VOL. 66

BALLINGER, TEXAS, THURSDAY, JULY 3, 1952

NO. 37

## 447 Barrels Gauged For Berryman Well

American Trading and Production Co. No. 1-F. E. Berryman, in the Bays (Goens lime) field, was gauged last week for a daily flow of 447.78 barrels of 47.8 gravity oil.

Miami Operating Co. No. 1-Adkins Henson is an indicated discovery in the lower Fry. It flowed oil at the rate of 20 barrels an hour on a drillstem test between 3,605 and 3,613 feet. It is 3/4 of a mile south of upper Gardner production in the South Crews field.

Soljourner Drilling Co. has staked Nos. 1- and 2-Ashton to go 3,000 feet with rotary equipment. Both projects will test the Serratt sand around 2,400 feet. If no production is found at that depth they will be drilled to 2,900 feet.

E. K. & E. M. Burt and Edgar Davis No. 1-J. H. Jones has been staked and is projected for 4,000 feet. The location is half a mile from production in the South Crews field.

Miami Operating Co. No. 1-Clara McKissack has been approved in the South Crews field. It will be drilled to 4,400 feet.

Miami Operating Co. No. 4A-C. L. James, 3/4 of a mile south of the Lindemann (McMillan) field, is staked for a 4,100-foot test. The company has also staked its No. 5A on the James place.

Union Sulphur No. 16-J. M. Giles is projected for a 4,500 feet.

Paine Production Co. No. 1-J. E. Talley, southeast of production in the Nora (Gardner) field, will go to 5,000 feet.

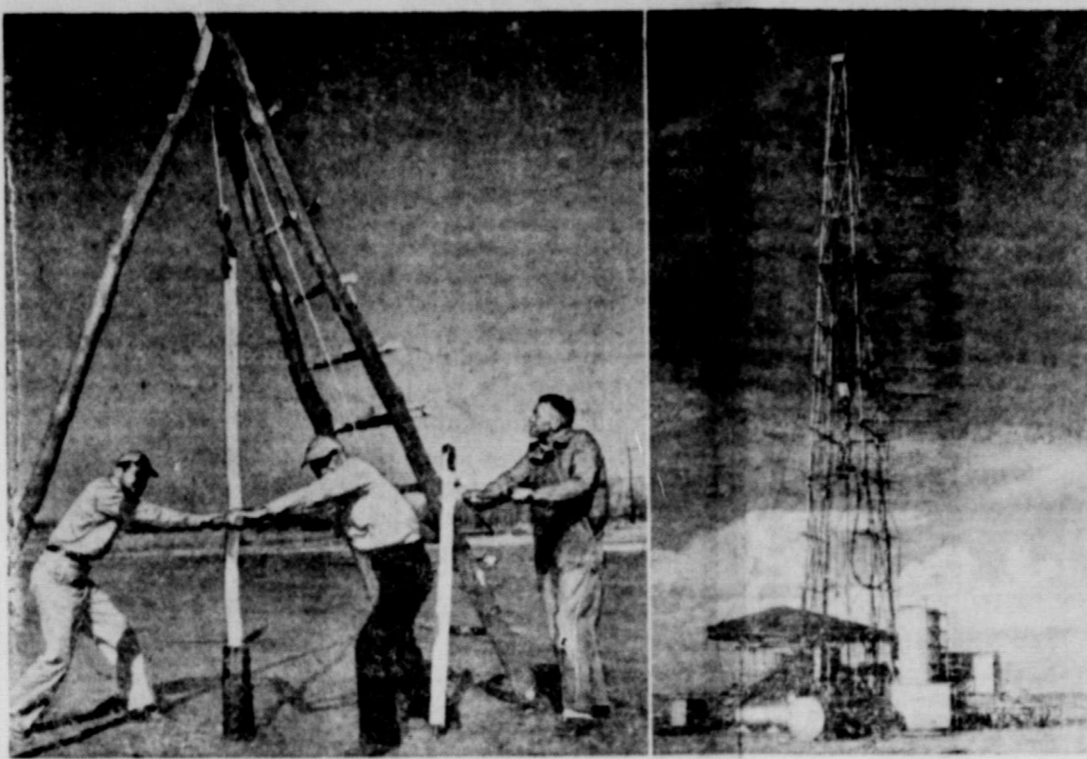

E. F. & E. M. Burt and Edgar Davis No. 1-Robert Spill, 1 1/2 miles southeast of production in the Messenger (Gardner) field, will be drilled to 4,000 feet.

Drilling is continuing below 4,491 feet in Humble No. 1-Cicero Smith after water was encountered in two sections of the Strawn.

