NUMBER 38.

8,000 PEOPLE ATTEND BIRTHDAY PARTY

30 Crews to Measure County's Farm Acreage

A crew of supervisors started measuring Runnels county farms this morning and additional crews will be added as fast as possible until about 30 crews of two each are in the field. The county agent's office has many reports to make before a bale of cotton can be sold and is arranging to rush this work as fast as possible.

Two shifts of workers will be used on maps in checking sheets after farms are measured. One shift will go on duty at 4 a. m. and work until noon, and another shift will take over the job at noon and work until 8 p. m.

Recently letters containing blanks were sent to all farmers asking them to make reports on their cotton production for the years of 1933, 1934, 1935, 1936 and 1937. The purpose of these reports is to establish acre-yields on individual farms in the county for the 1938 program.

Farmers who do not exceed their cotton allotment base will be issued cards to that effect and will not experience any further details. Those who exceed their cotton allotment and do not bring their excess acres in line will be issued a red card that will be similar to the old Bankhead certificates.

Where an excess of either feed or cotton acreage is found the supervisors will be in position to advise farmers what can be done with the excess land. The work must be completed by the middle of August so that all farmers may be issued cards before cotton marketing commences.

LOCAL INDUSTRIAL PLANTS ENTERED BY BURGLARS

Two Ballinger industrial plants have been burglarized within the past few days. Officers reported that someone forced entrance into the Dairygold Creamery last Friday evening but a check-up revealed only some small cartons of ice cream missing.

County officers have been working on a case reported early last week at the Harvey Gin, where entrance was forced and a number of valuable tools stolen.

No arrests have been made in either case.

Dr. Charles Cheatham and Stewart Johnson, of Brady, returned Monday from the Buchanan dam, where they spent several days fishing.

Common School Districts' Property Valued \$207,050

County Superintendent E. C. Grindstaff has completed his annual report for the 37 common school districts of Runnels county and sent it to Austin. The report requires much work and was finished last week after many figures were compiled.

There are 93 teachers in the 37 districts in this county who were paid salaries last year totaling \$69,086. In the report it is shown that 34 of the schools operate the full 8 months and three had terms slightly less than that.

A check-up on teachers reveals that 34 hold first class elementary certificates, 27 have first class high school certificates, 9 hold permanent elementary certificates, and 21 have permanent certificates for high school work. Thirteen taught their first year during the 1937-38 term, 9 their second

Absentee Voting To Start July 3; Ballots Ordered

The Ballinger Printing Company has been given a contract to print the first Democratic primary ballots and 6,565 will be ready for distribution to the boxes at the proper time. The tickets will be finished this week so that absentee voting can begin July 3.

Election judges have been named for the 27 voting boxes in the county and expert assistants are being employed so that no time will be lost in tabulating the votes when the polls close on the evening of July 23. The ticket is long this year and will be printed in two columns on account of the length of the sheet of paper.

Parties who will be away from home on election day can go to the office of the county clerk and cast an absentee ballot. The law sets the date for such voting at 20 days prior to the election which will be on July 23, but as that falls on Sunday and Monday is July 4, it is not likely that any absentee votes will be cast before July 5. Absentee ballots will be distributed to the proper boxes on the day of the election and included in the tabulations.

All other election supplies have been purchased and will be distributed to the various precincts with the tickets.

County to Have Good Attendance At Short Course

Runnels county 4-H club boys and girls are making plans to be in College Station on July 6, 7 and 8 to attend their sessions of the annual short course. No definite number has been selected to attend by club leaders, but a plan is underway for all the gold star boys to be sent and the delegation probably will include those who have made good progress on demonstrations the past year. Miss Myra Tankersley, county demonstration agent, thinks four girls and one leader will attend from each club.

John A. Barton, county agent, stated that the arrangement this year would make it possible for him to attend all sessions.

Boys and girls will be there July 6, 7 and 8, and farm and home demonstration agents will hold their annual meeting on July 9, 10 and 11.

The annual program for the men and women will start on July 13 and continue through July 14 and 15. The 1938 program is being held in sections so that those attending can be taken care of better.

Tentative programs have been published for all three meetings and information on any can be secured from either agent.

In previous years when the attendance was left open to all who wanted to attend, a special train was made up by the Santa Fe railroad at San Angelo and operated through Ballinger for the benefit of the county delegation. This year those attending plan to go by automobiles and the quota of reservations will be filled in each group.

Mr. and Mrs. J. A. Reese have returned home from a visit with their son in Houston. While away they also visited relatives in New Jersey and made sightseeing trips to Washington, D. C., Niagara Falls, Chicago, and New York City. They were away several weeks.

Tom Cox, of Abilene, formerly of Ballinger, was a visitor here Wednesday.

The city commission in session Friday passed a resolution which instructed the city secretary to make inquiry of the Lower Colorado River Authority in regard to cost of electricity generated at the Buchanan, Inks or Marshall Ford dams for use in Ballinger. The action was prompted by similar requests from other towns in this section which are seeking information on the distribution of the electricity which will be for sale to towns in this part of the state.

Complete information is being sought on the project and will be given consideration and publicity when an answer is received by the commission.

