of next week; so, the librarians are pretty busy. Senior librarians are Linda Gray, Carolyn Nichols, Terri Cates, Sara Collis and Mary Jo Glover.
 The seniors are looking forward to the party coming up in about a week. It is to be a hay ride to the river.
GOOD LUCK FRIDAY NIGHT!

Junior Class
 English class is never idle. We have been reading a play "Our Town" outside class and keep busy with tests in class. As book reports are to be Thursday, I'm sure the juniors will do a bit more reading.
 The junior class would like to say that they were behind the team all the way in the game last Friday. One of our junior boys, David Myers, suffered a cracked elbow in the game. We wish you a speedy recovery, David. The mighty Wildcats go to Holliday Friday night and the juniors would like to say "Claw the Eagles!"

Sophomore News
 This week in English II, most sophomores made oral book reports. We are also beginning to read true stories in our literature

book.
 Report cards were given Wednesday, so many students carried a few extra books home the rest of the week.
 Last Monday, Tuesday and Wednesday, the annual Lions Club carnival was here in Crowell and most sophomores attended Monday and Tuesday and the ones who made good on their report cards went Wednesday, too.
 This week we go to Holliday for a district game. Let's all go and support our team. "BEAT HOLLIDAY!"

Freshman News
 In English, freshmen have finished poems and are studying short stories again. Daily pop tests were given over individual stories and a general test was given Friday over all the stories read last week.
 Book reports are due any time now, so be sure and have one ready.
 Freshmen received their report cards last Wednesday and after recovering from the shock sighed with relief at getting it over with.

Library News
 The Crowell Library Club had its regular meeting October 7 in the library. Responsibilities of student librarians were discussed by the sponsor, Jean Halbert. Yearbook and program committees were appointed by the president, Terri Cates.
 Refreshments were served by Mrs. Halbert, Terri and Pat Cates. Next meeting will be Nov. 4.
Chorus
 Monday, Sept. 6, Crowell High School Chorus met to elect a very needed librarian, to be in charge of the sheet music. Babs Streit was elected and Gary Eddy presided over the meeting.
 This year the chorus is singing a new collection of songs, most of which have not been sung before.

Pep Club
 The Pep Club met on Monday and Thursday afternoons in the history room at 3:30 with the president, Janis Bell, presiding over both meetings. Terri Cates, secretary, read the list of fines that the girls owe. A new routine was adopted which will be presented each game when the band plays the school song at the beginning of the game.

Sports
 The Moguls took a 50-20 victory over the 'Cats here Friday. The scoring started with a two-point safety for the Moguls. They scored two more times in the first quarter.
 The two teams battled evenly in the second quarter and then in the third period the Wildcats began to move. Frog Smith capped one Wildcat drive going over from the one and three minutes later he went over again from the 3. Frog also kicked one extra point.
 Crowell was within three points until the Moguls scored four straight touchdowns.
 George Eavenson scored the final Wildcat score on a sparkling 51-yard gallop. Frog kicked the extra point.
 After playing a brilliant game, David Myers sustained a cracked elbow. We wish you a speedy recovery!!

Disability Income Is Big Part of Social Security Program
 Protection against loss of income arising from disability is an aspect of social security coverage sometimes overlooked. Either a physical or mental illness may entitle a person to social security benefits. The illness must be so severe that it prevents the person from doing substantial gainful work, and he must meet the work requirements before he is eligible.
 If you are under age 66 and believe you are disabled you should notify your closest social security office. Even if you are currently receiving retirement benefits, if you are still under age 65 and become disabled before age 65, you can apply for disability insurance.
 The nearest social security office is located at 1728 Fannin Street, Vernon. A representative from that office is to be in Crowell on Nov. 13 from 10 a. m. until noon at the community center.

