Paul A. Stapp, son of Dr. and Mrs. Walter Stapp of Crowell, has been invited to be initiated into Phi Eta Sigma, the scholastic honor society for men at Texas Tech who during their freshman year have distinguished themselves scholastically.

The requirements for membership in Phi Eta Sigma are very high, an average of 3.50 or better out of a possible 4.0, and is the highest scholastic distinction a freshman can attain at Texas Tech. Only about two and one-fourth per cent of the men in the freshman class attain the honor each year, James G. Allen, faculty advisor to Phi Eta Sigma and professor of English at Tech, said.

Under Mr. Blount's order, those living less than a quarter mile from the post office will continue to pick up their mail at these offices.

Possibility of Home Mail Delivery Explained by Local Postmaster

Postmaster Ted Reeder said this week that a new order from postmaster General Winton M. Blount will mean substantial improvements in mail delivery services.

Postmaster General Blount has advised the local postmaster of provisions of a new order making some delivery services available for the first time to 4 million Americans.

The service improvement applies to persons served out of 18,000 first, second and third class post offices over the country that do not have city delivery services.

Postmaster General Blount has advised the local postmaster of provisions of a new order making some delivery services available for the first time to 4 million Americans.

The fact that fewer persons will be calling at post offices for their mail will not alter the independent status of any of the post offices where the service change is provided, Reeder said.

Mr. Borchardt said that someone shot his peafowls, turkeys, geese and ducks Saturday night, Feb. 21, at his farm south of town. Public Schools Week in Texas Is March 2nd thru 6th

It's time for America to proclaim its greatness, not murmur about its shortcomings. And, perhaps Texas will lead the way. The route is through education. In order to put this country, this state back on the right track, it's time to begin teaching fundamentals again. For the last 116 years, Texas Public Schools have tried to up-

hold these principles and characteristics. But, they need support. They need your support. It starts with a public school near your home that you care about. Let your child go to that school. Let him see what you value for your life. Let us be responsible for the kind of education that will let our children know they are responsible for the future they and their parents enjoy. The time for silence is over. Too long we have listened to radicals and those who change-overs to non-responsible. Speak out—and begin with a public school in your area. March 2nd through 6th. Keep the future in the hearts of our children. Support public schools so they support you.

Your Dollar Is BIGGER at Home

... It's a statistical fact that about one-third of every Dollar we spend goes into the taxes and contributions that pay for community services and facilities ... IN THE COMMUNITY WHERE IT IS SPENT. When we run a Dollar through our own home trade channels, WE enjoy the benefits of better living and richer opportunities which a third of that dollar buys.

The dollar we spend somewhere else, pays for these advantages FOR SOMEBODY ELSE. Our money has bought the same things... but WE do not get ALL it has paid for... we have received LESS for it. And... since, obviously, we get MORE for a home-spent dollar, who can deny that your dollar is BIGGER at home?

Cub Scouts Have Blue and Gold Banquet Last Week

About 75 Cub Scouts, their parents, brothers and sisters and invited guests attended the 1970 Blue and Gold banquet held Tuesday night of last week at the school cafeteria.
Joe Ray Setliff, Cubmaster, served as master of ceremonies for the banquet. Dennis Setliff led the Pledge to the Flag and other members of the Webelos presented the American flag. Minister Wayne Oneal gave the invocation preceding the meal.
Mr. and Mrs. Ray Shirley were introduced by Mr. Setliff. Shirley serves as institutional representative of the sponsoring organizations—the Crowell Lions Club. In brief remarks, Shirley said that even with an active Cub Scout program, the Cubs will "graduate into nothing," since the Boy Scout program in Crowell is inactive at the present time. Shirley, who served as Scoutmaster for about 10 years, urged the parents of the Cubs to be active in organizing a Boy Scout troop so their sons can continue their Scout training.
Skits were presented by three of the four dens and the Webelos den. Den 2 was awarded the attendance plaque for the second consecutive month since the den had the largest number of parents, brothers and sisters attending.

Texas Turkey Trapping Nears End

Turkey trapping in Texas is well underway, according to Horace Gore, wildlife restoration supervisor in Waco for the Texas Parks and Wildlife Department.

Fifty-eight birds, 48 females and 10 males, were trapped and air freighted to the Game and Fish Department of California on January 28 as part of an agreement to trade wild-trapped turkeys for chukars and pheasants.

