**WEST TEXAS
NOTES**

The Menard County Historical Society last week had signed up 41 charter members and announcement was made that all who join by December 1 will be included as charter members. Family memberships are \$5 and individual members \$3 each. The society has started the ball rolling towards the restoration of the old San Saba Mission in the meantime, arrangements have been completed for the pilgrimage to the mission and the receiving of visitors. The county is getting the grounds in good condition and doing other work to make the place presentable. Picture postcards in colors have been ordered.

An area committee met in Stephenville last week and discussed plans for continuing their efforts to make Tarleton State College into a four-year institution. State representatives were present from Erath, Coryell, Bosque and Hamilton Counties and all pledged themselves to support the proposed legislation in every way possible. The area group will form a plan and will do everything possible to get the matter properly before the legislature and to promote the passage of the bill.

The Winters Chamber of Commerce has set dates for their annual Christmas parades. The date of the big parade was changed from December 6 to the 10 because the regional band marching contest will be

held in Winters on December 6. This will be quite an event within itself as some 3,400 musicians from the schools of the area will be present. Merchants will sponsor floats in the parade on December 10 and the annual kiddy parade will be held on December 13. The decorated float parade will be sponsored by merchants with local organizations doing the decorations. A ceiling of \$40 per float has been announced.

The fourth and final section of the Coleman County United Fund campaign was started last week-end. This was to be the employee section and teams were ready to call upon each employee working in Coleman County. Other reports from earlier division campaigns showed more than \$9,000 raised to apply against a grand total of \$17,350 which will be needed to meet the ends of all participating organizations. Workers in all sections have been asked to complete their jobs and make their final reports.

The Eden Volunteer Fire Department has issued an early call for used toys which will be repaired, repainted and made ready for use in the city's Christmas program. This is an annual program for the Eden firemen and each year a large number of men give time in working in the toy shop to make discarded and broken toys like new. The firemen have asked that toys of every description be left at the fire hall as soon as possible. They feel that practically every home in the city has a number of toys that are no longer used or enjoyed by the children. These can be used in December to make some kiddy happy.

Noah Pruitt Jr. has been named fund chairman for the annual boy scout fund drive in Bronte and Oct. 28 has been set for the time to start soliciting funds. A kick-off breakfast will be held at the First Methodist Church that morning for all

workers and Pruitt stated that about 30 have agreed to help this year. H. A. Springer is collecting special gifts and will have his work completed by the start of the regular fund drive. Four captains will head the teams that will call on the public.

The Brownwood Junior Chamber of Commerce basket project, which receives funds from the Brown County Community Chest campaign, last year provided 250 Christmas baskets for people in Brown County. The primary aim of the project is to provide a good Christmas dinner for families that are not able to secure food for that occasion. Baskets are

provided in three divisions, according to the size of the family, and where there are small children, baby foods are also included. Toys and other items are handled by the Brownwood firemen and other organizations. The Community Chest campaign is being raised at Brownwood now.

Workers at Brady are making plans for the annual Community Chest campaign which will be county-wide. Hymie Myers has been named fund chairman for the 1958 drive and already a large number of workers have been recruited. The date for the start of the

campaign will be announced as soon as the final budget is approved. The organizations which share in the funds of the Community Chest are submitting their needs at this time and from these reports the overall budget will be set up.

County producers said it would be their best crop unless damaged by a large amount of later rain or an early freeze. Ranchers in Comanche County also stated grass was the best in many years and that winter grazing of small grain would be excellent. The county has good underground moisture at this time.

A public hearing on the location of Highway 67 through the town of Rowena will be held at 2 p. m. on October 27 at the Community fire hall. The state highway department has advised that a contract

will soon be let for highway construction from a point two miles northeast of Miles to a point 5 miles west of the Colorado River at Ballinger. A plot of the route through Rowena has been provided to the citizens at Rowena and is now to be seen at the Middleton Garage. Purpose of the public hearing will be to discuss the location at Rowena and its effect on the economy of the town.

