Local Residents Return from Co-Op. School in Edinburg

More than 150 managers and directors of farmer cooperatives went "back to school" the week of January 31, February 1-2 in Edinburg.

In the Rio Grande Valley setting, co-op leaders studied together for three days to improve their knowledge and skills for running their farmer-owned businesses.

Subjects covered in lecture and workshop sessions included public relations, public speaking, multifunction operations, co-op financing and legal considerations.

Attending the school from this area were Mr. and Mrs. V. A. Johnson, Mr. and Mrs. Roy Steele and Mr. and Mrs. H. A. Johnson from the Farmers Co-Op. Elevator.

The training session is sponsored annually by the Texas Federation of Cooperatives, the Houston Bank for Cooperatives and the Texas Agricultural Extension Service.

Billy D. Scott Employed by Local School System

Billy D. Scott has been employed by the Crowell School Board to teach physical education under the Elementary and Secondary Education Act of 1965. Mr. Scott will teach in the elementary and high school.

Scott has attended Texas Technological College, North Texas State University and the University of Quana High School where he lettered in football, basketball, baseball, and track. Mr. Scott was a member of the Department of Public Safety as a patrolman for four years. He resigned from this field to continue his college work.

He is married to the former Gayle Taylor, daughter of Mrs. Marjorie Taylor and the late Percy Taylor. They have two children, Linda Carol, age 5, and Michael David, age 3.

Brother of Crowell Woman Drowns in Stock Tank

A 14-year-old Chillicothe High School freshman, Roger Dale Quisenberry, was drowned Friday night in a farm pond about 100 yards behind his home in the Farmers Valley community after falling through a hole he had cut in 4-inch-thick ice to obtain a bucket of water for two project pigs.

The youth was a brother of Mrs. Alton Harp of Crowell. Mr. Harp is Foard County Deputy Sheriff.

Funeral services were held at 3 p. m. Saturday at Houston and Peace Church of Christ in Vernon. Howard Mitchell, minister of the Chillicothe Church of Christ, officiated. Burial was in Wilbarger Memorial Park.

Surviving are his parents; two brothers, three sisters, and paternal grandmother.

FT A NEWS ROUNDUP

Speech Classes

The first year Speech Classes are busy working on dramatics. Within both classes there are four plays in the beginning stage. These plays are to be presented as part of the Speech Department's program for Public School Week. The second year Speech Class is writing a play entitled, "Who's Afraid of the Big Bad Wolf." The play is a take-off on "Little Red Riding Hood," and it is a children's play. The class will write, produce, build the set, and present the play.

Repairs on the Auditorium

The high school auditorium stage is being enlarged. The apron or portion of the stage where the footlights have been, is to be lengthened about 14 inches to add to the acting area. The "winding, dangerous, curving" steps are under repair also; and in time, our auditorium will have normal stage steps. In addition to the building, new footlights are to be added. The CHS auditorium and stage will soon be an asset to the acting department and visiting performers (instead of a problem.)

Senior Personalities

At one time or another we are sure that all of the CHS girls have noticed a 5' 7" blue-eyed boy with lots of brawn. By now you have most likely guessed that we are talking about the son of Mr. and Mrs. Archie Campbell of Crowell. Paul Wayne is one boy who likes to hunt, fish, and go out with the fellows. His favorite foods are steak and potatoes.

Paul seems to enjoy P. E. more than any other subject he has. He says that his family has helped him a great deal, and they have never interfered with his plans. His pet peeve is girls who tell

him what to do. He said that he has had 18 years of this experience. After graduation, Paul plans to attend West Texas State University in Canyon. Best of luck, Paul.

The other senior personality is the 18-year-old daughter of Mr. and Mrs. Howard Gamble. Sally is 5' 5" tall and has brown eyes and brown hair. Her favorites include algebra, turkey and dressing, drawing, skating, boys, and dancing. Her pet peeve is people who act snobbish. Her brother seems to have been most influential in her life. After graduation, Sally plans to become a commercial artist. We wish her the best of luck.

