Local Chevrolet Dealer Wins Contest

Richard Goodwin Chevrolet in Crowell has been declared a winner in a Chevrolet-sponsored sales contest during the months of January and February, and, as a result, Mr. and Mrs. Glen Goodwin are leaving Saturday, April 11, on a nine-day all-expense-paid trip to Europe.

The local dealer is one of 500 winners among the over 6,000 Chevrolet dealers across the country entered in the contest. There are 14 winners in the Dallas zone. The local dealer sold 200 per cent of the goal set by Chevrolet for sales by its dealers during the first two months of the year.

Mr. and Mrs. Goodwin will board a chartered airliner in Dallas, along with other winners, and will fly to London, England, which will be their "home away from home" while they are in Europe.

In addition to visits to the major points of interest in London, the group will be flown on daily trips to the Continent, where they will be visiting in Paris (with lunch in the Eiffel Tower), Geneva, Switzerland, and Amsterdam, Holland.

This will be Mr. Goodwin's second trip to Europe. The first he "won" by being selected by "his friends and neighbors" to serve during World War II. He is anticipating better accommodations on this trip than he received on his initial visit to Europe.

Impala '400' Sale.

You save when you buy it. You save when you drive it.

When you buy any Impala V8 model during our "400" Sale, here's how you can get two popular extras at no extra charge.
 You order your Impala equipped with a Turbo Hydra-matic transmission, radio, Comfortilt steering wheel, front and rear bumper guards and white stripe tires. Items you'd probably order anyway.
 Then we add our big 400-cubic-inch V8 at 265 hp that runs on regular gas, along with dual exhausts—both at no charge. (The manufacturer's suggested retail price including Federal excise tax for the regular fuel 400 V8 and dual exhausts is \$93.75.)
 But that's only the beginning. Because your Chevrolet dealer is really anxious

to deal these days.
 And the Impala you're buying, of course, got to be America's No. 1 car, because of all the value features built right in. Features like flush-and-dry rocker panels that fight rust. Inner fenders to protect the outer fenders. Long lasting bias belted ply tires, steel guard beams in every door for added protection, an acrylic lacquer finish over its solid Body by Fisher.
 All of which contributes to Impala's traditionally high resale value, too.
 You're getting America's No. 1 car on sale. The car more people buy—year after year after year.
 How can you beat that?

Austin, Tex.—"Things are going to get worse, unless we plan and fight a war against drug abuse in Texas," Gov. Preston Smith told the Conference on Public Health and Drugs.

Noting that in the past 10 years "arrests of teenagers for drug abuse increased 800 per cent," Smith urged the conference to come up with new means of controlling and preventing drug problems, as well as reviewing what is being done.

"We need to examine penalties," he said. "The drug offender who is caught is often very young. He may have been pressured into experimentation with drugs."

"Yet, within the legal machinery, his punishment can be as severe as that of a dope pusher, or seller."

"Is this fair? Or is it out of proportion with the crime?" Smith asked.

Earlier, Lt. Gov. Ben Barnes—accompanied by newsmen, law officers and government officials—toured drug treatment and mental health facilities over the state.

On the trip, Barnes proposed a state drug center near a medical school for treatment, rehabilitation and research.

Later, Barnes joined Atty. Gen. Crawford Martin at the meeting of the Crime and Narcotics Advisory Committee with the Texas Education Agency to hear what plans the agency has developed for teaching a course on the dangers of drugs and crime, as required by the last Legislature.

Speaking to the meeting, Martin expressed concern over the increasing use of heroin, which, he said, is becoming a major problem.

Involving young people in the program will be necessary if it is successful, the Attorney General said, because "no program of narcotics control can ever be effective unless the young people themselves want it to be effective."

REGISTRATION — A record total of 4,150,645 Texans are qualified to vote during the primary and general elections this year. Secretary of State Martin Dies Jr. reported that count as the State Chief Election officer.

Statewide total is almost 80,000 more than in the 1968 presidential year.

Metropolitan area county registrations rose dramatically from 1969. Harris County (Houston) alone accounted for 650,612 of the votes, Dallas 466,925 and Bexar (San Antonio) 260,225.

Dies said he is confident new procedures for registration and various drives by groups produced the record sign-up, which he had predicted, even though 1970 is a non-presidential year.