The estimate of the 1958 peanut crop in Comanche County is said to be the best since 1953. It was also reported that the crop prediction for the Southwest area was listed at 204,000 tons of peanuts, which is 22,000 tons greater than an earlier prediction. Comanche

Cisco Beats Bearcats 32-14 at Cisco Friday

The Ballinger Bearcats lost the first district 7-AA game of their 1958 schedule Friday night when the Cisco Lobos handed them a 32 to 14 defeat in Cisco. It was the first district game for both teams and the sixth straight win for the

Cisco team this fall. A 165 pound back, named Randall Hess, scored four touchdowns against the Bearcats on runs of 43 and 49 yards, a one-yard plunge and a 40 yard pass play. Halfback Duane Hale set up the other score after a 64 yard scamper which carried to the Ballinger one-yard line. The Bearcats made a fast start. They kicked to Cisco and the short kick was fumbled by a lineman and recovered by Ballinger on Cisco's 28 yard line. Jerry Candler ripped off 17 and then carried four straight times to punch over from two yards out. Candler then passed to Calvin Kirk in the end zone for the extra two points to make the score 8-0. The Bearcats took up most of the final period with a drive

from their 17 yard line to the touchdown. This was featured by runs by Candler and Kenneth Wiginton and climaxed with a 7 yard pass from Candler to Kirk for the touchdown. With a little over three minutes left in the game, the Bearcats kicked off to Cisco and on the first play, Hess broke through the center of the line into a clear field and streaked 49 yards to the counter. Cisco gained a total of 341 yards on the ground to the Bearcats' 103 but Ballinger had 102 on passes to only 49 for the Lobos. First downs were 20 for Cisco and 14 for Ballinger. A large crowd of fans and students accompanied the team to Cisco for the game.

The Bearcats are one down in district play and have four games to go. They lost to the district favorites, Cisco, last Friday night and now have games each week with Coleman, Ranger, Eastland and Winters. Being one down is nothing to be discouraged about as no team in the district is expected to finish the season undefeated.

The Bearcats will be at home for games at Bearcat Field for three straight weeks. These will be district games and should attract the largest crowds so far this season. Coaches and fans feel that the Bearcats can win all three by playing hard football all the way.

Friday night will likely be one of the most interesting games of the year and will bring together two rivals of many years, the Ballinger Bearcats and the Coleman Bluecats. Coleman defeated Eastland last Friday night to open their district schedule and are riding high with a 1,000 per cent. Scouts report they have a good ball club with plenty of speed and are well coached.

The Bearcats have lost 4 of their 6 starts this year but it is not too late to have a good season.

After an open date last week, the Ballinger juniors will swing into action again tonight at Bearcat Field meeting Coleman for three games. These will start with the 7th grade game, followed by the 8th grade game and the regular junior high game will get started shortly before 8 p. m. or perhaps about 7:30. Fans are urged to see these teams in action and will be able to get football from about 5:30 on until 9:30.

The B team will have an open date this week-end and all

Ballinger Guard Unit Is Praised By Army Colonel
Company I, 142nd Infantry Regiment, Ballinger's National Guard unit, has been rated as "Superior" on its annual general inspection it was learned Tuesday.

Results of the annual inspection by the Fourth U. S. Army were handed down to the headquarters of the 36th (Texas) Infantry Division here. "Superior" is the highest possible rating.

The unit was commended by the inspecting officers for its military appearance, courtesy and discipline, its training and instruction, and its attendance and strength.

Lt. Colonels William D. Preston Jr. and Clark Weber, both of the Fourth Army, inspected the Ballinger unit on October 7.

They also commended the Ballinger unit's efforts over and above armory training. They said four Ballinger Guardsmen had attended army service schools and 24 had or are now studying under the army extension study program.

Company I was one of the first of the 36th's 129 units to be inspected this year. It was the second "superior" rating hung up in the first round of inspections. Last year 32 units of the 36th were "superior," an all-time high.

