Rotary Club

"Football Prospects for 1965" was the subject of a talk by C. H. S. football coach Thayne Amonett at the Wednesday meeting of the Rotary Club last week.

Rotarian Marion Crowell was in charge of the program.

The Crowell Wildcats, under the tutelage of Coaches Thayne Amonett, L. H. Wall Jr. and Prinitiss Gidney, will begin their 1965 football season Friday night when they challenge the Memphis Cyclones here at Wildcat stadium. Game time is 8 p. m.

The local boys rolled over the Childress Bobcats in a practice scrimmage here last Thursday night and show promise of being the strongest team fielded by the Crowell High School in the past few years.

In addition to an outstanding quarterback, Dan Mike Bird, the Wildcats have three other fine running backs: fullback Lee Looney and halfbacks Randy Adkins and Mike Payne.

The Wildcats also will be fielding a heavy line with lots of talent displayed in stopping the Childress attack. Tommie Carpenter is the big man in the line at 240 pounds. His line-mates are Don Bill Statter, 180; Randy Smith, 180; Steve Bell, 180; Don Ray Borchardt, 185; and Glen Doyle Goodwin, 170.

Other returning lettermen are George Myers, Ronnie Eavenson, Paul Campbell, Rickey Eavenson and Steve Gray.

Other members of the squad are Billy Hord, Jim Tom Smith, Charles Dodd, Rockne Wisdom, Dale Bradford, Junior Vecera, Terry Bird, Steve Weathered, Larry Ellis, James Allen Welch, Junior Carroll, Baldermar Brown, Bob Bird, Michael Eubanks, Van Wisdom, Ike Everson, Larry Everson, Gary Tole, Jimmy Hammonds, James Gaddis.

The Memphis Cyclones will be bringing a fast, versatile team as the Wildcats' initial opposition.

Down Town Bible Class

Seventeen men heard J. C. Jones bring the lesson at the Sunday morning meeting of the Down Town Bible Class.

Cris Moody led the group singing and Miss Lanette Lemons played piano accompaniment.

ASC COMMUNITY COMMITTEE ELECTION DEADLINE NEARING

The approaching election of A. S. C. community committees for farm program administration in Foard County was announced today by Ray Hysinger, Chairman, Agricultural Stabilization and Conservation County Committee.

The community committees assist the ASC county committee in administering the price support, acreage diversion, agricultural conservation, and other farm-action programs in the county; they are particularly responsible for keeping their neighbors informed about the program. The county committee supervises the ASCS county office and is responsible for the administration of the various programs.

Voting will be by mail. Mr. Hysinger explained, and ballots have been sent to each known eligible voter. In case eligible voters fail to receive a ballot through the mail, they may be obtained at the ASCS office. Generally, a farm owner, tenant, or sharecropper is eligible to vote if he is eligible to take part in one or more of the programs administered by the ASC committees. Eligibility to vote or hold office as a committeeman, Mr. Hysinger stressed, is not restricted by reason of race, color, creed or national origin.

Envelopes containing marked ballots may be mailed or returned to the ASCS county office any time before September 8, 1965. Ballots will be tabulated publicly by the county committee Monday, Sept. 13, 1965, at 2 p. m. at the ASCS office.

The following slates of nominees for ASC community committees have been announced:

Community "A" Margaret
David D. Adams Jr., H. L. Ayers Jr., Frankie Halencak, Newell Hofmann, I. J. Jackson, Glyndon Johnson, Jim Owens, Lester Patton.

Community "B" Thalia
Murry Burkhardt, Bill Cates, R. H. Cooper, Louis Kieschnick, J. F. Matthews Jr., Jim Moore, Dee Powers.

Community "C" Crowell
Ray Brown, Moody Bursey, R. T. Carroll, Chester Hord, James Sandlin, Fred Vecera.

Community "D" Foard City
S. E. Crosnoe, N. A. Denton, Grady Halbert, E. D. Howard, R. J. Owens, Ernest Weaver.

Community "E" Vivian
E. A. Boren, J. B. Fairchild, Harold Fish, Heibert Fish, John E. Fish, Clarence Hamby.

For each committee, three regular members and two alternates will be elected. The chairman, vice chairman, and third regular member of the elected ASC community committee will also serve as delegates to the county convention where the ASC county committee will be chosen within the next few weeks. The alternate committeemen will also serve as alternate delegates to the convention.

Questions on eligibility to vote and hold office, or on the election procedure, will be determined by the ASC county committee subject to appeal to the ASC state committee.

Origin Given of Word "Barbecue"

The American Meat Institute reports that the word "barbecue" comes from the Spanish word "barbacon." This is the name natives of the West Indies gave to the wooden framework they use in grilling smoked meat and fish. French-Canadians borrowed the word "barboka" from the western Indians. French explorers of the Mississippi Valley twisted it into the modern "barbecue."

Outdoor Project Combines Skill and Science

Planning and planting a garden is a perennial task of 4-H Club members. Last year nearly 212,000 gardens flourished under the green thumb of 4-H boys and girls.

With spring well along and summer just ahead, the 1965 national 4-H Garden program is off to a good start. Some gardens will beautify, and some will nourish. But whatever the garden—large or small—the main goal is to produce a fine harvest of boys and girls with new skills and scientific know-how.

There is a great deal of work between planting the seeds and harvesting the crops. Controlling weeds and insects, keeping records, creating exhibits and giving demonstrations are a few of the jobs that must be done. The most successful projects will be judged for awards.

