream were served by the hostess to the following: Miss Myra Tankersley, Mrs. George Holliday, Mrs. Irvin Mathis, Mrs. Bill Mathis, Mrs. A. B. Davis, Mrs. Baxter Campbell, Misses Naomi and Edna Marie Williams, Ruth Bailey, Lola Heninger, and a number of children.

The place of the next meeting will be announced later.

Try CARDUI For Functional Monthly Pains

Women from the 'teen age to the change of life have found Cardui genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Crit Haynes, of Essex, Mo., writes: "I used Cardui when a girl for cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

New Stunts Added To Brownwood Regatta Program

BROWNWOOD, July 31.—Addition of a free-for-all runabout race for Sunday afternoon and division of the Saturday races into three classes has heightened interest in the boat races and regatta to be held at Lake Brownwood Saturday and Sunday, August 3 and 4.

Prizes of \$40, \$25 and \$10 have been announced by the regatta association for the runabout race. This race is expected to attract a large field, as it has been added by the racing committee at the request of the racers.

The National Outboard Association program includes races for classes A, B, C and F outboards. The races will be run over a one-mile course, in two heats of five miles each. Prizes in each race will be \$65, \$45, \$25 and \$15.

In addition to the regular regatta, Bob Bradford, director of life saving, Fort Worth chapter, American Red Cross, with three of his pupils will give two diving exhibitions, one Saturday morning and the second Sunday afternoon. Entries in the bathing revue to be held in connection with the Charlie Davis dance Saturday night have been received from a number of nearby towns. Sixteen Brownwood merchants are planning to have bathing revue entries. The dance will be held in Memorial Hall. In addition to the bathing revue there will be an elaborate floor show featuring Sallie Gay and other artists. The orchestra is now playing an engagement at the Roosevelt Hotel, New Orleans, and will open at the Adolphus Hotel, Dallas, August 8. Provision has been made for those who wish to see the bathing revue and floor show for admission to the galleries at a nominal charge.

FEMALE ECONOMY SCOUTED

NEW YORK, July 31.—A marketing report says that women consider economy only when they buy the more commonly used articles. The prices of goods that are bought only occasionally are not studied as closely.

Chester Cherry went to Santa Anna Monday morning to attend to business several days.

One Vacancy Filled On School Faculty

The Ballinger school board filled one of the three vacancies on the local faculty this week with the election of Mrs. Susie Hale Kallina as English teacher in the junior high school. Mrs. Kallina holds B. A. and B. E. degrees and has teaching experience which makes her exceptionally well qualified.

Miss Katherine Todd, who resigned as public school music supervisor, is here this week visiting friends and attending to business. She will go to Port Arthur on September 1 to take the position of public school music supervisor in the junior high school there. No one has been elected to this position here and will not be until after Miss Carmen Demmer, music teacher in the junior high school, returns from Madison.

Wisconsin, where she is taking advanced courses in public school music this summer.

The other vacancy is the assistant coach and a member of the junior high school faculty. Clarence McCarver resigned this place to accept a position at Howard Payne College, Brownwood. The board will not elect McCarver's successor for some time as it has several prospects with whom it is trying to communicate.

DAIRYMAIDS ORGANIZED

YORK, England, July 31.—Dairymaids of Great Britain have formed the British Dairymaids' Association and branches have been established in many places in Scotland. Nearly 100 attended a meeting and excursion at Der-culich, Scotland. A feature of the program was an inspection of a model dairy farm.

Chesterfields "go to town"

They Satisfy

—that's just the 1935 way of saying what Chesterfields have been saying for years...

Chesterfields do about everything a cigarette ought to do.

Chesterfields have TASTE—yes plenty of it. But not too strong.

And Chesterfields are MILD—but they're not insipid or flat.

Chesterfields "go to town"

NORTH NORTON NEWS

The meeting conducted by Ike Hayhurst, of Wilmett, at the Church of Christ has closed. Attendance was hindered by showers.

Miss Zaola Mae Wilson visited in the home of her uncle, Elmer Wilson, of Poe, over the week-end.

The family of Harvey Bryan is on the sick list. We wish for them a speedy recovery.

Mr. and Mrs. Lawrence Bryan and children have returned from a week's visit with Mrs. Bryan's uncle at Alto, Texas.

Mr. and Mrs. Earl Ballew and son, Delbert, of Wilmett, spent Friday in the home of Mr. and Mrs. F. E. Lawler. Mr. Ballew and Mr. Lawler are cousins.

Mr. and Mrs. A. W. Nix and family have returned after a few days' visit with relatives at Big Spring.

Mr. and Mrs. R. W. Bryan have returned from Hill county, where they visited Mr. Bryan's brother, who has been very ill.

Joe L. Smith transacted business at Wingate Monday.

Everett Millar, of Hill county, is visiting his aunt, Mrs. Ed Bryan, and other relatives.

D. B. Underwood transacted business in Winters Monday.

Mrs. F. Y. Little and her sister, Mrs. S. Y. Little, visited Mrs. Frank Hale, of Mann, Thursday.

HERRING HOURGLASS

Crops are looking fine. The showers last week were greatly appreciated; they will make late feed and help the older maize to mature. Some report worms, fleas and boll weevils working in their fields, so far that reason some sunshine is welcome.

The revival here closed Sunday at the 11 o'clock service. Rev. Funderburk, the pastor, did the preaching and delivered a fine message at every service. Attendance was large at both night and day service. Three were baptized.

Mr. and Mrs. Leonard Norris, of Wichita Falls, are visiting Mr. and Mrs. Brandon, Jim Norris, of Talpa, was also a guest in this home Sunday.

Mr. and Mrs. Walter (Son) Hale and son, Elmo, of Houston, are guests of Mr. and Mrs. W. A. Hale.

Mrs. Mears Kerby, of Electra, is visiting relatives and friends in this community.

Mr. and Mrs. L. A. Faubion are the proud parents of a fine baby girl.

Mr. and Mrs. W. A. Hale, Miss Myrtle Ruth and Walter Hale spent Sunday with Mr. and Mrs. Arthur Alcorn.

Mr. and Mrs. Joe Brister and son, Elvis, of Abilene; Mr. and Mrs. Walter Little and daughter, of Oxien; Mr. and Mrs. Lonnie Alcorn and son, of this community; Mr. and Mrs. Raymond Cox and daughters, of Talpa; and Mr. and Mrs. Eldon Avent and daughter, of Oak Grove, were guests in the G. C. Avent home Sunday.

Mr. and Mrs. Ellis Madison and little daughters, of Winters; and Mr. and Mrs. Ray Mullanax, of Valera, spent Sunday in the Joe Bragg home.

Mr. and Mrs. C. H. Grounds, of Talpa, visited Mr. and Mrs. Owen Bragg Sunday.

Aubrey and Elbert Whitley, of Breckenridge, spent Saturday night and Sunday in this community.

Miss Althea Brister, of Abilene, returned home Sunday after spending two weeks as the guest of Miss Mona Avent.

Mr. and Mrs. Uzema Davis and

family, of Temple, spent Saturday night with the former's uncle, J. P. Brevard, and family.

Mr. and Mrs. W. A. Hale and Myrtle Ruth and Mrs. Arthur Alcorn and Arnold spent Tuesday with Mrs. Play Brevard, of Glen Cove.

CREWS CHATTER

Fine rains the past two weeks have put crops in fine condition. Considerable plowing and hoeing is now required as grass and weeds flourish in the rain and hot sunshine.

The Baptist meeting began Tuesday night. Rev. W. R. Davis, of Paducah, is assisting the pastor. Large crowds are attending. Bro. Davis is a preacher excelled by few. He is a fine orator, and presents the plan of salvation, telling of God's great love in a way that touches the hearts of his hearers.

Mrs. Mona Dye, of Dallas, is a guest of her aunt, Mrs. George Phillips.

Lawanda and Bonita Johnson, of Austin, are guests of their grandmother, Mrs. R. T. Lucas, and other relatives.

Numbers of friends here have been visiting Grandmother Branham, who is critically ill at the home of her son, Edgar Branham, in the Harmony community. Death was momentarily expected at the last report.

Miss Bonnie Mae Clark is visiting relatives at Abilene.

Mr. and Mrs. Henry Berry attended the funeral Sunday at Merkel of the 17-month-old twin baby of Mr. and Mrs. Clinton Handley. Mr. and Mrs. Handley were residents of this community a few years ago. Sympathy is extended.

Mrs. Jimmie Lucas visited her grandmother, Mrs. Hill, at Ballinger, Tuesday.

Miss Mozelle Barnhill, of Winters, is a guest of Miss Mozelle Lewis.

Mrs. John Branham, of Winters, is a guest of Mrs. King during the revival meeting, but for the present is with Grandmother Branham in her illness.

Mr. and Mrs. Leonard Norris, of Wichita Falls, are guests of their nephew, Willie Norris, and family.

Mrs. Oma Traylor, of Winters, is the guest of her son, Wallace Traylor, and family.

Miss Cleo Campbell and J. M. Martin were married Saturday.

Mrs. Martin is the daughter of Mr. and Mrs. Beryle Campbell and has been reared here, receiving her education in the Crews school.

Mr. Martin is the son of Mr. and Mrs. W. E. Martin, of Oxien. Both young people are popular in social and athletic affairs, and all join in wishing them a happy married life.

Billie Mathis is reported recovering from a badly infected hand.

Mr. and Mrs. W. C. Mathis and family attended the singing at Tokeon Sunday.

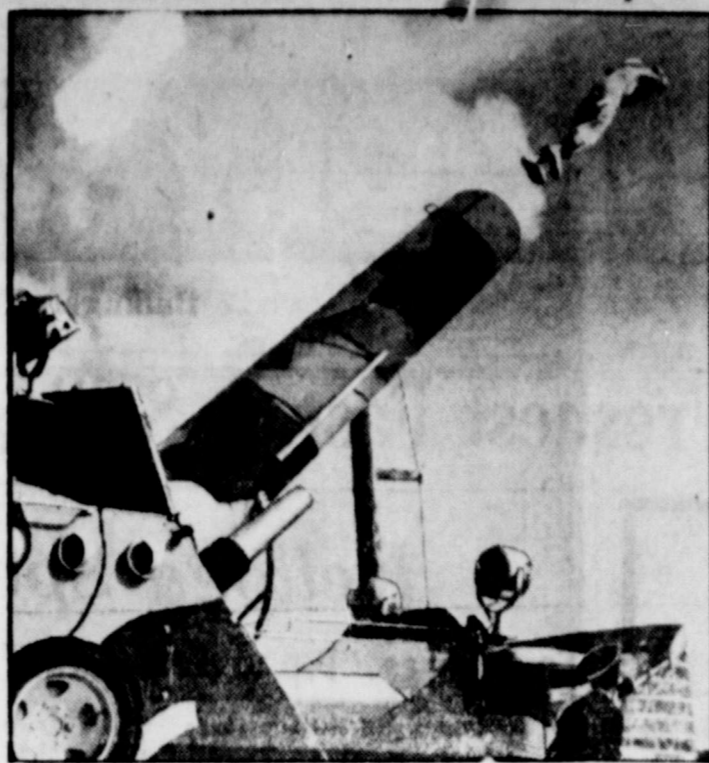

Mrs. Carl Cade returned to her home at Houston last week after a visit to her aunt, Mrs. John Berry, and other relatives here.

