### Former Residents Invited to Truscott Reunion August 18

Several inquiries have been re- ceived by members of the Truscott Home Demonstration Club concerning the picnic and reunion being planned for August 18.

Former residents and former students of the Truscott schools are especially invited to attend. However, those coming from out of town should remember there is no longer a hotel in Truscott and overnight accommodations will have to be made with relatives or a motel in Benjamin or Crowell.

The picnic and reunion will be held at 7 p. m., Friday, August 18, but some may wish to stay longer, and picnic sponsors felt they should be reminded that the town is not what it used to be in the way of accommodations.

Those attending the picnic re- union should bring basket suppers. Plates, paper cups, silver and cold drinks will be provided by the Truscott Home Demonstration Club. Those who have folding chairs might wish to bring them.

Although no program is planned, other than eating and visit- ing, Paul Bullion has promised to gather together a group of mu- sicians for some "real good coun- try music" to entertain those who attend the reunion at Clyde Bul- lion's picnic grounds.

"While in Crowell," according to Mr. Welch, "the governor of our district will talk with us about possible growth of membership in order to better represent the busi- ness and professions. His visit will also give our members a broader understanding of the worldwide Rotary organization that today embraces more than 620,500 men of practically all nationalities and political and religious beliefs."

Though a seasoned Rotarian be- fore his election to the office of Rotary governor, Mr. Jones at- tended an eight-day meeting last May in New York State at which all Rotary governors for 1967-68 received intensive training for their work.

One of his biggest jobs will be to hold a district conference of all Rotary clubs in this area. The conference will be held in Fort Worth on March 14, 15 and 16.

### Tax Man Sam Sez

The Internal Revenue folks point out that thousands of American housewives are tax law violators. These ladies consider themselves community leaders and law-abiding citizens, but fall into the trap of becoming tax law violators by failing to file a household employee's tax return on their

maid. There is also a large group who forget to file a household employee's return on the high school boy next door who mows the lawn. If you employ household or yard help, you should get a copy of Circular H from Internal Revenue and see whether you owe social security tax on these employees or not.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all respects validated and declared in said Board, except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for not less than

interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the moneys of said Fund in conformity with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time the moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated for such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and retained in said Fund, shall be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a part of the moneys of said Board; and the moneys of said Board, but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, and who, upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas, or who has resided in Texas at least five (5) years prior to the date of filing his or her application. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds hereafter issued and sold by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the interest or principal due or to become due on any such additional bonds.

"All of the moneys attributable to any series of bonds hereafter issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds hereafter issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the re-

retirement of any bonds hereafter issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed thereon the following:

"FOR the amendment to extend the Veterans' Land Program by authorizing the sale of bonds to increase the Veterans' Land Fund for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, which amendment would amend Section 49-b, Article III of the Constitution of Texas, and provide for an additional \$200,000,000 in bonds, such funds to be expended in accordance with instructions and requirements that may be provided by law."

"AGAINST the amendment to extend the Veterans' Land Program by authorizing the sale of bonds to increase the Veterans' Land Fund for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and the date of formal withdrawal of United States troops from the present armed conflict in Viet Nam, which amendment would amend Section 49-b, Article III of the Constitution of Texas, and provide for an additional \$200,000,000 in bonds, such funds to be expended in accordance with instructions and requirements that may be provided by law."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

The Captain of Our Salvation

Years ago a man of God was asked to preach at the funeral of a young soldier whose parents were unsaved.

During the course of his message, the preacher sought to impress upon his hearers the basic fact that "the wages of sin is death, but the gift of God is eternal life, through Jesus Christ our Lord" (Romans 6:23).

This greatly upset the parents. After the service they complained: "This is embarrassing. Our boy was not a sinner."

The truth was that shortly before his death this young man had done what every true, born-again Christian has done. He acknowledged himself to be a lost sinner and, trusting Christ as his Savior, had been so gloriously saved that his parents were mystified that he could be so happy in the face of death.