A petition was presented by property owners on Strong Avenue between Seventh and Eighth streets asking that that block be included in the paving project now underway. The commission approved the request and as soon as property owners pay in their part of the cost, work will start on this block.

Three bids will be asked of construction companies for asphalt topping of the 22 blocks of pavement in Ballinger. Most of these have been gutted and a caliche base built and will be ready for surfacing in a short time.

PETITIONS CIRCULATED TO ASK COURT TO CALL BEER ELECTION HERE

Petitions are being circulated among the voters of Runnels county asking the commissioners' court to call an election to legalize the sale of beer. Those handling the petitions expect to have them ready to present to the court at its next regular meeting on the second Monday in July.

The election would submit the countywide issue of legalizing the sale of 4 per cent beer by weight. Twelve such petitions were prepared and placed in every section of the county. It will require about 350 signers to force the calling of the election.

Union Services To Begin Sunday At Athletic Field

The first outdoor union services of the 1938 series will be held next Sunday evening at the Ballinger football field. The service will commence at 8 o'clock with four churches cooperating and all citizens of Ballinger are invited.

Pastors of the four congregations will alternate in preaching but no announcement will be made as to who will deliver the message in advance of the service. All the preachers will take part in the services when in town.

A special pulpit has been constructed in front of the large grandstand and lights have been installed for the stand and platform. An orchestra has been organized by Gurthal Gilligan and will play a short concert each evening and also the accompaniment for the congregational singing which will be directed by Rev. C. H. Ward. Song books have been purchased for the congregation and everyone attending the services will be asked to take part in this part of the program.

All churches cooperating will follow their regular morning schedule of Sunday and church services but will dismiss in the evening for the union services. In case of bad weather the services will be moved into the First Methodist Church auditorium.

The plan was invoked here last summer with excellent results and pastors of the four churches are expecting better attendance and more enjoyable services this year. Cooperating are the First Methodist, Eighth Street Presbyterian, First Presbyterian and First Christian Churches.

PRESBYTERIAN CHURCHES TO HOLD JOINT BIBLE SCHOOL

The First Presbyterian Church and the Eighth Street Presbyterian Church will cooperate again this year on their vacation Bible school, which opens Tuesday morning, July 5, and continues through Friday, July 15. The school will be held at the Eighth Street church. Daily week-day sessions open at 8:30, and close at 11 a. m. The school will be headed again this year by Miss Martha Taylor, of San Angelo, religious education specialist of the Brownwood Presbytery, U. S. The following department heads have been chosen: intermediates, Miss Laura Edith Miller, juniors, Mrs. Charles H. Ward, primaries, Mrs. Harry Lynn; beginners, Miss Lillian McMillan. These workers will be assisted by a number of others from each church. All workers are requested to meet with Miss Taylor, on Friday night at 8 o'clock at the Eighth Street church, for a pre-school conference.

All children from the ages of 4 to 14 are invited to attend. The study material is edited by the International Council of Religious Education, an interdenominational body. There will be a registration fee of 15 cents per pupil.

BALLINGER WATER TESTS FREE OF CONTAMINATION

A report on water samples from the Ballinger city lake and the country club lake was received this week from the state health office, Austin, disclosing each free of contamination and good for drinking purposes.

Samples of the water from the two lakes were dipped from the main bodies and sent in for examination last week.

Miss Eloise Dickinson, of Brownwood, returned home Sunday after a visit with her grandmother, Mrs. R. A. Dickinson.

Attendance of 8,000 to 10,000 people is estimated to have visited Ballinger for the city's 52nd anniversary celebration Wednesday. The streets were thronged from early morning until late at night and programs were presented at various hours of the day.

The feature program of the "birthday party" was presented at 8:30 Wednesday evening at the high school athletic field when a cast of 250 portrayed scenes of pioneer times in Ballinger and Runnels county. The production was directed by Vernon Price, of the John B. Rogers Producing Co., Fostoria, Ohio, which also sent a staff of playwrights here to write the special script.

A small audience, approximately 1,000, witnessed the feature event, but those who saw the pageant pronounced it the best ever presented in Ballinger.

Miss Wesley Jane Reese, daughter of Mr. and Mrs. Wesley Reese, previously selected as "Miss Ballinger," was officially crowned at the opening of the pageant. Frank C. Dickey, local attorney, offered a word of welcome to the pioneers present, and performed the act of placing the coronet on the head of the queen. Miss Reese added a brief welcome and presented Miss Kathryn Bell, daughter of Mr. and Mrs. C. J. Bell, elected "Miss Texas," and Miss Margaret Crimm, daughter of Mrs. Percy Crimm, elected "Miss America."

Scenes from the "dawn of creation" to the grand finale were well presented with characters and ballets thoroughly rehearsed. An important item of the performance was the equipment used in the scenes and much credit goes to J. G. Tuckey and aides in assembling the large amount of properties. Neil McAlpine, chairman of the pageant committee, performed well as narrator and did considerable work during rehearsals of the pageant.

