County Receives Snow Wednesday of Last Week

Rain and Light Snow Fall Monday and Monday Night

Foard County received a small amount of additional moisture last week as the result of a snow which fell Wednesday afternoon and night, and Thursday morning.

Official measurement of moisture from the snow was .2 inch. The snow began falling about 3 p. m. Wednesday and continued until about mid-morning Thursday. The ground was covered to a depth of about one inch.

The weather cleared up Friday and Saturday to make ideal conditions for the project show here, then turned bad again Sunday afternoon. A light rain fell most of Monday and a light snow fell Monday night. Monday's rain totaled .21 inch.

This moisture, added to the 3.10 inches already received here in March, brings the total for the month up to 3.51 inches to noon Tuesday.

Easter Program Set for March 25

Special Easter Cantata Will Be Presented at First Baptist Church

Annually, the Crowell Ministerial Association presents a special program during the Easter season with emphasis on the death, burial and resurrection of Christ. This year's presentation will be a cantata, "Hallelujah for the Cross" by John W. Peterson.

In interpreting the theme, Mr. Peterson says, "The cross is the universal symbol of Christianity. This is only proper, for it was on a Roman cross that our Lord died to reconcile God and man and provide for our salvation. Though an instrument of death, it signals a beginning and not an end, for

because of the cross we have an empty tomb, a great commission, and ascended Lord, an empowered church and a glorious hope of Christ's return."

The cantata tells the dramatic story of redemption using both original compositions and familiar hymn tunes plus narration from the scriptures. The cantata will be presented by a combined choir composed of members of the different churches in Crowell. The choir is under the direction of David Stapp, music director of the First Baptist Church. Mrs. Walter Stapp will be pianist and Mrs. Glenn Halsell will be organist.

March 20 Deadline for Signing Up for ASCS Programs

The March newsletter of the Foard County ASCS office gives several reminders to Foard County farmers. Among the highlights of the newsletter are:

March 20 is the final date to sign up for the wheat, feed grains and cotton programs for the coming year.

Requests for use of the measurement service should be made as soon as possible. "Better to be sure than sorry. We cannot over-emphasize the importance of certifying to your program acreage correctly. Inaccurate certification could cost you your program payments," the newsletter said.

Recent changes enable farmers to plant and harvest guar on all diverted acreage for 1970. This includes the minimum acreage required by program participation.

The payment reduction will be 50 per cent of the applicable additional diversion rate for the particular farm times the number of acres planted to guar. Landowners are urged to check with the local office for further details as to how this will affect a farm.

Sweet sorghum or forage sorghum is not eligible to plant on diverted acres. Oats and rye left standing is eligible if a request is filed with the county committee by May 1.

Some of the FHA girls went to Stephenville Friday, the 13th, to an Area Four district meeting. The juniors who went were Elaine Jackson, Carolyn Moore, Charlotte Walker, Kay Shirley and Rita Coffey.

Three plays were presented on Tuesday, March 17, at 9:15 a. m. Juniors participating were Peggy Raspberry, Kenneth Sellers, David Myers, Shayne Garrett, Jimmy Glover, Marvin Machac, Elaine Jackson, Jerry Martin, Kay Shirley, Brenda McGee, Pat Cates and Rita Coffey.

Sophomore News

The annual livestock show was held last Saturday in the VA building. Sophomores winning honors were Jackie Daniel, who won reserve champion in the fat steers class; Bill Taylor won second in the judging of rabbits. Jackie also got first in the breeding of lambs. The show was a big success and everyone had a good time.

There were also other school events last Saturday. A track meet was held at Holiday. Crowell placed second in two events. A portion of the homemaking girls went to Stephenville over the week end to an area meeting. They all learned something and enjoyed the trip. The one-act play cast took their play to Lubbock last Friday and Saturday. They pre-

sented it at Texas Tech.

In geometry, we have gone from rhombuses to ratios. Mr. Gafford informed us last week that it was supposed to get easier. Everyone hopes so.

Cheerleader tryouts are coming up. All you girls trying out better start practicing. There will be two cheerleaders from our class next year.

Freshmen News

Everyone was speechless Wednesday when it started to snow—all that fine weather—the fruit tree blooming and snow! They quickly took control of the situation, however, and hardly a person left by Thursday who hadn't been snowballed.

Pictures were to have been taken Thursday and everyone came in her or his best and brought extra suits and clothes. But, because of the weather, the pictures were not taken.