During the same week several turkey releases were made in Erath County on approved restocking sites.

The Texas Easter Seal Society provided direct care and treatment to 20,378 crippled children and adults in Texas in 1969. Public contributions to the annual Easter Seal campaign helped make the program possible.

Two Minutes With the Bible

The Cross and the Christian

Nothing will prove so helpful to a Christian in overcoming sin as an appreciation of Christ's death for sin at Calvary. The Bible teaches that:

1. The cross stands between the believer and his sins; the wrong things he does, or is prone to do, in thought, word and deed.

"And you, that were once alienated and enemies in your mind by wicked works, yet now hath He reconciled, in the body of His flesh, through death, to present you holy and unblameable and unreprouvable in His sight" (Col. 1:21,22).

"Christ died for our sins according to the Scriptures" (1 Cor. 15:3).

"Who His own self bare our sins in His own body on the tree" (1 Pet. 2:24).

2. The cross stands between the believer and his sin. It is not only men's sins that keep them out of heaven, but their sin; not merely what they have done, but what they are and would do; not merely their deeds, but their nature. But Christ's death took care of this too.

"... by one man sin entered into the world, and death by sin... But... much more the grace of God, and the gift of grace, which is by one, Jesus Christ, hath abounded unto many..."

That as sin hath reigned unto death, even so might grace reign through righteousness unto eternal life, by Jesus Christ our Lord" (Rom. 5:12,15,21).

"For God hath made Him to be sin for us, (Him) who knew no sin; that we might be made the righteousness of God in Him" (II Cor. 5:21).

3. The cross stands between the believer and his sinning. "What shall we say, then? Shall we continue in sin, that grace may abound? God forbid. How shall we that are dead to sin, live any longer therein?..."

Our old man nature has been crucified with Him... that we henceforth should not serve sin... Let not sin therefore reign in your mortal bodies, that ye should obey it in the lusts thereof; neither yield ye your members as instruments of unrighteousness to sin; but yield yourselves unto God, as those who are alive from the dead, and your members as instruments of righteousness unto God." (Rom. 6:1,2,6,12,13).

All America City Awards Go to Three Cities in Texas

Three Texas cities — Borger, Cuero and El Paso—are among the eleven U. S. communities awarded the title of All America City in a national competition.

Co-sponsored by the National Municipal League and Look magazine, the awards are conferred for outstanding civic achievements brought about by the united efforts of citizens.

Borger was an oil boom town that refused to be busted. Its citizens win honors for their plans to revitalize a decaying community.

When automation reduced job opportunities in local plants, triggering a population decline, a citizen committee attracted three new industries. Ramshackled buildings, skeletons of boom town days, were razed in a clean-up campaign. Civic pride resulted in new parks, street lighting, and downtown renewal, and the town's long-neglected school system was revamped.

To eliminate clouds of carbon wastes polluting Borger's skies, local plants installed multi-million dollar air filtering systems. The town formed the first air pollution control zone in Texas, setting a statewide example.

When Cuero's agricultural economy leveled off, and its young people left to seek jobs elsewhere, concerned citizens established an industrial foundation to attract new business and create employment opportunities.

After learning that its three hospitals couldn't meet Medicare requirements, Cuero formed a hospital district with taxing powers, voted a \$750,000 bond issue for new hospital facilities. In addition, a 60-bed nursing home was aided into locating in the city.

Local government was revised through a charter change. New water and recreation facilities were built and programs of paving streets and flood control were instituted. Also, a new housing code was adopted and public housing made available for elderly and low-income groups.

El Paso, the largest city to win, is cited for its efforts to improve living conditions of alienated Mexican-Americans who comprise half its population.

High School Athletes Honored at Banquet Feb. 26

Gary Lee Cates Named Winner of Denny Todd Award

Gary Cates, senior in Crowell High School, was named winner of the Denny Todd award at the annual All-Sports Banquet held last Thursday night in the school cafeteria and sponsored by the Crowell Lions Club.

This is the ninth year that the award has been presented to the outstanding CHS football player as selected by an anonymous committee. Other winners have been Jim Mac Gafford, Dale Doyal, Larry Henry, Toye McCurley, Dan Mike Bird, Mike Payne, Bob Bird and Charles Dodd.