Included in the cast were the sons of a number of pioneer families in the county who have spent most of their lives on ranches and who were perfectly at home in the saddle or driving teams. A group of local negroes provided one of the novel scenes of the show, and the entire personnel of company C, 142nd Infantry, presented events of the World War in Ballinger, showing recruiting and a scene from the actual action at the front.

Pioneers from all sections of Texas gathered here Wednesday to observe the 52nd anniversary of Ballinger. Long before time for the parade all pioneer badges had been issued and streets were thronged with people for the day's program.

The parade portrayed scenes of the early days in Ballinger featuring covered wagons, horseback riders, and merchants' entries. The Ballinger high school band headed the line of march; in the middle of the parade was the Cisco high school band, under the direction of Robert L. Maddox; and later followed the American Legion drum and bugle corps from Junction.

Parade entries were announced as they passed the intersection of

Instructions were given in livestock raising, dairying, poultry raising, field crops, horticulture and cotton classing.

Golfers Qualify For July Fourth Club Tourney

Qualifications for the annual Fourth of July Ballinger Country Club golf tournament Sunday afternoon saw a large group on the course to shoot their first nine and some the entire eighteen holes. The lowest score for the first part of the week was turned in by Bud Canady, a 73. H. C. Agnew, defending champion, has not qualified yet and is not required to unless he wants to try for the medalist prize.

Unless Agnew qualifies, Canady will likely be medalist for this year. Charles Thorp met hard luck on his round and turned in a 77, which was also tied by Bill Griffiths the same afternoon. Others scheduled for the championship are Troy Simpson with a 79, Joe Forman 80, Albert Fryar 82, and several others who made from 83 to 89.

A. J. Thorp, chairman of the golf committee, requests that all players be at the club house Sunday afternoon at 1:30 to decide how pairing will be made in flights this year.

A number of players have expressed the desire for a change in the method of arranging the matches and the question will be left up to the players.

All qualifications must be turned in to the keeper by Saturday afternoon and play will begin Sunday for some of the championship matches and Monday morning for the others.

Other features in connection with the club celebration are being arranged this week. Those who do not play golf will have an opportunity to play bridge and 42 in the morning and afternoon sessions of tournaments and all club members and their families will be served a barbecue dinner at noon.

In the late afternoon men and women golfers will enter the Scotch tournament, and swimming, boating and other entertainment will be on the program.

The wedding of Miss Margaret Trail of Brady, and Norman Swain Lawler of Mercedes, was solemnized Tuesday evening at 8 o'clock in Brady. The beautiful back garden at the home of the bride's parents, Mr. and Mrs. R. T. Trail formed a background for the wedding scene. Members of the bridal party proceeded down a beribboned aisle and vows were taken beneath the pergola, which was a bower of roses, palms and gladioli. The six bridesmaids wore bouffant frocks of aqua and peach, the maid of honor wore

pink and the bride's gown was fashioned of net. Her bouquet was of orchids and lilies-of-the-valley. Best man was the groom's brother, Dr. Lawler, of Mercedes.

Mrs. Lawler is the only child of Mr. and Mrs. Dick Trail, and is a granddaughter of Mrs. E. A. Trail of this city. She is a great-granddaughter of the late Mr. and Mrs. N. F. Bonsall, real pioneers of Ballinger. She attended Southern Methodist University in Dallas.

OIL PERFORMS 'MIRACLES' FOR RURAL DWELLERS

Modern Rural Kitchen — Range and Refrigerator Burn Oil

Farmers generally are beginning to realize that for a large majority of them electrification is a long way off, and in millions of cases permanently beyond their reach, because of the prohibitive cost of line construction and service where there are not three or more homes to the mile. However, that such homes need not lack modern conveniences is indicated by this photograph showing a modern rural kitchen with oil burning equipment.

Both the range and the refrigerator burn oil. Seeing them and learning about their performance impresses one with the thought that petroleum is a modern "miracle" fuel, for it also supplies power for many uses, not the least of which is in bringing those who live in even the most remote homes within a few minutes of town or city, by means of the modern automobile.

Because it brings the convenience of modern refrigeration to even the most isolated farm home, where the need is greatest, the oil burning refrigerator is generally regarded as one of the greatest labor-savers made available to rural homes in recent years. Strange as using heat to create refrigeration may seem, even more surprising is the fact that the burners of this refrigerator do 24 hours' work in two hours. The burners go out automatically after the required amount of oil has been burned, but refrigeration and the freezing of ice cubes goes on continuously.

Eighth and Hutchings over the Gulf Oil Company's public address equipment.

Following the parade the throngs assembled on the court house lawn, many of the pioneers occupying places of honor on the platform from which the first program of the day was presented. County Judge Paul Trimmer presided over the program and introduced E. M. Lynn, mayor of Ballinger, who extended a welcome to those who had "returned home" to attend the celebration. He expressed sorrow for the faces not here this year—those who had been called from the land they loved by death since the last time the pioneers were together.

Mr. Lynn stated that one unique thing about Runnels county was due consideration. He pointed to a court house which was completely paid for and added that there were no outstanding bonds against the county, that cash was paid for every expenditure and these were bought wisely.