Receipts in duplicate for all purposes. Ballinger Printing Company. 1-1f

Rev. Gilbert W. Wilson returned last week from his evangelistic tour to Decatur, Illinois. He brought to his church here last Sunday the report of a very successful meeting. Rev. Wilson is pastor of the Old Fashioned Baptist Church of Ballinger.

Man 'Takes Off' on Ocean Hop

The height of daring, Capt. Cliff Gregg, human "cannonball," is pictured above as he was "shot" through the air in one of his daring 150-foot plunges into the Pacific ocean. Compressed air, gas and 29 pounds of gunpowder provide the force to project Gregg from his specially-built armament.

Old Fashioned Baptist Church

Special features of our Sunday's program are:

Radio service, 8:45 to 9:15 a. m. over station KGKL.

Bible school at 9:45 a. m.

Preaching at 11 a. m. by pastor.

The message of the morning is "As a tree falleth, so shall it lie."

The Sunday night service will be conducted by Rev. Raymond C. Wilson, of San Angelo.

Mrs. Wilson will bring special music in song.

For three weeks Rev. Raymond C. Wilson has been conducting a revival at San Angelo.

This meeting will be continued until the second Sunday in August by Rev. Gilbert W. Wilson.

At this time he is beginning a tent revival at Barnett.

Services will be held each morning and night. The gospel will run to Barnett for the night services.

Those desiring to attend the revival will please meet at the library at 7:30 each evening.

GILBERT W. WILSON, Pastor

Rummage Sale

The women of the Methodist church will hold a rummage sale Saturday in the building between the Lee Hardware Co. and the Silver Moon, on Seventh Street. The sale is sponsored to help the colored people in their educational work. Any cast-off garments will be appreciated. 1-1f

TEXAS POULTRY AND EGG SHIPMENTS SHOW SLUMP

AUSTIN, July 31.—Poultry, and egg shipments to interstate points during June continued the unfavorable year-to-year comparison which has been noted for many months, it was pointed out in the report of the University of Texas bureau of business research.

It is probable that this downward trend may be reversed in the not distant future when the prospective abundant and relatively cheap feed crop will seek an outlet through the development of animal enterprises including poultry production," the report said.

"Interstate shipments of poultry and eggs during June totaled 70 carloads, composed of 38 cars of poultry and 32 cars of eggs, against 87 cars for the corresponding month last year, of which 51 cars were poultry and 36 cars were eggs.

"Receipts of eggs from outside states amounted to 29 cars—3 from Kansas, 2 from Missouri, 3 from Oklahoma, and 4 from Nebraska. In June last year a total of 29 cars were brought in from other states—25 cars from Kansas, and 1 car each from Missouri, Nebraska, and Iowa."

NAIDIE ROSE RUBIN TAKEN TO HOSPITAL

Naidie Rose Rubin, 12-year-old daughter of Mr. and Mrs. Frank Rubin, was taken to San Antonio in a Jennings Funeral Home ambulance Monday morning for an operation for appendicitis. She had been ill for several days and local physicians stated Monday morning that an operation would be necessary at once.

Mrs. Rubin and the little girl left at once and Mrs. Rubin's parents were en route from San Antonio to meet them on the road. Mr. Rubin is in New York buying merchandise and was not aware of his daughter's condition.

Mr. and Mrs. J. B. Striplin and son returned the past week-end from Waco and McGregor, where they visited relatives and friends.

Mr. and Mrs. D. E. Sessions, Mary Louise and Don Sessions, of Altus, Oklahoma, arrived Wednesday afternoon for a visit with their sons and brothers, C. C. and Horace Sessions.

Mrs. T. R. Miller, of Ada, Oklahoma, came in this week for a visit in the home of Mr. and Mrs. W. A. Taylor.

IN SOCIETY

Alathea Class Has Hobo Party
A hobo party in the lovely back yard at the G. A. Swann home in Wilke Terrace was the unique entertainment planned for members of the Baptist Alathean Class on Tuesday evening when Meses C. W. Jennings, Henry Doss and Cicero Smith were joint hostesses with Mrs. Swann.

Hobo costumes were worn by all the guests who were required to "beg" their refreshments from the hostesses. Handed to them in paper bags, they consisted of hobo stew, corn bread sticks, Mexican peppers, tea and cookies.

Twenty members were present.

Mrs. Doss Entertains Club

Mrs. Henry Doss was hostess to her contract club members and friends who played substitute hands last Friday afternoon in her home on Sharp Avenue.

Varied summer flowers filled rooms where guests found places for the games by means of place cards attached to sweet pea corollas.

The refreshment plate contained a composed salad, wafers, potato chips, olives and peach short cake with iced tea.

Mrs. Cicero Smith won both the traveling prizes and the high score award in games with Meses E. C. Greenstaff, Marvin Patrick, Rothal O'Kelly, Felton Wright, Sam Dunlap, Lawrence Grier and Edward Sommer.

Methodist Party Given for Dorothy Ann Holt

Dorothy Ann Holt was eight years old on Friday the 19th and was given a party by her mother, Mrs. Nolan Holt, at their home at the thumble station.

Favors for the girls were dolls and for the boys airplanes.

Ice cream was served with cake to Dean and Betty Albright, Dallas Jane Bell, Martha Ann and Clifford Orr, Jr.

Mrs. John Albright assisted.

Bryan Visitor Has Party Here

Master Marvin Atkins, Jr., of Bryan was guest of honor on Tuesday afternoon when his mother, Mrs. M. C. Atkins, his grandmother, Mrs. H. J. Atkins, and Miss Grille Atkins gave a party to celebrate his fourth birthday in the pretty nook at the city park.

Games were played and pictures taken before the cutting of the two-tiered birthday cake iced in white and decorated in green. It was served with ice cream. Ballroom were favors.

Mrs. W. C. Rhoden, Troy Simpson, Felton Wright, C. W. Cheatham, E. C. Baskin, Delbert Vancil, Robert Bruce, Floyd Smith of Wilkes, K. V. Northington, Mary Simpson and Bobbie Northington assisted in entertaining the following children: Marvin, Jr., Virginia Claire Smith of Winters, Cynthia Lou Tuckey, Patricia Ann Caudle, Sue Hampton, Shirley Ann Brown, Mary Frances Clark, Charlene Parrish, Arlene Miller, Dorothy Ann Hauer, Marilyn Grier, Sue and Selma Jane Holt of Waco, Marilyn Sommer, Brookline Anne Rhoden, Marilyn Agnew, Marilyn Marchison of Abilene, Nedra Glenn McCready, Mary Brian Woody, Eva Joe Flynn, Betty Jo Carsey, Dorothy Daugherty, Bonnie Davis, Caroline Keatham, Mary Jo Ferman, Zeequeline Patrick, Virginia and Gay J. Baker, Martha Saunders, Betty Allen, Evelyn O'Neill, Lochlan McLaurin, Charles Bailey, Jr., Vancil, Jimmie Richards, Glenn McMullan, Jimmie Peoples, Bobbie Agnew, Herbert Adams, Jr., Bill Halley Zedlitz, Jack Hampton, Jr., C. W. Jennings, Jr., Raleigh Bruce, Jr., Buddy Wright, Julian Wanda Carsey, Robert Sanford Bruce and Wilmoth McKenzie.

James Striplin is Nine

James Striplin's ninth birthday was the occasion for a gay party given by his mother, Mrs. J. B. Striplin, on the lawn of their home on Broadway Tuesday afternoon.

Yellow and green were the colors emphasized with cookies tied in packages of yellow and green being swirled with yellow fruit punch from a table iced in green.

Mrs. R. W. Earnshaw and Mrs. E. W. Hanes assisted in entertaining.

Included besides the honoree were: Bobbie June and Buddy Wright, Lennie McCraw, Johnnie Miller, Charles Simmons, Charles Bailey, Jr., Mary Lou and Ruth Davis, Dorothy Bruce, John Weeks Earnshaw, K. V. and Bobbie Northington, Edwin and Sue Holt of Waco, Marvin Atkins, Jr., of Bryan, Marjorie, Alexander and Jack Handy McGregor, Harold and Patsy Richards, Billy O'Neill, Donald, Patsy and Armour Lynn McGregor, Claude R. Stone, J. B. Caskworth, David Caudle, Ann Cready, Mary Brian Woody, Wellington and Francis Pearce, Jimmie and Marilyn Agnew, Juliette Simmons, Jean Bonnell, Charles Bradley of Lohm, Jane Cheatham, Mary

Belle and Jimmie Richards, Patsy Doss, Elaine Green, Bobbie Penn, Rothal O'Kelly, John A. Killough, James Lasater, Mary and Clara-beth Lynn, Eldon Moody, Mary Catherine Sturges, Harry Vanderpool, Eloise Carsey, and Mary Simpson.

Five Are Hostesses to Class

Misses Cora Hayes, Bess Corbett, Meses J. L. Davis, Fred Woods and Wesley Reese were hostesses to twenty-one Methodist Philathean Class members last Friday evening.

A profusion of summer blooms was used to decorate the young people's assembly room in the basement of the church on Tenth Street. Mrs. J. B. Striplin presided over the business session. Readings and piano numbers were given by Bobbie Marie Avey, Lolita Morrison, and Eulalia Nicholson during the social hour which followed.

Sandwiches and cookies were served with fruit punch.

Menus of the Day

Iced Drinks

Here is a thirst-quenching drink for warm afternoons or sultry nights. Mix 1 1/2 cups granulated sugar with 1 cup water and boil 3 minutes. Add crushed mint leaves and cool. Add 1 cup lemon juice and strain over ice. Add 1 quart ice water and 1 quart ginger ale.

Cold Plates

This is the season when cold plates are appetizing. Combine summer sausage, sliced salami, liver sausage and cold sliced corned beef. Garnish with lettuce leaves and parsley.

For Frozen Desserts

Try serving plain ice cream with a combination plate of peppermint candies, chocolate sauce, pecan nuts, chopped chocolate and nuts and let your guests build their own desserts.

Strawberry Tarts

Have ready baked tart shells. Fill with ripe whole berries and pour over them a thick syrup made with crushed strawberries and sugar. Cool and serve with whipped cream or plain.

ONE DRUNKEN DRIVING AND ONE SALE OF LIQUOR CHARGE FILED HERE

One man was arrested during the week-end on charges of driving an automobile while intoxicated and one was arrested and charged with the sale of intoxicating liquor.

Wayne Morgan was arrested Saturday night on the driving while intoxicated charge and made \$500 bond Monday morning. His hearing will be before the grand jury in November.

D. M. Thomas was arrested at Rowena Sunday night and taken to Ballinger. He was charged with the sale of liquor. He had failed to make \$1,000 bond Thursday morning. His case will also come before the grand jury at the next term of 119th district court.

Mrs. J. C. Sturges, Jr., and little daughter are at Kerrville this week attending the Presbyterian encampment.

Constitutional Amendments Explained by State Secretary

(Editor's note—Below are brief summaries of amendments Nos. 5 and 6 as they will appear on the ballot for the election on August 24. Readers of The Ledger are invited to read the summaries and make up their minds how to vote on these important proposed changes to the constitution.)

