\$60,000 Bond Election For Swim Pool Tuesday

Tuesday will be election day in Ballinger. At that time a \$60,000 bond issue will be submitted and if the proposal is favored the money will be spent in constructing a modern swimming pool for the people of Ballinger and this section.

All election supplies have been received and the voting box will be at the city hall. The election judge and clerks will be on duty from 8 a. m. to 7 p. m. to take the ballots, tabulate and announce the results.

The city commission called the special election after petitions bearing some 700 names were presented.

A committee from the Ballinger Lions Club had worked on the swimming pool project for some time and after several ideas were abandoned, a meeting was called of representatives of all local civic and service clubs and the city commission. At that meeting it was decided to present the proposition to the voters in a bond issue and two days later the petitions were made up and in the hands of city officials.

The exact cost of the pool is not known at this time. Those responsible for the election will be called to believe \$60,000 will be ample and only the needed amount of bonds will be sold if the proposal is favored.

7 Farm-Ranch Meetings Will be Held in County

The purpose of these meetings is to give farmers and ranchmen an opportunity to give constructive criticism and make suggestions how the agencies might render more effective service to farm and ranch families.

Another angle to be taken up is that in case the United States enters an all-out war how the U. S. department of agriculture can best regulate and direct its work.

According to County Agent J. A. Barton, publicity chairman, everyone may not agree with part of the present program as it stands but all are being asked to give the matter careful consideration, attend one of the meetings and participate in the discussions.

Red Cross Flood Fund Reaches Total \$1,848

E. E. King, chairman of the Red Cross county chapter, announced this week that the total on the emergency flood relief campaign was now \$1,848.67. The report for Winters and the northern portion of the county showed \$465 Tuesday morning and it was stated that the drive would be continued until Monday, August 27.

Mr. King stated that the southern part of the county had completed its fund raising with a total of \$1,383.67 on hand and few contributions still coming in.

The first of the week, the local chapter was advised that the flood was much more des-

tructive than first reported. This was revealed when flood waters receded and a survey of the damage was made. All chapters were asked to double their first quotas in order to meet the urgent need.

Runnels county started out to raise \$1,000 and leaders believe this will be doubled by Monday of next week. Only 152 more dollars are needed to double the set quota.

Mr. King stated the fund is still open and anyone who had not been contacted is urged to mail a check to the organization or leave at one of the local banks this week-end. All receipts will be sent to national headquarters the first of next week.

Sheriff and Deputies Have Many Activities

Don Atkins, Runnels county sheriff, and members of his office are supplying a column on crime each week to show people what is happening in the county. Sheriff Atkins states that his department is working day and night for the protection of the people, are having fine cooperation, but with people knowing what is happening, possibly more will be ready to assist local officers in combatting crime.

Beginning with Friday, August 17, James S. Brandon was filed on for hot checking. That night two boys from the north end of the county, now working in West Texas oil fields, en route to Ballinger in a 1949 Buick, failed to make a corner at a high rate of speed and uprooted several highway posts and turned over a number of times. The driver was taken to the local hospital. The office received warrants for five hot checkers.

Saturday, August 17

Received warrants for one hot checker and seven were filed on for traffic violations. One was jailed for aggravated assault.

Sunday, August 19

Moved oil field equipment to court house lawn to stop guard fees. Some of the equipment will be sold on August 28. A 15-year-old girl left her home at Winters and was located in Coleman Sunday and turned over to her mother. The deputy who miles picked up two women in shorts after the husband of one had put them out of a car near there. They were put on a bus for Abilene. Also Sunday night the rear door lock of the City Bakery was broken off and the place entered but nothing was missing. This same thing happened two months ago. Also received call from Sheriff High, of New Mexico, that a Ballinger boy was trapped on a mountain peak.

There was a break at the ball park and cigarettes, candy and other small items stolen. The same night the W. E. Moss garage was entered and a plug was broken out of his pickup truck. No arrests have been made but the officers knew who was responsible.

Monday, August 20

Clarence Rioridan, of Coleman, was tried in county court on a charge of transporting beer. Sheriff Atkins and Bob Richardson arrested Rioridan and took 24 1/2 cases of beer. A

jury hearing the case gave a verdict of not guilty. Another prisoner charged with transporting pleaded guilty and was fined \$100 and costs.