He pictured the modern school plant which is offered for the education of the youth of today and gave a description of city affairs and the excellent condition of its finances.

Judge Trimmer next presented Senator Tom Connally, who delivered the principal address of the day. The speaker came to Ballinger for this occasion from his home at Marlin after having been back in Texas from Washington only a short time.

Senator Connally stated that it was a fine thing for people to

gather and celebrate the birthday of a place that had prospered and grown to provide the opportunities of Runnels county. He recited a brief outline of the history of the county and told pioneers something of the movements in the world today that were demanding attention of the best thinkers.

The dining room at Fair Park was crowded to capacity at noon when more than 600 pioneers were served a barbecue dinner with all the trimmings, topped off with ice cream and cake. The birthday cake decorated with fifty-two candles was made by the Connolly Bakery and donated to the celebration committee. It was cut by the oldest pioneer registered and all were served slices.

The crowd was larger than expected and some items on the menu were exhausted before all were served. There was plenty of barbecue for everyone, however, and the pioneers lingered for some time after the meal was served for the short program and to visit their long time friends.

After a group of musical numbers by the Boswell Brothers, J. D. Motley, secretary of the Ballinger Chamber of Commerce, presented Postmaster Tom Caudie, who in turn introduced Congressman Charles L. South, the main speaker. Mr. South's theme was conditions of today as compared with other periods in our growth. He asserted that Americans were beginning to see the break of a new day and that there were fewer people destitute today than in the days of our great prosperity. He paid tribute to the pioneers of this great section of Texas.

Senator Connally Asserts 'New Deal' Has Benefited All

United States Senator Tom Connally, principal speaker at Ballinger's birthday celebration Wednesday has served in congress for the past 22 years. For 12 years he was a member of the House and is now serving his tenth year in the Senate. When asked if he knew how to get around in Washington, he said that he was fairly well acquainted with Washington and its ways. People of this section know that is true and many have been assisted by him in the national capital.

Senator Connally was the speaker here for an American Legion convention about 14 years ago and later spoke in Ballinger in behalf of his candidacy for the Senate 10 years ago.

The senator stated Wednesday that he believed another Democrat would be elected president in 1940. He predicted the possible loss of some members of the House this year but declared that no strength would likely be lost in the Senate. The senator believes that people have been greatly helped by the New Deal and predicts that they will show their approval of the work done in recent years by their votes.

Senator Connally spent a pleasant day here, meeting pioneers and close personal friends. He was scheduled to remain for the night performance and crown Miss Ballinger as queen of the pageant, but received a telegram in the late afternoon which called him away on account of the illness of a relative.

After the night program Senator Connally motored to Coleman, where he had an engagement today. He returned to Texas from Washington Monday and his Ballinger speech was his first public appearance since congress adjourned.

TAYLOR OLD SETTLERS WILL MEET JULY 15-16

The Taylor County Old Settlers' Reunion will be held at Buffalo Gap on July 15 and 16. The first day will be devoted to entertainment for strictly the old timers and the second day all state, district and county candidates have been invited to attend and will be given opportunity to make short talks.

Officers of the organization are anticipating one of the largest crowds in the history of the reunion.

Dr. and Mrs. George Neersta spent the past week-end in San Antonio, visiting relatives and friends.

OLFEN BESTS PAINT ROCK; BALLINGER BEATS OLFEN; IN GAMES HERE SUNDAY

Baseball fans saw two fast games in Ballinger Sunday afternoon; Olfen defeating Paint Rock 10 to 9 in the opener, and Ballinger taking the nightcap from Olfen 5-4. The catching of Frank Coker was a spectacular feature of both contests and the hard hitting of Roy Curry, of Paint Rock, provided a thrill in the first game. Curry garnered a triple and a home-run as well as playing a great game on the infield.

Burk was on the mound for the locals in the last game and held the high-stepping Olfenites well in hand behind almost flawless support. The Ballinger line-up was the best seen in Fair Park this summer and will be maintained for other games. The starting nine was: Phillips, c; Burk, p; Turner, 1b; Marsh, 2b; Partridge, 3b; Cook, ss; Williams, lf; Morris, cf; Strickland, rf.

Mrs. S. H. Nance, of Cisco; Mrs. J. H. Steir, of Bastrop, Louisiana; and Mrs. Hartman McCall, of Houston, are guests of Mr. and Mrs. H. Ford Taylor.

Mr. and Mrs. Carl Henson and daughter, of Brady, were visitors in Ballinger Wednesday.

Mr. and Mrs. E. C. Grindstaff and son will leave Friday to spend their summer vacation at a private camp near Mineral Wells.

Mrs. Crawford Lemburg and little daughter, Jamie Ruth, of Menard, are visiting relatives here.