Proposed Amendment No. 5, Suspended Sentence or Probation Amendment

Proposition No. 5 on the ballot of the August 24, special election reads: "For (and against) the amendment to the state constitution authorizing the courts to place defendants on probation."

Proponents claim that if this amendment is passed, many who are now sent to the penitentiary for first offenses will be permitted to enjoy suspended sentences under restrictions of the court.

The only restriction under the present suspended sentence law is the fact that the defendant must not be convicted of a felony—that is, a crime punishable by confinement in the penitentiary. The judge or court has no control nor can it set up or impose any other restrictions.

It is the understanding of those who have studied the amendment that if passed it would permit the legislature to pass laws giving the courts the right to suspend sentences and place defendants on such probation as the court might deem proper. In other words the court could suspend sentences subject to certain limitations. If those restrictions or limitations were not observed the court would have the authority to have the defendant committed to the penitentiary without further ado. Many courts now refuse to grant suspended sentences for the reason that they have no control over the defendant after the same is granted. It is pointed out that this would prevent many first offenders from having to go to the penitentiary and reclaim many of them for society.

If a suspended sentence is given under the present law the only limitation is that the defendant must not be convicted of a felony. The court has no control over him nor can it impose other conditions.

Proposed Amendment No. 6, Abolishing Fee System for Paying Officials

Two years ago a senate investigating committee discovered a number of flagrant abuses of the fee system as practised in Texas for recompensing certain public officials. The fee system was established and written into the Texas constitution at a time when it was impossible to pay salaries and the theory was that an official was entitled to "all he could make." Since the senate committee discovered and revealed the malpractices existing under the system there has been a demand for a constitutional change on this score.

Proposed amendment No. 6 on the ballot provides that the fee

system as a method of paying certain precinct, county and district officials shall be abolished in counties having 20,000 or more population according to the last federal census. The legislature will, if the amendment is adopted, set the salaries for officials now receiving fees in such counties. In counties of under 20,000 population the commissioners' courts may put their county and precinct officials on a salary basis if they so desire. The amendment does not specifically state who shall set the salaries of such officials in this case.

If this amendment is adopted all district officers must be compensated on a salary basis.

The amendment provides that fees shall continue to be collected as at present but they will go to the county instead of the officer. The evident purpose of this amendment is to place as many public officials on straight salaries as is possible and thus abolish, insofar as is possible the payment of officials through the present fee system.

PLAN FOR EMPLOYMENT

ABILENE, Texas, July 29, 1935.—The current Employment Report just issued by Draughon's Business College, of which V. L. Shifflett is local manager, shows a long list of young people who have been placed in excellent positions during recent months. Because the students recommended by the Draughon's Colleges have been making good for more than fifty years, many firms continue to call Draughon's for help even though they may have many applications on file. A new illustrated booklet called "Planning Your Future" describes the far-reaching methods for placing graduates, training and time required, cost of tuition, etc. Young people interested in good starting positions and opportunities for advancement, should mail Coupon at once for free copy of "Planning Your Future"—showing how we can train and place you, at a saving in time and expense. Address Draughon's Business College, Abilene, Texas, or see this paper about a Special Scholarship. Your Name _____ Address _____

Mr. and Mrs. W. R. Bogle have returned from Tulsa and other points where they spent a two weeks' vacation. Mr. Bogle is back at his window in the First National Bank.

Mr. and Mrs. F. M. Pearce and children returned Saturday from a trip through Tennessee, Arkansas, Indiana and Wisconsin. They visited in Chicago and other large eastern cities.

'Dry' Forces Called To Mass Meeting At Winters Sunday

A mass meeting has been called of all the "drys" in Runnels county to be held at the Winters Baptist Church Sunday afternoon for the purpose of forming a county organization and launching an active campaign from that date until the statewide election on August 24. The meeting will begin at 3 p. m.

Rev. J. H. McClain, who called the meeting, has invited Dr. Thomas H. Taylor, of Brownwood, to assist with the organization. Dr. Taylor has been appointed district manager of the prohibition forces in this section of the state and his main program is to assist in forming county organizations and starting work in the fight against the repeal amendment.

Announcement was made this week that one of the state teams headed by T. C. Gardner, of Dallas, would be here August 14 for an afternoon speaking date. The meeting will probably be held on the court house lawn.

As soon as the "dry" group is organized at Winters Sunday schedules will be arranged and speakers sent into every locality of the county to inform citizens on the issue and urge them to help defeat the repeal amendment.

The schedule for these speaking dates and list of the speakers will be announced next week by officers of the county organization.

BALLINGER TEACHER GETS A. B. DEGREE

BROWNWOOD, July 31.—Mrs. Minnie Vardiman Mayhew, of Ballinger, and Miss Stella Bruton Duke, of Winters, will receive A. B. degrees from Howard Payne College this summer as members of the largest summer graduating class in the history of the college. Fifty-five students will

A Convict Wins Feathered Friend

His kindness to a little horned lark, which he found with a broken wing in the prison yard of the Illinois state penitentiary, brought John Post, 65-year-old convict, this tiny companion. He nursed the bird back to health and offered it its freedom, but the grateful little lark followed him back to his cell.

receive degrees at commencement exercises to be held Friday night, August 2. Rev. H. R. Long, pastor of the First Baptist Church, at Sulphur Springs, will be the commencement speaker.

Twenty-four counties are represented in the graduating class as follows: Runnels, Brown, Eastland, Coleman, McCulloch, Comanche, Lampasas, San Saba, Tom Green, Karnes, Erath, Rockwall, Mills, Kimble, Reagan, Dallas, Limestone, Palo Pinto, Llano, Dimmit, Hill, Callahan, Hamilton and Concho.

Mr. and Mrs. J. A. Killough and family returned home Sunday afternoon after spending a two weeks' vacation in Temple and other points in central Texas. Mr. Killough said crops in that part of the state looked fine but are no better than those in Runnels county.

20 Runnels Youths Will Depart Soon For Arizona Camps

County Administrator H. N. Lyle this week sent 20 Runnels county boys to San Angelo to the army recruiting office and from there they will go to Arizona to enter CCC camps. The county's quota on the new call was larger and approximately 50 might have been taken if enough eligible men had applied.

All the recruits made allotments to their dependents of \$25 a month with exception of one who allotted \$22.50.

Heretofore all men taken from Ballinger have been sent to Big Spring. Recently an army recruiting station was established at San Angelo and men accepted in this immediate section are sent there from where transportation is furnished to the place of work.

The Runnels county contingent of 20 men went to San Angelo Tuesday morning and the men were immediately sent to camps in Arizona. Those accepted included eight from Ballinger, ten from Winters and two from Miles.

Following is the list: William Ernest Cross, C. B. Stiefel, William Webster Wyche, Pat Allen, Lee Nathan Setzer, Robert Oscar Sandlin, William Frank Pullen, Earl Arlington Brown, Ballinger, Edwin General Cowin, Oscar Lee Flowers, Elmer Lee Hester, Joe Bulsterbaum, James Franklin Roper, Ernest Ovell Shultz, Eric Clyde Harville, Otis Ross Blount, Buford Benton Caldwell, Elmer Chapman, Winters, Harold W. Montgomery and Adolphus Levi Shellgren, Miles.

Mrs. M. C. Atkins and son, Marvin, Jr., are here for a month's visit with Mrs. H. J. Atkins and Miss Griffie Atkins. Mr. Atkins will join them for a short visit the latter part of August.

Ballinger Lions Are Hosts Friday To Group Meeting

The Ballinger Lions Club entertained the group meeting of district 2A at the Ballinger Country Club with a barbecue dinner, program and business session Friday evening. About 60 Lions from Junction, San Angelo, Sonora and Sterling City were present for the last meeting of the year of the group Officers for the succeeding year were elected.

H. E. Muller, vice-president of the San Angelo Lions Club, was elected group chairman to succeed Blackstone Smith, of Junction, Ozona was selected as the next meeting place for the group meeting. This city was named because it did not have a delegation present at the meeting here.

The visitors were welcomed to Ballinger by Mayor E. M. Lynn, and Dr. W. B. Everett, of Sterling City, offered the response in which he told something of the Lions organization and what work it is doing. J. A. Schnable, president of the Ballinger club, presided while the preliminaries were being presented and during an entertainment program offered by J. D. Motley, Jack Bandy McGregor, Dillard Adair, "Boots" Kremplin and Ralph James Erwin.

Many a Friend Recommends BLACK-DRAUGHT

People who have taken Black-Draught naturally are enthusiastic about it because of the refreshing relief it has brought them. No wonder they urge others to try it! . . . Mrs. Joe G. Roberts, of Portersville, Ala., writes: "A friend recommended Black-Draught to me a long time ago, and it has proved its worth to me. Black-Draught is good for constipation. I find that taking Black-Draught prevents the bilious headaches which I used to have." . . . A purely vegetable medicine for the relief of CONSTIPATION, BILIOUSNESS

present made good reports of the work done during the three months' period. The Snora club's report showed much accomplished, including the raising of large sums to carry on various projects. Out-of-town delegates for the group meeting here included the following:

Sterling City—Dr. W. B. Everett and H. B. Lane
Junction—B. L. Smith, Rawley Randolph and Callan Grubbs
San Angelo—J. J. Pettus, Gordon Kenley, Dr. J. M. Rafe, W. E. Muller, Dr. George Grupe and Dean Chenoweth
Sonora—W. C. Gilmore, C. E. Jennings and A. W. Schwewing.

Mr. and Mrs. J. A. Schnable spent the week-end with relatives at Sweetwater.

C. R. Stone spent Sunday with his wife and son at Sherwood, returning home Sunday night.

Suffer with colds? change to HEALTHFUL GAS CIRCULATED HEAT

The change will cost less in AUGUST

Colds, so doctors tell us, weaken body resistance to serious diseases. Therein lies their danger to health . . . the reason why every precaution against them should be taken. One of the best is proper house heating with CIRCULATED heat.

This kind of heat is healthful because it wipes out excessive moisture to end wall sweating, maintains an even temperature with no cold spots or chilling drafts and because room atmosphere is continuously circulated.

Gas floor furnaces and circulating heaters . . . the modern gas units that provide this healthful heat at low cost . . . are on sale now at special August prices. Invest in one for winter health. Pay only small amount down and begin monthly payments in October!

Special prices and terms effective—Now!

Lecture Sunday Will Open Health Food School Here

A food training school for health will open here Sunday afternoon when Dr. Rose A. G. Fraser will lecture at the Ballinger Baptist Church, beginning at 3 o'clock. The school proper, which will commence Monday at 2:30 p. m. at American Legion Hall, will continue for five afternoons, and is free to the women of Ballinger and surrounding territory.

Every housewife in this section is invited to attend the lecture to be delivered by Dr. Fraser Sunday afternoon which will tell in a brief manner what is to be taught in the school. Dr. Fraser will put emphasis on food that produces healthful bodies.

Local firms sponsoring this free training school are: the West Texas Utilities Co., Schuhmann Hardware Co., Sam Behringer, King-Holt Co., Bob Tunnell, Farmers & Merchants State Bank, Higginbotham Bros. & Co., and E. J. Carroll.