The simplest believer in Christ understands all this. He knows that for the "old man" the death of the body is indeed a "dishonorable discharge" for laws broken, orders disobeyed, responsibilities unmet and trusts betrayed. But for the "new man" the death of the body is the vestibule through which he is ushered into the blessed presence of "the Captain of

our Salvation," the One who the grace of God tasted death every man" that He might have many sons to glory" (See Hebrews 2:9,10).

This is why we read in Hebrews 2:14,15:

"Forasmuch, then, as the children (of Adam) were partakers of flesh and blood, He (Christ) also Himself likewise took of the same; that through death He might destroy him that the power of death, that is, the devil;

"And deliver those who through fear of death were all their time subject to bondage."

No wonder St. Paul's message of salvation was to believe on the Lord Jesus Christ, thou shalt be saved" (Acts 31).

## Make Plans for Fertilizing Wheat

The time is once again approaching to consider plans for fertilizing wheat to be planted this fall.  
Since most soils vary in their ability to supply plant nutrients, the most logical starting point for determining fertilizer needs is the soil test, says County Agent Joe Burkett. By sampling early, the report will be received in time for making the final decision as to what kind and how much fertilizer to apply.  
Nitrogen is the fertilizer element likely to be in shortest supply, points out Burkett. Organic matter as measured by soil tests is one of the guides for determining how much nitrogen will be needed. However, such factors as the amount and stage of decomposition of previous crop residue, physical condition of the soil, ability to irrigate adequately and intended grazing practices will all influence the nitrogen need of the crop.  
Burkett urges all wheat growers to send in soil samples as soon as possible. Complete information on sample collection and mailing is available at his office.

While the Suez Canal remains closed (according to a recent estimate it may take between two and six months to clear), the Cape route will be Europe's lifeline to the East, as it was in 1956. Austin, Tex.—One day after receiving a 40-year service award from the Texas Highway Commission, State Highway Engineer Dewitt C. Greer announced his retirement.

Greer reached the mandatory retirement age of 65 on July 27; but he agreed, at the behest of the Commission, to stay in the job until the end of the year.

Lt. Gov. Preston Smith, acting as governor while Connally hunts in Africa, called in Greer at his office to present him with a framed copy of a proclamation making August 4 "Dewitt C. Greer Day" in Texas.

A celebration commemorating the Highway Department's 50 years is slated for September 26. A highlight of the celebration will be presentation to Greer of funds donated to endow in his honor a

lectureship at the Texas A&M Civil Engineering Department.

Greer, a graduate of A&M, went to work for the Highway Department in 1927 and became its top administrator in 1940. During his tenure as chief engineer, Greer has supervised the investment of more than \$4,000,000,000 in a highway system that's grown from 20,359 miles to more than 68,000 during the past 27 years.

A former president of the American Association of State Highway Officials, Greer now serves on the organization's executive and legislative committees and has received its two highest honors for contributions to highway progress. In 1965, Texas Christian University made him an honorary Doctor of Laws. Texas A&M gave him its Distinguished Alumni Award in 1966.

**SUCCESSOR NAMED** — Succeeding Greer on January 1 will be Asst. State Highway Engineer J. C. Dingwall who has been with the Department since 1938 except for the World War II years when he served in the U. S. Army Corps of Engineers and four years he spent as engineer-manager of the Texas Turnpike Authority, supervising the financing, design and construction of the \$58,000,000 Dallas-Fort Worth Turnpike.

Dingwall served as the Department's supervising urban engineer in Houston, overseeing construction of the Gulf Freeway — the first major freeway built in Texas. He has been assistant state highway engineer since 1958.

**PRICE-FIXING SUIT** — State of Texas has filed a price-fixing suit against five big drug firms.

Suit, entered in federal court at Dallas by Atty. Gen. Crawford C. Martin, seeks triple damages totaling about \$12,000,000 from the producers of aureomycin, terramycin and tetracycline products. Drugs involved are used to treat both human and animal diseases and as animal feed supplements.

According to Martin, the federal government already has an anti-trust suit pending against the same firms: Charles Pfizer and Co., Inc.; American Cyanamid Co., Bristol-Meyers Co., Olin Mathieson Chemical Corp. and the Upjohn Co.