**Fish for Farm Ponds
Available from Soil
Conservation Service**
Farmers and ranchers having
permanent source of water in
their livestock ponds can make
application at the Soil Conserva-
tion Service for fish that may
be obtained free of charge. The
species are bass and bream or
blue gill in the spring of the year,
or channel catfish in the fall of
the year.
All ponds need to be fertilized
to increase the production of fish,
and also to help control water
weeds and produce desirable plant
food. Use 100 pounds per surface
acre of 8-8-2. A good fertilizer
program is to start in March and
continue through October. All
ponds need several applications of
fertilizer. To check your pond if
you have used sufficient fertilizer,
nail a white disk on the end of a
stick marking the stick at 12 and
18 inches. Your pond has enough
fertilizer to feed 300 to 400
pounds of bass and blue gill per
acre, when the disk goes out of
sight at 12 inches. If your disk
is still visible at 18 inches or
more, your ponds needs more fer-
tilizer.
A livestock pond that is stock-
ed with bass, blue gill or channel
cat and fertilized will provide a
lot of pleasure fishing and fish to
eat. Those receiving catfish this
fall were Harold Fish, Henry
Black, Frankie M. Halencak, Billy
Johnson, A. V. McCombs, Grover
Moore and Allen Taylor.

Welfare Rolls Grow

"Despite the general prosper-
ity of the nation, almost 3 mil-
lion new names have been added to

years. More than 10 million per-
sons now receive welfare pay-
ments."—Brookville, Pa., Democ-
rat.

The FBI says over 1,828,000
burglaries were committed in the
United States in 1968, with aver-

STENCILED PLACE MAT—One of the simplest of decorative
arts is stenciling, a fascinating craft currently enjoying a
surge of popularity. It's an old method of transferring designs

**Teachers Used to
Play on High School
Football Teams**

Prior to formal acceptance of
football in the Interscholastic
League, the football schools played
any sort of team they could
find—social clubs, commercial col-
leges, college freshmen, college in-
eligibles and second teams of col-
leges. After formal acceptance,
incidents are noted where teach-
ers and many other non-students
participated on League teams. Un-
til the present transfer rule was
initiated in 1931, there was whole-
sale recruiting.

In many schools prior to 1931,
the starting eleven played at other
schools the preceding year. The
early football plan called for not
more than six games and no less
than four games in determining a
district championship. Unless
otherwise agreed upon, the ref-
eree and head linesman were se-
lected by the home school, and
the umpire was selected by the
visiting team.

Every state has a similar organ-
ization for football for its high
schools. The membership of the
National Federation of State High
School Athletic Associations, a na-
tional organization, consists of
the fifty states and several provin-
ces in Canada and Puerto Rico.
Each of these states and provinces
has a well-organized football pro-
gram. Each has similar eligibility
rules, and playing rules differ
only slightly.

What Is Livestock?

Livestock are animals that are
bred and raised in the western
states to keep the producer broke
and the buyer crazy.

Livestock are born in the
spring, mortgaged in the summer,
pastured in the fall and given
away in the winter. They vary in
size, color, and weight, and the
man who can guess the nearest
to the weight and market grade is
called a livestock buyer by the
public, a robber by the rancher,
and a poor businessman by his
banker.

The price of livestock is deter-
mined in Chicago and goes up af-
ter you have sold and down af-
ter you have bought.
A buyer from a Montana pack-
er was sent to Chicago to watch
the livestock market, and after a
few days deliberation, he wired
his company to this effect: "Some
say the market will go up and
some say it will go down. I say
the same. Whatever you do will
be wrong. Act at once."

When you have light cattle the
buyers want heavy ones; when you
feed heifers you find they want
steers and vice versa; and when
they're thin they should be fat,
and when your steers are fat the
buyers tell you the market on tal-
low is all shot. You got 'em too
doggone fat.

**Crime Rate for Texas
Shows Rise During
Past Six Months**

The crime rate in Texas for
the first six months of 1969 is
running 7.7 per cent higher than
the comparable period last year,
according to a report released this
week by the Texas Department
of Public Safety.

Colonel Wilson E. Speir, DPS
director, said major crime in-
creased in all categories except
murder and homicide, where the
statewide rate declined by 8.8 per
cent.

