Eagles Defeat Robert Lee Steers in Armistice Day Game

The Norton Eagles met the Robert Lee Steers in the Steers' home pen Armistice Day to defeat them 26 to 6. In the first period of the game, Compton passed to Carter to make the first score of the game. Compton kicked the extra point.

In the second period, Norton marched down the field from Robert Lee's forty-yard line to make a touchdown after a series of line plays. Jennings plunged the line to make the score. The pass for an extra point failed.

In the third period no scores were made. In the last period, after a series of line plays and short passes Compton passed to McDonald on Robert Lee's two-yard stripe. Compton carried the ball over the goal line standing up. The kick for extra point was low; the score, 19 to 0.

For the last touchdown for Norton, Compton blocked Hickman's kick from Robert Lee's forty-five-yard line and picked up the ball on Robert Lee's forty-yard line, from where he outran Hickman to score once more. Jennings kicked the extra point.

The Steers' lone touchdown came in the last period when Hickman received a long pass from the Eagle forty-yard line

and scampered across the goal line. The pass for extra point was no good.

We regret to report that Bobby Jack Priddy fell while watching the football game Thursday and broke his arm.

There are only two more games left on the Eagle schedule. One of them is with Bronte here and the other is with Lakeview here. We are hoping to win both of these games.

School was dismissed Thursday for Armistice Day. This holiday was very much appreciated and we are looking forward with pleasure to the forthcoming Thanksgiving holidays.

RUNNELS COUNTY GROUP ATTENDS FSA MEETING AT SAN ANGELO MONDAY

Home-owned farms and home-grown food were planned at a meeting held in San Angelo from which Runnels county representatives of the farm security administration and the extension service have recently returned. Attending from this county were: Miss Myra Tankersley, county home demonstration agent; John A. Barton, county farm agent; Floyd L. Stainback, rural supervisor for the farm security administration; Mrs. Isabel A. Holladay, supervisor of home management plans for the farm security administration; and Paul Trim-

mer, county judge.

The home-grown food program has put relief families "back on their feet" throughout this part of the state, it was shown in reports from FSA supervisors, who require that borrowers produce their own living at home, and also grow adequate feed for their livestock. Texas borrowers from FSA now have net assets running up to \$1,000 and more per family, as compared with less than \$100 two or three years ago. Ten to twenty-five per cent of them will pay off their loans in full this year and be able to get future financing from local banks which previously considered them ineligible.

Prospects for home ownership by tenants were explained in an

address by C. M. Evans, Dallas, regional director of the farm security administration. He said that for the present year, ending next July, twenty or thirty counties will be selected, and in each of these loans will be made for purchase of not less than five and not more than ten farms. Counties will be selected by a state advisory committee. The following year, funds now authorized by congress will permit purchase of 450 farms, as compared with only 180 in the state this year. The third year, funds now authorized will permit purchase of 900. "This is a very small, demonstrational beginning, to blaze a trail," Evans said. "Eventually we expect this program to be extended until every

qualified tenant can become owner of the land he cultivates." The plan allows forty years time, with interest at three per cent. Applications must be made to county committees which will be named in each of the twenty or thirty selected counties.

Mr. and Mrs. R. W. Bruce, Mr. and Mrs. W. E. Middleton, R. W. Earnshaw and Mrs. J. G. Douglass returned the past week-end from Fort Worth where they attended the annual meeting of the Central Texas conference of the Methodist Church.

W. D. Scales and J. T. Lively left Sunday for Mason county to join a group on a deer hunt.

Balanced Ration Makes Grain Go Farther

(This is one of a series of short, authentic articles on livestock production and feeding, published as a service to farmers and stockmen in cooperation with the West Texas Cottonseed Co. mills.)

Variations in weather, yields, prices, consumption and other factors affecting farmers have always been major agricultural problems. These factors will always vary. They are natural hazards of farming. Today, however, farming is far less hazardous than in the past, because many forms of "insurance" are available to present-day farmers and stockmen.

Such things as silo, for example, are commonly recognized as "farm insurance." Diversification insures a more varied income, and is insurance against a disastrous price decrease on a single crop without other sources of income.