E. K. & E. M. Burt and others have filed an application for their No. 1-J. P. McCord, south of Crews.

G. C. Cree No. 2-C. E. McMillan is projected for 3,950 feet.

S. C. Herring No. 1-Billups will be a north outpost of the Sykes (Morris sand) field. Drilling will be to 4,500 feet.

HALF A CENTURY OF PROGRESS... One of the attention-getting qualities of the oil industry is the spectacular form of the mechanical equipment used to get the oil out of the ground. But it wasn't always like that. For instance, at the left is a replica of a portable hand drill used 50 years ago. It was operated by turning a hollow augerlike bit by hand. The unique hand drill cost \$10 and could drill a hole 150 feet deep. By contrast, the modern portable drilling rig, used by the Shell Oil company, may cost \$250,000 and can drill to depths of more than 9,000 feet.

## Several Changes Made In State Election Code

Absentee voting for the first Democratic primary will start in Runnels county Monday. Ballots will be found at the office of the county clerk and persons who intend to be away from their voting boxes on election day may secure ballots at the clerk's office, mark them and leave them there.

In previous years absentee ballots were mailed to the election managers of the boxes where the voters lived. Under the new code, a new voting box will be created and all absentee ballots will be counted by an appointed set of officials.

Homer Hudgins, county Democratic chairman, has named Mrs. Lynn Harris as manager of the absentee box and she will name assistants to count these ballots.

This procedure will not be followed exactly in the general election in November. At that time absentee votes in the governor's race will be mailed to the manager of each box and counted there. This is done because the number of delegates in precinct conventions is determined by the number of votes cast for governor in the general election.

Under the new code all precinct chairmen are required to telephone the results of their boxes to the county chairman on the night of the election.

Mr. Hudgins will be located at The Ledger office in Ballinger, where he will be assisted by a staff representing the newspaper in receiving and tabulating the returns. As fast as they are received the Texas Election Bureau at Dallas will be given results and these will be included in state tabulations.

### ALL BAND STUDENTS WILL BE MEASURED FOR UNIFORMS MONDAY

## Prayer Day Here Will be Observed By Public Friday

President Truman has proclaimed July 4 as a national day of prayer. Arrangements have been made to observe the day in Ballinger and a special service for all people will be held at the First Presbyterian Church, U.S.A., on Eighth Street. The service will start at 7:30 Friday morning and will be concluded by 8:00. Rev. Hubert Smith, pastor of the First Methodist Church, will lead the devotional.

The president acted in response to a joint congressional resolution of last April. That resolution had directed him to proclaim a suitable day each year, other than Sunday, as a day of prayer.

The president said in his proclamation that he deemed it fitting that the day of prayer coincide with the anniversary of the adoption of the Declaration of Independence. He added that the Declaration of Independence published to the world this nation's firm reliance on the protection of Divine providence.

All citizens are invited to give thirty minutes tomorrow to this program of prayer.

## County's Tax Values Up 7 Million Dollars

The Runnels county commissioners' court was in session Friday and Saturday, acting as an equalization board for oil operators in the county.

A large number appeared before the board in getting renditions on property held in this county. At the conclusion of the meeting it was found that oil property valuations are up approximately \$7,000,000 this year. This added to the value of one year ago makes about \$17,000,000 assessed against oil holdings in Runnels county and gives the county tax rolls for the year a total of \$28,500,000.

While the tax rate cannot be officially set until in August, Dalton Crockett, county tax-assessor-collector, has been advised to figure his rolls based on a 72-cent county rate. This will be three cents less than last year when 75 cents was set by the court.

The \$28,500,000 renditions at a 72-cent rate will bring the county \$205,200 in taxes if all are collected. In addition some \$40,000 in road taxes will be collected during the year.

Before oil development, Runnels county had approximately \$10,000,000 in renditions for tax purposes.

## Water Consumption at Peak; Elm Lake Facilities in Service

Water consumption in Ballinger reached an all time high last week when approximately 1,700,000 gallons a day was the average. This is in excess of the pumping maximum from the Valley Creek lake and the old plant on Elm Creek was put into service.

A. D. Smith, in charge of the water plant, stated that more than 300,000 gallons a day was taken from the Elm Creek lake to supply patrons. This plant was made ready some time ago and is being operated daily.

High winds has caused the lakes to go down fast and should the Elm Creek lake be exhausted, it would be necessary to curtail consumption here because of the limited pumping facilities at the Valley Creek plant.

Additional pumps could not be installed at the Valley Creek lake without a shut-down of the new plant and this would be impossible while consumption is at a peak. Were it not for the Elm Creek facilities city water patrons would be rationed now.

Smith said that the 1,700,000 gallons pumped last Friday was a record to that date. That day he took 342,000 gallons from the old lake.

## County Encampment for 4-H Club Girls Slated July 14, 15

Adult leaders and girls' 4-H club presidents met here Monday with Miss Ollie Chenoweth, county home demonstration agent, to make plans for the 1952 county encampment.

