VOLUME 38

BALLINGER, TEXAS, THURSDAY, MARCH 5, 1942

NUMBER 32

## Stamps and Bonds Good For Patriotic Concert

The Ballinger Bearcat Band will present a patriotic concert in the high school auditorium on the evening of Friday, March 13, at 8 o'clock. Both the band and the high school glee club will be heard on the program.

Admission to the concert will be 50 cents in defense stamps for adults and 25 cents in defense stamps for students. This does not mean that those attending will turn in to the band the stamps, but that they will purchase them at the door and keep them for themselves. The band members are staging the concert only to help boost sales of stamps and bonds and any person who will buy a stamp or bond will be admitted to the concert.

Tickets will be sold in advance of the concert and these tickets will be taken up at the door and stamps issued for the amount paid for the tickets.

While 25 and 50 cents have been set as the price for the concert, those attending do not have to limit themselves to these amounts. A person desiring to purchase \$5 in stamps will be admitted or anyone wishing to purchase a defense bond of any size can secure it at the door and will be admitted to the auditorium on the purchase.

School officials and members of the band hope to sell at least \$500 in stamps and bonds for their first patriotic concert. Such concerts are being started all over Texas by high school bands and orchestras with persons buying stamps and bonds for admission.

Gurthal Gilligan, bandmaster, stated Tuesday that all patriotic numbers would be used on the concert. Military marches, new popular tunes, and the national anthem will be heard. A new patriotic number in which the audience will be asked to sing, "Flag of the Free," will be introduced during the program.

Ballinger people are urged to attend. The program will be enjoyable, the small amount for admission will be an investment for each person, and the band members will get a great deal of pleasure from helping in this small way with the sale of bonds and stamps to provide money for guns, planes, tanks and ammunition for the men now fighting in distant places against overwhelming odds.

## Twenty-Five Enlist In Air Corps Unit Of Defense Guard

At a meeting Friday night a total of twenty-five Ballinger men signed enlistments in the Texas Defense Guard Air Corps. The meet, held at the Cactus Coffee Shop, was attended by a large number of local men.

The group will be mustered in at San Angelo Sunday afternoon and will begin training here at once. The maximum strength of the air corps detachment is 40 men and leaders in the organization here feel that the local group will reach that number a little later. The lack of birth certificates prevented several from signing Friday night.

Officers have not been named yet but will be announced as soon as approval of papers is received from Austin. Drills will be held one night each week and will consist of rifle and foot drill for some time, the same as given the local rifle company. Later the flyers will receive technical training with army air corps officers in charge.

A number of the members of the group have had some airplane training, either in a technical way or flying. After being mustered in at San Angelo Sunday, regular meeting nights will be set and training started.

## SHERIFF IS INVESTIGATING TWO ROBBERIES IN COUNTY

Sheriff J. L. Moreland was investigating two robberies today which occurred Wednesday night. The Gulf service station at Miles was broken into and a check-up revealed that six tubes, one used Goodyear casing, two boxes of cigars and six cartons of cigarettes were missing.

The barn on the Vernon Webb place south of Ballinger was entered and a quantity of meat stolen. No arrests have been made in either case.

## Firemen Study Defense Set-up At San Angelo

Responsibilities of local firemen in national defense organizations and the importance of an intensive fire prevention program during wartime is the general theme of the program at a regional meeting of fire chiefs and fire marshals at San Angelo today. Marvin Hall, state fire insurance commissioner and fire defense coordinator of the national defense committee of Texas, called the meeting and said mayors and other city officials had been invited to attend.

The meeting will cover all the territory in state fire defense district 12, including towns and cities in Sterling, Coke, Reagan, Irion, Tom Green, Schleicher, Menard, Sutton, Kimble, and Runnels counties.

Organization and training of units of volunteer firemen for civilian defense, precautions to be taken against sabotage, and methods to be used in dealing with incendiary bombs are a few of the topics included in the one-day program.

Fire Chief Tom Biggs, of San Angelo, is district fire defense coordinator and assistants are Chief Chester Cherry, Ballinger, and Chief L. R. Powell, Junction.

## Eighteen Youths Off for Military Camps from Here

Selectees are beginning to move faster from Runnels county with the stepped up program for military training. The past week-end a white man and one Mexican were sent to Fort Bliss, El Paso for induction, and two negroes were sent to Camp Wolters, Mineral Wells.

A total of twenty-two men were sent to Abilene Monday for physical examinations and these all returned home in the afternoon, leaders reporting sixteen passing and six rejected.

This morning eighteen were sent to Fort Bliss for induction and will commence their training at once. All men from this county are now receiving their physicals at Abilene where a new station has been set up for this purpose. This is much faster and more economical than the old system which first sent them to induction centers where physical examinations were given and later to places much farther than Abilene.