During the afternoon demonstrations and lectures next week Dr. Fraser will demonstrate 18 different food items daily, giving recipes for preparing special dishes.

On the evening of August 9 a supper will be served a number of the business men who will receive special invitations for the occasion.

During the school a regular class will be formed to take a 32 weeks course in food health training.

Psychologist Says Sleepers Victims Of Imagination

NEW YORK, July 31.—People who think they cannot sleep in a sleeping car with their feet toward the engine instead of their heads, or who refuse similarly to sleep in the modern bedroom cars where the berth runs crosswise of the car instead of lengthwise, are nothing but victims of their own imaginations, experts of the American Medical Association assert in replying to a recent inquiry from Dr. Donald A. Laird, of Colgate University, well-known American psychologist and investigator of sleep.

It is true that some people get sick if they ride backward in a railway train and look out of the window, but this is due to disturbance of the way in which things usually appear to the eyes. Since both human eyes point forward, everybody is accustomed to seeing things appear first at the centers of the eyes and seem gradually to move sidewise and backward.

If one rides backward this usual order is reversed, which upsets some people, although this is not the only cause of car-sickness and is easily cured by keeping the eyes closed or by looking only at things inside the car. Nor can this have any effect on a person asleep or inside a berth. Possible effects of the train's motion on the flow or distribution of blood are regarded as too small to have measurable influences nor can any other reason be imagined for the head-foremost habit.

It is well known also that many persons do sleep quite comfortably either crosswise of the car or with their heads pointing in either direction in an ordinary berth.

"It appears," the association's experts conclude, "that placing the head in the direction of motion on a train, ambulance or even ships at sea is purely a habit or tradition."

Mr. and Mrs. J. W. Connor and son, Leonard, left today (Thursday) for Liveoak, California, where they will spend two months with their daughter and sister, Mrs. R. C. Dishman, and family.

Expert Suggests Cause of Deafness Not Due to Noise

LONDON, July 31.—A possible answer to the long-standing argument about whether or not noise makes people deaf was suggested in a recent address at University College Hospital by F. W. Warkyn-Thomas, British expert on hearing.

Some ear specialists claim that noise does damage hearing, have produced alleged deafened individuals to prove it, and urge that the noisiness of modern cities gradually will deafen the whole race of city dwellers. Other ear specialists deny this and produce, by way of proof, individuals who have worked or lived for lifetimes amidst extreme noise and whose hearing still is normal.

Warkyn-Thomas answers both groups by saying that it all depends on whose ear is concerned. Some persons will be deafened more or less completely and permanently by living in noisy surroundings. Others will be affected only temporarily if at all. The difference depends on natural susceptibility to what is called nerve deafness and on the good or bad working of a noise-defense mechanism in the middle ear.

Nerve-deafness is the kind in which hearing is lost first for the high-pitched sounds of consonants, so that the first symptom of the sufferer usually is an inability to understand when several persons are talking at once. This seems to be the kind of deafness caused by excess noise.

Perhaps noise would cause this in everyone were it not for a tiny muscle in the middle ear, the duty of which is to hold down one of the small bones of this middle ear whenever noise gets too loud. Germ infections sometimes damage this muscle so that it fails to keep out loud noises, which then may damage hearing. If this muscle is all right, and if the ear nerves also are healthy noise probably has no deafening effect.

41 Cars and Trucks Registered in This County During July

Automobile sales for July were above par, a total of 41 being registered in the office of County Tax Collector W. A. Forsey. In the list were 31 passenger cars and 10 commercials and trucks.

Following is a list of registrations for the past month:

Pontiacs
Barnett Auto Co., Ballinger, 2 passenger cars
Mourland Motor Co., Eastland, 1 passenger

Fords
Harwell Motor Co., Ballinger, 6 passenger and 1 commercial
Nance-Brown Motor Co., Winters, 4 passenger and 1 commercial
Miles Motor Co., Miles, 1 passenger and 2 commercials

Chevrolts
Patrick Chevrolet Co., Ballinger, 3 passenger and 1 commercial
Jones Chevrolet Co., Winters, 1 passenger and 2 commercials
C. & C. Motor Co., Miles, 2 passengers
City Garage, Rowena, 1 passenger

Plymouths
Sykes Motor Co., Ballinger, 5 passengers
Hoover-Bourne Co., Winters, 2 passengers

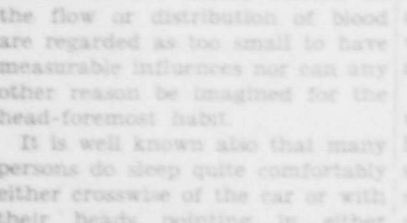

Chryslers
Hoover-Bourne Co., Winters, 1 passenger

Dodges
Sykes Motor Co., Ballinger, 1 passenger and 3 commercials

Studebakers
McShan Motor Co., Ballinger, 1 passenger

Buicks
Huddleston-Kerb Co., Vernon, 1 passenger.

These Show Pals Back Each Other

Here are two stars who will back each other's play even when the play is nothing more than a little entertainment. Fete, Zanine comedy cut-up, and Mariel Page, whose dancing was a sensation at the Chicago World's Fair, are shown above making up a little sunshine between acts at Atlantic City.

Drivers License Laws Shown as Life Savers

CHICAGO, July 31.—Proof that laws requiring automobile drivers to have personal licenses granted only after examination can reduce the mounting toll of deaths in street and highway accidents is provided by statistical comparisons issued by the National Safety Council.

Only eleven states enforce the so-called standard license law regarded by safety experts as satisfactory, these states being California, Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

Seven other states have license laws of some kind, but which are regarded either as themselves inadequate or as inadequately enforced. The remaining states either have no driver's license laws or have not had them long enough for statistical comparisons.

For comparison of highway accidents in the three groups of states the council's statisticians have computed the average number of deaths by automobiles for each 10,000,000 gallons of gasoline consumed, a basis believed to depend on the actual use of automobiles instead of on population or even on the number of drivers.

The results of the comparison are dramatic. In the eleven states with adequate license laws highway deaths declined steadily from the 1926 figure taken as 100 per cent, to only 73 per cent of this in 1932. In the no-license states there was an equally steady increase in deaths from 100 per cent in 1926 to 112 per cent in 1932.

Can Learn in Sleep

VIENNA, July 31.—That the brain is only a registering machine, is the claim of Dr. Feodor Kauerjle, professor of philology in Vienna, who declares that it is possible to learn in one's sleep by phonograph records steadily running.

The professor says he received his inspiration from a student at the Vienna radio station, who informed him that with an automatic phonograph he kept a record of the Morse signals playing throughout the night as it accustomed him to the rhythm.

Miss Willie Margaret Odell, of Fairfax, Oklahoma, is the guest of her aunt, Mrs. W. E. Midgley, and other relatives.

Rev. C. P. Jones, of Fort Worth, spent Tuesday in Ballinger, attending to business and visiting friends.

New Bumpers May Cut Traffic Toll

A safety bumper that knocks a pedestrian down and rolls him over until the vehicle stops, is a new English invention that may help cut down traffic mortality. In a recent demonstration, pictured above, a man was knocked down by a truck equipped with the device and traveling at a fair rate of speed. The "victim" suffered no injuries.

Letters to the Editor

(Editor's Note—Several weeks ago P. W. Smith ran a classified ad in The Ledger describing a hat which had been found at his place. He failed to find the owner, and this week sends the following letter telling more about the circumstances of finding the hat.)

"Ballinger, Texas, July 31, 1933
Dear Mr. Editor:

"In regard to the ad about the lost hat, I have not had any calls for it yet and don't expect to as the darn thing was so mischievous that no one will claim it.

"It had climbed an apple tree and shook all the apples off on the ground and was trying to gather them up. As you know a hat is generally accompanied by two legs, but when a stick popped the pair of legs, they became excited and ran away and left the poor old hat under the tree trying to gather up the apples.

"If anyone calls for the hat, I have a good one for the price of the lost ad.

"Yours truly,
"P. W. Smith."

Mrs. Pat Free, of San Angelo, visited her sisters, Mrs. Jack Thomas and Mrs. Bert King, Wednesday and Thursday.

Mr. and Mrs. Herman Schaus and son, of San Antonio, came in Wednesday for a visit with Mr. and Mrs. W. A. Taylor.

Mrs. Jack Nixon left Monday for Fort Worth to visit her son, Lloyd Nixon, and family.

Doose is President Of New Enterprise For Scouring Wool

The Southwest Wool Scouring Mill Company is a new concern which will offer stock to the people of West Texas. The new enterprise has been granted permission to sell stock by the securities commission and an organization has been formed with C. A. Doose, of Ballinger, as president.

The concern, capitalized for \$75,000, will be located near San Angelo to scour wool and mohair and manufacture certain by-products from the greases.

Mr. Doose has been devoting considerable time to the organization, believing that it is one of the outstanding needs of this section to take care of the wool producers and offer them a market without the expense of long freight hauls to eastern centers. He stated today that the board of directors would meet next week to speed up the preliminary details.

Other officers in the organization are: W. H. Lane, of Veribest, and J. H. Stansberry, of Eden, vice-presidents; J. Mart Findlater, of San Angelo, secretary-treasurer; and Williams Campbell, of San Angelo, business manager. Mr. Campbell has had many years' experience in the east in this kind of work.

Mr. Doose pointed out that a scouring plant was merely a start towards a woolen mill for the manufacture of all kinds of woolen materials.

Card of Thanks

We wish to take this method of expressing our thanks for the words of sympathy and beautiful floral offering given during the passing of our loved one.

May God's blessing be with each, is our sincere prayer.

CHARITY DANCE DRAWS LARGE ATTENDANCE

The old time square dance held Tuesday evening on the lawn at the home of Dr. W. B. Halley was a huge success and a large throng surrounded the platform until a late hour. The affair was staged to raise money for charity to be used by the Masonic lodge.

Prof. Dick Wilson and his stringed orchestra played the entire evening and a number of the leading square dance devotees of this section were present.

Dr. Halley desires to express appreciation to everyone who assisted in any way with the entertainment.

CHESTERFIELD ADVERTISING IS AGAIN CARRIED IN THE LEDGER

The Ledger is carrying an ad for Chesterfield cigarettes this week, the first of a new series. Since the daily newspaper was suspended here in 1931 Chesterfield advertising had been missing from the columns of this paper, and it is taken as an omen of returning prosperity in this section. Chesterfield is one of the largest selling cigarettes in the world and the manufacturer perhaps spends more money for newspaper advertising than in any other medium.

The series of ads will be printed in The Ledger for the next nine weeks.

Mr. and Mrs. B. N. Wilke and Mrs. J. H. Wilke are visiting relatives and friends at Houston this week.

Mrs. R. E. George, who has been seriously ill for the past three weeks, is reported much improved. The fever was entirely absent for the first time this (Thursday) morning and after a period of convalescence she will be able to return to her work at The Hub.

Mr. and Mrs. C. G. Jennings and family spent the week-end at Whitney with Mr. Jennings' mother, who has been ill.

Frank Flynt has accepted a position with Higginbotham Bros. & Co., and began his new duties August 1.

Mrs. Harry Lynn and daughters left Monday for Kerrville, where they will attend a two weeks' encampment.

