

THE BALLINGER LEDGER

VOL. 66

BALLINGER, TEXAS, THURSDAY, JULY 24, 1952

NO. 40

Only 20% of Cars Inspected to Date

Runnels county motor vehicle owners are being very laggard in having their cars tested and securing their certificate as required by state law.

The law, passed by the last session of legislature, set a date in January for the final inspections to be made. With only a limited number of garages qualified to make the tests, automobile owners set up a protest which resulted in the deadline being reset for September 7.

A check-up here this week reveals that about 20 per cent of the cars have been taken to the testing stations and certificates issued to this date. Time is getting short, only a little more than a month remaining for the other 80 per cent to be crowded through the certified stations.

A number of Ballinger garages have qualified to make

these tests and have installed the necessary equipment. The test costs only \$1 and car owners will be advised of any corrections necessary before a certificate can be issued. As soon as a car or truck passes the test, the inspector will issue a certificate which will be affixed to the windshield.

Traffic officers will watch for these certificates after September 7 and no car can be driven on public roads after that date which does not have the certificate displayed. A certificate also will be necessary next spring before a car or any motor vehicle can be registered for new number plates.

Local operators of testing stations want to begin the service at once and not have several thousand cars and trucks waiting for inspection at the last minute.

HIROSHIMA-SCARRED GIRLS IN TOKYO. ... Nine girls, scarred by the blast of the atom bomb that fell on Hiroshima, are in Tokyo for treatments to erase disfigurements caused in combat. The Reverend Kiyoshi Tanimoto (man seated at right) is plastic surgery at Tokyo university hospital. He is introducing the girls to Dr. Marvin Green of New York, director of a group dedicated to aid victims of the Hiroshima bomb. The girls were given medical examinations prior to operation. The operation was to remove scar tissue and tumorous growths caused by the August 6, 1945, explosion.

Keel, Malone Make Ownership Change In Local Pharmacy

A deal was announced the past week-end in which Gene Keel purchased the interest of Sam Malone, Jr. in the Malone Drug Store at Ballinger. At the same time it was announced that Mr. Malone will take the interest of Mr. Keel in the Malone & Keel Pharmacy, at Pampa.

Mr. Keel came to Ballinger in 1947, at which time he purchased a half interest in the store here. He has been here ever since and for the past year has been in charge. A graduate of the Texas University school of pharmacy, he has had practical experience for a number of years.

The new owner plans to change the name to the Keel Drug Store in the near future. He announced that he would take back the operation of the fountain service on August 1 from E. B. Jacob, who has it leased.

Mr. Keel stated that the store would continue to be operated on the same high standards of the past and that every effort would be made to meet the needs of the people of this area. No change is contemplated in the personnel of the store.

6 Producers Completed In County During Week

Oil production continued fairly steady in Runnels county the past week, several good wells being brought in and a number of locations being made.

Miami Operating Co. No. 3-C. L. James, in the Lindemann (McMillan sand) field, has been finished for a daily flow of 324.31 barrels of 43 gravity oil. The new well is a southern extension of the field. Pay was topped at 2,468 feet.

S. C. Herring No. 4-A. L. Aldridge has been completed as a southern extension of the Aldridge field. Daily flowing potential was gauged at 256 barrels of 41 gravity oil. Production is from pipe perforations between 3,892 and 3,908 feet.

John Eisner No. 2-Zora Mitchell is a one-location northern extension of the Suisse field. It was completed for a daily flow of 142.32 barrels of 43.7 gravity oil. Top of pay is 4,356 feet.

American Trading & Production Corp. No. 2-Berryman, in the Boys (Goens sand) field, was finished for a daily flow of 298.87 barrels of 44.6 gravity oil. Top of pay is 4,635 feet.

Six feet of gas-cut mud was recovered in a 20-minute drill-stem test of Paine Production Co.'s No. 1-Talley the first of the week. The test was made in a lime above the Goens lime topped at 3,572 feet.

H. A. Horwitz No. 1-Wesley Wood has been located and is projected for 3,500 feet. The location is six miles north of Ballinger and 1 1/2 miles northeast of the Ballinger field.

Geochemical Surveys No. 1Q-J. W. Harris has been staked in the West Crews field and will go to 4,000 feet.

Union Sulphur No. 3C-H. B. Bright has been completed for a daily production of 126 barrels of 41.6 gravity oil. The location is in the Cree-Sykes (upper Gardner) field.

County Agent Finds Crops Very Spotted

County Agent John A. Barton spent considerable time the past week-end and the first of this week inspecting crop conditions in all section of the county.