Livestock production is two-fold insurance; the livestock producer has two markets for his grain and in addition, has soil insurance

through the fertility from each year's manure, which represents a payment on a policy insuring future fertility.

The use of balanced rations is recognized as a sound feeding practice, but it may not have occurred to many feeders that this, also, is a form of insurance. In the South, for example, the feeder who supplements his home-grown grains and roughages, as well as pastures, with cottonseed meal and hulls takes out an insurance policy, providing the following types of insurance:

1. FEED INSURANCE—Making his bushels of grain, or tons of roughage, go farther, by supplementing them with meal and hulls, creates a reserve of feed that may be greatly needed later in the season, or the following year.

2. COST INSURANCE—Home-grown feeds balanced with cottonseed meal and hulls reduce costs of production, providing a larger margin of profit that is insurance against a drop in livestock prices.

3. PRICE INSURANCE—Prices of most feeds usually are lowest at harvest time, and highest at the end of the season. By replacing part of the grain or roughage with cottonseed meals and hulls, the feeder gets price insurance by saving his feeds for the period when they are worth the most on the cash market. Because both cottonseed products and farm grains usually are cheaper in the fall, it is economical to lay in an ample supply of meal and hulls at the time and save the other feeds which usually are worth more later in the season.

4. ROUGHAGE AND PASTURE INSURANCE—The addition of cottonseed meal to the ration insures a greater return from pastures and from roughage, which might otherwise go unused.

5. SOIL INSURANCE—Soil fer-

tility for the future is insured by feeding cottonseed meal and hulls to livestock, returning in the manure the fertility removed in cotton production.

There are many other forms of insurance provided by the use of balanced rations—such as the insurance of a larger demand for his cottonseed which the use of meal and hulls provides for the cotton grower—but these listed will be sufficient to make feeders think of the advantages of using balanced livestock feeding for their own insurance policy.

Inspector Praises Progress Shown By Rural Schools

Practically all schools in Runnels county, both independent and rural, will allow two days next week for the Thanksgiving holidays in order that teachers may attend the Texas State Teachers' Association meeting at Houston (Common district schools will dismiss for the Christmas holidays on December 23 and resume class-work on January 3).

Rural school inspections in this county have been completed and the report of Deputy State Superintendent S. Ouel Murdock is very complimentary of the improvement made during the past year. Seventeen schools in the county have met standardization requirements and others are striving for the same goal.

Mr. Murdock's report following completion of the inspections is as follows:

"Much improvement is evident in practically every one of the 36 common schools in Runnels county over last year. Due to the effective supervision of the county superintendent, many schools have become standard and others are seeking to become standard in 1937-38. Generally speaking, the teachers are doing good work. The new curriculum program is getting underway, and signs of activity are evident in the progressive areas.

The state department of education is encouraging the introduction of better methods of teaching and more useful equipment for both the student and the teacher. It is gratifying to see county-wide interest and cooperation on the part of school trustees, teachers, and school directors. The new visual education program is getting underway in many of the Runnels county schools. As soon as the equipment is purchased and put into use, County Superintendent Grindstaff and the teachers who have expressed such a lively interest in the new activity program, will be able to go to even greater heights in equalizing the educational opportunity of the

rural children of the county.

"The school records in the county superintendent's office were in excellent condition this year, and not a single school was found out of balance in scholastics (which was reported for salary aid). All applications were properly submitted and have been carefully gone over and are being sent in to Austin for final approval, but no funds can be released according to the legislative law until after January 15, 1938.

"The state department of education is proud of the work being done in Runnels county, and is looking forward to even greater accomplishments in 1937-38. It is the wish of State Superintendent Woods that through better educational opportunities our Texas boys and girls may have an opportunity to learn 'How to Live and How to Make a Living.' Thanks to County Superintendent Grindstaff, Runnels county teachers, trustees, and patrons for the fine rural school program now underway for a greater school year. May the progress continue until no child may truthfully say 'I didn't have an opportunity to get an education in Runnels county.'"

Tuberculosis

Editor's Note—The following article on tuberculosis was written by Pauline Witter, student in the fifth grade of the Ballinger schools. Themes are being written by pupils in all the schools of the county as a preliminary for the tuberculosis seal sale which will begin on Thanksgiving Day and continue until Christmas.