Tuesday, August 21

A billfold found in Miles was turned in to the sheriff's office. It contains a little money and is believed to belong to Cope Leonard, Coleman.

The sheriff points out that it is almost school time and five boys 12 years of age or under are needed to serve as junior deputies. Those who want the job should turn in their names to the office.

In the past two weeks a high school boy ran some girls off the street upon the sidewalk. He was fined on and paid a fine of \$38.50 and the sheriff stated that he has received four other reports on the same boy for reckless driving.

Last week a Winters woman en route to Sweetwater met a car parked in the center of the road. She slowed down to pull around the car and a man jumped out in the nude. She was so frantic she did not get the license number and only remembers it was a green car.

A group of leaders and boys from Boys' Ranch, at San Angelo, were here Friday to present a program before the Ballinger Lions Club.

He described the modern dormitory and stated that the ranch has 965 acres of land with 1 1/4 miles of water front on Spring Creek. The boys own livestock so that each may carry on a project of his own.

Jim House, ranch counselor, discussed the training and daily routine of the boys who live at the ranch. He stressed that they were giving the boys a home and not an institution. Education, physical development, work, play and religious training are every day activities.

Four boys from the ranch were introduced. Lions were invited to visit the ranch any time to inspect the property and witness the training.

Parking Violations to be Watched by City Police

City police will soon be issued orders to clear up a number of parking violations and misuse of the sidewalks in Ballinger. This notice will serve as a warning on a number of items before police are given instructions to start issuing tickets.

There are a number of red sections painted on local curbing where no parking is allowed and where no meters are installed. These are to be kept open and any car found parked in these zones will receive a violation ticket and be subject to fine.

A large number of firms have drive-ins to their garages and stores. Recently people have been parking in these, blocking other traffic trying to get in or out of the shops. This will be included on the daily check-ups by police.

In front of each parking meter are yellow lines and it

is a violation for cars to be parked outside these lines. This requirement saves parking space, prevents damage to cars and makes it possible for cars to be backed away from the curb without being pinned in by other vehicles. Police will be ordered to issue violation tickets for all cars not parked inside the yellow lines.

There has been considerable misuse of sidewalks, according to information reaching the city commission. Hereafter it will be a violation to leave merchandise or anything else stored on the sidewalk. The parking of cars on the sidewalk has also been reported in some sections of the city, forcing pedestrians to walk into the street to get around the vehicles. Hereafter these cases will be reported.

The city commission asks the cooperation of the public in the above violations. Tickets issued for them will require defendants to appear in city court.

VISITOR WILL PREACH AT BAPTIST CHURCH

Misses Elverie Sorrels and Sterling Cooper will spend this week-end in Fort Worth, visiting Mr. and Mrs. J. C. Jones.

Two Ballinger youths, John Eoff and Jim Erwin made headlines this week when they climbed Guadalupe Peak, south of Carlsbad, New Mexico, and experienced plenty of trouble getting back down.

Both boys were back in Ballinger late Monday and stated the whole affair had caused more fuss than they expected. Eoff still suffered from a cactus spine in his leg which he picked up when he fell from the trail to a cliff as the youths started back down the mountain after spending Saturday night at the top.

After falling to the cliff, Eoff could not walk and Erwin made a five-hour descent to the bottom, caught a ride and came back later with a searching party. In the meantime Eoff had managed to crawl and hobble along and was on his way down when found by the searchers.

Dr. J. Dexter Eoff, John's father, left Ballinger Sunday, making a hurried drive to Carlsbad and returned with the boys Monday.

Guadalupe Peak is 8,751 feet high and the ledge on which Eoff was stranded is approximately 8,000 feet up.

Erwin and Eoff had attended the Permian Basin bowl game at Odessa Friday night and after the game decided to make the mountain climb. Both had been working with a surveying crew out of Paducah during the summer.

Mr. and Mrs. George Predecker, Sr., and children have returned home from a trip to Illinois, Kansas and Oklahoma. They enjoyed a steamboat ride down the Mississippi River and a vacation in the Ozark Mountains.

Immediately following the

the cost of medical care

That the cost of medical care has risen, no one can deny. But the rise has not been out of proportion to the general advance in the cost of living. At the same time the quality of medical service has been immeasurably improved.