Southern Assembly

A musical genius, Attila Galamb, and his father entertained the students Friday morning. Born in Pecs, Hungary, in 1953, Attila began his musical career at the age of two. He is a master of the saxophone, clarinet, drums, piano, and the Hohner Melodica, among others. The twelve-year-old prodigy travels across the country in connection with the Southern School Assemblies program. He has appeared on the Ed Sullivan TV show, at the Hollywood Bowl, and on the Ted Mack show. Attila's father has made sure that Attila keeps up with his studies, and he is currently taking his freshman year of college by correspondence with a major in physics and a minor in mathematics. Attila is a living example of determination and knowledge combined to bring out the best.

Chili Supper

FHA members sponsored a chili supper in the cafeteria Friday night. A profit was made, so they feel that their efforts were not in vain.

Sports

The basketball teams went down in defeat when they took on the teams from Munday and Knox City last week. Tuesday the teams played the Munday Moguls here. There seems to be a lack of enthusiasm for our boys and girls; and as everyone knows, this can affect the efficiency of the teams. Let's back the Wildcats all the way!

Now Is the Time to Apply Top Dressing to Growing Wheat

One of the important factors concerning top dressing wheat with fertilizer is adequate moisture, says Joe Burkett, County Agent. With the recent moisture, many farmers may want to consider top dressing their wheat with some form of nitrogen fertilizer.

Forms of nitrogen and their behavior: The bulk of the soil nitrogen is found in the surface 2 feet of soil. Soil nitrogen is present in three major forms: (1) Elemental nitrogen, a gaseous form of direct significance to plants only as it is involved in bacterial fixation. (2) Organic nitrogen makes up 5 to 6 percent of the soil organic matter by weight. Soil organisms convert it to inorganic forms (ammonium and nitrate) that are used by plants. (3) Commercial nitrogen that is found in fertilizers for crops and is mostly inorganic consisting of three types—ammonium, nitrate, and urea.

Nitrate nitrogen NO₃—Most of the nitrogen taken into a plant is in this form which is soluble and mobile. Fertilizer in the nitrate form is quickly available to plants. It is a combination of nitrogen and oxygen. It carries a negative charge so it is not attracted to clay particles. It moves up and down with the solution phase of the soil. Leaching of nitrates below the plant root zone can be a problem when moisture is excessive.

Ammonium nitrogen NH₄—The ammonium form of nitrogen, composed of nitrogen and hydrogen, is second most popular form taken into the plant. Usually most of the ammonium nitrogen is converted to nitrate nitrogen by soil organisms before being taken into the plant. This function makes ammonium nitrogen more slowly available to the plant than nitrate nitrogen. Under ideal conditions, however, this conversion takes only a few days. Ammonium nitrogen carries a positive charge and is attracted and held by the clay fraction of the soil, preventing it from moving as freely in the soil solution as nitrate nitrogen.

Urea nitrogen CO(NH₂)₂—In many ways, urea may be considered an ammonium-type nitrogen. It contains nitrogen, hydrogen, carbon and oxygen. Because it contains carbon, it is classed as an organic compound. Urea nitrogen is more slowly available to the plant than nitrate or ammonium nitrogen. Initial reaction of urea in the soil is hydrolysis—it combines with water to form ammonium compounds (ammonium carbonate, ammonium hydroxide). After hydrolysis, the nitrogen from urea behaves like ammonium nitrogen. Urea might be considered as a solid form of anhydrous ammonia and should be applied in much the same manner.

The net electron charge of soil particles is negative. As nitrogen carrying positive electron charge is applied, it will be held in place by the soil particles by chemical and physical forces. Conversely, when negatively charged nitrogen is placed in the soil, this attraction does not exist and the nitrogen is free to move with the soil moisture.

The ammoniacal form is readily converted to the nitrate form by soil organisms. The rate of change is influenced by temperature, moisture, pH, aeration and chemical and physical factors. The ammonium form of nitrogen is relatively resistant to leaching, since it does not move freely with soil moisture. This form must be absorbed by plant roots that are in contact with the nitrogen. Plant response often is slower from the ammonium form than from nitrate nitrogen.