Donnell Crosslin, coach of the state 4A football champions, the Wichita Falls Coyotes, was the principal speaker for the banquet. He was introduced by Coach L. H. Wall who said that Crosslin had been Coyote head coach for 5 years and has compiled a 42-14-4 won-loss-tied record while at Wichita Falls. He has been a resident of Wichita Falls seventeen years.

In his talk on "What It Takes to Be No. 1," Mr. Crosslin stated: First, a person must determine his purpose and goal and then be dedicated, with hard work on the field plus additional practice on the individual's own time. There are sacrifices that must be made in order to be No. 1.

A person must have faith and confidence in himself and his teammates and the individual must cooperate wholeheartedly with his teammates, coaches, teachers and parents.

A development of real zeal for competition must be developed by the individual with a desire for participation against the best. A player must play with his head, but most of all, he must play with his heart.

In concluding, Mr. Crosslin said "wear your colors with pride. After a ball game, a player must be able to look into a mirror and truthfully tell himself, 'I defended my colors with the best of my ability'."

Rev. John Gillispie, pastor of the First Baptist Church, gave the invocation preceding the barbecue dinner. Beverly Gray, president of the Lions Club, was master of ceremonies and introduced a quartet composed of Misses Jacque Gillispie, Kristi McLain, Peggy Welch and Peggy Raspberry, who sang several numbers, accompanied at the piano by Miss Rhonda Vecera.

The players from the CHS football and basketball teams, managers and cheerleaders, were introduced by Coaches Wall and Harvey Wilson.

Students honored were Rocky Bachman, Barry Branch, Bob Burckett, Kerry Cash, Gary Cates, Douglas Chowning, Rex Driver, George Eavenson, Gary Eddy, Bill Erwin, Terry Farrar, Jimmy Glover, Mike Matus, David Myers, Danny Naylor, Ronny Naylor, Buff Nelson, Lupe Palacio, Buz Raspberry, Kenneth Sellers, Jim Tom (Frog) Smith, Harry Lee Swan, Jackie Thomas, Daniel Urquizo, Jr., Johnny Urquizo, Mike Weathered, Bill Taylor, Johnny Daniels, Jackie Blackburn, Billy Ray Neal, Grover Reed, Larry Swan, Lee Jay Whitley, Bette Sue Barry, Darla Bell, Trudy Bird, Sharon Brown, Karen Eavenson, Rea Gina Eavenson, Veda Lynn Everson, Margaret Foster, Michelle Gafford, Jacque Gillispie, Karen Gray, Rheta Howard, Rhonda Howard, Barbara Streit, Rhonda Swan, Rhonda Vecera, Mary Jo Glover, Linda Gray, Sara Collins, Kristi McLain, Mieke Owens and Nancy Looney.

Tax Man Sam Sez

February 22 is not only the birthday of the Father of our Country, it is also the mid-point between January 1 and April 15. Although many taxpayers have taken advantage of the 52 days before February 22 to file their 1969 income tax return, at least 30 per cent—and probably one-third—won't take advantage of at least 50 of the 52 days between February 22 and April 15. There are far too many taxpayers who cost themselves money by crowding the income tax filing deadline and then forgetting many of their deductions as well as making errors in their last minute rush to beat the deadline.

If you didn't celebrate George Washington's birthday with your income tax filing chore behind you, it will pay to take advantage of the many figuring days you have left, rather than joining the 11:59 p. m. club on April 15. Internal Revenue will appreciate not having to correct those last minute errors you would make and you will enjoy keeping the money you didn't owe.

Book Released on Foard Farm Demonstrations

A book containing results of agricultural demonstrations conducted in Foard County during 1969 has been released by the County Program Building Committee. The new book contains tables and other pertinent information concerning the results of the various demonstrations and is available to interested persons from County Agent Joe Burkett.

The book's foreword states "agriculture on the Rolling Plains is undergoing dynamic changes, and to those who lag behind the future looks dim indeed. Opportunities for increased profits exist within the area as set forth in the Rolling Plains Economic Program (RPEP). Additional net income can be obtained only by those who adapt to changing conditions. Greater returns on investments will be obtained only by those who adjust quickly to change and use agricultural resources efficiently. Rapid adoption of the best known technology provided by research and by results of actual demonstrations as outlined in this handbook is essential for more bountiful harvests. Through the use of this technology in water utilization and management, brush control, range management, and crop production, annual income for the Rolling Plains area could be increased by more than \$66,000,000. The RPEP was established to provide goals for producers and businessmen in Foard County and to cast light on the tremendous potential which exists for increased economic activity."

