Seniors Get Praise For Model Behavior

Seniors of the Ballinger high school proved to be ambassadors of goodwill on their annual trip to Corpus Christi. It is not uncommon for the school to receive complimentary letters from the place where students are quartered, from towns where athletic teams play and other places.

Supt. Ernest Caskey received a very unusual letter the past week-end. On the way to Corpus Christi the buses stopped at Mason to permit the students to visit a drug store for a drink.

The letter from the Mason Drug Store follows: Dear Senior President: The entire staff of the Mason Drug Store joins me in asking that you convey to your class our appreciation of the privilege of serving you fine young people on your way to Corpus.

"Whenever we see a bunch starting to get off a bus, we nearly shudder and think we are surely in for trouble, but your class was orderly, patient and congenial, and having you in our store was a treat for us. We just want to say we thought you were the best group that has ever stopped and that we sincerely appreciate such action in young people."

"We trust that your trip was enjoyable and that in the future, each of you may find the good things life has to offer."

The letter was signed by Fritz Stengel, proprietor of the store, and his six employees.

Swim Pool Contract Awarded Local Firm

The Ballinger city commission opened bids for the construction of a swimming pool Friday afternoon and the low and successful bidder was the BCD Construction Co., of Ballinger. The bid was \$44,000 and in awarding the contract it was agreed that work would be started within the next ten days and 60 working days were allowed for completion. In studying the bids, the city turned down bids for construction of bathhouses and will work this phase of the project out later.

The only other bidder was Clay P. Terry, of Brownwood.

Mayor J. W. Moore stated that the only thing which might hold up the job is the chance that government restrictions may not permit steel to come through when needed.

Work has been pushed as fast as possible since the state credit restraint committee raised restrictions on swimming pool construction. Bonds were voted in the amount of \$60,000 a year ago but the sale was held up by the local committee until recently.

Ground-Breaking Ceremony Will be Held for Swim Pool

The Ballinger Lions Club will sponsor a ground-breaking ceremony at the site of the new municipal swimming pool in city park. The time has been set for Monday morning at 8:00 o'clock and all citizens and especially the young people of Ballinger are urged to attend.

The exact site has been located and contractors have set stakes for the excavation. Everything will be ready by Monday morning for work to get underway.

Leaders stated that the program would be short and citizens would be kept from their work only a short time.

The contract for the pool was let by the city commission last week, 60 working days being allowed for completion of the job. In awarding the contract to the B. C. D. Construction Co., of Ballinger, the commission rejected the bids of all contractors to build the bathhouses. A contract will be let later for this part of the project and bathhouses will be built which will permit the entire job to be completed with the amount of money provided in the bond issue.

Members of the Lions Club have worked for many months in securing the swimming pool. They invite all interested persons to be present for the program Monday morning.

County Receives Rains; Planting to be Boosted

General rains fell all over West Texas the past week-end, the official government gauge at Ballinger showing 92 of an inch. Gauges located in downtown Ballinger recorded over an inch.

Rains northwest and north of Ballinger were lighter, the Norton-Maverick section getting about one-half an inch Sunday. South, southeast and east of Ballinger the precipitation was heavier, Concho and Coleman counties getting up to more than 4 inches.

The rains in this county fell slowly, practically all the moisture going into the ground. Farmers stated it was excellent for the crops already up and would provide sufficient moisture to continue planting as soon as it is possible to get back into the fields.

Some farmers had stopped planting last week because of dry weather.

Mayor Bill Moore left Monday for Phoenix, Arizona, to attend to business.

Ice Plant Building Being Made New Warehouse

The West Texas Utilities Co. has started extensive improvements on the old ice plant building, located on Railroad Avenue and Fifth Street.

All machinery, freezing tanks, condensers and compressors are being removed from the building following a recent sale. The entire building will be cleared of ice making equipment and converted into a huge warehouse to house the various service departments.

Central service departments, shops, garages and offices for each department will be located in the remodeled building. All the main building and several adjoining buildings will be turned into usable space and storage.

The district storeroom and office will be moved from the downtown office building to the new quarters. All merchandise, materials and supplies will be stored in the warehouse.

A new 32 by 42 foot sheet iron building will be constructed to take care of the large trucks and miscellaneous materials.

The entire grounds and property will be enclosed by a six-foot metal fence which will tie into the fence around the substation.

The last ice was made at the plant in May, 1949, when it was under lease to J. E. Simco. The plant was put in service during World War II when an ice shortage developed in a number of nearby towns where many soldiers were being trained.