Consider that today your physician has invested from eight to ten years and about ten thousand dollars in his education alone. He has no chance to earn until he is twenty-six or twenty-seven years old. He must have an office in a good neighborhood, good equipment, a car, good clothes.

Pharmacy, too, has stepped up its standards. Almost every state now requires four years of college and a year or two of practice before registration. All this adds up to better medical service for you.

ceremony, the couple left for El Paso, where they will be at home at 1308 N. Ochoa Street. Cpl. Black is stationed at Fort Bliss, El Paso.

A NEW KIND OF HIGH COMPRESSION... the first Hemispherical Combustion Chamber in an

American car engine actually puts to work more of the energy contained in the fuel than other engines.

HERE'S EXCITING PERFORMANCE... responsiveness, acceleration, smoothness, which no other passenger car engine built in this country can equal today. And you can have it with FirePower even on non-premium grade gasoline.

HERE'S THE SAFETY OF POWER-IN-RESERVE greater than you've ever had at your command—a new high in the instant responsiveness which is the very essence of safety on today's highways!

YOU'LL LIKE CHRYSLER'S POWER BRAKING, TOO... smoother, gentler, swifter stops at any speed than you've ever known. At the touch of your toe, power from the engine helps put on the brakes... reduces foot pressure by as much as two-thirds!

AND HYDRAGUIDE... THE NEW POWER STEERING! It makes driving a car a brand new experience. At your touch on the wheel, hydraulic power provides four-fifths of the steering energy. Even at a standstill, you can turn the wheels with your thumb and one finger! A great safety feature.

COME DRIVE IT... ONLY A RIDE CAN SHOW YOU WHAT ONLY A CHRYSLER GIVES!

'Sugarfoot,' in Technicolor, Stars Randolph Scott in Rugged Story

A territory that originated the "when men were men" line, Arizona, was the goal of many ex-soldiers seeking further adventure after the Civil War.

So begins the story of "Sugarfoot," Warner's epic western drama in Technicolor, which is to be shown at the Texas Theatre Sunday and Monday, August 26, 27.

The title role is handled by Randolph Scott, last seen in "Colt 45." Adele Jergens, rising young actress who performed in many swank New York night clubs before moving west, supplies the romance, while Raymond Massey and S. Z. Sakall, masters of menace and mirth, respectively, also are featured.

Written by Clarence Buddington Kelland, "Sugarfoot" introduces a wealth of frontier characters, ranging from the fighting "Sugarfoot" himself, to Jacob Stint, a Quantrell raider who turned to Arizona as a fruit-laden tree ripe for plundering.

For the first time in the history of the famed Edgar Rice Burroughs series, "Tarzan's Peril," starring Lex Barker and Virginia Huston, was filmed in Africa. Thika Falls, the cloud-enshrouded jungles of Meru, the great Rift Valley, Lake Naivasha, Fourteen Falls and the

mighty plains near Embu are among the spectacular locations used as settings for the RKO Radio picture. George Macready, Douglas Fowler, Glenn Anders, Alan Napier, Edward Ashley, Dorothy Dandridge and Frederick O'Neal appear in the supporting cast.

Violence and Romance Mark Police Action Film

Adventure with the sting of reality is said to be the keynote of Columbia's "Between Midnight and Dawn," shot-in-the-streets drama based on the police files of a great city. Mark Stevens, Edmond O'Brien and Gale Storm are co-starred in the film, to be shown at the Texas Theatre next Tuesday, Wednesday and Thursday, August 28, 29, 30. Featured are Donald Buka, Gale Robbins, Anthony Ross and Roland Winters.

Stevens and O'Brien appear in the film as the men behind the wheel and guns of police car 13, never knowing into what new situation a radio call will send them but always ready to speed head-on into danger and violence. Both love the same girl but their romantic rivalry is not permitted to interfere with their police partnership.

WHY NOT NOW?

Are you one of the Runnels county farmers who have had a loss on cotton and grain sorghums this year? Is your pain eased by having a Multiple Crop Insurance policy this year or are you one of those who will be a "year behind" after this crop year? If you didn't have crop insurance this year, you had the loss entirely on your own shoulders. Why not let the Federal Crop Insurance Corporation do part of your worrying during the 1952 crop year? You will have the satisfaction of knowing that your investment will be protected and you will have a guarantee of your money back, which will be spent on your crops. Read what a few of the farmers who had insurance this year have to say:

HANS GOTTSCHALK—I don't see how a farmer in Runnels county can afford to be without the protection offered by Government Insurance. Even with dry weather, I am not afraid to farm any more when I know that the money I spend for farming and for the premium is absolutely protected. As I understand it, this county is only 1 of 4 in Texas which offers a Multiple Crop Insurance policy to its farmers. We had better get behind this thing and make it work so that we can have it in the future.