Mr. Barton stated Monday that crops are very spotted, even in the same fields and yields are still dependent upon moisture. He said that cotton was holding on remarkably well and that the small plant was fruiting nicely in most sections but that moisture was not sufficient to mature the crop.

He told of conditions in which he found some fields still unplanted and others where a fair feed crop has already been harvested. The time of planting and the spotted rains has made various sections of the county very different. Water conservation practices have shown up to the best advantage and fields where water stood are doing much better than others which are more level and not terraced.

Week-end showers in the county were very spotted, a few areas receiving as much as 1 1/2 inches while others had only a sprinkle. Cool nights have helped keep crops looking as good as they do, the agent said.

The county agent said the needed rains would have to come soon in order to help 1952 crops.

Game at Cat Park Tonight Expected To Set Fireworks

Interest is running high in the baseball game here tonight between the Bryan Electric team, of San Angelo, and the Ballinger-Winters club. Both are members of the Concho Basin League and since the recent wins by the local boys, a good deal of talk has been made which will add interest.

Vernon Morris, manager of Bryan Electric, states that Ballinger-Winters in a good club but he does not like the sideline and grandstand mouthing. He further declares that he plans to beat the locals so bad that fans will shut up.

T. J. Mansell stated Wednesday that he would not disclose the starting pitcher but would use all of them or win. He said the Ballinger-Winters team would be at full strength tonight and he hopes to have all local fans on hand to do their part.

Starting pitcher for the visitors will be Dave Meyers. Game time is 8:15 p. m.

Young People to Call at All Homes in Behalf of Center

Young people of Ballinger will make a door-to-door campaign Monday evening from 6 to 8 o'clock in the interest of a youth center. When they call at your door they will present a pledge card on which will be found a number of propositions and at the same time will be glad to answer any questions in regard to the proposed center.

Ballinger Negro Flashes Pistol On City Officers

Roy Nazy, local negro, was arrested Sunday night by city police when they suspected he was driving while intoxicated. When officers stopped him and asked him to get out of his car, he came out with a revolver cocked and loaded.

In county court Monday morning he was fined \$122.80 on a charge of driving while intoxicated and given six months in jail on a charge of assault with a pistol.

Esther Johnson, Winters negro, was arrested Sunday on a charge of stabbing Joe Grisby, Abilene negro, at a tavern in Concho county. She was taken to Paint Rock Monday and fined \$76.65.

Julian Thomas Brown was arrested and charged Monday with driving while intoxicated, second offense. His bond was set at \$1,000.

James R. Meadows entered a plea of guilty to a DWI charge Monday and was fined \$72.80.

Toxie A. Tolar was arrested Sunday night and paid a fine in county court Monday of \$72.80 on a charge of driving while intoxicated. H. D. Grimes was arrested with Tolar and released to San Angelo officers Monday on a charge of hit and run driving in that city.

County's Election Returns Saturday At Ledger Office

Those interested in county election returns are invited to visit the office of The Ledger Saturday night. While no large street board will be erected this year results of the county vote in all races will be posted on the window so they can be read from the sidewalk.

Tabulations will be made up and transmitted from here to the Texas Election Bureau, Dallas. No bulletins will be received from the bureau, as radio will have the state tabulations as fast as they are available.

The large street board is not being used this year because of the few county contests. Only one county commissioner's race provides competition in this county. There is some interest in the representative's race in which two Winters men are opponents and in the congressional race where O. C. Fisher is opposed by Ira Galloway, of Coleman.

Posting of the results from county boxes will be started soon after 7 o'clock Saturday afternoon and the service will be continued until midnight or until the county returns are complete.

Contractor Gets Release of Bond For Swim Pool

The city commission Tuesday morning took care of a large number of routine items.

The B. C. D. Construction Co. was released from its bond as contractor on the municipal swimming pool. This was done with the understanding that it could be renewed any time materials are available to resume the work.

Additional information was prepared Monday and sent to Washington on the city's request to use secondhand steel available in Ballinger. This request has been pending for some time but so far no permit has been obtained to use this material. The Ballinger Salvage Co. has ample used steel in its yard here to do the work on the pool and city officials stated that bathing houses could be built later when copper wire and other necessary materials were available.

R. E. Harris reported to the commission that dead water meters in the city have been replaced and others are being repaired.

Public Relations Program Theme At Club Meeting

Bob Kennedy, public relations director of the West Texas Utilities Co., was guest speaker for the Ballinger Lions Club Friday noon.

Using a large chart, the speaker explained public relations as it affects corporations, firms, churches, clubs and individuals. His general theme was "Let's Make Public Relations Purr," and he told his hearers that public relations could not be bought but had to be earned by individuals.

