the FORD V-8

Just look at these official registration figures for the first 11 months-January

through November, 1955

People just naturally go for 8 cylinders in the FORD package! And to a world record extent!

Just think, in the first 11 months of 1955 alone, 344,496 more people bought Ford V-8's than bought the two other low-priced competitive eights combined! They even bought 396,589 more Ford V-8's than the next competitive Six!

Here's why!

Of course, the reason the Ford V-8 is the

largest selling eight-cylinder car in the world is that more people like its brand of performance the kind that comes with the car!

These people aren't amateurs in judging engines. Nearly 24 years of building Ford V-8's to supply their demand is convincing proof of that.

And the Ford V-8 of today is the best yet ... by a country mile!

Smoother and quieter-you can scarcely

WHY THE CHRYSLER WINDSOR V-8

Everything about driving a Chrysler is new! You touch a button on the left (and safe!) side . . . and Pushbutton PowerFlite, the smoothest of all transmissions, goes into action.

From four lengths behind to four lengths ahead of a moving truck going 40 m.p.h. in 8 seconds flat. That's the kind of reserve power you get in Chrysler's great airplane-type V-8 engine.

Full-time PowerPilot Steering does 80% of the work . . . gives you a catfooted feel of the road every inch of the way . . . requires less pull . . . only 31/2 turns from full left to full right.

IS THE YEAR-AHEAD CAR

And talk about style! Here's the "PowerStyle" look that is showing its sassy tail to contemporary car designs. Isn't it time you compared a Chrysler with the other cars in its price class?

Best of all, you can own a bigger, more powerful Chrysler Windsor for the cost of a medium-priced car. Here is year-ahead value that means better re-sale value for years to come.

Card of Thanks

Through our sorrow we have learned more fully the true meaning of friends and to each of you who helped in any way during the illness and at the death of our loved one, Ira Brannon, we wish to express our sincerest appreciation.

To Dr. McCreight, the nurses at the hospital and the men who helped care for him at night, to Mr. Afflerbach for his sympathetic understanding and to all who expressed words of sympathy and condolence, we are deeply grateful and wish each of you to take this as a personal message of our thanks. The beautiful floral offering and the food that was brought and served helped so much at a time when we needed your friendship most. May we be as comforting to you in your time of sorrow as you have been to

Nothing without wings climbs like a '56 Chevrolet!

The new '56 Chevrolet handles hills like they aren't even there! Aim it up a steep grade . . . and you'll see why it's the Pikes Peak record breaker!

Ever level off a mountain with your foot? Nothing to it. Just point this new '56 Chevy uphill and ease down on the gas.

In the merest fraction of a second you sense that big bore V8 lengthening out its stride. And up you go with a quiet rush of power (hydraulic-hushed valvalifters now in all engines-V8 or 6) tha makes a mountain seem as flat as a road map!

For nothing without wings climbs like a '56 Chevrolet! This is the car, you know, that broke the Pikes Peak record. The car that conquered towering grades and vicious switchback turns to prove its superior performance, handling ease and cornering ability.

These are built-in qualities that mean more driving pleasure and safety for you. You can also have such safety features as seat belts, with or without shoulder harness, and instrument panel padding at extra cost.

You've a choice of 19 frisky new Chevrolets all with Fisher Body and with horsepower ranging up to 205. Drop in. when you have a chance, and drive the new record breaker!

An Ancient Profession

PHARMACY is one of the oldest of all the learned professions. It had its beginning more than four thousand years ago and has been practiced in one form or another ever since. The modern drug store bears little resemblance to the apothecary shop of old, but today's pharmacist is inspired by the same honorable principles that governed the conduct of his forebears. The pharmacist's chief interests, now as then, are the relief of suffering and the prolongation of life. Prescriptions come first in our store. Your doctor may not like to recommend any particular

THE light is red and you're ready. It flashes green and you go-but quick.

And that's when you discover the Number One news about Buick's new Dynaflow . . .

That it gives you brilliant new getaway response for city traffic at only part throttle -even before you switch the pitch of this airplane-principled transmission. (And think the big gas savings that means!)

Next comes the Number Two discovery—out on the road.

For here-still without switching the pitchyou have plenty more nimble acceleration to surge or spurt ahead, to climb hills, to do with almost effortless ease all the things normally called for by highway driving.

But comes an emergency-the need to get out of a tight spot-and you discover the Number Three news . . .

That you can do what a pilot does. That you can switch the pitch of your Dynaflow blades -just by flooring the pedal. And that you get, instantly, a full-power take-off from cruising pace-an electrifying burst of accelerationthe most thrilling safety measure on four wheels today.

This is performance too good to pass up and you really ought to try it.

It's performance sparked by the whis-

pered might of big new 322-cubic-inch V8 engines raised to record highs in power and compression.

It's performance that goes with the best ride yet, the best handling yet, the best interiors yet, the best styling yet-and, literally, with the best Buick vet.

Come in and see-and be shown-and learn, in the doing, about prices that make these '56 Buicks the best buy yet.