SID EVANS—I take Government Insurance because it protects my "out of the pocket" costs. This is the thing that I am primarily interested in; that is, protecting my money. I farm to make a crop and realize that if the guarantee was such that I would make money out of insurance, the premium would be so high, I could not afford it.

The time is short! Why not be prepared for next year and come to the PMA office and make application for Multiple Crop Insurance today. DO NOT DELAY. 23-1t

STRETCHING THE REDFIN . . . United States navy workmen are pulling apart sections of the hull of the U.S.S. Redfin, the undersea craft being lengthened at the U.S. naval shipyard in Philadelphia, Pa. A new middle section is in preparation to be fitted into the gap left by the workmen to make room for some vital new war equipment which is so top secret that naval officials will not disclose what is the function of the equipment in sea warfare. However, certain officials have been authorized to state that the submarine, when repairs are completed, will become an entirely new type of undersea weapon, never used in war before.

DEATHS

Mrs. Jewel Fellows

Mrs. Jewel Fellows, 43, died in her apartment on Eighth Street some time Wednesday morning from a gunshot wound, self inflicted. Her body was found on the bed in the apartment by her husband when he returned from a night tour on an oil well at 8:40 a. m. yesterday. A 12 gauge shotgun was on the bed.

Early this morning, Justice of the Peace B. G. Sharp declared suicide the cause of death. A note left on the dresser simply said: "Dear Harold, I can't get well."

Decedent was born at Josephine, Texas, January 10, 1908, and came to Runnels county in

1926. She lived at Norton and Ballinger most of the time since. She was married two years ago to H. L. Fellows.

The body was found Wednesday morning at 8:40 by her husband, when he returned from a night of work near Ballinger. Officers were called and an investigation was instituted by Justice of Peace B. G. Sharp.

Mrs. Fellows had worked for a number of Ballinger firms until recently, when her health made it necessary for her to become inactive.

The body was taken overland to Josephine, where funeral services are to be held this afternoon at 5 o'clock. Interment will follow there.

Survivors besides the husband include her mother Mrs. A. L. Tarrant, Josephine; two brothers, Raymond Tarrant, Waco;

Hugh Tarrant, Austin; and a sister, Mrs. O. R. Hunt, Josephine.

Funeral services will be held this afternoon at 3 o'clock at the Newby-Davis chapel, Dr. L. A. Eisenhuth to officiate. Interment will follow in Evergreen Cemetery.

GOD'S ATOMIC POWER

THE age of the harnessing of God's minute atom by scientists is here. Its FOURTH birthday has been celebrated. The time for the genuine love of God to reign in the hearts of men must be here if civilization is to endure. When it becomes practical for the ingenuity of man, as is now the case, to concoct instruments of inconceivable power that rip the earth into canyons, lift and wreck "skyscrapers" more easily than a strong man can break a straw and with the heat of Hell burn to dust every object near the point of its eruption . . . then, brother, it's time for all mankind to "GET ON SPEAKING TERMS WITH GOD."

THE whole world seems to be in constant fear of this terrific weapon. Nations seem to be at "loggerhead" . . . they do not trust each other. Their acts and sayings are questioned; their conclusions censored. They are in a race to avoid the calamity of the immortal phrase, "TOO FEW AND TOO LATE."

CHRISTIANS must meet the challenge of the Atomic Age. The doctrine of BROTHERLY LOVE must prevail. This is an era when giants in the field of business and fabulously rich in the material wealth of the world are scattering their shekels in the interest of religion. The church must not be denied; help keep her good work going by attending the church of your choice regularly.

WEST TEXAS NOTES

The vacation period is drawing to a close and within a short time all children of school age will be back in the classrooms and homes will be on a much stricter schedule. The past two weeks many people have been out of town on summer vacations in order to be back before the schools open on September 4. There were more people on vacation from Ballinger last week than for several years. Local and county schools have their opening dates set and schedules arranged for registration. Athletes have been advised when practice sessions will begin and student organizations will do some work in order to have preliminaries out of the way and be ready to start activities.