At the downtown office the space required for the district storeroom will be cleared, walls plastered and asphalt tile flooring laid. It will be used for a display room for both new and used merchandise.

At the present time several warehouses are being used by the company and the remodeled building will permit all these to be centralized under one roof.

Grass Experiments Surveyed By Conservation Committee

The Runnels county soil conservation district recently was sent a small amount of buffed grass by the soil conservation service nursery at San Antonio. Trial plantings have been made on four farms in this county. The grass comes from a low rainfall region in South Africa.

Trial plantings were made on the farms of Clyde Flanagan, Walter Adami, Oran Bigby and Curtis Wiesepape. On three of these places the seed were planted in a deep sandy soil and on the Adami farm in a heavy soil.

A survey also was made of the 11-acre experiment in K. R. bluestem on the farm of W. M. Hays. The survey was made to determine the number of plants killed during the severe drought. It was revealed that only four per cent of the established plants and 20 per cent of the young seedlings died.

This field was planted in the spring of 1949 in 36-inch rows at the rate of 3 pounds per acre. In the fall of that year livestock was turned in on it. In September, 1950, the animals were taken off and the following month 800 pounds of seed were harvested. The field was then opened on the rest of the rangeland and grazing continued until spring. It made very little growth during the dry year of 1951, but since the first rains this year is doing well and shows little effect from the two years of drought.

At the regular meeting of the soil conservation board last week conservation plans were approved for the farms of E. W. Bridwell, Harold Routh, Jonah Eckert, William Lloyd estate, Curtis Wiesepape, Cornell-Jackson estate, Alfred C. Wendland, Otto H. Bahlmann, Walter Adami, Charles Taylor, Paul J. Block, Press Edwards, Thomas W. Ford, Charles H. Ashton, Dr. T. W. Dixon, Rufus Allen, Joe Irvin.

And with Chrysler full-time Power Steering*, you steer with one-fifth the usual effort... drive with five times the usual control! With Power Brakes you need up to two-thirds less foot pressure... and still stop in many feet less than other cars can do.

Yes, behind Chrysler's new engine you'll find a new kind of car. Won't you come in and feel what we mean?

The dining table was centered with an arrangement of roses and honeysuckle where a sandwich plate was served with iced tea to honor guests and their parents, classmates, and the hosts' son, Bill Hart, 2nd class airman. Gifts from the hosts were presented to the three honor guests. Pictures of the senior boys and girls were made by M. E. Sweeney.

Miss Athlea Poster, Youth Director of the First Baptist Church, presented Mr. Wimpee, who entertained the young people with his magic performance.

The Shepperd home was attractive with a profusion of garden flowers and a floral centerpiece was on the dining table where Miss Foster presided at the punch bowl and Mrs. Shepperd, Mrs. Elkins and Mrs. Jones served a sandwich plate with cookies.

Collegians Guests in Zappe Home

Bobby Afflerbach, member of the graduating class of St. Mary's University, San Antonio, and his sister, Miss Dorothy Afflerbach, a student at Incarnate Word College, San Antonio, were accompanied home by Miss Mary Shaw, member of the graduating class of Incarnate Word, and Stanley Psenick the past week-end. The students were visitors in the home of Mr. and Mrs. H. J. Zappe and daughters before going on to Winters, where they visited their parents, Mr. and Mrs. Albert Afflerbach.

The Afflerbachs and Zappes will be in San Antonio this

week-end for the graduation programs.

Junior-Senior Banquet Features "Old South" Theme

Bringing to a grand climax the social events prior to graduation, the junior class of the Ballinger high school honored the senior class with the annual formal farewell banquet Friday evening.

The setting was in the high school lunch room, which was transformed into a Southern home scene where Mrs. W. E. Elkins and her staff served the three-course menu which reflected the southern theme.

Large framed photographs, sabers and soldiers hats adorned the walls while the stage was set as a green lawn with trees and potted plants, where Willie Faye Kendricks played the negro mammy, and sat in the old rocking chair reading to

the small pianinies seated around her. The long tables were centered with white carnations while green candles in white holders were spaced at intervals. Other table arrangements were Colonial girl and boy figurines along with girl graduate nut cups, green program folders with pictures of negro interlocutors on the front page. Favors were miniature banjos. The senior colors, green and white, were used on the speakers table, which was centered with a large basket of green and white carnations flanked by green candles in white candelabra.

