NUNLEY IS SEEKING LEGISLATIVE PLACE

Parker Nunley, of Coleman, has announced as a candidate for State Representative of the 77th District. He was in Ballinger recently and made arrangements for his announcement and to get his name on the ballot for the first primary election.

Nunley is 24 years of age and was born and raised in Coleman County. He is not married, is a veteran and has served in Hawaii, New York, Mississippi and Texas with the air force. Before entering the service, he studied chemistry at Tarleton State College at Stephenville.

and since that time has been a student at the University of Texas. He is a nephew of Mr. and Mrs. M. J. Bradley of Ballinger.

In discussion of the job he seeks and the campaign for the next two months, Mr. Nunley says:

"I am conservative in my political views in that I like things pretty much as they are. There are certain issues, however, that will surely come before the Legislature during this next session, especially the tax question and the much delayed school bill, which will influence our lives and the lives of our children in years to come. In view of this, it is necessary that we all take a much closer look at state politics than usual. With this in mind, I pledge to carry on as extensive a campaign as possible to help build interest in the issues involved. I plan to spend all my time between now and the July primary in campaigning, and hope to meet and talk to every voter in the district before the election.

"If elected, I will devote myself to the office completely and resume my studies after the legislative session is over. I want to stress that I have no special interests to plead—no personal battles to fight. I just want to get in there and do a job, and do it well."

Ballinger Firm Gets FR Contract

A contract to top over eight miles of farm-to-market road was let this week to F. A. Seidel and Sons of Ballinger for a total cost of \$106,959.72.

The Masked Stranger and YOU

If you saw a man in a domino mask prowling about your neighborhood, you'd call the police. That's why most burglars wear a disguise more difficult to penetrate: The mask of anonymity. A burglar looks about the same as an honest citizen — but many an honest citizen's fortunes have never been the same after a burglar's visit! Play it safe. Subscriptions for the year In the County \$1.50 Out of County \$2.00 (Subscriptions payable in advance)

Charles Hambrick, president of the Ballinger Chamber of Commerce has submitted a program of work for that organization which should be adopted and receive the full support of every director and member. Here are the proposals and some comments which we make on each of the 10 items.

1. Constant planning for an adequate water supply. This is important as no town can grow beyond its water supply. Ballinger's Valley Creek supply is known to be decreasing each year because the reservoir is silting. Water planning should also provide for an adequate pumping and distributing system. For the past two years, curbing of water use has been necessary because the local facilities could not provide enough water to meet the load.

2. An appropriate meeting place for family reunions and other large gatherings. Each year Ballinger has many out of town guests who come here to gather with their families. Our park facilities are attractive for such meetings but the groups need housing where they will be out of the weather, have air conditioning, sleeping quarters and kitchen and dining room. Adequate facilities near the park would bring many more people to Ballinger and thousands of dollars would be spent annually.

3. Location of wholesale vegetable market at some convenient place adjacent to Highway 83. There is no closer market than San Antonio and one here would bring many trucks to Ballinger to buy supplies for stores in this area.

4. Strive to keep industry here and attract others, regardless of how small. All agree that Ballinger needs pay rolls and every industry will help the local economy.

5. A clean-up campaign with a stinger. Ballinger is normally a clean and beautiful town. Each

year a clean-up campaign is sponsored and most of the people cooperate. There needs to be a stinger to make everyone keep their place in order and so far this has not been the case. About 90% cooperate and 10% do nothing and the small minority kills the effectiveness of the campaign.

6. Work on Highways 83 and 67. Associations by appointing competent men on these committees. These two national highways will bring more and more tourists through Ballinger and we should be interested in their promotion plans.

7. Promote agriculture, sponsor livestock shows and wool classes. No comment is necessary on this important plank of the work program for we all depend upon the soil and its products.

8. An educational program for service station, cafe and drug store attendants to encourage courtesy and efficient attention to tourists to Ballinger. Service station operators are often called the towns goodwill ambassadors because practically every tourist wanting information stops at the filling station and asks an attendant. The manner in which they receive an answer is either good or bad for a town.

9. To work with city commission at all times on worthwhile projects. Have a courtesy parking ticket for our out-of-county car.

10. Wholesale and retail sales promotion by sponsoring free events. Every event that is sponsored to promote shopping in Ballinger should have the support of all the people.

HAPPY, HAPPY ME—Things are looking glorious for this chick at New York's Bronx Zoo. He seems to be polishing up an ingratiating approach to impress the female of the species in the spring mating period.

Brady and O'Henry tied up at 306 at the end of 18 holes of play. The tournament was limited to players 15 years of age or less. Ten teams were entered in the meet.

By a unanimous vote and enthusiastic support the Stephenville City Council last week sold the golf course to Hugh Wolfe who has agreed to finance and build an elaborate recreation center. Architect drawings

are being made for the new club house and swimming pool that will be constructed as soon as possible. Existing buildings will be remodeled to blend with the new modern ranch design of shake-shingles, wrought iron columns and ledgerock. The club will be chartered as a non-profit organization and the golf course will continue under its present municipal status.