Dates set are July 14 and 15, the recreational leaders to report at 9:00 a. m. the first day and others to arrive by 11:00 a. m. All programs and business sessions will be held in the American Legion clubhouse at Bruce Field. Reports from clubs indicate record attendance.

It was decided that some form of stenciling would be done in the handicraft section and much time will be devoted to recreation, including folk games, singing and stunts.

The club girls will have a number of invited guests for the noon hour on Tuesday, July 15.

Miss Chenoweth said there were more than 120 girls in the 4-H clubs of the county this year and attendance at the encampment is expected to be 100 or more.

## Hanson to Accept Position at Marfa Resigns Local Job

R. A. Hanson, teacher of vocational agriculture in the Ballinger high school the past two years, has tendered his resignation. At the same time he announced the acceptance of a position with the Marfa high school faculty.

At Marfa he will start a new department. This will be the first year for the school to have vocational agriculture for 37 boys have already signed for the course.

"Governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute a new Government..." (From the Declaration of Independence now 176 years true.)

... and the fight for Freedom must never cease!

Absolutism Government is no respecter of person or place. It can and does raise its ugly, ungodly standard over traditionally free soils as it does over England and the land of the Czars. None of the real, pretended, or promised benefits of Absolutism Government can in the end justify its existence.

The freedoms for which generations of Americans have fought and died are slipping away from us... centralized government and bureaucratic directives are nibbling away at our American heritage.

Freedom is not free—it had to be fought for, and you will have to fight to maintain it. Now is the time for everyone to come out, stand up, be counted, and vote the way he desires to vote, regardless of those who would perpetuate power politics.

## Are you susceptible to disease?

A remarkable fact about disease is that the susceptibility of humans differs widely. During epidemics one person is stricken, another in similar environment is not. Two equally healthy individuals may be attacked; one will recover, the other succumb. For this there is no satisfactory explanation. One fact of which we can be sure is that regular medical attention is an important factor in preventing illness. Your physician has devoted his life to the prevention and treatment of illness. Consult him regularly. We are devoted to compounding and dispensing medications.

At Horseshoe Drive-In on Fourth**

Fireworks, Frank Sinatra and Shelley Winters is the ticket at the Horseshoe Drive-In Theatre for July the Fourth (tomorrow only). Manager R. T. Hall said he had purchased a magnificent and thrilling fireworks display, which will be presented between pictures.

Sinatra sings eight songs in Universal's "Meet Danny Wilson," which also stars Shelley Winters and Alex Nicol. A ninth song number in the first run film finds Miss Winters doing a duet with the crooner in a clever arrangement of "A Good Man is Hard to Find."

At the Horseshoe Saturday only, July 5, is "Overland Telegraph," a first-run western, starring Tim Holt, and "Tarzan and the Slave Girl," starring Lex Barker.

A fascinating chapter in the Hollywood scene is unfolded in M-G-M's first-run Technicolor

musical, "Singin' in the Rain," to be shown at the Horseshoe Sunday, Monday and Tuesday, July 6, 7, 8. It is Hollywood during the transition from the silents to the talkies—the era of flappers, the Charleston, the few who claimed the "talkies" would never last and the many who proved they were here to stay. Gene Kelly plays the ex-vaudeville hooper who rises to the crest of the wave as a silent-film star and makes an easy transition to the sound-pictures. The multi-talented Kelly not only sings, dances and acts in "Singin' in the Rain," but he also co-directed the

### Accidents Cause \$2,692 Damages To Cars in June

City police reported eleven accidents in the city during the past month. There were no injuries and the total damage to cars amounted to \$2,692.44. During the month 1,390 traffic tickets were issued. All of these were returned but 73 and 41 notices have been mailed to inform car owners of a \$1 fine. During the past month \$25 was collected on overdue traffic notices.

The income from parking meters showed a sharp decline the past month. Revenue from this source amounted to \$799.55. Twenty-seven arrests were made during the month. Six were for operating cars without a license, 4 for speeding, 9 for drunkenness, 2 for affray, 4 for reckless driving and 1 for running a red light. Of 25 cases handled by the city 19 paid their fines in full and 6 are making payments at this time. Two cases were transferred to the county.

### County Has Good Record on State Prison Sentences

Runnels county in the past ten years has committed 24 prisoners to the state prison system.

This was revealed in a study conducted inside the prison by students at Sam Houston State Teachers' College, Huntsville, under the supervision of Dr. Rupert C. Koeninger, head of the school's sociology department.

In number of commitments over a thousand population, Runnels county ranked 156th in the state with 143 persons per thousand committed, according to the survey.

Ten Texas counties during the period of 1942 to 1951, represented 41.73 per cent of the total population, based on the 1950 census, committed 50.27 per cent of the prisoners.