In addition to the regular quotas being filled, a large number are entering the armed services by the volunteer route.

## COUNTY TUBERCULOSIS UNIT HOLDS MEETING; SEAL SALE BRINGS \$130

The Runnels County Tuberculosis Association met Tuesday afternoon at the city hall with Miss Helen LeLechuer, state worker, and Miss Wilson, of Abilene, an ex-secretary there, in attendance. Mrs. Nat Williams, president of the local group, was in charge of the meeting, the first of the year.

Four new members of the executive board named are: H. H. Shiller, Groenwald, Ernest Caskey, Ballinger; Mrs. C. R. Stephens, Ballinger; and Mrs. Lula White, Winters.

It was announced that the Runnels county part in the seal sale amounted to \$130. The program for the year was planned and includes an early diagnosis campaign and it is hoped to make tests of all high school seniors in the county.

## AMERICAN LEGION AUXILIARY MAKING HOSPITAL SHIRTS

Members of the American Legion Auxiliary are making twenty hospital shirts which will be sent to the veterans' hospital at Legion as soon as completed. The women began sewing Wednesday afternoon in the basement of the First Methodist Church and will complete the garments in a few days.

The call has been made on all groups to take care of the need at Legion and other veterans' hospitals in the state.

## After Axis Subs Attacked Isle of Aruba

Above you see a torpedo fired by an Axis sub off the island of Aruba. It missed its target and ran aground. Later the 18-foot missile exploded, killing four Dutchmen who were attempting to dismantle it. Inset: Lieut. Col. William Ratten, of the U. S. army, climbs a ladder to inspect a 4 by 6-inch dent in an oil tank on the island of Aruba following the torpedo and shelling attack of Axis subs.

## AIR RAID WARNING SYSTEM MUST BE READY TOMORROW

County and city officials were notified today to have the air raid warning system in operation here not later than midnight tomorrow (Friday) night. This information was brought here this morning by members of the state highway patrol and officers this afternoon were busy getting control boards set up for the county, and for Ballinger, Winters, Miles and Rowena.

The information did not state that a blackout would be ordered at this time but only demanded that everything be prepared for an emergency. A county control board will be maintained with an operator at a telephone 24 hours a day. Each of the four cities named will also have control boards which will be notified by the county board in advance of a raid or blackout.

Towns will have to arrange for their own warning signals to the public. This will require two signals, one for the alert and the other for the all-clear.

County Judge E. C. Grindstaff announced that WPA projects had been secured for Ballinger, Winters and Miles, whereby workers will be provided for giving assistance in civilian defense work. In Ballinger two are already on the job assisting in the registration for civilian defense work. They will also be available for any other type of office or recording work in connection with defense.

Sheriff J. L. Moreland stated that Runnels county would be ready for the air raid warning system by tomorrow night so far as the county control board was concerned. Those to be assigned to receive warnings and the notification to other boards were being fingerprinted this afternoon and the proofs taken to San Angelo.

Work of wardens in an emergency is being handled by chiefs of police and city marshals and the appointed wardens in each community.

Maurice Bartlett left Tuesday for San Diego, California, to enter training in the U. S. navy. He enlisted at Dallas several weeks ago but did not get word to report until this week.

Miss Bessie Lynn has returned to her school work at Sierra Blanca after a week-end visit with her parents, Mr. and Mrs. Harry Lynn.

## More Duties Given Ration Board in Cars and Sugar

Oscar Harber, chairman of the Runnels county rationing board, received the county quota on new cars which can be sold in the county during the next three months.

Runnels county eligibles may purchase 19 new passenger cars, according to the statement received Monday from Mark McGee, state rationing chairman. This includes all makes of cars and as far as possible the eligibles will be given their choice if the type and model are available.

The announcement of the passenger car quota did not mention trucks or commercials and it is believed quotas on these will be received later. The date for the sale of the 19 passenger cars will

## Guard Company Receives Rifles; Progress Good

The Ballinger unit of the Texas Defense Guard is making good progress in drills each Monday night for the entire company and in a school for officers and non-commissioned officers each Friday night. Attendance at regular drills has averaged about 90 per cent since the unit was organized here and this week there were only six unexcused absences on the books.

Rifles were received the past week-end and the enlisted men cleaned them and used them in drill Monday night. Other equipment is being received at Camp Mabry, Austin, and shipments of uniforms and other articles will be made as soon as the supply is adequate.

Lieutenant W. O. Wallace and Supply Sergeant D. G. Posey have completed building of rifle racks in the supply room and all guns are kept there. Other equipment has been constructed for the supply room, which is now in service for all materials issued the local unit.