Martin alleges that the drug manufacturers charged state and local governments "unreasonably high" prices for the antibiotics through a conspiracy to limit their manufacture and sale.

Furthermore, the attorney general contends, the firms' actions inflated prices to retail druggists, wholesalers, private hospitals and the consumer.

Martin estimated more than \$3,000,000 has been spent by state and local governments alone between November, 1953, and November, 1966, to buy antibiotics

Rev. Martin will be holding a meeting there next week.

**\$300 Billion Budget Forecast for 1980**

Maurice H. Stans, the former Director of the Budget, said in a recent address: "The reasonable growth of government spending under orderly programs to meet real needs of the people cannot be questioned. But government spending for the purpose of inhibiting the competitive system is destructive. American business should take heed of the dangers of this philosophy. A \$300 billion budget in 1980 will provide a lot of government. Do you want that much? We should all ponder Mr. Stans' admonition and remember that the answer is to start cutting federal spending now."

"Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty-five Cents (35c) on the One Hundred Dollars (\$100) valuation; and no county, city or town shall levy a tax rate in excess of Eighty Cents (80c) on the One Hundred Dollars (\$100) valuation in any one (1) year for general fund, permanent improvement fund, road and bridge fund and jury fund purposes; provided further that at the time the Commissioners Court meets to levy the annual tax rate for each county it shall levy whatever tax rate may be needed for the four (4) constitutional purposes; namely, general fund, permanent improvement fund, road and bridge fund and jury fund so long as the Court does not impair any outstanding bonds or other obligations and so long as the total of the foregoing tax levies does not exceed Eighty Cents (80c) on the One Hundred Dollars (\$100) valuation in any one (1) year. Once the Court has levied the annual tax rate, the same shall remain in force and effect during that taxable year; and the Legislature may also author-

And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws. This Section shall not be construed as a limitation of powers delegated to counties, cities or towns by any other Section or Sections of this Constitution."

Income from such investment shall be used for the purposes prescribed by the Legislature.

"From the moneys received by said Parks and Wildlife Department, or its said successor, from the sale of the bonds issued hereunder, there shall be deposited in the interest and sinking fund for the bonds authorized by this section sufficient moneys to pay the interest to become due during the State fiscal year in which the bonds were issued. After

all bonds have been fully paid with interest, or after there are on deposit in the interest and sinking fund sufficient moneys to pay all future maturities of principal and interest, additional moneys received from admission charges to State Parks shall be deposited to the State Parks Fund, or any successor fund which may be established by the Legislature as a depository for Park revenue earned by said Parks and Wildlife Department, or its said successor.

"All bonds issued hereunder shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

## Uncle Sam's Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 702 Colorado St., Austin, Texas 78701. He will welcome your questions.

Q—What must I do to qualify for II-S classification as an undergraduate college student?  
A—You must file a written request with your draft board after June 30, 1967. At the end of each school year you must furnish the board with convincing evidence that you are continuing to pursue satisfactorily a full-time course of instruction.

Q—How is the phrase 'satisfactorily pursuing a full-time course of instruction' defined?  
A—An undergraduate student taking a four-year course must earn 25 per cent of the credits toward his bachelor's degree at the end of his first academic year, 50 per cent at the end of his second, and 75 per cent at the end of his third. If five years of study are prescribed by the school for a bachelor's degree in some field, a student must earn 20 per cent of the total credits toward the degree each year.

Q—What is meant by a "student's academic year"?  
A—in determining a student's eligibility for classification in class II-S (college student), his academic year shall include the 12-month period following the beginning of his course of study.

### Need Support

The Joint Economic Committee of Congress, in its recently released report on the 1967 Economic Report of the President, called for cuts in federal spending of between \$5 billion and \$8 billion. There are many Congressmen who agree that substantial cuts can and should be made. They need support from a groundswell of grassroots expressions of opinion calling for them to make meaningful cuts in spending.

According to Oil Facts, published by the American Petroleum Institute, Interior Secretary Stewart L. He pointed out that this could exceed the total amount of petroleum hydrocarbons used in this country since the birth of the industry in 1859.