Howard Hamner, Junior president, was master of ceremonies. Supt. Ernest Caskey gave the invocation and Bob Ransbarger spoke the welcome to seniors and their dates and guests. Elroy Payne, senior president, gave the response; Mrs. Charles Webb, soloist, sang special Southern melodies. Bob Shyles, of Winters, was the guest speaker for the evening and was introduced by Principal Joe Forester. For the concluding number, members of the junior class sang a toast to the seniors. Mr. Floyd Wimberley spoke the benediction.

Junior sponsors, Mrs. Herman Rountree, Mrs. W. N. Selby, Billy Brown, Douglas Cox and Bill Scoggin were in charge of arrangements and were assisted by members of the junior class. All of the high school faculty and a number of added guests were included at the affair, at which one hundred-seventy were in attendance.

Following the banquet, a prom was held at the American Legion Home at Bruce Field, where the group danced to music furnished by John Tarleton State College Band.

The setting for the affair was a Southern garden, with climbing roses twining around columns and arches at each end of the hall, and a rock wall encircled the entire garden while the orchestra was seated in a vineyard. Multi-colored balloons and festoons of crepe paper hung from the ceiling. Refreshments were served by junior sponsors.

Junior officers were: president, Howard Hamner; vice-

president, Bob Ransbarger; secretary, Carol Ann Bailey; treasurer, Glen Ferguson; reporters, Merle Richards and Jack Reese.

A Tribute to . . . the Farmer!

From the soil comes the sustenance of the world. From the hard-working man who tills the soil comes the fruits of Nature in bountiful array. God loves the Farmer, someone has said, because he is in such close communion with the good earth. He plows it. He plants it. He worries over it. And lo, then his smiling fields are lush and abundant with tassels, tomatoes and all the things we eat. Fat cows and porkers give us milk and meat. And Mrs. Farmer has chickens and turkeys for the market. Without the Farmer there would be no life or living. Let's salute his sun-up to sunset existence . . . and be grateful for his bounty!

Randolph Scott, Wendell Corey, Van Johnson, McGuire Horseshoe Names

Randolph Scott stars in "Man in the Saddle," Columbia production to be shown at the Horseshoe Drive-In Theatre tomorrow and Saturday, May 23, 24, in conjunction with "The Wild Blue Yonder."

In "Man in the Saddle," Scott is seen as a small ranchman who is forced to fight for his life 10,000 feet above sea level because two women in the valley below love him. Joan Leslie and Ellen Drew play the two women, while Alexander Knox plays a wealthy rancher married to Miss Leslie. Supporting players include John Russell, Richard Rober, Alfonso Bedoya and recording artist Tennessee Ernie.

The exciting story of Republic's "The Wild Blue Yonder," which covers the broad expanse of air force action in World War II, stars Wendell Corey, Vera Ralston, Forrest Tucker and Phil Harris. It was filmed both at the studio and at two air force locations against an authentic background of hundreds of huge "forts" which became the super-duper weapons in the air at the time when they were needed the most.

Declared one of the most emotionally gripping stories to reach the screen is M-G-M's "Invitation," story of a wealthy girl doomed to invalidism, for whom her father attempts to "buy" one perfect year of happiness. The local presentation of the first run film is at the Horseshoe Sunday and Monday, May 25, 26.

Four top film personalities were garnered for the leads, Van Johnson, Dorothy McGuire, Ruth Roman and Louis Calhern.

Both Johnson and Miss McGuire make an abrupt switch

from comedy portrayals to fill straight dramatic assignments in "Invitation." ALWAYS BE CAREFUL DRIVING

White sidewalls optional at extra cost.

It gives this old familiar sign new meaning

Would you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is — a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

- (1) It's a mixture of gasoline and air that gives you power.
- (2) Buick engineers have come up with a four-barrel automatic carburetor that lets

you use more gallons of air per gallon of fuel. Most of the time, only two of these barrels are needed — and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But — when you want a quick burst of eager power — you can double the air supply as well as the gasoline feed — and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

FREE AIR

He wants to ride with solid security, confident poise and lordly silence.

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that — soon?

Equipment, accessories, trim and models are subject to change without notice.

Schools are closed and the summer vacation period has started. This time of year brings the threat of polio and the national foundation is advising parents to keep a close watch on their children during the summer. Parents are especially warned to watch for sore throat, stiff neck, sore muscles, swallowing difficulty, headache, feverishness and upset stomach. Upon discovery of these symptoms it is advised that a physician be called. It is also urged that children do not stay in cold water too long and do not sit around in wet clothes. For the past several years there has been too much polio in Texas. Hospitals have been crowded with patients and every effort should be made during the vacation period to protect the children, who are most likely to develop the disease.