The Ballinger unit is commanded by Captain Thomas I. Gabbert of 402 Sixth Street. It has a strength of 84 men, the largest unit of the Second Battalion and one of the two largest of the 142nd Infantry Regiment.

The inspection report said 28 men joined the Ballinger unit during the past year, and 12 more re-enlisted. Forty-nine men had perfect attendance at armory drills during the past year.

Among those present for the Ballinger inspection were Lt. Colonel William A. Cheshire of Amarillo, executive officer of the 142nd Infantry Regiment, and Lt. Colonel Roland M. Lawrence of Amarillo, commander of the 142nd Infantry's Second Battalion.

**Changes In Your
Social Security**

By F. Neal Tarvin
(Field Representative
of the San Angelo, Texas
Social Security District
Office)

One of the important reasons for social security insurance benefits is the protection of children. Before the recent changes in the law, however, foster children who had not been legally adopted were often out of luck where social security is concerned. I have known many "little orphan Annes" who were not eligible for payments.

I recall, in particular, the case of 6-year old Johnnie K. The Johnsons had taken him to live with them but before they could get around to a legal adoption, Mr. Johnson died. Mrs. Johnson fully expected to get survivor's payments for the little boy and for herself as she had the child in her care. It was our painful duty to tell her that benefits were not possible. Johnnie had not been legally adopted and she, as a widow without a legal minor child could not get payments as she was under 62.

In 1958 changes in the social security law make it possible to pay benefits to more children (including Johnnie) and more widows (including Mrs. Johnson). In the case of children, this results from the removal of the adoption provision of the old law; in the case of widows, the removal of the adoption provision will also permit the payment of mother's benefits in most cases.

It is no longer necessary that a child, other than the worker's own child, be an adopted child in order to qualify for survivor's benefits. The requirement now is that the child be "adoptable" and be adopted by the surviving spouse within two years after the worker's death. If the child was living in the worker's household as a member of the family, and was not supported by anyone other than the worker, the spouse or a social agency, he is now regarded, for social security purposes, the same as the worker's own child.

In the case of the adopted child of a retired insured worker it is no longer necessary that the child have been adopted for as long as three years in order to be eligible for benefit payments. The 3-year restriction was put in the old law to guard against abuses through adoptions undertaken to secure rights to benefits. As adoptions are subject to court approval in the various states, however, Congress decided that this is a rare abuse, and removed the restriction from the law. Benefits are now payable to an adopted child immediately after adoption.

Under the old law, the mother of a child adopted by her deceased husband could not get widow's benefits if their marriage had not been in effect for at least a year before his death. This often resulted in a situation where the child could get survivor's benefits but the widow with the child in her care could not. Under the amended law, the length-of-marriage restriction has been removed if the deceased worker legally adopted the spouse's child.

The amended law includes

REUNITED AT WEDDING—Twins Alberto, left, and Lorenzo Quaresimali, embrace as they meet for the first time in their lives at Alberto's wedding in Bologna, Italy. The 25-year-old brothers were adopted at birth, and lived a few miles apart on opposite sides of a mountain without knowing about each other. The reunion is shared by their wives at right.

Other changes relating to marriage and remarriage. I shall discuss them in the next article in this series. English mail boxes are called pillar posts.

An Ancient Profession

PHARMACY is one of the oldest of all the learned professions. It had its beginning more than four thousand years ago and has been practiced in one form or another ever since. The modern drug store bears little resemblance to the apothecary shop of old, but today's pharmacist is inspired by the same honorable principles that governed the conduct of his forebears. The pharmacist's chief interests, now as then, are the relief of suffering and the prolongation of life. Prescriptions come first in our store. Your doctor may not like to recommend any particular pharmacy, but he will never complain if you bring his prescriptions to us.