Tuesday, Dr. Ralph Melville gave a Southern Assembly program on glass blowing. We all enjoyed the program.

Southern Assembly

Glass pattern making or glass blowing, as it is commonly called, is one of the oldest known arts and was the subject of a Southern Assembly presented by Dr. Ralph Melville on March 10. Dr. Melville is one of the seven pattern makers in the United States today. He has created glass patterns for Corning Glass Works and 20th Century Fox Films. He not only traced the history of glass from its beginning, but described its many and important uses in industry. He has fashioned wigs and dresses of glass for famous stars. He has lectures that have been carried by many of the country's leading radio stations. He previously taught at the University of Washington, Washington state.

His program has been approved by the Puget Sound Academy of Science for school purposes. There was humor, entertainment, philosophy, with a theme intended to impress the audience with the value and importance of education in the fast-moving world. Mr. Melville's creations were left for permanent viewing here in CHS.

F. H. A. News

The 12 FHA girls left for Tarleton College Friday the 13th. Those who attended were Trudy Bird, Cindy Wisdom, Rita Coffey, Darla Bell, Karen Gray, Ruth Brown, Carolyn Moore, Charlotte Walker, Elaine Jackson, Pat Matius, Kay Shirley and Janis Bell. Mothers and sponsors who went were Mmes. Jean Bell, Mona Moore and Mary Brown.

Friday night, there was a talent show of girls in skits, songs, etc. Saturday, the program was on "FHA in Action for America."

The guest speaker was Bill Sarpalius, former FFA president from Boy's Ranch.

THIRTY YEARS AGO

News items below were taken from the Thursday, March 14, 1940, issue of The Foard County News:

Another great Crowell basketball team coached by Grady Graves finished the 1940 season in Austin last week in fourth place in the state race after winning a thriller from Dublin in the first round of the state tournament and dropping sensational scraps to San Marcos and Livingston, defending state champions. Gus Russell, Crowell forward, was placed on the first All-State team by the coaches for his consistent, excellent work displayed in the Wildcats' three games. Dick Smith, guard, and Jack Fitzgerald, center, placed on the second All-State team.

J. C. Cobleigh of Cisco has leased the City Hotel from Mrs. Cassie Shivers of Houston, Miss., and also bought the furniture and fixtures owned by Mr. and Mrs. L. Kamstra, who have operated the hotel for about five years, and is now in charge of the business.

FHA Club calves sold to local butcher shops dressed out at a high per cent. The Glendon Russell calf butchered by the Foxway Market dressed 62 per cent. The Truman Taylor grand champion calf butchered by the Haney-Razor Market dressed 63 per cent and the Cotton Owens calf butchered by Lanier's dressed 65 per cent.

A bone, broken into three parts, was brought to The News office this week by Walter Thomson and from the description of its discovery, it was believed to have been from an animal which roamed the earth thousands of years ago and then a few days later, a tooth, undoubtedly one from a prehistoric monster, was found near the same spot.

The Crowell postoffice will be closed at 4 o'clock Saturday afternoons beginning March 16, according to an announcement made this week by the postmaster, Alva Spencer.

The Foard County Interscholastic League meet will be held in Crowell on Thursday, Friday and Saturday, March 21, 22, 23 at the Crowell High School building and athletic field.

Ten Rules for Raising a Juvenile Delinquent

1. Begin at infancy to give the child everything he wants. In this way he will grow up to believe the world owes him a living.
2. When he picks up bad words, laugh at him. This will make him think he is cute.
3. Never give him any spiritual training. Wait until he is twenty-one and then let him decide for himself.
4. Pick up everything he leaves lying around: books, shoes, clothes. Do everything for him so that he will be experienced in throwing all responsibility on others.
5. Quarrel frequently in his presence. In this way he will not be shocked when the home is broken in later.
6. Give a child all the spending money he wants. Never let him earn his own. Why should he have things as tough as you had them?
7. Satisfy his every craving for food, drink, and comfort. Denial may lead to frustrations.
8. Take his part against neighbors, teachers, policemen. They are all prejudiced against your child.
9. When he gets into trouble, apologize for yourself by saying: "I never could do anything with him."
10. Prepare for a little grief. You are bound to have it. AND HOW!

Austin, Tex.—With a total of 901 new plants, Texas has earned No. 1 rating among the states in industrial development for 1969—first time in its history.