Urea and ammoniacal forms work well where the immediate demand is not urgent and response is desired over a longer period. Nitrate nitrogen gives immediate response and gradually tapers off as plants deplete the supply. Fit the nitrogen source to individual moisture conditions in soil type and crop needs.

Tax Man Sam Sez:

If you are in business for yourself you must concern yourself with your income taxes. Internal Revenue sells a booklet called "Tax Guide for Small Business" for 50c. It answers tax questions in a non-technical, easily understood manner. You'd better spend 50c and make some tax savings.

What to Do if You Do Not Receive Your Form W-2

Dallas, Texas—Many northern Texas taxpayers may have to file their 1965 Federal income tax return without having received from their employer a wage and tax statement, Form W-2.

Some advice to these taxpayers was offered this week by District Director of Internal Revenue Ellis Campbell Jr. He suggests:

Try to get a Form W-2 from your employer. If the employer has gone out of business, contact him or the present owner of the business, and request your Form W-2.

If you do not succeed, prepare your 1965 income tax return from the best information available, and file it before the April 15 deadline. Attach a note to your return explaining why the Form W-2 is missing.

Meat Prices Are Edging Upward

Prices on red meats and poultry have increased a bit this week, says Mrs. Gwen Clyatt, Extension consumer marketing specialist with Texas A&M University.

With continued short supplies and high prices, it becomes more necessary for you to know how to compare costs per servings between cuts, to recognize quality differences and to know best methods for preparing and cooking the more economical cuts.

Best beef choices include ground beef and chuck cuts. Other features vary from market to market.

Large size grade A eggs represent good food value and are a thrifty protein choice.

Pork products are in short supply, and prices are high. There are few special prices available on fresh pork cuts, however, some markets are featuring semi-boneless hams and occasionally bacon.

Adverse weather conditions throughout the country have reduced some citrus and vegetable supplies. In many cases, the real damage to citrus and other crops has not yet been determined. A comparison of fresh, canned and

frozen products may help you get the best values. Stocks of frozen orange juice concentrate about 75 per cent larger than year ago, and prices are less than those of that period.

Grapefruit is still plentiful. Oranges of several varieties still on the market at moderate price levels. Apples for cooking and for eating continue to be of good quality as they come out of storage. Avocados are being stored by some stores. Some strawberries and fresh pineapple available at relatively high prices as is hot house rhubarb.

Best fresh vegetable choices are likely to be cabbage, carrots, turnips, rutabagas, yellow onions and sweet potatoes.

Crowell Students Urged to Attend Symphony Concert

Jerry Floyd, Crowell High School band director, has been asked to serve as regional chairman for a special concert of the Wichita Falls Symphony Orchestra on February 26. This special concert will be for students of this area.

Last year, about 1600 area students attended the special concert but none from Crowell were present, according to William L. Donnell of Wichita Falls, chairman for the symphony area youth concert.

Mr. Donnell is seeking help from Foard County residents urging the county's young people to attend.

Jean-Pierre Filipinetti, driver of a \$14,000 Mercedes, test-drove a '66 Ford. His opinion: Ford rides quieter.

Ford's Quiet Man here he discusses a '66 Ford 4 Door LTD with Jean-Pierre Filipinetti at the castle which houses the famed Filipinetti collection of over 80 classic autos.

"It's incredible," said M. Filipinetti, "the Ford is quieter."

"The quiet, it's tremendous," continued M. Filipinetti, "it's incredible that you could build a car so luxurious as this at such a price." Ford's amazing quietness is the result of deep-down quality and engineering excellence.

TOP TEXAN—Beautiful and talented Dale Evans, Queen of the Cowgirls and a world-renowned philanthropist, displays the Texas Press Association's most coveted plaque—The Texan of the Year Award. Miss Evans is the first woman to be named Texan of the Year. Four other native-born Texans have been similarly honored. Awards during previous years went to Paul Richards, Van Cliburn, Dan Blocker, and C. B. "Tex" Thornton. Pictured with her at the honor banquet in San Antonio on January 29 is her famous husband, Roy Rogers, King of the Cowboys. Miss Evans received the plaque from TPA President Winn Crossley, publisher of the Madisonville Meteor, at the closing event of a two-day TPA Mid-Winter Convention at the El Antonio Motor Inn. The couple flew from California especially for the event.