Captain K. V. Northington said this week that he was more than pleased with the progress made in the few weeks since the unit began drilling. The company is at maximum strength of 75 men with a number of volunteers on the waiting list.

## LOCAL GROUP STUDIES HOME NURSING COURSE

Members of the Airfield Allies, local club, are taking a course in home nursing which is being taught by Miss Lucille Botter, county health nurse. Lessons are being held semi-weekly in homes of members and the course is about half completed.

Those taking the course include: Mmes. L. A. Muller, C. C. Stratton, Fred Kingdon, Jerry Church, Sam Egnot, Richard Ross, Marvin Hugel, Vincent Klitgen, W. W. Schaerdel and Julian Hadley.

Mr. and Mrs. H. T. Forson visited friends at Tuscola Sunday.

## Government Plan Offers Farmers Cotton Insurance

Money in the pocket whether a boll of cotton is picked or not is what cotton crop insurance means to Runnels county farmers, according to M. W. McShan, chairman of the local AAA committee.

Under cotton crop insurance, offered for the first time this year, farmers may insure either 50 or 75 per cent of their average yield. Insurance goes into effect when cotton is planted and ends when cotton is weighed in at the gin next fall, Mr. McShan said.

Insurance contracts protect farmers from all unavoidable hazards such as frost, drought, insects, plant disease, storm, wind and hail. It does not, however, protect farmers from losses due to poor farming practices or use of inferior seed.

"With nearly one out of every two dollars being spent in our war program, farmers can't afford a crop failure this year," the committee man said.

Individual yields and premiums on actual production figures have been established for every cotton farm in the county. Mr. McShan said in pointing out that through this method each farm would carry its own risk cost. Premium rates can be used as collateral security for money advanced in making a current crop, the AAA official said. Lending agencies will be safe in lending money on insured cotton because either 50 or 75 per cent of an average crop is guaranteed.

Closing dates for taking out cotton crop insurance in Runnels county is March 16, and will not be changed, Mr. McShan said.

Representatives of the AAA office will be in Miles and Winters to sign applications for insurance every Saturday from now until the closing date.

## MUNICIPAL AIRPORT GIVEN CAA APPROVAL

The Ballinger municipal airport received approval of the civil aeronautics administration Saturday and the plane belonging to the Ballinger Flying Club was returned here by Tommie Hall, who flew it from Fort Worth, where it had been grounded.

To meet requirements at the airport a full 34-hour guard was set at the field, a telephone installed, an alarm system set up and the hangar placed under heavy lock. With the requirements fulfilled, the field has been listed on the approved group by the CAA and local flying will continue from there.

Only two-hour flights and not more than 25 miles from the local field will be permitted, without permission from CAA authorities.

## LOCAL STUDENTS CONTINUE BUYING DEFENSE STAMPS

Ballinger school students this week have purchased \$265.13 of U. S. savings stamps. The total of sales for the week makes more than \$1,100 worth of stamps purchased since the plan was started in the school system here. Each week many students bring their savings to the offices of the principals and purchase stamps and teachers have noticed since books were started that many increase their purchases each week.

## 4-H and F.F.A. Livestock Show Here Wednesday

## New Passenger Car Sale is Authorized; Tire Quota Issued

The Runnels County Rationing Board has issued the certificate for the purchase of one new passenger car since the "freezing" of sales on January 2. The certificate was awarded to Levy Lee, Ballinger, for the purchase of a Pontiac sedan through the M. H. Morgan Motor Co., of Ballinger. This sale was granted under the provision of clearing up sales made before the time of "freezing" after which cars were not delivered.

Certificates for the purchase of tires continued with all truck and all but four passenger car tires sold in the February quota.

Tire certificates issued against the county quota were: Wington Auto Parts Co., Ballinger, 1 tire, 1 tube, truck; Rev. Ralph Porterfield, Miles, 1 tire, 1 tube, passenger;

Pablo Morales Barrera, Winters, 4 tires, 4 tubes, passenger; C. L. Green, Winters, 2 tires, 2 tubes, truck;

Runnels County (R. A. Perry, Miles), 1 tire, truck; Lyle Currie, Ballinger, 4 tires, 4 tubes, truck;

C. L. Green, Winters, 1 tire, 1 tube, truck; Ralph Payette, Ballinger, 2 tires, 2 tubes, truck;

Obsolete type tire certificates were issued to C. E. Jones, Ballinger, and Victor Mika, Rowena.

Tractor tire and tube certificates went to: Otto Dierschke, C. J. Hoelscher, Texas Highway Department, Ballinger; Audra Lee Mitchell, John Dildy Crockett and William Thomas Freeman, Winters; and F. J. Pieper, Rowena.