The Runnels County Farm Bureau is becoming one of the strongest organizations in the county, listing more than 900 active members. As the organization is better known, more farm and ranch people are joining and all are talking the benefits of the Bureau. Members are kept advised of legislation which affects farmers and ranchmen and when necessary, delegations are sent to Austin and Washington to present views before committees on pending bills. The annual meeting in Ballinger last week brought many rural citizens together for a social gathering and program and the speakers all emphasized the importance of the Bureau in national and state affairs.

A revival was started at the Miles Baptist Church Friday and will continue through Sunday night. The pastor, Rev. Robert G. Wilson, is delivering the sermons and Clark Wiseman, of Howard Payne College, Brownwood, is in charge of the music. A number of special nights are being featured which are expected to attract large congregations. Three services will be held Sunday and dinner is to be served at the noon hour.

Menard citizens were put on a water restriction basis last week when city officials found the San Saba River had quit running at that point. Until Tuesday of last week, patrons had been permitted to use

Next Tuesday is election day in Ballinger. The long discussed question of a swimming pool is to be determined at that time. If Ballingerites want such a place for the young people they should go to the polls and authorize the city to issue \$60,000 in bonds with which the pool will be built. Sponsoring organizations are pushing for a large turnout and all who favor or oppose are urged to cast ballots. When and if the bonds are approved, there will be other hurdles to surmount. Committee permission must be received for spending money for this purpose and a permit must be obtained for materials necessary to construct the pool. Approximately 700 local people expressed themselves as wanting a swimming pool, according to petitions filed with the city commission requesting the election.

water for irrigation four hours a day, but it is now necessary to limit the use to household purposes only. There is hope that this will only be necessary for a short time. Two wells have been dug and give promise of furnishing considerable water.

Efforts are being made at Melvin and other points in McCulloch county to have the county declared a drought stricken area and eligible for federal aid. Federal representatives were in Melvin last week, meeting with groups to study the situation and assist with petitions. A series of farmer meetings have been scheduled at a number of places where the benefits and disaster loans will be explained. Meetings will be held at Melvin, Lohn, Rochelle, Voca and Brady.

Jim Dailey, of the firm of Dailey & Hatfield, of San Antonio, contractor for paving about fifty blocks at Winters, moved in last week and is preparing to begin work. Mr. Dailey will start contacting property owners to sign-up blocks and plans are made to list enough blocks so there will be no delay when the work is begun. A caliche base with 24-inch curb and gutter and a triple asphalt surface will be built. Property owners and the city will share the expenses.

Rising Star city officials stated last week that there is no water shortage there and none is expected. Water consumption has been higher than for any previous year, approximately 130,000 gallons daily being pumped from the city wells. None of the wells show any signs of weakening and patrons may continue to use all they desire. In several other nearby towns restrictions have been ordered to conserve water.

The Brady city council has approved recommendations of the flood control committee of the chamber of commerce to begin the excavations of the Brady Creek floodway at once. A part of a long range program, the work is underway at this time in order to use dirt moving machinery of the county. Underbrush along the floodway has been removed as the first step. Several projects

have been studied for beautification along the floodway but no action has been taken.

The Coke county commissioners' court voted last week to take no action on a petition in which the court was asked to dismiss the county hospital board. The petition, bearing 227 names, was handed to the court two weeks ago. Acting upon an opinion of two attorneys, the court took the stand that the matter was one for the district court and it was out of its jurisdiction to question a state or federal board.

Concho county farmers and ranchmen will meet at the court house in Paint Rock tonight. The meeting is for the purpose of acquainting farmers and ranchmen with the policies and programs of the U. S. department of agriculture. Those attending will also be given an opportunity to suggest ways in which service by the department might be improved. Representatives of the department will be present to answer questions and explain the services offered.

Contractors on the junior high school building at Coleman are rushing the work as fast as possible in an effort to finish the building by September 10. The opening date for the Coleman schools has been set for that time. The contract calls for the buildings to be completed by January, 1952, but the contractors will try to complete the job four months ahead of time. Supt. W. T. Graves stated that the new building is needed to take care of heavy enrollment.