Corpus Christi; Del Valle; Edinburg; El Paso; Galveston; Kingsville; Orange Grove and Port Isabel.

Children three to 18 with limited English-speaking ability will be benefitted. Seventy-six other districts now operate under bilingual program funding.

\$1 MILLION PARK ACCEPTED—State officially took deed to the 4,800-acre scenic Wheatley Ranch for a state park, after Governor Smith handed a \$930,465 check to Mrs. C. A. Wheatley of San Antonio.

The major park development, with anticipated federal aid, is in the planning stage. Reporters could not help pointing out that the state could have had the entire Wheatley property — with wild game, river frontage, waterfalls, fish and stands of trees—absolutely free eight years ago.

Deal fell through when the legislature failed to provide the requested \$250,000 for development.

Meanwhile, the Governor has requested federal study of possible release of the Matagorda Island military installation in Calhoun County for recreational purposes.

COURTS SPEAK — Supreme Court set an April 29 hearing on the question of whether a businessman can collect damages for libel if a credit rating agency puts out an incorrect report that he has filed for bankruptcy.

A Midland businessman brought suit against Dun & Bradstreet which corrected its error.

High Court heard arguments on the question of whether the residence of the district superintendent on the Methodist Church conference is tax exempt. Also booked for hearing is the tax-exempt status of officially-declared historical sites.

Court of Criminal Appeals upheld the life sentence for robbery by assault given a Lubbock man, despite expert testimony he was mentally retarded.

Uncontroverted testimony of one who may have been an accomplice cannot be used alone to sustain a conviction for possession of marijuana, Court of Criminal Appeals held.

Lawsuits have been filed in federal court in El Paso to force district courts, courts of civil appeals and justice of the peace courts redistricting in line with the one-man, one-vote ruling of the U. S. Supreme Court.

Many Texas public schools, faced with teacher shortages and crowded classrooms, have been using "teacher aides" to lighten the load.

While these classroom assistants are not certified nor trained to teach, they can operate machines and equipment, assist in libraries, check papers and keep order while teachers work individually with students.

monthly salary of \$300 and shall receive such salary for 10 months." This will mean about one teacher aide for every 500 students in the schools.

Jewell Harris, Abilene classroom teacher who last month became president of the 127,500-member Texas State Teachers Association, feels that adding teacher aides in the Texas schools will bring immediate and dramatic improvement in their instructional programs.

In addition to aides in the schools, Texas teachers will continue to look for help from another army of other teacher aides—the parents of some 2.6 million youngsters in Texas schools. They have always been an important ally of the teachers, and a major factor in how much their children benefit from school.

For parents who want to know, specifically, what they can do to help their children learn, a St. Louis school district developed a "Parents Pledge of Cooperation." It goes like this:

"I pledge that I will do my level best to help my child put forth his best effort to study and achieve in school.

"I will make sure my child attends school every day on time and is sufficiently rested to be able to do a good job.

"I will provide my child with a dictionary, and as far as I am able, a quiet well-lighted place to study.

"I will insist that my child spend some time studying at home each day.

"I will visit my child's teacher at least once during each semester.

"I will discuss my child's report card with him. I will compare my child's grade level with his level of achievement.

"I will join the PTA and attend meetings as often as I can.

Santa Rosa Roundup Will Be Held in Vernon April 29-May 2

The Santa Rosa Roundup will celebrate its silver anniversary April 29-May 2. Twenty-five years ago, internationally famous pioneer rancher, Paul Waggoner of Vernon, conceived the Santa Rosa Roundup as a regional celebration of the highest quality. Although the event is no longer sponsored by the Waggoner ranch, the tradition of quality is being perpetuated by a newly organized group of area business men and ranchers. The Santa Rosa Roundup Rodeo Association, Inc., comprised of ten board members was incorporated as a non-profit organization dedicated to maintain the high standards of the Santa Rosa Roundup rodeo for the continued enjoyment of families in this area.

The silver anniversary edition of the roundup promises to be the best ever, the promoters state with a line up of star attractions and talent. Headlining the affair will be Michael Landon, better known as Little Joe Cartright of the record-setting "Bonanza" television series. Accompanying Little Joe during his area appearances will be Hollywood recording artists, "The Frontiersmen and Joannie."