The greatest increase was listed
in the robbery category, up 31.2
per cent. Aggravated assaults
were up by 20.9 per cent, auto
theft up 14.8 per cent, and bur-
glary up 9.7 per cent. Speir said
rapes were up 7.2 per cent and
thefts up 3.9 per cent.

In Texas, the crime clock tick-
ed off one major crime every 1
and 1/3 minutes for the January
through June period. There was
one murder every eight hours, a
rape every 4 1/2 hours, a robbery
every 1 and 1/4 hours, and a bur-
glary every five minutes. An ag-
gravated assault occurred every
21 1/2 minutes, a theft every 2
and 1/3 minutes, and an auto
theft every 16 minutes.

The greatest increase in crime
was in urban areas where the
overall rate increased by 8.5 per
cent. In rural areas throughout
Texas, the average rate increased
by less than 1 per cent.

The Truscott Home Demonstration Club met Thursday, Oct. 9, in the home of Mrs. E. J. Jones. Mrs. Almanrode of Munday and Mrs. Homer Martin of Gilliland reported on the state THDA convention in Dallas in September.

Theme of the convention was "The Key Is in Your Hand." Both women attended the cultural and recreation workshop. They told of efforts being made by a state commission on cultural arts to help interest Texans. Drugs were discussed in the health workshop and LSD was called the worst of all.

Mrs. J. R. Brown presided at the business meeting preceding the program. Mrs. Marie Gillespie gave a council report and stated that the home tour has been rescheduled for Oct. 16. It will start

from downtown Truscott at 10 a. m. Homes at Truscott and Gilliland will be toured and sack lunches will be eaten at Gilliland. The Gilliland club will provide drinks. The tour will conclude with a visit to Munday homes.

A training meeting will be held at Benjamin in January. Several guests from Gilliland and Munday attended the meeting Thursday.

October to Bring About Drastic Change in Driving Habits

The month of October will bring about a drastic change in driving habits. With the return to Central Standard Time on October 26, many motorists will find themselves going to and from work in darkness. The increased hours of darkness will hide dangers otherwise visible during the daylight hours.

The Highway Patrol listed some factors why driving is more hazardous at night than during the day. (1) reduced visibility prevents drivers from seeing hazards. (2) It has been longer since most drivers have slept and the resulting fatigue increases perception reaction time. (3) It is easier for drivers to become confused and panic. (4) More drinking drivers will be on the road.

These factors in varying degrees coupled with high speed cause accidents that would not occur in daytime.

Two Minutes With the Bible

Taking God at His Word

Because of a failure to understand God's purposes as outlined in the Scriptures, some have felt it necessary to alter many of the plainest statements of Holy Writ. Supposing that God could not have meant exactly what He said, they have concluded that these things must be interpreted in a "spiritual" sense.

Actually there is nothing spiritual about failing to take God at His Word, or seeking to explain away difficulties by arbitrarily altering what He has plainly said.

First, this would leave us at the mercy of theologians. If the Scriptures do not mean what they say, who has the authority to decide what they do mean? And how can we turn to the Word of God for light if it does not mean what it says and only trained theologians can tell us what it does mean?

Second, this altering of the Scriptures affects the veracity of God. It is a thrust at His very honor. If the obvious, natural meaning of the Old Testament promises are not to be depended upon, how can we depend upon any promise of God? Then, when He says: "Whoever shall call upon the name of the Lord shall be saved" (Rom. 10:13), He may also mean something else instead of what He actually says.

Third, this "spiritualizing" of Scripture endorses apostasy, for it allows men to alter the meaning of God's Word according to their will.

The path to a true understanding and enjoyment of the Bible is not in altering but in "rightly dividing" it. (II Tim. 2:15).

Big Employer

By 1980 health care services will hire more people than any other field, reports extension specialist Minnie Bell. The industry's growth is base, she says, on more people, universal use of health insurance of U. S. families and programs like Medicare and Medicaid.

Make a clean break with the past...

Graduate to a flameless electric dryer.

It's America's favorite. Perfect for permanent press clothes.