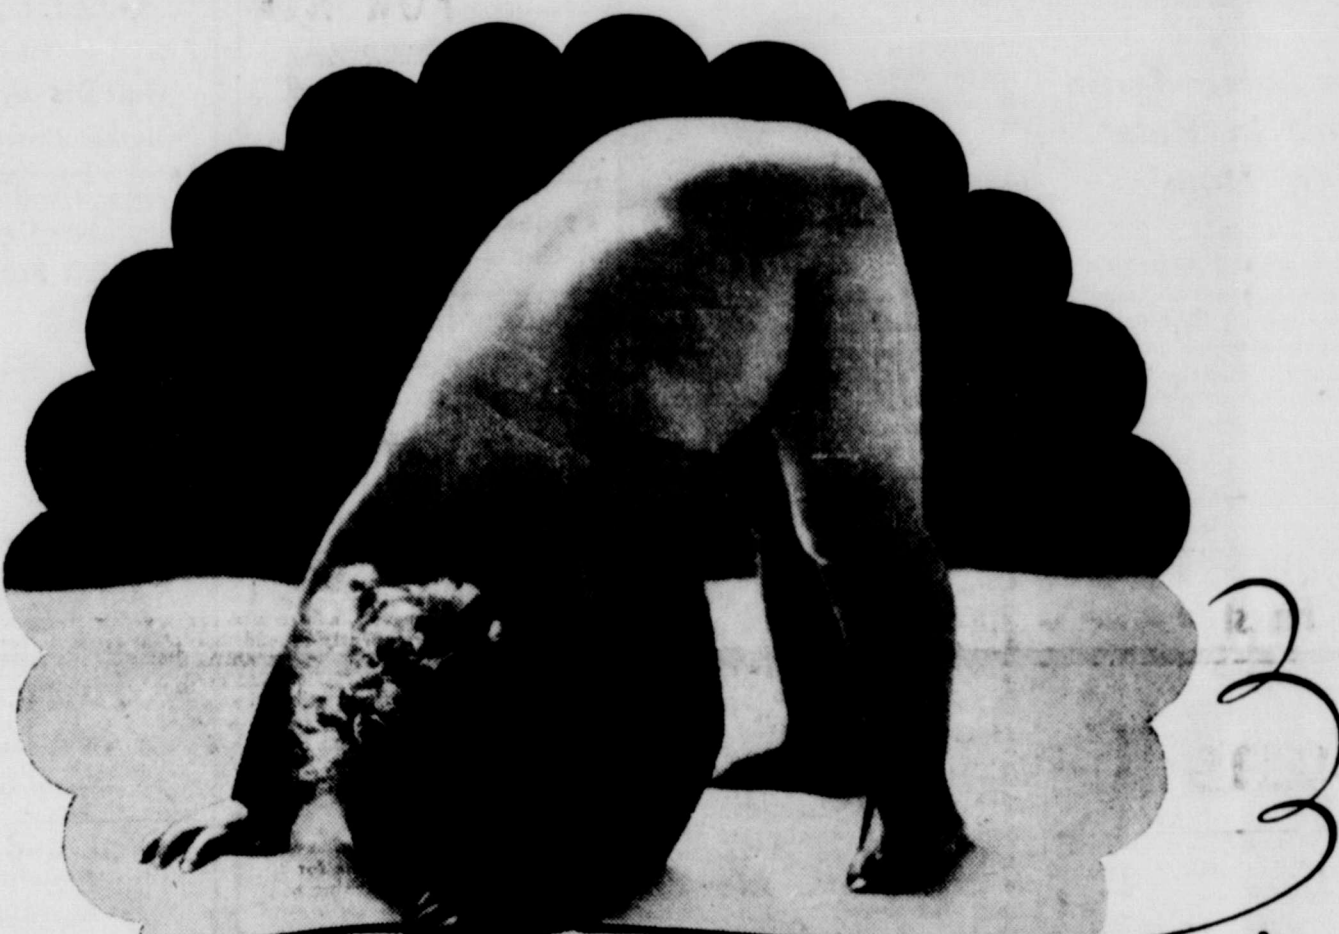

CAR REGISTRATIONS FOR MAY SHOW DECLINE

AUSTIN, June 29.—New automobile registrations in Texas during May declined only slightly from the preceding month, but the drop from May last year was decidedly abrupt. The University of Texas bureau of research has announced. Reports from fifteen representative Texas counties show a decline in registration of 1 per cent from April and 34.9 per cent from May last year.

Registrations in these fifteen counties during the first five months of the year totaled 19,827 cars, a decline of 30.6 per cent from the corresponding period last year.

"Sales in all of the four price brackets shared in the decline, but the percentage drop was greatest in the lower-intermediate price group," the bureau's statement said.

Major: "What is a maneuver?" R. O. T. C. Boy: "Something you put on the grass to make it green sir."

Oh, if your Engine only could

OF COURSE, you can't leave your engine standing on its head every time you park, but you can have it OIL-PLATED. And OIL-PLATING not only goes clear up inside your engine, but stays there — for hours — weeks — months — even while the engine is right-side up at a standstill! Now why is that better?

Well, this exclusive OIL-PLATING — formed in your engine solely by patented Conoco Germ Processed oil — is always up there ready to lubricate before other oils could even begin to circulate. Therefore, every start you make finds cylinders,

rings, bearings and other parts self-lubricated in advance. The action of the patented Germ Process has kept them continuously charged with oil, or OIL-PLATED.