He then launched into what makes up good public relations and the ways to earn it. A simple thank you was at the head of the list of practices recommended for every person connected with a business, club or church. Giving credit, sharing common plans, watching telephone manners and holding in high regard the people working with, were other means of getting public confidence, the speaker pointed out.

A list of items which create a bad impression also was given.

The speaker was introduced by Jay Garrett, district sales manager of the utilities company.

Covered Garbage Containers Urged By Health Officer

Dr. O. H. Chandler, city health officer, is urging that all Ballinger people use covered garbage cans and that outside toilets be properly treated and kept clean. He stated that every effort must be made to retain the good record on polio here and that the city ordinances on garbage cans must be enforced.

The emergency clean-up recently ordered by the city has met with fair results. Many places have been inspected since the campaign began and much has been accomplished. City trucks will haul trash as fast as they can get the job done and many loads have been placed at the rear of lots to be moved.

Dr. Chandler also stated that regular spraying of garbage cans and other places which attract flies and other insects was an excellent practice. He added that this would do more than the city fogging in keeping down flies and mosquitoes.

City police inspections show that most alleys have been cleaned and are in good condition.

Mr. and Mrs. Pat Foster left Monday morning for their home in Washington, D. C., after several weeks' visit in the home of Mrs. Foster's parents, Mr. and Mrs. W. A. Nance. Mrs. Foster is the former Virginia Nance.

WATER CONSUMPTION HERE REMAINS HIGH

Ballinger water patrons continued to consume around 1,500,000 gallons daily last week, which is a slight decline from the year's peak.

R. E. Harris, water superintendent, stated that the Valley Creek facilities were providing around 1,300,000 gallons daily and the remainder, about 250,000 gallons, came from the Elm Creek reservoir.

All water taken from Elm Creek is put through the settling basins there and given the necessary treatment before it is pumped into the large storage tank at the corner of Fifth Street and Crosson Avenue.

Dr. and Mrs. E. H. Boelsche are on a vacation trip through the central part of the United States, Yellowstone National Park and other points of interest.

First Speed Races Scheduled Here; 7 Events Carded

First automobile races at the speed arena, 1 1/2 miles west of Ballinger on the San Angelo highway, will be held Sunday afternoon at 3 o'clock.

M. L. Jarrett, owner of the arena, has been getting it ready for several weeks and lining up the program for the opening. He has been successful in securing some of the best drivers in this section to come here with their cars.

Barron Butler, of San Angelo, will be on the public address system to keep the crowd informed of all events and results. He has had several years experience in this line and will help to entertain the crowds.

Raymond Taylor, famous flagman, will be on the job with the checkered shirt and a handful of flags.

Seven races will be run in this first program. The final feature contest will be for 25 laps, 6 miles, all entrants to run at full speed.

Racing fans and others are urged to attend.

STATE WORKERS REPAIRING CENTER OF STREETS HERE

The state highway department is retopping parts of Broadway and Hutchings Avenue. Heavy machinery is being used to remove the asphalt in the center of the streets, which had become bumpy. Asphalt is being removed down to the brick pavement and a new coat will be applied and rolled smooth.

The work began on a section of Broadway above Hutchings and is part of regular maintenance by the department.

Election Pledge Said Not Binding Above State Slate

Homer Hudgins, county democratic chairman, stated here Monday that the pledge printed on the primary election ticket was not binding upon the voters except for state, district, county and precinct nominees.

In other words Mr. Hudgins pointed out that a voter could cast his ballot in the Democratic primary and later vote a split ticket in the general election, provided he supported the state nominees.

This question has been asked a large number of times of the county chairman and of local county officials. A ruling was obtained and the Texas election law requiring the pledge will not bind the voter on the presidential candidates in the election in November.

Mr. Hudgins and local election managers were of the belief that an explanation of this would increase the number of votes cast next Saturday.

WINTERS WOMAN MADE FARM BUREAU SECRETARY

Miss Nell Phelps, formerly of Winters, has accepted a position with the Runnels County Farm Bureau as secretary. She is now here in the office at the Runnels County Implement Co. and will be glad to meet and become acquainted with the members there.

Miss Griffee Atkins, of Odessa, was the house guest of Mrs. Bill Williams the past week-end. While here Miss Atkins visited a host of friends. She formerly made home in Ballinger a number of years.

Boys' County Encampment Slated Here August 12, 13

A meeting of 4-H club leaders and boys from each of the clubs in Runnels county was held Friday in the office of the county agent. The meeting was called for the purpose of setting a date and making plans for the annual county encampment.

Those present voted to hold the encampment in the Ballinger city park on August 12 and 13. Club members are to register at the park by 2:30 the first afternoon. Each group will bring a picnic lunch for the first meal and will eat by clubs that evening.