In order of the number of commitments they were: Harris, Dallas, Bexar, El Paso, Tarrant, Hidalgo, Jefferson, Travis, Cameron and Wichita. These counties committed 11,424 of the 22,795 prisoners.

Kennedy and Loving counties did not commit anyone to prison during the ten-year period.

### FORMER BALLINGERITE HEADS ODESSA LEGION

Joe Cosby, formerly of Ballinger, was elected commander of the Odessa American Legion post recently. He will serve as head of the organization the next 12 months. The post will construct an addition to its recreational building in the near future.

Bob and Tommie Sessions, of Fort Worth, are spending the week with their grandmother, Mrs. R. T. Trull, and uncle and aunt, Mr. and Mrs. H. J. Zappe. Mr. and Mrs. Horace Sessions are in Houston this week and will spend the week-end holiday here and accompany their sons home.

### Holiday Causes Clean-Up Delay; Hauling July 17

City officials have announced that the emergency clean-up campaign has been postponed one week. This action was taken when it was found that many people would be out of town for the Fourth of July holidays or would have company. It was feared this would hinder work until many would not be ready for the hauling scheduled July 10.

Mayor J. W. Moore stated this week that hauling would start on July 17 and this will give one full week more for the annual cleaning of yards and alleys.

A survey of the city made by police the first of the week found much work underway. The fear of police has caused citizens to follow recommendations and many breeding places for flies and mosquitoes have been located, cleaned and sprayed.

Sponsors of the emergency clean-up are asking for full cooperation from citizens.

### ALLEN'S SON-IN-LAW BOTH GET PROMOTIONS

Mr. and Mrs. Rufus Allen received word last week that their sons-in-law, John Green, Jr., and Clark Koller, had both received promotions.

Green, with a medical division stationed on Guam, has been promoted to captain. Mrs. Green and children are with him on the island.

Koller, a B-47 stratojet instructor at Wichita, Kansas, AFB, has been made major. Major Koller has been instructing in the B-47, powered by six GE engines which can do more than 600 miles an hour, the past six months. Mrs. Koller and daughter, Linda, left for Wichita this week after a month's visit with her parents.

SCANTY PANTY BUSINESS . . . Having been notified by the faculty that lingerie raiders are going to have to dig into their allowances to replace panties, bras, slips, girdles and other underthings stolen from the girls during an unmentionable forage on the girls' dormitories recently, these Northwestern University students have gone into business. "Your choice, your price," the enterprising lads are shouting as they display their wares to the campus.

## SOCIETY

### Mrs. Agnew and Mrs. Williams Honor Mrs. Salfen

Mrs. Hal Salfen, who with her husband and four sons, of Atlanta, are house guests of her parents, Mr. and Mrs. Alex McGregor, was honored at a bridge party Wednesday afternoon in the Tom Agnew home in Wilke Terrace.

The affair was a highlight of mid-summer, when many old friends had returned to Ballinger for the Fourth of July holidays and summer vacations.

Hostesses were Mrs. Agnew and daughter, Mrs. Barry Williams. The entrance hall was decorated with arrangements of vari-colored sinias, and lilies were in the living room. Centering the lace-laid dining table was a reflected arrangement of gladioli in cream and pink tones while the buffet was centered with a large crystal bowl filled with maroon daisies.

Hostesses presented gifts to Mrs. Salfen and Mrs. Bill Sykes, of Fort Sumner, New Mexico. In games of contract high score award went to Mrs. Sim Cottelle, low score prize was won by Miss Maryatt Smith; the bingo by Mrs. Orland Middleton; and the traveling prize by Mrs. C. L. Baker.

NEW ART FORM . . . At last somebody has gone and actually made a straw man—two of them, in fact, and maybe more. These caricatures of Josef Stalin (left) and Winston Churchill are the work of 55-year-old Luri Natale of Florence, Italy, who uses colored straw instead of more orthodox materials to produce his figures. Luri confines his caricaturing to prominent international figures. Anyone care to say anything about Stalin's head being the last straw?

All agencies concerned with traffic safety are urging car drivers to be careful during the Fourth of July holidays. Every year a heavy toll is taken on American highways and those who will make trips this year are asked to watch their speed, keep on their side of the road, obey highway markers and otherwise make every effort to avoid accidents. Those who drink are asked to stay out of cars. Every available officer will be on duty during the next week-end and many motorists will be stopped and asked to show driver's licenses and at the same time receive a polite request to be careful. If drivers will cooperate with public safety officials the heavy casualty toll can be greatly reduced. For the sake of your life and the lives of loved ones, be careful when on any public road.

Ballingerites have been asked for a quick clean-up of the entire city. While this community has been fortunate and no cases of polio have developed, local firemen, city officials and mothers think a clean-up campaign now may save the life of some child

Miss Morgan, William T. Allen Wed at Church

Lovely simplicity characterized the setting for the early morning wedding service Sunday at 8:00 o'clock in the First Baptist Church, when Miss Mary Ann Morgan, daughter of Mrs. Mollie Morgan, became the bride of William T. Allen, son of Mr. and Mrs. George C. Allen, of Van.