Tuberculosis is caused by germs, not inherited. Most of tuberculosis starts when a child. You can catch it by sneezing, coughing, spitting and sneezing. Tuberculosis germs keep alive for months. Keep away from suspected people and people having it. Measles, influenza, whooping cough and pneumonia are sometimes the starting of tuberculosis.

All children should be inspected carefully, the least suspected might be a victim. Slight afternoon fever is sometimes a sign.

A person who has tuberculosis should have lots of rest. Many people who have the disease go to the Sanatorium of Texas. Guard your health always. Tuberculosis causes humpbacks. Tuberculosis is as old as man. It comes on slowly and there are a few signs which should warn people such as fatigue, loss of weight, poor appetite. Coughs that hang on too long may also be the start of tuberculosis. Spitting of blood and nervousness are signs of the second stage. Tuberculosis germs are so small that thousands of them can get on a pin-head. Germs may be left on spoons, spoons, glasses, etc.

If a cow has tuberculosis she can give it to people by them drinking milk. All cows should have the tubercular serum.

Be careful about drinking after people. Tiny cells in the body help to prevent tuberculosis. Germs in the warmth and moist of the body grow very rapidly. No two cases of tuberculosis are exactly alike. Any part of the body may be attacked.

Tell the doctor everything if you think you have tuberculosis. It takes a very long time to cure the disease. Many people go to sanatoriums so they will not give the disease to others. Everything there is very sanitary and with no worry they may get cured.

You need fresh air and plenty of sunshine. You need vitamins and lots of milk to fight the disease. You must keep fighting the disease after you think you are cured.

Bearcats Nose Out Coleman Bluecats In Armistice Game

The Ballinger Bearcats stepped a notch nearer second place in district 25-B Armistice Day when they defeated the Bluecats at Coleman 6 to 0. The Ballinger lads took the ball on the opening kickoff and used runs, passes and laterals to take the ball across the line. The try for the extra point was good but was called back and on the second attempt the Coleman line held Powers a few inches short of the goal line. The remainder of the game was scoreless but the Bearcats used a straight running game and did not uncover any of their main scoring plays. The Colemanites

ran and passed in the fourth quarter to throw a scare into the Bearcats when they battled inside the 20-yard stripe but the game was over with the ball near mid-field after the Ballinger team kicked out of danger. Ballinger fans supported the team in grand style at Coleman and the crowd from here was much larger than the Coleman section. Jones and McNary received slight injuries in the game at Coleman but coaches are of the opinion that they will be ready for the big game of the season here tomorrow (Friday) night when the Bearcats meet the Winters Blizzards, the only other team tied with the Bearcats for second place. Each of these teams has lost one game this season and the battle here tomorrow evening will again be for the championship of Runnels county and also for second place in district 25-B.

The chapel program, Wednesday, November 10, was a pep rally in the form of an amusing playlet presented by members of the pep squad and their sponsor, Miss Parker. The scene of the playlet was a beauty parlor, in which the patrons were discussing the Armistice Day game between the Ballinger Bearcats and Coleman Bluecats to be played the following day. The members of the pep squad who were featured in the playlet were: Edith Jones, Cordelia Lynn, Isla Mae Jennings, Mary Simpson, Virginia McShan, Mabel McMillan, Wanda Williams, Eulalia Nicholson, Anita Evans, Doris Lane, and Laverne Cox. Following the play, the pep squad sang a group of songs, and then Coach Wright spoke a few words to the student body concerning the Armistice Day game.

SPORTS

Now comes the big football game of the year. Ballinger has adopted the slogan, "Block a Blizzard," and this saying is being used in words, song and banners at school this week to get the Bearcats determined to do that very thing tomorrow night.

The Blizzards come to Ballinger with a bigger crew, outweighing the Bearcats several pounds to the man, and also have a better record on paper. They have shown a greater scoring punch in all games during the season and both teams have lost only to the Brady club, district champions.