County officials are going to much expense and effort to beautify the court house lawn and bring it back to the place it occupied several years ago. They have requested that people use the sidewalks and not walk across the tender new grass or through flower beds. There are some who take the shortest cut from the court house doors to where they are going and disregard the sidewalks. Ground keepers often call attention to

WEST TEXAS NOTES

A mosquito and fly control survey under the supervision of the state health department was started at Menard Friday by members of federated clubs. The survey calls for a questionnaire dealing with various health problems but more specifically concerns control of mosquitoes and flies. Efforts will be made to destroy all breeding places of insects. Also to be considered are condition of the water supply, sewer system, garbage disposal and a number of other items. Findings of the survey will be handed to city officials, the chamber of commerce, Rotary and other clubs.

Stephenville police have been ordered to issue tickets to all motorists who overpark in the area covered by meters. The hours set are 8 a. m. to 6 p. m. and enough police have been detailed to look after the meters and issue tickets. Police Chief Louis Moore said all meter heads had been overhauled and were in good condition.

Brady city officials revealed the damage done but it is then too late. It will require some time to get a good turf and during that time irrigation must be continued regularly. Every citizen is asked to help make the grounds a place of beauty by giving the grass and flowers a chance.

A group of fans is trying to bring semi-pro baseball here for entertainment and for other reasons. They are faced with several problems, however; one in getting amateurs who can compete in the Concho Basin League and two, in obtaining enough patronage to keep night baseball going. If the venture is successful it will guarantee upkeep of the excellent park and equipment and make possible a place for other public gatherings. Within a short time a number of college players will be home for the summer and the team will improve greatly at that time. Every citizen is asked to help in this project and if possible a full entertainment program will be offered at the local park during the next three months.

last week that a new engine for the city power plant had arrived and it would be moved at once to the foundation and put in operation. It was pointed out that the shipping weight of the new engine and generator was 196,000 pounds and moving from the railroad depot to the plant would be a big undertaking. The new equipment, when installed, will have an output of 5,300 kilowatts per hour. Total cost to the city is \$325,000.

A new six-man football district has been formed by Dr. Rhea Williams, of the university interscholastic league. The first meeting of the school representatives was held at Coleman last week, at which Joseph A. King, of Paint Rock, was named chairman. Schools having membership are Paint Rock, Norton, Miles, Millersview, Talpa and Eola. A district number will be assigned later. Teams of the district will begin playing on September 19 in a double round-robin.

Rising Star will be host for one day to seven Turkish students who are touring this country to gather first-hand information on many subjects. Those visiting Rising Star will tour orchards of the area to study cover crops, varieties of fruit, thinning, fertilization, cultivation, spraying and marketing. They are traveling in their own bus and carry an interpreter, J. M. Cooper, Eastland county agent, is arranging a schedule of visits to fruit growers.

Robert Lafferty, night clerk at Hotel Brownwood, fought off two armed thugs when they

attempted to rob the hotel last week. Two men entered the lobby and asked for a room. When the night clerk reached for a card, one of the men pulled a gun and asked for the money. Lafferty fought the man and slapped the gun from his hand but was attacked by the second man who carried a knife. He received a number of cuts but the would-be robbers fled without getting any money.

The Winters Retail Merchants Association has made plans for a city-wide dollar day, the first date set for Friday, June 6. Alan Ladd Sagebrush Saga, Ava Gardner and James Mason Sizzler Booked at the Hillcrest

"Red Mountain," latest Alan Ladd stirring vehicle, which is the main attraction at the Hillcrest Drive-In Theatre today, tomorrow and Saturday, is in Technicolor and pairs the popular action star with lovely Elizabeth Scott. This Paramount release also stars Arthur Kennedy and John Ireland.

The big scale outdoor adventure deals with a renegade Confederate general who tried to conquer the West in the closing days of the Civil War, and the hard-bitten captain, played by Ladd, who finally wrote finish to a reign of looting, torture and murder.

A love story involving the captain and a frontier girl who fights the cause he fights for is blended with this thundering account of a ragged remnant of the Confederacy plunging the West in a campaign of personal conquest.

The picturesque Costa Brava, north of Barcelona, Spain, served as one of the unusual and arresting location settings for M-G-M's "Pandora and the Flying Dutchman," exciting Technicolor romance starring James Mason and Ava Gardner, to be shown at the Hillcrest Sunday and Monday, May 25, 26.