Tall white baskets of yellow gladioli before a background of commode and ferns decorated the altar where Dr. Conway T. Wharton, pastor of the First Presbyterian Church, U. S., read the double ring service before an assembly of relatives and friends.

Traditional wedding music was given by Mrs. J. D. Reneau, organist, who played a variety of pre-nuptial music, including "Indian Love Call," "Ah! Sweet Mystery of Life," "I Love You Truly," and "Oh, Promise Me," and accompanied Mrs. Charles Webb, who sang "Always," and "Because." Mrs. Reneau also played traditional wedding marches.

The bride, who was given in marriage by her uncle, Owen Aycock, wore a ballerina-length gown of white swiss embroidered organza. The fitted bodice of plain organza was topped to a deep scalloped embroidered yoke which was accented with a Peter Pan collar. Tiny self-covered buttons traced the front of the bodice to its waistline, and puffed sleeves were a smart push-up style. The very full scalloped skirt was designed with embroidered motifs.

For something old the bride wore a gold antique pin belonging to her aunt, Mrs. Paul Best.

Her shoulder-length veil of imported illusion was tiered and caught to a shirred ciot enhanced with orange blossoms. White linen opera pumps completed the wedding costume. She carried a bouquet of gardenias surrounded by feathered carnations and satin streamers.

Mrs. E. B. Burgwaldt, of Houston, cousin of the bride, was matron of honor. Bridesmaid was Mrs. E. M. Huggins, Jr., of Pughshear, also a cousin of the bride.

The attendants were identical gowns of yellow embroidered organza over taffeta. Their gowns were designed similarly to the gown worn by the bride. They wore matching tulle nose veils and carried colonial bouquets of daisies tied with yellow satin bows and streamers.

G. C. Allen, of Kilgore, brother of the bridegroom, was best man. Groomsman was John Reeder, of Abilene. Ushers were B. M. Batts, Jr., and S. M. Jonas.

The bride's mother wore a lilac silk shantung dress with a matching straw hat, and other accessories were navy. Her corsage was white carnations. The bridegroom's mother wore a dress of coffee colored salina cloth and lace with white accessories and a white carnation corsage.

A reception was held at the home of the bride's mother on Eighth Street, where decorations of daisies were used.

The bride's table was laid with lace and centered with white flowers in a crystal basket. The white tiered wedding cake was served by Mrs. B. M. Batts, Jr., and Miss Edna Mae Lowry presided at the silver coffee service. Miss Betty Fine, of Amarillo, cousin of the bride, Mrs. Burgwaldt and Mrs. Huggins assisted in serving.

When the couple left on a short wedding trip to points in West Texas, the bride was wearing a tailored dress of white salina cloth with pearl button trim. Her hat of lilac straw was trimmed with purple velvet ribbon and veiling, and other accessories were purple. Her corsage was of gardenias.

After their wedding trip, Mr. and Mrs. Allen will be at home in Ballinger at 1002 1/2 Broadway.

Mrs. Allen was graduated

from Ballinger High School and attended Mary Hardin-Baylor College, Belton. She is employed at the First National Bank here.

Mr. Allen is a graduate of Van High School and North Texas State College, Denton. He is employed here by Jones-Laughlin Supply Co.

Out-of-town wedding guests were: Mr. and Mrs. George C. Allen, and Mr. and Mrs. E. C. Moore, all of Van; Lt. and Mrs. Charles Miller and daughter, of San Antonio; Mrs. Pink Fine and daughter, Betty, of Amarillo; Mrs. E. B. Burgwaldt, of Houston; Mrs. E. M. Huggins, of Pughshear; Mrs. Bruce McCallum and children, of Hobbs, New Mexico; Mrs. Horace B. Sessions, of Fort Worth; Mrs. Lee Parker of Talpa; Miss Jackie Lantham, of Dallas; Miss Joan Croom, of Coleman; and G. C. Allen, of Kilgore.

Mrs. Talbot Will Give Review for Civic-Garden Club

The Ballinger Civic-Garden Club will present Mrs. West Talbot in a book review at the library building Tuesday, July 8, at 4 p. m.

Mrs. Talbot, well known West Texas reviewer, will review the new book, "Shoulder the Sky," by D. E. Stevenson. Tickets are 39 cents each and may be secured from any Garden Club member or at the library on the day of the review.