Providing the rodeo livestock will be the Beutler Bros., Vold and Cervi, of Elk City, Okla.

Over 250 of the nation's best cowboys will attend the four-performance event. Other attractions will include the Warvell family of Weatherford, Texas, with a spectacular roman riding exhibition, rodeo clowns Buck LeGrande and Wiley McCray, announcer Cy Taillon, and a special presentation by the Santa Rosa Polomino Club.

A giant rodeo parade will start the festivities Wednesday, April 29, starting at 3 p. m. Rodeo performances are slated for 8 p. m., Wednesday-Saturday, April 29-May 2. Tickets are available at 1818 Wilbarger Street, Vernon.

Mr. and Mrs. Dewey Harris and son, Steven Wayne, of Andrews visited over the Easter holidays with her mother, Mrs. Recie Womack, and other relatives.

CARD OF THANKS

With the primary election only 30 days away, we people in a small rural city and thinly-populated county should be both grateful and thankful that we have for sure that we have a great and wonderful man in both the Congress and Senate who are, and have been, representing us country folks just the same as they have the larger cities and heavily-populated counties.

Both Graham Purcell and Senator Ralph Yarborough have done a wonderful job. We feel that we should take this opportunity to express our sincere thanks and deep appreciation to these two great statesmen for their loyalty to rural communities.

We feel that each qualified voter should go to the polls on election day—whether rain or shine—and do all we can to re-elect these two great and loyal statesmen to their respective places, so that we folks—few in number—can be sure that we will continue to have a man in both the House and Senate that will be working out and be working for us just the same as they would were a large city or heavily-populated county.

Card of thanks is bought and paid for by several citizens who are both grateful and thankful to the two great and wonderful statesmen. . . Bill Bell, Chairman)

Miss Lanette Lemons Honored with Bridal Shower March 21

Miss Lanette Lemons, bride-elect of Dennis Whitley of Edna, was honored with a lovely miscellaneous shower in the home of Mrs. Walter Ramsey on Saturday, March 21.

Mrs. Ramsey greeted the guests and presented them to the bride-elect; her mother, Mrs. W. W. Lemons; Mrs. Henry Whitley, mother of the prospective groom; and two grandmothers of the bride-elect, Mrs. Mary Moore and Mrs. Eula Crummey.

Miss Lemons was attired in navy blue and white, and wore a corsage of pink split carnations, a gift of the hostesses.

The table was gaily decorated with a Spanish motif, featuring a white Spanish linen and lace cloth. One end of the table held a wrought-iron bird cage, filled with pink carnations and greenery entwined, with two pink lovebirds adorning the top. Completing the setting was a cut-glass punch service, nestled in a wrought-iron basket, with pink carnations and greenery interspersed.

Other decorations included a three-tiered imported wrought-iron basket, filled with artificial grass, holding colored Easter eggs. A miniature tree, standing in the top tier, with colorful hand-decorated eggs hanging from the branches, provided a topic of conversation for the numerous guests who were registered by Miss Virginia Stapp.

Soft music provided by Mrs. Walter Stapp at the piano continued as guests were served dainty pink and white cookies, and ice green punch, by Mrs. Ed Marsh of Waco and Miss Jon Ann Carter of Crowell.

White napkins with pink lettering were inscribed "Lanette-Dennis."

Future Homemakers of America

BETTER LIVING FOR FAMILY AND COMMUNITY

This Is National F. H. A. Week

National FHA Week, April 5-11, will be observed by 12,000 local chapters of Future Homemakers of America across the country. Theme for the week is "25 Years of Sterling Opportunity" in recognition of the FHA's 25th anniversary.

Focusing on the positive contribution of youth to society, this year's objective, "To Promote Communication for the Enrichment of Human Relationships" will come alive through projects and activities of FHA members in the United States, Puerto Rico,

the Virgin Islands and some American schools overseas.

National president, Luck Hendrix, a high school senior from Metter, Georgia, explains that National FHA Week provides members everywhere the opportunity to demonstrate that youth does care about improving life both now and in the future. "We know that the future is youth's challenge and that we must prepare for it diligently and creatively." She also feels that "through meaningful communication we can promote understanding and strengthen our relationships with all peoples."