Wayne Roberts has leased the Winters Municipal Swimming Pool and opened it for business last Friday. The pool has been operated as a municipal facility in previous years, with Mr. Roberts as manager. Roberts will assume all the expense of the pool with the exception of the water. The pool will be opened each day from 1:00 p. m. to 9:00 p. m. with the exceptions of Sundays and Wednesdays.

Commencement exercises will be held Friday night, May 23, in the high school auditorium. Dr. R. M. Cavness of San Angelo will address the seniors.

The Odd Fellows and Rebekah Lodge at Miles have purchased the building next door to the Miles Messenger from Mr. L. B. Elam. They state that they expect to repair the building and in about 60 days will be meeting in the new building.

Joe W. Harper, superintendent of the Comanche Schools for the past two and a half years, has resigned to accept the superintendency of the schools at Olton. His resignation will become effective July 1 and he and Mrs. Harper will move to Olton soon after that date. Mrs. Harper, who has been a sixth grade teacher in the Comanche school, will be a member of the Olton faculty. The Harpers came to Comanche from Cranfills Gap and have been active in civic work as well as various teachers organizations.

Park and north of the entrance to the rodeo grounds. Jaycees will build and equip the park to provide for overflow participation of the Little League baseball program. There are some 300 boys between 7 and 14 years of age seeking play in the Little League this year.

Senior students of the St. Joseph School at Rowena made a trip to Dallas last week-end. They left Rowena Saturday morning and saw the Cinerama in the afternoon. They spent the night at the Mayfair Hotel, attended Mass at Sacred Heart Cathedral Sunday morning and visited their first grade teacher, Sister Mary Olga, at St. Thomas Aquinas Parish in the afternoon.

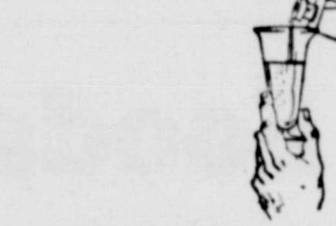

The Eden Chamber of Commerce has set Memorial Day, May 30, as clean-up day at the cemetery. The proposal was presented the City Council Tuesday of last week and the clean-up day was officially set.

A clean-up drive was held last fall with more than 400 volunteer workers donating their time and talents to the beautification of the grounds. Everyone is urged to make plans to be on hand and to take part in this community effort.

Simpson Addresses Rotary Club on Oil

Elmer Simpson, chairman of the 7C office of the Railroad Commission in San Angelo, said in Ballinger Tuesday he believes Washington has been wise in going slow in taxing imported oil.

In talking to the Ballinger Rotary Club, Simpson, brother of Ledger publisher Troy Simpson, said if these countries in the Far East do not have an outlet for their crude oil, it will mean World War III.

"They kinda lean to communism, anyway," he said, "and we have been courting them for their friendship."

He listed another question about import taxes on oil, stating some majors own Far East oil lands, wells, refineries, tanker ships, pipelines and distributing agencies for foreign oils. "And the question comes up: Can we legally curtail these companies handling their own product?"

He brought to light the fact that Texas, producer of 29 per cent of the nation's crude will be \$100 million in debt at the end of the fiscal year due to the loss of revenue in allowable reductions.

"If we still had a 16 or 17-day allowable, the excess tax and others would take care of our debt fine this year," he said. As it is, the allowable may drop from the present 8-day allowable to as low as six or seven days.

Some operators are getting around it a little, he explains, by the marginal test method. The allowable is based on the

RR Commission's test reports. If a well has a 60-barrel-per-day allowable for an eight-day month, the operator may get to pump 26 barrels a day for 30 or 31 days, giving him a larger gross.

To make up for this loss in taxes, he said the state would add another 2-cent tax on gasoline in the near future. "It is easy to collect," he said, "and all of it is gratis; there is no expense to it."

SALT WATER POLLUTION

Mr. Simpson said the salt water pollution situation should have improved some. No more salt water is being pumped back into the ground, except in one well. This type well, where the operator is insolvent or out of business, the state gives the county judge, mayor, or another officer authority to have the well cemented.

Homer Price, Ballinger oil operator, introduced Mr. Simp-

In connection with the convention, he announced the Ladies Night program Monday night, May 26, in which Art Simpson, Vancouver, B. C., an international director, will give the principal address.

Among the guests introduced were Jimmy Nicholas and Carol Edwards, Ballinger High School seniors, who won two of the four honors given by the forces on Armed Forces Day, May 17. The two boys were selected from a 20-county area to represent the Marines and Navy, respectively, in San Angelo.

Mrs. R. D. Martin of Corpus Christi was included as an added guest at the regular

meeting of the South Ballinger Home Demonstration Club, which was held Tuesday afternoon in the home of Mrs. Ross Smith on Tenth Street.

LESS CARS REGISTERED MORE TAX COLLECTED

A total of 7,691 car license receipts have been made out by the county Tax Assessor-Collector's office.

The number is a slight drop from the number on the corresponding date in 1957, which was 7,818. Collector Pannell Legg Jr. said a 10 per cent increase in the license tax would offset the decrease in volume for the year.

According to his records, the collections of this phase of the tax program by May 19 was \$96,742.87 last year and \$103,620.43 this year. The county gets all of the first \$50,000 and splits the next \$75,000 with the state.