The affair was in observance of fellowship day, which is an annual affair, planned and promoted by the national council. The local council is striving for a better interdenominational relationship and chose this method for an informal hour together. **SNOWBOUND SUBMARINE . . .** This may remind you of some old painting entitled "Winter Down on Grandfather's Farm," but to the men in the armed forces aboard this icebound submarine in the arctic, it's not exactly like a visit to the country. The United States navy submarine Perch is shown encased in packed ice during a training exercise in the arctic reaches of Alaska. This is part of a program to acclimate the armed forces to various climatic conditions. Land forces are maneuvering under the same handicaps in other parts of the northern wasteland, in courses designed to test both men and machines. It's good training for anyone who doesn't mind cold feet.

**TENSION IN BERLIN . . .** The Anhalter railroad terminal in Berlin became a deserted mass of tracks when East German Communists closed the station simply by ruling that all long-distance trains which used to leave that point for Soviet zone cities are forbidden to either arrive or depart from the station. The only exceptions are interzonal trains from West Berlin to West Germany, and special trains to Allied zones.

**AMERICAN HUK LEADER CAPTURED . . .** William Pomeroy (center), a United States army soldier who remained in the Philippines to become a top ranking leader of the Hukbalahap rebels, came to the end of his spectacular career recently in a northern Luzon village. He was captured by Philippine army soldiers and held as a prisoner of war. Here he is in Rio Chico, Philippine Islands, as he was confronted by defense secretary Ramon Magsaysay (left) in a dramatic open field meeting. At right is Philippine army Lieutenant Colonel Mamerto Bautista. Pomeroy's American home, before he joined the United States army, was in Waterloo, New York.

**OBSERVE ATOMIC RADIATION VICTIMS . . .** Resting at Billings hospital in Chicago while doctors check on their condition, four persons who were exposed to atomic radiation in Argonne laboratory sit in the hospital day room. The victims are, left to right, Roland Bach of Chicago, Peter A. Morris of Hinsdale, Mrs. Louise Kollman of Lemont and Aaron J. Ulrich of Donner's Grove. The nurse attending them is Elaine Vernon. The four say that they feel all right, but the doctors are watching for clues to the extent of overexposure. Laboratory officials have not explained how the exposure occurred or where scientists and doctors are trying to determine radiation effects on humans.

**COMMUNIST BROTHERLY LOVE . . .** Starved and mistreated by his fellow Red inmates, this prisoner of war was found by U.S. troops, tied up in Compound 85 on Koje Island, in critical condition from malnutrition and beatings. He, with others, was rescued from the compound and given hospital treatment. Here he nibbles weakly at a bowl of rice, barely able to eat after having gone without food for many days.

**DIRKSEN FOR TAFT . . .** Senator Robert Alonzo Taft (R., Ohio), right, plus a Taft campaign button on Senator Everett M. Dirksen (R., Ill.) at a Republican rally held in Washington, D.C., recently. Senator Taft was formally presented to the Washington public as an aspirant for the Republican presidential nomination by Senator Dirksen. This was just before the Taft forces emerged victorious from the Arkansas GOP convention. Meanwhile the leaders of the Taft and Ike campaigns, while both were claiming ultimate victory, conceded that the two candidates are running about neck and neck in the number of convention delegates already picked up.

**ARMED GUARDS FOR IS-CARAT SPUDS . . .** Potatoes have been rare items on the American menu in recent weeks, but they had enough of them in Elizabeth City, N. C., to stage the annual Albermarle potato festival. They had them because they took the precaution of storing some 8,000 pounds on the court house lawn under a tent and also under an armed guard of North Carolina National Guard. Sgt. William E. Jones and Cpl. Robert M. Bell (left) explain to two boys why the spuds are getting so much attention. Whether or not the boys understood is another matter.

**RECORD HOLDER . . .** "Pearl, Bonnie, Vivian, etc. . . ." Symbolic of 14 broken marriages are the 14 dolls pictured with James E. Daniels, 39, who appears to be the most divorced man in the United States. Daniels won his 15th divorce without making reference to his prior marriages. Thereby immediately proceeded to procure the 15th doll which symbolically will take its place alongside the others.