Gov. Preston Smith announced that Dun & Bradstreet Corp., in a report published by the Fortune magazine marketing research staff, bestowed the recognition.

Number of new plants in Texas last year exceeded California's by 42 per cent. California was in second place.

Texas is the only southwestern state to rank in the top ten of New industrial locations.

Only six other states now exceed Texas' overall total of 15,576 manufacturing plants. Number increased by six per cent during last year.

Smith credited the increase to efforts of the Texas Industrial Commission and "the close-knit alliance between local, regional and state development groups and the partnership of industry and government that we have in Texas to promote a better life for all citizens."

Top ten states invested \$7.9 million in programs to attract industry last year. Texas spent only \$385,570—or less than five per cent of the total. State's share of the 3,813 new plants nationwide was 24 per cent.

"For an investment of one-half the average, Texas has been able to accomplish nearly three times the results," Smith boasted.

Other states among the top ten were Georgia with 609, Illinois with 290, Alabama with 289, Indiana with 240, Florida with 224, Minnesota with 224, Ohio with 212 and North Carolina with 189.

SAFE DRIVING PROGRAM PUSHED

Governor Smith pledged all the influence and prestige of the governor's office to curb highway traffic accidents.

His "Friendly Drive" program calls for:

- Operating vehicles responsibly.
- Obeying all traffic laws.
- Respecting state and local police officers.
- Being generous with the right of way.
- Keeping vehicles in good operating condition.
- Avoiding driving while unfit (particularly when drinking).

WELFARE

Social Security checks will increase April 1, but many will receive smaller state assistance payments and some will become ineligible for state aid.

Welfare Commissioner Burton G. Hackney said Social Security Act amendments will have this effect on Old Age Assistance:

- About 138,500 OAA recipients will receive smaller state checks, although with social security increase, income will go up about \$4 a month.
- Another 95,500 will get \$4 more in state Old Age Assistance.
- About 4,100 will no longer be eligible for state aid. These now receive relatively high social security benefits and token state aid.

WINNERS NAMED IN PROJECT SHOW HERE LAST SATURDAY

1970 Census Will Measure 10 Years of Change in Texas

Ten years of change in Texas
 population and housing will be
 measured by the Nineteenth Cen-
 sennial Census to be conducted
 throughout the nation in April
 1970, by the Bureau of the Cen-
 sus, U. S. Department of Com-
 merce. The new statistics will up-
 date information last collected in
 the 1960 census.

First Texas Census
 Texas, originally a part of
 Mexico, won its independence by
 revolution in 1835-36, and con-
 tinued as an independent republic
 until 1845, when it was annexed
 to the U. S. and admitted to the
 Union as the 28th State. The
 present boundaries of the state,
 except for minor changes, were
 established in 1850.

Texans numbered 212,592 in the
 1850 census. By 1900 the popula-
 tion had grown to 3,048,710. The
 most rapid growth rate in the
 20th century (27.8 per cent) oc-
 curred during the 1900-10 decade.
 By mid-century the population
 stood at 7,711,194. The largest
 numerical increase (1,868,483)
 occurred during 1950-60.

The 1960 Census
 In 1960, with 9,579,677 inhabi-
 tants, Texas ranked sixth in popu-
 lation among the 50 states and in
 the District of Columbia. Of the
 total, 1,187,125 were Negro.
 Three-fourths of the population,
 75 per cent, lived in urban areas,
 about 7 per cent on farms or
 ranches, and the rest were non-
 farm rural residents.

Among Texas' 254 counties the
 1960 population ranged from 226
 in Loving to 1,243,158 in Harris.
 About half the counties lost and
 half gained population during
 1950-60. Counties that gained
 more than 100 per cent are An-
 drews, Ector, Midland, and Ran-
 dall.

Education and Income
 The median number of school
 years completed for Texans 25
 and older in 1960 was 10.4 years
 compared with a national median
 of 10.6 years. There were 403,447
 persons who had completed 4
 years or more of college and 2-
 321,155 persons 5 to 34 years of
 age enrolled in school or college.
 Median family income in Texas
 was found to be \$4,884 in the last
 census compared with a median
 of \$5,660 for the U. S. Per capita
 income was found to be \$1,626
 compared with \$1,850 for the U. S.

Are you going to go through another year thinking you can't afford an Oldsmobile?