Arrangements are being made to accommodate more than 4,000 fans tomorrow evening and each town will supply its full quota. Bets so far are even for the first time in several years and the smartest team is likely to win. Each town will have bands on the sideline, both cheering sections will be on the job in full force at 7:30 and the game will have the color that helps give the customers their money's worth.

The Ballinger-Winters game has always been designated as the biggest event in this section of West Texas this week-end and a number of sports writers will cover the contest. Blondy Cross, of San Angelo, has announced that he will be here and the Abilene Reporter will also send its sports editor. A number of colleges will have delegations here to scout for players.

This will be the last game of the season for both teams and all equipment will be turned in Saturday and the football season of 1937 forgotten.

Clyde Pratt, popular official of San Angelo and at one time coach of the Winters Blizzards, will be the referee tomorrow night. He was the unanimous choice of both schools for this big game. Other capable assistants will work as umpire and head linesman.

Two people remember! Then I heard a loud noise, like an earthquake; looked across the street and saw—just one person. Instantly, well five minutes later, I realized something terrible had happened. So I went across the street to see what had happened. There I saw one person standing, and one, Miss Metcalfe, sitting on the r. r. tracks. She told me that she had fallen (I could see that) and couldn't move an inch, and that it was time for the train to come thro'. Thinking as fast as I

It happened to me

—maybe, I was lucky.

It happened this way: I found myself in a run-down condition. I was listless, despondent, my appetite was lagging.

I was losing weight. I wasn't desperate, as I knew I had no organic trouble, but I was puzzled as to why I was losing ground.

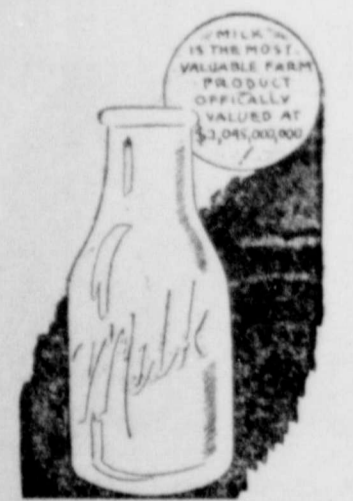

I was lucky because a friend suggested that I try S.S.S. Tonic... she said it had greatly benefited her in building back her strength and now she felt like her old self again.

You, too, will want to take S.S.S. Tonic to regain and to maintain your red-blooded cells... to restore lost weight... to regain energy... to strengthen nerves... and to give your skin that natural health glow.

At all drug stores in two convenient sizes. The larger size at a saving in price. There is no substitute for this time tested remedy. No ethical druggist will suggest something "just as good."

Strange But True

We'll Keep You Posted!

There's no need to let a fence go until all the posts rot out and the whole thing has to be rebuilt. A post here and there from time to time will save you a lot of expense. We will supply the posts—either in raw lumber or treated with creosote. Glad to quote prices to you!

Runnels Leads West Texas Area in Cotton Production

Unofficial tabulations of ginnings in Runnels county to Saturday night disclosed about 58,000 running bales had been handled by the gins. Cotton men estimated there were perhaps about 2,000 bales more to be picked and ginned. This would give the county about 60,000 running bales for the year and about 63,000 bales of 500 pounds each.

Runnels county, with 54,649 bales reported, continued to lead other West Texas counties in ginnings prior to November 1, according to the department of commerce, bureau of census, in its report received in Ballinger this week by A. J. H. Borders, cotton census taker for this county. This compares to 39,400 bales ginned to the same date last year.

Ginnings by counties in this section as given in the report follow:

Nazarenes to Hear Dr. McGraw Speak On Holy Land Trip

Dr. W. D. McGraw, father of Rev. James McGraw, pastor of the local Church of the Nazarene, will be at the Ballinger church Sunday night and will speak on his recent trip through the Holy Land and Europe. His lecture will be illustrated with stereoptical pictures.

Dr. McGraw, a recently retired minister, was granted leave of absence and given money to make his trip abroad while he was pastor of the Nazarene church at Beaumont. He is well known in Ballinger, having given a series of lectures on prophecy relating to the second coming of Christ on a

visit here three years ago. This is his second visit with his son here during the past year.

Citizens of this section are cordially invited to attend the lecture unless affiliated with some other local church where they will attend service.