Exterior scenes were filmed against their natural settings, enabling the Technicolor cam-

eras to capture the vivid blues of the Mediterranean sky and sea and the polychromatic blend of antiquity and modern Spanish scene. Advantage also was taken of the gypsy element in Spain to introduce genuine flamenco singing and dancing to the screen for the first time.

Shelly Winters Featured In Story of Waterfront

"The Raging Tide," billed at the Texas Theatre Tuesday and Wednesday, May 27, 28, is reportedly a gripping suspense story backgrounded against the real-life settings of San Francisco and its famous fishing fleet.

Shelley Winters, Richard Conte, Stephen McNally, Alex Nicol and Charles Bickford have the leading roles in this Universal release, which was adapted for the screen from Ernest K. Gann's best-selling novel, "Fiddler's Green."

The next meeting time will be at 3 p. m. instead of 2 p. m. and will be on Friday, June 6. The demonstration will be on "Get Rid of Household Pests."

Members are asked to see the bulletin board at Crews Hi-way Store for place of meeting.

James Stewart Enacts Dramatic Role In Factual Story, 'Carbine Williams'

James Stewart returns to M-G-M, the studio where he made his film debut, where he first became a star, where he won an academy award for "The Philadelphia Story" and, more recently, an academy award nomination for "The Stratton Story"—to enact one of the most dramatic roles of his career as "Carbine Williams," in the film of this title to be presented at the Texas Theatre Sunday and Monday.

May 25, 26.

This is David Marshall Williams' story, the story of a man who was instrumental in the invention of the U. S. 30-mm. carbine rifle developed by Winchester, the first carbine to be adopted by the U. S. army in forty years and the rifle which was one of the strongest contributing factors to the American victory in the Pacific. Williams conceived the idea for the carbine while serving a sentence for manslaughter in a prison. His experiences there and the act by which he vindicated himself make for one of the most stirring motion pictures ever to come from the M-G-M studios. Stewart comes to the new offering direct from his hits in "Bend of the River" and "The Greatest Show on Earth."

Co-starring are Jean Hagen, as Maggie, the loyal wife whose courage and devotion proved a major factor in Marsh Williams' life; and Wendell Corey, as Capt. Peoples, stern warden of the Caledonia work camp, who became Williams' greatest friend.

Harem girls supposedly are lush and languorous, but now Joan Davis, star of Columbia's "Harem Girl," to be shown at the Texas tomorrow and Satur-

day, adds some new twists to the veiled tradition, as the Missouri-born secretary-companion who takes the place of a beautiful desert princess when the girl runs away from an usurping sheik. Heavily veiled in the harem style, Joan shakes down the sheiks in her own inimitable manner. Heading the featured cast of "Harem Girl" are Peggie Castle and Arthur Blake.

Eighteen Models of Other Makes of Cars Cost More!

Official price lists show that there are eighteen different models of American motor cars, produced by five separate automotive manufacturers, which actually cost more than the lowest-priced Cadillac—when similarly equipped.

If you find this difficult to believe—then you're in good company!

For the record also shows that, during the past few years, literally hundreds of thousands of motorists have taken title to these costlier models. And there can be little doubt that many of them did so simply because they failed to realize how relatively modest the cost of a Cadillac can be.

They simply assumed that exclusive in quality means exclusive in price! And it is doubtful if a single misunderstanding ever cost so many motorists so much!

It cost them, first of all, the satisfaction of owning a Cadillac! For there is no substitute for the sense of

pride and well-being that comes from owning a motor car that is universally recognized as the "Standard of the World."

It cost them, too, the pleasure of driving a Cadillac! And this, beyond any question, is the greatest penalty of all! For in missing out on the many thrills to be found behind its wheel—they're missing out on motoring's finest rewards.

And, of course, it also cost them Cadillac's many long-range economies—its almost unbelievable gasoline mileage, its unsurpassed dependability, and its legendary long life.

We know that you wouldn't want to make such a costly mistake in the selection of your next car. But you'd better be careful—because there are eighteen different ways to make it!

So when the time comes—investigate! And if you pay the price of a Cadillac—be sure that you get one!

Dian Tuckey Honored at Party in McGahey Home

Mrs. Oma L. McGahey was
hostess at a coke party in her
Fourth Street home in the late
afternoon last Thursday when
she named Dian Tuckey, mem-
ber of the 1952 graduating
class, honoree.

Early summer floral arrange-
ments were used about party
rooms where the group enjoyed
an informal get-together. The
hostess served a refreshment
plate with coca colas and also
presented a piece of honoree's
selected silver as a graduation
gift.