For the one night in camp there will be motion pictures which will include both educational and entertainment films. Efforts will be made to bring at least one extension service speaker here but these arrangements have not been completed.

At noon on August 13 a barbecue dinner will be served and a number of guests will be invited from all towns in the county. During the encampment awards will be made to all boys who have won special prizes in the past year. At the final business session officers will be elected for the county group for the ensuing year.

Other features are being planned and will be announced later by the committee.

In disposing of my business interests in Ballinger, I wish to express my deep appreciation to the friends and loyal customers of past years. Your patronage has been fine and I can never express my thanks for all the favors.

I wish to commend to you Mr. Keel, who will continue the operation of the store. My association with him has proven that there is no finer person and I know that you can place every confidence in him. It is with deep regret that we discontinue our business relations, but the two stores are too far apart for interests in both.

A Year to Cut Costs . . .

Profits on the farm this season will depend more than before on finding ways to cut costs. The problem will be to produce as much—or more—with the minimum of expense.

Careful management of farm finances is as important as the ever watchful care of crops. A good year is measured not only by cash income, but also by added assets—including more money in the bank.

It is in connection with finances that this bank can be helpful. We know local conditions and requirements. Consult us for any banking need.

O'Connor, Talking Mule Give Laughs In Comical 'Francis to West Point'

Third and declared the most hilarious in Universal's series of the talking mule comedies, "Francis Goes to West Point," will be presented at the Texas Theatre Sunday, Monday and Tuesday, July 27, 28, 29.

Once again Donald O'Connor shares starring honors with the famous mule, under direction of Arthur Lubin. Chill Wills, as usual, is the voice of Francis.

Two bright new feminine personalities, Lori Nelson and Alice Kelly, provide romance and beauty to form a setting for the antics of the astonishing mule. Other screen newcomers who have important roles are William Reynolds and Palmer Lee.

The seventh in the popular series of films starring Johnny Sheffield as Bomba, the Jungle Boy, is one of two features at the Texas tomorrow and Saturday. The latest in the jungle stories is "African Treasure," with the fiery Latin beauty Laurette Luez in the romantic lead.

Word from Hollywood is that this new Bomba picture is the best of the series so far, in that it has an extraordinary exciting plot, played against a

The second feature on this program is "The Sniper," a Columbia production.

M-G-M 'Quo Vadis' First as Sound Film And in Technicolor

Although three earlier versions of "Quo Vadis" have been filmed, the first a twenty-minute version made in Paris in 1902, the second made ten years later and the third appearing in 1925, the spectacular Metro-Goldwyn-Mayer production, starring Robert Taylor and Deborah Kerr, to be shown at the Hillcrest Drive-In Theatre four days, beginning August 4, marks the first time "Quo Vadis" has been made by a Hollywood company and is its first presentation as a talking film and as a motion picture filmed in color by Technicolor.

Ever since "Quo Vadis" first rolled off the presses as a novel in 1895, it has been making history. Its author, Henryk Sienkiewicz, generally is regarded as Poland's literary genius, but nothing he ever wrote, including the immensely popular "Madame Waleska"

Outdoor Thriller. Judy Canova and Clifton Webb Comedies Current Week's Offerings at Hillcrest

"Flaming Feather," a Paramount adventure drama based on a historical incident of the 1850s, is the main attraction at the Hillcrest Drive-In Theatre today, tomorrow and Saturday. Starring Sterling Hayden, Forrest Tucker and Arleen Whelan with Barbara Rush and Victor Jory, the Technicolor action film blends the story of an Indian uprising that was led by a renegade white man, with the fictional drama of a rugged ranchman and a tough cavalry officer trying to track down the elusive masked outlaw.

When a frontier town needs a cleaning out of undesirable elements there's no one that can take care of that little chore better than two-gun, quick-on-the-draw Judy Canova. This is the basic story of Republic's newest Technicolor production, "Oklahoma Annie," to be shown at the Hillcrest Sunday and Monday, July 27, 28.

The outstanding list of principals includes John Russell, Grant Withers, Roy Barcraft, Emmett Lynn. Others prominent in the cast are Houseley Stevenson, Almira Sessions, Minerva Urecal, House Peters, Jr., Allen Jenkins, Emory Parnell, Maxine Gates and Denver Pyle.

Ballinger Youth Center

Do the young people of Ballinger deserve a youth center?

This is the question that will be asked Monday evening, July 28, in a house-to-house campaign conducted by the youth of Ballinger. Someone will come to your door between 6 and 8 p. m.

The purpose of this campaign will be to determine the support from the community in this effort to obtain a place for the young people to gather for recreation, education and guidance.

