Election Ballot Change May Confuse Some Voters

Two factors may cause some balloting confusion in the No-vember 5 general election, elec-tion officials in Texas forecast this week this week.

The two factors are: 1. A new State law has inserted a new top line on the paper ballots so that persons desiring to vote a "straight party ticket" may do so by making one mark. This new line is expected to confuse not

making one mark. This new line is expected to confuse not only the "straight ticket" voters, but also the "split ticket" voters.

2. "Split ticket" voters are expected to be more numerous than ever before, especially since there is a third party, the American Party, and it has candidates for only President and Vice-President and no other offices. other offices.

Voters are cautioned to be certain that their ballots are properly marked so that their intentions will not be subject interpretation by election

The "scratch" method of voting, which some people pre-fer, is still permitted. Howare cautioned to be certain to mark through all names in all three party columns for which they do not wish to vote. There are 19 counties in

There are 19 counties in Texas that use voting machines. As in the past, one lever can be pulled to vote a "straight ticket." To vote a "split ticket," individual levers should be pulled for each candidate of the voter's choice. Persons who are uncertain as to how to operate a machine to how to operate a machine should contact one of the elec-tion officials before entering the voting booth.

Voting machines are sched-uled to be used in the follow-ing counties: Bell, Bexar, Brazoria, Cameron, Dallas, Ector, El Paso, Galveston, Gregg, Harris, Hidalgo, Jef-ferson, Midland, Nueces, Pot-ter Bandell, Busk Smith and ter, Randall, Rusk, Smith and

Foard County voters are expected to turn out in large numbers next Tuesday, November 5, to cast ballots in the general election and will vote on offices all the way from the President of the United States to county commissioner. In addition, fourteen proposed amendments to the Constitution of the State of Texas will appear on the ballot.

In previous elections voters have been called on to use either the scratch method or the checking of a square by the name of the candidate of their choice. This year the check method is to be used. If the voter desires to vote a straight ticket, a square at the top by the name of each party will simplify voting.

Voting Places

Voting will be from 8 a. m. until 7 p. m. in the following loca-