Recognition will be provided for the 20th year by Allis-Chalmers Manufacturing Company, Farm Equipment Division, sponsor of the national 4-H Garden program.

During the National 4-H Club Congress at Chicago next fall, company officials will personally present eight \$500 educational scholarships to the highest ranking 4-H gardeners in the nation. The Congress trip will go to the boy or girl having the

best project in the entire state. Medals will be given to a blue award group in each county. All winners will be selected by the Cooperative Extension Service which supervises 4-H.

The young gardeners agree that getting close to nature is most gratifying, and tending a garden provides healthful outdoor exercise as well. A flare for landscaping or a scientific curiosity also can be satisfied.

Two Minutes With the Bible

Confidence in Death

In the thirty years of my ministry I have seen many people approach death and have seen some die.

Some, who knew Christ as their Savior, were ready, even eager, to go to be with Him. Some passed from this scene with songs or words of praise on their lips. Others, who had failed to prepare died in mortal fear, not merely of death, but of what lies beyond.

These things do not always run true to form, however, for I have also seen the most hardened unbelievers go out of this life joking and seemingly unafraid, while, on the other hand, I have seen sincere Christians cringe with fear at the approach of death.

These human reactions did not change the fact that the unbelievers had reason to be afraid, while the believers need not have been.

The Word of God tells us that "it is appointed unto men once to die, but after this the judgment" (Heb. 9:27,28). It is the "after this" that makes men so afraid to die. They fear the truth of Rom. 14:12, that "every one of us shall give account of himself to God."

But wait! I didn't quote all of Heb. 9:27,28. The full passage reads as follows:

"And as it is appointed unto men once to die, but after this the judgment; so Christ was once offered to bear the sins of many; and unto them that look for Him shall He appear the second time apart from sin, unto salvation."

This can mean only one thing: that Christ died for us and bore the judgment for our sins, the "second death."

This is why Heb. 2:9-15 declares that "by the grace of God" Christ "tasted death for every man . . . that through (His) death He might . . . deliver those who through fear of death were all their lifetime subject to bondage."

Gunner to Go for Science on Matador Spread

While countless thousands of Texans roam the country-side for the north zone mourning dove season, opening at noon September 1, a comparative handful of nimrods will be enthusiastically cooperating in a conducted shoot for research purposes on the Matador Wildlife Management Area near Paducah.

The 28,180 acre tract established in Cottle County by the Texas Parks and Wildlife Department will be the scene of three 5-day section hunts beginning September 4 and ending September 23. Thirty-four permits will be issued each half day for a possible maximum of 510 permits, according to Houston Green, biologist in charge.

Permits will be allocated for only one section at a time and shall be obtained each Friday preceding each 5-day hunt, that is September 3, 10, and 17, by phoning the Matador Area, Area Code 817, 492-3740, Paducah, or by applying in person at the area office between 8 a. m. and 5 p. m. on those dates. Also, permits will be issued to parties of up to four hunters.

The area is reached by traveling Highway 83, north of Paducah, for eight miles and then turning left (west) at Area sign for two additional miles.

No-shows or vacancies in the original quotas will be filled by late applicants, and even by repeat hunters or persons who have hunted previously during the conducted harvest.

The official reason for the hunt: "Small impoundments at windmills on the Matador Area created to catch run off water, have been found to attract huntable concentrations of mourning doves during August and September. To facilitate gathering data pertinent to the evaluation of the impoundment as a technique for enticing to and holding doves at such particular spots for hunting purposes where otherwise little or no hunting would exist, public hunts are necessary. Accurate data will be kept covering sites hunted, time hunted, numbers of doves bagged, number of shots fired, age ratios in bag and food habits."

Tax Man Sam Sez:

We have reached the age of education in our country. As a nation we demand that all our young people not only graduate from high school but also get a college degree. Many companies want most of their key men to have a Ph.D. My advice to every taxpayer is to get as near to a Ph.D. on your personal tax affairs as possible. Ignorance costs you—in getting better jobs and in saving on your taxes.

Farm-Raised, Farm-Fed Cattle Get Bigger Share of Dollar

Cattle producers can earn up to 54.6 per cent of the consumer's beef dollar if they raise and feed their animals to slaughter weight on the farm.

This fact was brought out in a recent USDA study on price spreads of beef. The purpose of the study was to demonstrate distribution of the consumer's beef dollar among ranchers, feeders, packer-wholesalers and retailers.

The study included six U. S. Choice grade steers from six states, all but one going to distant retailers after feeding and processing. One steer, raised and fed on the same farm, went directly to a market close to home.

The advantage of using home-grown feed to raise cattle to slaughter weight on the farm was illustrated by this steer as it netted the producer 54.6 per cent of the consumer's beef dollar. Cattle sold at weaning weight earned only 25.6 per cent for the cattleman.

For farmers this can make a big difference. Meat is the most important item in the consumer's food budget, beef making up about 25 per cent of this. Beef consumption has increased from an average per capita of 63.9 pounds in 1949 to 99.7 pounds in 1964. Further, beef faces a rapidly increasing demand as incomes continue to rise.

Origin Given of Word "Barbecue"

The American Meat Institute reports that the word "barbecue" comes from the Spanish word "barbacoa." This is the name natives of the West Indies gave to the wooden framework they use in grilling smoked meat and fish. French-Canadians borrowed the word "barboka" from the western Indians. French explorers of the Mississippi Valley twisted it into the modern "barbecue."