An opportunity to respond to this urgent need of the young people will be given you in the form of pledge cards. These cards will reveal the amount of help we shall have from you. Will you HELP?

In a poll taken in the high school in the spring of 1950, it was revealed that 98% of the students were strongly in favor of a youth center.

We are hoping for your support. Please do not fail us.

STATE TAX RATE SET SAME AS LAST YEAR'S

Dalton Crockett, county tax assessor-collector, was informed yesterday that the state tax rate had been set at 42 cents on the \$100 valuation. This is the same rate as last year's.

The division of the levy is 35 cents for state schools, 2 cents for Confederate pensions and 5 cents for college buildings.

IDENTIFYING SOLDIERS' BODIES . . . Renewed heavy fighting on Korea's western front brought many casualties to Chinese Communists who tried vainly to retake T-Bone hill, west of Choron. The fighting took a heavy toll among Americans too, who died repulsing Red onslaughts. Here, an American soldier is attaching identification tags to the bodies of American dead on the battlefield. These men died facing the enemy with whom our officers are discussing armistice terms.

HOUSEWIVES LOSE SUIT AGAINST U.S. . . . These housewives, seven of the famous 12 from Marshall, Texas, lost their suit testing the constitutionality of the government's law forcing them to collect withholding taxes from servants in federal court in Dallas recently. Seated (l. to r.) are Mrs. Carolyn Abney (who filed the suit), Mrs. L. P. Martin, Mrs. Charles Spangler, Mrs. Celeste Clemons, Mrs. Fred Peiz. Standing are Mrs. Edward Lathrop and Mrs. W. K. Furrh.

JACK DAVIS, OLYMPIAN . . . University of Southern California's Jack Davis, who is a rare combination of a sprinter and hurdler, exhibits his starting form, off the blocks. Here he was getting in trim for the hurdles in the AAU meet at Long Beach. But he was ready for the sprints in the U.S. Olympic trials. When Jack isn't training, he and his girl friend relax at her piano and enjoy their Beethoven and Bach. He earns his board by driving a lean towne a street roller.

OLDFEN HOME DEMONSTRATION CLUB

The July meeting of the Oldfen home demonstration club was held in the community hall Tuesday. The meeting was opened with a prayer for the boys in service.

Mrs. B. J. Halfmann gave the report on the last council meeting. Mrs. J. J. Fuchs and Miss Mary Rita Hoelscher were appointed to serve on the finance committee.

A demonstration on aluminum tray making will be given at the meeting on August 12. This meeting will be held in the home of Mrs. B. J. Halfmann, beginning at 2:30 p. m. Members who plan to make trays are asked to have their designs put on cardboard so they will be ready to start work immediately.

Rally day will be held at Bruce Field on August 20 and 21. Members may bring their families for supper on the evening of August 20. Each family will bring sandwiches. Following the meal skits and stunts will be presented.

Miss Ollie Chenoweth, county home demonstration agent, gave a demonstration on drives and walks, using slides to illustrate finished projects.

Refreshments were served by Mrs. Theo Halfmann and Mrs. Wilburn Pelzel.

BETHEL HOME DEMONSTRATION CLUB

Mrs. J. W. Wilbanks, of Christoval, reviewed the book, "Home Place," by Fred Gibson, at the regular meeting of the Bethel home demonstration club, which was held in the country home of Mrs. Eugene Loika last Thursday afternoon.

At the business period, plans were made for club members to present a skit at the Rally Day program to be held at

An honest, fearless lawyer, former district judge and assistant attorney general of Texas; an ex-serviceman and school teacher; a home owner, church and civic worker; and a family man, Yarborough can and will make TEXAS a Governor of whom all can be proud. He is mature, sincere, diligent and able.

The American Legion hall at Bruce Field on August 20 and 21. A family night social will be held at the city park on August 14. All club members will include their husbands and families and furnish a watermelon. Mrs. Grady Richards and Mrs. Marion Hays were named delegates to attend the training school for making purses to be held in the office of Miss Ollie Chenoweth on July 30. The council report was given by Mrs. Mead McShan. Preceding the business, roll call was answered by giving a proverb.

Miss Ellen Shelburne, member of the Bethel 4-H club, who won a trip to the state 4-H Round-up at College Station, reported on the meeting.

The hostess served frosted cocoa and cookies to 16 members, and to Mrs. R. L. Tipton, Mrs. J. W. Wilbank, Misses Dorothy McShan and Shelburne.

The X-ray was so named because its discoverer was uncertain of the nature of the rays, and used "X" as a symbol.