## FORMER BALLINGER MAN WITH McARTHUR FORCES

A former Ballinger man and a cousin of Dr. J. Dexter Eoff of this city, is a defender of Bataan with General Douglas McArthur. He is Captain Alan Peyton.

The army officer with his father lived in Ballinger about 1917, the senior Peyton being associated with the Jeanes Produce Co. at Ballinger. According to information furnished by Mrs. Jim Eoff, of Winters, Lieutenant Peyton was called to service in December, 1940, and soon afterward was sent to the Philippines. His wife read in an army magazine recently of his promotion to the rank of captain and that is the only recent information on him. His wife and son were with him until most of the women and children were sent home last year. Mrs. Peyton lived in Fort McKinley as long as she was permitted to stay there.

Captain Peyton is a graduate of Corpus Christi high school and of Texas A. & M. College. The last word from the officer came in a cablegram to his wife on December 29, 1941.

## COLEMAN INSTRUCTOR AND CADET KILLED

Instructor Fred Halbert, of Harlingen, and Cadet Standley M. Howe, of Havana, Illinois, were killed instantly Tuesday afternoon when their training plane went into a spin at a low altitude. They were on a routine flight when the accident occurred.

Halbert had been at Coleman for some time and Howe arrived last week with members of class 42-H. A rural family saw the plane fall and it was reported to the Coleman sheriff. The engine was buried in the ground from the force of the fall and the plane demolished.

Next Thursday, March 12, the annual livestock show for the 4-H club boys and Future Farmers of America will be held here. The location of the show will be on the Santa Fe right-of-way between Eighth Street and Ninth Street where pens will be arranged to take care of all the entries.

The livestock committee of the Ballinger Board of Community Development is cooperating with County Agent John A. Barton and J. M. Williams, Ballinger vocational agriculture teacher, in plans for the show. They will raise money for the premiums and aid in other ways throughout the day.

The 1942 show will present some of the best lambs, calves, swine and capons ever shown here. The boys have made careful selections from some of the best herds in the country and for several months have had their animals on balanced rations to get them ready for the show and to sell on the Ft. Worth and San Antonio markets later.

It is also expected that more animals will be included in the sale this year. More interest has been shown by the boys and their parents in livestock feeding and some of the animals would make good showings in the larger livestock shows.

Experienced judges will be on hand to look the animals over and make the awards. As soon as winners are selected, checks will be issued by the B. C. D. office for the amount won by each boy.

Ballinger people are urged to visit the show during the day and inspect the livestock. They will be in the pens from about 10 o'clock Thursday morning until late in the afternoon.

## Air Raid Wardens Zoning Ballinger For Future Work

Chief of Police J. D. McNutt and members of his committee in the air raid warden group were in session Friday night to map the town, set up districts and name a warden in each of these. A map of the city was taken and zones drawn and wardens assigned to each section. Wardens will name whatever additional help is needed in each zone.

All towns in Texas have begun rushing the final organization of civilian defense work and within a short time will have workers trained and ready for action. People living in Ballinger will soon be advised what air raid zone they are in and who is the warden. They will be asked to cooperate in every way possible with the person assigned to their territory.

Test blackouts have been resumed in a number of Texas towns this week, especially along the coast and those where large military centers are located.

Ballinger people appointed as wardens have not received training yet and are not permitted to wear the regulation arm-band. As soon as courses are started and work completed these bands will be issued and worn by the wardens.

There is still some confusion on the part of some in regard to air raid wardens and the air raid warning system. The latter is a crew working in observation posts who issue warnings on the approach of unidentified planes. There are 19 such observation posts already located in Runnels county with crews of observers, partly trained.

## Just A Reminder---

Be Good to your Electric Appliances and they'll be good to you!

We're ALL soldiers and in the army NOW. And that means new responsibilities.

For us, our salesmen no longer blithely offer you this or that appliance. We must advise that you take good care of your electric refrigerator, your washing machine, your sweeper, radio, food mixer, and every other appliance. The factories that make these marvelous time and labor-saving servants are being turned to the manufacture of war materials. Be good to these appliances—and they'll be good to you.

It is true that meats shrink less and vegetables lose less of their vitamins with electric cooking. It is true that there is less food spoilage with electric refrigeration. It is true that the electric washing machine, the sweeper, and the food mixer all have greatly relieved women of tiresome, unnecessary household drudgery and save time and energy for wartime work. And it is true that both workers' and children's eyes show less strain when the lighting is good.

So, as soldiers fighting for our American way of living, it is our duty to provide electric service for all these things which are normal in peacetime and imperative in wartime.

Hence, it is proper also to urge that you keep your electric appliances in good condition... get longer wear out of them.