Texas Schools Change Great Deal in 115 Years

The Texas public schools, which observed their 115th birthday on Jan. 31, have changed so much in recent years you wouldn't believe it.

That is, you wouldn't believe it unless you paid them a visit. Texas moms and dads, always welcome at their local public schools, have a special invitation to visit during the week of March 2 through 6.

Those are the dates for the 26th annual observance of "Public Schools Week in Texas," by official proclamation of Governor Preston Smith.

Texas school administrators, teachers and students are getting ready to show their fellow townsmen what's new in the modern school house of 1970.

Many Texas school systems, both large and small, have found that "teacher aides" can make great contributions to the school program. These classroom assistants are not trained to teach, but they are invaluable for such time-consuming tasks as giving tests, grading papers, running duplicating machines; securing, setting up and operating audio-visual equipment; assisting in libraries and labs, keeping order while teachers work individually with students, and in many other ways limited only by the resourcefulness of the teacher and teacher aide.

You don't need an engraved invitation to visit the public schools any time, but they'll be expecting you March 2-6.

Women to Play Important Role in 1970 Census

The women of the nation will play a large and vitally important role in the 1970 Census of Population and Housing, whether doing the counting or being counted.

Of the 160,000 enumerators (census takers,) the Bureau of the Census, U. S. Department of Commerce, is hiring for the census, about 90 per cent are expected to be women. Of the 12,000 crew leaders and the 13,000 office workers staffing the temporary local census offices across the country, well over half will be women. And according to calculations by bureau officials, there will be more women than men counted in the census itself.

Among the adult population (18 years and older,) women may outnumber men by as much as 5 million. Persons living in a rural area or in a small city or town, will receive their questionnaires in the mail, and will be asked to fill it out on April 1, but will be asked to hold it for pick-up by a census taker. The Census Bureau has planned the 1970 census this way so that the questionnaire can be in the home for a few days and give everyone the opportunity to provide the correct answers about

Public Schools Week in Texas Is March 2nd thru 6th

This is the year that Texas Public Schools celebrate their 116th birthday. In honor of that event, parents, friends, and relatives of students are urged to visit a public school March 2nd through 6th.

The Masonic Lodges of Texas, in the interest of continuing public educational opportunities, are once again sponsoring Texas Public Schools Week.

This is your opportunity to experience first-hand what schools in Texas are doing—an opportunity to show your appreciation to teachers . . . and to yourself for the kind of schools you provide.

You'll be glad—and your child will, too—that you visited a public school—his school. Remember, it's March 2 through 6.

Senatorial Candidate Urges Tax Credit for Small-Town Industry

Lloyd Bentsen, Democratic candidate for the U. S. Senate, has proposed that the national government offer special tax credits to industries which will locate in smaller cities and towns.

"Municipal and county governments and chambers of commerce are already doing all they can to encourage industrial development in these smaller cities," Bentsen said. "Why shouldn't the national government join in the same effort to decentralize industry and revitalize these smaller cities?"

"The dispersal of population is a worthwhile national goal. Let's use some imagination to keep rural areas from dying . . . to keep small towns from stagnating . . . to keep big cities from bursting at the seams with people who can't get good jobs elsewhere."

"I think we should speak in the broader context of population problems . . . The great migrations of the past 30 years, the crowding of our major cities at the expense of rural areas, the mobility of people and yet the restrictions imposed upon them by transportation tangles on the land and in the air.

"When we talk of decentralizing the United States, we should not just talk about decentralizing the government. Why not try to decentralize some of our problems?"

"Perhaps then we can cope with them more effectively. President Nixon has proposed that the federal government by 1976 should be funneling five billion dollars in its revenues back into the states and local communities in block grants."

"I am for this approach . . . it's been backed by both Democrats and Republicans as a promising way to get state and local government to work on more problems which they can handle better than the federal government," Bentsen said.

Austin, Tex.—Top Texas officials have agreed on general outlines of a plan to combat the rising problem of drug abuse.

Gov. Preston Smith, Lt. Gov. Ben Barnes, Atty. Gen. Crawford C. Martin and House Speaker Gus Mutscher are united in a statewide concentration of effort. Plan was announced after a meeting of the four in Smith's office last week. Texas Justice Council will serve as coordinator.

Coordinated law enforcement action will first be called on to try and dry up the sources of dangerous drugs.