BOOMERANG . . . A backfire on French artist Picasso's Russian-loving dove of peace came about when the peace-and-liberty movement in Paris printed this burlesque of the bird for Paris billboards. Now Parisian passersby read the translation, "The dove that goes boom!" It's all a part of a counter-measure by Frenchmen friendly to America to offset the violent anti-American billboard campaign of the French Communists who are inspired by the Russians to stir up all the anti-American unrest they can.

Ballinger Youth Center

Do the young people of Ballinger deserve a youth center?

This is the question that will be asked Monday evening, July 28, in a house-to-house campaign conducted by the youth of Ballinger. Someone will come to your door between 6 and 8 p. m.

The purpose of this campaign will be to determine the support from the community in this effort to obtain a place for the young people to gather for recreation, education and guidance.

An opportunity to respond to this urgent need of the young people will be given you in the form of pledge cards. These cards will reveal the amount of help we shall have from you. Will you HELP?

In a poll taken in the high school in the spring of 1950, it was revealed that 98% of the students were strongly in favor of a youth center.

We are hoping for your support. Please do not fail us.

IDENTIFYING SOLDIERS' BODIES... Renewed heavy fighting on Korea's western front brought many casualties to Chinese Communists who tried vainly to retake T-Bone hill, west of Chorwon. The fighting took a heavy toll among Americans too, who died repulsing Red onslaughts. Here, an American soldier is attaching identification tags to the bodies of American dead on the battlefield. These men died facing enemy with whom our officers are discussing armistice terms.

HOUSEWIVES LOSE SUIT AGAINST U.S.... These housewives, seven of the famous 12 from Marshall, Texas, lost their suit testing the constitutionality of the government's law forcing them to collect withholding taxes from servants in federal court in Dallas recently. Seated (l. to r.) are Mrs. Carolyn Abney (who filed the suit), Mrs. L. P. Martin, Mrs. Charles Spangler, Mrs. Celeste Clemons, Mrs. Fred Pelz. Standing are Mrs. Edward Lathrop and Mrs. W. K. Furrh.

JACK DAVIS, OLYMPIAN... University of Southern California's Jack Davis, who is a rare combination of a sprinter and hurdler, exhibits his starting form, off the blocks. Here he was getting in trim for the hurdlers in the AAU meet at Long Beach. But he was ready for the sprinters in the U.S. Olympic trials. When Jack isn't training, he and his girl friend relax at her piano and enjoy their Beethoven and Bach. He earns his board by driving a lee towing a street roller.

OLFFEN HOME DEMONSTRATION CLUB

The July meeting of the Olffen home demonstration club was held in the community hall Tuesday. The meeting was opened with a prayer for the boys in service.

Mrs. B. J. Halfmann gave the report on the last council meeting. Mrs. J. J. Fuchs and Miss Mary Rita Hoelscher were appointed to serve on the finance committee.

A demonstration on aluminum tray making will be given at the meeting on August 12. This meeting will be held in the home of Mrs. B. J. Halfmann, beginning at 2:30 p. m. Members who plan to make trays are asked to have their designs put on cardboard so they will be ready to start work immediately.

Rally day will be held at Bruce Field on August 20 and 21. A family night social will be held at the city park on August 14. All club members will include their husbands and families and furnish a watermelon. Mrs. Grady Richards and Mrs. Marion Hays were named delegates to attend the training school for making purses to be held in the office of Miss Ollie Chenoweth on July 30. The council report was given by Mrs. Mead McShan. Preceding the business, roll call was answered by giving a proverb.

Miss Ellen Shelburne, member of the Bethel 4-H club, who won a trip to the state 4-H Round-up at College Station, reported on the meeting.

The hostess served frosted coca colas and cookies to 16 members, and to Mrs. R. L. Tiptet, Mrs. J. W. Wilbank, Misses Dorothy McShan and Shelburne.

BOOMERANG... A backfire on French artist Picasso's Russian-loving dove of peace came about when the peace-and-liberty movement in Paris printed this burlesque of the bird for Paris billboards. Now Parisian passersby read the translation, "The dove that goes boom!" It's all a part of a counter-measure by Frenchmen friendly to America to offset the violent anti-American billboard campaign of the French Communists who are inspired by the Russians to stir up all the anti-American unrest they can.

**WEST TEXAS
NOTES**

Runnels countians cast a total of 35 absentee ballots last week, showing considerable interest in the first Democratic primary. A number of other ballots sent out by mail have not been returned. All voting boxes in the county will be open next Saturday at 8:00 a. m. and will remain open until 7:00 p. m. Voters may visit their polling places any time during the day and cast ballots for state, district, county and precinct candidates. Election manager and assistants will begin counting early in the day and are expected to be ready soon after the polls close to give the results of their boxes. These will be tabulated at The Ledger office and sent to the Texas Election Bureau, Dallas. During the past two weeks interest in the election has increased due to several hotly contested state races.