Reactivation of Camp Bowie, Brownwood, as an army training center, took a big step forward last week when the house of representatives at Washington authorized the expenditure of \$8,382,300 for land, troop supporting facilities and utilities. The authorization bill goes to the senate, where approval is expected. Brownwood leaders hope the bill will be signed soon by the president and that authorization will be given for the reactivation.

With the addition of two teachers last week, everything is in readiness for beginning

the fall term of the Comanche schools. All schools in the county will be opened on September 3 and at a meeting of superintendents and principals Saturday a number of matters, including transportation, were discussed. Many scholastics in the county will be transported by bus this year and schedules have been set up for each district.

The 46th annual Old Settlers Reunion was held at San Saba Friday, about 200 attending. The drought was the main subject of the day and many tall tales were told of dry spells in years gone by. Tom J. Taylor was the oldest native present and Mrs. Sam H. Brown, 91, was second oldest. Dor W. Brown, a former county agent, was the principal speaker and compared pioneer farming methods with those of today.

Roy Sims ginned and sold the first bale of 1951 cotton at San Angelo Friday. The bale weighed 494 pounds and was ginned from 1,820 pounds of seed cotton. A total of 800 pounds of seed was taken from the bale. Sims had been picking for some time in an effort to gin the first bale, and in the windup his neighbors helped him get the job done. Sims has 70 acres in cotton and estimates he will gather a quarter of a bale per acre.

You can Beat the Bushes— but you can't Beat this

If you want to know why shrewd car shoppers are saying "Smart Buy's Buick," take a look at this.

It's the new Buick SPECIAL 2-door, 6-passenger Sedan — and it's roomier than most 4-door sedans, higher-powered than many costlier cars—and priced, as you'll discover, right down near the lowest.

Now, we ask you: where can you beat it for the money?

Can you beat this beauty on looks and style and rich bearing in any other car near its price?

Can you match, at the same money, the big power of its valve-in-head Fireball Engine (128hp with Dynaflo Drive*)—or the big miles-per-gallon figure it delivers with such thrills?

Can you equal this traveler's roomi-

ness in any other car of comparable cost—get full-size headroom, legroom and hiproom both front and rear in any other 2-door automobile?

Can you come even near the gentle levelness of its ride and the solid steadiness of its going—have coil springs on all four wheels and a torque-tube keel beneath you—except in another Buick?

And where can you top the restful ease and luxurious smoothness of this sweetheart's Dynaflo Drive* in any other automobile at any price?

The answers, from a lot of certain-sure folks, sum up to a great big, "YOU CAN'T!"

But why take anyone else's word for it?

Come in and get your own answers. Look over this bedrock-priced Buick—compare it with any other automobile at the same money—and you'll agree you can't beat this smartest of buys.

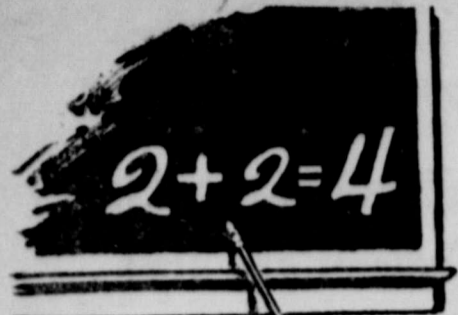

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional on other Buicks.

No other car provides all this!
 DYNAFLO DRIVE—saves strain on driver and car
 FIREBALL ENGINE—high-compression, valve-in-head—gets more miles from every tank of fuel
 PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection
 WHITE-GLOW INSTRUMENTS—greater clarity at night
 TORQUE-TUBE DRIVE—seals the chassis, steadies ride, improves driving control
 4-WHEEL COIL SPRINGING—cushions and levels the ride, saves servicing costs
 DUAL VENTILATION—outside air fed separately to right or left of front compartment
 SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum

Western, Unconventional Love Story, Rural Epic, Comedy Horseshoe Films

A bullet-paced tale of murder and espionage in the turbulent and bloody days of the Old West comes to the Horseshoe Drive-In Theatre screen with the presentation tomorrow and Saturday of Paramount's "The Redhead and the Cowboy." Starring Glenn Ford, Edmond O'Brien and sultry Rhonda Fleming, this tale of intrigue and violence is staged in the closing days of the Civil War.