Electricity Makes A World Of Difference

We've come a long way since the Stone Age. Wouldn't the cave man be awed by our Space Age! Through the years, we've grown so accustomed to electricity we have taken it for granted. And yet, we are more dependent on electricity than any other source of energy. One of the jobs of West Texas Utilities Company is to make electricity so available, we can take it for granted. There's nothing quite like electricity...it can't be seen, heard or smelled...yet it is used daily in dozens of different ways to make our life easier and better. So sit back, relax and enjoy life...

Two Minutes With the Bible

The Bible Is for YOU

No matter which translation of the Bible we examine, one fact stands out with particular emphasis and clarity: The Bible was written for the people, for the populace at large, not for some special class among them.

St. Paul addressed his epistles to both "laity" and "clergy": "To all that be in Rome" (Rom. 1:7), "unto the church . . . at Corinth

. . . with all that in every place call upon the name of Jesus Christ our Lord" (I Cor. 1:2), "unto the churches of Galatia" (Gal. 1:2), "to all the saints . . . at Philippi, with the bishops and deacons" (Phil. 1:1), etc.

When Paul proclaimed the gospel at Berea his hearers did not take even this great apostle's word for granted, but "searched the Scriptures daily, whether those things were so," and for this God called them "noble" (Acts. 17:11). They were the true spiritual aristocracy of their day.

Our Lord, when on earth, encouraged—even challenged His audiences to "search the Scriptures" for themselves (John 5:

39). Indeed, since God has revealed Himself and His plan of salvation in the written Word, we are responsible, each one for himself, to study the Scriptures. When Dives begged Abraham to be allowed to go and warn his five brothers about the horrors of hades, Abraham replied: "They have Moses and the prophets, let them hear them," and when Dives urged that a word from him would be more effective, Abraham answered: "If they hear not Moses and the prophets, neither will they be persuaded, though one rose from the dead" (Luke 16:29, 31).

Do not depend upon your cler-

gyman to interpret the Scriptures for you but see for yourself what they say, for "every one of us shall give account of himself to God" (Rom. 14:12) and it will not be enough in that day to say: "But my minister or priest told me . . ." You are responsible to "search the Scriptures" for yourself to "see whether these things are so."

Search the Scriptures, especially the Epistles of St. Paul, and learn God's wonderful plan of salvation. "Christ died for our sins" (I Cor. 15:3). "We have redemption through His blood" (Eph. 1:7). "Believe on the Lord Jesus Christ and thou shalt be saved" (Acts 16:31).

Crowell Students Invited to Symphony Concert Feb. 26th

Crowell students have again been invited to attend the special concert of the Symphony Orchestra at 9:30 a. m., Saturday, Feb. 26, at Memorial Auditorium in Wichita Falls.

This year the annual youth concert will be a joint production of Wichita Falls Symphony Orchestra and Wichita Falls Ballet Theatre. The symphony is conducted by Wm. Boyer and directors of the ballet company are Irina Klavivova and Frank Pal, both former

performers with leading ballet companies of Europe.

Featured work of the hour-long presentation will be Saint-Saens' "Carnival of the Animals" with 34 dancers portraying the animals as the 50-member orchestra plays from the pit.

This marks the fifth year in which the Wichita Falls Symphony has programmed a special concert for youth of the area. Last year approximately 1,600 students from 25 schools of North Texas-Southern Oklahoma area were in attendance.

Found Fish;

Rancher Tommy Waters found a trotline with minnows for nels catfish and promptly caught fourteen crappie that weighed 13 1/2 pounds. This occurred in Waters' waters—his own lake where crappie had never stocked intentionally.

There were probably other crappies where the fish fooled everyone and didn't bite at all in East Texas you never hear such things.