Top priority is given a "total education" campaign for youth, adults, teachers and law enforcement personnel on drug dangers and possible solutions to the problem.

Task forces will be named to develop effective concepts and action programs in enforcement and education.

Leaders agreed on this immediate-action program:

—One-day seminars for Texas law officers and prosecutors.
—Exchange of vital information with Mexico.

—Assistance through the Justice Council to implement school education.

—Review of successful narcotics programs in other states.

—Greater assistance to local enforcement and prosecuting agencies in evidence analysis.

—Gathering of statistics in major cities on drug-related crime.

—Creation of a model drug information office.

Narcotics strike forces will include local, state and federal personnel, military manpower and use of helicopter patrols along the Rio Grande.

Another task force will attempt to explore causes of drug use and to evaluate proposed research and rehabilitation programs as well as to implement educational programs in schools.

State officials will meet here March 13 with aides to U. S. Atty. Gen. John Mitchell. They will explore federal support possible under remedial programs and the uniform controlled dangerous substances act now before congress.

WELFARE CRISIS AVERTED

—Welfare Board cancelled its

April 1 cuts in aid to needy families and medical assistance after Governor Smith ordered \$13.5 million in medical school building funds shifted to welfare.

Deputy Welfare Commissioner Herbert Wilson said the fund transfusion will run programs at present levels through August and maybe longer.

Cuts of 12 per cent in Aid to Families with Dependent Children and 20 per cent in Medicaid had been ordered for April 1. In ordering the transfer to make this reduction unnecessary, Smith also directed strengthening of the welfare program administration and a step-up in rehabilitation efforts.

ATTORNEY GENERAL RULES
—Fraternal and veterans organizations operating clubs and serving alcoholic beverages are subject to sales tax as ultimate consumers for mix, beverage, ice or set-ups, says Attorney General Martin in a new opinion. However, Martin said, the "makings" are not subject to further sales tax when incorporated into alcoholic beverage served to guests and members.

In other recent opinions, Martin concluded that:

—Amarillo Mayor J. Ernest Stroud did not automatically resign as mayor when he announced his candidacy for Randall County Judge.

—Alcoholic Beverage Commission does not have authority to construct a revenue station at Eagle Pass from appropriated funds.

—Board of Insurance is authorized to permit continuance of above-ground storage tanks for flammable liquids at retail service stations where they were in service prior to last September 1 and where they conform to safety standards.

—County Commissioners have no authority to budget an amount for the current year which exceeds the county auditor's anticipated revenue.

RETROACTIVE PAYMENTS
—A total of 131 persons received \$53,811 in retroactive welfare payments under terms of a San Antonio federal court order invalidating the one-year state residence requirement.

Since last October, the welfare department has been trying to locate 413 who might have been eligible. Payments went to these categories:

—Aid to Families with Dependent Children—\$48,097 to 112 persons.
—Aid to Disabled—\$823 to three.
—Old Age Assistance—\$4,882 to 16.

Easter Seal programs on national, state and local levels are directed by 30,000 volunteer board committee members. They are counseled by nationally recognized medical and rehabilitation authorities. They are fortified by the dedicated efforts of hundreds of thousands of community volunteers.

Last Rites Held for Mrs. Greening

Funeral services for Mrs. Henry Greening, 64, were held from the First Christian Church at 3 p. m., Thursday, Feb. 26, conducted by Minister Philip Wilson, assisted by Rev. Warren Everson, Bethel Church pastor. Interment was in the Crowell Cemetery under the direction of Womack Funeral Home.

Pall bearers were Roy M. Whitely, Roy C. Steele, James Sandlin, Fred Borchardt, L. B. Smith and Floyd C. Borchardt.

Mrs. Greening was killed about 9 p. m., Monday, Feb. 23, when struck by a car as she was crossing North Main Street.

Mrs. Vaneta Greening was born in Denton County, Nov. 16, 1905 and came to Crowell in 1924. She was married to Henry Greening Jan. 5, 1925.

A faithful member of the First Christian Church, Mrs. Greening was an assistant Sunday School teacher. She was also a member of the Rebekah Lodge.

Survivors include her husband; two sons, Wayne Greening of Quanah and John Greening of Tuntuliak, Alaska; two daughters, Mrs. Jack Powers of Crowell and Mrs. R. C. Daniel of Truscott; nine grandchildren; two sisters, Mrs. Arie Wells of Dallas and Mrs. Avis Harris of Longview; one brother, Leonard Vaught of Dallas.