Rev. J. C. Henson, superintendent of the San Antonio district of the Church of the Nazarene, will also be present. He will meet with the church board at the conclusion of the religious service.

Rev. and Mrs. James McGraw were guests Monday evening at a surprise shower given in honor of their second wedding anniversary at the home of Mr. and Mrs. L. A. Mosier. Practically all members of the local church were present and many beautiful gifts were received.

Rev. McGraw recently was given a three-year call to the Ballinger church and accepted it. The new period of service began on November 1.

Ballinger shipped its full quota of turkeys for the Thanksgiving market. Local poultry dealers stated following the end of this buying period that about 65 per cent of the 1937 crop was sold and shipments will be much lighter for the Christmas trade.

With most of the turkey dressing plants closed and many cotton fields bare, laborers are being released and fall crews can soon be obtained for WPA projects.

This is Red Cross Week and every resident of Runnels county will have opportunity to join this worthy organization. The magnificent work of the Red Cross in this county needs no reviewing here because practically everybody is familiar with what was done during the depression.

Every person in Ballinger who is unemployed or partially employed should sign a survey card this week and put it in the mails. All local citizens are requested to help with this work and if they know of anyone in this classification to see that he properly fills out a card and mails it before Saturday midnight.

Brady produce houses handled the largest number of turkeys reported in this section, shipping 15 carloads for Thanksgiving dinners.

The contract was awarded to Harris Bros., of Albany.

Instruments were ordered last week for the newly organized drum and bugle corps at Junction. The new organization is composed of 32 boys and girls and will be sponsored by the Junction American Legion post.

Construction of the "canned" gas system was started at Menard this week. Bonds for financing the plant and distribution system have been sold and work will be rushed in order to provide fuel for consumers this winter.

IN MEMORIAM

Lee Merton Causey

Dear father and mother don't weep,
 Brothers and sisters don't cry;
 For you'll meet Lee,
 With Jesus in the sky.

Dear grandmother, uncles and aunts,
 Dry your tears and smile;
 Cousins, don't grieve for Lee,
 You'll see him after while.

Dear friends don't feel sad,
 Don't let grief grip your heart;
 Lee is safe in Heaven,
 Where reunited we'll never part.

—His Pal.

Calvin L. Simpson

Friday morning he flagged the Heavenly train,
 Jesus took him aboard and released his pain;
 Now he is well and carefree again,
 Living in a land with sorrows slain.

His parting gave our hearts a sting,
 But there are hopes to which we cling,
 That rays of sunshine to dank days bring,
 When we think of our best knowing King.

He was known by many, loved by all,
 A man of kindness we often recall;
 Under trials he stood like a wall,
 Making big tasks seem oh so small.

He loved God, he would often declare,
 He accepted Christ and was His heir,
 For that heritage he tried to prepare,
 And he's expecting us to meet him there.

—Mary Fuller.

We were made sad on Friday, October 8, when the news came that Grandma Dietz was dead. She died at the home of her son, Paschal Dietz, near Blanton.

Funeral services were held at the Crews Methodist church, conducted by Bro. Morton, her pastor, and she was buried beside her husband who preceded her in death several years.

Truly it can be said of her, a good woman is gone. She was a member of the Crews Methodist church and was active in all branches of church work, always

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

present at all services until her health failed several months before her death. Oh, how we will miss her dear old face, yet the influence of her noble Christian life will be a benediction to all those left behind.

She was sick only a few days and her children were all at her bedside when the end came. Without pain or a struggle and with a smile on her face, she just fell asleep.

At exactly 4:30 that Friday afternoon, that grand old vessel, the old ship of Zion, that has made millions of journeys from earth to Heaven, swung low by the door of her home and she stepped aboard and with the blessed Christ as captain of the grand old ship, landed her safe at last in the harbor of eternal safety.

To the children and loved ones left behind, grieve not, but live the life that she lived, and when life with all its trials and disappointments and heartaches is over, in the courts of eternal glory, you will meet mother again.

—Mrs. W. T. Hill.