DISABILITY INCOME—
GUARANTEED RENEWABLE!
FOR MEN AND WOMEN

PURPOSE: To provide a regular monthly income during periods of disability for the person who depends on his regular earned income to pay the fixed expenses that must continue even though sickness or accident prevents his working. A prearranged source for emergency income can prevent care of financial hardship and unhappiness. This plan provides not only the much-needed money but peace of mind as well through its Guaranteed Renewable Clause.

Special Features: (1) Guaranteed renewable (male) to age 65; and thereafter, if the insured continues regular and full time employment, under certain employment conditions. No restrictive riders or endorsements may be placed in the policy after it is in force and premiums may not be increased unless such increase is made on all such policies of the same kind and class. Females are guaranteed renewable to age 62. (2) Premiums waived after 6 month continuous total disability and premiums paid during disability will be refunded. (3) Recurring disability considered a new disability after recovery and 6 months continuous full time employment. (4) House confinement not required for total disability benefits. (5) World-wide coverage. (6) 24-hour coverage.

Tom Davis Seeking Re-Election as 46th District Judge

District Judge Tom Davis of Vernon has filed for a place on the ballot for re-election as judge of the 46th Judicial District.

The 46th District, of which Mr. Davis is presently serving as judge, is composed of Foard, Wilbarger and Hardeman Counties.

Growers Transfer Cotton Allotments

Cotton allotments of about 1 million acres have been transferred by cotton farmers to other cotton growers in the same county and in other counties within the same state under provisions of the new cotton program.

The allotments, reported the U. S. Department of Agriculture, are shifted either by sale or lease to another grower, or by transfer by an owner from one farm to another owned or controlled by the farmer making the transfer.

Department officials pointed out that the 1,031,329 acres of transferred allotments comes close to the total amount of allotments released in 1965 under the releasing and reapportionment system which has operated for many years. Under this system the releasing grower received no reimbursement. Under the new program, the grower sells or leases

his allotment for what it will bring. The purchaser, under the new sale arrangement, acquires the allotment on a permanent basis and is in a position to plan and farm more efficiently than when he was dependent on receiving reapportioned allotment annually.

Preliminary figures released for the cotton producing states on 1966 allotment transfers shows Texas producers have sold 144,383 allotment acres; leased 237,401 acres and owner transfers have included 28,961 acres. Nationally, 306,510 allotment acres have been sold; 663,019 acres leased and owner transfers have involved 61,800 allotment acres of cotton.

The USDA report also shows that some 21,870 U. S. cotton farmers have sold all or part of their allotment; 70,153 farmers have leased allotments for one or more years and 4,943 owners have transferred allotments to other farms under their control.

Auto thefts in the United States have nearly tripled since 1948, according to the Insurance Information Institute. There were 163,400 cars stolen in 1948 and 466,805 in 1964. Authorities stress that the best way to safeguard your car against thieves is to lock it and take the key with you.

Chevrolet-built cars win Four Performance Awards

Chevrolet-built cars out-performed their competition in four of eight classes at the recent Pure Oil Performance Trials at Daytona, Florida. Ellis J. Premo (above), Chevrolet's chief engineer, accepted the four trophies at an awards ceremony. While Chevrolet scored the most wins, other General Motors cars swept the rest of the classes. Sixty-two cars representing all U.S. auto manufacturers competed in the NASCAR-supervised trials. Class winners were determined by scores in fuel economy, acceleration and braking. All competing cars were selected at random and driven by professional drivers.

CLYDE JAMES

That's a Joke, Son

Chuckle of the week, borrowed from the Harrison, Ark., Daily Times—

It allegedly happened at a small country church in the Ozarks. Seems the church needed new hymnals, but money was low. A check of publishing houses revealed that hymnals interspersed with advertising cost only half as much as regular song books. This seemed a bargain, so the church ordered a quantity of the books with ads.

The hymnals arrived just prior to the Christmas Eve service and a hasty check of the fly pages revealed no kind of advertising. The books were passed out and the congregation turned to the first hymn and began to sing:

"Hark the herald angels sing, Parker's pills are just the thing; fast relief when head goes wild, two for adults, one for child."