Supt. Ernest Caskey Speaker For Shakespeare Club
Speaking on "Changing Trends in Education," Ernest Caskey, superintendent of Ballinger Schools, said that he foresees

two more years added to our school system, making the high school curriculum equivalent to two years in college. Ultimately he believes that we will have a

12 month school year.

This statement was given to members of the Ballinger Shakespeare Club at the regular club meeting last Thursday afternoon in the library club room.

Mrs. Frankie Berryman, program chairman, introduced the speaker.

Supt. Caskey made a comparison on American and Russian schools and stated that the American schools are far superior to the Russian schools. He recently attended lectures by returning educators who had returned from a Russian study tour.

The speaker also foresees trained full time play ground supervisors, thus relieving the class room teacher of the necessity of the present time play ground activity.

Mrs. Dorsey Read, club president, was in charge of the business. The following resignations were accepted: Mrs. Curtis Stacy, Mrs. Dan West,

Mrs. Don Atkins and Mrs. John Miller.

A communications program is planned for November 6. A panel discussion will be presented by Miss Carol Humphrey, woman's editor of the San Angelo Standard-Times; Bob McGarvey, manager of the radio station KRUN, and Troy Simpson, editor of the Ballinger Ledger.

Staffs of school publications, Cat Tracks and Paw Prints, of Ballinger High School, and their sponsors will be guests.

Twelve club members and a guest, Mrs. J. B. Fowler, attended the Thursday afternoon meeting.

Miss Geraldine Burger Weds William John Fowler

Wedding vows were exchanged Saturday morning in St. Mary's Catholic Church in Fredericksburg by Miss Geraldine Burger and William John Fowler Jr.

The bride is the daughter of

Mr. and Mrs. Charles Burger of Brownwood. The bridegroom is the son of Mrs. W. J. Fowler Sr. and the late Mr. Fowler, of Ballinger.

Officiating at the 11 o'clock double ring rites was the Rev. W. W. Schneider, church pastor.

Wedding music was presented by Miss Mary Ann Klein, organist, and the Girls' Chorus from St. Mary's Church.

The couple was attended by Mr. and Mrs. Hilmar Wagner of Fredericksburg, the bridegroom's nephew and niece.

The bride wore a suit of cocoa brown wool with matching accessories. She wore a necklace and ear screws of pearls, a gift from the bridegroom, and an orchid corsage.

Following a wedding trip to Washington, D. C. and points in the East, the couple will be at home in San Angelo.

Both Mr. and Mrs. Fowler are graduates of Ballinger High School. Mrs. Fowler has been employed at the Farmers and Merchants State Bank in Ballinger for several years. Mr. Fowler holds extensive oil interests on his ranch east of Ballinger.

Mrs. Orville Pearce was in charge of the recreation period.

Mrs. Hale and Mrs. Bragg served refreshments of cookies and drinks to eleven members.

The next meeting will be an all day meeting on November 7 in the gymnasium, at which time work will be done on the road signs.

At the singing at the Methodist Church Sunday afternoon it was decided to organize and meet each third Sunday afternoon here. Mr. Lankford, of Lawn, was elected president and Will Mathis, vice-president. Clyde Brevard was made secretary and treasurer.

Man in the making

You watch your bright-haired boy turn to a twinkling from poverty horseplay to tender cherishing of an injured bird.

How humbly proud you are of each evidence that your son is growing—in all directions!

And how you want for him a world where there are no barriers to his development as a free and independent American.

There are many ways you can help assure this sort of world for him. One very important way is to be on the watch for ideas that could deprive him of his right to freedom and independence.

The idea, for instance, that "government should run such and such a business, a service, an institution." Even though it has been shown that the more things government runs, the less freedom there is for the individual.

When you hear people talking like that, point out that when you take independence away from anybody, you undermine the freedom of everybody.

Very much aware of this threat are the independent electric companies, because government already runs part of the electric business. And powerful people are pressing government to take over more.

Announcement was made that those wishing to attend the Council Christmas luncheon should turn in money for reservations, which are \$1.25, at the next regular meeting.