Ford, as the soft-speaking, hard-shooting gun toter, is said to turn in one of the most exciting performances of his sparkling career. Miss Fleming is reportedly perfect in the role of a titian haired beauty who teaches Glenn a few things about espionage and love.

On the same program will be shown "Savage Splendor."

Joan Fontaine and Joseph Cotten, two of the brightest stars in the Hollywood firmament, will be seen together for the first time when Paramount's "September Affair" is shown at the Horseshoe Sunday and Monday, August 26, 27.

The film, which was made on location in Italy, co-stars the veteran continental performer, Françoise Rosay, and according to advance audiences, it matches the pictorial splendor of the Italian countryside with a brilliant and moving tale of an unconventional love.

When Astor Pictures' most important feature production of the year, "Country Parson," is shown at the Horseshoe Tuesday only, August 28, patrons will have an opportunity of seeing one of the truly great

films. Starring John Beal, one of Hollywood's most versatile actors, "Country Parson" is one of those pictures which comes along once in a lifetime.

In the last cast will be recognized some of Hollywood's most capable artists, such as George Bakewell, Peggy Stewart, Fred Essler, Paul Guilfoyle and others.

The "country parson's" son, Herald ("Cuz") Goodman, in person, will be here for a stage performance at the Horseshoe Tuesday evening.

Money-making and girl trouble are all mixed up to bring about the complications of "Mr. Lucky," in which Cary Grant is starred with Laraine Day opposite him. "Mr. Lucky" is the feature attraction at the Horseshoe Wednesday and Thursday, August 29, 30.

The money-making stems from Grant's plight as a penniless gambler in search of a grubstake, and the girl comes into it when Grant's efforts bring him in contact with a war relief organization of which she is a prominent figure.

The ensuing happenings keep things moving at a rapid rate right up to the stirring climax. Charles Hickford, Alan Carney, Gladys Cooper and Henry Stephenson are featured.

"All moneys received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, in a separate act, dated December 1, 1950; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1950, to pay principal of and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1950, moneys received by the Veterans' Land Board from the sale of lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued and the same are hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption.
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held through out the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:
"FOR the Amendment to Section 49-b Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."
Those opposing said proposed Amendment shall write or have printed on their ballots the following words:
"AGAINST the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."
If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation therefor.
Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

**Capacity House
Hears Dr. Jones
In Address Here**

The First Methodist Church was filled to capacity last Thursday night to hear Dr. E. Stanley Jones, missionary, writer and international religious leader.

The speaker pointed the way and emphasized the need of a federal union of all 265 religious denominations. He referred to the federal union of states wherein the states did not lose their identity as a plan for such an organization.

Dr. Jones told of some 80 cities being visited in the church union plan and that most had voted unanimously in favor of the union.

Considerable time was spent in a review of his work in Japan the past six months. Speaking in 41 Japanese cities, more than 22,000 were converted to Christianity and he declared that there had never been a time in the history of Japan that people were as anxious for the truth. He quoted Gen. Douglas MacArthur as saying that Japan would never become a democracy until it had become Christian.

Speaking of MacArthur, Jones said: "To have conquered

a people and then to have won their confidence and love is a miracle, the outstanding achievement of this age." In the face of this, the speaker said he believed President Truman acted in the best interests of international harmony when MacArthur was relieved of his command.

The speaker told how bombed and burned out cities in Japan have been rebuilt and of the great progress being made in industry, agriculture and religion.

The blaze was discovered by the night patrolman and firemen arrived before much damage resulted. Only a small quantity of water was used to knock out the flames.

The building is owned by Mrs. Audra Grant.

A Little Wait—or a Big Compromise!

If you have a Cadillac on order—or if you are giving thought to placing your order for one—we want to talk frankly with you about the matter.

There is, of necessity, some delay in delivery of new Cadillacs. You have to wait a while to get one—the time depending somewhat upon the model you select.

Naturally, you are being urged to purchase other makes of cars—which can be had almost as soon as your signature is on an order blank.

For the sake of your own welfare, we hope you will turn a deaf ear to all this—and hold firm.

If your order for a Cadillac is already in—let it stand, and be patient until your car is ready.

If you want a Cadillac, but haven't yet ordered it, do so at once—so the delay may be as short as possible.