They cannot "start dry," and thus you are rid of engine enemy No. 1. Good platings don't evaporate either, or lose their grip during Summer spurts. You can tell that about OIL-PLATING by noting how Conoco Germ Processed oil maintains the oil-level. Head in at Your Mileage Merchant's. Continental Oil Company

'Adventures of Robin Hood' Impressive in Technicolor

In line with its policy of presenting the pick of screen entertainment, the Texas Theatre will have as its feature attraction in Saturday midnight review Sunday, Monday and Tuesday, "The Adventures of Robin Hood," a massive technicolor melodrama, produced by Warner Bros. Errol Flynn is starred, and Olivia de Havilland, Claud Rains, Basil Rathbone, Ian Hunter are featured. The supporting cast contains some thousand players. Liberty magazine gave this picture four stars, highest possible award.

The handsome young Irish star, Errol Flynn who had such triumphs in "Captain Blood" and "The Charge of the Light Brigade," plays Robin. The beautiful young Olivia de Havilland, who was the heroine of those successes, is Maid Marian. This is their third pic-

ture together and is sad by presenting to excel its predecessors. This version of "The Adventures of Robin Hood" is altogether different from the great picture which Douglas Fairbanks made in silent form in 1922. It is filled with fighting—bows and arrows, quarter staffs, pikes and broad-swords being the weapons—and is played in immense and beautiful settings both indoors and out.

In the supporting cast also are Eugene Pallette, Alan Hale, Melville Cooper, Patric Knowles, Una O'Connor, Herbert Mundin and Montagu Love.

The screen play has several of the well authenticated incidents contained in most of the legends surrounding England's greatest outlaw, but the bulk of the story is original in form. Four of the eleven existing technicolor

camera in the world, each valued at \$30,000, were employed throughout the making of this thrilling romance, which is described as the outstanding adventure picture of the 1938 film season.

NELSON SPEAKS HERE IN HIS OWN BEHALF

Senator G. H. Nelson, of Lubbock, spoke on the court house lawn here Tuesday afternoon to a small crowd in behalf of his candidacy for the office of lieutenant-governor. He arrived here with a sound truck and outlined his platform in the brief address.

Mr. and Mrs. Guy Karr, of Spur, were week-end guests of Mr. and Mrs. Bynum Britton.

Mr. and Mrs. Leonard Stallings visited Mr. and Mrs. Edgar Ellis, of Rule, the past week-end.

Mr. and Mrs. Jack Nixon, Jr., returned Saturday from Gatesville, where they had been to transact business.

'Snow White and 7 Dwarfs' Opens Local Run Tomorrow

Motion picture fans will have their hopes realized, for something new and enchanting, in "Snow White and the Seven Dwarfs," the first Walt Disney animated film to be made in full feature length, in technicolor, with dialogue, songs, dances and a complete musical score. The picture was three years in the making, its cost being estimated at \$1,500,000. It will be shown in Ballinger at the Ritz Theatre tomorrow (Friday), Saturday, Sunday, Monday and Tuesday, July 1-2-3-4-5.

The plot of "Snow White" is an adaptation of one of the most loved of the Grimm Brothers' tales. First published in the early part of the last century, this book has been translated into every civilized language. Its readers are numbered in the millions. A sterling favorite with generations of Americans, past and present, it is equally popular abroad.

Meeting "Snow White," the dainty, lovable little princess, on the screen is the same as greeting an old friend one has not seen for years. Her adventures begin when the wicked queen, jealous of "Snow White's" budding beauty, first degrades her to the level of a scullery maid. Even then the queen's magic mirror informs the sovereign that "Snow White," though attired in rags, is still the fairest in the land.

The palace huntsman is ordered to take the princess to the forest and kill her. But he permits her to escape. She is befriended by

the pitying birds and animals and finds refuge with the Seven Dwarfs in their woodland home. Thither comes the wicked queen in the guise of a witch, "Snow White" eats a bewitched apple given her by her rival, and falls into a death-like slumber. So lovely is she that the dwarfs, instead of burying their beloved little housekeeper, place her in a coffin of glass and gold by which they keep watch. The tiny chaps have already wreaked vengeance on the witch, who has fallen to destruction over a precipice. Then came the handsome prince, who loved "Snow White" when she was only a scullery maid, awakens her with a kiss, and the sweet-hearts leave together for their castle home.

This is only a sketchy outline of the action in the RKO Radio picture, which is studied with detail. There are laughs galore, inimitable incidents too many to describe, as well as dramatic thrills, romance and pathos, while over all is the fascinatingly bizarre atmosphere of fairyland exquisitely developed in three dimensional color photography.

Song hits in "Snow White and the Seven Dwarfs," include the dwarfs' marching song, "Hi-Ho"; their washing song, the songs by "Snow White," "Some Day My Prince Will Come," "With a Smile and a Song," "Whistle While You Work" and "The Wishing Well Song," and the prince's song, "One Song." The melody of "Some Day My Prince Will Come" is the picture's theme music.

Karl Crowley Will Present Platform In Address Here

Karl Crowley, candidate for governor, will speak in Ballinger Tuesday afternoon, July 5, the address to begin at 4:30. Announcement was received here this week by local friends that Crowley would bring his campaign to Runnels county and is anxious to meet as many voters as possible on the court house lawn, where he will discuss important issues in the race.