Future Homemakers of America was founded in 1945 and during its existence of 25 years, its programs have served some fifteen million students by broad-

ening the home education programs and opportunities for individual, family and community.

In conjunction with the national objectives, set for the 1970s, the Texas Association of Future Homemakers of America will hold its annual convention April 24, 25, and 26, at the Crowell Hotel.

More than 5,000 advisors representing 1,000 chapters in 25 states are expected to attend the convention. The Texas Association of Future Homemakers of America is sponsored by the Division of Vocational Education, State Department of Education, and Mrs. Betty Smith, advisor.

Tax Man Sam Sez

Calling Internal Revenue Service for just a little help on those last minute tax problems is giving Ma Bell quite a little extra business nowadays. Between January 1 and April 15 each year, the Dallas District of Internal Revenue Service has more than 400,000 telephone calls from taxpayers who want an answer to a tax question. Not long ago the IRS officer responsible for the telephone system in the Dallas district office had a suggestion from a taxpayer who had called the Dallas telephone number quite a few times and got a busy signal. This taxpayer suggested that he had paid enough taxes to enable IRS to afford to put in an extra telephone so he could get an answer to a tax question. The tax man explained that before January 1 each year that he put in not one but twenty telephone lines and that twenty skilled employees were assigned to answer tax questions whenever this many were required—but on some Mondays and Fridays, twenty people weren't enough because more people would call than lines and people could be provided. The IRS officials advise that if you have a tax question, you call now—don't wait until April 15. If you get a busy signal, try again. It is just possible that some of the 400,000 other people are calling at the same time. If you will be patient, the good tax folks hope that you will get a friendly, cheerful answer to your tax question, even if your call is number 399,999.

Area Agronomist Named by State Extension Service

Dale A. Lovelace on March 23 was named area agronomist for the Texas Agricultural Extension Service with headquarters at the district office in Vernon.

In making the announcement, Extension Director John E. Hutchison said this is a new position and puts a highly qualified and trained agronomist in this area where real progress is being made with agronomic crops. The Hamilton County native will plan and work closely with the county agricultural agents and their committees on educational programs dealing with crops important to the area.

He will also be responsible for providing the training needed to keep them up to date on subject matter and will assist the agents with result demonstrations and will work with other specialists in the area on short courses and other teaching and training aids, the director said.

Hutchison said Lovelace will work closely with research personnel in the area and give assistance to the Rolling Plains Economic Program (RPEP) and the updating of production guidelines and the "3.76 in '76" program.

Lovelace grew up on a farm near Evant; is a graduate of the local high school and was a successful FFA member. He holds B. S. and M. S. degrees from Texas A&M University and has completed all required work for a PhD degree which he will receive in May. He was a distinguished student at A&M, and is a member of Gamma Sigma Delta, honorary scholastic society.

He served in the U. S. Army from 1957-59. In 1962, he was named assistant county agricultural agent in Wood County and resigned in 1965 to return to A&M to do graduate work under a Texas Food Educational Society scholarship. In 1968 he was named an assistant in agronomy.

The new agronomist is married and the Lovelaces have a son and a daughter. They are members of the Baptist Church.

Farmers Can Pay Social Security Even If They Had a Loss

Farmers and ranchers are the only self-employed people allowed to pay self-employment tax for a year if they actually had a loss or less than \$400 profit that year, according to Jack Ashcraft, social security representative for this area.

They can do this by using the optional method of reporting their farm or ranch income when they file their income tax returns. The tax returns must be filed by April 15.

The optional method permits reporting two-thirds of the farmer's gross profit if the actual net profit is less than \$1600. When actual net earnings exceed \$1600, then actual net must be reported.

Parts II and III of the Schedule SE of the 1969 income tax return provide a place to report using the optional method. "This is extremely advantageous for the farmer and rancher," Ashcraft continued, "because it allows him to maintain a higher level of social security credit, on which his social security benefits will be based when he qualifies for them."

In addition, he pays income tax only on his actual profit, if any, for the year, not two-thirds of his gross farm profit.

For detailed explanation of the optional method of reporting, he urged farmers and ranchers in the Crowell area to call or visit their nearest social security or internal revenue office or to see their social security representative when he is in Crowell.