Two Minutes With the Bible

Confidence in Death

In the thirty years of my ministry I have seen many people approach death and have seen some die.

Some, who knew Christ as their Savior, were ready, even eager, to go to be with Him. Some passed from this scene with songs or words of praise on their lips. Others, who had failed to prepare died in mortal fear, not merely of death, but of what lies beyond.

These things do not always run true to form, however, for I have also seen the most hardened unbelievers go out of this life joking and seemingly unafraid, while, on the other hand, I have seen sincere Christians cringe with fear at the approach of death. These human reactions do not change the fact that the unbelievers had reason to be afraid, while the believers need not have been.

The Word of God tells us that "it is appointed unto men once to die, but after this the judgment" (Heb. 9:27,28). It is the "after this" that makes men so afraid to die. They fear the truth of Rom. 14:12, that "every one of us shall give account of himself to God."

But wait: I didn't quote all of Heb. 9:27,28. The full passage reads as follows:

"And as it is appointed unto men once to die, but after this the judgment; so Christ was once offered to bear the sins of many; and unto them that look for Him shall He appear the second time apart from sin, unto salvation."

This can mean only one thing: that Christ died for us and bore the judgment for our sins, the "second death."

This is why Heb. 2:9-15 declares that "by the grace of God" Christ "tasted death for every man . . . that through (His) death He might . . . deliver those who through fear of death were all their lifetime subject to bondage."

Outdoor Project Combines Skill and Science

Planning and planting a garden is a perennial task of 4-H Club members. Last year nearly 212,000 gardens flourished under the green thumb of 4-H boys and girls.

With spring well along and summer just ahead, the 1965 national 4-H Garden program is off to a good start. Some gardens will be beautiful, and some will nourish. But whatever the garden—large or small—the main goal is to produce a fine harvest of boys and girls with new skills and scientific know-how.

There is a great deal of work between planting the seeds and harvesting the crops. Controlling weeds and insects, keeping records, creating exhibits and giving demonstrations are a few of the jobs that must be done. The most successful projects will be judged for awards.

Recognition will be provided for the 20th year by Allis-Chalmers Manufacturing Company, Farm Equipment Division, sponsor of the national 4-H Garden program.

During the National 4-H Club Congress at Chicago next fall, company officials will personally present eight \$500 educational scholarships to the highest ranking 4-H gardeners in the nation. The Congress trip will go to the boy or girl having the

how does YOUR 4-H garden grow?

best project in the entire state. Medals will be given to a blue award group in each county. All winners will be selected by the Cooperative Extension Service which supervises 4-H.

The young gardeners agree that getting close to nature is most gratifying, and tending a garden provides healthful outdoor exercise as well. A flare for landscaping or a scientific curiosity also can be satisfied.

Gunner to Go for Science on Matador Spread

While countless thousands of Texans roam the country-side for the north zone mourning dove season, opening at noon September 1, a comparative handful of nimrods will be enthusiastically cooperating in a conducted shoot for research purposes on the Matador Wildlife Management Area near Paducah.

The 28,180 acre tract established in Cottle County by the Texas Parks and Wildlife Department will be the scene of three 5-day section hunts beginning September 4 and ending September 23. Thirty-four permits will be issued each half day for a possible maximum of 510 permits, according to Houston Green, biologist in charge.

Permits will be allocated for only one section at a time and shall be obtained each Friday preceding each 5-day hunt, that is September 3, 10, and 17, by phoning the Matador Area, Area Code 817, 492-3740, Paducah, or by applying in person at the area office between 8 a. m. and 5 p. m. on those dates. Also, permits will be issued to parties of up to four hunters.

The area is reached by traveling Highway 83, north of Paducah, for eight miles and then turning left (west) at Area sign for two additional miles.

No-shows or vacancies in the original quotas will be filled by late applicants, and even by repeat hunters or persons who have hunted previously during the conducted harvest.

The official reason for the hunt: "Small impoundments at windmills on the Matador Area created to catch run off water, have been found to attract huntable concentrations of mourning doves during August and September. To facilitate gathering data pertinent to the evaluation of the impoundment as a technique for enticing to and holding doves at such particular spots for hunting purposes where otherwise little or no hunting would exist, public hunts are necessary. Accurate data will be kept covering sites hunted, time hunted, numbers of doves bagged, number of shots fired, age ratios in bag and food habits."

Farm-Raised, Farm-Fed Cattle Get Bigger Share of Dollar

Cattle producers can earn up to 54.6 per cent of the consumer's beef dollar if they raise and feed their animals to slaughter weight on the farm.

This fact was brought out in a recent USDA study on price spreads of beef. The purpose of the study was to demonstrate distribution of the consumer's beef dollar among ranchers, feeders, packer-wholesalers and retailers.

The study included six U. S. Choice grade steers from six states, all but one going to distant retailers after feeding and processing. One steer, raised and fed on the same farm, went directly to a market close to home.

The advantage of using home-grown feed to raise cattle to slaughter weight on the farm was illustrated by this steer as it netted the producer 54.6 per cent of the consumer's beef dollar. Cattle sold at weaning weight earned only 25.6 per cent for the cattleman.

For farmers this can make a big difference. Meat is the most important item in the consumer's food budget, beef making up about 25 per cent of this. Beef consumption has increased from an average per capita of 63.9 pounds in 1949 to 99.7 pounds in 1964. Further, beef faces a rapidly increasing demand as incomes continue to rise.