Whenever needed, ask the advice of our servicemen. They, too, are in the war... rendering an essential service.

## 'How Green Was My Valley' Next Big Attraction at Texas

At long last the dramatization of Richard Llewellyn's best-selling novel, "How Green Was My Valley," is brought to the screen by 20th Century-Fox under the able productive genius of Darryl F. Zanuck. Here is the film that has been eagerly awaited and from all accounts by reviewers it promises to fulfill the expectations of the most discriminating motion picture fan.

The keynote of this production, to open in midnight preview at the Texas Theatre Saturday night is the fidelity of its portrayal to the novel of the same name. Laid against the colorful background of a Welsh mining village, "How Green Was My Valley" brings to life the dynamic characters who captivated the over five million people who read the book.

Seen through the eyes of the youngest member of the family—Hugh Morgan—"How Green Was My Valley" traces the threads of life of the family over a period of years—revealing their trials and loves, their joys and sorrows. It's the brave story of a family never conquered, not by armed men or hardship, hunger or hate—nor by the turbulent years that stole the greenness from their valley.

Walter Pidgeon, cast as Mr. Gruffydd, as said to cap his career with a splendid performance. Beauteous Maureen O'Hara portrays Angharad, the lovely Morgan daughter. Anna Lee, Donald Crisp, Young Roddy McDowall are all featured. The supporting cast includes John Loder, Sara Allgood, Barry Fitzgerald and Patricia Knowles.

"How Green Was My Valley" recently received the Motion Picture Academy award as the best picture of 1941, taking the coveted "oscar."

Screenings of this picture are also scheduled Sunday, Monday and Tuesday, March 8, 9, 10.

### Spectacular Drama Enhanced by Comedy

The serious dramatic plot of "Parachute Battalion," new RKO Radio picture delving into the innermost emotions of the brave youths undergoing training for the most spectacularly daring branch of our military service—the parachute infantry—is said to be relieved by a generous sprinkling of humorous and romantic ingredients.

The important romantic angle of the well-contrived plot is in the hands of Nancy Kelly, who with Robert Preston, Edmond O'Brien and Harry Carey, was elevated to stardom after the production had gotten underway.

In the featured bracket are Buddy Ebsen, Paul Kelly, Richard Cromwell and Robert Barrat. "Parachute Battalion" is one of two feature-length pictures at the Texas tomorrow (Friday) and Saturday. In addition will be shown several short subjects.

## Rotary Club Honors 2 Rannels Countians; Texas is Discussed

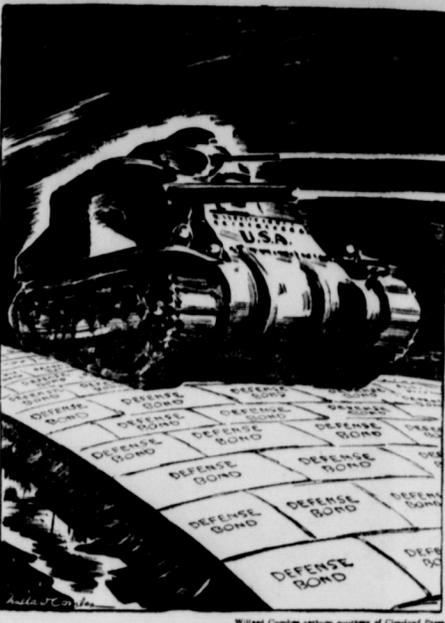

The Ballinger Rotary Club remembered Rannels county boys who have died for their country at the meeting Tuesday noon. Facing west in silent prayer for Samuel Lindermann, who died in an airplane crash while in training on the Atlantic coast and for Hale McKissack, who was killed by the Japs at Pearl Harbor on December 7, members of the club remained with bowed heads until taps was sounded by Clarence Richards, bugler of the Pat Williams post, American Legion.

In observance of "Texas Week" March 2-6, E. M. Lynn was the speaker and brought a rousing message on the glorious history of the state. He paid special tribute to Stephen F. Austin, who had so great a part in the early history of Texas and to other heroes who fell at the Alamo and who participated in the battle of San Jacinto.

Mr. Lynn told of visits to Texas shrines where heroes are honored by statues and where great events took place in the early days. His historical references in the general story that brought about the first American colonization in the state until the time it declared its independence made an interesting message.

Attending the meeting were 18 native Texans and 6 who were born outside the state and came in later years to make it their home.

## Olsen & Johnson, Martha Raye Head Players in 'Hellzapoppin'

"Hellzapoppin'," described as the greatest smash-bang, eye-filling, tune-filled show to hit New York in a dozen years, has reached the screen with the original stars, Olsen & Johnson, plus Martha Raye, Hugh Herbert, Mischa Auer, Jane Frazee and Robert Paige. The picture is booked at the Ritz Theatre next Sunday, Monday and Tuesday, March 8, 9, and 10.