Mr. and Mrs. W. B. Woody were called to Temple Sunday morning on account of the illness of Mrs. Woody's father.

Mrs. Tab Hatler, of Winters, visited friends in Ballinger Wednesday.

Walter Atwell, of Albany, was here Sunday, visiting homefolks and friends.

Mr. and Mrs. A. M. King and daughter, Miss Genevieve, Mrs. Hugo Michaelis and two children returned Sunday night from Corpus Christi, where they visited relatives.

Ballinger Golfers Will Meet Philpeco At Coleman Sunday

Ballinger golfers will go to Coleman Sunday afternoon to engage the Philpeco team in the last match in the Heart of Texas Golf League schedule. Play will begin at 1:30 p. m. on the Coleman Country Club course and H. G. Agnew, captain of the Ballinger team, stated today that it least 24 men would be needed to meet the opposition.

Mr. Agnew said team match play would be resumed here next Monday. Two weeks of matches are yet to be played before the schedule is finished and the two losing teams will be hosts to the two winning teams at a barbecue on the local club grounds.

The handicap tournament for the Agnew trophy will begin August 21 and all players are asked to turn in their score cards on the full nine holes during the matches the next two weeks. Some golfers do not have enough scores filed with the tournament chairman to figure their handicaps and these may have to play from par.

It will require four days to play the handicap tourney and determine the champion of the local club.

LIGHTS BEING INSTALLED AT LOCAL SOFTBALL FIELD

Electricians started work at the local softball field Wednesday and the work will be complete soon. All material was here Wednesday except the 1,500-watt lamps.

Six 45-foot poles were set Wednesday and wire is being hung this afternoon. Reflectors will be placed on the poles as soon as they are properly set and when the globes arrive, regular play will start.

The six team managers voted last Friday to start the second half over under the incandescents and all teams will begin with the same percentage. Two games will be played every night as soon as it is dark enough to play under the illumination.

Oran Dean, in charge of installing the lights for the league, said today that it might be possible to complete the work by tomorrow (Friday) evening, but it may be Monday night before the league schedule commences.

Mrs. Fred Atwell and Mrs. Douglass, recently of Pensacola, Florida, spent a short time here in the home of Mr. and Mrs. W. F. Atwell Wednesday. Lieutenant Atwell has been transferred from Florida to Utah and the wives are on their way to make home in that state with their husbands.

Spin Cables to Hold Pacific Bay Span

Enough wire to encircle the equator is being spun into the huge cables shown above, which support the giant San Francisco-Oakland Bridge stretching its way across San Francisco Bay. This unique view of the cable-spinning operation was taken from the San Francisco side, looking toward the concrete anchorage of the bridge in the middle of the bay.

Plague of the Devil Turned Out a Prize

NEW YORK, July 31.—Man's quest for precious metals throughout the ages has led him into strange places; into the fever-infested jungles of the torrid zone and the frozen lands and wildernesses of the North. It has carried him to the lofty peaks of barren mountains and deep into the bowels of the earth.

Sometimes he has been rewarded, not with the treasure he sought, but with metals he considered worthless. And yet, the irony of fate decreed that some of these so-called worthless metals should eventually prove of greater value to civilization than the nuggets he had hoped to find.

It is in this manner that nickel came to benefit mankind. Unearthed by prospectors in search of silver and gold, their first experience with it caused them to curse it in disappointment and disgust.

From these early miners nickel first got its name. They were convinced it had been sent by the devil to confound them and lead them astray.

In the early part of the eighteenth century lodes of nickel ore were laid open in Saxony, where from times immemorial silver and copper mines had been worked. The new ore was so glittering and full of promise that the greatest excitement prevailed among the miners. At first they thought the find would bring them fabulous wealth, for it seemed that great quantities of pure silver must be hidden in the mountain of glittering ore.

After innumerable trials and endless labor to extract the metal from the ore, all that could be obtained was worthless slag

instead of metal. In disgust, the superstitious miners named the ore "kupfernickel," after "Old Nick" and his mischievous gnomes, who were charged with plaguing the miners and bewitching the ore.

The name coined by the disappointed miners stuck. Nickel it is in virtually every language.

Two centuries have passed since then, and for more than fifty years after the first discovery the scientists and metallurgists labored and experimented before they were successful in extracting pure nickel from the ore.

According to legend, the invincibility of the fabled warriors of China and Persia was due to their dependable swords, which were forged from meteoric iron with high nickel content. These ancients considered the meteors that fell to earth as Heaven-sent for the express purpose of forging superior weapons with which to conquer their enemies.

That nickel was not unknown to the ancients is evidenced by the "pakong" or white copper which was first brought out of China in the caravans to Bactria, two centuries before the Christian era.

These ancient experimenters with metallurgy had found a copper-nickel ore in Yunnan province. While they had not been able to separate the nickel from the copper, they had learned that the addition of zinc produced an alloy which was workable, useful and attractive in appearance.

If, two centuries ago, there had been an interchange of scientific information between the Orient and the Occident, the Saxon miners and scientists would have learned what the Chinese knew for thousands of years, that the

Rev. Wallace Jones Called to Pastorate Of Christian Church

Rev. Wallace Jones, of Colorado, was here last Sunday and preached morning and evening at the First Christian Church. Rev. Jones was invited to preach for the local congregation and following the services Sunday the official board issued a call to him to become pastor of the Ballinger church.

He has not accepted the call to date, asking for a few days in which to consider the matter. Rev. Jones, about 35, has a wife and one child.

Members of the local congregation were delighted with the minister's appearance and the sermons he preached and are hopeful he will see fit to accept the call here at an early date.

The church has been without a pastor for several months since the resignation of Rev. Lee Whipple was accepted.

Where life itself hinges on the dependability of metal, as in the rotor hub of an autogiro or the roller bearings of a high-speed locomotive, nickel-steel is used to increase the factor of safety.

Even as recently as 1886 the possible uses for nickel were neither known nor anticipated. In that year Krupp, already a famous gun-maker, was offered the opportunity to purchase nickel to use as an alloy in the manufacture of ordnance. The offer was rejected by Krupp with the rather amused observation that there wasn't enough nickel available in the world to make it worth his while to experiment with nickel alloys.

Of course, Krupp had laughed too soon, and he was to regret his hasty decision. Not many years later he made an effort to purchase the very mines whose copper-nickel ore he had previously spurned.

Krupp's anxiety to secure nickel became quite apparent after the French had developed chrome-steel projectiles that raised havoc with the various types of armor plate then in use. Even Krupp had to admit that nickel-steel armor plate alone could resist these new projectiles.

Had Krupp accepted the nickel that was offered to him at first it is quite probable that sufficient stores of the white metal would have been developed, thus avoiding the shortage of nickel that hampered Germany during the World War, a shortage which caused the German government to confiscate all nickel, including coinage, for the manufacture of ordnance.

The nickel offered to Krupp was that from the mines of the Sudbury district in Canada, then in the first stages of development, and now known as the greatest deposit of nickel ore in the world. The mines of this district now produce approximately ninety per cent of the nickel used throughout the world. The ore deposits are so vast that there should be no

worthless Saxon ore could be used to duplicate the valuable "pak-tong."

Many years elapsed before the European scientists discovered the secret, but once the function of zinc in the alloying process became known, there ensued a flood of white metals under many fanciful names, the only ones which are known today being German-silver and nickel silver.

Some years later the production of pure nickel was accomplished, and the Swiss were the first to adopt pure nickel money in 1881. Since then some twenty-four countries have stamped three billion nickel coins for use in their currencies.

The most valuable uses for nickel have been, not in coinage, but in the constantly growing number of uses in industry. When we start to follow this metal into industry we find that it has gone in surprising directions and to unexpected distances.

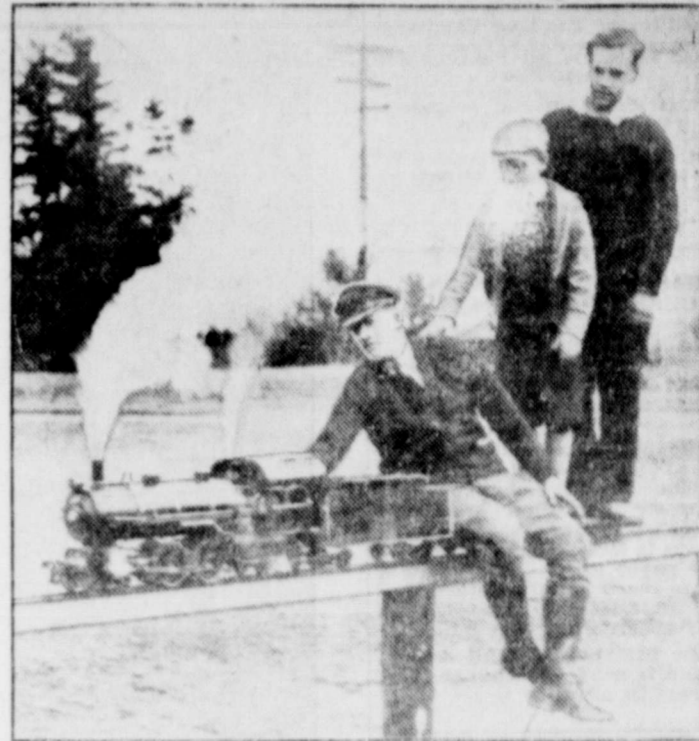

The growing vogue for white metals as decorative trim has spectacular examples in the Empire State building in New York and the Savoy Hotel in London, which are sheathed with tons of stainless steels having a nickel content of eight per cent by weight.

Nickel-silver plumbing fixtures, silver-bronze grilles and other decorative trim in banks, hotel lobbies, stores and restaurants all carry a percentage of nickel. Even chromium plate, now so popular on motor cars, has as its base a heavy plating of nickel.

These, however, are picturesque and visible evidences of the use of nickel. The invisible applications are even more impressive. Take the construction of steam turbines in which super-heated steam is driven at high velocity against the turbine blades, which causes ordinary steel to wear away quickly. Turbine blades of nickel content are far more dependable and wear longer.

Where rust from exposure or corrosion from acids must be considered, from the processing of milk to the preparation of caustic solutions for industry, alloys of nickel are used.

Iron 'Colt' Hauls Passengers

Only five and a half feet long, and weighing but 150 pounds, this tiny locomotive, true replica of the real thing, can haul nearly a ton. Invention of Eugene Stevens, of Norway, Me., the miniature "iron horse" is shown carrying Stevens and neighborhood children over its "trestle."

dearth of nickel for centuries. In the Sudbury district are the Creighton and Frood mines, the two largest nickel ore mines in the world. The Creighton mine has produced ore containing over 200,000 tons of copper and over 700,000 tons of nickel—more than a half billion dollars' worth of metal. The Frood mine, not yet as fully developed, promises to be even greater, for drilling is developing new deposits at great depths.

The Sudbury nickel area, once an almost inaccessible wilderness, is now but seven hours north of Toronto by rail. The outline of the nickel area is similar to that of a gigantic oyster, about thirty-six miles long and sixteen miles wide.

The geology of the district is a matter on which even experts are unable to agree. Some hold that these deposits were at one time ejected from the bowels of the earth in the molten state known as magma. Others hold to the theory that the sulphides were deposited from hot water solutions that permeated zones of broken rocks.