WOMACK'S CROWELL

Fall Openers—
Ducks Nov. 24;
Geese Oct. 30

The Texas Parks and Wildlife Commission set the annual duck season for forty consecutive days beginning Wednesday, November 24, and ending January 2 and the goose season for seventy consecutive days from Saturday, Oct. 30, to January 12. Shooting hours will be from sunrise to sunset, including the opening day.

The daily bag limit on ducks will be four, not to include more than one mallard and one pintail, and the possession limit eight not to include more than two mallards and two pintails. However, for the first time in several years the previously rigid protection on red heads was lifted and hunters permitted to fill their legal limits.

Goose limits are the same as previously, with a bag limit of five per day and five in possession. The one white front limit was retained, as well as the limit of two Canadas, with alternate permission to have one white front and one Canada.

Working with a date framework prescribed by the U. S. Department of the Interior, the Commission timed the duck season to include both Thanksgiving day and the Christmas and new year holidays. The goose shoot, of course, will also include that period.

Here is the official text covering the duck limits:

"The daily bag limits of ducks may not include more of the following species than: (a) 2 wood ducks; (b) 2 canvasbacks; (c) 1 mallard; and (d) 1 pintail. The possession limit may not include more of the following species than: (a) 2 wood ducks; (b) 2 canvasbacks; (c) 2 mallards; and (d) 2 pintails." Hunters thus will be privileged to take their legal limits of those species of ducks not included in the above noted restrictions.

The official proclamation on geese provides: "The daily bag and possession limit of five may not include more of the following species than: (a) 1 Ross's goose; (b) in the alternative, 2 Canada geese or subspecies; 1 Canada goose or subspecies and 1 white-fronted goose; or 1 white-fronted goose."

A season was set on the little brown cranes in the same far west Texas areas as formerly. The daily bag is two and the possession limit is four. Heretofore it was two per day and two in possession.

World of Tomorrow Should Be Quite a Place to Live

"The world of tomorrow should be quite a place to live in. With the President's signing of the Medicare bill another social benefit has been gained. Now we have unemployment benefits, social security benefits, poverty benefits and Medicare benefits. If we can get benefits for child birth and death we should have it made. The only question that arises in my mind is who is going to foot the bills when everyone is enjoying a roman holiday. Anyway, the Utopia we dreamed about yesterday is here today."—Skowhegan, Me., Somerset Reporter.

Punt, Pass and Kick Contest Scheduled Again This Fall

The National Football League and the Ford dealers of America this week announced the fifth annual Punt, Pass and Kick competition for the nation's 8-through-13-year-old football fans.
"PP&K" pits the youths' punting, passing and place-kicking skills against those of other participants of the same age. Since its inception in 1961, the program has attracted more than 1,700,000 entries, including a record 601,000 last year.
Registration for this year's competition will be held at Ford dealerships, or at locations designated by them, September 1 through October 8.
Competition in the Dallas area will be prefaced, in late September, by a football clinic conducted for PP&K entrants by members of the Dallas Cowboys football team. Competition will be held at school athletic fields, parks or other areas designated by the Ford dealers.
Winners of these preliminary PP&K contests will advance to area competition to occur during half-time ceremonies at NFL games. Winners from the Dallas, Houston, New Orleans and Oklahoma City districts will compete during half-time at Dallas Cowboy games and Memphis-district winners will perform at St. Louis Cardinal football games.
Area winners will vie for Eastern Division honors December 11 at Dallas' Cotton Bowl during half-time of the Dallas Cowboys-St. Louis Cardinals game.
Handsome prizes will be awarded the winners.

Agent Gives Catfish Hole Baiting Recipe

Here is a new fishing hole baiting recipe for anglers in Foard County. County Agent Joe Burkett reports that the "ultra-modern" technique was furnished by J. M. Cooper, CAA, Eastland County.
The method is presented in a unique and interesting manner with a few hints to keep the not-so-ardent fisherman a little happier.
The J. M. Cooper Method
1. Get two large tubs. Put out and keep in full sunlight in the back yard.
2. Pour 20 to 25 pounds of maize into each tub.
3. Put one yeast cake or one package of dried yeast in each tub.
4. Fill with water, several inches above grain. The grain will swell and take up a lot of water. You may have to add more water in 5 or 6 hours.
5. At the end of 72 hours with the temperature in the 80's and 90's or above, it is ready to take up. The length of time depends upon several factors such as the complaint of the wife, friends and neighbors, about the smell, especially if the wind is right. To an old carp fisherman, though, it is a nice mellow smell and not offensive at all.
6. Put the soured grain, without measuring, into eight different tow or gunny sacks.
7. Use the tubs or several buckets to haul the sacks in the back (turtle back) of the car. Never put the sacks directly onto the floor of the car. If you do you will wish later on you hadn't. The smell has a lot of staying power.
8. Take down to the creek, waterhole, lake or river or wherever you want to bait. Put several rocks the size of your two fists into each sack. Tie the top of the sack. Throw out into the water as far as possible. The rocks are to keep the fish from rooting the sack of grain far away from its original position.
9. Begin to fish with dough or

stink bait 24 hours after immersion of the grain.
If you know of a good carp, buffalo or catfish hole nearby, Burkett recommends this method. If not, continue aging the grain at Step 5 and sooner or later you will have a brew that'll make you care less about fishing or anything else.