Why go on lifting, lugging and hanging three tons of wet clothes a year? Why not graduate to a modern flameless electric clothes dryer? It's America's favorite dryer, preferred by women two to one over flame-type dryers.

Why?

Gentle Electric heat is perfect for permanent-press garments. It "relaxes" synthetic fabrics for proper wrinkle-resistance, so clothes come out soft, fresh-looking and ready-to-wear. What's more, a flameless electric dryer costs less to buy and has fewer parts to service. It needs no pilot, no flue.

So, see your appliance dealer about a flameless electric dryer now. Make a clean break with the past... and graduate to another appliance that adds to the joy of Total Electric Living.

Austin, Tex.—Will legislative redistricting force another special session of the legislature this year?

Nobody knows for sure, although rumors have been hot on the subject. Observers, including Gov. Preston Smith, have indicated they doubt reapportionment will demand emergency attention of the lawmakers.

Issue is before a three-judge federal court in Houston. Plaintiffs claim that population variance of 24.2 per cent between smallest and largest Texas legislative districts is discriminatory. They argue that big city House members should run by individual districts, not county-wide.

Court, in spite of some reports to the contrary, has not scheduled the case for hearing.

An Indiana case involving the validity of multi-member legislative districts is on appeal to the U. S. Supreme Court.

Governor Smith recently noted that 1970 census figures will be available in less than a year and that the new head count will provide a more reasonable basis for reapportionment than the 10-year-old census.

Filing deadline for legislative candidates is next February. So, if the court is going to order immediate redistricting to affect 1970 elections, it is presumed that the decision would be handed down well before the end of this year.

Naturally, the longer the court delays its decision, the closer looms the new census tabulation.

SCHOOL MONEY — Texas school board members have been hit hard in making budgets this fall, when the major part of the teacher pay raise package takes effect.

Local share of the teacher pay raises—20 per cent—must come out of local tax revenues on property, the only source of local school funds. Texas Association of School Boards, meeting in Austin, has asked for help.

A resolution adopted at the meeting requested the Texas Education Agency to make a study as to other ways in which school districts might raise money for the local share of school operations.

UNIQUE CEREMONY — It was an unusual event when Sen. Criss Cole of Houston was sworn in as President Pro Tempore of the Texas Senate.

Senator Cole, who is blind, took the oath in his home town, Hous-

ton, at the Rice Hotel, which stands on the site of the first state capitol of Texas.

It was the first time in anyone's memory that a president pro tem had been sworn in away from the state capitol in Austin.

Austin, Tex.—Higher automobile rates were adopted by the State Board of Insurance, but they are not as high as had been originally predicted.

Statewide, the increase in rates on Nov. 1 will be 9.9 per cent. Insurance board's staff earlier had recommended an 11.4 per cent increase.

This smaller increase was accomplished by accepting the recommendation of Gov. Preston Smith's study committee that the percentage allowed insurance companies for acquisition costs be cut from 25 to 22.5 per cent of the premium.

Another recommendation of the study committee headed by former Gov. Price Daniel was that the board should include investment income on insurance companies in setting the rates.

Board chairman Ned Price said the board would give careful consideration to inclusion of investment income from unearned premium and loss reserves as "profit and contingencies." He added that "we may have further comment on this at a later date."

However, Price also warned that it may not have as much effect on the price of insurance as had been thought. He said "The board has consistently recognized and considered in its regulatory acts that the companies have other income than that from underwriting."

Price also said that the board will begin, "as time and circumstances permit," a detailed study of automobile rate-making formulae. He said the study of the present formula used in setting rates would be made during the coming year. The formula, he said, "will be reviewed with the objective of determining if rates can be made more precisely by another formulae."

BIG FALL HUNTING SEASONS APPROACHING

With the last few weeks of dove season that closes Oct. 30 and approaching the October 18 date for goose season, hunters are studying date of seasons on all game and fowl that are harvested in Northwest Texas.

J. W. Harris, Texas Parks and Wildlife game warden for Foard and Hardeman Counties, reported quite a few of the doves were around for hunters to take aim, but they were drifting and were found in spotted areas with hunters having to search for the birds to reach bag limits.