Rev. Morton Elected Official of State Baptist Convention

Rev. Clarence A. Morton, pastor of the Ballinger Baptist Church, returned Saturday from El Paso where he attended the Baptist general convention of Texas and was elected vice-president of the group at the closing business session.

In reporting the convention to his congregation Rev. Morton said: "The 89th session of the convention in El Paso was one of the best in attendance, spirit and achievement in many years. Over 1,600 messengers were registered, representing 3,000 white Baptist churches composed of over 1,000,000 members. Gains in membership were noted in all places and all phases of the work are progressing nicely. The financial budget for the new year was set at \$750,000 and Hardin-Simmons and Baylor universities were reported out of debt."

Speaking of local activities the pastor stated that substantial growth was noted in all departments of the church. The choir, under the co-direction of Mrs. L. Schermerhorn, organist, and R. E. White, choir-master, is now rehearsing Christmas music which will be rendered on the Sunday before Christmas. The Woman's Missionary Society, led by Mrs. L. L. Strobbe, will have a guest speaker in the near future, Mrs. B. L. Lockett, a returned missionary from Africa. The Sunday school, of which E. C. Grindstaff is superintendent, is showing increases in attendance. The Baptist Training Union, France Jones, director, has enlarged, adding one new union to the group. Enlargement campaigns for the Sunday school and B. T. U. are dated for immediate months and the annual revival has tentative dates set for April 3 to 17, inclusive.

Rev. M. M. Chunn Appointed Pastor Methodist Church

The First Methodist Church of Ballinger will have a new minister who will begin his service with the local membership next Sunday morning. Rev. M. M. Chunn, for the past four years at Gatesville, will come to Ballinger to succeed Rev. Homer Vanderpool. Local Methodists attending the conference at Fort Worth Sunday visited Rev. Chunn and stated that they were favorably impressed with him. He stated that he would return to Gatesville and get ready to move his family here this week in time to be in the pulpit Sunday for regular services.

Rev. Vanderpool will go to the Main Street Methodist Church, Cleburne, assuming the pastorate of a much larger church and at a larger salary. Local officials expected him to go to Brownwood and were surprised when they learned he was scheduled at the Cleburne church. He returned here the first part of the week to pack his household goods and library and move.

It has been known here for several months that Rev. Vanderpool would not return to the Ballinger church after conference on account of the health of his son. The boy has been here very little the past year, staying in Fort Worth most of the time to receive treatment at a clinic.

Rev. Chunn is a young man with a wife and a 15-year-old daughter. All members of the family are efficient church workers, devoting time to every department.

Rev. J. W. Sharbutt, Methodist pastor at Winters for the past four years, was sent to Dublin. Rev. Walter Vanderpool was returned to Breckenridge; Rev. E. W. Bridges to Graham; Rev. R. B. Hooper to

Highland Park, Fort Worth; Rev. R. O. Sory, Mexia; Rev. S. L. Culwell, Stephenville.

Appointments in the Brownwood district are as follows:

J. T. McClure, presiding elder; Ballinger, M. M. Chunn; Bangs, W. N. Dunson; Blanket, C. A. Wilkerson; Brownwood, Central, D. A. Chisholm; Brownwood, First Church, L. A. Boone; Burkett, J. D. Farmer; Coleman, D. K. Porter; Comanche station, E. N. Scarlett; Comanche circuit, H. J. Sanders; Cross Cut, Estill Allen, supply; Drasco-Pumphrey, A. W. Ferrill; Gustine-Lampkin, G. G. Smith; Indian Creek, George Greebourn; May, Earl Page; Norton, Hubert Crain; Novice, Seba Kirkpatrick; Rockwood, M. L. Nelson; Santa Anna, J. V. Davis; Talpa-Crews, O. A. Morton; Valera-Voss, E. M. Dalley; Winchell-Mount View, J. C. Tolbot, supply; Wingate, John R. Merritt; Winters, C. H. Cole; executive-extension secretary board of education, J. A. Siceloff; conference evangelist, J. D. Smoot; district missionary secretary, D. A. Chisholm.

HUBBARD RETURNS HERE TO ACCEPT POSITION

Bob Hubbard, for one year associated with the Higginbotham Funeral Home, has returned to Ballinger to accept a position with the Jennings Funeral Home. He and his family will move to the funeral home to assume duties there at once. The addition gives this firm three funeral directors and two licensed embalmers.