Released by Universal, the production boasts many new song hits composed for the picture. Singing and dancing choruses and a score of unexpected innovations are declared to surpass the many highlights of the great Broadway success.

Among spectacle sequences will be the colorful presentation of the Olive Hatch Water Ballet.

Olsen and Johnson, of course, play their own crackpot, screwball, zany selves just as they did in the New York play, and Miss Raye has the role of an overgrown kiddie vaudeville player.

Included in the tune list are "Watch the Birdie," sung by Miss Raye and the Six Hits; "You Were There," sung by Jane Frazee and chorus; "Heaven for Two," warbled by Jane Frazee and Robert Paige, and the Martha Raye number, "What Kind of Love is This." "Honky Tonk," featuring Clark Gable and Lana Turner, is the attraction at the Ritz Friday and Saturday.

### UTILITIES COMPANY EMPLOYEES BUY STAMPS AND BONDS 100%

Employees of the West Texas Utilities Co. in the Ballinger district, composed of 23 communities in this area, have joined 100 per cent in a U. S. defense bond and stamp buying program, according to W. O. Wallace, district manager.

Every employee in the district, he said, has joined the "Bond and Stamp Savings Club of Employees of the West Texas Utilities Company," organized recently and headed by Bill May as chairman. O. L. Huddleston is secretary-treasurer. Directors include W. J. Hembree, Chester Cherry, C. A. Glover, Wallace, May, and Huddleston.

Under the by-laws of the club, participation is voluntary and each member pledges to make regular deposits toward purchases of a bond.

When sufficient deposits have accumulated, bonds are to be issued through the company, which has been designated as an agent by the treasury department through the Federal Reserve Bank, which also congratulated the West Texas Utilities Co. for its method of handling the matter and its wholehearted support given the bond-stamp campaign.

Similar organizations are being formed in the other eight districts served by the company, Mr. Wal-

lace said. However, the Ballinger district is first to announce 100 per cent participation.

If there is anything in old sayings, March came in like a lion and should go out like a lamb. The groundhog was confused this year and all signs may fail. While snow fell at many points Sunday and others received rain, only a small amount of moisture fell here Saturday night. Farmers need moisture to start their crops and all report the top soil pretty dry and small grain was in need of rain until Saturday. Enough moisture fell in most places to help for a short time but more will soon be needed.

Announcement was made the past week-end that sugar rationing would be cut to 8 ounces per week per person. When the matter was first discussed it was one pound, later it was three-quarters and the last announcement cuts it to one-half pound. People as a whole are ready for their ration book No. 1 and with the amount cut to the small one-half pound issue, those who have hoarded sugar will not find it popular with their neighbors and friends. Americans do not mind any all-out effort to win the war, but they would like for everybody to be in the same boat.

Even men in the armed forces are beginning to ask why the people do not wake up to the seriousness of the situation. These men are offering themselves in defense of the nation and have the right to expect a solid home front. When they find strikes continuing in the plants making guns, planes and tanks, and the strikers getting away with it, they wonder just what is in store for them on some fighting front. There was a huge increase in strikes during February over January and so far any legislation dealing with labor has failed to meet government approval. It's pretty hard to find enthusiastic fighters or find citizens at home who will place all their money in defense bonds and stamps when such things are tolerated.

**230,000 Acres School Land Will be Sold; Royalties Retained**

AUSTIN, March 4.—Bascom Giles, commissioner of the general land office, states that the public free school fund which now amounts to about seventy-three million dollars, will be considerably increased by the selling of a large part of the 230,000 acres of land that is now being offered for sale. This money will be very much needed since the revenue to the school fund will be considerably reduced by the loss of revenue from the gasoline tax which has been brought about by the rationing of tires.

When this land is sold and put into private domestic use it will be placed upon the tax rolls, thereby increasing the revenue not only for the public free school fund and school districts but for state and county taxes as well.

Commissioner Giles further points out that these lands are sold on one-fifth down payment, together with a note on the remaining four-fifths of the principal bearing 5 per cent interest on forty years time, the payments on the principal being deposited to the permanent school fund; whereas, the interest payments are payable to the available school fund for immediate use. The state retains one-sixteenth free royalty in all oil or gas that may be found on these lands.

Commissioner Giles also states that these land offered for sale are of varying types and are located in 120 different counties of the state. A purchaser of said land is not required to live upon it.

Anyone interested in the purchase of these lands may secure, free of charge, lists giving complete description and location, together with application blanks, by writing Bascom Giles, commissioner of the general land office, Austin.