Either of these theories may be entirely wrong, but it is an established fact that the normal production of the Sudbury district each year approximates 180,000,000 pounds of pure nickel, 240,000,000 pounds of pure copper, 1,500,000 ounces of silver, 40,000 ounces of gold and 300,000 ounces of the platinum metals, including palladium, rhodium, ruthenium and iridium.

Even though gold, silver and the valuable platinum metals are produced in such quantities, they are "impurities" which must be eliminated in the production of pure nickel. They are the by-products, for here nickel is king.

HAS YOUR ADDRESS
CHANGED RECENTLY?

Ledger subscribers are requested to notify the publisher of any change in their addresses promptly.
Under the new postal laws newspapers and periodicals must pay postage due for notices of any change in addresses furnished by the postoffice. Besides, there always is the probability that your paper will be delayed or fail to reach you altogether if you do not give immediate notification when you move.
The best plan for all concerned is send the change of address in advance.

Texas voters will get to use their 1933 poll tax receipts on August 24 when seven constitutional amendments are submitted. Those living in the 92nd representative district will have added interest in the election as a member of the house of representatives will be named to succeed the man who recently resigned from the body. The number of poll tax receipts issued in Runnels county for this year is below, par and the vote cannot be very large.

Parents have a month in which to get their children's wardrobes ready before school begins. The state health department is urging a check-up on the kiddies' physical condition during this month so that they may enter school prepared to study and learn. Bad teeth, poor eyesight, weight below normal and other conditions can prevent efficiency in the classroom and should be corrected.

REDUCE AUTOMOBILE
WRECKS

The increasing number of wrecks on the highways should cause alarm to every person who drives or even occasionally rides in an automobile. Whether there is any blame on one party or another in a crash is of little consequence. The fact that persons have been killed or hurt is the main thing and the cause should be prevented. Perfect surface and high speed motors make any highway dangerous and when hair-brained drivers, beginners and children drive at high speed the hazard is doubled. Fire prevention has done much to reduce property losses and a campaign on auto wreck prevention should help curb that which is taking more lives than disease. Every person who drives a car should be able to pass an examination. Those who cannot pass the test, or who take reckless chances, should not be permitted to take the wheel.

Writing in Public Safety, Robert J. Callin points out that there are three factors involved in solving the automobile accident problem—education, engineering and enforcement. He then says that enforcement represents the weakest link in the chain, and makes specific suggestions for strengthening and improving our legal machinery for coping with reckless and incompetent drivers.

First, every state should enact the "standard" drivers license law, providing for a thorough examination of all applicants for licenses.

Second, there should be more suspending and revoking of licenses of drivers who are congenitally unable to operate their cars safely.

Third, separate traffic courts should be established, whose purpose should be educational as well as punitive.

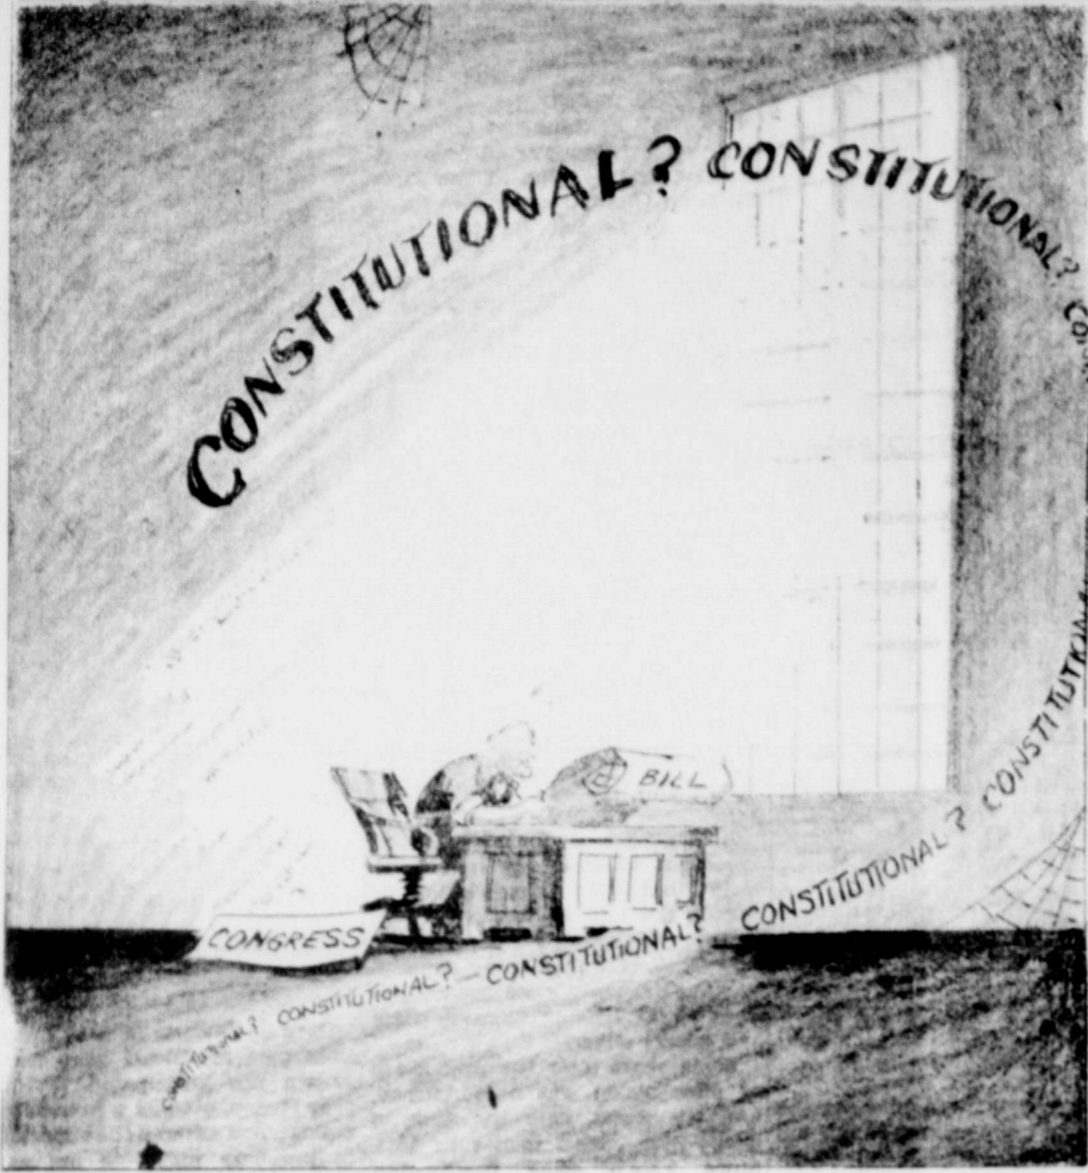

Fourth, traffic schools should be set up for violators of driving laws, under the supervision of the police department. This has been done in several cities, and the work is meeting with great success.

Fifth, there should be more adequate protection for pedestrians—who are the worst sufferers from dangerously driven automobiles—such as walkways and overhead and underground passages across congested intersections.

Sixth, a citizens advisory committee should be created in every city to cooperate with the commissioner of motor vehicles in an effort to further increase the efficiency of traffic law enforcement, and to educate and interest the public in safety work.

These suggestions are simple and workable, and they can be put into effect in any town or city. They point the way toward saving thousands of the lives that are now needlessly destroyed by automobiles each year.

The Haunted House (and the Senate, Too)

WEST TEXAS NEWS
NOTES

Seventy-five employees of the Ballinger district of the West Texas Utilities Company met last week at Menard for a safety meeting and barbecue. Charles Coombes, of the Ballinger office, had charge of the program which had as its principal speaker P. W. Campbell, head of the safety division.

About 20 members of the Fort Stockton Boy Scout troop and their leaders made a week-end trip to the Carlsbad Caverns last week. The boys did their own cooking and slept outdoors while away from home. Their trip through the caverns was conducted especially for them.

The relief cannery plant at Junction which has been under construction for some time will be opened the first of next week. Material salvaged from the wreck-

age of the old cannery after recent floods has been recon-ditioned and will be installed in the new quarters. The new building has been built by relief labor with materials purchased by the county.

Terracing of farm lands in Coke county will begin soon, according to the county agricultural agent. Not only terracing, but the building of trench silos, surface tanks and other improvements may be started as soon as the applications are filed. The work is carried on by the federal conservation service.

Grady Skelton, former manager of the J. C. Penney store at Brady, has opened a new dry goods store in that city. He is being replaced in the Penney store by A. C. Midkiff, formerly of the Penney store at Pampa. Mr. Skelton is well known in central West Texas

because of his many civic activities.

Work was commenced this week on the erection of a temporary school building in the southern part of Coleman county. The new building will take care of at least 200 pupils and all regular courses will be taught. Extra-curricular activities will also be provided for. New all-steel buses will be used to transport students to the school from all parts of the district.

Work on the extension of the Santa Anna waterworks system, a project approved several months ago by federal engineers, is to start next week. It has been announced. The pipe and equipment to be used in the extension have been ordered and it is hoped will arrive in time for the work to begin on time.

Someone in our neighboring city of Winters certainly has "taking ways." The Winters Enterprise had a vinegaroon on display in front of the office and someone had the audacity to walk off with it. The insect is declared more poisonous than a rattlesnake and the newspaper force wonders who would be so interested in the deadly bug as

A. & M. College

WACO—A clothes closet, four and one-half feet long and two feet wide, containing four shelves in one end and a willow pole peeled and rubbed down for hangers in the other end, has been built by Odell Neal, clothing demonstrator for the Axtell 4-H club in McLennan county, at a cost of 65 cents, according to Miss Martha Buttrill, home demonstration agent. The 65 cents was spent for paint and nails. The inside of the closet was painted white to give light.

Odell also made a tie and belt rack, two shoe racks, and three hat racks for the closet, which will provide storage space for her and her two sisters.

CONROE—From 30 cents she received from the sale of a dozen eggs in January, Irma Johnston, Montgomery county 4-H club girl, bought two varieties of tomato seed from which she sold \$5 worth of plants to neighbors and set out 1,500 plants in her garden, according to Miss Lele Mae Fort-entberry, home demonstration agent.

The seeds were planted in paste board boxes to insure early plants. These plants were then staked and pruned to give a better variety of fruit. Irma has reached her goal as garden demonstrator by filling the 50° containers required.

EDINBURG—A ventilated pantry in which the cans are never moist but are always cool is a valuable feature of the new kitchen belonging to Mrs. Tommie Hughes, a cooperator in the Lone

to steal it. Menard and Mason counties were among the first five of the 234 cotton producing counties in Texas to receive all of their cotton exemption certificates. The first payment to Menard county cotton growers signing contracts was received last week. This completes payment of all first rental checks for the county.

A petition is being circulated at Sonora seeking the construction of a municipally owned water utility. In the event the water system is built part of the funds will be borrowed and the remainder will be a grant from the government. It is estimated that a plant as designed will cost approximately \$75,000.

Star home demonstration club at Edeouch in Hidalgo county, according to Miss Mattie Wilroy, home demonstration agent.