C. G. Jennings and family are moving this week to the Holwegler residence across the street from St. Mary's Church on Sixth Street.

Joe Forman spent the week-end at Coleman, visiting relatives and friends.

BALLINGER CHURCHES ROB GATESVILLE OF PREACHERS

It might seem that Ballinger churches "have it in" for the church-going people of Gatesville the way they have been taking preachers from that town. At the present there are four preachers serving Ballinger churches who formerly led the churches of Gatesville in their religious work.

Four years ago Rev. Wallace Jones, pastor of the First Christian Church, was a pastor in Gatesville and is now entering his third year here. Recently Rev. Clarence A. Morton was called to the Ballinger Baptist Church from Gatesville and accepted the call. He had labored for the cause with Rev. Jones at Gatesville and the two ministers immediately renewed their friendship. The appointments for the Central Texas Methodist conference last Sunday sent Rev. M. M. Chunn from Gatesville to the First Methodist Church of Ballinger and he arrived yesterday to commence his duties. Rev. W. J. Jackson, pastor of the colored Baptist church, also recently came from Gatesville, making a quartet of former Gatesville pastors on duty in Ballinger.

Someone remarked this week that that is what happens to "bad little preachers" but most people believe that it is a promotion and maybe an opportunity for a bigger work.

THANKSGIVING PROGRAM AT OLFEN TO ATTRACT MANY FROM BALLINGER

All roads will lead to Olfen next Thursday for the annual Thanksgiving program, climaxed with a dinner from 11:30 a. m. until everyone is fed. For the past several weeks citizens of the Olfen community have been preparing for the dinner and are ready to entertain one of the largest crowds ever to attend a Thanksgiving celebration in that community.

Advertising has been distributed over a wide area in West Texas and the usual attractive program promises to attract thousands. Serving will begin promptly at 11:30 in the morning and again at 5 o'clock in the afternoon.

Games and the auction sale in the afternoon are calculated to hold the throngs until supper time. At night a dance will be held to which everyone is invited.

TIGHT FITS
 between engine parts

That's why mere "fast-flowing" oils get beat by **WINTER OIL-PLATING**

How hard is it for any known oil to squirm in amongst scores of close-fitting engine parts? It's hard. Hence all Winter oil ads rightly tell you that even a worn, loosened-up engine needs extra fast oil-flow this season.

Free-flowing Conoco GERM Processed oil holds records for speedy flow in any cold. And yet Conoco asks you earnestly: WHY BE SATISFIED WITH ANY FREE-FLOW ALONE, WHEN YOU CAN JUST AS EASILY HAVE THE RE-DOUBLED INSURANCE OF AN OIL-PLATED ENGINE?

Only an OIL-PLATED engine is lubricated for every cold start in advance—whole hours and days before any mere free-flowing oil can do one single wiggle!

Germ Process action on every working part creates OIL-PLATING. It becomes a part of all surfaces. It cannot drain down. It stays up without interruption, forever ready to speed your starter and preserve your engine every inch of the way this Winter.

Oil level stays up, too, once your Conoco Mileage Merchant puts in your correct Winter grade of Germ Processed oil.

Approaching Wedding Announced
Mr. and Mrs. Albert V. Livingston announce the approaching marriage of their daughter, Virginia, to Dr. Horace A. Gustavus on Tuesday, December 21, 1937, at Ballinger.

Buxkemper-Rohmfeld Nuptials Celebrated at Olfen
In a beautiful ceremony on Tuesday, November 18, in St. Boniface Church, Olfen, Miss Lucille Rohmfeld, daughter of Mr. and Mrs. Ferd Rohmfeld, became the bride of Clarence Buxkemper, son of Mr. and Mrs. Anton Buxkemper of Slaton. The church was beautifully decorated with white and yellow chrysanthemums and red

