### Death By a **Motor Vehicle**

Once again in Texas we are approaching the most joyful season of the whole year, Christmas. However. traffic wise, the month of December has proven to be the most destructive month to the life of mankind -Death by a Motor Vehicle.

In 1968, two traffic records were set in Texas; the month of December had the highest traffic fatality number of 369 as compared to 341 during December of 1967. The second record was 3,481 traffic deaths for the year as compared to 3,367 traffic deaths for the year 1967.

What is the outlook for the year 1969? The Highway Patrol states "the Texas death count for the beginning of December, 1969, is 125 more traffic deaths as compared to the same time last year."

#### 1969 Texas Traffic Casualties to Top **Quarter Million**

For the first time in the state's history, more than one quarter million persons will be killed and injured on Texas streets and highways during a single year, according to an estimate of 1969 traffic casualties issued this week by the Texas Safety Association.

Basing their computations on preliminary crash records through December 12, TSA further predicted that 1969 traffic crashes will cost Texans at least \$900 million, thus exceeding earlier estimates by more than \$100 million.

TSA points out that no war has cost Texas as much in casualties and money as will 1969 traffic crashes.

### Texas Farmers Are Subject to Self-**Employment Tax**

Texas farmers are subject to self-employment tax for 1969 if their farm income is \$400 or more, Ellis Campbell, Jr., district director of Internal Revenue Service, advised this week.

The self-employment tax rate s 6.9 per cent with a maximum of \$538.20, and is in addition to income tax.

A self-employed farmer is one who operates his own business or farm. A farmer is also considered self-employed if he employs others to operate or work his farm even though he does not live on it himself.

A farmer must file a federal income tax return and pay the selfemployment tax due if his net earnings from self-employment are \$400 or more, even if his gross income is less than \$600 and he owes no income tax.

The self-employment tax applies to a maximum of \$7800. But this figure is reduced by any wages from which social security taxes were withheld. A special optional provision in the law enables farmers to acquire social security credits even if they have a loss after expenses are deducted.

"Farm" as used in the federal tax law relating to social security and self-employment taxes, includes stock, dairy, poultry, fruit, fur-bearing animals, and truck farms, and also plantations, ranches, and nurseries.

"Farmer's Tax Guide," IRS publication 225, furnishes more detailed information. The booklet is available without charge by sending a post cards to your county agent or IRS district office.

### Columbian Club

Truscott was the setting for the Columbian Club's Christmas party Wednesday of last week. Mrs. Rake read Luke 2:1-14 for the devotional.

After a short business meeting, Mrs. Ed Huskey presented two Christmas stories: A String of Blue Beads and Why the Chimes

The hostess served refreshments in keeping with the Christmas season. Afterwards, there was a gift exchange from a decorated tree. The remainder of the afternoon was spent in conversation, and viewing the lapidary work of Mr. Rake.

Next meeting will be with Mrs. H. P. Gillespie on January 7.

FOARD COUNTY HOSPITAL From the Good Fairy

According to James E. Finke, executive vice president of the Citizens Public Expenditure Survey, Inc., New York, ". . . There is a place in the financing of governmental services for sharing federal taxes with the states and for sharing state taxes with localities. But that share is not a gift from a good fairy. Government has no money of its own. Every dollar it spends must be raised by taxes. There are a great many people who do not seem to understand that elementary fact of life. Perhaps it is because they like to think of government as a power which can give them the things they want at no cost to themselves . . . "

### 1969 Yearbook of Agriculture

"Food for Us All" is the title of the 1969 Yearbook of Agriculture recently released by the U. S. Department of Agriculture. It contains basic, solid nutrition information needed by every consumer, said Secretary of Agricul-ture Clifford M. Hardin. The 400page book joins the popular edi-tions of past years which have and are serving as valuable reference and information sources relating to the great advances made by the agriculture industry.

#### "Law and Order" Ranked First

"Commerce" magazine observed that in a recent survey of opin-ions and evaluations of "Priorities for Progress" in metropolitan Chicago, the need for "Law and Order" ranked first. Without respect for law, there is no orderonly chaos and anarchy. Much needs to be done on the part of business to combat crime because commerce and industry are the most rewarding targets of criminals and often the easiest.

To win our heart's deep tender

As Bethlehem and Calv'ry prove My Jesus."

How true this old hymn is! Bethlehem and Calvary do indeed prove that the Lord Jesus Christ came from heaven to win us to Himself.

St. Paul's declaration: "Christ Jesus came into the world to save sinners" (I Tim. 1:15), takes in both Bethlehem and Calvary. At Bethlehem, Christ showed His love and Gaylynn of Tonapah, Nevada, for man, not merely by coming to be with us, but by becoming

Luke, "the beloved physician," wrote the famous "Gospel According to Luke" to show how truly man the Lord Jesus Christ was. Apart from sins, our Lord experienced all the emotions, the sorrows, the joys, the pains, the pleasures that we do. The Son of God actually became the Son of Man that the sons of men might become the sons of God.

But His life alone could not save us. His holiness would only expose our sin and condemn us. This is why the Apostle Paul de-Mr. and Mrs. Buster Kajs of clares that "Christ died for our Dayton, Ohio, have arrived to sins" (I Cor. 15:3), and that "we spend the holidays with their par- have redemption through His ents, Mr. and Mrs. Antone Kajs blood, the forgiveness of sins, according to the riches of His grace" (Eph. 1:7).

Those who believe this and trust Christ as their personal Savior rejoice in the truth of the above poem. Their hearts have been won to the Blessed One who came from heaven to Bethlehem and Calvary because He loved them.

### **Farmers Are** Customers

Each year farmers buy machinery and other products containing more than 5 million tons of steel, over 7 per cent of total U. S. steel production. Agri-business accounts for a third of the output of the automobile and truck manufacturing industry. In transportation, about half of the total tonnage hauled in the nation is agricultural products and related materials, and agribusiness accounts for about 50 per cent of the jobs in the transportation industry.

COLORFUL CORDUROY-Alive with color and high fashion is this ribless cotton corduroy coat dress by Maggie Stover. The long-sleeved A-liner proudly wears its paisley print in psychedelic shades of yellow and gold tastefully subdued by blacks and browns.

### Tax Man Sam Sez

The tax folks are concerned venience will be one of the great-jover the anxiety expressed by some taxpayers, that the new red, white and blue tax form makes life harder for the little 1040A card form user. As most of you know, Internal Revenue punched the 1040A card plum out of existence this year and gave taxpayers more space and a better arrangement on an improved form 1040, to claim all of their deduc-

tions and credits. A check by IRS showed that hospital. there were just too many cases of little taxpayers cheating them- 2 p. m.