When schools open in September the Ballinger property will be in the best of condition. During the summer a number of improvements have been made, including a thorough renovation of buildings, some painting and repairing and some new construction. The major work has been in improving schools and playgrounds. Grass was sodded on campuses as soon as the last term ended and caretakers have irrigated and kept the grass growing. As a result most of the campus space will be well covered by September. School officials are contracting faculty members and expect to be all ready on the first day of the next term.

City officials are constantly getting requests for loading zones. There are a number of Ballinger firms that receive and distribute much merchandise and with narrow alleys which must be kept open to meet requirements in the fire zone and with parking meters in front the problem is serious in some instances. If all firms that have considerable loading were granted front street non-parking zones, there would be nowhere to draw the line. Several merchants operate supply trucks and must take some

The Melvin Future Farmers of America chapter sent two members to the state convention at Dallas last week. The chapter advisor, T. Wood, accompanied Teddy Von Ward and Jerry Mac Betsill and on Thursday night the two boys received the Lone Star farmer's degree at the gold key banquet. Melvin home demonstration club women are planning to attend the encampment to be held at Buchanan Lake on August 4, 5 and 6. All club members of McCulloch county are invited to attend this gathering.

Miles firemen are getting ready to entertain the Hill Country Firemen's Association on August 12. Merchants, service clubs and other groups have been asked to participate in the opening parade the morning of the convention. Several organizations will enter floats and a number of visiting delegations also will have parade entries. Other features of the program have been arranged.

Hugh Wolfe, owner and operator of the Wolfe nursery, Stephenville, last week purchased Holland's Magazine. The deal was announced at Dallas and Stephenville at the same time. Lee Haimine, general manager and president of the magazine company, stated the

national farm and ranch paper has a circulation of 550,000 and covers 15 southern states. He declared it a half-million dollar business but did not disclose the purchase price. Mr. Wolfe was in Detroit and no statement could be obtained from him.

Fort McKavitt, west of Menard, has passed its 100th anniversary. It was established on March 14, 1852, by the war department to protect settlers against hostile Indians. Most of the buildings are still standing and practically all are being used today. The hotel in the center of the grounds is in excellent condition, the hospital is now a residence and most of the stone barracks which housed the soldiers are occupied as dwellings. A monument has been erected by the war department honoring those of the fort who gave their lives.

Officials of the Brady Aviation Corp. have entered negotiations with the city of Brady to purchase property at Curtis Field which is being used at this time under a lease agreement. Plans have been completed to make the Brady plant a permanent industry and citizens are cooperating in the deal. The industry provides a good payroll and a number of people are furnished employment.

More than 1,000 citizens of Coleman county attended the formal dedication program for the new court house Wednesday of last week. The program was held just before the opening parade of the Coleman rodeo. Three ex-county judges attended the dedication and made short talks. The modern court house was built at a cost of \$275,000 and has ample office space to take care of all county, district and federal officers. The county spent \$85,000 of the permanent improvement fund and issued time warrants for \$190,000.

The Comanche county rural telephone cooperative has just been awarded \$1,022,000 for building a rural telephone exchange. The money will provide lines for all of Comanche county and the eastern part of Brown county, supplying a total of 700 members. An additional 300 members is asked by the federal authorities before the formal grant is made.

Directors and officers of the co-op believe this number can be secured within a short time. Menard experienced an acute housing problem last week when 75 families, about 300 people, moved in for about three months. Shell Pipeline Co. is extending lines in that section and the crew sent to Menard is doing the work. The Menard Chamber of Commerce has located many of the families and is calling on citizens to help take care of the newcomers. Most of the single men have been provided rooms but apartments and furnished houses are required.

Robert Lee city officials have offered Bronte citizens water at the rate of 5 cents a barrel. A loading rack has been built at Robert Lee and those who haul the water are asked to get it there rather than take the untreated water from the lake. Mayor H. O. Whitt said a number of Bronte citizens had been hauling water for some time and the convenience of getting treated water at Robert

Lee was a friendly gesture. The Winters Chamber of Commerce is continuing its efforts to secure free city mail delivery. A card sign-up is underway in which property owners agree to build sidewalks from streets to front doors, to put numbers on their residences as assigned by the chamber of commerce, to set up mail boxes and to meet other requirements. Supt. Sam Jones, of the Rising Star school system, disclosed last week the resignation of the Odessa faculty. Thomas is retiring from coaching and will be a classroom teacher at Odessa. The Brownwood city council has set the 1952 tax rate at \$1 on the \$100 valuation, the same as for the past year. The divi-

TOPS IN PAY LOAD!