W. R. CLARK'S GRANDSON HONORED AT TEXAS A & M

The grandson of a Ballinger man has been honored at Texas A & M College with six awards for achievements in the corps of cadets. The awards were made to

Cadet George R. Curtis, Pearl, grandson of W. R. Clark Sr. of Ballinger, and son of the former Imagene Clark of Ballinger, at Mother's Day services May 11. He is the son of Mr. and Mrs. Norman Curtis of Pearlsall.

Cadet Curtis received a cash award from the DAR for the most outstanding non-commissioned officer; the Shoulder Cord, corps troop award, from the Houston Chamber of Commerce for the corps master sergeant who is promoted to deputy commander for next year; the U. S. Army citation for the most outstanding Army cadet of non-commissioned rank; the Gen. H. Miller Ainsworth award for the most outstanding non-commissioned officer studying infantry military science; appointed to the permanent firing squad of the Ross Volunteers Company; and the Gold Key from the Town Hall staff for his participation in providing entertainment for the corps.

Catherine Burks-R. Bryan To Exchange Vows July 5

Mr. and Mrs. R. O. Burks of Ballinger announce the engagement and approaching marriage of their daughter, Frances Catherine, to Roger Hudson Bryan, son of Mr. and Mrs. H. A. Bryan of Norton.

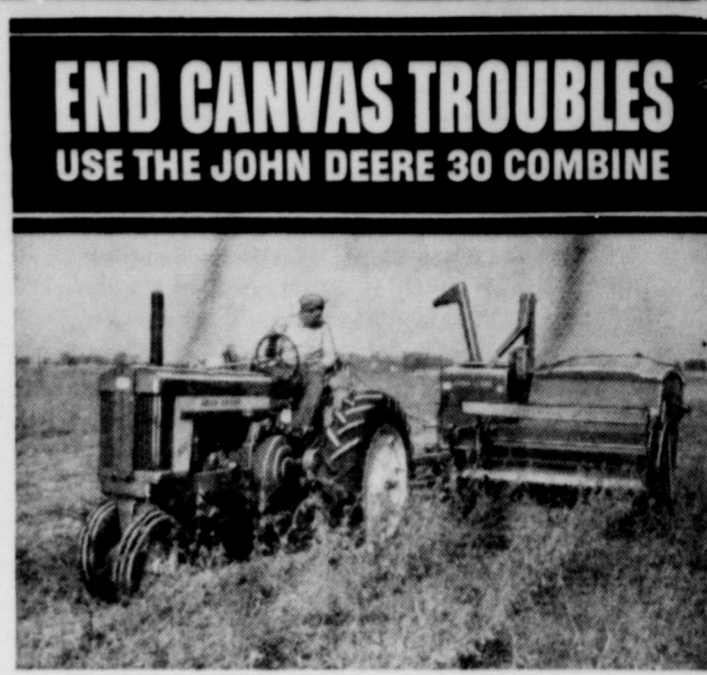

NO HOME FOR US CHICKENS—Hundreds of chickens find themselves homeless after a tornado ripped down their coop in Lacosta, Tex. The twister tore across the south Texas town, doing approximately \$65,000 damage.

Vows will be said July 5 at the Valley View Baptist Church. Miss Burks is a graduate of Ballinger High School and is employed at the First National

Bank in Ballinger. Mr. Bryan is a graduate of Norton High School, and is presently employed by the J. R. Dry & Son Company in Winters. The couple will make their home

near Norton. Rosa Burris, Steve Norman Plan June Wedding Date Mr. and Mrs. W. B. Burris of Ballinger announce the engage-

END CANVAS TROUBLES USE THE JOHN DEERE 30 COMBINE

...with 7-FOOT AUGER-PLATFORM--EVEN-FLO FEED

Listen to the steady hum of the threshing cylinder of the John Deere 30 Seven-Foot Combine at work, and you'll know that here is a combine that does a real job of threshing. As every good thresherman knows, even feeding is the big secret to best threshing. And, in the 30 Combine, it's the combination of the auger-type platform and the EVEN-FLO FEED that keeps the cylinder humming at proper threshing speed at all times—completely does away with canvas trouble. Full-width, straight-through handling of straw and grain is another mighty important advantage you get in the 30 Combine. The material is spread out in a thin layer over every inch of the large separating and cleaning area. This insures more and cleaner grain or seed from every acre harvested.

ment and approaching marriage of their daughter, Rosa Marie to Steve Norman, son of Mr. John W. Norman of Winters. The couple will marry June 8 in the Seventh Street Baptist Church in Ballinger. Miss Burris will be a spring graduate of Ballinger High School.

SKY SENTRY—Set to start scanning the skies in the near future, a giant radar tower nears completion in Munich, Germany. The tower features a 23-ton antenna which will rotate six times a minute from its 70-foot-high perch. It is capable of "viewing" all air traffic for a radius of 330 miles and up to 13 miles altitude.

Card of Thanks To those who expressed their sympathy in so many beautiful and practical ways during our recent bereavement, we extend our heartfelt thanks. The family of W. R. Wood