Our own
 surveys indi-
 cate that quite a
 few people think an Oldsmobile is out
 of their reach. They think it costs a lot more
 than it really does. Result? Many people
 buy an ordinary car and end up with a lot
 less car and value for their money.
 It's so unnecessary, too, because Olds-
 mobile has many models that are priced
 right down with the so-called low-priced
 cars.
 So why settle for the ordinary when you
 can step up to an Olds and all the value
 that an Olds represents.
 Take this big, exciting
 Delta 88, for example. It starts
 out with a surprisingly modest
 price. Add to this the features that make
 it such an outstanding value—extras that
 are included in the modest price: □ Reg-
 ular-gas Rocket V-8 □ Power Steering
 □ Power Brakes, front discs □ Nylon-
 loop carpeting □ Bias-Belted Tires □
 Door Side-Guard Beams □ Hidden Radio
 Antenna □ Flo-Thru Ventilation □ Bigger,
 better riding 124" wheelbase. Check these
 extra values at your Olds dealer's today!

Columbian Club

"Texas Women of Note" was the program title at the Texas Day meeting of the Columbian Club. As has become almost a custom, the hostess for this annual observance was Mrs. N. J. Roberts, and roll call was answered with the name of a well-known Texas woman.

As leader for the afternoon, Mrs. Bill Rake gave interesting highlights of the lives and contributions of several outstanding

Texas women. Lady Bird Johnson, for her efforts to beautify the state and nation; Dale Evans, a movie and TV star whose personal life is inspirational to women everywhere; Judge Sara T. Hughes of Dallas for her contribution to the legal angle; Texas' only woman governor, Mrs. Ferguson; Mary Martin, actress; Mrs. Wright Patman, Democratic committeewoman; Mrs. John Tower, wife of Republican U. S. Senator John Tower, were but a few of those women whom Mrs. Rake mentioned.

During a discussion session, other women of note were acclaimed, such as State Senator Barbara Jordan, Texas' only Negro woman senator; Mrs. Edith Deen, author of books on woman's role in religion and club members realized women contribute a vital part to the educational, religious, political and entertainment areas of Texas life. A refreshment plate was served at the conclusion of the program, and Mrs. Ed Huskey was announced as hostess for the next meeting.

Two Minutes With the Bible

Fear of Death: Is It Necessary?

Most people live in almost constant fear of death. They do not like to think that man's days are as grass and all his glory as the glory of a fading flower (Psa. 103: 15,16). They do not wish to face up to the fact that "it is appointed unto men once to die" (Heb. 9:27).

This is natural, for God's Word declares that death is "the wages of sin" (Rom. 6:23) and "after this the judgment" (Heb. 9:27) and the danger of the "second death" (Rev. 20:14). This is why I Cor. 15:56 says that "The sting of death is sin."

Yet the Psalmist David was not afraid of death. He said: "Yea, though I walk through the valley of the shadow of death, I will fear no evil"—but note the reason: "For Thou art with me" (Psa. 23:4). David had come to know God and had been delivered from the fear of death.

But we, today, have an even greater reason to be free from the fear of death, for 1,000 years after David, Saul of Tarsus, the chief of sinners, was saved by grace and was sent forth to proclaim the "gospel (good news) of the grace of God" (Acts 20:24).

He went forth to tell men how "Christ died for our sins" (I Cor. 15:3) and robbed Satan of all his claims against us . . .

"That through death He might destroy him that had the power of death, that is, the devil; and deliver them who through fear of death were all their lifetime subject to bondage" (Heb. 2:14,15).

And when the apostle himself neared death, he said: "To die is gain" (Phil. 1:21) and "the time of my departure is at hand; henceforth there is laid up for me a crown . . ." (II Tim. 4:6-8).

What Parents in Little League Should Know

The Little League movement which was formed over 30 years ago in Williamsport, Pa., has grown to become the largest baseball program in the world. The values of Little League baseball are many, but from every aspect of its operation they relate directly to the youngsters who participate. Unless Little League helps youngsters develop characteristics of sportsmanship, discipline and decency, the Little League movement cannot fulfill its purpose.

The parent in Little League should feel obligated to learn and to know the basics of the league operation. Folks who work in the local leagues are volunteers who dedicate their time, service, and in many cases, their personal funds to keep alive a deserving part of athletics, calculated to see children develop in poise, physical fitness, a sense of teamwork and, indeed, reverence for the untold opportunities youngsters enjoy today.