Squeezing Profits

"Talk to any small business operator and you will learn that various taxes and burdensome government regulations already are squeezing his profits more tightly day by day. . . The proposed new minimum wage law could easily trigger bankruptcy or voluntary closing of thousands of small firms. Thus it would close doors of opportunity for the unskilled worker, instead of opening them."—Fort Pierre, S. D., Times.

Chevrolet Impala Sport Sedan with Body by Fisher

JET-SMOOTHER THE CHEVROLET WAY

We added new bushings and softened body-to-frame mounts to smooth Chevrolet's ride. We put in soft-acting shock absorbers and soft-working coil springs at every wheel. By soft, though, we don't mean mushy. Chevrolet's Way makes for a smooth, solid ride. Very steady on curves. A bump jumps from the Wide-Stance wheels to the supple springs and shocks—and pffft! It all but disappears.

Eight features now standard for your added safety—including seat belts front and back (always buckle up) and an outside rear-view mirror (always check in back before passing).

Riverside H. D. Club

The second January meeting of the Riverside Home Demonstration Club was an outstanding one when the club met in the home of Mrs. Roy Ayers.

Mrs. Cap Adkins brought the opening exercises which was very interesting. Following a short business meeting conducted by the president, Mrs. Iseng, the county H. D. Agent, gave a most interesting review of the book, "The Woman You Would Like to Be."

A quiz on "what woman did it first" was enjoyed during the social hour. Mrs. Ayers served dainty refreshments to nine members and one guest.

The first February meeting will be with Mrs. Otto Bachman Jr. in her new home.

Gambleville H. D. Club

The Gambleville H. D. Club met in the home of Mrs. Reba Calvin Feb. 4. Roll call was answered with "what I would like to decorate my home with." The opening exercise was "what I want from my secret pal for the next three months." Eleven members and 3 visitors were present. Recreation was given by Mrs. Calvin.

Next meeting will be with Mrs. Bernice Carroll March 3. The last meeting in February will be the clothing workshop by the agent on the 17th and 18th.

4-H Club Meeting

The fifth grade 4-H girls Club met in Mrs. Davenport's room. Songs were sung. The food show and project show were discussed. They voted to have a food sale at the project show. Mrs. Iseng asked if the girls had corrected any hazards at home. Mrs. Iseng showed some safety posters and gave some safety rules. She also asked some questions about manners.

Junior Leaders

The 4-H Junior Leaders met on Feb. 3 at the community center with 14 members present.

The boys and girls had separate programs. The boys' program was on money management and income tax. The girls' program on tea and coffee was brought by Harriet Halbert.

Another meeting was held Jan. 20, with the program on grades and qualities of eggs brought by Nettie Ann Burkett and Cathy

McLain. Next meeting will be at the community center Feb. 17.

1,875 pennies saved is 2,500 pennies earned
(with U.S. Savings Bonds)

If Ben Franklin were around today, he'd be amazed at what's happened to some of the things he innovated.

His fire insurance idea, for instance, has mushroomed into thousands of companies protecting millions of Americans.

His adventure with lightning has helped create myriads of electrical servants that make life easier and more fun.

And tens of millions of American families live by his principle of thrift, and save by investing regularly in U. S. Savings Bonds. At maturity Bonds pay \$25.00 for every \$18.75 you invest. Or, as Mr. Franklin might have said it, "1,875 pennies saved is 2,500 pennies earned."

And while the money is piling up for retirement, or an emergency, or your children's education, Uncle Sam is using it to strengthen the foundation of freedom Ben Franklin helped build.

Begin saving your pennies. Only 63 of them a day for one month, and you've got your starter Bond.

For your information: Series E Bonds pay back \$4 for every \$3 at maturity, are protected against loss, provide tax advantages, can be purchased where you work or bank. For current income on your investment, ask about Series H Bonds.