In the ceiling and in the floor there are holes 22 by 9 inches over which is tacked a 16 mesh screen to prevent insects from coming in but to allow the air to pass through at all times. Shelves in the pantry are made from 3 1/2 inch planks and there is 3/4 inch of space between them that allows the air to pass between them at all times. The pantry will store approximately 650 containers and at present Mrs. Hughes has 450 in the pantry.

Fat Man Reduces
53 Pounds--Oh Boy!

Don't be stubborn, you big fat men—throw off your fat before your fat throws you into the discard. Do as S. A. Lanier, of Sawtelle, Calif., did—read this letter: "I have used two reducing belts to no benefit but since using Kruschen Salts each morning in my coffee I have taken off 7 lbs. in a week and eat most anything I like. I weighed 243 lbs. 6 months ago and now I weigh 190 lbs."

Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats, potatoes and sweets—now you know the safe way to lose unsightly fat.

For a trifling sum you can get a bottle of Kruschen Salts that lasts 4 weeks at J. Y. Pearce Drug Co., L. C. Daugherty Drug Store or Weeks Drug Store or any drug store in the world—but be sure and get Kruschen—your health comes first.

WOODROOFS TO CALIFORNIA
TO BUY FALL MERCHANDISE

G. O. Woodroof and Dan Woodroof left Monday morning in their car for California and will spend some time in Los Angeles and San Francisco, where they will attend autumn style revues of ladies' ready-to-wear. They will purchase fall merchandise for their stores at Abilene and Ballinger.

The store managers are combining business with vacation while in California and will return here early in August to get ready for fall business.

Mr. and Mrs. W. W. Chastain, of this city, and Mr. and Mrs. Sam Runkles, of San Angelo, visited Mr. and Mrs. Elmer Simpson, of Coleman, Sunday.

Mrs. C. R. Stephens left Monday for Kerrville to attend the Presbyterian encampment.

ON TEXAS FARMS
By Minnie Fisher Cunningham
Extension Service Editor

Trench silos are getting filled this month in Texas. Corn, red top cane, seeded ribbon cane, hegari, kaffir, milo, and a few more such crops are going into them.

E. R. Eudaly, extension dairyman, says these crops had better be ripe because if they are cut too green the silage will contain a surplus of acid and as a result scour the cattle if fed liberally.

He says that the leaves on the upper half of the stalk should be green—but the riper the crop the greater the feed value of the silage.

A trench silo six feet wide at the top, four feet wide at the bottom, five feet deep and 100 feet long will hold 30 tons of silage. That makes three tons per cow for a ten cow herd. Eudaly says three tons is just about what a dairy cow needs.

But that isn't all. Each cow should be supplied with one ton of hay and one of feed per year. He says cannily, "Remember, the more roughage the cow will consume, the less of grain mixture will be required. Hay and silage are cheaper than corn and cottonseed meal."

On a recent trip to the Gulf coast territory spreading the gospel of trench silos or "canning the cow's winter food supply," Eudaly found that Refugio county had only one trench silo. Since he spoke there two months ago, 100 silos have been dug and filled.

Poison Ivy

Or Poison Oak. BROWN'S LOTION stops the itching and spreading of this irritation. Rapidly promotes healing. In 60c and \$1.00 sizes at J. Y. Pearce Drug Co.

DR. C. A. WATSON HOME
FROM CORPUS CHRISTI

Dr. C. A. Watson was brought home Monday from Corpus Christi in a Jennings Funeral Home ambulance. He had been at Corpus Christi for several weeks taking his annual vacation and became ill while there. His condition was not improving in the coast city and he was brought home in the hope that the change would be better for him.

Leaf Worms May Damage Cotton Unless Checked

COLLEGE STATION, July 31.—Cotton crops of Texas are threatened with destruction, unless immediate measures are taken against leaf worm infestation and other parasites, according to R. R. Reppert, extension entomologist at College Station.

"Frequent showers for the past couple of weeks have been favorable to leaf worm infestation, multiplication and spread," he said. Reppert claims the pest is easily controlled by using calcium arsenate, otherwise known as arsenate of lime. He explained that this chemical is the same as is ordinarily used for control of boll weevil.

"Under ordinary conditions and where dusting machinery is available, this chemical should be applied in dry form," he stated. "Five pounds per acre applied in an even dust cloud should be sufficient except where there is an exceptionally large growth of cotton, then apply 10 pounds per acre. It should be applied early in the morning while there is dew on the plants, although it is effective when applied in midday provided there is no wind."

He continued by saying that those who are equipped with some kind of spraying machinery, where the chemical is applied with water as a spray, should mix the poison with the water in the proportion of 3 pounds to 50 gallons of water. "If the application is not constantly stirred while applying," he said, "the poison will settle out of the mixture. It should be applied in sufficient quantity to get a reasonable even covering of the mixture on the foliage."

The extension entomologist suggested that in case there is a shortage of calcium arsenate, Paris green may be used.

"For dusting," he said, "this Paris green should be thoroughly mixed with some 3 to 5 parts of hydrated lime or cheap flour to one part of the poison and applied in the same quantity as the calcium arsenate or possibly a little more heavily. If it is sprayed, use 3 parts of lime to one part of Paris green and mix so there will be one and one-half pounds of Paris green to fifty gallons of water."

Reppert added that mixtures of white arsenic and sal soda or lye are apt to injure the foliage.

JUNE LIVESTOCK SHIPMENTS HIGHER THAN YEAR AGO

AUSTIN, July 31.—Livestock shipments from Texas to Fort Worth and interstate points during June showed a moderate increase over the similar month last year, the University of Texas bureau of business research said in its monthly report on the livestock trade. Forwarding totaled 4,465 cars against 4,182 cars a year ago, an increase of 7 per cent.

"The greatest increase occurred in shipments of sheep, 586 cars against 449 cars last year, an increase of 30 per cent; followed by cattle, 3,197 against 2,861 cars, up 12 per cent. Shipments of calves totaled 507 against 505 cars, practically no change. Hog forwardings dropped 52 per cent from 367 cars a year ago to 175 in June of the current year. Aggregate forwardings during the first half of 1935 were 29,473 cars against 28,255 cars during the corresponding period last year.

"Shipments to the Fort Worth market were characterized by a sharp drop in the number of hogs and an equally marked rise in the number of sheep. Los Angeles received about one-third as many Texas cattle and hogs as in June last year, while a sharp increase occurred in shipments of cattle and no forwarding whatever of sheep were made to points in California other than Los Angeles, just the reverse of a year ago. Substantial increases occurred also in shipments of cattle—other than the large markets—to Colorado, Illinois, Kansas, Oklahoma, Iowa, Indiana and New Mexico, and of sheep to Colorado, Kansas, Missouri and Indiana.

"Districts of the state showing substantial increases occurred in shipments of cattle in comparison with June last year were: East Texas.

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the St. Angelus Hotel, San Angelo, Monday and Tuesday only, August 5 and 6, from 9 a. m. to 3 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge in his home if desired. And 608 N. TALMAN AVE., Chicago. For 12 years assistant to F. H. Seelye, famous rupture expert of Chicago.

Get your writing paper and envelopes at The Ledger office.

West Texas Scouts Need Cowboy Suits For the Jamboree

West Texas Boy Scouts who attend the national jamboree at Washington, August 21 to 30, have been asked to stage cowboy stunts for the program. This word has just been received by district officials at San Angelo and is being passed on to the troops in this area immediately in order that the delegates may have time to obtain cowboy outfits and dress up for the occasion when they arrive at Washington.

From Ballinger Arthur Wiesepape, Jack Bandy McGregor and Forrest Routh, besides approximately 200 other Scouts from the Concho valley council, will attend the jamboree. They will leave San Angelo on August 14 and assemble in Washington with some 30,000 Scouts from all over the nation.

Those in charge of the Ballinger troops are anxious that the three local boys have good looking cowboy outfits and anyone who has a suit he will loan should contact one of the Scouts and help him up to the western pageant.

Boys representing this council will assemble in the log cabin village at San Angelo for a day's training before boarding three railroad coaches for the trip. They will be joined by other Scouts at Fort Worth and a special train made up there will take them via Texarkana, St. Louis and Cincinnati, arriving at Washington August 18 for a three-day training course before the jamboree opens.

EMPLOYMENT IN TEXAS SHOWS LITTLE CHANGE

AUSTIN, July 31.—Employment conditions and payrolls in Texas during July showed practically no change either from the previous month or from July last year, according to the University of Texas bureau of business research. Reports from 1,581 Texas establishments covering the week ending July 13 gave a total of 75,760 employees, a decrease of two-tenths of one per cent from the like week of the previous month and five-tenths of one per cent from the corresponding period last year," the bureau's report said.

"Aggregate payrolls of the firms were \$1,762,000, an increase of two-tenths of one per cent over the previous month and 2.1 per cent greater than during the like period last year.

"Cities showing a gain over the two comparable periods were: Abilene, Austin, Houston, Laredo, and Wichita Falls. Industries showing gains over both the previous month and the corresponding period last year were: Beverages, commercial printing, electric railway car shops, flour mills, foundries, machine shops, furniture manufacturing, ice factories, laundries and dry cleaning, meat packing and slaughtering, men's clothing manufacturing, petroleum refining, structural iron works and wholesale stores."

Roses of Texas

Roses of red and gold, the colors of the flag of old Spain which flew over Texas 200 years ago, have been developed in the Texas rose fields. "Ma-fair Dallas" dahurians above display the flowers which will be planted throughout the Lone Star state in its centennial year, 1936.

FLOOD LOSSES WILL CAUSE NO CUT IN BENEFIT PAYMENTS

COLLEGE STATION, July 31.—Loss through floods will cause no reduction in benefit payments to Texas signers of crop adjustment contracts, the agricultural adjustment administration recently pointed out.

"In the case of cotton, contract signers will receive not only the usual rental payments and parity payments, but also their allotted quantity of Bankhead act tax exemption certificates," A. L. Smith, chairman of the state cotton allotment and review board, stated last week.

He also said that non-signers will get their quota of tax exemption certificates. Thus the adjustment programs of the AAA have crop insurance features which operate to compensate to some extent for any crop damage, whether from flood, drought, or other natural causes.

"The regulations also provide that producers may sell tax exemption certificates, in case they do not grow their full allotment of cotton covered by the certificates, through the assistant in cotton adjustment or a national pool," Smith said.

Jean Harlow, William Powell, Co-Starred in 'Reckless'

Metro-Goldwyn-Mayer's outstanding new feature, "Reckless," which is to be shown at the Palace Theatre Sunday and Monday next, has all the essentials of several excellent pictures contained within the footage of one picture that promises to become one of the most successful productions of the year.

Of first importance, it brings William Powell and Jean Harlow together as co-stars.

It was produced by David O. Selznick, who has brought to the screen such masterpieces as "Little Women," "Grand Hotel" and "David Copperfield."

It was directed by Victor Fleming, whose last successful directorial assignment was "Treasure Island."

Its music was composed by the ace of composers, including Jerome Kern, who has composed the theme song, "Reckless," with Oscar Hammerstein as the lyricist.

It offers gorgeous dance spectacles, including America's loveliest dancing beauties in colorful ensembles directed by Carl Randall and Chester Hale, former star dance director of the New York musicals.