If you use gasoline-powered tractors in the 45,000 GCW class, here's big news. This new GMC Series 470 will haul more pay load than any other vehicle of its rating with comparable standard equipment—up to more than a half-ton than some!

That's because GMC has found new ways to take dead weight out of truck design by advanced engineering. One example is GMC's sensational new "302" valve-in-head engine that delivers 145 h.p. at 3200 r.p.m. It weighs less than other engines of equal power by as much as 500 lbs. Yet it's the highest-compression gasoline truck engine ever built—gives you extra mileage from regular fuel!

Come in. Compare them—in power, in pay load, in rugged long-life construction—against all the rest!

Then check the price and you'll agree: nowhere else will so little buy so much in a 3- to 4 1/2-ton truck.

Would You Like A \$3,000 Income Tax Exemption?

Your present Congressman gave himself such an exemption in the session of Congress just ended. Your income tax rate has been raised to an all-time high but in the closing days of the session, Congress voted to give its members a \$3,000 income tax exemption, supposedly to cover the cost of living in Washington. How would you like to have a \$3,000 cost-of-living exemption? We do not believe the voters of the 21st District will approve of such legislation to favor a few and tax the many.

For A Second Term ALLAN SHIVERS FOR GOVERNOR

The Truth About Old Age Assistance

Governor Allan Shivers wrote and helped pass the first Old-Age Assistance Law in Texas.

He stands for equitable distribution of funds for the needy.

Two years ago he was one of the leaders who tried to get more money for the aged, a cause that failed because the voters disapproved a constitutional amendment.

Governor Shivers has, in the past and will in the future, advocate making available to our deserving aged citizens not merely enough for a meager existence, but sufficient funds to carry them through the evening years of life as proud, dignified citizens.

An increase of \$5 in each pension check is due next October.

The Truth About County Road Funds

Farm-to-market road building has been the greatest in history during the Shivers administration.

During Governor Shivers' administration, Runnels county has received \$738,540 rural road benefits from state highway user taxes as follows:

License fees \$285,887, road bond surplus \$93,568, bonds paid \$87,584, construction of farm-to-market roads \$42,000, authorized but not under construction \$259,600.

In this county, 5 miles of farm-to-market roads have been built, and an additional 26 miles have been authorized for construction, for a total of 31 miles.

Governor Shivers' administration has consistently supported the Runnels county road building program and will continue to do so in the future.

Our children's future is uncertain. Because our country's future is uncertain. Perhaps we have let them down. Can it be that self-government interests us no more . . . that the priceless gift of personal freedom can find no takers? Can it be that we know not—and care not—who represents us at the meeting place? Have we traded personal opportunity and integrity for security . . . for a handout at the back door? And robbed our children in the process? To be strong as a nation, morally and spiritually, is a primary duty we owe our children. Before it is too late . . . before the chance is gone forever . . . America must be made strong again. With informed, skillful, courageous leadership. Next election, no matter what kind, let's get up and put on our hats and go to the polling place and vote! Know the issues and the candidates. Vote to fill every office with an able man. Let's go back to the old-fashioned habit of taking a part in our democratic government. Our youngsters need votes . . . to stay free!

NOW you can get BUICK POWER STEERING! on the SUPER too!

It saves your strength - and it might save your life

CAN you imagine parking a car as easily as you steer it on a straightaway? You twirl the steering wheel with one hand—turn the front wheels until you get the last inch of advantage from Buick's short "turning radius"—spot the car in a tight spot at the curb—or swing out when the car parked in front of you seems impossibly close. For this alone a lot of people—women especially—are saying that Buick's Power Steering is the biggest advance since Dynaflo Drive.* But you're going to find out something more as you pile up the miles. You're going to feel the same confident and thrilling sense of command you have always

felt in a Buick, because Power Steering only goes into action when extra effort is needed to turn the wheels. You're going to find that your front wheels track just as they always have—that they automatically swing back on course, after you've made a turn, when you ease your grip on the steering wheel. You're also going to find that Power Steering takes over when your front wheels hit loose dirt or sand—road irregularities and chuckholes—and smooths down their jerk or tug on the wheel in your hands. All this adds to the ease and pleasure of driving. But it adds to the safety, too, because, in the rare event of a blowout, Power Steering helps you keep control. There's no sudden and

violent jerk ever when this helping hand's on the job.

Add to this the level-gaited serenity of Buick's Million Dollar Ride—the "rarin' to go" exuberance of its Fireball 8 Engine—the spread-out room, the luxurious fabrics—the way this great performer can turn up its nose at gas stations—and there's only one smart thing for you to do:

Drop in—or pick up your phone—and arrange to give this marvel a tryout. Even the price says, Better buy Buick now.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.