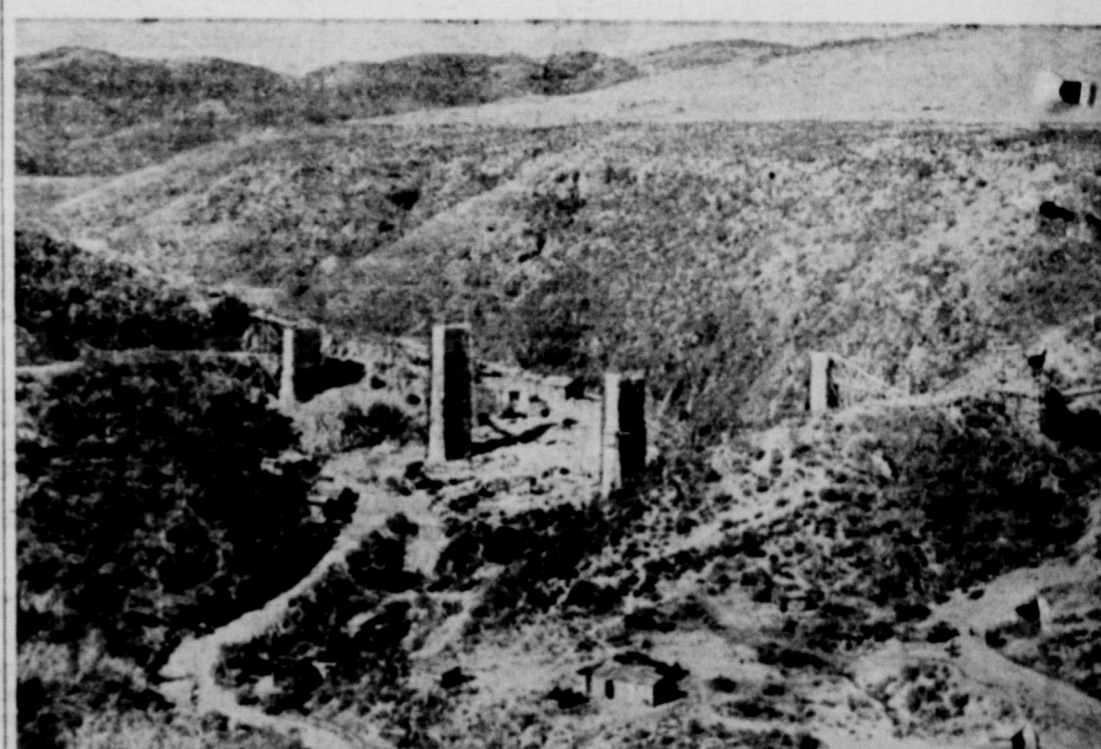

**SITE OF CONVENTIONS . . .** Here is where the next president of the United States is going to be nominated. This mammoth structure, occupying the equivalent of a city-square-block, is the Chicago Convention Building and International Amphitheatre. It is located on the east side of the mile-wide, world-famous Chicago Union stock yards, three miles from Chicago's Loop, or central business district. Fifteen acres of space provide free parking facilities for 4,000 cars. The first nominating convention of 1952 to be held here will be the hotly-contested Republican convention which convenes next week.

**SOVIET RADIO BUILDING SEIZED . . .** British MPs and West German police are shown patrolling in front of the Soviet-controlled radio building at the sealed off main entrance to the building following its seizure by the British recently. The Soviet authorities had been given the right to operate the radio station within the British sector of Berlin by a four-power agreement made in 1945. The British however, considered that the latest East German blockade tactics were enough to void the agreement, and they took action to cut off the station. A week later, after Soviet gestures of reconciliation, the barricade was lifted and radio communications were resumed.

**SENATOR ENGAGED . . .** Senator Alexander Wiley, Republican of Wisconsin, and Mrs. Dorothy May Kydd of Washington, D.C., arrive in Washington where they planned to attend the gridiron dinner at a Washington hotel. The senator, who is 68, and Mrs. Kydd, 41, obtained a marriage license at Alexandria, Va., recently and planned to wed in a private ceremony. Senator Wiley is described by foreign policy experts as the heir to Senator Arthur Vandenberg's bi-partisan philosophy.

**ROAD BUILDING IN CHILE . . .** The greatest concentration of road building machinery in South America's history is pushing north along the Chilean coast in the first leg of a government plan to modernize within its borders the southernmost 2,115 miles of the Pan-American highway system. Here is a general view of the Amalena bridge under construction. This is one of the largest bridges being constructed along the route. It has five base towers for support, and the two center towers are each 150 feet high. The bridge will eliminate the many hair-pin turns which existed on the old road.

## BETTIS & STURGES

### WAS \$6.25

### NOW \$1.37

It's getting to be a rare day when you see a real, genuine bargain advertised. In these days of planned economy everything seems to be included in the plans except economy.

But we have here an honest-to-Pete bargain to tell you about. It's a bargain because it's much more useful than it once was, and costs much less than it used to.

It's the television set.

In 1948 our 10-inch screen set cost \$6.25 per square inch of picture. Today, our 20-inch set costs only about \$1.37 per square inch, and gives you a much finer picture almost four times the size.

So, you see, with all the forces of inflation, a counterforce has been quietly at work. Research and engineering are steadily plugging along—improving products—making them do more, cost less, and last longer.

At least, that's the way it is at General Electric.

Sure, it's smart to look at the price tag. But it's also smart to look beyond... to the performance of the product and the name of the maker. The best possible products at the lowest possible prices—that's G.E.'s idea of good business.