The cast includes Franchot Tone, May Robson, Ted Healy and Nat Pendleton, Henry Stephenson, Rosalind Russell, Robert Light, Louise Henry, James Ellison, Leon Loyceff and Nina Mae McKinney. Randall, a noted dance director and dancing star of New York and Monte Carlo, makes his first screen appearance as the dancing partner of Miss Harlow in one of the lavish musical numbers.

The story is that of Ted Riley, sensational promoter of everything from trained fleas to bearded wrestlers, and of Mona Leslie, dazzling dancer whom Riley has lifted from carnivals to Broadway stardom—to fall in love with her to lose her, and then to win her back again.

Theatre Hides Escaped Killer in Thrill Film Starring Dick Barthelmess

Drama in a theatre that takes

place in front of the footlights instead of behind, is the story told in Paramount's "Four Hours to Kill!" starring Richard Barthelmess and coming to the Palace Theatre tomorrow (Friday) and Saturday.

Barthelmess plays an escaped convict, hiding in the theatre and waiting for his chance to get the man who squealed on him. In the same audience are others whose life dramas are bound with his—cloakroom boy who has stolen to get money, a fish woman planning to run away with her sweetheart, a handsome philanderer who preys on impressionable women.

While police frantically search for Barthelmess, he makes a telephone call that lures his victim to the lobby of the theatre. Then, just as the separate life dramas of the others are rising to their climaxes, he steps from his hiding place and shoots down the man before the eyes of an aghast audience.

How the criminal is caught and the tangled lives of the others straightened out furnishes the climax to a thrilling drama.

Norman Krasna's "Small Miracle," hit of the current Broadway season, furnished the original from which "Four Hours to Kill!" was written. Directed by Mitchell Leisen, "Four Hours to Kill!" features Joe Morrison, Helen Mack, Gertrude Michael, Dorothy Tree, Roscoe Karns and Ray Milland in its supporting cast.

NIXON ACCEPTS POSITION WITH E. SHEPPERD & CO.

Jack Nixon, Jr., who has been with The Ledger for more than a year, resigned this week to take a position with E. Sheppard & Company. He will be associated with this firm in the insurance and loan business beginning Monday of next week.

Mr. Nixon left Wednesday evening for Fort Worth to join his wife for a few days' visit with relatives, but will return the latter part of the week and be ready to assume his new position next week.

try Gulf 3 weeks IN THE "TRAFFIC COURT"

Wanted: A fair trial

If it's been some time since you've used Gulf, try it 3 weeks—then give us your verdict.

Try it in traffic. Starts. Crawls. Gets away. Climbs. There's no fairer test—and we think you'll confirm a recent judgment...

750 Turned Judges

We went to 750 owners of average cars—asked them to judge Gulf against their regular brands on mileage, starting, pick-up, power, all-around performance.

Gulf Won the Verdict!

At the end of the trial, 7 out of 10 voted Gulf superior on one or more of the 5 counts—many on all five.

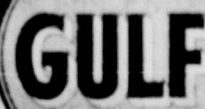

Reason? Controlled refining makes Gulf 3 good gasolines in one. Gives it not only 2 or 3—but all five qualities of a perfect gasoline.

Try That Good Gulf 3 weeks—and you'll be an addict!

GULF REFINING COMPANY

Q. What tip on "pickup" can cut down gasoline bills? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.

THAT GOOD GULF GASOLINE

COMMISSIONERS MEET AS EQUALIZATION BOARD

The Runnels county commissioners' court was in session here Monday, sitting as an equalization board. Prior to the meeting more than a hundred notices had been mailed property owners of the county asking them to appear and show reasons why their valuations should not be raised. Only about ten appeared before the board and no difficulty was experienced in arriving at equitable values.

Special assessors have completed the work of seeing all property owners in the county and securing the 1935 renditions. The rolls have been checked and with the few changes made by the commissioners Monday, the rolls will be approved as the assessors reported.

No other business was transacted by the court at this meeting.

DEATHS

Mrs. Ellen Branham
Mrs. Ellen Branham, 71, died at the home of her son, C. E. Branham, near Crews, Tuesday morning at 1 o'clock. She had been making her home with the son for the past three years but had lived in the community intermittently since 1902.

Decedent and her husband settled in the Crews section in 1902 and lived there until 11 years ago when the husband died. Since then she had made home at Winters and near Crews. She had been a member of the Baptist church since early childhood, holding her membership in the Crews church since coming to this county.

She is survived by the following children all of whom were present at the funeral service: E. T. Branham, Ballinger; C. H. Oscar C. and W. M. Branham, Winters; Mrs. Oliver Green, Mrs. Alfred Koff, Mrs. Homer Briley, Winters. Thirty-eight grandchildren and twelve great grandchildren also survive.

Funeral services were held at the Crews Baptist Church Wednesday afternoon at 3 o'clock. Interment was made in the Crews cemetery by the side of her husband.

Spill Brothers Funeral Home undertakers were in charge of arrangements.

Martha Reyes
Martha Reyes, infant daughter of Mr. and Mrs. Estaban Reyes died at the home of her parents Tuesday morning at 2 o'clock. Interment was made in the Mexican cemetery Wednesday afternoon.

Jennings Funeral Home undertakers were in charge of arrangements.

Oscar K. Paschal
Oscar K. Paschal, 40, died at his home in the Mann community Wednesday at 11:25 a. m. following illness of two years' duration. He had been in a number of hospitals for surgery during the past year but failed to get relief.

He moved to Runnels county 29 years ago and had been farming, living for some time near the Mann school.

Survivors include the widow, five children, Helen, Jessie Ruth, Ethel Freeman, Patsie Faye, and Oscar Paschal; his mother, Mrs. W. W. Paschal; two brothers, Tom and Harry Paschal, of Ballinger; and two sisters, Mrs. A. N. Wylie and Mrs. Lawrence Dodd, of Ballinger.

Funeral services were held at the graveside in Fairview Cemetery, Winters, Thursday afternoon at 3 o'clock, Rev. J. W. Sharbutt officiating, assisted by Rev. J. H. McClain.

Jennings Funeral Home undertakers were in charge of arrangements.

Mrs. H. H. Carsey and baby are spending the week in Abilene, visiting friends.

Mrs. George Garrett and son, of Lubbock, and Mrs. Fred Tinkle, of Winters, visited friends in Ballinger Tuesday.

Twenty Couples Issued Permits To Wed in July

County Clerk W. W. Chastain issued 20 marriage licenses during the past month. This was a good record for July, but a few less than the number issued in June.

Four of the couples requested that their names not be published in the list of those securing permits to wed. Below is a list of the other sixteen:

Pedro Martinez and Miss Juna Quiro
Lewis James and Miss Annabelle Cartrell
E. R. Powell and Miss Velma Williams
Cecil Gaylor and Miss Maudie Smith
Eudolph Jones and Miss Fay McQueen
Zenis Chase and Miss Salt Banks

Clarence E. Weaver and Miss Maurine Colton
W. T. Tarr and Miss Rethel Wilson
W. E. Taylor and Miss Evelyn Marries

Leonard Busher and Miss Ruby Carpenter
Jesus Silva and Miss Berta Lopez
Jack Adams and Miss Bobbie Orimes

Salvador Barrientos and Mrs. Yrida Garria
Johnny Minzenmayer and Miss Bonnie Briley
Cyrille Pearson and Miss Jewel Boier
Aubrey Campbell and Miss Vivian Harris

NORTON BASEBALL TEAM WILL FURNISH OPPOSITION SUNDAY

Oran Dean, manager of the Ballinger independent baseball club, announced Thursday that he had booked the last Norton team as opposition for the locals Sunday afternoon. The game, to begin at 3:30 p. m., will be played at Fair Park.

Dean announced that he would likely send Rube Virden to the mound against the Nortons and that Cot Underwood would do the receiving.

NEW FURNITURE SALESMAN EMPLOYED BY KING-HOLT

Mr. and Mrs. Ed Stallcup, of Brownwood, have moved here to make home. Mr. Stallcup will be connected with the King-Holt Company as salesman and began his duties Thursday morning. He is an experienced furniture man having been employed in that capacity at Brownwood for a number of years.

Joe Forman, J. G. Tuckey, E. R. Griffin and Charles Thorp went to San Angelo Sunday to watch the finals in the golf tournament at the San Angelo Country Club links.

Soviet Scientists Plan to Help Man Reach 180 Years

MOSCOW, July 31.—Men and women should live to be 180 years old and Soviet scientists propose to help them do it, according to recent announcements in Moscow by Professor P. P. Lazarev, of the Russian Academy of Science. Professor Lazarev has been working for years on the signs of old age shown by the nervous system, especially the nerves and brain centers which have to do with such senses as sight, hearing and touch. This nervous machinery is found to have its greatest sensitivity early in life.

With advancing age the sensitivity slowly decreases, sometimes faster, sometimes slower, according to the individual, even without any definite cause for premature blindness, deafness or other loss of individual portions of sense machinery.

To measure this decrease Professor Lazarev and his associates have developed special methods and instruments, especially some which measure accurately the gradual loss of sensitivity of the eye as judged by ability to perceive very dim light after the eyes have been for a definite time in darkness. This ability is found to vary each day in a kind of tidal rise and fall, being greatest at about 2 p. m. and least at about 3:30 a. m.

By calculating the rate of decrease year by year of this and other nervous sensitivities, Professor Lazarev estimates that these sensitivities in people not ill or otherwise abnormal all would decrease to zero in about 180 years. Since there is no unquestionable instance of any human being having lived longer than 180 years, it is concluded that this marks about the natural span of life for persons who have no disease or injuries.

Moscow health authorities therefore propose to set themselves the goal of eliminating all disease or other causes which now kill people prematurely at less than 180.

First Presbyterian Church Purchases New Pipe Organ

The First Presbyterian Church has placed an order for a pipe organ to be installed within the next 60 days. The committee in charge has made thorough investigation of several standard organs and decided to purchase an instrument from George Kilgen & Son, St. Louis. The sale was made by the Ballinger representative, Ernest Moody.

This church recently received several large donations for an organ and the fund increased to enough to install a fine instrument.

Some remodeling will be done in the building to make room for the organ and a grill will be constructed by the Kilgen company.

In making the purchase the size of the auditorium was taken into consideration and the organ will fit the space in the choir loft and will have volume sufficient for a church of this size.

A factory erector will come with the instrument, install it, and remain until it is thoroughly tested by the church musicians.

Teague and Hampton See Demonstrations Of New G-E Radios

G. P. Teague and Jack Hampton of the Ballinger Electric Company attended a preview of the new models of General Electric Company radio sets at Abilene last Friday.

Mr. Teague states that he will have some of the new receivers on display at his store this week-end and will be glad to explain the various new developments which the GE laboratories has perfected.

One of the main features of the new radio is the all-steel, sealed tube. Heretofore radio tubes have been made of glass, and according to the experts who lectured at the school the all-steel radiatron is far ahead of the old glass tube in that it is practically noiseless. The conduits in the new tubes are not as long and hence are not as likely to convey static and other disturbances common with the old tubes. Over 20 large radio companies have adopted the all-steel tube perfected by the GE technicians, it is asserted.