His statement said he would present the "true issues of this campaign, which in a nut-shell is honest, courageous government for the people of Texas against the 'special interests' that seek to control the affairs of state through their million-dollar campaign-financed stooges."

Crowley declared he would be in the run-off "against one of the monopoly corporations"

puppets." He attributed the increasing success of his campaign "to the solid support of old age pension citizens, the teachers who appreciate my sound program for a half-billion dollar educational endowment, and to thinking citizens who resent 'tin-god' demagogues and politicians who would sell the people's trust for million-dollar campaign funds."

Peter Lorre Again Cast in Role Of 'Moto'

Facing a weird wilderness of mystic temples and nameless terrors, the famous Saturday Evening Post master of mystery meets his most sensational adventure as Peter Lorre brings to the screen the character created by J. P. Marquand. "Mr. Moto Takes a Chance," thrilling 20th Century Fox mystery-adventure story to be shown at the Palace Theatre next Sunday, Monday and Tuesday, is the latest in the series. Rochelle Hudson, Robert Kent and J. Edward Bromberg are in strong supporting roles.

The amazing Mr. Moto, mild-mannered, nimble-witted detective, fights poisoned blow-gun darts with hypnotism, jiu-jitsu, swords, burning oil, sorcery, machine guns and magic in a drama motivated by mystery, teeming with thrills and alive with adventure.

In the mysterious jungles of Indo-China, British intelligence officers strongly suspect that an uprising is being fomented by a native rajah. Into this scene comes Rochelle Hudson, a round-the-world flyer who has landed via parachute from her flaming airplane. An American newsreel cameraman, his assistant and the mysterious Mr. Moto, posing as a Japanese archaeologist, join her.

Immediately the four are constantly on the defensive as poisonous cobras, wells of death, mysterious murders and high-priests are used in attempts to kill Mr. Moto and his friends until the wily detective, with incredibly clever disguises, outwits the crafty natives and climaxes the picture in a whirlwind of excitement.

Again Peter Lorre delights with his highly individual characterization of the famed sleuth.

Afternoon Tea for Recent Bride

Mrs. George L. Nesrsta, who before her recent marriage was Miss Lena Grace Sanderson, of San Saba, was the inspiration for a beautifully appointed afternoon tea given today (Thursday) in the home of Mrs. R. T. Trail on Eighth Street. Mrs. Trail and her daughter, Mrs. H. J. Zappe, and Mrs. Neil McAlpine were hostesses for the affair to which more than one hundred and fifty were bidden.

Splendid reception rooms were given added charm by vantage placings of bowls and vases of summer blooms. Roses, French daisies, purple gentian blossoms and zinnias were combined with staccato, abelias and fern.

Mrs. Elmer Shepperd was at the door to extend greetings to guests who called in groups throughout

the afternoon hours. Mrs. Trail headed the formal line and presented Mrs. Nesrsta, Miss Beatrice Wilbanks of Paint Rock, Mrs. J. D. Forman, Mrs. Charles Bailey and Mrs. R. W. Earnshaw.

Mrs. McAlpine and Mrs. Zappe were assisted by Mrs. Edgar Boelsche, Mrs. E. W. Stasney and Miss Louise Batts in extending hospitalities in the large sun porch where guests were seated for informal conversation.

Mrs. Arthur Giesecke presided over the punch bowl surrounded by pink rosebuds and lace fern placed at one end of the dining room table laid in imported hand-made lace. She ladled frosted lime punch which was served with assorted fancy cakes by Mrs. Tommie Hall, Mrs. J. A. Killough and Mrs. George Stowe. Pansies were individual favors.

Incidental piano music was furnished throughout the calling hours by Mrs. Wilbur Redwine. Mrs. Alex McGregor was also

included in the house party.

Mrs. Britton is Hostess

Mrs. Bynum Britton complimented out-of-town guests on Wednesday afternoon when friends and contract club members were entertained in her home on Eleventh Street.

Red roses and brightly colored zinnias gave floral decoration to rooms where Mexican peons were hand-painted on game and table accessories. This theme was further accentuated in the tomato salad plate served at the tea hour with iced tea.

Mrs. Jones Parrish received high club score; Mrs. Fred Hall, of Dallas, high guest; and Miss Mary Evelyn Nichols, of Abilene, high cut.

Others included: Mmes. Billie Cordill, R. W. Earnshaw, Joe Beck Jr., W. B. May, Dan Castles, Clinton Glover, Ralph Payette, James Parrish, E. Mixon, W. E. Moss, Dick Stengel, O. L. Huddleston, and R. J. Hawk.

HOME DEMONSTRATION EXHIBIT ON DISPLAY

The exhibit committee of the home demonstration clubs of Runnels county has a better bedding display in a show window at the Higginbotham Bros. & Co. store, this week and invites inspection by citizens here. The exhibit was viewed by many Wednesday when large throngs were here to attend the birthday celebration.