Royal Canadian Mounted Police to Be at State Fair

A troop of ramrod straight riders in their familiar scarlet tunics and broad-brimmed felt hats—the famous Royal Canadian Mounted Police—will be a featured attraction at the 1965 State Fair of Texas.
The Mounties will act as good will ambassadors from the Dominion of Canada during the first nine days of the 1965 "Exposition of the Americas" in Dallas.
Overall dates of the Fair will be October 9 through 24.
A drill team of 32 of the finest horsemen in the world will appear before State Fair audiences during eleven performances of the annual horse show in the Livestock Coliseum.
Led by Inspector Rod Williamson, the lance-armed Mounties aboard coal black chargers will present the troop's celebrated musical ride—a fast, intricate drill demanding perfect control, timing and coordination.
The highly trained horses trot and canter through complex maneuvers to music including "The

Maple Leaf Forever, "Campbells Are Coming" and The R. C. M. Police Regimental March.

Traditions of the Royal Canadian North-West Mounted Police reach back 82 years into northern history, when marauding Sioux injected a tense uncertainty into the lives of Dominion citizens.
Times may have changed, but the character, stamina and superb horsemanship of the Mounties have endured to bring color, action and excitement to the State Fair's modern arena.
The Mounties will star in performances at 2 p. m. on October 9, 10, 16, and 17, and at 8 p. m. on October 9 and 11 through 16.
A colorful free folder listing attractions and events at the 1965 exposition may be obtained by sending a post card to Folder, State Fair of Texas, Dallas 75226.

Trade is a Builder

** Does Your Trade Build for You?*

TRADE built this community . . . its homes, its churches, its schools, its business houses, its jobs, its pleasant way of life.

Without Trade . . . the exchange between neighbors of labor's fruits for goods and services . . . none of these would—nor could—exist here.

Quite naturally . . . more trade builds better communities. Every single additional dollar that is spent here at home does its bit to bring greater prosperity for you and for all of us who live here.

- As a matter of fact, Trade builds wherever it exists. Spend your money at home, the trade it creates builds here. Spend it in the city, the building takes place there.
- There is contentment, security and opportunity in a growing community. These are the most important things that your dollar buys . . . but they can't be wrapped up and taken home with you from a city store.

W.S.C.S. Workshop Held Here Last Thursday, Aug. 26

"A Glorious Past—a Challenging Future," was the theme of the Methodist Women's Society of Christian Service's fall workshop held at the Crowell Methodist Church last Thursday.

Over eighty women from towns of the Childress District gathered together with local women for the all-day meeting.

Mrs. Frank Cooper registered the women at 9 o'clock, after which Mrs. A. R. Sanders, president of the local society, graciously led them to the basement where they were served doughnuts and coffee. Mrs. Ruth Cole extended the visitors a welcoming hand as they filed in to take their seats in the sanctuary. Soft music was played by Mrs. Paul Shirley.

The meeting was called to order by Mrs. L. G. Deberry of Haskell, vice president of the district. Mrs. Fred Welch greeted the women with a heartfelt welcoming speech on behalf of the local society.

An inspiring program was given. One of the highlights was an interesting panel discussion held by Mrs. R. H. Isbell of Wellington, Mrs. Jim Gibbs of Childress, Mrs. T. R. Jacobs of Quanah, Mrs. Baker of Knox City and Mrs. Richard Ferguson of Seymour. The discussion was entitled, "The Christian's Calling." They probed the spiritual problems of the times, and the role or responsibility facing Christians in the solutions of these problems. Posters arranged at the altar gave an interpretative meaning to their talks.

Betty Ann Welch, Sandra Weathered, Mike Manard and Mary Sue Speer, students of Mrs. Moody Barsey, presented a reading drama or playlet entitled, "Moments of Decision."

Mrs. M. G. Tarver of Memphis presented an introduction and summary of the outstanding study, "Acts Then and Now." This is to be a total study for the women of the church this year. Mrs. Tarver related that it was her rare privilege to hear the book being given by the author, Dr. Harvey H. Pothoff, professor of Hilt's School of Christian Theology, in Denver, Colo., at the District Officers' School at Missions held there.

Chinasing the morning session was the showing of the film, "Acts, Now." It was narrated by a distinguished pastor who ended it by the singing of the hymn, "How Great Thou Art." The film was a study of the work of the church—its many institutions, hospitals and schools dedicated to the ongoing of God's Kingdom. It gave new insight to the book of Acts—a history of the church's work, past, present and challenging future.

After the benediction, a sack lunch was enjoyed on the beautifully appointed tables in the church basement.

The workshops of the various offices in the Society were conducted after lunch.

Upon this note, "Christ the Bringer of the Christian's fruit-bearing vine," the meeting was closed by a worship service conducted by Mrs. Worth Green of Rule.

Miss Teresa Wright and Weldon Farrar Wed Thursday Night

Miss Teresa Wright, daughter of Mr. and Mrs. Oliver C. Holland of Thalia, and Keith Weldon Farrar, son of Mr. and Mrs. Alton Farrar of Lockett, were united in marriage Thursday at 8 p. m. in the home of the bride's parents.

Archie Crabtree, Minister of the Thalia Church of Christ, performed the double ring ceremony.

The nuptial setting was composed of two cathedral candelabra holding white tapers decorated with greenery. Flanking the candelabra were brass stands containing basket arrangements of white gladioli and bronze mums against a background of gold-colored draperies.

Given in marriage by her stepfather, the bride was attired in a floor length gown of white bridal satin. The princess style bodice, coming to a point in front and back, was shirred on each side. It featured a bateau neckline of Alencon lace trimmed with seed pearls.