Memphis Man Is Republican Candidate for Representative

Zack Fisher of Memphis has announced his candidacy for the Texas House of Representatives, District 80.

Fisher, 28, is an independent insurance agent, and a farmer-rancher in Hall County. He is a member of the First Methodist Church, Chamber of Commerce, and Rotary.

A graduate of Spearman (Tex.) High School, Fisher attended Panhandle A&M College and the University of Texas at Austin before moving to Memphis in 1965.

He and his wife, Texie Ann, have two children: Kelli Dawn 6 and Devin 4.

"I believe in responsible government that gives the taxpayer full value for each dollar spent," Fisher said. "My business and agricultural experience would help me effectively serve the people of our district. If elected, I will work for water resources development and sound improvements in education and law enforcement."

Fisher, a Republican, said he believes "a strong two-party system will improve our state government by providing full and open discussion of all important issues."

Fisher has been active in campaigns for U. S. Senator John Tower and Congressman Bob Price.

Lake Kemp Dam and Spillway Work to Begin in June

Start of the \$6 million-plus rehabilitation of Lake Kemp dam and spillway will begin in June, according to timetables for the long-delayed project.

The timetable for the project as announced by Col. Vernon Pinkney of the Tulsa District, U. S. Army Corps of Engineers, is:

Advance notice seeking bids from contractors interested in instituting the mammoth project were dispatched Thursday, February 19.

Official notice of advertisement for bids for the project will be published March 5.

Bids will be opened at the Tulsa office of the U. S. Army Corps of Engineers on April 9.

Contract award is expected in May, with the successful bidder expected to be ready to begin work at the Lake Kemp project site before July.

Should there be any necessity for rebidding the project, time will remain to do so and still start construction before the end of this fiscal year, it was reported.

Delayed a year by a presidential freeze of public works projects, the Lake Kemp rehabilitation program originally involved an expenditure of \$7,050,000.

After bids were taken on the Lake Kemp project a year ago and the contract award expected, the freeze was announced.

Although many public works projects were suspended by the freeze and have not surfaced to date, that of Lake Kemp, with its urgent label, became the object of the attention of U. S. Sen. John Tower and U. S. Rep. Graham Purcell of Wichita Falls, and many area opinion leaders.

An allocation of \$1 million for start of the Lake Kemp program thus was re-inserted into funding, followed by the earmarking of another \$1.3 million, not yet approved, to continue the undertaking through fiscal 1971.

Former President Lyndon B. Johnson, prior to leaving office, had budgeted some \$2 million-plus for the start of the project. However, it was caught in the change of administration.

Amis Construction Co. of Oklahoma City was low bidder, with \$6,130,000, for the job in February 1969. Although the bid was \$300,000 over estimates, it was considered within the over-bidding limits normally established for such cases.

Rehabilitation of Lake Kemp is expected to open new horizons for water resources development in North Texas. Lake Kemp's utilization as a source of supply for both human and agricultural needs has been declared contingent upon the rehabilitation of its mechanical facilities.

Food for 45 People
It was noted by the American Farm Bureau Federation that in the United States one farmer now produces food enough for 45 people, compared to 15 in 1948.

The Easter Seal Society's \$25 million treatment program is given through a nationwide network of rehabilitation and treatment centers, clinics, camps and therapy units that provide professional care and treatment for crippled children and adults.

Six Flags Will Open April 11th

Six Flags over Texas will begin its 1970 season April 11 featuring one of the world's most colorful and exciting attractions, Los Voladores, the Flying Indians spectacular.

The best-known feature of the Los Voladores presentation is the "flight" by four members of the troupe who spiral from the top of a 100-foot pole while grasping four slender ropes.

The breathtaking descent of the flyers is preceded by a performance by the group's chief who dances on a 12-inch platform at the top of the pole... ten stories in the air.

Los Voladores will present four to five shows each day, and, like all rides, shows and attractions at Six Flags, the performances are free to park guests who have bought the one-price ticket: \$5.00 for adults and \$4.00 for children (under 12).

Twenty facilities and programs in Texas financed by Easter Seal contributions are giving help where needed by providing medical diagnosis; physical, occupational and speech therapies; special education; recreation; psychological and social services; sheltered employment, and other care and treatment for crippled children and adults require to walk, talk, and live like others.