It is a simple choice you have to make. You must choose between a little wait—or a big compromise.

You must make this choice because there is no substitute for a Cadillac.

There is no substitute for the deep world-wide respect in which it is held—

—there is no substitute for its marvelous over-all performance . . . so smooth, so quiet, so steady that to drive is to relax and to ride is to rest—

—and there is no substitute for the sheer joy of owning and driving it, so great that you will actually think up excuses for taking to the highway!

If you want a Cadillac—stand firm until you get it. There is nothing else like it—nothing in all the wide, wide world that can take its place!

Bearcats to Begin Football Training Monday Morning

The Ballinger Bearcats will begin football practice Monday morning at 8 o'clock. Coaches Douglas Cox and Frank Barnett have issued a call for all candidates to be on hand at that time when equipment will be issued and the first limbering up session held.

All next week the squad will meet each morning at 8 o'clock and each evening at 7 o'clock. The late session will be concluded each night under lights in order to have a cooler period and to get boys used to handling the ball under lights.

Coaches plan to lose no time as their first game will be

played at Albany on September 7, just three days after the opening of the local schools. Some of the boys have been getting in physical condition and will be ready to start work on plays.

Ballinger fans will have an early season for home games this year, the first one slated September 14, and five straight games played at home. All conference games will be away from home this season and there will be no games scheduled at Bearcat Field after October 12.

Mrs. Effie B. Schumacher has returned home from Hastings, Minnesota, where she visited Mr. and Mrs. Woodrow Jones. She also visited in Wisconsin and Michigan.

STAR Skyride Tires

it's Like Riding on the Clouds...

NO BUMPS... NO JOLTS

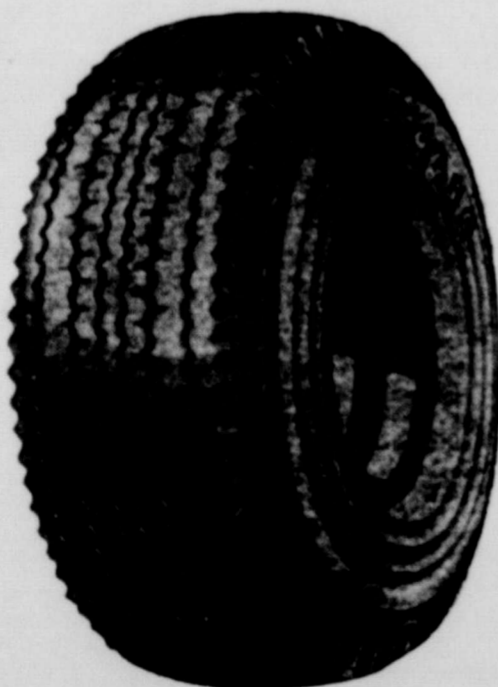

★ There's riding luxury in this new member of the Star Tire family—the New STAR SKYRIDE! It's like floating on a cloud... no bumps, no jolts, no vibration. There's less fatigue in driving, double enjoyment in riding if your car is equipped with the new STAR SKYRIDE. This is the Premium tire in the low pressure class.

LESS VIBRATION ON YOUR CAR

★ Your car will last longer, your repair bills will be less if you switch to the new STAR SKYRIDE. The soft cushion effect takes up vibration, eliminates shock, and helps prevent body squeaks and rattles. Your repair bills will be slashed if you equip your car with the new STAR SKYRIDE.

SAFER DRIVING

★ The broad traction surface and the low 24 pounds of air pressure makes the STAR SKYRIDE Tire almost skid proof on ice, wet or oil slick roads. The same features give you faster, more positive braking power in traffic or in an emergency. You have more blowout protection—the STAR SKYRIDE absorbs bruises, shocks, and other hazards that cause fabric or rubber breaks that lead to blowouts.

The diagram below shows how the STAR SKYRIDE absorbs the shock of stones, or rough obstacles. The large inside air chamber with only 24 pounds of pressure, gives the tire a cushion effect.

Every Star Skyride Carries a Written Guarantee Up To 24 Months

★ An unconditional written road hazard guarantee up to 24 months is given with every STAR SKYRIDE Tire. This guarantee covers blowouts, rim cuts, stone bruises, faulty brakes, misalignment of wheels, glass cuts, etc. No other tire carries a more liberal written guarantee.