A tiara of pearl pendant drops and seed pearls held her shoulder length veil of imported french illusion. She carried a bouquet of yellow rosebuds and white daisies.

The bride's only attendant was her sister, Mrs. James R. Martin of Lubbock. She wore a yellow dacton voile dress with fan pleated skirt and embroidered bodice and sleeves. Her corsage was of bronze split mums.

Larry Smith of Lockett served as the groom's best man, and John W. Wright Jr. of Fort Worth, brother of the bride, lighted the candles.

A reception followed immediately with Miss Kay Ann Taylor of Quanah registering the guests.

The bride is a graduate of Crowell High School and of Glen and Lottie's School of Beauty in Abilene. She also attended Abilene Christian College two years.

The groom graduated from Lockett High School where he lettered in football, basketball, tennis and track. He attended Abilene Christian College and is majoring in agriculture and minor in Bible.

The couple will reside in Abilene where Mr. Farrar will resume his studies at ACC and Mrs. Farrar will be employed at Artis' Beauty Salon.

Daughter of Mr. and Mrs. Glen Taylor Wed in Wellington

Miss Glenna Louise Taylor and Jimmy Ledwayne Potteet were married in a double ring ceremony at the Assembly of God Church in Wellington at 6 o'clock Friday evening, August 20. James Potteet, brother of the bridegroom and a minister in the church, officiated.

Mr. and Mrs. Julius Glen Taylor are the parents of the bride and the bridegroom is the son of Mr. and Mrs. Walter Arnold Potteet, all of Wellington.

The bride and her parents are former residents of Crowell.

A white wrought iron arch covered with emerald foliage and white gladioli was at the center of the church decorations. On each side of the white satin-covered prie dieu white cathedral tapers, burned in seven-branched and spiral candelabras. Pedestal baskets of white gladioli and satin bows marked the pews.

Miss Connie Null, pianist, and Raymond Horton Jr., vocalist, presented the wedding music.

The bride was given in marriage by her father.

-Page 6- Foard County News Crowell, Texas, September 2, 1965

Her gown was of white Chantilly lace, complemented with iridescent sequins and seed pearls. The fitted bodice formed a point at the waist and scalloped edged the sabrina neckline. The fitted long sleeves formed petal points over her hands. The bouffant skirt was accented by layers of scalloped lace ruffles that extended into a chapel train. A crown of seed pearls and crystals held her French illusion veil. She carried a crescent bouquet of white orchids and stephanotis.

A sister of the bride, Miss Vicki Taylor, was the maid of honor, and the bridesmaids were Miss Lea Ann Taylor, another sister; Miss Joan James and Miss Merida Taylor of Crowell, a cousin. The attendants wore sheath dresses of blue whipped cream, made with high necklines that extended to a decollete back, and cap sleeves. Their pillbox headpieces were of blue tulle. Each carried a nosegay of blue carnations.

Michael Lynn Potteet, brother of the bridegroom, was the best man, and ushers were Max Phipps, Wayne Barton and Billy Isbell.

The children in the wedding party were the brothers and sisters of the bride. Rancee and Janee Taylor were the flower girls and Carl Lewis Taylor was the ring bearer. Candles were lighted by Toni Gayle Taylor and Charles Ray Taylor.

A reception followed the ceremony in the home of the bride's parents.

The refreshment table was covered with a white net cloth over blue and crystal appointments were used. The bride's bouquet was the centerpiece. Members of the house party were Miss Jan Glenn, Miss Sharon Glover, Miss Karen Richardson and Miss Selinda Hamilton of Childress.

As the couple left on a short wedding trip, Mrs. Potteet wore a blue suit with blue accessories complemented with an orchid corsage.

The bride was graduated from Wellington High School in the spring. She was a cheer leader, a member of Tri-ca social club, a candidate for football queen and a member of the Junior Hospital Auxiliary.

The bridegroom also received his education in Wellington and was a member of the football team.

The couple will live at 1107 East Avenue, Wellington.

Bride-to-Be Honored with Kitchen Shower at Borchardt Home

Miss Janis Gordon, bride-elect of M. L. Speer, was honored with a kitchen shower by Mrs. Bob Borchardt in the Henry Borchardt home on Friday, August 27.

The guests were greeted by Mrs. Bert Ekern, Mrs. Leon Speer and the honoree. Punch, cookies, melon balls and bell shaped sandwiches were served to the guests by Misses Mary Sue Speer and Judy Sandlin.

The table was decorated in blue and green, the chosen colors of the bride-to-be. A wedding arch covered in emerald green taffeta, white net and blue roses held a small bride and groom. A white cutwork table cover was used. On the coffee table was a royal blue basket filled with green grapes and white puffs of net.

After the guests were served, Miss Gordon opened and displayed the gifts.

Misses Jo Wynn Ekern, Kay Johnson and Mrs. James Sandlin assisted in serving. Miss Sheri Speer presided at the bride's book.

Magna Carta Hall is one of several halls at the Douglas MacArthur Academy of Freedom depicting the history of freedom from 4,000 B.C. to the present time. It was designed specifically to establish the Northern European and English tradition in the development of America. Osborne Robinson, one of England's outstanding designers and authorities on historical fashion has been commissioned by the Academy to paint a mural in the hall. Robinson began the work in early July after completing some eight months of research on the project. The Academy of Freedom is an honors program operating under the Department of Social Sciences at Howard Payne College in Brownwood, Texas. Non-political and non-sectarian, its basic philosophy is to make freedom meaningful and real to those who follow its course of study.