Harris cautioned hunters to know the rules and regulations on the various types of game and fowl harvested here. He also reminds hunters that shooting from a public road with firearms carries a fine of \$50 minimum to \$200 maximum. Ducks, geese, sandhill cranes can be hunted with shotguns only. They cannot be hunted with rifles.

Geese—Oct. 18 through Jan. 11 are the dates for goose season in both Foard and Hardeman counties. Harris pointed out hunting was from one-half hour before sunrise to sunset. He said bag and possession limits issued by the Texas Parks and Wildlife Department read:

"In that portion of Texas lying west of U. S. Highway 81, daily bag and possession limit may not include more of the following species than: (a) one Ross' goose, (b) in the alternative one white-fronted goose; or one Canada goose; or two Canada geese.

Quail—Other hunting seasons and regulations local hunters will be interested in is the quail season which opens Dec. 1 and lasts through Jan. 31 in Foard and Hardeman Counties. Bag limit of 12 per day and 36 in possession.

Letter to Editor

Crowell, Texas.

To the Editor:
In due respect to the person who wrote in criticizing the inscription on a (bomb or missile) taken by a certain young man from here who is now serving his country in a war torn area, I'd like to say: It's strange how two people can look at the same picture and see an entirely different thing. I saw a young man, far away from home, who was proud, not of the many people the bomb was going to kill, but of just a town called Crowell, Tex., where a lovely, faithful wife is waiting for his return. It was nothing uncommon in World War II, perhaps even W. W. I, for our men to sign their town, their sweetheart or wife, etc., to their bombs, planes, tanks, etc. Today, everything has to be questioned and criticized.

Our young men stationed around the world and especially in Viet Nam, didn't ask for this war, but they're caught up in it anyway, and thank God we still have men who love their country and government enough to die for it, if needs be. I speak as a mother whose son is in the Navy and has already served in Viet Nam, and is ready to go back if need be; we also have a wonderful son-in-law and nephew serving over there now. There will always be wars, let's pray there will always be men willing to fight for what they believe in.

Sincerely,
Olive Carter.

(Last week and this, the News has printed pro and con viewpoints concerning a recent picture printed in this newspaper of a bomb in Vietnam. Since these two letters have presented both sides of the subject, this is the last letter that the News will print on the matter.—The Editor.)

Social Security News

If you plan to retire, take proof of your age when you apply for social security benefits. If you don't have a birth or baptismal certificate recorded at or shortly after your birth, take old insurance policies, poll tax receipts, old driver's licenses, your children's birth certificates or your old family Bible. Your local social security office can suggest and help you secure other acceptable evidence. Do not delay applying because you do not have these proofs.

Prospects for an excellent hunting season in both counties is on the agenda. "Lots of birds," was the game warden's report.

Wild Turkey: A few of the birds are seen along the rivers. The season in Foard County is Nov. 30 through Dec. 15 and three gobblers may be killed. No hens are included in the season.

Deer—Very few deer are found in Foard and Hardeman Counties, and those who are seeing deer say they are on land with posted signs. Harris said the deer were so scarce one might hunt every day of the season and never see one animal. Foard County regulations say the season is Nov. 30 through Dec. 15 with a two-buck limit.

Ducks—The duck season demands that a hunter know the 1969 rules and regulations to harvest limitations. The local season is Nov. 18 through Jan. 11 one-half hour before sunrise until sunset with a daily bag limit on ducks set at four. That number may not include more of the following species than two wood ducks; one canvasback or one redhead and one mallard.

Possession limit is eight and may not include more than four wood ducks and one canvasback or one redhead and two mallards.

Sandhill Crane—With a relatively new season on sandhill cranes in this part of the state, some of the big birds are being sighted in the area. There is a bag limit of three, possession of six. Harris said the sandhill crane was to be hunted one-half hour before sunrise and until sunset in both Foard and Hardeman counties.

Hunting licenses are \$3.15 for Texas residents.