The first important event in Little League takes place when parents bring their children to register. This is the occasion when children, in many cases for the first time, react to their peers in the local neighborhood or community. If the registration is carried out correctly, it will do away with the need for many later checkups that hurray league officials.

Little League has the highest level of safety and protection of any youth athletic program in the world, thanks to continuing research, application of rigid standards of equipment and a set of rules and regulations distilled from long experience and study. Parents may be assured that their children who play Little League baseball wear the best and safest equipment available.

Accident insurance is taken out on each participant in the Little League program. The accident insurance policy guarantees that full payment will be made for any injury incurred under its terms up to as much as \$5,000.00. When other insurance is in existence at home, the first payment for any accident costs should be made from the policy and the balance from the Little League policy. In either case, payment is guaranteed. The local league pays the premium. The policy is available as a service, but only to the league.

Over the years in which it has operated, Little League baseball has become a wholesome and welcome adjunct to many thousands of communities. Its purpose is service, its management is charitable, non-profit; it is dedicated to help youngsters and it has earned the esteem of millions of graduates whose lives it has touched. "We hope you will benefit from the experience in Little League and that your children will enjoy its blessings." LL President L. H. Wall, Jr. said Monday.

Nearly 37 million people in 36 nations were helped last year by CARE food, self-help and medical programs.

Political Candidate to Speak at WSL Meeting Thursday

Leon Williams of Quanah, candidate for state representative, District 80, will be guest speaker at Thursday's (today) luncheon meeting of the Women's Service League, according to Ora Mae Fox, program chairman. Mrs. Williams will be a guest.

Steve T. Podrovitz, Hardeman County deputy sheriff, presented a most informative talk on narcotics at last week's meeting. He also displayed samples and pictures of the dangerous drugs. Mr. Podrovitz urged local citizens to attend the program at the First Christian Church Friday night, when the top state narcotic agents will be speakers.

Members of the two bands who played in the recent battle of the hands were special guests of the WSL.

WSL members are reminded that next week's meeting will be Tuesday when they are to meet jointly with the Lions and Rotary Clubs to hear Sherman McBeath, assistant chief of enforcement, and Rayford Walker of the Alcoholic Beverage Commission discuss the duties and responsibilities of their agency.

Young Men Needed for Training in Highway Patrol

In an all-out effort to stem the rising toll of traffic accidents in Texas, the Department of Public Safety is increasing the ranks of its uniformed forces.

One hundred and twenty men between the ages of 20 and 35 are needed to start training for the position of patrolman on May 5, 1970.

All interested young men should contact any DPS office or patrolman for an application.

Half the babies born in developing countries die before age 4 or 5, mainly due to malnutrition. To help children grow into healthy, self-supporting adults, CARE provides food plus medical attention and aid to education.

An American dentist and his Honduran counterpart-in-training saw 143 patients and did 659 extractions during a 9-hour visit to an isolated village in Honduras. The dentist is on a hospital team stationed in the town of Santa Rosa by MEDICO, a service of CARE.

One Payment for Two Taxes Can Lead to Erroneous Bills

Anyone planning to pay two federal taxes at the same time should use separate checks or money orders to avoid possible billing errors, Ellis Campbell, Jr., district director of Internal Revenue for North Texas, said this week.
Under the IRS system, which has a different processing cycle for each type of return, the entire payment could be credited to one tax and a bill issued for the other.
Mr. Campbell said, "If one check or money order covers a 1970 estimated tax payment and a 1969 tax balance due, for example, when the returns are separated for processing, the entire payment might be credited to one tax, leaving the other tax unpaid." In such a situation, one tax would be overpaid and a refund issued, while on the other tax a bill would be sent, Mr. Campbell explained.

Ensembles

In the ensemble division, receiving a Division II rating was a woodwind quintet composed of Kristi McLain, oboe; Ruth Brown, flute; David Stapp, french horn; Julie Streit, bassoon; Debbie Scott, clarinet.
Receiving a Division II rating was a brass quartet composed of Anthony Powers, Trey Autry, Carolyn Jones and Beth Welch.
A saxophone quartet composed of Michelle Gafford, Sharla Haynie, Darla Bell and Shayne Garrett, received a Division III rating.
The average contribution to CARE last year was \$10.25. Largest was a \$61,617 legacy.