From the News . . .
THIRTY YEARS AGO

News items below were taken from the Thursday, Feb. 6, 1936, issue of The Foard County News:

Forms for application for payment of soldier bonus arrived Friday, according to information received from John E. Long, adjutant of the Gordon J. Ford Post of the American Legion. By early Monday morning, 25 applicants had already filled out the forms for the bonus.

The total precipitation for the month of January in Foard County is exactly .00 inches, according to the records kept in the offices of the Crowell State Bank.

The census report from the Department of Commerce at Washington states that 10,399 bales of cotton from the 1935 crop were ginned in Foard County prior to January 16, 1936.

In a cage classic Monday night on the Quannah floor, the Crowell Wildcats took a thriller from the Indians to move into a tie with them for first place in the Northwest Conference.

A map of Foard County published in The Dallas Morning News Sunday, December 5, 1909, showed that only 40,000 of Foard County's 367,040 acres, or only a little over 10 per cent of the total acreage, were under cultivation at that time.

Over two miles of highway have been graveled on the road from Gilliland to Truscott since the WPA laborers began work several weeks ago.

An old stake, one used in surveying and laying out of the site for the Foard County court house in 1910, was unearthed Monday morning as laborers were working on a construction project in the basement. The small mesquite stake was probably placed in the ground by D. L. Reavis, deceased, who did the surveying of the location for the court house. He, at least, was in charge of the driving of the stake into the ground.

Bax Middlebrook of Margaret announced this week his candidacy for Sheriff, Tax Assessor-Collector of Foard County, subject to the action of the Democratic primary.

Everybody's Food Store will have its new location in the building north of the post office completed Saturday, Feb. 8, Claude Dodd, owner and manager, said Monday.

Russell Beverly returned from a three-day trip to Fort Worth and Dallas Tuesday night. Mrs. Beverly returned with him. She had been there to market.

Gerald Knox, former employe of the Roberts Service Station on the Crowell-Vernon highway, has taken over the management of the station and renamed it Knox Super Service Station.

The local PTA honored the faculty of the entire school system at a line party at the Rialto Theatre on Wednesday evening.

Texas Cattle Raisers Association to Meet in Fort Worth March 7-9

Cattlemen attending the 54th annual convention of the Texas and Southwestern Cattle Raisers Association in Fort Worth March 7-9, will get a concise report on how to use computers in the cattle industry.

The demonstration is one of a number of highlights which promises to make the 80th TSCRA convention a profitable meeting for the hundreds of cattlemen who are expected to attend.

Headquarters for the convention will be the Texas Hotel, and Joe Fletcher of Fort Worth, TSCRA secretary-general manager, said advance registrations indicate a high attendance.

Fred Wulff of Brady, TSCRA president, has issued an invitation to all who are interested in the cattle business to participate in convention activities. Participation will begin Sunday, March 6.

The report will be in the form of a 4-H demonstration by Helen and Carol Mueller, El Paso County members of the state winning 4-H Beef Business Demonstration Team in 1965. Title of the demonstration is "From Cow Punching to Card Punching."

Information Given on Forthcoming Demo Primaries

County Democratic Chairman Ray Shirley has been notified of some important changes which have been made in the election code.

Mr. Shirley was reminded by Will D. Davis, state chairman, that election judges and clerks must be qualified voters and residents of the precincts in which they will serve.

In connection with the appointment of election judges and clerks it is pointed out that Article 3.08 of the code has been amended to allow a higher rate of pay for these election officials. The code now allows a salary of \$12.50 per working day of ten hours with no provision for payment of overtime (beyond 10 hours) except in counties with a population of 500,000 or more.

The provisions of Article 3.04 which lists the disqualifications of candidates for the offices of county and precinct chairman. No person who holds any elected public office "of profit or trust" may serve in these capacities. Precisely, any person who has been elected by the general public to any office in a city, county, district or state division of government, or who is a candidate for such office, is ineligible to hold the office of county or precinct chairman during the same time of holding (or campaigning) for such office.

Also, candidates for the position of county chairman and precinct chairman are not subject to payment of the \$50.00 deposit required of other candidates, nor are they required to file campaign expense statements as they are candidates for "party" rather than "public" office.