Included in the display are spring covers, mattresses, mattress covers, sheets, pillow slips, bedspreads, wool comforts, cotton comforts, washed wool and other items included in the better bedding score card.

This is only one of the exhibits that will be made by the home demonstration clubs this year. Later a rug display will be placed here and at other towns in the county to show what is being accomplished in club work.

The better bedding on display is very attractive and worth a close inspection.

Celebration Highlights

Congressman C. L. South spent the entire day here, greeting Runnels county friends and watching politics from the sidelines. He is not worried about the election this year as he has no opponent and is sure to be the Democratic nominee. He has just returned from Washington where he served on important committees in the last session of congress.

Committees who worked faithfully on the program are to be commended for their untiring efforts. All men designated to special work performed their duties well and while some had tougher assignments than others, credit for the whole affair goes to a large number of civic workers.

Mrs. Laydia (Alexander) Marra, of Beaumont, California, was one of the pioneers who came the greatest distance to attend the celebration. She registered early and was present during the entire day.

Mr. and Mrs. Louis J. Wardlaw, of Fort Worth, were here for the celebration and combined their attendance with a visit to relatives.

Mrs. R. P. Kirk, a long time citizen of Ballinger but now residing at Austin, enjoyed her visit in Ballinger and the meeting with old friends.

Mr. and Mrs. Fogg Coffey, of Concho county, two of the oldest pioneers of the section, were early arrivals Wednesday morning and took in all the programs.

There were enough political folders and candidate cards distributed in Ballinger Wednesday to fill a large truck. County, district and state office-seekers were here to meet the large number of voters at the celebration.

Ballinger people appreciated the visit of the excellent Cisco school band. Robert Lee Maddox, son of Lee Maddox, Ballinger pioneer is director of this band and led it here complimentary to help with the program. The Ciscoans arrived in time to join in the parade and in the afternoon merged with the Ballinger band for a massed concert.

Ollie Floyd, formerly with the West Texas Utilities Company at Ballinger but now manager at Junction, was chaperon for the Junction drum and bugle corps, which arrived early Wednesday morning, took its place in the parade and aided in presenting the afternoon program.

J. C. Adair, father of Cal Adair, came from Cumby to attend the celebration and to play the old time fiddle music in the square dancing scene in the pageant.

Thanks go to the Gulf Oil Company for providing the splendid public address system. The sound truck was used for all programs and several microphones were employed in the pageant, the last program of the day.

The colored people of Ballinger assisted with the celebration, helping to prepare the barbecue, provided a massed chorus of 100 for the pageant, and had three entries in the parade.

Judge C. O. Harris was enjoying the celebration as much as any "old timer." He first practiced law at Runnels, moved to Ballinger after the town lot sale and remained here for many years before moving to his present home at San Angelo.

The Coleman band and delegation arrived late Wednesday afternoon, advertising their rodeo program to be held on July 14 and 15. The band played a short concert on the court house lawn and paraded through the streets.

RURAL ROUTE CHANGES TO BE MADE JULY 1

Changes on Ballinger rural mail routes have been announced that will provide better service. The changes will take place July 1, according to information received this week by Postmaster Tom Caudle.

The carriers on both routes will leave Ballinger at the same time each morning, about 8:45. They will be back by 2 p. m. in time to despatch incoming mail on the 2:30 mail car.

This will give a much faster mail service for people living on the routes and especially for air mail letters.

Strength During MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

In such cases, Cardul has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

Work at City Park Adds Much Beauty As Flowers Bloom

The Ballinger city park is at its peak for all time since it was laid out and city officials and the park keepers are inviting visits from citizens. New fieldstone work has been completed and a number of flower beds built since last summer and all the flowers are blooming now in the most beautiful array ever seen in one place in Ballinger.

In addition to the beautification work done here, many more conveniences have been added to the park, in particular providing more room for picnic parties. Additional stone and brick barbecue pits have been built, stone and concrete tables with seats installed in several cozy nooks, a foot bridge built across a small branch, and more lights strung.

The yard at the keeper's home has been terraced and each section is filled with blooming flowers. More trees have been set out in the park and grass covers the plot solidly.

Citizens who are interested in flower gardens and who grow them at home say the park is one of the best landscaped plots they have ever seen.

The rich soil, planted in flowers for the first time, provides a heavy growth and blooms on many of the plants are extra large and colorful.

The park is being used more and more each year and reservations are sometimes made several days in advance for special parties in addition to the regular daily crowd that goes there in the evening.

UNION YOUNG PEOPLE'S MEETINGS ARE PLANNED

The program for Sunday will be arranged by Miss Edith Cameron, Miss Cordelia Lynn and Miss Doris Lane. All young people from 14 to 24 are invited.

Dr. and Mrs. E. H. Boelsche and Mr. and Mrs. E. E. King returned Wednesday night from a trip to San Francisco, where they attended the Rotary International convention. They also spent several days at Los Angeles and other points of interest.

Mr. and Mrs. Cal Adair, Mr. and Mrs. J. C. Adair, Winnie Merle Adair, Norma Jean Bankston, Louise McMillan and Mary Simpson will spend a few days at Christoval this week-end, returning to Ballinger Monday.