**FORT WORTH VISITORS WILL DINE WITH LIONS**

The Ballinger Lions Club will delay its luncheon for one hour tomorrow (Friday), holding at 1 p. m. instead of 12 noon, in order that the sixty-five visitors from Fort Worth may be guests. The Fort Worth delegation, traveling in two large buses, will arrive at 12:15 to meet the people of Ballinger, stage a program downtown, and all Lions have been asked to be present to greet the visitors and assist them in every way possible until time for the luncheon.

As soon as the street program is concluded, the dinner will be ready in the dining room of the Central Hotel and a short program will be presented at the end of the meal.

The invitation was extended the visitors by Gus Barr several days ago and accepted Tuesday by leaders in charge of the trip through this section.

**WEST TEXAS NOTES**

The population of Coleman was increased last week when fifteen families were moved there to make their homes. They are all employees of the Delaney Oil Co. and formerly lived at Abilene and Odessa. Most of the families have been placed in Coleman homes and living quarters for others are being secured.

Frank Nimitz, cousin of Admiral Chester Nimitz, commander of the U. S. Pacific fleet, was among those registered on February 15 at Junction. Registration of Kimble county men added 344 more to the rolls in that county from which selectees are to be taken for the future quotas.

Jones county officials at Anson have started moving back into the court house which has been under repair and improvement for the past several months. During the renovation period, the officials have been keeping their offices in the downtown section wherever they could find suitable quarters.

Dr. W. R. White, president of Hardin-Simmons University, Abilene, was the principal speaker at the meeting of Baptist workers of Runnels county at Drasco Tuesday. A large number of laymen and pastors from the association were present for his address.

J. T. Hammett, farmer living near Rising Star, was burning weeds and grass from his fence rows and the bar pits along the highway last week when he noticed black smoke coming from high grass. He investigated and found four automobile tires burned so badly that he could not tell whether they were new or old. Since a number of tires had been stolen in that section, it was believed a thief might have hidden them in the high grass.

The Life Service Band of Howard Payne College was in Rowena Sunday to give a program in the Baptist church of that town. They had charge of the program at 11:30 a. m. and presented another program at 2:30 p. m. Dinner was served at noon in the church by ladies of the congregation.

Fat calves, lambs and hogs owned by 4-H club boys and members of the F. F. A. chapter at Paint Rock, were sold at San Antonio last week and topped the market for the day. The livestock was shipped to the Union Stockyards in San Antonio and sold the next day with the owners of the stock attending the sale.

Miles grocery stores have signed an agreement to remain closed on Sunday hereafter and patrons were advised of that fact through the columns of the Miles Messenger. They will remain open late on Saturday nights to better serve patrons for Sunday menus.

The Bronte livestock show drew a large crowd of people Saturday after a large amount of publicity was distributed in regard to the 1942 exhibition. A total of 218 animals were made ready for the show by the club boys and F. F. A. chapters of the county. Ranchmen also participated with some fine entries of registered sheep, cattle and swine.

One of the biggest wool purchases during 1942 was announced at Brady last week. Wilson Jordan, veteran buyer, contracted 55,000 fleeces in that sector which

of Sixth District Federated Clubs to be there for their annual meeting on March 5 and 6. The convention theme this year will be "strive for Victory and Permanent Peace." Along with the interesting program to be presented, a number of social affairs will be staged by the women of Menard, honoring visitors and special guests.

Teachers of the Oil Belt unit of the Texas State Teachers' Association will meet in Sweetwater on March 6 and 7 for their annual meeting. Invitations have been extended to all teachers in 22 counties and plans are being made to take care of the large crowd during the two days they are in Sweetwater.

The Eden livestock show was held Saturday with F. F. A. chapters from six schools exhibiting 90 head of fat sheep. In the competition were also the animals fed during the winter by 4-H clubs of the county and a large number of fine calves. The champion calf

Comanche county has shipped nine carloads of scrap iron from that section as their part in national defense. The campaign to gather scrap was started only a few weeks ago but many people cooperated with many tons of good scrap being brought to Comanche for shipment to manufacturing plants.

Civilian defense officers of Brady met with a mass meeting of Melvin citizens last week for the purpose of beginning the organization of the work there. A number of committee chairmen were named to continue with the organization until all phases of defense activities have been started.

City officials, fliers and citizens of Ft. Stockton are working on a plan to keep the airport open in that city in the future. A recent ruling of the CAA closed all airports until certain requirements had been met. Among these was

a demand that a guard be kept at the airport 24 hours each day. Citizens believe the already heavy investment should be kept open in the future.

Stephenville people have been at work in Red Cross first aid classes and last week a total of 86 had completed their courses and received certificates. Most of those are now qualified to teach and other classes are to be started in the near future.