roses. The impressive double ring ceremony was performed by the Rev. G. A. Boeckman. At the sound of Lohengrin's "Wedding March" played by Miss Bobbie Hafernik, Miss Margaret Rohmfeld, cousin of the bride, and Miss Lydia Buxkemper, sister of the groom, entered as bridesmaids. They wore dresses of aqua blue satin, made on princess style with bolero jackets and puffed sleeves. Their turbans were of the same material to match the dresses. They carried prayer books with streamers of white satin ribbon, edged with white chrysanthemums. Miss Viola Rohmfeld, sister of the bride, was maid-of-honor. She wore a dress of Windsor blue, same style as the bridesmaids', and carried a bouquet of white chrysanthemums. Miss Rohmfeld was met at the altar by Victor Buxkemper, best man, a brother of the groom. Little Dorothy Mae Buxkemper, sister of the groom, was flower girl. Her dress was of the same color and style as the bridesmaids'. She carried a colonial bouquet of white chrysanthemums. With her walked Raymond Rohmfeld, brother of the bride, as ringbearer. He wore a dark suit, carrying the rings on a white satin pillow. The bride entered on the arm of her father, Ferd Rohmfeld, who gave her in marriage. The bride chose for her wedding gown, a beautiful gown of lace over satin, made on a close fitting princess style, with satin covered buttons down front and a princess christine collar, the dress ending in a train. Her sleeves were Gibson style. Her elbow length veil was held in place with a lace crown, decorated with pearls and orange blossoms. She carried a white prayer book with showery of white satin ribbon edged with lilies of the valley and carnations.

In the afternoon, the young couple left on a wedding trip to Monterey, Mexico. Upon their return they will make home at Olfen. For traveling the bride wore a three-piece suit, hunter green, with fur collar and burgundy accessories. The bride was a member of the Children of Mary sodality, who gave her a linen shower. She is also a member of St. Monica Court No. 1262 of the Catholic Daughters of America, who gave her a kitchen shower. Her uncle and aunt, Mr. and Mrs. Hugo Halfmann, gave a miscellaneous shower for the bride.

Range program, 132 contracts comprising 177,900 acres, would pay ranchmen \$22,318.

Subsidy payments on cotton, provided all farmers of the county comply, \$500,000.
Feed acres in farm program, 5,280 acres at \$9 per acre, \$47,520.

Cotton acres, 21,000 at \$6.60 per acre, \$138,600.

Soil building allowance on 18,000 acres at \$1 per acre, \$18,000.

The estimated planting in Runnels county in 1937 was "broken down" as follows: cotton 175,000, wheat 28,000, oats 20,000, maize, hegar and kafir 40,000, hay 24,000, corn 5,000, truck crops 2,000, soil conserving crops such as cane, sudan, peas, etc. 27,000, making a total of 319,000 acres planted.

Mr. Barton stated that Runnels county was the largest maize growing county in Texas and that Runnels also had more land terraced and contoured than any other county in Texas.

Two Runnels Oil Tests Strike Oil Sand-Lime

Two oil tests in Runnels county had showings last week that probably will lead to renewed activity in this area. The Homer Price et al-J. C. Beddo No. 1 produced oil by heads last week at a depth of about 2,300 feet. The bit had entered the Serratt sand and the estimated production is 25 to 50 barrels a day.

Drilling is continuing in this well to the contracted depth of 3,600 feet and if nothing better is found the sand at the 2,300-foot mark will be developed.

No more work has been done

this week on the Hantho-Nelson-Bert Fletcher No. 1 near Maverick. A core was taken of the oil lime at 4,375 feet and since then various tests, including photographs of the bottom of the hole, have been made. Oil men in this locality believe the lime will produce a large quantity of oil when drilled into and perhaps given a shot of acid.

To complete the well it will be necessary to set casing in the hole and get ready for production. Drillers said Wednesday that they were awaiting further orders

before making any definite announcement.

Ballinger oil men believe both wells will be producers.

LOCAL FORD DEALERS VIEW 1938 MODELS

Frank Flynt and Henry Wiesepaper returned Wednesday night from Dallas, where they had been to attend a sales meeting of Ford dealers and to witness the first showing of 1938 models. Mr. Flynt was promised a new car within a short time but the definite date for the first public showing has not been announced.

Mr. Flynt was delighted with the appearance of the new Ford and said it was one of the best looking cars in recent years.