Pork Prices to Remain Above Normal

It appears that 1965 is going to be a rough year for "bringing home the bacon," says Ed Uvacek, Extension livestock marketing specialist at Texas A&M University. He is referring to unusually high prices for bacon and other retail pork cuts.

Housewives are currently paying around one dollar for a pound of good quality bacon, and from all indications, prices will remain above normal throughout the year, Uvacek adds.

An insufficient supply of slaughter hogs is causing the increase in prices, economists explain. During most of 1964, market prices for slaughter hogs were low compared to production costs. As a result, producers responded by reducing hog raising operations.

Production figures reveal that Texas' pig crop for the period of December '64-May '65 is down 10 per cent from a year earlier. Slaughter pigs presently reaching market were born during that period, and the decrease in supply is maintaining the higher retail prices.

Indications are that pork supplies for June-November this year will be about 7 per cent less than those for the same period last year, Uvacek states.

For consumers who complain about the wide margin between market prices of hogs and retail prices of bacon, Uvacek points out that only three-fourths of a hog carcass can be marketed as salable retail cuts. And only about 25 pounds of bacon is obtained from a 200-pound market hog.

Gun Death Inspires Hunter Plea

A grim warning was issued by J. B. Phillips, law enforcement coordinator for the Texas Parks and Wildlife Department, to hunters about to launch the fall wildlife harvest.

And it wasn't so much about law violations as it was safety violations.

"Our field people are present to help with the hunting code," said Phillips. "And we can work toward salvaging the chronic few who have trouble understanding what they can do and what they cannot do."

"But it's hopeless when our men are called in to assist a hunting accident victim, because all too often it is just a case of waiting for the official verdict."

Phillips said game wardens and other personnel are concerned right now about gun safety because thousands are just getting the feel of a gun.

He said the first pre-season gun fatality already reported to Department headquarters should be a sufficiently shocking lesson to head up all reminders.

A man killed himself with his own shotgun when he removed it, muzzle first, from the trunk of his car.

Card of Thanks

Our hearts are filled with humility and appreciation for the loving expressions of sympathy shown us in our recent sorrow. Dear familiar faces were such a comfort. We are especially grateful to the McCords, to the cousins, nieces and nephews who stood by and helped so much. Your prayers and every deed and word will remain with us always. May God's blessings be upon each one.

Food Marketing Ideas for Shopper

At many supermarkets, large and medium size eggs are about equal in value this week. For greatest satisfaction, buy Grade AA or Grade A quality eggs and keep them cool to preserve their quality, says Mrs. Gwen Clyatt, Texas A&M University Extension consumer marketing specialist.

Prices of fryers are about the same as those of last week, making them among the best protein values. For top quality, look for the USDA Grade A shield on the label. Poultry of this grade must be well-fleshed, meaty, well finished and the appearance must be attractive.

Beef costs have eased downward a bit and more declines are expected by some forecasters. Limited supplies of pork cause prices to continue upward, but don't let current high prices on bacon, sausage, and some other pork items cause you to feel that all prices are following this trend.

On an average, about 25 per cent of the food dollar goes for red meats, with an additional eight per cent or so for poultry items. As a result, price changes on meats and poultry are of real significance and make an impression on the food shopper.

Careful shopping with a look to the various "specials" provided by retailers will reveal a number of current "good buys" in meats. Among these include chuck roasts and steaks, round steaks, ground beef and popular cold cuts.

New crop apples are now coming to market. These are mostly tart apples, excellent for making apple sauce or apple pie. Italian prunes, Santa Rosa plums, seedless white grapes, cantaloupes and watermelons are good fruit choices. Nectarines, lemons and limes are also good.

Fresh vegetables are plentiful for this season of the year. Among the best are eggplant, blackeyed peas, crowder peas, green beans,

okra, corn, squash, sweet potatoes and cabbage.

Frozen items receiving special emphasis include cream pies, orange juice, and lemonade.

Warning from FBI Director

FBI Director J. Edgar Hoover writes: "Experience shows that swift and impartial justice is one of the most effective deterrents to crime. Yet, swift justice, with all the technical loopholes and unwarranted delays in the law, is almost passe in several jurisdictions, and the rights of peaceful

citizens are taking a terrible beating from the 'impartial justice' meted out in some courts. Causes are many and more than misguided leniencies, including abuses of parole, probation and suspended sentences. A bank robber recently blamed leniency for his turn to crime."

THIRTY YEARS AGO

News items below were taken from the Thursday, August 25, 1935, issue of The Foard County News:

The largest enrollment in the history of the Crowell system is expected with the official opening of the 1935-36 term Monday morning. A total of 511 were enrolled at the beginning of the 1934-35 term and increased to 589 at the end of the year.

An election in the Riverside school district Monday resulted 41 to 25 in favor of issuance of bonds of the district in the sum of \$10,000 to be used in the construction of a combination auditorium and gymnasium, with class rooms, a bus shed, and a teacherage.

Gravelled streets and roads are the principal projects for which Crowell and Foard County are making applications under the Works Progress Administration program that is now in operation in Texas for the purpose of giving jobs to every employable man or woman now registered on the relief rolls of the state.

One of Crowell's oldest landmarks is being torn down this week and a new building for the local Church of Christ will take its place. The old building was used as the Crowell Methodist Church in the early days of this county. In recent years, it had been used by the Church of Christ.

Although repeal of prohibition carried by a safe majority over Texas as a whole in Saturday's election, Foard County gave a 408 to 211 vote against repeal.