**Modern Gas Ranges Are easy on the Groceries**

*They handle them with kid gloves*

"Well-fed" doesn't always mean "well-nourished," not by a jugful of Vitamins. It takes smooth cooking to take enough of those Vitamins down the "little red lane," and an automatic Gas Range can handle them with kid gloves. Spin a dial, and click a simmer-burner, for foods that come to the table at top-form (no over-cooking). Roll out a smokeless broiler, for perfect steaks with juices intact.

**THREE OF THE WAYS A CP GAS RANGE WILL HELP YOU SAVE VITAMINS**

**VITAMIN-SAVING BURNERS.** Simmer settings make possible the "waterless" cooking of vegetables, recommended by vitamin authorities.

**VITAMIN-SAVING BROILER.** No preheating necessary. Meats retain more vitamin-rich juices, because cold-start broiling enables you to broil the portion nearest the flame, without overcooking the under side.

**VITAMIN-SAVING OVEN.** CP controlled heat enables you to roast meats with minimum of water, and you avoid drying-out. Low temperature CP roasting also enables you to reduce meat shrinkage.

Look for "CP" on a Gas Range; It means Certified Performance

Help yourself to a Modern Gas Range. It makes it mighty easy to feed a family right.

## Plant For Victory Week Embraces Many Practices

This is "Plant for Victory Week" and people are to study the kind of seed to plant, how to prepare the land, how to repair machinery and have it ready for service, plan for increased poultry production, swine, sheep and the marketing of beef cattle. All this will have a telling effect on what will be raised and harvested this summer and fall and will be an aid for a quicker victory.

The Runnels County War Board has been asked to call to the attention of local people the "Plant for Victory Week" along with a number of specific matters which include the fact that more oil is needed and those who can plant peanuts are asked to boost their acreage. Sheep raisers are urged to tend their flocks and get a full lamb crop, a 6 per cent increase being needed. They are also asked to see that disease and parasites are controlled. The beef cattle producer has been asked to market at least 13 per cent more beef cattle in 1942. That more cattle be fed out to greater weight and thereby increase the quality as well as the quantity which is needed for the soldiers of the nation.

In poultry 2,272,000 dozen eggs has been set as the goal for Runnels county and this means more poultry and better care and feeding by all raisers. The county's milk goal has been set at 3,389,534 gallons, which means a high yield

for each cow. Raising of proper feeds, balanced rations, plenty of fresh water, supplying necessary minerals, protection from extreme hot weather, milking at regular times, six to eight weeks' rest between calves, and service of a dairy bull that is backed by high producing ancestry will help achieve the goal.

The county has been asked for a ten per cent increase in hogs for the year and this can be done by careful management, getting two litters per year from sows, breeding the first of November and the first of May. Feed program sows a balanced ration and permit to run on green pasture, provide extra shelter for sow and litter, full feed for both litters to get them to market in six months. Save the best gilts, provide minerals, self-feeders and plenty of water. Follow good sanitation and parasite practices.

Every family, either rural or urban, should plant a garden, open frame, or sub-irrigated, but plant garden for vegetables produced at home. It means that national defense is being helped by transportation problems, conservation of tin, tires, and the national health as well as the health of the family. See the model frame garden at the Cameron Lumber Co. yard.

Another item is cotton. This year the need is for a better staple—1-8 to 1-4 inch. Runnels county can grow one inch staple or better which will return an extra premium this year, guaranteed by the commodity credit corporation.

Plant, plan, save and gather up scrap iron. Iron is needed and it is a patriotic duty to bring it to market so it can be used as war material.

## Large Crowd Sees Demonstration Here Of Frame Gardens

A demonstration was held here Monday afternoon showing frame gardens and their part in the "food-for-freedom" campaign. County Agent John Barton, County Home Demonstration Agent Myra Tankersley and S. C. Routh, chairman of the land use planning committee, were in charge of the explanation and planting.

The frame garden was placed in front of the Cameron Lumber Co. office and will remain there permanently where the public may observe the plants growing inside the frame.

The making of frames, coverings, treatment of soil and many other matters were explained by those in charge. At the close of the discussion, garden seed of several varieties were planted in the garden and they will receive attention from a regular worker who will look after them every day.

With the defense program for more food announced frame gardens will play a big part in helping farmers reach their goals. They permit early planting and the replanting later of well developed varieties of garden vegetables. The frames are inexpensive to build and give tender plants protection from cold and blowing sand during the spring.

Local people are invited to drive by the demonstration frame and watch the progress of the plants.

Educational work is being taken to every section of the county in an effort to cause farmers and housewives to increase gardens and plant the foods needed for defense.

A large crowd was present Monday afternoon for the demonstration and many questions were asked by those present.