You can put your confidence in—

## Esther Williams Scintillating Light In M-G-M Musical, 'Shirts Ahoy'

There are obviously many good reasons why a girl will join the WAVES and behind every one of them there lurks a man. That, at least, is the impression given by M-G-M's latest extravaganza in color by Technicolor, "Shirts Ahoy!" to be presented at the Texas Theatre Sunday and Monday, July 6, 7. Preview critics assert this is another resounding hit from the studio of the great musicals.

There is very little lacking in this glossy portrait of life in the WAVES barracks, where three recruits—Esther Williams, Joan Evans and Vivian Blaine—are adjusting to the new life in uniform. Their reaction and experiences are merged into a lively package of entertainment, weighted heavily on the humorous side and speeded with some very fine production numbers.

Barry Sullivan, in a lieutenant's uniform, and Keefe Brasselle are rated fine in their parts. Featured players include Billy Eckstine, Debbie Reynolds, Dean Miller, Margalo Gillmore, the DeMarco Sisters, Jeff Donnell, Thurston Hall, Russell and Kathy Tongay, Roy Roberts, Emmett Lynn, Hayden Rorke.

Some of the songs probably will catch on. Among the best are "Hold Me Close to You," "What Good is a Gal? (without a Guy)," "What Makes a Wave," and "The Navy Waltz."

Dale Robertson and Joanne Dru are starred and academy award winner Walter Brennan is top-featured in "Return of the Texan," 20th Century-Fox comedy drama, which is being shown at the Texas today, tomorrow and Saturday.

"Return of the Texan" tells of the homecoming of a capable, robust young man who finds city life unpalatable after the death of his young wife and decides to bring his two small children back to the land on which he was raised. Working again on the soil under the sun, the widower finds his interest in life re-born and is again able to meet the challenges of nature as they confront him and are pointed out to him by his still agile grandfather. Also featured are Tom Tully, Richard Boone, Robert Horton, Helen Westcott, Lonnie Thomas and Dennis Ross.

"Wagons West," starring Rod Cameron, is the other feature on the week-end program.

"The Bushwhackers," booked at the Hillcrest Saturday only, July 5, stars tall and dashing John Ireland, Wayne Morris, Lawrence Tierney, beauteous brunette Dorothy Malone, Lon Chaney and Myrna Dell.

On the same program is "Pvt. Snuffy Smith," starring Bud Duncan and Edgar Kennedy.

Walt Disney's "Snow White and the Seven Dwarfs" is the principal attraction at the Hillcrest Sunday and Monday, July 6, 7.

Those both young and old who have loved the legend of the little "Snow White" will find a sumptuously produced musical and animated version of the famous fairy tale interpreted in glowing Technicolor, festooned with unique Disney touches, and given sparkle, laughter, drama and pathos.

This RKO Radio offering, a sensational success in its first release several years ago, is currently re-released with its original hit songs.

A type of story that has always had a place in motion picture making, and seems to be ever increasing in popularity with moviegoers is the telling of American history.

One of the latest to show history as it happened is "Bugles in the Afternoon," to be presented at the Hillcrest Tuesday and Wednesday, July 8, 9. The William Cagney production, in Technicolor, is a Warner Bros. release. Ray Milland, Helena Carter, Hugh Marlowe and Forrest Tucker are its stars, and featured are Barton MacLane, George Reeves, Gertrude Michael and James Millikan.

## Family Life Picture. Western. Disney Fantasy. Historical Epic on Hillcrest Lineup for Week

"Talk About a Stranger," new M-G-M drama being shown at the Hillcrest Drive-In Theatre today, tomorrow and Saturday, is a picture for all the family—for the father too engrossed in his business to understand his son, for the mother too wrapped up in domestic affairs, for the youngster who has a dog. George Murphy, Nancy Davis, Billy Gray, Lewis Stone and Kurt Kasnar head the cast in the unusual story of a case against an innocent man, built up in a boy's mind when his dog is killed.

The other feature on the twin-bill is "Waco," starring William Elliott.

## Warner Musicomedey At Texas Mid-Week

"About Face," Warner Bros. Technicolor musical comedy of life in a military school, is to be shown at the Texas, Tuesday, Wednesday, July 8, 9.

With a cast headed by Gordon MacRae, Eddie Bracken, Dick Wesson, Virginia Gibson and Phyllis Kirk, the story revolves around one of the cadets who has disobeyed a rule of the academy in marrying secretly. Difficulties present themselves when he learns that he is soon to become a father, and his pals encounter a series of amusing incidents in trying to cover up for him until graduation.

### NEW JERSEY FAMILY VISITING AT NORTON

Mr. and Mrs. Ernest Poehls and children, of Morristown, New Jersey, are here for a visit with the former's parents, Mr. and Mrs. Gus Poehls, of Norton.

He was married in 1944 to a Morristown girl and the couple have two children, Pat P. Poehls, 5, and Kathleen Poehls, 3. The couple has lived in New Jersey since he was discharged from McCloskey Hospital in 1945.