Mr. and Mrs. Lawrence Kimsey and son, Larry Rex, moved to San Angelo this week. Mr. Kimsey has accepted a position in the credit department of the International Harvester Co.

Ebb Seales, Dade Moseley and H. K. Edwards returned Wednesday morning from a short fishing trip to Lake Kemp.

Mrs. Ebb Seales, Mrs. Marion Crowell and Misses Myrna Holman, Mayme Lee Collins and Elva Holman of Tenaha returned Sunday from a vacation trip of two weeks during which they visited Grand Canyon, Salt Lake City and points in Colorado.

Mrs. Hubert Brown of Crowell was elected leader of Zone 2 of Woman's Missionary Society of the Vernon Methodist district in a meeting last Thursday at the Methodist Church in Paducah.

Mrs. Gordon Bell celebrated the second birthday of her little son, Gordon Wood, with a party for a number of his little friends Wednesday afternoon. Attending were Katherine Smith, Mary Edna Norman, Sharon Sue Haney, Rosemary Cates, Marcia Kincaid, John Victor Sanders, David Fox, Jim Tom Cates, Haskell Hill Norman and Don Ray Burrow.

James Milton Cooper of Crowell visited his cousin, Marion Gentry, at Black last week end.

Water consumption in Crowell for the past month was heavier than for any previous month in Crowell history. After Grover Cole completed meter readings last week, it was found that a total of 3,275,000 gallons had been used.

Rattlers Ripped by West Texan

Mrs. Jim Cave, living out in West Fisher County, read a story recently about a man successfully baiting a fish hook for a rattlesnake under his house.

And allowed as how they would make way for the star slugger in this sport!

Because Mrs. Cave, in one year, caught 18 rattlers under her house by using a Number 3 coyote trap.

There was some slight strategy in that when the reptiles began using an air vent in the house foundation Mrs. Cave pinched the hole with a rock so that they would have a sither over the traps. Bong!

Glen Goodwin Is Area Director of Auto Dealers Association

Appointment of area directors throughout the state to serve in conjunction with the board of directors of the Texas Automobile Dealers Association was announced this week by TADA President Jack Rieger of San Antonio.

From Crowell, Glen Goodwin of Borchardt-Goodwin Chevrolet, was named to the post. His particular responsibilities will be to work with other TADA officials and to specialize in research that will aid the motor vehicle buying public and the automotive industry.

"The automobile long ago ceased to be a luxury," Rieger pointed out. "It is a necessity in our modern world, and franchised new-car dealers are sincerely concerned with making driving safer, more convenient, and more economical for our customers."

"Highway safety is a particularly important area for us," he explained. "We are especially proud of the number of automobiles loaned to school for driver education by our member dealers. Legislation also is a vital matter for dealers and the public alike. Automobile dealers throughout the country are proud of the success of their efforts in reducing the excise tax on new cars. It is on matters of this type, at the grassroots throughout Texas, that our area directors work, and their help is of inestimable value to our association and to every one who travels Texas highways," Rieger concluded.

Notice to Bidders

Notice is hereby given that the Commissioners' Court of Foard County, Texas, will on the 13th day of September, A. D. 1965, at 10:00 o'clock A. M., in its usual meeting place in the Court-house at Crowell, Texas, proceed to receive and consider competitive bids for the purchase of the following described road machinery:

"One Heavy Duty Motor Grader, powered by Diesel Engine of not less than 125 Horse Power, the weight to be in comparison to such Horse Power, fully equipped with starter, generator, fully enclosed cab, 14 ft. sliding moldboard and tires no smaller than 1400x24 in size, both front and rear, both with and without Scarifier," and will at such time let a contract therefor if any bid be accepted; all such bids to be made as required by law, but the Court reserves the right to reject any and all bids received. The successful bidder shall be required to execute a good and sufficient guaranty as to the uniform fitness of such machine and its soundness, and if required, to furnish a good and sufficient bond, executed by some surety company authorized to do business in this State, in accordance with the provisions of Article 5169, Revised Civil Statutes of the State of Texas, 1925, and amendments thereto.

The Court offers as a trade-in and as part payment one used Huber-Warco Motor Grader which may be inspected at the County Warehouse in Crowell, Texas; if any bid be accepted by the Court, it is the intention of the Court to pay a portion of the purchase price in cash and the balance to be represented by a Lease Contract, provided said lease contract shall not exceed the sum of \$15,000.00, payable in an amount not to exceed the sum of \$3,000.00 per year, and to bear interest at a rate not to exceed five per cent per annum. Such lease contract shall extend over a period of time not to exceed five years and the last payment due on such contract shall not be later than December 31, 1970.

PUBLISHED BY ORDER OF THE COMMISSIONERS' COURT OF FOARD COUNTY, TEXAS, pursuant to a Resolution passed by said Court on the 23rd day of August, A. D. 1965, such Resolution being of record in Volume 8, at page 61, of the Minutes of the Commissioners' Court of Foard County, Texas.

LESLIE THOMAS, County Judge.

Now Is Good Time for Making Soil Samples

August and September are good months to collect and have tests made of soil samples for fall crops. A soil test is a good source of information on which to start planning a crop production program, explains County Agent Joe Burkett, and important to farmers who plan to apply fertilizer prior to or when fall crops are planted.

Collecting a representative sample, providing a complete history of past practices and indicating yield goals for crops to be planted next, are essential requirements for obtaining reliable soil testing information, says Burkett.
